

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Energy consumption analysis and advice
Inquiry Sub-Category	Energy consumption analysis
Description	Customers inquire about their energy usage patterns, seeking insights on peak hours, usage spikes, and efficiency. They may request advice on reducing consumption and improving sustainability.
Data Size	5,021 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

____ it ____ team ____ when ____ have the highest ____ for electricity ____ the day?
Do you ____ my ____ usage?
____ you ____ of ____ busiest day-time energy usage?
I would like your ____ my peak ____.
____ able to ____ out the time ____ need ____ electrical ____?
Can ____ tell me about ____ hours when ____ most ____?
Is it ____ for ____ to determine my ____ usage ____?
____ to figure out ____ electricity peak in the ____?
Will your analysts ____ my ____ hours?
Can ____ possibly tell ____ I have ____ most ____ for electricity?
I ____ help ____ identify ____ highest electrical usage ____ during ____ regular workday.
____ you ____ me when ____ the ____ during the day?
Do ____ a way ____ my peak electricity ____?
____ it be possible ____ experts ____ busiest times for ____?
____ can help me by ____ used electrical time ____ day.
____ there ____ way to ____ peak ____ usage?
____ your ____ able ____ tell ____ my electricity ____ is ____ its peak?
Is it ____ identify my ____ usage ____ in a workday?
Can you ____ which ____ of the ____ electricity?
____ analyze my peak ____ demands in a ____?
____ I ____ in the ____ the ____ possibly analyze ____ high demand ____ electricity.
____ have a ____ to analyze ____ during the day?
____ like your ____ with ____ most used electrical ____ of ____ day.
____ would like your assistance with ____ my ____ used ____ time ____.
____ study my busiest ____ electricity use?
Does ____ evaluate ____ I ____ the ____ during the day?
____ have the most demanding ____ in the ____ see if there is ____ problem?
Your experts ____ able ____ my busiest ____ electrical usage.

_____ able _____ figure _____ when _____ really _____ the _____ power in _____ day?
 _____ your team _____ analyse it _____ it's _____ in _____ demand
 _____ can _____ tell _____ I need more _____ the _____?
 Are _____ to decide _____ I _____ most power _____ given day?
 I would like _____ in determining _____ electrical _____ of _____ day.
 Is _____ possible _____ team _____ my peak energy consumption _____ day?
 _____ help _____ figuring out _____ used electrical time of _____.
 _____ know what part _____ the day _____ electricity?
 _____ you tell _____ when _____ need the _____ during _____ day?
 _____ capable of _____ need the most _____ in a _____?
 _____ if _____ team _____ it _____ it is high _____ electricity demand.
 Was _____ possible to _____ highest electric _____.
 Do you _____ day-time energy _____ busiest?
 _____ it possible to _____ the periods of _____ electric _____?
 _____ have _____ most _____ electricity and _____ possible _____ team to _____ it?
 Can _____ let _____ know when _____ the _____ during the _____?
 _____ you _____ when I need the most _____?
 _____ you _____ into high _____ in _____ day?
 I _____ help _____ figuring out _____ most _____ time _____ the day.
 Will _____ peak _____ assessed by _____ analysts?
 _____ team _____ to _____ my peak electricity _____?
 Will _____ electric _____ assessed _____ your _____?
 _____ team help _____ highest energy usage period?
 _____ team could analyze _____ peak _____ in _____ day.
 _____ can _____ know if I _____ electricity on a _____?
 _____ if _____ can help me identify my highest _____ time _____ workday.
 _____ need _____ peak power needs.
 _____ they tell _____ when _____ is at its _____?
 Do you _____ when _____ need _____ most _____ the _____?
 Can _____ of high _____ within a day?
 _____ to _____ my highest electrical _____ time _____ a regular workday.
 How can you know _____ during the _____?
 Do _____ if I need the _____ given day?
 _____ do you _____ out _____ more electricity _____ the day?
 When I am in _____ the _____ might be able _____ the high demand _____.
 _____ it _____ identify _____ periods of greatest electric _____ per _____?
 _____ would _____ high _____ for electricity in the _____ of the day.
 I _____ you _____ help _____ identify _____ usage time in _____ workday.
 _____ able to determine _____ is _____ in demand?
 _____ a way to analyze my _____ energy use _____?
 Can you people _____ I _____ the most _____?
 _____ it _____ that _____ can identify _____ highest _____ usage _____ in a _____?
 I _____ wondering if _____ could identify my _____.
 Would _____ experts _____ able to determine _____ times for _____?
 _____ your _____ capable _____ analyzing _____ peak electricity _____?
 _____ there a _____ my peak _____ during the day?
 Is _____ possible _____ periods of highest _____ per day?
 I am _____ if _____ analyze my _____ peaks _____ usage.
 Do _____ know _____ you _____ day-time energy usage?
 Will _____ electric use peaks _____ your analysts _____ hours?

