

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Compatibility with other devices inquiries
Inquiry Sub-Category	USB Type-C Compatibility
Description	Customers inquire about whether their smartphone is compatible with USB Type-C charging cables and accessories.
Data Size	6,143 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

_____ smartphones support Power _____ over _____ for _____ charging with _____ chargers?

Does every _____ have the ability to _____ charge _____ ports?

Do your _____ include Power _____ type-c _____ improved _____ throughput?

Do _____ phones _____ fast-charging capability?

Is it _____ for a phone _____ to _____ aPD _____ and compatible _____?

_____ modern phones have the capacity _____ their _____ speeds when _____ to a _____ that _____ Delivery _____?

_____ phones have fast _____ opportunities _____ of _____ Delivery and a _____ Type-C _____?

_____ modern phones have the _____ speeds when connected _____ a compatible _____?

_____ it possible for _____ phones to have fast _____ through _____ Power Delivery _____ charging _____?

Is _____ possible _____ Power Delivery _____ theType-C for quick charging?

Is _____ every _____ to have _____ capabilities _____ aPD-supported charger connected through _____ type-c

_____ possible for _____ phones _____ be plugged in _____ faster _____ via _____?

_____ all phones _____ charging _____ use of _____ Delivery or _____ compatible accessory?

_____ all _____ work _____ fast-charging?

Is there _____ way for _____ to _____ the USB-C?

_____ it possible for all _____ through the use _____ Power _____ a compatible chargers?

_____ most cell _____ allow for _____ rapid battery _____ compatibility _____ the Power _____ and _____ use _____ theType-C

_____ phone _____ Power Delivery over USB Type-C _____?

Is it _____ that _____ phone _____ using a _____ charger?

_____ it possible for _____ phone _____ charge _____ using aPD _____?

_____ all phones compatible _____ chargers _____ offer _____ viaPD?

Is _____ for all phones to _____ faster with _____ charging _____?

Is it possible _____ all _____ charge through the use _____ type _____?

Is _____ a _____ all _____ to _____ Power Delivery _____ the _____?

_____ chargers and a Type-C _____ is _____ Delivery (PD) _____ in all _____?

_____ is a question _____ modern _____ are _____ of _____ charging _____ when connected _____ a _____ that supports power delivery.

_____ it possible for phones to _____ charging _____?

_____ all _____ with _____ via the type-C ports?

_____ it _____ for a _____ charge faster _____ aPD _____ ausb type-c?

____ you ____ me ____ all phones now have ____ quick charging?
 Is ____ possible ____ phones to ____ faster ____ and PD friendly chargers?
 ____ to support faster charging ____ Power ____ over theusb type-c?
 ____ compatible chargers and ____ type-C ____ Power Delivery (PD) included ____ phones?
 ____ all ____ support power ____ overusb type-c ____ quicker ____?
 Do ____ think ____ safe to assume that every ____ will be ____ a PD-supported ____?
 Do ____ compatible ____ fast-charging options on your ____?
 Is all ____ compatible with the Power ____ port?
 Does every ____ support ____ charging through ____ compatible ____?
 ____ it ____ that ____ phones support ____ power delivery?
 Is ____ possible for all phones ____ using ____ type-c?
 ____ every phone ____ faster charging ____ aPD compatible charging?
 ____ it ____ for all phones ____ support ____ Delivery over ____ for ____?
 ____ your ____ to ____ things such as Power Delivery ____ quicker ____?
 ____ it ____ phones to have increased ____ when connected ____ a compatible Type-C charger ____ supports ____?
 Do ____ phones ____ via ____ chargers?
 ____ it ____ great ____ all ____ for faster charging with ____ via theusb type-c?
 Is it possible ____ phones to ____ aPD chip ____ for quicker ____?
 ____ it ____ great if ____ of the ____ were equipped ____ charging ____ charges?
 ____ the phones ____ Power Delivery ____ type-c ____ charging?
 Is it ____ smartphones have fast charging opportunities through ____ and a ____?
 ____ phone ____ with ____ charging option?
 ____ possible ____ smartphones ____ charging with PD-enabled charges?
 Can ____ like ____ quicker chargin' with your cell ____?
 ____ phone have a ____ for fast ____ through the ____?
 ____ every ____ Power Delivery (PD) ____ theusb ____?
 Is ____ phone ____ is not ____ for ____ aPD-capable ____ theusb type c?
 Is it ____ all ____ delivery over the type-C?
 ____ there ____ way for ____ to fast charge through ____ function and ____ CHARGERS?
 ____ possible ____ get a ____ aPD compatible ____ all phones?
 Do ____ have ____ options?
 ____ smartphones ____ fastercharging?
 ____ it ____ to charge ____ quickly ____ and ____ compatible chargers?
 Can ____ tell ____ all of your phones ____ the ____ to ____ using the Power ____ technology?
 ____ phones ____ fast ____ opportunities ____ Power Delivery and ____ compatible Charger?
 Is there ____ for every ____?
 Is there ____ way for ____ to ____ via ____ delivery?
 ____ is a ____ whether modern phones are capable ____ speeds ____ to a compatible ____ that supports ____.
 ____ it ____ for all ____ to ____ with theusb type-c
 Is ____ for all phones ____ fast ____ through ____ aPD function?
 ____ compatible ____ Power Delivery (PD) ____ theusb type-c ____?
 ____ each phone ____ to facilitate ____ with ____ of the ____ type-c
 Are allphones compatible ____ Delivery ____ via ____ ports?
 ____ it be ____ if all ____ were equipped ____ faster charging ____ chargers ____?
 Is ____ smartphones ____ to ____ faster charging via Power Delivery?
 Is ____ phones compatible ____ via the ____ ports?
 ____ my phone to ____ it supports the ____ feature ____ with the Type- ____ port?
 I ____ if ____ of ____ compatible with the faster charging ____.
 ____ phonesPD-enabled for faster ____?

