

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Fuel efficiency has significantly decreased
Inquiry Sub-Category	Engine misfire
Description	Customers may inquire about the connection between an engine misfire and reduced fuel efficiency, seeking information on how to diagnose and resolve this issue to improve their vehicle's gas mileage.
Data Size	5,158 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

_____ lower _____ could _____ due _____ issues related to cylinder firing _____?

Can _____ look at _____ problems as _____ cause for _____?

_____ cylinder firing pattern _____ affect fuel _____ my _____?

_____ it possible that cylinder _____ patterns _____ to _____ for the _____?

cylinder _____ issues can affect _____.

Is _____ mpg _____ because of _____?

Is _____ my car can _____ on a _____ of _____ to poor cylinder firing?

_____ car is _____ poor mileage because _____ fire _____ in the cylinders?

Is _____ lousy because _____ cylinder _____?

_____ fuel economy _____ cylinder firing patterns.

_____ cylinder _____ issues _____ causing reduced _____?

I _____ concerned _____ in fuel efficiency _____ be _____ cylinder _____ patterns.

Could _____ the _____ cylinders fire _____ worse gasoline _____?

Is _____ efficiency tied to _____?

Is _____ possible _____ petrol consumption _____ down _____ malfunctioning cylinders?

_____ is _____ terrible mileage because _____ fire problems _____ the cylinders.

Maybe my _____ is guzzling _____ because _____ the _____?

Is _____ that _____ misfires would _____ the _____ fuel _____ is using?

_____ gas mileage _____ reduced by abnormal _____ patterns?

_____ my gas mileage going _____ of _____?

Is _____ lower fuel _____ by _____?

_____ a decrease in fuel _____ it be related _____ firing _____?

_____ it _____ for _____ to _____ the _____ of _____ car is using?

_____ it possible _____ way _____ may result in worse _____?

Is _____ mileage dropping _____ issue?

_____ fuel economy may be _____ result _____ cylinder _____ patterns.

Is _____ to _____ fuel economy?

Problems with cylinder _____ reduced _____?

Is cylinder ____ a ____ to ____ gas mileage for ____ like ____?

Should ____ problems as a ____ cause ____ fuel economy?

Is ____ that cylinder firing patterns can be ____ economy?

____ there ____ a relationship ____ poor cylinder ____ decrease ____ my ____ can go on a tank ____ gas?

____ having ____ fuel ____ could it ____ because of ____ firing ____?

Could ____ firing ____ to lower fuel mileage?

Does the ____ efficiency come from ____ problem ____ the ____?

It's possible that ____ getting ____ gas mileage ____.

Is ____ a correlation ____ poor ____ firing and ____ decrease in the ____ my ____ tank of ____?

Is ____ a relationship between ____ cylinder ____ and ____ decrease ____ how far ____ on ____ of gas?

____ my ____ dropping ____ inconsistent ____ firings?

____ lower fuel economy, could ____ to cylinder firing ____?

Is ____ fuel economy ____ cylinder ____?

____ with cylinder ____ are affecting my ____.

cylinder ____ causing my fuel efficiency to ____.

I'm ____ because of ____ with ____ the cylinders ____ firing?

____ with ____ firing ____ make my car less ____.

____ messed-up cylinders be ____ for ____ poor ____ mileage?

____ to know if ____ MPG ____ of messed-up cylinders.

____ the ____ in my ____ related to ____ firings?

____ cylinder problems for a ____ low fuel economy?

____ car's gas ____ decreasing ____ abnormal ____ firing patterns?

____ it possible my car ____ not ____ good ____ because ____ problems ____ cylinders?

____ economy from irregular ____?

Can ____ mileage ____ to incorrect cylinder ____ patterns?

Is ____ efficiency due ____ patterns?

The ____ economy may ____ the ____ issues relating to cylinder ____.

The ____ in ____ be ____ to cylinder ____ patterns.

____ it ____ that ____ car is ____ mileage ____ fire problems in ____ cylinders?

____ my ____ per ____ changing ____ of inconsistent ____ firings?

____ wonder if my ____ dropping ____ of ____ issues?

____ I ____ a ____ fuel efficiency ____ cylinder ____ patterns?

Is ____ MPG ____ caused ____ problems with ____ ignite?

____ it possible ____ cylinder ____ change the amount ____ is consuming?

Is it ____ cylinder ____ to cause my ____ to ____?

A decrease ____ far ____ car ____ go ____ tank of ____ may be related ____ cylinder ____.

____ I look ____ cylinder-related ____ a possible cause ____ low ____?

Could ____ fuel mileage be ____ to cylinder ____?

____ in ____ per gallon ____ result of ____ firings?

Is ____ gallon ____ result of cylinder firings?

____ gas mileage ____ to issues ____ cylinders are firing.

____ to ____ the ____ of decreased ____ mileage in my vehicle?

____ for ____ misfires ____ the amount of ____ I use in my ____?

____ the decline in ____ efficiency ____ to cylinder ____ patterns.

Is it plausible ____ firing ____ to blame ____ lower ____ economy?

Is it possible ____ car is ____ terrible mileage ____ to ____ glitch ____?

Is it possible ____ the ____ sequence ____ my ____ mileage?

____ gas ____ falling ____ of inconsistent ____ firings?

Is ____ possible that cylinder firing ____ a lower ____ car?

Is there a possibility ____ cylinder-related problems ____?

_____ experiencing a lower fuel economy, which _____ due _____ .
 _____ gas mileage because _____ issues with cylinders.
 Is my _____ gas _____ down because _____ patterns?
 _____ the drop in gas _____ due _____ ?
 Does _____ cylinder firing affect my _____ fuel _____ ?
 _____ it _____ that _____ cylinders _____ could result _____ worse gasoline mileage?
 I wonder _____ the decrease in _____ efficiency is _____ ?
 _____ it _____ with firing _____ gas consumption?
 Does _____ cylinder _____ affect _____ economy?
 _____ it possible _____ is _____ getting _____ mileage because of _____ in _____ cylinders?
 Is it possible _____ getting _____ gas _____ because _____ with the _____ ?
 _____ my car is _____ terrible _____ of the _____ problems in the _____ .
 Could _____ fuel _____ be _____ cylinder _____ patterns?
 I'm _____ lower fuel economy _____ that _____ to _____ firing _____ ?
 _____ wonder _____ my poor _____ is caused _____ messed _____ .
 Is _____ that cylinder _____ to decreased gas _____ my _____ ?
 _____ possible _____ affect the amount of _____ car is consuming?
 Is _____ my car _____ because _____ issues in the cylinders?
 _____ poor _____ firing affects _____ economy?
 _____ economy, _____ to cylinder _____ ?
 Could incorrect _____ firing patterns be _____ lower _____ ?
 I am _____ issues regarding cylinder _____ patterns _____ my _____ fuel _____ .
 _____ trouble that is _____ efficiency?
 I'm experiencing a _____ fuel _____ of _____ patterns.
 Is _____ efficiency _____ due to _____ ?
 Can the _____ to _____ for my poor _____ ?
 Cylinder _____ causing _____ fuel economy.
 _____ I look at _____ as a _____ fuel economy?
 Is _____ pattern _____ firing affecting my _____ efficiency?
 I'm curious if the _____ to _____ with _____ firing patterns.
 _____ misfiring _____ factor that contributes to _____ my vehicle?
 Is _____ decreasing _____ per _____ to _____ firings?
 I am _____ the decrease _____ efficiency _____ related _____ the _____ with cylinder _____ .
 Could cylinder _____ being _____ to _____ decreased _____ economy?
 I'm getting _____ of _____ the _____ are firing
 _____ that malfunctioning cylinders _____ affecting my petrol _____ .
 _____ possible I _____ using _____ petrol _____ of malfunctioning _____ ?
 _____ low MPG ratings caused _____ problems with _____ ?
 I am _____ fuel _____ could it _____ to _____ firing _____ ?
 _____ a _____ fuel _____ due to cylinder firing _____ .
 Issues with cylinder _____ be contributing to _____ decreased _____ .
 _____ gas mileage due _____ the cylinder firing _____ .
 _____ a _____ between poor _____ decrease _____ how far my _____ go on a tank of _____ ?
 I am _____ economy _____ due to cylinder firing patterns.
 _____ concerned _____ decrease _____ fuel _____ could be related _____ cylinder firing _____ .
 _____ cylinder firing may affect _____ fuel _____ .
 _____ my car is getting _____ of the _____ in the cylinders?
 Issues with _____ firing patterns _____ be _____ experiencing _____ lower fuel _____ .
 I wonder if _____ firing patterns can _____ efficiency _____ my _____ .
 Is _____ being affected because of _____ firing _____ ?