Are _____ of determining _____ I _____ most _____ power _____ a day?
 _____ able to _____ I need _____ greatest _____ power in a _____?
 _____ order to _____ my highest electrical usage _____ in _____ your _____.

Your assistance _____ figuring _____ my most _____ would be appreciated.
 _____ you know _____ part _____ day _____ most electricity _____ me?
 _____ check _____ power needs during _____.

_____ it _____ for your team to _____ energy consumption _____ day?
 _____ you _____ of _____ and determining the _____ highest _____ per day?

Are you able to _____ when the _____ electrical _____ needed?

Can _____ the periods of _____ use _____ day?
 _____ you _____ when _____ using _____ most electricity in _____ day?
 _____ your _____ going _____ assess _____ electric _____ during daylight _____?
 _____ you _____ peak electricity demand?
 _____ people figure out _____ time I _____?

Does your _____ know _____ exact hours _____ day _____ usage _____?

I would like _____ know if _____ electricity usage.

Can _____ tell _____ team _____ more electricity than _____ need during _____?
 _____ it possible to _____ peak electric _____?
 _____ team to analyze my demand for electricity _____ the _____?
 _____ your _____ tell _____ I use _____ electricity _____ I _____ the day?
 _____ figure out my electrical _____ the _____?
 _____ wanted to _____ you _____ identify _____ electric demand periods.
 _____ your _____ analyze _____ power _____ a day?

Can you determine when I _____ need _____ power _____?

Is _____ possible _____ team to _____ when I have _____ for _____ during the _____?
 _____ it _____ your team to _____ peak _____ use during _____ day?
 _____ tell me the exact _____ of _____ when my _____ is _____?

Would your team _____ analyze _____ peak _____ in _____ day?

Is it _____ to identify _____ of the _____ electric _____?

Is it _____ to explore patterns _____ usage _____ day?
 _____ analyze when I have _____ most demand _____?

Will _____ able _____ me _____ exact _____ of day _____ I use the _____?
 _____ team able to analyze my _____ energy consumption _____?
 _____ you _____ figuring _____ I need _____ most _____ power in _____ single day?

Are _____ determine _____ the most _____ is _____ in _____ day?

Are _____ capable of _____ there are the _____ electrical _____?

Can you _____ the _____ my _____?

How _____ I _____ most electricity in a _____?

Can your _____ peak electricity _____ during _____ day?

Is _____ for you _____ of the _____ electric consumption?
 _____ you _____ me when _____ the most electricity _____ day?

Do _____ know _____ it's _____ the _____ electricity in the day?

I _____ most _____ electricity so _____ it _____ a _____ to _____ it?

Do you study _____ a _____ of _____ use?

How can your _____ more power than I _____ during the _____?

How can you _____ out _____ more _____ than _____ need _____ single day?
 _____ have _____ most demanding _____ the _____ is it possible _____ it?

Can _____ electricity usage _____ day?
 _____ team could _____ power _____ in _____ day.

I have _____ electricity in the _____ can you _____?

Can ____ analyze my ____ to ____ if it ____ the ____ the ____?

I would ____ to ____ for electricity in ____ the day.

I would ____ it ____ could identify ____ highest electrical ____ in ____.

____ been ____ to identify my ____ electric ____ periods?

Are ____ the ____ electricity demand?

____ your ____ keep ____ eye on ____ power ____ use on the ____?

Are you able to ____ hours ____ when my electricity ____?

Are you able ____ I ____ greatest electrical power in ____?

Are you ____ analyzing the ____ electricity usage?

____ you ____ ability ____ analyze ____ peaks of electricity ____?

Is it ____ for the team ____ energy ____ during the ____?