Is it possible _____ charge _____ with _____ chargers over Type-C?

Is it _____ all _____ for faster charging.

Is _____ possible _____ a _____ for _____ charging when using a _____ phone?

Can all _____ charge faster _____ use _____ Delivery?

_____ it possible for _____ to charge _____ using a _____ charging _____?

_____ compatible chargers _____ a type-C _____ is _____ (PD) available in _____ smartphones?

Is _____ assume that _____ phone _____ the ability _____ quick charging _____ aPD-supported _____?

Is _____ possible for _____ phone _____ quickly using _____ type-C compatible _____.

_____ offer fast-charging via _____ ones?

_____ it possible _____ all _____ now _____ Power Delivery _____ theusb-c?

Is it possible for _____ phones to _____ aPD _____ charging?

Is it _____ for _____ have _____ charging _____ aPD compatible _____?

Is _____ possible for all _____ be compatible _____ (PD) via the _____?

Do _____ know if each _____ can _____ the _____?

Do all _____ Delivery _____ over Type-C _____ faster?

_____ that all phones _____ the ability _____ using _____ Power Delivery _____ type-C port?

_____ it _____ all phones _____ fast with _____ compatible charges.

Can _____ all _____ phones _____ market _____ able _____ charge quickly using a _____ compatible type-C port?

_____ question _____ whether rapid _____ capabilities are the same on each phone when _____ a charger _____ Power _____

_____ me if all of the phones _____ support _____ delivery _____?

Can you tell me if _____ Delivery using _____ USB-C?

_____ Power _____ overusb type-c for charging?

Is _____ for _____ cellphones _____ use _____ type-C _____ quicker charging?

Can _____ phones _____ fast charging _____?

_____ you _____ if all of _____ phones now _____ Delivery _____ USB-C _____ quick _____?

_____ it possible for _____ to _____ quickly using _____ compatible _____?

Is _____ all modern phones _____ be capable _____ increased _____ when _____ to a _____ chargers that _____ Delivery?

Is _____ fast-charge _____ aPD- compatible _____ all phones?

Do _____ phones _____ USB-C Power _____?

Is _____ possible _____ all _____ to _____ the _____ for _____ charging?

_____ possible _____ all of the phones _____ with the _____ charging _____?

_____ true that _____ has _____ charging capabilities _____ aPD-supported charger?

Is _____ possible _____ all phones to _____ faster charging through _____?

Is _____ all _____ fast charge with aPD compatible _____.

_____ phones support the quick _____?

_____ every phone _____ Power _____ type-c for _____ charging?

_____ expect _____ phone _____ quicker _____ it supports the _____ delivery _____ along with theusb type-c _____?

Is it _____ for all _____ offer fast charging _____?

Do _____ every _____ embraced fast _____ aPD-supported _____ connected _____ the widely-usedusb type-c interface?

Is every phone _____ device?

_____ have a support for _____ through aPD?

_____ possible _____ phone to charge at _____ faster _____ using _____ chargers?

_____ there _____ faster way _____ replenish your _____ when _____ a PD- _____ that connect via _____ type _____

Is it _____ phone _____ faster using _____ compatible chargers over _____?

_____ it _____ for _____ phones to _____ Power Delivery (PD) _____ chargers?

Do all _____ for _____?

_____ phones _____ with fast-charging _____?

_____ phone come with _____ to _____ faster _____ the right charger?

_____ phone have the _____ to fast _____ aPD compatible _____ port?

_____ it possible for _____ support _____ delivery using _____ type _____?

____ it possible for a ____ to ____ capable of ____ through ____ function ____ compatible ____?
 ____ it ____ get ____ charging with aPD ____ chargers ____ phones?
 When using ____ chargers ____ connection, does Power ____ (PD) ____ all ____?
 Is ____ for ____ phones ____ have ____ charging opportunities ____ use ____ Power Delivery ____ a ____ accessory?
 ____ a question about ____ all ____ are ____ ready.
 ____ it possible ____ all ____ offer fast-charging ____ compatible ____?
 Is ____ possible that ____ can ____ used ____ fast-charging?
 ____ phone compatible ____ faster ____ mechanism?
 ____ it possible for ____ havePD support for faster ____?
 Do you think that ____ has ____ fast ____ using aPD-supported ____ connected ____ the widely-usedusb ____
 ____ me if all ____ now support ____ theusb-c for ____ charging?
 ____ anyone ____ if any mobiles ____ via theusb-c?
 ____ it ____ most cell phones ____ more ____ battery ____ to compatibility with Power ____ (PD) and efficient ____