Is _____ connection between _____ firing and a decrease in _____ far _____ car _____ gas?

Maybe _____ is _____ because of _____?

Does it appear _____ cylinder _____ are to _____ the lower _____?

Is _____ that cylinder _____ are _____ lower fuel economy?

Is _____ possible for _____ affect _____ amount _____ fuel _____ car is _____?

Is the cylinder firing _____ causing _____ overall gas _____?

_____ reduced _____ efficiency a consequence _____ firing _____?

Is _____ miles _____ because of _____ cylinder firings?

_____ my declining _____ gallon _____ caused by cylinder firings?

_____ lower fuel _____ a _____ incorrect _____ firing patterns?

Is _____ possible _____ issues _____ cylinder firing patterns _____ to _____ fuel economy.

Is _____ gas mileage going _____ due _____ firings?

_____ it _____ that _____ to _____ patterns might _____ to blame for _____ lower fuel _____?

_____ lower _____ efficiency because of cylinder _____?

Is my mileage _____ cylinder _____?

_____ car's fuel _____ could _____ by cylinder firing _____.

_____ the _____ efficiency come from a cylinder _____?

I'd like _____ if _____ decrease in _____ is _____ to _____ firing _____.

_____ the _____ firing _____ been effecting my _____ mileage _____?

_____ patterns could _____ to blame _____ the lower fuel _____.

_____ fuel _____ due to issues _____ firing patterns?

_____ my _____ efficiency is _____ of _____ firing issues.

Is my _____ caused _____ inconsistent cylinder firings?

_____ getting reduced _____ mileage due _____ the _____ are firing.

_____ possible that _____ misfires can _____ the amount of _____ my _____?

The _____ patterns could be _____ lower _____ economy _____ experiencing.

_____ firing affecting my _____?

Should I look at _____ a _____ for _____ fuel _____?

Is _____ car _____ terrible mileage due _____ problems in the _____?

Is the _____ of cylinder _____ affecting _____ fuel _____?

_____ my low _____ cylinder firing patterns?

_____ I look _____ cylinder-related issues _____ potential cause _____ low _____?

Is _____ possible _____ cylinder misfires _____ cause _____ to _____ fuel?

_____ getting _____ gas _____ due to the _____.

_____ cylinder firing _____ cause _____ fuel efficiency in my _____?

Is the _____ my _____ mileage negatively?

Is there _____ correlation _____ cylinder firing and _____ decrease _____ how far my car _____ of _____?

Is _____ poor cylinder firing and a decrease _____ how far my car can _____ tank _____?

_____ cylinder firing patterns _____ efficient?

Is my _____ mileage because _____ glitch in _____ cylinders?

Is _____ bad mileage because _____ fire problems in the _____?

_____ that I'm getting _____ mileage because of issues _____ my _____?

_____ is related to cylinder firing patterns?

It _____ be Firing issues _____ are _____ MPG.

Can _____ patterns cause _____ to _____ efficient engines?

I _____ decrease in _____ efficiency was linked to _____ firing _____.

_____ firing patterns _____ efficiency in my car?

_____ I'm getting _____ gas mileage because of _____ issues _____ cylinders?

_____ that my car _____ bad mileage because of _____ fire _____ in _____?

Can issues with _____ firing _____ car's fuel _____?

Could cylinder related _____ be a _____ of _____?
 _____ my _____ because _____ cylinder issues?
 _____ am _____ lower _____ economy which may be _____ result of _____.
 _____ I _____ into _____ issues as _____ cause of _____ economy?
 Is it possible _____ to affect the amount _____ my _____?
 _____ cylinder misfires _____ the amount of fuel _____ car _____ negative _____?
 Is _____ possible _____ firing patterns are _____ for _____ economy.
 Is it possible that _____ way _____ in _____ gas _____?
 cylinder _____ could be _____ less.
 _____ with _____ firing _____ be causing _____.
 There _____ cylinder firing _____ that _____ be _____ my _____ economy.
 Is lower _____ to irregular _____?
 Is _____ of cylinder firing _____ the _____ efficiency of _____?
 _____ misfires can affect the _____ car is using?
 Could _____ decrease _____ fuel _____ linked _____ cylinder firing _____?
 _____ issues _____ causing fuel efficiency _____.
 _____ if my poor _____ is _____ to messed-up _____.
 _____ it possible _____ lower fuel mileage _____ incorrect _____ patterns?
 _____ lower _____ economy, could it _____ to _____ firing _____ issues?
 I _____ if issues _____ cylinder _____ are _____ to my _____ economy.
 Is it _____ car is getting bad mileage _____ of _____ cylinders?
 The decrease in fuel efficiency I'm _____ could _____.
 _____ a _____ which may be _____ to cylinder firing _____
 _____ efficiency reduced _____ cylinder firing issues?
 Is it possible _____ getting _____ of how the _____ are _____?
 _____ getting reduced gas _____ to _____ with the _____
 Is there an _____ with fuel economy _____?
 Are _____ related to _____ firing?
 _____ lower _____ caused _____ cylinder firing patterns in _____?
 The cylinder firing _____ could _____ the _____ I'm having.
 _____ possible _____ gas mileage because of issues _____ the cylinders?
 Problems _____ cylinder firing _____ fuel _____.
 _____ seeing _____ economy _____ of cylinder firing patterns.
 Is _____ a result _____ troubles?
 _____ it _____ cylinder problems are _____ cause _____ low _____ economy?
 _____ mileage has _____ affected _____ the cylinder firing sequence.
 Can cylinder _____ a decrease in fuel _____ my _____?
 _____ wondering _____ the decrease in fuel efficiency _____ linked _____ with cylinder _____.
 Is it possible _____ malfunctioning cylinders _____ my _____?
 I'm experiencing _____ fuel economy; _____ it _____ related _____ cylinder _____?
 I am experiencing _____ lower fuel _____ due _____ cylinder _____ patterns?
 Lower _____ could _____ with incorrect _____ firing patterns.
 _____ firing _____ may be behind _____ in fuel efficiency.
 Is my miles per _____ of _____ cylinder _____?
 Did _____ of cylinder _____ affect _____ car's _____ efficiency?
 Problems with _____ patterns can _____ efficiency in _____.
 _____ efficiency _____ suffering _____ firing issues.
 _____ my mileage _____ of _____ issue?
 _____ MPG the result _____ messed-up _____?
 Should I _____ problems for _____ cause for _____ economy?

Is _____ connection between _____ and _____ in _____ my _____ can go on a tank of _____?

Is my _____ efficiency _____ cylinder _____?

Could the lower _____ economy _____ to _____ firing _____?

The cylinder _____ may be _____ my _____ negatively.

Is the _____ my car fuel _____?

Is the abnormal _____ patterns reducing _____ car's _____?

I'm _____ fuel _____ and _____ be due _____ cylinder firing patterns.

_____ that issues linked to _____ patterns are to _____ lower _____ economy?

I _____ my _____ is related to messed-up _____.

Is _____ possible _____ my _____ is _____ messed-up cylinders?

Is it _____ cylinders _____ may _____ reduced _____ economy?

Problems with cylinder firing _____ be a _____ efficiency.

_____ lower fuel _____ which _____ be a result _____ firing patterns.

Maybe _____ Firing issues _____ causing my _____ MPG.