____ it possible to figure ____ part ____ most electricity?

I ____ the ____ demanding electricity in ____ day, ____ if there is something wrong?

Can you ____ the ____ energy use is?

____ you competent ____ when ____ greatest electrical ____ a single day?

____ possible to ____ when ____ need the most power ____?

Is there a ____ to ____ peak energy ____ during ____?

____ peak during ____ be assessed ____ your analysts?

Do ____ have the ability to ____ electricity ____?

____ peak power demand?

Are ____ able ____ out which part ____ day uses ____ most ____?

Are you ____ determining when I ____ the most ____ given ____?

How can you ____ use ____ electricity during ____ I need?

I ____ the ____ demanding ____ in ____ it ____ for a ____ see it?

I have ____ most demanding ____ in ____ day, is it ____ a ____?

Will ____ power demand?

____ team ____ at my ____ demands?

____ would ____ possible ____ experts ____ busiest times for electrical usage.

Can you tell ____ when I really ____ day?

Do ____ time of day I ____ energy?

____ way for your team ____ when I ____ demand for electricity?

____ it ____ for you ____ out ____ periods ____ electric consumption per ____?

____ you ____ if ____ use more electricity in ____?

Do ____ study my ____ excessive ____ demands?

____ your ____ watch the ____ electricity ____ use on ____?

____ like to ____ you can identify my ____ electrical ____ time in ____.

____ to determine when my electrical ____ are ____ highest?

____ there ____ way ____ team to understand ____ use during the ____?

I ____ like ____ to evaluate my busiest ____ electrical ____.

Can ____ figure out when I ____ electrical ____?

____ team identify ____ usage period?

Will my ____ usage be ____ analysts ____ hours?

I would like ____ know if you ____ identify my highest ____.

____ team ____ an ____ on ____ amount ____ I use during ____ day?

I need the most ____ day, ____ figure it ____?

____ you ____ I ____ the greatest electrical power in ____?

____ my peak electricity usage per day?

____ can ____ use more electricity ____ the day ____ I need?

Do you know if ____ find ____ time energy ____?

____ there ____ for ____ team to ____ my peak energy ____ during ____?

____ want ____ know ____ you can analyze ____ electricity usage.
 Are you ____ determine when ____ the most ____ a ____ day?
 Is ____ possible ____ can help ____ highest energy ____ period?
 I want ____ analyze the ____ for ____ in the ____ of ____.
 How ____ your ____ I use ____ electricity during the ____?
 Your ____ could ____ identify ____ use ____ most power.
 ____ you identify my ____ period?
 ____ you tell me when I ____ a ____ day?
 Will my ____ usage ____ assessed ____ analysts during ____ hours?
 Are ____ possible ____ team to ____ the ____ demanding electricity ____ the ____?
 ____ your ____ able ____ when my electricity usage ____?
 Are ____ tell when ____ need the most ____ power in ____?
 ____ I ____ in ____ middle ____ the day, ____ at the high demand for electricity.
 Is ____ for you ____ know the ____ of ____ electric ____ per ____?
 ____ can your ____ tell if I ____ more electricity ____?
 ____ team can ____ it ____ it's high in power ____.
 Is ____ you ____ determine when I really ____ the ____ power in ____?
 How ____ team ____ if I use more ____ single ____?
 Can you identify ____ of highest ____ consumption ____?
 ____ able to ____ when ____ electrical ____ demands ____ highest?
 ____ you ____ me ____ highest electric demand periods?
 ____ if your team could analyse ____ in electric ____.
 ____ able to decide when I ____ power ____ day?
 ____ to ____ me what point in the ____ I ____ most ____?
 ____ team have ____ way ____ analyze ____ peak energy use ____ day?
 ____ it ____ to ____ the periods ____ highest electric consumption ____ day?
 ____ analyze when ____ have ____ highest demand for electricity ____ the ____?
 ____ to ____ when ____ power demands are high?
 ____ your team ____ exact hours ____ day when I use ____?
 You ____ help me figure out ____ used ____ of ____.
 ____ your ____ know ____ exact hours of ____ when electricity ____?
 Do you ____ of identifying ____ day-time ____ usage?
 ____ your ____ my electric ____ during daylight ____?
 ____ your ____ determine ____ need the most ____?
 Your help ____ out ____ used ____ time of ____ day would ____ appreciated.
 ____ analyze my ____ power ____?
 Can ____ study ____ in a ____?
 ____ which ____ of the ____ use the ____ power?
 ____ you ____ which parts ____ the day ____ up ____ most ____?
 I ____ you ____ high demand for electricity ____ I am ____ the middle ____
 When I ____ in ____ of ____ could analyze the ____ demand ____ electricity
 Does ____ know when I ____ electrical power ____ a ____?
 ____ demanding ____ in ____ day, ____ it possible ____ analyze it for you?
 I ____ you could evaluate ____ I ____ the most ____?
 ____ energy demands ____ assessed ____ your ____?
 When my electricity ____ your team ____ me ____ exact ____ the ____?
 ____ possible for ____ of highest electric consumption per day?
 ____ have ____ for ____ team to analyze my peak ____?
 ____ we know if ____ use ____ electricity ____ the ____?
 ____ know when ____ busiest ____ energy ____ occurs?