 Is ____ possible for ____ of ____ to ____ compatible with ____ faster ____?
 Wouldn't ____ if all ____ were ____ for ____ charging with ____ option of ____ capable ____?
 ____ phones support ____ charging method?
 Can ____ if ____ possible ____ all ____ your ____ with compatiblePD chargers?
 Is ____ possible ____ smartphone to ____ aPD compatible charger?
 Can I assume that ____ of ____ phones ____ the ____ able to ____ quickly ____ a ____ port?
 ____ it possible that all ____ smartphones ____ to support ____ via Power ____?
 ____ all phones support ____ if ____ want ____ faster?
 ____ possible ____ every ____ to ____ faster ____ aPD-compatible chargers?
 Is it possible ____ all ____ via compatible ____ devices?
 ____ all phones have ____ capability ____ charging via ____ delivery?
 ____ for all phones to charge ____ with aPD ____?
 ____ a ____ charge ____ using a Type-C andPD-compatible charge?
 Do ____ now offer fast-charging ____ charging ____?
 ____ phones ____ the ability ____ fast charge through the ____ of ____?
 ____ possible for ____ phones ____ support faster charging via ____?
 Is ____ possible ____ use ____ for ____ charging via ____?
 ____ every ____ a ____ port have a ____ fast charging?
 ____ all phones ____ fast charge ____ aPD function via ____ charger?
 ____ phones ____ charging ____ through ____ of Power Delivery ____ a compatible ____ charger?
 ____ true ____ embraced fast charging ____ using aPD ____ charger connected through ____ widely-usedusb type-c ____
 Wouldn't it ____ if all ____ the phones were equipped ____ charging ____?
 When used ____ compatible chargers ____ a Type-C ____ (PD) available ____ all ____?
 Is there ____ that ____ not equipped ____ charging with aPD- capable ____ via ____?
 ____ fast ____ all phones?
 Do ____ phones ____ fast charging ____ the use ____ and ____ compatible ____?
 Is it possible ____ all the ____ charge quickly ____?
 Can ____ assume ____ on the market are ____ to charge ____ a Power ____ compatible ____?
 ____ chargers compatible ____ thePD work ____ faster ____ phone?
 Is ____ true ____ every phone ____ embraced ____ aPD-supported chargers?
 Is it ____ all ____ to ____ faster ____ power delivery?
 Is it ____ that ____ phone ____ fast ____ aPD-supported ____ through theusb type-C interface?
 Do ____ phones have ____ to fast charge ____ the ____ of aPD ____ and ____?
 ____ all ____ use Power Delivery ____?
 Is ____ possible ____ all of the phones ____ lineup ____ equipped with power ____ type-c to ____?
 ____ possible ____ phones ____ use power ____ over type-c?

Is _____ phones _____ the fast-charging _____?

Is it _____ that every _____ has _____ using aPD-supported _____ through _____ Type-C interface?

Is _____ possible _____ a _____ charge quickly _____ aPD andusb _____ charges.

_____ it _____ for modern _____ have _____ charging speeds when _____ to a _____ that supports _____?

Do _____ possible for _____ phones _____ faster using _____ Delivery (PD)?

_____ phones _____ Delivery _____ charge quickly?

_____ phone _____ support for fastcharging through aPD _____?

_____ all _____ of fast _____?

Is _____ for all _____ to be _____ for _____ charging _____?

_____ it possible for _____ phones to _____ charged _____ aPD- _____?

Is _____ possible for _____ to _____ faster if it _____ chargers?

Do all _____ ability to _____ Power Delivery _____?

Is there _____ with theusb-c for faster _____?

_____ don't _____ if _____ the ability to _____ with aPD-capable chargers _____ type-c

Is it possible _____ a phone to _____ compatible devices.

Is it _____ for all smartphones _____ faster _____ delivery over _____?

Is it _____ for all _____ charge fast _____ aPD _____?

_____ compatible _____ fast-charging?

Is it _____ all _____ to _____ compatible with _____?

Is _____ possible that _____ has _____ fast _____ capabilities using _____ PD-supported _____?

Is there a _____ to _____ compatible with _____ faster charging _____?

Is _____ possible _____ support _____ Delivery _____ type-C for faster charging?

_____ fast-charging _____ PD on every _____?

Is _____ a phone _____ support _____ Delivery _____ a USB-Type _____ andPD- _____ charge?

_____ possible on _____ phones?

_____ possible _____ quickly _____ a phone using _____ compatible _____ via the _____?

Is _____ available in all _____ rapid _____ when _____ with _____ charges _____ a _____ connection?

Is it _____ to _____ every phone will _____ quick _____ with a _____ charger?

Is it possible _____ charge _____ phones _____ type _____?

Is _____ true _____ phones have _____ opportunities _____ of _____ Delivery and _____ chargers?

Do all _____ Power Delivery (PD) _____?

_____ phone _____ Delivery over _____ USB type-C _____ quick charging?

Do all _____ USB-C Power _____?

_____ your _____ integrate Power Delivery via theusb type-c _____ better _____ throughput?

Can _____ phones _____ Delivery _____ charge up faster?

Is it _____ phone to charge _____ aPD- _____.

Is _____ possible _____ all _____ are equipped to support _____?

_____ phones _____ ability _____ integrate Power _____ type-c for increased charging _____?

Is it possible _____ every phone _____ have _____ aPD-supported charger connected _____ the _____

_____ all _____ compatible?

_____ ability to support _____ Delivery over the USB _____?

_____ to doPD on all phones _____ theusb _____?

Does every phone _____ support for _____ charging _____ form _____ chargers?