_____ there a _____ cylinder _____ that leads _____ fuel economy?

_____ it _____ that _____ pertaining to cylinder _____ are _____ for _____ lower fuel _____?

Reduced mileage _____ due _____ issues.

_____ that cylinder _____ patterns _____ to _____ for the decreased fuel _____?

_____ my _____ gas _____ to messed-up cylinders?

_____ issues _____ causing my lousy _____?

Is _____ firing _____ to blame for the _____?

Can there be a _____ between _____ cylinder _____ a decrease in _____ far my _____ travel _____ a _____?

_____ it _____ that crummy _____ from messed-up ignition _____?

_____ lower _____ economy _____ it may _____ due to cylinder _____.

I'm getting less _____ mileage because _____ cylinders _____.

_____ issues could be causing _____.

The lower fuel _____ experiencing _____ be _____ of cylinder _____ patterns.

_____ mileage could be related to incorrect _____.

Problems with _____ cylinders: _____ car's _____ tankin'?

The _____ economy _____ experiencing can be _____ to the _____.

_____ lower _____ that I _____ be due _____ the cylinder firing _____.

I wonder if cylinder _____ are contributing to _____.

_____ affected _____ cylinder firing issues.

_____ misfiring _____ contributing _____ decreased _____ mileage for my car?

_____ my poor _____ is due _____ messed-up cylinders?

_____ may be causing _____ MPG.

Reduced _____ may be a _____ cylinder firing _____.

Is it possible _____ fire _____ for the _____?

_____ cylinder firing _____ my gas mileage _____?

_____ a _____ issue causing _____ mileage?

It would _____ possible _____ misfires to _____ the amount _____ my _____ is _____.

Did poor _____ firing _____ economy?

_____ chance _____ car _____ getting terrible mileage because _____ glitch in the _____?

Is _____ of cylinder firing affecting _____ car's _____?

_____ my car's _____ reduced by _____ abnormal cylinder _____?

Is cylinder _____ related _____ reduced _____?

_____ for _____ errors to affect _____ amount of fuel _____ uses?

Is the pattern _____ cylinder _____ car's _____ efficiency?

_____ fuel _____ related to cylinder _____?

_____ there a _____ that cylinder misfires _____ affect _____ of _____ car _____ using?

Can ____ cylinder firing ____ my ____ ?

____ poor mileage ____ messed up cylinders?

I'm ____ if ____ cylinder firing ____ contributing ____ my decreased fuel ____.

Is ____ car's gas ____ reduced ____ irregular ____ patterns?

____ may be causing ____ mileage

I'm ____ gas ____ because of ____ firing differently.

I'm questioning ____ decrease ____ fuel ____ is linked ____ patterns.

____ possible that cylinder firing patterns ____ efficiency?

____ fuel efficiency ____ to ____ pattern problems?

Cylinder ____ to ____ for the lower fuel ____.

I want to ____ if ____ MPG is ____ to ____.

Problems ____ firing patterns could be affecting ____.

Can a decrease ____ far ____ go ____ gas be linked to poor cylinder ____?

I ____ issues ____ cylinder ____ are affecting my fuel ____.

____ cylinder ____ affect the amount ____ fuel ____ car ____ leading ____ lowered ____?

Is the ____ fuel ____ cylinder ____ patterns?

____ be causing reduced mileage.

____ to know if ____ in ____ my car can ____ on ____ tank of ____ connected ____ poor cylinder ____.

____ lower fuel economy, ____ be related ____ firing patterns?

____ the ____ my car's gas mileage?

____ cylinder firing ____ may ____ reason for ____ lower fuel ____.

Is the lower fuel ____ due to ____?

____ wondering ____ my fuel efficiency is ____ because ____ firing ____.

I'm wondering ____ the ____ efficiency ____ to issues with ____ patterns.

Maybe ____ way ____ fire will result ____ gas mileage?

____ the issue of cylinder firing ____ contributing ____ decreased ____?

Could ____ firing ____ my fuel economy decline?

Is it ____ that cylinder ____ will affect ____ fuel ____ using?

____ cylinder firing patterns ____ for decreased fuel efficiency.

I ____ if my poor ____ is caused ____.

____ a ____ between poor cylinder ____ a decrease in ____ can go on gas?

The ____ be ____ result ____ cylinder firing patterns issues.

____ firing affects my ____ economy?

____ firing issues ____ affecting ____ efficiency.

____ fuel efficiency I'm noticing ____ related ____ firing patterns.

____ firing ____ affecting ____ gas mileage?

I am ____ may be the ____ of cylinder firing ____.

Is ____ is dropping my mileage?

Problems with ____ might be to blame ____.

____ efficiency related ____ cylinder fire ____?

____ getting ____ gas ____ because of ____ cylinders ____ firing

____ miles ____ gallon decreasing ____ inconsistent firings?

____ it ____ that ____ getting ____ mileage because of issues ____?

Can cylinder ____ be ____ my ____ fuel economy?

I'm ____ gas ____ due to ____.

Reduced fuel ____ is ____ possibility ____ cylinder firing ____.

Is ____ firing ____ reason ____ the lower fuel ____?

____ there a ____ poor ____ and a decrease ____ how far ____ can travel on ____ gas?

____ there a chance my ____ getting terrible ____ of ____ the cylinders?

Lowered fuel ____ to cylinder ____?

Firing issues might be the _____ my _____.

_____ to _____ affecting my gas consumption?

_____ the decrease _____ fuel efficiency be _____ to _____ with _____ firing _____?

_____ related _____ cylinder _____ patterns _____ to _____ for the _____ fuel economy?

_____ mileage _____ to issues with _____ the cylinders are _____

Is my car _____ bad mileage _____ to fire _____ _____?

_____ with cylinder _____ be reducing _____.

Is the _____ mpg _____ to _____?

I'm experiencing _____ economy, _____ could _____ to _____ firing patterns.

Is _____ that certain _____ are to _____ for the _____ economy?

Does poor performance related _____ cylinder misfiring contribute _____ decreased _____ _____?

_____ am concerned _____ the _____ fuel _____ related _____ cylinder firing patterns.

My car's gas _____ could _____ affected _____ cylinder _____.

_____ it possible _____ a _____ my _____ can go on _____ of gas is caused _____ poor _____ firing?

Can cylinder _____ pattern _____ my _____ less fuel?

_____ cylinder misfiring _____ factor in the _____ mileage for _____?

Is _____ low because of _____ cylinder firing _____?

Is _____ fuel _____ affected _____ cylinder _____ issues?

Is _____ decrease in _____ gallon due _____ cylinder _____?

Is _____ firing pattern effecting _____ fuel _____?

_____ to cylinder firing _____ may _____ causing _____ lower _____ for me.

_____ the way cylinders fire _____ cause of _____?

Is it possible _____ issues _____ cylinder firing _____ blame _____ fuel economy.

Problems _____ firing _____ are a _____ cause of _____ efficiency.

_____ patterns may _____ to blame for reduced fuel _____.

It _____ be possible _____ cylinder misfires _____ the _____ fuel my _____ using.

I'm getting reduced gas _____ of _____ issues _____

_____ possible that cylinder _____ patterns are _____ blame for _____ gas _____?

_____ reduced fuel _____ result _____ the cylinder _____ patterns?

Has _____ cylinder _____ been interfering _____ my gas _____?

_____ might _____ reason _____ my lousy MPG.

_____ could be _____ lower _____ economy due to _____.

_____ the _____ fuel efficiency be _____ to _____ patterns?

_____ with _____ patterns could be _____ my _____ economy.

_____ fuel economy, can it _____ to cylinder _____ patterns?

_____ issues might be _____ my _____.

_____ I explore cylinder-related problems _____ possible cause _____ fuel _____?

Could cylinder _____ reason _____ decreased fuel economy?

Is _____ miles _____ gallon due _____ inconsistent _____ firings?

_____ the cylinder firing pattern _____ contributing _____ fuel _____?

Problems with the _____ cylinders; _____ car's _____?

Is the decline _____ per _____ of cylinder _____?

It is possible _____ malfunctioning _____ my _____ usage.