I need _____ most _____ the _____ but _____ me when?
 _____ it _____ your _____ to analyze when _____ have the _____ electricity _____?
 _____ your _____ know if I _____ more _____ the day?
 Is _____ for _____ analyze my demand for electricity _____ times of _____?
 Will _____ assessed during daylight _____?
 Can _____ look at patterns of _____ a _____ day?
 Can you _____ electricity is needed during the _____?
 Can _____ day-time energy use?
 _____ if _____ team could _____ when it is _____ electricity demand.
 _____ tell when _____ need _____ most electrical power _____ day?
 _____ you study my electrical _____?
 _____ when I need the most power?
 _____ high in electricity demand, _____ wonder _____ team can _____.
 _____ team might be able _____ analyze _____ peak _____ day.
 Is _____ to _____ the _____ of highest electric _____ per _____?
 Are _____ of _____ when I need _____ power _____ a _____?
 Can you _____ if I _____ the _____ demanding _____ the _____?
 _____ electric usage _____ be _____ at daylight hours?
 _____ of _____ need the _____ power in a day?
 _____ you able to _____ when I have _____ power _____?
 Is _____ to _____ which part _____ the _____ most electricity?
 _____ you _____ me if _____ electricity on the _____?
 Do you have _____ that _____ when _____ need the _____?
 _____ am in need of _____ my _____ usage time.
 Could you help me _____ electrical usage time _____?
 _____ team could _____ my _____ for electricity _____ a _____.
 Is _____ possible for you to _____ most _____ daily?
 Will my electric usage _____ assessed _____ during _____?
 _____ busiest hours _____ high electricity demands?
 _____ team _____ I use the _____ power in a _____?
 Is _____ a team _____ analyze _____ most demanding electricity _____ the _____?
 _____ team evaluate when _____ use _____ electricity?
 You can determine when _____ need _____ most _____.
 Are _____ determining when _____ greatest power in one _____?
 _____ your _____ the _____ hours _____ day _____ my electricity usage _____?
 Can you _____ demand periods?
 Do you think _____ possible to evaluate my busiest _____?
 Can _____ your peak _____?
 Is it possible _____ your _____ peak energy _____ during _____ day?
 _____ you _____ team _____ my peak electricity demand?
 I would _____ you _____ me _____ my highest _____ in a _____.
 I _____ could _____ it, when it's _____ electricity demand.
 I _____ if your team _____ it when it's very _____.
 I'm _____ if _____ can analyze my _____ energy _____ day.
 Can you analyze my _____ day?
 Can _____ time when I _____ the most _____?
 Can _____ figure _____ my electricity peak _____ the _____?
 _____ would like _____ finding my most _____ of _____ day.
 Is it _____ for a _____ the most _____ in the _____?
 _____ the _____ is it possible to _____ it?

Can _____ when the electricity is _____ demand?

Can _____ when the _____ at peak demand?

_____ my electricity demands _____ a day?

Do _____ if _____ the most power _____ day?

_____ you _____ the _____ to _____ when _____ need _____ most power _____ the _____?

Are you _____ of _____ the _____ of _____ electric _____ day?

Are _____ to determine _____ when _____ consume the most _____?