Do all phones _____ the _____ Delivery _____ faster _____?

_____ use _____ Delivery _____ charge faster?

_____ possible _____ smartphones to offer fast-charging _____ compatible _____ orPD?

Wouldn't _____ all _____ phones were equipped _____ faster charging _____ aPD-capable charges?

Is it _____ phones to _____ withPD _____ chargers?

_____ phones _____ to support _____ charging via Power _____?

_____ cellphone use _____ rapid-charging _____ of _____?

Could ____ tell me if ____ of ____ have ____ to ____ faster charging using ____ (PD) method?
 ____ it ____ all phones have ____ ability ____ using a ____ Delivery compatible ____?

Is ____ phones with theusb type-c?
 ____ it possible ____ a phone ____ using ____ type-C andPD-compatible ____?

Is ____ to ____ faster ____ a phone that ____ Delivery ____ aPD-capable chargers?
 ____ all phones ____ the ____ to support ____ Power Delivery?

Do all phones ____ over ____ for faster charging?
 ____ it ____ for every ____ fast charging capabilities ____ chargers connected ____ the Type-C ____?

Do most ____ phones ____ for more rapid ____ the Power Delivery (PD) ____ efficient use ____ the ____

Can ____ support faster charging ____?
 ____ it ____ to assume ____ phones ____ the ability ____ access ____ charging ____ aPD supported ____?

Is it ____ for ____ phone ____ charge ____ compatible chargers?
 ____ they do ____ Power Delivery for ____ Chargin' ____ phones?

There's ____ question about ____ every ____ using aPD- ____ chargers.

Do modern phones have the capacity ____ increase charging ____ compatible Type-C ____ that ____?

Is ____ for ____ phones to ____ faster ____ use of ____ port?
 ____ that every phone ____ embraced fast ____ using aPD ____ connected ____ widely-usedusb type-c interface

____ it be great ____ all ____ were equipped for ____ with ____?
 ____ it possible ____ phones ____ be PD-enabled for ____?
 ____ all ____ support ____ USB ____ for quicker charging?

Do all ____ work ____ a ____?

Do ____ the ____ charging?

Is ____ possible for a ____ a Type-C andPD ____ chargers?

Can they ____ things ____ Delivery ____ quicker chargin' with ____?
 ____ Power Delivery (PD) ____ allowing ____ when used with compatible ____ devices?

Is ____ for all the phones ____ support ____ via ____?

Is it ____ phone ____ fast charging ____ using aPD-supported ____ through theusb ____
 ____ Power Delivery via ____ for enhanced charging throughput?

Can you ____ all ____ your phones ____ the ability ____ faster ____ Delivery (PD) method?

Is ____ possible ____ phones to be ____ USB-C?

Is ____ all ____ to be ____ enabled for faster ____?

Is ____ possible ____ phones are ____?
 ____ it possible ____ has fast ____ capabilities using ____ charger ____ through the widely-usedusb type-c ____
 ____ it possible ____ charge a ____ compatible chargers ____ a type-C?
 ____ possible ____ all phones ____ charge quickly ____ compatible charges?
 ____ all ____ support ____ charging?

____ there a ____ for the mobiles ____ faster ____ via ____?

Can ____ tell me if it's possible ____ all ____ via ____?

Is ____ possible for ____ to ____ delivery overusb ____?

Do ____ phone have ____ option to ____ Power ____ theusb ____?

Is all phones ____ fast ____ via ____ delivery?

____ for ____ cell phone ____ charge faster using aPD ____?

Can you ____ all of ____ equipped ____ Delivery to ____ quicker charging?
 ____ your phones ____ the ____ to integrate Power ____ for ____ throughput?

Are ____ faster charging?
 ____ every ____ the ____ to ____ through aPD compatible ____ the port?

Is it ____ all ____ the ____ compatible with ____ faster charging ____?
 ____ all ____ work ____ the fast-charging ____?
 ____ it ____ for all phones ____ have ____ withPD compatible?

Do ____ phones have ____ to fast charge through the ____ via ____ ones?

Is all _____ phones _____ Power _____ ports to charge faster?

Is it _____ every _____ to _____ using aPD _____?

_____ phone _____ Power _____ (PD) option for _____ charging?

_____ tell _____ all _____ the _____ now support _____ and quick charge?

Can _____ do _____ Delivery _____ quicker chargin' on _____ phone?

Can _____ phones _____ Delivery to _____?

_____ to charge _____ via a type-C connection?

_____ phones _____ with _____ fast-charge?

Do all _____ the ability _____ fast _____ through the PD _____ compatible _____?

_____ all _____ a Power Delivery compatible charge?

_____ all _____ the phones now _____ fast-charging via _____?

_____ you tell me _____ of the _____ support _____ for quick charging?

_____ it _____ for _____ to _____ charging via Power Delivery over _____?

_____ all _____ phones _____ for fast-charging?

Can _____ phones be charged _____?

Is _____ possible for all _____ support faster _____ Power _____?

Does _____ have _____ for _____ through _____ compatible charger?

_____ every _____ using aPD compatible charger over ausb type-c?

Is _____ all phones?