_____ lower _____ economy _____ be _____ of issues relating _____ cylinder _____ patterns.

_____ it possible _____ may be to _____ for the lower fuel economy?

_____ having a lower fuel _____ of cylinder _____.

_____ could _____ behind _____ lower fuel economy I'm Experiencing.

Problems with cylinder _____ patterns _____ of reduced fuel _____.

_____ wondering _____ the _____ fuel efficiency _____ related _____ firing patterns?

_____ having _____ fuel _____ that _____ because of _____ firing patterns?

_____ in _____ per gallon due to _____ firings?
_____ my _____ fuel efficiency _____ something to do with _____?
Fuel _____ because _____ cylinder _____ issues.
I am experiencing lower fuel _____ because of _____?
Is _____ possible _____ way cylinders _____ results _____ worse _____?
_____ patterns being a _____ in my _____ economy?
_____ a reduction in my _____ cylinder firing patterns?
Could _____ that _____ getting _____ gas mileage _____ of _____ firing issues?
_____ with cylinder firing _____ behind the _____ fuel efficiency.
_____ know if my mileage _____ of cylinder _____.
_____ poor performance related _____ cylinder misfiring _____ for my vehicle?
I'm _____ abnormal _____ firing patterns are _____ my car's _____.
_____ possible _____ my car _____ mileage because of _____ the cylinders?
_____ decrease in _____ efficiency is linked _____ firing _____?
_____ firing patterns are to _____ for the lower fuel _____?
I'm _____ lower _____ and I'm wondering if _____ related to _____.
_____ it possible that firing _____ are affecting _____?
_____ cylinder _____ issues _____ my car's _____ efficiency.
_____ it possible _____ is getting terrible _____ of _____ in the _____?
_____ efficiency affected by _____ issues?
Is the _____ firing _____ causing my gas _____ to _____?
_____ lower fuel _____ due to _____ cylinder _____ patterns?
Should I _____ at _____ problems as a _____ cause _____?
_____ cylinder firing patterns _____ be _____ that _____ experiencing a lower _____ economy.
_____ poorly _____ my fuel economy?
_____ experiencing _____ lower fuel _____ related to cylinder _____ patterns.
_____ fuel economy suffer from _____?
_____ not sure if the _____ fuel efficiency _____ linked to problems _____.
_____ experiencing _____ fuel economy, _____ due to _____ firing patterns?
Is _____ issue with cylinder _____ affecting _____ fuel economy?
_____ issues could _____ making _____ mileage _____ down.
_____ there _____ problem with how cylinders _____ for _____?
Is _____ fuel _____ caused _____ patterns?
Is _____ car's _____ because of _____ cylinder firing _____?
_____ fuel _____ was related to _____?
_____ with _____ firing patterns _____ be to blame _____ efficiency.
Is it _____ that malfunctioning _____ affecting _____ petrol _____?
_____ lower fuel _____ I'm _____ associated _____ the cylinder _____ patterns.
Is _____ cylinder _____ my _____ fuel efficient?
Is _____ pattern of _____ affecting my _____ fuel _____?
_____ linked _____ incorrect cylinder firing?
The _____ fuel _____ I'm experiencing _____ be _____ to cylinder _____.
_____ cylinder _____ could be to _____ for _____ fuel efficiency.
There may be _____ correlation between _____ a decrease _____ how _____ car _____ go on _____ of gas.
_____ getting _____ gas _____ to _____ cylinder issues.
_____ decrease in _____ efficiency I'm noticing could _____ related _____.
_____ cylinder _____ affect my _____ economy?
I am _____ less _____ the issues _____ the cylinders.
Is _____ cylinders fire causing _____?
Can _____ be that cylinder _____ are to blame _____ the _____?

Could ____ with ____ patterns ____ affecting ____ fuel economy?
 Is ____ lower ____ efficiency ____ patterns?
 I'm experiencing ____ fuel economy, ____ because ____ cylinder ____.
 I'm experiencing ____ due ____ cylinder firing pattern ____.
 ____ cylinder ____ patterns ____ my decreased fuel economy.
 Is ____ cylinder firing related ____?
 ____ I investigate cylinder ____ as ____ cause ____ low ____?
 Can ____ be ____ of messed-up cylinders?
 ____ the ____ in miles ____ gallon the ____ of ____ firings?
 ____ it possible that ____ fuel efficiency ____ by ____ patterns?
 ____ patterns related to my ____ fuel ____.
 The ____ may be affecting my ____.
 Is it possible that ____ is getting ____ mileage ____ problems in ____?
 I ____ getting reduced gas ____ due to ____ with ____ cylinders ____.
 ____ problems ____ cylinder firing ____ mileage?
 Can ____ firing patterns ____ of my ____ efficiency?
 I ____ wondering ____ abnormal ____ patterns are ____ my gas ____.
 Is ____ my car's ____ mileage?
 ____ wonder ____ cylinder ____ patterns ____ factor in ____ fuel economy.
 ____ may be to blame ____ MPG.
 Is it ____ that issues with ____ firing ____ to ____ fuel ____?
 ____ cylinder firing ____ contributing ____ my ____ fuel economy?
 ____ firing pattern related to my ____ economy?
 Problems with ____ patterns can ____ efficiency.
 Is my ____ related ____ firing?
 ____ my gas ____ because of ____?
 Is it ____ reduced gas mileage ____ firing issues?
 ____ with ____ firing ____ may account for reduced ____.
 Is ____ possible that the ____ fire ____ cause ____ mileage?
 Is ____ possible ____ gas mileage due ____ the ____ the cylinders?
 ____ my ____ gas ____ being ____ because of ____ firing ____?
 Problems with ____ patterns could be related ____ fuel ____.
 Is ____ decreased fuel economy ____ cylinder ____?
 The ____ fuel ____ I'm experiencing may ____ to cylinder ____.
 My ____ may be ____ the cylinder ____ pattern.
 ____ it possible that cylinder firing ____ may cause ____ my ____?
 My ____ fuel ____ may be related to ____.
 The lower ____ economy may be ____ cylinder ____.
 Firing ____ may be to ____ lousy ____.
 ____ possible that issues ____ cylinder firing patterns are ____ the lower ____?
 ____ it ____ that malfunctioning cylinders ____ my ____ consumption?
 There ____ issues with ____ that are ____ to my ____ economy.
 ____ reduced ____ a ____ of cylinder ____ patterns?
 Is ____ decrease ____ fuel ____ to cylinders ____?
 ____ my ____ efficiency ____ to the ____ of cylinders?
 Can my ____ be ____ result ____ the messed-up ____?
 ____ lower ____ economy might be ____ to ____ patterns.
 The lower ____ economy may ____ of ____ firing patterns.
 A ____ far ____ car can go ____ a tank of ____ have ____ do with ____ cylinder ____.
 My ____ gas mileage might ____ reduced ____ cylinder ____.

Is _____ a result of _____ cylinder firing _____?

I'm wondering _____ in _____ efficiency _____ related _____ the _____ with cylinder firing _____.

_____ I look into _____ related problems _____ a _____ economy?

_____ a lower fuel economy because _____ to _____ patterns.

Is _____ fuel _____ to cylinder _____?

Is _____ that the amount of _____ using _____ be affected _____ cylinder _____?

Is _____ in _____ efficiency related _____ cylinder firing _____?

_____ was wondering if _____ was due _____ issues _____ cylinders _____ firing.

_____ economy _____ related to cylinder _____?

Is _____ a pattern _____ cylinder _____ my car's _____?

Could a decrease in _____ efficiency _____ patterns?

_____ if _____ patterns are _____ to my decreased _____ economy.

_____ lower _____ be a result of issues _____ firing _____.

Could _____ misfires affect _____ fuel _____ is using?

Are _____ related _____ firing _____ the _____ for the _____ fuel _____?

_____ that crummy _____ is the result _____ messed _____ ignition _____ in the _____?

Is _____ related _____ cylinder _____ patterns?

Firing _____ could _____ my lousy MPG.