_____ tell me if _____ busiest day-time _____ is?

_____ you able to determine when _____ power demands?

_____ able _____ determine when _____ electrical power _____ a single day?

I _____ you to be able to analyze _____ for _____ the _____ day.

Are you _____ of when I _____ power in _____?

_____ day, could you analyze _____ peak _____?

_____ know _____ days _____ need the most _____ power?

_____ team _____ of determining the exact _____ of day _____ use _____?

Do you have the _____ analyze _____ of _____?

Do you _____ ability _____ observe high _____ a day?

_____ you able _____ analyze _____ of _____ electric _____ day?

Do you _____ ability to _____ the periods of _____ electric consumption _____?

_____ your team _____ able _____ check my peak _____?

Is it _____ you _____ spot _____ electric consumption?

When I _____ in the middle _____ I _____ you to _____ for _____.

_____ the _____ electricity, _____ you analyze it?

_____ to determine if I _____ greatest _____ power _____ a _____ day?

_____ you _____ to _____ need the greatest _____ a single day?

_____ able to identify my highest energy _____?

Do you _____ my _____ daytime _____?

_____ it possible for _____ team _____ understand _____ energy use _____ the _____?

Is _____ for _____ team _____ look _____ high demand _____ I have?

_____ tell me the _____ most electrical energy?

_____ you investigate high _____ use _____?

my _____ energy usage period could be _____?

Are _____ to figure _____ the _____ electrical power in a _____ day?

I _____ your _____ in _____ the most _____ electrical _____ of the _____.

_____ do _____ team know _____ use more _____ during _____ day?

Will _____ electricity _____ assessed by _____?

_____ a way _____ your team to analyze my _____?

_____ am _____ of _____ day, _____ you to look at _____ high demand for electricity.

_____ team know _____ consume the most power _____?

Can your _____ keep an _____ most electricity _____ day?

_____ you _____ my _____ electrical _____ time _____ a regular workday?

Is _____ to determine when I _____ electrical power _____ day?

_____ able to _____ patterns of _____ usage within _____ day?

_____ study my _____ hours _____ excessive _____ needs?

_____ you capable of _____ have the highest electrical _____.

_____ possible for _____ to _____ periods of highest _____ per _____?

Are _____ to figure out _____ I _____ most electrical power _____?

_____ usage peaks be _____ your analysts _____ hours?

Are your team able _____ determine _____ electricity _____?

_____ help me _____ highest electrical _____ time _____ a regular _____?

_____ when I really need the most _____ day?
 _____ it possible for your team _____?
 _____ you _____ to determine _____ the _____ power in a single _____?
 Can _____ tell when _____ in a day?
 Are you able to _____ and _____ of _____ electric _____ day?
 _____ your team _____ if _____ am using _____ I need during _____ day?
 Can _____ team _____ I _____ most power.
 _____ if _____ it when _____ high in electricity demand.
 It's _____ for _____ experts to _____ my busiest times _____ consumption _____.
 _____ it possible _____ when _____ need the most power _____ a _____.
 May _____ help _____ identify _____ highest _____ time in a _____?
 Is it _____ for _____ day when I use the _____ electricity?
 _____ you _____ an analysis when I _____ most _____?
 Could _____ me find the _____ energy _____ period?
 I _____ the _____ electricity _____ day, can _____ see it?
 Are _____ to _____ when I have the _____ demands?
 _____ possible for _____ to _____ the _____ of highest _____ consumption?
 I would like _____ figure _____ the most used _____ time _____.
 Is it possible to _____ I _____ the _____ power _____ a _____?
 _____ you _____ to determine _____ I need _____ largest _____ power _____ day?
 Are _____ analysts _____ assess _____ usage during the _____?
 _____ you tell _____ when _____ consume the _____ energy?
 _____ possible to identify _____ of _____ consumption _____ day?
 Are you able _____ the peaks _____ usage?
 Are you _____ say _____ need the most _____ in _____?
 _____ have a way to know _____ electricity _____?
 Is it possible _____ identify my highest _____ usage _____ in _____?
 _____ know _____ exact hours of day _____ electricity _____ peaks?
 I have the _____ demanding electricity _____ day, can _____ it _____?
 _____ your _____ able to evaluate my _____ for electrical _____?
 _____ able _____ identify _____ day-time energy usage.
 _____ it possible _____ determine _____ periods of _____ usage _____ day?
 _____ my electric _____ be assessed _____ your _____.
 Do _____ have _____ ability to identify the periods _____ consumption _____?
 _____ you study _____ hours _____ excessive _____ needs?
 When I _____ highest _____ possible for your team to _____ it?
 Can _____ determine when _____ need the _____ power in _____?
 _____ you study _____ hours for excessive _____?
 Is _____ a way _____ my peak _____ usage _____?
 Is it possible for _____ out the _____ highest _____ per _____?
 When _____ electricity _____ peaks, can _____ the exact _____ of day?
 How can your team _____ more electricity _____ day?
 _____ the most demanding electricity _____ the day, so _____ possible _____ a team _____?
 _____ watch for _____ usage peaks during daylight _____?
 Would it _____ to evaluate when _____ maximum electric _____?
 _____ it possible for analysts to _____ high _____?
 _____ your team tell _____ day _____ need more energy?
 You can _____ me _____ electrical _____ time in a _____.
 I _____ you _____ identify the highest electric demand _____.
 _____ you have _____ of the _____ day time _____?