_____ fast charging _____ with the _____ all phones?

Is _____ true _____ every smartphone has _____ charging _____ using _____ connected through the _____

_____ possible _____ all phones _____ bePD-enabled for _____ charging?

_____ possible _____ phones to support faster _____ via _____ over a Type-C _____?

_____ it possible _____ to be _____ with USB-C for _____?

Is it possible for _____ to _____ for _____ charging?

_____ all _____ have _____ through use of Power _____?

Are _____ capable _____ charging via Power Delivery?

_____ possible _____ fast charge with _____ compatible _____ all the _____?

Is it true that _____ have _____ opportunities through use of Power _____ compatible _____?

_____ for _____ phones to charge faster with Power _____ chargers?

_____ phones _____ a type-C for _____?

_____ all phones have fast charging opportunities _____ Power Delivery and a compatible _____?

_____ all _____ support Power _____ (PD) _____?

_____ a _____ way to _____ your phone's _____ when using _____ compatible chargers _____ type-C?

Is _____ possible for a _____ charge _____ using the _____ chargers?

_____ don't _____ are compatible for fast-charging.

When _____ compatible _____ a _____ connection, _____ Power Delivery _____ all of _____ phones?

Are _____ the phones _____?

Is it _____ all _____ smartphones _____ faster _____ via power _____?

_____ possible _____ all phones _____ a Power Delivery over _____?

_____ all _____ for fast _____?

_____ it _____ for _____ to _____ capable _____ fast _____ throughPD function?

_____ it possible _____ all the phones _____ charging _____ Delivery _____ the _____ type-C?

_____ possible for my phone to _____ if _____ supports _____ Power _____ feature _____ theusb _____ port?

_____ possible _____ smartphones _____ charge _____ using the _____ Delivery (PD) technology?

_____ every _____ support Power Delivery _____?

When _____ with compatible chargers and _____ type-C _____ Delivery _____ smartphones?

_____ the rapid-charging _____ PD possible _____ each _____?

Is _____ possible _____ all phones to _____ Power _____ over _____?

_____ a way for _____ phones to support _____ charging _____?

_____ the phones _____ Power Delivery _____ order _____ charge _____?
 _____ it _____ that _____ smartphones are compatible with PD _____ for _____?
 Is there _____ to _____ charge a phone through _____ Delivery and _____ compatible _____?
 _____ all of _____ phones _____ equipped _____ Delivery, could _____ tell _____ if _____ supports _____ charging _____ PD?
 _____ for a _____ charge quickly _____ a type-C and _____ compatible _____?
 _____ tell me if _____ of your _____ are _____ Delivery _____ support _____ charging?
 Is there _____ support _____ on _____ phone?
 _____ it _____ that _____ can charge _____ using a PD compatible _____.
 Is it possible for every phone _____ the type-c _____?
 _____ it _____ that all phones have _____ charging _____ use of _____ Delivery _____ Type-C charger?
 _____ it possible that all _____ have _____ use of Power Delivery _____ a _____ port?
 _____ all phones _____ the _____ fast charging _____ the PD _____?
 Is _____ possible for _____ cellphones _____ use _____ Delivery _____ type-c?
 Are _____ phones compatible _____ via _____ Type-C ports _____ charge _____?
 _____ a support for faster _____ theusb-c?
 _____ all _____ Power _____ over USB type-c _____ faster charging?
 _____ have _____ ability to increase their _____ connected to a compatible Type-C _____ supports _____ delivery?
 _____ you _____ me if it's possible _____ charge _____ a Type-C _____?
 Is _____ any phone _____ is _____ charging _____ aPD- _____ chargers _____ theusb type- c?
 _____ phones use Power Delivery _____ charge _____?
 Is _____ for _____ charge quickly using aPD _____ USB _____ compatible _____.
 Are _____ phones compatible _____ fast-charging?
 _____ all phones have the _____ to _____ charge through _____ via theusb-c _____ Charger?
 Is it possible to get faster _____ on _____ Power Delivery through _____ capable _____?
 Do _____ safe to assume that _____ to access quick charging with _____ charger?
 _____ you think _____ phones can _____ Power Delivery?
 _____ confirm _____ of the _____ now support _____ using theusb-c?
 Does _____ support _____?
 _____ would like to know _____ your _____ are _____ with _____ Delivery (PD) _____ theusb _____ to _____ charging.
 When _____ with compatible _____ Type-C _____ is Power _____ in _____ the phones?
 Is _____ a _____ charge quickly _____ a _____ or PD-compatible charge?
 _____ it _____ all _____ to charge faster with Power Delivery _____?
 Do most cell _____ allow _____ battery charging thanks _____ with _____ Delivery (PD) _____ use _____ type-c
 Do _____ phones _____ charging through _____ use of a _____ charger?
 Is _____ faster _____ replenish _____ phone's battery when _____ chargers that _____ theusb type c
 Is _____ possible for all _____ of _____ charging through _____ of compatible _____?
 Is _____ all modern _____ to _____ capable _____ speeds when connected to a compatible _____?
 _____ charging possible _____ phone models?
 When used _____ compatible chargers _____ a Type-C _____ is _____ all smartphones.
 _____ Power Delivery over theusb type-c _____ charging?
 Is _____ for all of _____ phones _____ support faster _____ Delivery?
 Do _____ phones have _____ ability _____ fast charge _____ function _____ type _____ compatible charger?
 Is it possible _____ all _____ have _____ speeds _____ they _____ connected to a _____ Type-C _____?
 Can all _____ quickly _____ Power _____?
 _____ it _____ for _____ phone to _____ using a _____ that _____ compatible _____?
 _____ compatible _____ Power Delivery (PD) viausb _____ ports _____ charge _____?
 _____ possible _____ modern phones are capable of increased _____ to a _____ type-c charger?
 Do _____ the phones these _____ via compatible _____?
 Is _____ possible for all _____ phones _____ compatible with PD _____ for _____?
 _____ it possible for a phone _____ charge _____ compatible _____ a Type-C _____?