_____ know if crummy MPG _____ patterns in _____ engine block _____ not.

_____ my _____ efficiency _____ firing patterns?

_____ gas mileage because _____ the issues with the _____.

I am _____ if _____ efficiency is linked to _____ cylinder _____ patterns.

_____ into cylinder- related problems as _____ fuel economy?

I think the _____ efficiency may _____ firing patterns.

_____ efficiency _____ cylinder firing issues?

_____ efficiency _____ because of cylinder _____ issues?

Has _____ firing sequence been _____ my _____ mileage?

Is it due _____ cylinder _____ patterns that _____ economy?

Is lower _____ mileage _____ cylinder firing _____?

_____ cylinder firing could _____ my _____ efficiency.

Problems _____ firing _____ be _____ efficiency is reduced.

Can my _____ due _____ up cylinders?

Is _____ issues with _____ firing patterns _____ to _____ economy?

I wonder _____ cylinder _____ patterns are _____ my _____ economy?

_____ is a _____ that _____ cylinders are _____ consumption.

_____ my car's gas _____ reduced due to _____?

_____ with _____ firing _____ be leading to _____ economy.

_____ car's gas mileage _____ of abnormal _____ patterns?

_____ wonder if _____ getting _____ mileage _____ of _____ issues _____ the cylinders.

Is the decreasing miles _____ cylinder firings?

Is _____ lower fuel mileage is connected _____ patterns?

Is my _____ gallon dropping _____ inconsistent cylinder _____?

_____ with _____ may be _____ for reduced fuel efficiency.

_____ it possible that cylinder _____ patterns _____ lower _____ economy?

I'm experiencing _____ fuel _____ and _____ be due _____ firing _____?

_____ lower _____ possible due to _____ firing _____?

_____ it _____ that cylinder firing patterns are _____ my _____?

_____ possible that cylinder _____ would affect _____ efficiency?

Is _____ due _____ the _____ issues?

_____ cylinders _____ of my _____ MPG?

_____ fuel efficiency a result of _____ ?

Is it possible _____ misfires _____ the amount of fuel _____ ?

Troubles with firing _____ gas _____.

_____ issues _____ be the _____ my lousy _____.

I _____ to wonder if the _____ fuel efficiency is _____ patterns.

Could lower _____ related to _____ firing patterns?

_____ possible _____ lower _____ economy _____ related to cylinder _____ patterns?

I wonder _____ concerning cylinder firing _____ are affecting _____.

_____ with cylinder _____ patterns _____ affect _____ car's _____ efficiency.

Does _____ economy _____ of _____ cylinder firing?

_____ my car getting terrible _____ of _____ in the _____ ?

The _____ fuel economy _____ be associated _____ firing _____.

_____ possible the way cylinders _____ result in _____ mileage?

Issues with _____ firing _____ be the _____ of my _____.

It's _____ that _____ fuel mileage is _____ to _____ cylinder _____.

Is _____ efficiency _____ because of _____ firing _____ ?

_____ my car's _____ mileage _____ abnormal _____ firing?

Is _____ gallon decreasing _____ inconsistent cylinder firings?

I'm Experiencing a lower _____ economy due _____ relating to _____

Is my _____ efficiency _____ patterns?

Cause _____ is my fuel _____ suffering?

_____ firing cylinders may _____ consumption.

Can cylinder firing _____ cause _____ fuel _____ in _____ ?

_____ reduced _____ economy due _____ problems with _____ ?

_____ firing _____ are affecting _____ efficiency.

_____ with _____ firing affect _____ economy?

_____ look at _____ as a possible _____ of low _____ ?

_____ possible for cylinder misfires to affect _____ of _____ ?

Is it _____ that my _____ not _____ good mileage _____ of _____ glitch _____ ?

Is the _____ sequence affecting my _____ gas _____ negative _____ ?

Have the cylinder firing _____ my _____ mileage?

_____ my _____ because of _____ firings?

A lower fuel _____ may be _____ firing _____ issues.

_____ that _____ getting _____ mileage because _____ the cylinder issues?

I'm _____ lower fuel economy, _____ may _____ to _____ cylinder _____ patterns.

Is it _____ decline in _____ gallon _____ cylinder firings?

Could lower _____ be connected _____ patterns?

Could incorrect _____ with lower fuel mileage?

_____ decrease in fuel _____ due to the _____ firing _____ ?

Should _____ cylinder issues as _____ cause for _____ fuel _____ ?

Is there a problem with _____ for _____ ?

_____ any trouble with _____ cylinders fire _____ for _____ ?

Is my _____ related to _____ firing _____ ?

Problems _____ cylinder firing _____ fuel _____

Is my _____ down because _____ inconsistent _____ firings?

_____ getting _____ reduced _____ mileage _____ to _____ with _____ cylinders.

Is it _____ lower fuel _____ is _____ to _____ patterns?

Is _____ possible that _____ is reduced _____ of _____ cylinders?

I'm wondering _____ poor _____ to messed _____ cylinders.

I'm experiencing _____ fuel economy and that _____ of _____ firing _____.

_____ relating _____ firing _____ a lower fuel economy for me.

_____ firing _____ cause lower fuel efficiency in _____.

Issues _____ cylinder firing _____ to _____ for the _____ fuel _____.

_____ patterns can cause lower fuel efficiency.

I _____ experiencing _____ fuel _____ to cylinder firing patterns?

_____ messed-up _____ blame _____ my poor MPG?

Should _____ look into cylinder problems _____ for _____ economy?

_____ like to know _____ firing patterns are _____ my _____ economy.

_____ gas _____ drop due to _____?

_____ lower fuel economy could _____ result of _____ cylinder _____.

Should _____ look into _____ a _____ low fuel economy?

_____ that I'm _____ reduced _____ mileage due to _____ cylinder firing _____?

Problem _____ cylinders; my car's _____ tankin'?

Is _____ fuel efficiency _____ to my _____?

Can _____ poor _____ caused by _____ cylinders?

Does poor _____ and a _____ how _____ my _____ can go on _____ of _____ any connection?

_____ patterns _____ be contributing to _____ decreased _____ economy

_____ fuel economy caused by _____ fire?

_____ that _____ cylinder firing _____ are to _____ for _____ lower fuel _____?

I'm curious if _____ in fuel _____ connected to _____.

_____ the declining _____ per gallon caused _____ inconsistent _____?

The _____ I'm _____ probably due _____ the cylinder _____ patterns.

_____ economy decline _____ to _____ cylinder firing?

_____ firing _____ affecting my fuel _____?

I'm experiencing lower _____ economy, _____ it _____ related _____ firing patterns?

_____ issues as a _____ for low fuel economy?

_____ my _____ reduced due to abnormal _____ firing _____?

Is _____ possible _____ to affect the amount _____ my _____ using?

_____ efficiency _____ be _____ by _____ with cylinder firing.

Is _____ poor _____ linked to _____?

_____ lower fuel _____ is _____ to _____ firing patterns?

_____ firing issues be causing _____?

I am experiencing a _____ to issues with _____

_____ poor _____ be related to _____?

_____ with _____ cylinder firing patterns?

_____ the reduced _____ efficiency related to _____ cylinder _____?

_____ fuel _____ that I am experiencing _____ be due _____ cylinder _____.

_____ firing _____ that _____ killing efficiency?

Cylinder firing problems could _____ blame _____.

I _____ reduced gas _____ due to _____ with the _____.

Do _____ firing _____ car's fuel efficiency?

Are abnormal cylinder _____ car's _____?

_____ of fuel my car is using _____ be _____.

Is issues _____ patterns related _____ decreased fuel _____?

_____ in _____ efficiency be linked to _____ firing _____?

_____ cylinder firing pattern problems _____ fuel _____ in _____?

_____ poor _____ related to _____ misfiring _____ mileage for my vehicle?

_____ possible _____ problems _____ how _____ cylinders ignite _____ cause _____ MPG ratings?

Is there _____ between _____ firing _____ a _____ in how _____ my _____ go _____ a tank of _____?

Is _____ gallon _____ of inconsistent cylinder firings?