_____ analysts evaluate my electric usage _____?
 _____ could help me _____ energy usage periods.
 _____ you tell _____ the maximum electricity is _____ daylight _____?
 Is _____ possible _____ you _____ identify _____ periods _____ the _____ consumption _____ day?
 Are you _____ to _____ I _____ highest electrical _____ demands?
 _____ know _____ I _____ the highest demand for _____ each _____?
 I _____ the most _____ electricity _____ the _____ would it be possible for _____ into _____?
 _____ know which part _____ the _____ uses the _____ electricity _____?
 I _____ love _____ know when I _____ most _____ on a _____.
 _____ you and _____ team _____ I _____ most power?
 Is it possible for _____ identify _____ electric consumption _____ day?
 _____ team _____ demands in a day.
 Any _____ when the busiest _____ energy usage is?
 _____ figure out _____ consumption hours?
 Is _____ possible _____ determine if _____ really _____ most _____ a day?
 Are you capable _____ if I have _____ demands?
 Would _____ analyze _____ peaks of electricity usage?
 _____ anyone tell me _____ electricity _____ is _____ during _____ day?
 _____ tell me _____ part _____ the _____ uses the _____ electricity?
 _____ possible _____ to _____ identify my highest energy usage _____?
 Would _____ peak electricity demands?
 _____ have the most _____ electricity, _____ it possible _____ you _____ check _____?
 _____ you able _____ determine when I need _____ day?
 _____ keep track of the most _____ on the _____?
 Are _____ determine when _____ most _____ power _____ a single day?
 _____ there _____ can _____ busiest day-time energy usage?
 Would _____ for your team _____ analyze when _____ the most _____ electricity?
 Is _____ possible _____ identify the _____ of highest electric _____ day?
 _____ it _____ that your _____ my highest energy _____ period?
 I _____ looking _____ in figuring _____ my most _____ time of _____ day.
 Will _____ peaks be _____ at _____ analysts _____ daylight hours?
 Can you help _____ identify _____ electrical usage _____ of _____?
 _____ tell me _____ part _____ the day that _____ up _____ most _____?
 _____ it's high _____ I _____ you could analyze it.
 Is _____ possible for you _____ I have _____ electricity today?
 Can _____ I really need _____ most power in _____?
 _____ need the most _____ day, can you _____?
 Can _____ tell _____ my highest _____ usage period _____?
 Can your _____ analyze _____ the most _____?
 _____ the busiest time of the _____ for _____ usage?
 _____ you _____ up with _____ time _____ I _____ the most _____?
 _____ there _____ way _____ my _____ electricity use each _____?
 _____ analyze _____ to _____ if I _____ the most _____ electricity?
 Do you _____ it _____ possible for _____ to _____ my _____ times for electrical use _____?
 Are _____ to _____ my highest _____ use time _____ a workday?
 _____ your _____ scrutinize when I _____ electricity?
 Are _____ tell your _____ if I use _____ electricity _____ need _____ day?
 _____ like _____ to analyze the _____ demand for _____ when _____ in the _____ day.
 _____ which _____ of the day I _____ electricity?
 Will my _____ be assessed by _____ during _____?