Do _____ ability to fast charge _____ the PD _____ via the USB-C type _____?
 _____ be great if _____ phones were _____ for _____ with a PD-enabled charger?
 _____ for every _____ to charge _____ with _____ compatible _____ over _____ one?
 _____ to _____ a PD compatible chargers _____ all phones?
 Can they _____ like _____ for quicker _____ with _____ smartphone?
 Is it _____ for all phones _____ with a PD _____?
 Is there _____ the phones to support faster charging _____ Type-C?
 _____ it possible _____ phones have compatibility _____ the Power Delivery (PD) and _____ use _____?
 Is it _____ every _____ has _____ fast charging _____ using a PD-supported _____ connected _____ the _____ Type-C _____?
 I _____ all phones are _____?
 Can I assume _____ all _____ ability _____ quickly using _____ Delivery _____ type-c?
 _____ there _____ for all _____ to _____ the _____ function via a _____ charger?
 Is _____ that _____ smartphones support faster _____ delivery?
 _____ a _____ way to _____ your phone's _____ if you use _____ that _____ via _____ type-c
 Do all _____ support power delivery over USB _____?
 _____ all of the phones _____?
 Is _____ possible _____ to _____ fast charging capabilities _____ connected _____ the USB type-c interface?
 _____ if any _____ support _____ use _____ a USB-C for quicker _____?
 Do all phones _____ ability _____ use Power _____ type-C?
 _____ all phones _____ Power _____ type-c _____ faster Charging?
 _____ have a way to _____ compatible chargers _____ their ports?
 _____ possible _____ smartphones _____ function with _____ chipset over USB _____ for _____ charging?
 _____ it possible _____ charge _____ phones _____ USB type-c?
 _____ safe to assume _____ phone will be able _____ with a PD supported charger?
 _____ confirm if _____ of your phones _____ ability to support _____ using _____?
 _____ it possible _____ all phones _____ be compatible with _____ Delivery _____?
 Are all _____ the phones _____ fast _____?
 _____ possible _____ support Power Delivery using a type-C?
 _____ it possible to quickly _____ using a PD _____ chargers _____ the _____?
 Is it _____ for _____ Power Delivery _____ Type-C?
 _____ phones have the ability to _____ Delivery over _____?
 _____ they do _____ like Power _____ for _____ with _____ phone?
 Is it possible that _____ through the _____ port?
 Is _____ possible for all phones _____ faster _____ via _____ device?
 _____ it _____ every phone has fast charging capabilities _____?
 Is _____ possible _____ phones _____ fast charging _____ Power Delivery?
 _____ it _____ for every _____ to charge _____ a PD _____?
 _____ all _____ phones _____ for faster _____?
 Do _____ the PD on _____ phone?
 _____ if all _____ phones _____ ability _____ support faster charging using the Power Delivery _____?
 _____ used _____ compatible chargers and _____ type-C connection, is _____ (PD) _____ in _____?
 _____ all phones compatible _____ Delivery _____ via _____ charge faster?
 Do you know if every _____ has fast _____ capabilities using _____ charger _____?
 _____ have fast charging _____ the _____ Power Delivery or _____ compatible chargers?
 _____ all _____ quick charging?
 Is _____ possible _____ all smartphones _____ Type-C for _____?
 Is _____ a _____ to _____ your _____ battery _____ use a PD compatible _____ that _____ via USB Type-C?
 _____ for each phone _____ the same rapid battery-charging _____ when plugged _____ a _____ type-c compatible
 Is _____ possible _____ phone to charge _____ a Type-C _____ charge?
 Is _____ possible _____ fast-charging options to _____ on _____?

_____ all phones _____ fast _____ use of Power _____ and a _____ charging _____?
 Is _____ Delivery available _____ phones with a _____?
 Do you know _____ via _____ for increased charging throughput?
 _____ it possible _____ phones _____ integrate Power Delivery _____ better charging throughput?
 _____ it _____ every phone has embraced _____ using a PD-supported _____ connected through the _____.
 Do all phones have the ability _____ charge via _____?
 Is all of _____ phones _____?
 _____ it possible _____ charge a _____ aPD compatible _____ using _____?
 _____ phones support Power Delivery _____ fasterCharging?
 _____ it _____ that _____ cell phones _____ allow _____ more _____ battery charging thanks to compatibility _____ and efficient
 _____ ofusb _____
 _____ possible for _____ phone to charge _____ aPD compatible _____?
 _____ it _____ for all _____ phones _____ fast _____ with _____ compatible _____?
 Is it _____ device to _____ using _____ compatible charger?
 _____ it _____ smartphones are PD-enabled _____ fast charging?
 Is _____ the phones _____ overusb-c?
 _____ it possible that _____ phone _____ Power _____ over _____ for _____?
 Is _____ possible for a _____ capable _____ fast charging _____ aPD _____ via _____ chargers?
 Is it possible for every _____ have _____ charging _____ aPD-supported _____ connected _____ type-c _____?
 Do _____ if your phone can _____ things _____ Delivery _____ chargin'?
 Is _____ all _____ to be _____ withPD _____ for faster _____?
 _____ have _____ to support _____ charging?
 Is there _____ faster _____ to replenish _____ battery _____ use aPD- _____ chargers _____ connect _____ type-C
 Do _____ support _____ over _____ Type-C connection?
 Is it _____ smartphones to _____ power _____ type-c?
 Is it _____ that most _____ phones _____ more _____ battery _____ thanks _____ with Power Delivery (PD) _____ efficient _____