_____ fuel _____ be linked to cylinder firing _____.

Is it _____ that _____ petrol _____ affected _____ cylinders?

_____ fuel _____ I'm _____ may be _____ to _____ firing patterns.

Problems with _____ firing _____ can cause _____ fuel efficiency _____.

_____ wondering _____ my fuel efficiency is _____ cylinder _____.

_____ sequence has _____ affecting my gas mileage?

Is a reduction in _____ efficiency _____ firing _____?

I'm getting reduced _____ because of _____ with _____.

_____ fuel economy _____ cylinder firings?

Could _____ decrease _____ be _____ to _____ with _____ firing patterns?

Cylinder _____ be _____ the decrease in fuel _____ seeing.

Should cylinder firing patterns _____ blamed _____ the _____?

_____ cylinder firing _____ problem with my _____?

_____ cylinder firing _____ my _____ mileage?

_____ a lower fuel economy _____ to issues _____ patterns.

A _____ linked to _____?

Should _____ into _____ related problems as _____ potential cause _____ fuel _____?

_____ noticing that _____ fuel _____ is _____ to problems _____ firing patterns.

I'm _____ patterns can cause _____ fuel efficiency.

_____ cylinder _____ patterns _____ my gas _____?

The _____ I'm _____ fuel economy may be related _____ firing _____.

_____ firing patterns may be behind _____ economy _____ having.

_____ cylinder _____ sequence might _____ my gas mileage.

_____ it _____ for cylinder misfires _____ change _____ amount _____ my car _____?

_____ between _____ decrease in _____ my _____ go on a _____ of gas _____ poor cylinder firing?

_____ experiencing _____ fuel economy due _____ relating _____ cylinder _____ patterns.

Is _____ possible _____ misfires to affect the amount _____ consuming?

Is the _____ cylinder fired _____ fuel efficiency?

Problems _____ firing patterns could be _____ to the _____.

Is _____ possible _____ misfiring _____ to decreased gas _____ for _____?

_____ cylinder _____ patterns _____ be _____ reduced fuel efficiency.

Is _____ due _____ firing patterns?

_____ car's gas mileage being impacted _____ firing _____?

Poor _____ to firing _____?

_____ misfires _____ the _____ my car is using?

_____ firing _____ be affecting my _____.

_____ it possible crummy MPG _____ from _____ ignition _____?

Is _____ that crummy MPG come _____ messed-up _____?

_____ lower fuel economy _____ am _____ cylinder firing patterns.

Is _____ gas _____ being reduced _____ cylinder firing?

Could it _____ cylinder _____ that I'm experiencing _____ fuel _____?

_____ pattern _____ cylinder _____ impacting _____ car's fuel efficiency?

Problems with _____ could be _____.

The _____ economy I'm _____ be caused by _____ cylinder _____.

Problems with _____ affect _____ consumption?

_____ low fuel economy _____ to _____?

_____ possible that the lower fuel _____ cylinder firing patterns?

Is it _____ that _____ MPG is _____ of _____ ignition patterns in _____?

_____ fuel efficiency related _____ cylinder _____?

I'm having _____ economy due to _____.

_____ there a way that _____ MPG _____ from messed-up _____ ?
 Could the _____ fuel economy _____ result _____ patterns?
 _____ experiencing lower fuel economy, _____ due _____ issues with cylinder _____ ?
 Problems with cylinder _____ patterns _____ affect fuel _____ .
 Can _____ poor MPG _____ the messed up _____ ?
 _____ in _____ cylinder _____ sequence have _____ my gas mileage _____ .
 _____ it possible _____ cylinder firing patterns _____ reason for _____ lower fuel _____ ?
 Are my declining _____ cylinder firings?
 _____ to know _____ my _____ efficiency _____ linked _____ cylinder _____ patterns.
 _____ issues could _____ for _____ lousy _____ .
 Could _____ issues _____ contributing to my decreased _____ ?
 _____ cylinder _____ may be to _____ for _____ mileage.
 _____ mileage _____ due to cylinder firing patterns?
 _____ fuel _____ a _____ of cylinder firing patterns?
 _____ reduced gas mileage _____ to _____ with _____ cylinders.
 _____ possible that _____ in fuel _____ is related _____ firing _____ .
 _____ lower fuel economy _____ it could be related _____ .
 _____ fuel _____ down because of _____ issues?
 _____ issues related _____ firing _____ the cause _____ lower fuel _____ ?
 Is _____ declining miles _____ gallon because of _____ ?
 _____ it possible that _____ might _____ of the _____ fuel economy?
 _____ my car's _____ mileage being _____ abnormal cylinder _____ ?
 Can cylinder _____ patterns _____ fuel _____ ?
 _____ mileage could _____ incorrect cylinder firing patterns.
 Are cylinder firing _____ to blame _____ fuel _____ ?
 Can cylinder _____ cause _____ to _____ less _____ ?
 _____ wondering if it _____ possible for cylinder _____ to _____ the amount _____ fuel _____ using.
 I _____ wondering _____ the _____ fuel _____ could be related to _____ .
 _____ possible _____ getting reduced gas mileage because of _____ with _____ ?
 My car's _____ mileage is being reduced _____ .
 I'm experiencing a _____ fuel _____ which could _____ related _____ .
 Is there _____ between _____ cylinder firing _____ a decrease _____ far _____ car _____ on a _____ tank?
 _____ fuel _____ by bad cylinder _____ ?
 _____ the _____ fuel _____ with cylinder firing patterns?
 Is _____ reduction in _____ cylinder firing patterns?
 Is _____ that reduced _____ efficiency _____ a _____ cylinder firing _____ ?
 Cylinder firing _____ could _____ to _____ .
 Has _____ firing _____ irregularity _____ my gas mileage?
 _____ possible that _____ fire could _____ to _____ fuel _____ ?
 Is the cylinder _____ contributing _____ decreased _____ economy?
 Is _____ that my _____ being impacted by malfunctioning _____ ?
 I am experiencing lower fuel _____ and _____ be _____ cylinder _____ .
 _____ be experiencing _____ fuel _____ due to cylinder _____ ?
 I don't know _____ my poor MPG _____ cylinders.
 _____ lower _____ mileage connected _____ incorrect _____ firing _____ ?
 _____ possible that _____ to cylinder _____ patterns are _____ cause of lower _____ ?
 I am experiencing a lower _____ be related to _____ ?
 Is _____ cylinder misfiring to affect the _____ in _____ car?
 _____ it _____ that _____ fuel _____ is associated _____ incorrect cylinder _____ .
 _____ relating _____ cylinder firing _____ may _____ cause _____ lower fuel economy _____ me.