_____ you _____ to determine the busiest day-time _____?
 Can _____ tell me _____ time _____ day _____ up the _____?
 Your _____ help me _____ the highest energy _____.
 Is there a _____ your _____ my peak _____ consumption?
 Does your team _____ if I _____ day?
 _____ be able to analyze _____ peak _____?
 When _____ electricity _____ wonder _____ your team could analyze _____.
 _____ let your team know _____ need _____ power _____ the day?
 _____ know if you _____ identify my highest _____ usage _____ a _____.
 _____ could analyze _____ electricity demands _____ day.
 Can they _____ the _____ is _____ its _____ demand?
 _____ it possible _____ team to _____ that _____ the _____ in the day?
 Is _____ for _____ to analyze _____ highest _____ for _____ during the _____?
 I have _____ most demanding electricity in _____ day, _____ analyze _____ see _____?
 _____ would _____ know _____ I have _____ electricity demand on a _____.
 Would it be _____ for _____ to see the _____ electricity _____?
 Is _____ your experts to evaluate my busiest _____ day?
 _____ to assess my _____ peaks of electricity _____?
 _____ would _____ to know what _____ in the day _____ consume _____?
 _____ have the most demanding electricity of the _____ it _____ into it?
 Are you able _____ if I _____ most power _____ a _____?
 _____ look at when I need the _____?
 _____ you capable of _____ predicting _____ periods of _____ electric consumption _____?
 _____ you _____ me whether _____ not I _____ the _____ electricity during _____?
 I _____ demanding _____ and is it _____ you to _____ it?
 Do you _____ which part _____ will _____ the _____ electricity?
 Do you _____ my _____ high _____ needs?
 Is there _____ I demand _____ most _____ throughout _____ day?
 _____ most _____ electricity in the day _____ would it be possible _____ to see _____?
 _____ tell me _____ need the _____ electricity _____ the day?
 _____ me when the _____ electricity is _____ the day?
 Does _____ if I use _____ power _____ day?
 I _____ your _____ analyse _____ when _____ has high electricity _____.
 I _____ electricity _____ day, can you _____ it is worth analyzing?
 _____ you could _____ my _____ electric demand periods?
 _____ it's high _____ I _____ if your _____ can analyse _____.
 _____ tell _____ when the highest _____ periods are?
 Are _____ capable of _____ most electrical power demands?
 _____ possible for _____ to _____ my busiest times for electrical _____?
 Is _____ identify when _____ the most electrical power in _____?
 Do _____ my _____ hours with a _____ of _____?
 Do _____ know which _____ I _____ most electrical _____?
 Would _____ possible _____ your experts _____ observe my busiest _____ for electrical _____?
 Is there _____ chance _____ can _____ out _____ busiest day-time _____?
 _____ possible for _____ to _____ highest demand for electricity during _____.
 You _____ it to _____ it _____ the _____ demanding _____ the day.
 Is it _____ identify _____ periods _____ consumption by day?
 _____ your _____ have the _____ analyze _____ I _____ the _____ electricity?
 _____ for your _____ my demand for electricity _____ the day?
 _____ usage peaks be _____ at by your _____?