 _____ and a Type-C connection, _____ Delivery (PD) available _____ all smartphones?
 _____ possible that most _____ phones _____ for _____ rapid battery _____ to _____ with _____ Delivery and _____ use _____
 Type-C
 Are _____ phones compatible _____ via _____ type-c port?
 Is _____ that _____ capabilities using aPD-supported charger connected _____ the _____ interface?
 _____ all phones _____ fast-charge _____?
 _____ assume that all _____ have the _____ to charge _____ compatible type-C?
 Is _____ to support faster _____ via _____ Delivery over _____ type-c?
 _____ all _____ ability to _____ charge through the PD _____ chargers?
 Do _____ phone _____ with a Power _____ (PD) option _____?
 _____ possible for all phones to _____ use of Power Delivery _____ chargers?
 There _____ a _____ to _____ modern phones _____ of _____ charging speeds when connected to a _____
 Delivery.
 _____ possible _____ all _____ phones are _____ with Power Delivery _____ over _____ support quicker charging?
 _____ it _____ for _____ phone _____ using a _____ compatible charger?
 Is _____ a phone to charge _____ using a _____ compatible _____?
 Is there a _____ for all phones to be _____ to _____ charge _____ of _____?
 There is a _____ whether _____ are _____ ready.
 Do most cell _____ allow for more rapid _____ thanks _____ compatibility with Power _____ the Type-C
 _____ possible for all _____ charge _____ aPD- compatible chargers.
 Are all _____ your _____ equipped with _____ support _____ charging?
 _____ possible _____ to support _____ quicker charging via _____?
 _____ it possible _____ phone _____ charge _____ by using _____ compatible _____?
 _____ it _____ that every _____ support for _____ charging _____ the _____ ports?
 _____ phone _____ Power _____ overusb _____ for quick charging?

Can you tell _____ it _____ possible to _____ all _____ via _____ ?

Does every _____ for fast _____ a compatible _____ ?

_____ true _____ every _____ has embraced _____ charging capabilities using aPD _____ ?

_____ it _____ to say _____ most cell _____ have _____ the Power Delivery _____ and _____ use of _____

_____ all _____ to _____ fast-charging via _____ and compatible chargers?

Do _____ have fast _____ opportunities _____ compatible power delivery device?

_____ true that _____ have fast _____ opportunities through _____ of _____ Delivery _____ compatible Type-C charger?

Is it _____ for _____ Power _____ via _____ for enhanced charging _____ ?

_____ you _____ if _____ possible to _____ all phones via _____ type-c _____ ?

_____ to quickly charge _____ phone _____ aPD compatible _____ use of aType-C?

Is it true that _____ phones _____ through the use _____ Delivery _____ compatible charging _____ ?

Can all phones use _____ (PD) _____ faster?

Is it _____ all _____ phones to _____ charging _____ over the type-C?

_____ phones _____ support _____ theusb-c _____ faster _____ ?

I _____ know _____ of _____ are compatible with a faster _____ .

_____ know if all _____ are _____ .

Wouldn't it be _____ equipped for _____ charging via _____ chargers?

_____ phones have support _____ charging?

Is _____ possible for _____ phone to _____ using aPD and _____ ?

I _____ if all phones _____ fast charging.

Do _____ delivery overusb _____ for quickcharging?

Is _____ phone _____ with _____ ?

_____ phones compatible with _____ viausb type-c _____ ?

Is _____ able _____ the rapid-charging _____ ?

Is it possible _____ phones _____ faster using _____ Delivery _____ technique?

Is _____ compatible _____ the Power Delivery _____ via _____ port?

I don't know _____ safe to assume _____ will be _____ to _____ quick _____ aPD-supported _____

_____ I expect _____ phone _____ charge _____ if it _____ the _____ Delivery feature _____ with theusb _____ ?

Does _____ Power Delivery via _____ for better _____ throughput?

Is there _____ to _____ your _____ when _____ use aPD- compatible chargers that _____ the _____

_____ phones compatible with Power Delivery _____ to _____ faster?

_____ possible for all _____ to _____ equipped _____ faster charging _____ type-c.

Do _____ smartphones have _____ to _____ charge _____ thePD _____ ?

_____ it _____ mobile _____ to charge _____ using aPD _____ compatible chargers.

Is it true that _____ allow _____ more _____ battery _____ compatibility with Power Delivery and _____ use ofusb

Is _____ to use _____ Type-C _____ to _____ up _____ all phones?

_____ is _____ about whether all phones _____ .

Wouldn't it _____ great if _____ were _____ faster charging _____ aPD-enabled chargers?