_____ possible _____ a cylinder _____ the amount of fuel my _____ is _____?
 _____ the lower _____ associated _____ incorrect cylinder firing _____?
 _____ possible _____ to _____ patterns are _____ blame for the lower _____ economy.
 Is it _____ related to messed-up cylinders?
 I may _____ economy because _____ issues _____ cylinder firing patterns.
 The lower fuel economy _____ the cylinder _____.
 _____ per gallon that _____ caused by inconsistent cylinder _____?
 Is my _____ efficiency _____ firing issues?
 _____ gas mileage be caused _____ messed-up _____?
 Is _____ that issues _____ cylinder firing _____ to blame _____ the lower _____ economy?
 I wonder _____ I should _____ cylinder-related _____ as _____ cause of _____.
 My _____ might _____ getting _____ mileage _____ of _____ problems _____ the _____.
 _____ decrease _____ fuel _____ be related to cylinder _____ patterns.
 Is _____ patterns the reason for my _____?
 _____ with firing _____ affect _____ gas _____.
 Is _____ a cylinder _____ could affect _____ amount _____ fuel _____ using?
 Problems _____ cylinder firing patterns _____ blame _____ lowered _____ efficiency.
 Is cylinder misfiring _____ in _____ gas _____ for _____?
 _____ miles _____ gallon because of _____ cylinder firings?
 _____ am wondering _____ issues concerning _____ firing patterns _____ affecting _____.
 Is _____ car _____ getting terrible mileage because of the _____ glitch _____?
 _____ the _____ firing patterns could be to _____ reduced _____.
 I was _____ if _____ fuel efficiency _____ the cylinder firing _____.
 _____ my _____ because _____ messed-up cylinders?
 _____ firing patterns _____ be to blame for reduced _____.
 Are _____ to cylinder _____ affecting _____ car's _____?
 _____ the decrease _____ efficiency be associated _____ firing _____?
 _____ getting _____ mileage because of _____ cylinders.
 Have the cylinder _____ affecting my _____?
 Did poor _____ firing and _____ decrease _____ car _____ go _____ tank of gas have anything _____ do _____?
 The _____ firing sequence may _____ gas mileage _____.
 I _____ if _____ firing affects _____ fuel economy.
 _____ possible _____ firing _____ are _____ my decreased fuel economy?
 _____ firing _____ affecting my gas mileage _____?
 _____ cylinder firing sequence _____ my gas mileage _____ negative _____?
 I'm _____ if _____ in _____ efficiency is _____ cylinder _____ patterns.
 Is reduced fuel _____ of _____ firing _____?
 Is my miles _____ decrease due _____ inconsistent _____?
 I am wondering if _____ a connection _____ poor cylinder firing and a _____ go _____ of
 gas.
 _____ with cylinder firing _____ reason _____ the lower fuel economy.
 Is _____ possible that _____ may _____ in the lower fuel _____?
 _____ be _____ patterns that are affecting my _____ economy.
 There may _____ correlation _____ cylinder _____ a decrease in _____ my car can _____ on a tank _____.
 _____ it _____ for _____ misfires _____ affect the amount _____ used in _____?
 _____ cylinder _____ reduced fuel economy?
 _____ possible _____ I am getting reduced gas _____ due _____ issues?
 Is _____ decreased fuel economy _____?
 _____ lower fuel _____ which _____ result _____ issues with cylinder firing patterns.
 Are issues concerning cylinder _____ efficiency?
 _____ a _____ fuel economy _____ of issues _____ the _____ firing _____.

I'm experiencing ____ lower ____ of some ____ firing patterns ____.

____ am ____ if my ____ mileage is ____ messed-up ____.

____ it ____ for ____ because ____ troubles?

Is ____ in my ____ per gallon ____ cylinder firings?

____ in fuel efficiency ____ be ____ to cylinder firing ____.

I would like ____ problems as ____ cause for ____ fuel ____.

____ the decrease ____ by cylinder firing patterns?

Can ____ problems cause my car ____ efficient?

Is it ____ that ____ could cause worse gasoline ____?

Can there be any ____ between ____ cylinder firing ____ far my ____ on a tank ____ gas?

Can ____ firing ____ a decrease in how ____ can go on ____ of ____ be ____?

Can ____ poor ____ be ____ of ____ cylinders?

____ guzzling gas ____ something is ____ with the cylinder ____?

____ cylinder ____ be ____ of ____ fuel economy?

____ firing issues ____ making the ____ down.

Could cylinder ____ for low fuel ____?

____ wondering if the ____ fuel efficiency ____ cylinder firing patterns.

Issues regarding ____ may ____ fuel efficiency.

Is ____ cylinder ____ decreasing ____ MPG?

____ cylinders fire account ____ mileage?

____ connection between poor ____ and a decrease ____ the ____ go on a tank of ____?

Is ____ firing ____ affecting my gas ____?

Is ____ mileage ____ because of ____?

I'm wondering ____ decrease ____ fuel efficiency ____ be ____ cylinder firing ____.

____ my ____ gallon declining because of ____?

I ____ to know ____ the ____ efficiency ____ related to cylinder firing ____.

Is ____ possible that ____ mileage is ____ firing patterns?

I'm experiencing lower ____ economy; could that ____ patterns?

____ cylinder firing affecting my car's ____?

Problems ____ cylinder firing ____ car to ____ less fuel.

Has ____ misfiring contributed to ____ gas ____ mine?

Is my ____ going ____ of ____ issue?

____ cylinder ____ patterns related ____ fuel economy ____?

Do ____ issues ____ cylinder firing ____ car's ____ efficiency?

Is ____ miles per gallon ____ cylinder fires?

Could ____ decline in ____ efficiency ____ to cylinder ____?

____ want to ____ if ____ mileage is due ____ cylinders.

Issues relating to cylinder ____ may ____ I'm ____ a ____ economy.

It is possible ____ amount ____ fuel my car ____ using.

Is ____ possible my car ____ getting terrible mileage because ____ cylinders?

Is ____ cylinder ____ affect the ____ of ____ my car ____ using.

Is it possible issues with ____ blame ____ the ____ economy?

I'm ____ fuel ____ because ____ related ____ cylinder firing patterns

____ the cylinder firing ____ causing my gas ____?

Problems with ____ firing ____ be ____.

____ reason ____ the lower ____ may be ____ to ____ firing ____.

Is the ____ interfering with ____ gas ____ negatively?

____ reduced fuel ____ due ____ the ____ firing patterns?

Is this ____ issue related ____?

____ fuel ____ result of ____ firing patterns?

Problems _____ cylinder _____ patterns _____ be contributing to my _____.

_____ the fuel _____ by the cylinder _____?

_____ fuel _____ to cylinder _____?

_____ to cylinder firing _____ be behind _____ I am experiencing.

Problems with cylinder _____ be _____ mileage _____.

_____ are issues concerning _____ firing _____ be _____ my _____ economy.

_____ cylinder _____ contribute to decreased _____ mileage for _____?

Does my poor MPG have _____?

I am experiencing a lower _____ be related to _____.

_____ what _____ causing my lousy MPG.

I am wondering if _____ decrease in _____ to _____ firing _____.

_____ possible _____ firing patterns are to blame _____ lower _____?

_____ abnormal _____ my car's gas mileage?

I'm _____ lower fuel _____ might _____ cylinder firing patterns?

Is it _____ cylinder _____ amount _____ petrol my car is _____?

_____ look _____ cylinder-related issues _____ a cause for _____ economy?

_____ getting less _____ mileage because _____ firing _____.

_____ issues might be the cause _____.

Firing _____ may be _____ lousy MPG.

_____ the _____ firing _____ related _____ my fuel _____ decline?

Is _____ gas mileage _____ due _____?

Problems with cylinder firing patterns _____ in _____ fuel _____.

Is it possible _____ firing patterns _____ the _____ fueleconomy?

_____ my poor MPG is due to _____ messed _____.

Is it _____ my car is _____ mileage _____ of _____ in _____?

Is _____ possible cylinder _____ could _____ the amount _____ fuel _____ is _____?

_____ am _____ the _____ fuel _____ is linked to _____ firing patterns.

Is _____ decreased _____ inconsistent cylinder _____?

_____ firing _____ my car's efficiency?

_____ the _____ of the cylinder _____ gas mileage?

Is there a chance that _____ affect the _____ of _____ my _____?

_____ reduced gas mileage because of _____ cylinders _____ firing.

Is my fuel _____ because _____ firing _____?

_____ wondering if the decrease _____ efficiency _____ related _____ patterns.

_____ concerned that the decrease _____ efficiency _____ to _____ patterns.

Is my _____ of cylinder _____?

Are issues _____ firing cylinders _____?

_____ lower _____ economy be due _____ issues with _____ patterns?

Does cylinder firing _____ have _____ with _____ decreased _____ economy?

There may _____ cylinder _____ causing reduced _____.

_____ issues _____ be causing _____ efficiency _____.

_____ it possible _____ car _____ getting terrible mileage because _____ in _____.

_____ firing issues might _____ fuel efficiency _____ suffer.

Is _____ fuel efficiency _____ to _____?

_____ MPG, _____ linked _____ issues?

Should _____ look _____ cylinder _____ as a possible cause _____?

Is cylinder misfiring _____ of decreased gas _____?

_____ lower _____ linked to incorrect cylinder firing _____?

Is it possible that _____ patterns _____ cause of the _____ economy?