Can _____ if all _____ Power Delivery and _____ charging?

_____ available _____ phones, allowing _____ when _____ compatible _____ and a Type-C connection?

_____ for your _____ Power _____ Type-C for increased charging throughput?

_____ me _____ all _____ phones now _____ power delivery _____ theusb-c for _____ charging?

Is _____ support _____ charging on _____ ?

Is Power Delivery _____ in _____ when used with compatible _____ Type-C connection.

Is it true that every _____ has _____ using _____ charger _____ the widely-usedusb _____

_____ it possible for _____ phone _____ quickly _____ Type-C _____ chargers?

_____ it possible to _____ phones _____ the Power Delivery _____ ?

Do all _____ have _____ charging _____ Power Delivery or _____ compatible Type-C _____ ?

_____ it _____ possible _____ to _____ faster using aPD compatible chargers?

Is there ____ way ____ all ____ fast charge through ____ compatible ____?
 ____ all phones ____ fast-charging?

Is there a faster way to ____ phone's ____ you ____ compatible chargers ____ connect ____?
 ____ possible for all ____ to be ____ with PD ____ for fast ____?
 ____ possible ____ each phone to ____ the ____ of PD?
 ____ have fast charging opportunities through use ____ Power ____ compatible ____?

Do ____ have the ability ____ use ____ the ____ Type-C for ____ throughput?
 ____ all ____ a ____ for ____ charging?
 ____ tell me ____ all of ____ phones ____ power ____ and quick charging ____?
 ____ phones support ____ (PD) over usb type-c ____ faster?
 ____ it ____ all ____ phones to support ____ via ____ Delivery over the ____?
 ____ all phones ____ faster charging via ____ delivery?
 ____ it possible for all ____ have the ____ charging?

Is ____ to quickly charge ____ using ____ compatible ____ via the usb ____.

Do all ____ now ____ fast-charging ____?

Can they do ____ Power ____ quicker charging ____ your ____?

Is ____ possible ____ phones ____ function with ____ over Type-C ____ quicker charging?
 ____ it possible for ____ mobile device ____ charge ____ using ____ and ____.
 ____ it ____ for ____ to have support for fast charging ____?

Is ____ for ____ phones to ____ fast with ____ compatible ____?

Is it possible ____ all phones ____ fast charging ____ Power Delivery and ____ compatible ____?
 ____ it ____ for all ____ be PD-enabled ____ faster ____?

Is all ____ faster ____ of ____ over the usb-C?
 ____ every ____ a support for ____ charging through ____ compatible ____?

Can all ____ compatible charges?

Is ____ possible for all ____ to have ____ opportunities ____ use ____ Delivery ____ a compatible ____?
 ____ am wondering ____ all phones are compatible ____.

Do all phones ____ feature?

Is ____ for all phones to ____ with ____ over the ____ for ____?

Is it ____ cellphone can ____ the ____ feature?

Do ____ phones ____ fast-charging via compatible chargers?

Do all phones ____ a ____?

Is it possible ____ charge ____ with Power Delivery ____?
 ____ for mobiles to support the ____ usb-c ____ quicker ____?

Is it ____ phones ____ fast-charging via ____ compatible chargers?

Are all ____ compatible ____ Delivery ____ via ____ Type-C ____?
 ____ it ____ every phone ____ if they ____ a PD-compatible chargers?
 ____ it ____ phone has embraced ____ charging using a PD-supported ____ through ____ widely-used usb type-c ____
 ____ it ____ that every phone supports Power Delivery ____ the ____?
 ____ possible for all smartphones ____ delivery ____ the usb type-c?

Do ____ to ____ charge through ____ function via the usb-c ____ compatible batteries?
 ____ it ____ for ____ phone to ____ quickly ____ a ____ Type-C ____ compatible ____?

Is it possible for ____ to ____ faster charging?

Is ____ fast ____ on ____ phones?
 ____ it ____ phones to offer ____ compatible CHARGERS?

Is it ____ every phone ____ embraced ____ a ____ charger?
 ____ it ____ get ____ fast ____ with a PD compatible in all ____?
 ____ every ____ embraced ____ charging capabilities ____ a PD-supported ____ connected ____ the widely-used usb ____.
 ____ it possible ____ support ____ Delivery ____ USB ____ for quick charging?

When ____ with ____ and ____ Type-C connection, is ____ available on ____ smartphones?

Do _____ have _____ of fast charging _____ the _____ of _____ chargers?

Can _____ of _____ phones have _____ ability _____ support _____ charging with the use of Power _____?

Do _____ phones support Type-C _____?

Do _____ fast-charging ability?

_____ all the _____ compatible with _____ (PD) via theusb _____?

Does _____ phone _____ Power _____ Type-C for quickcharging?

_____ it _____ for all _____ to _____ Power Delivery _____ Type-C?

Faster phone _____ possible _____ the _____ of _____ technology through the _____.

_____ it _____ for _____ to facilitate _____ rapid _____ thanks to compatibility with Power Delivery _____ use _____

Type-C

_____ phones have _____ charging _____ when connected _____ a compatible _____ charger that supportsPD?

Is it _____ for _____ phone _____ Power Delivery _____ the _____ for improved _____?

_____ compatible chargers and a _____ Power Delivery _____ in all phones?

_____ for all phones _____ charging via theusb type c?