_____ cylinder _____ issues _____ making _____ mileage go _____?

Can _____ MPG _____ to the _____ cylinders?
 _____ having _____ cylinder _____ fuel economy?
 Is it possible lower fuel _____ is linked _____?
 _____ lower fuel economy, could that _____ the _____ firing patterns?
 _____ lower _____ mileage _____ incorrect cylinder firing patterns?
 _____ lower _____ economy may have to _____ with _____ patterns.
 Is _____ that malfunctioning cylinders _____ petrol use?
 Is _____ connected _____ firing patterns?
 Does _____ cylinder _____ fuels economy?
 _____ it possible that _____ patterns _____ for the poor fuel _____?
 _____ it _____ that _____ firing _____ can affect fuel _____ my _____?
 _____ car _____ terrible _____ because of _____ in the _____?
 I'm _____ decrease _____ fuel _____ may be linked _____ cylinder _____ patterns.
 Is _____ possible _____ I _____ reduced gas _____ issues with _____ cylinders?
 Is _____ mileage dropping _____ a _____ a cylinder?
 _____ wonder if _____ are related _____ my decreased fuel _____.
 Is it possible that cylinder _____ affect _____ my _____ uses?
 _____ it _____ cylinder firing _____ are to _____ lowered fuel economy?
 Can _____ make my _____ less _____?
 _____ experiencing _____ lower fuel _____ a _____ of cylinder _____ patterns _____.
 Can _____ poor _____ be a _____ bad _____?
 I'm _____ lower _____ economy, could that _____ because _____ firing _____?
 _____ cylinder _____ patterns may be linked _____ the decrease in _____.
 Is the reduced _____ firings?
 _____ less gas _____ due _____ the _____ firing issues.
 _____ firing sequence been _____ my overall _____ mileage _____?
 _____ cylinder _____ patterns malfunctioning _____ my _____ efficiency?
 Is my decreasing _____ a result of _____?
 I'm experiencing _____ economy, maybe it's _____ to _____?
 _____ firing _____ could _____ causing reduced _____?
 _____ fuel efficiency _____ because of _____ firing _____?
 _____ possible that _____ firing patterns could lower _____?
 _____ getting less gas mileage due _____ with _____.
 _____ possible that some issues _____ cylinder firing _____ are _____ blame _____ lower _____ economy?
 _____ cylinder _____ affecting _____ fuel efficiency of _____ car?
 _____ questioning _____ the decrease _____ fuel efficiency _____ related _____ firing _____.
 _____ my car is getting _____ mileage _____ the _____ in the cylinders?
 Is the _____ firing _____ economy?
 _____ a _____ a decrease _____ car _____ go on a tank _____ gas and poor cylinder _____?
 The decrease _____ efficiency may be _____ patterns.
 _____ my _____ less efficient because _____ firing _____?
 _____ lousy mpg _____ to the _____?
 _____ my _____ due _____ cylinder firing _____?
 Is _____ poor _____ due to _____ up _____?
 _____ the cylinder _____ sequence caused _____ gas mileage _____?
 _____ might be _____ reduced _____ economy.
 Problems with cylinder firing _____ reduced fuel _____.
 _____ it _____ inconsistent cylinder firings _____ my _____ per gallon _____?
 _____ problems _____ a potential cause _____ low fuel economy?
 cylinder _____ could _____ killing _____?

_____ malfunctioning cylinders are affecting _____ use.

_____ the _____ fuel _____ issues _____ cylinder firing?

I'm wondering if _____ fuel _____ to _____ firing patterns.

Can cylinder firing _____ car's fuel efficiency?

Is _____ possible that _____ with cylinders _____ worse _____ mileage?

_____ pattern _____ cylinder firing _____ car's fuelefficiency?

Can a _____ far _____ can go on a _____ of _____ connected _____ poor cylinder _____?

_____ firing _____ problems affect my _____?

_____ experiencing _____ fuel economy, possibly _____ with cylinder _____ patterns.

Is _____ cylinder problems to change the amount _____ using?

Is _____ cylinder _____ reducing _____ gas mileage _____ car?

Is it possible _____ is _____ mileage _____ fire _____ in the cylinders?

_____ possible _____ way _____ fire might _____ in worse gasoline _____?

Is _____ decline _____ miles _____ caused by _____ firings?

Is it _____ cylinder _____ could _____ amount of _____ use _____ my car?

_____ there _____ between poor _____ firing _____ a _____ car can drive _____ a tank of gas?

I am _____ lower fuel economy, _____ may _____ firing patterns.

Does it possible _____ cylinder firing _____ are _____ the _____ economy?

_____ issues with _____ affecting _____ car's efficiency?

Can _____ cylinders _____ of my _____ mileage?

_____ cylinder _____ affecting _____ fuel efficiency?

A _____ fuel _____ may _____ to _____ firing patterns.

I _____ getting reduced _____ mileage _____ to _____.

cylinder _____ issues may _____ hurting _____.

_____ it because _____ cylinder _____ that my _____ per gallon _____ down?

Is it _____ for a _____ affect _____ amount of _____ car _____ using?

_____ cylinder _____ affecting my _____ gas mileage?

I'm concerned _____ the _____ is _____ to cylinder firing _____.

_____ cylinder _____ affecting _____ car's fuel _____?

_____ wondering if _____ cylinder firing and a _____ far my car _____ go _____ gas are _____.

I'm starting to _____ if _____ fuel efficiency _____ related _____ firing _____.

_____ the _____ problem that results in worse _____ mileage?

Can _____ be _____ cause of my _____?

_____ decrease _____ my miles _____ gallon _____ cylinder firings?

I'm _____ fuel economy, which may be the _____ firing _____.

_____ that cylinder firing patterns _____ cause _____ the lower _____ economy?

_____ there a problem with cylinder _____ that _____?

Is my vehicle _____ efficient _____ firing issues?

_____ that the _____ in _____ efficiency may be _____ cylinder firing _____.

_____ miles per _____ caused by _____ firings?

I'm seeing _____ fuel _____ be _____ to cylinder _____ patterns?

Issues _____ to _____ patterns may _____ the _____ experiencing _____ lower _____ economy.

There _____ connection between _____ cylinder firing and a _____ in how _____ car can _____ of gas.

_____ my poor _____ to _____ up _____?

_____ want to know _____ in how far my car can _____ a _____ gas _____ to _____ firing.

I'm not _____ the decrease _____ efficiency _____ related to cylinder _____.

_____ experiencing _____ economy, _____ it _____ to _____ firing patterns?

_____ economy _____ may be _____ result of _____ cylinder firing patterns.

_____ patterns _____ be _____ fuel economy that I'm having.

_____ it possible that my _____ is due _____?

Are _____ cylinder _____ my car's fuel efficiency?
_____ fired cylinders _____ my fuel _____?
_____ cylinder firing reduce _____ economy?
Is the cylinder _____ issues _____ to _____ economy?
Is _____ fuel _____ cylinder _____ issues?
_____ problems _____ patterns affect my car's fuel _____?
Is _____ miles per gallon being _____?
_____ firing patterns might be _____ the lower fuel _____.
Do _____ regarding _____ affect _____ car's _____?
Is it _____ that issues with _____ firing _____ blame _____ reduced fuel _____?
_____ my _____ going _____ of _____ problem _____ the cylinder?
Does my _____ economy _____ of _____ cylinder _____?
_____ cylinder firing patterns may _____ affecting my _____.
Can _____ firing _____ my _____ be less _____ efficient?
My _____ efficiency _____ of cylinder firing issues.
_____ a link between a decrease _____ how far my car _____ gas _____ cylinder firing?
_____ patterns be impacting _____ economy?
_____ the _____ miles _____ gallon due _____ cylinder firings?
_____ economy I'm experiencing _____ be _____ to _____ firing patterns.
Is _____ problem with _____ because of the cylinder _____?
I'm _____ if _____ decrease in _____ efficiency could _____ linked to _____.
Is it possible _____ experiencing lower fuel _____ due _____ cylinder _____?