_____ give me _____ analysis _____ energy _____ at their peak value?
 _____ it possible for _____ to identify _____ consumption?
 _____ possible for _____ evaluate my _____ times _____ electrical use.
 Will _____ electric _____ peaks _____ monitored _____ your _____?
 _____ need _____ highest electric demand periods.
 _____ it _____ for _____ analyze the _____ electricity in the _____?
 _____ have the most _____ electricity in the _____ is it possible _____?
 _____ help _____ out _____ highest energy usage period.
 Do you _____ electrical power in the day?
 _____ would like _____ highest electrical _____ in a workday.
 _____ demand _____ by your team?
 Will _____ peaks be _____ by _____ the day?
 Do _____ a _____ to know _____ electricity usage?
 Did _____ know _____ consume the _____ the day?
 Is it _____ team _____ analyze _____ demand for electricity _____ day?
 _____ able to _____ I need _____ electrical _____ in _____ single day?
 I want to _____ if _____ when _____ have _____ highest _____ demands.
 Are you able to _____ me _____ exact hours _____ day _____?
 Is _____ possible _____ when I _____ need _____ power _____ a _____?
 I have _____ most demanding _____ in _____ can you analyze _____ see _____ strange is _____?
 Is _____ possible _____ my electricity demands in a _____?
 _____ able _____ periods of _____ highest electric _____ per day?
 I want _____ there _____ a way to _____ my _____ energy _____ the _____.
 Is _____ a chance you _____ identify the _____?
 Can you figure out _____ most electricity _____ day?
 _____ possible _____ your team to _____ I demand the most _____?
 _____ to _____ you can identify the busiest _____ usage.
 _____ figure _____ need the most electricity for _____ the _____?
 _____ you able _____ I _____ the highest _____ power demands?
 Are _____ to determine the _____ of _____ per day?
 Do you _____ when I really need _____ in _____?
 _____ want to know if _____ electricity _____ in _____ day.
 Can _____ analyze my _____ electricity _____ day?
 Do _____ have _____ to _____ busiest day-time energy _____?
 _____ have a _____ that analyzes _____ I _____ the _____ electricity?
 Can _____ team _____ peak power _____?
 Will _____ at _____ usage peaks?
 Can you _____ the _____ day _____ use the most _____?
 Can you _____ eye on _____ during the _____?
 _____ you _____ figure out when I _____ most power in _____?
 _____ possible for your _____ observe my busiest _____ electrical _____ each day?
 Could _____ tell me when I _____ each _____?
 _____ does your _____ if I use _____ on the _____?
 Is _____ to identify periods _____ electric _____ per day?
 _____ the most demanding electricity _____ it possible to _____?
 When _____ high in _____ demand, _____ it?
 _____ to identify the periods of _____ use _____ day?
 _____ tell _____ the hours _____ use the _____ energy?
 Is _____ possible _____ when _____ really need _____ during the day?
 _____ you tell me hours when _____ the _____?

I ____ if ____ could analyze ____ demands in _____.
 ____ you study my daytime ____ excessive ____?
 ____ my electric ____ peaks be assessed ____ analysts ____ morning?
 ____ you ____ tell me the exact hours ____ when my electricity ____?
 ____ need your team's ____ my ____ demands.
 Can ____ tell me ____ part of ____ more ____?
 ____ you study ____ hours for too much ____?
 ____ the most ____ is it possible for ____ team ____ investigate?
 I'd like ____ your team ____ highest ____ usage period.
 ____ possible ____ the periods ____ highest electric consumption ____ day?
 ____ have the ____ electricity in the ____ possible ____ you ____ study it?
 Are ____ able ____ determine ____ I ____ the ____ demand?
 I'd like you to identify ____ highest electrical _____.
 Is it ____ you to figure ____ highest electric consumption ____?
 ____ you ____ me ____ for ____ during my day?
 ____ way for you ____ analyze my peak ____ the day?
 Can ____ tell ____ hours when ____ the most ____?
 Is ____ you to determine ____ electricity usage every ____?
 ____ can ____ my busiest times for _____.
 ____ you tell ____ I ____ the ____ during the day?
 A ____ could analyze ____ electricity ____ in _____.
 ____ you ____ which ____ of ____ use more electricity?
 ____ your team ____ know if ____ use ____ electricity during ____ day?
 ____ you ____ me identify ____ highest ____ usage ____?
 ____ when I need the ____ power?
 ____ possible ____ you ____ periods of highest ____ consumption daily?
 ____ my electricity use ____ assessed by ____?
 Any ____ you can tell ____ the ____ usage?
 ____ study my use of ____ during ____?
 ____ help me ____ out ____ highest ____ use period?
 ____ your team know ____ exact ____ day when I ____?
 I ____ the ____ demanding electricity ____ for you to analyze ____?
 Can ____ me the patterns ____ electricity ____ in a ____?
 Is ____ for ____ identify ____ with the ____ electric ____ per day?
 ____ there a way ____ periods of ____ electric ____ per ____?
 I am ____ your ____ can ____ peak electricity _____.
 Will ____ at ____ usage peaks ____ the day?
 Is ____ locate the periods ____ electric consumption ____ day?
 ____ wonder ____ your ____ would be ____ it ____ high in electricity demand.
 My ____ can ____ analyzed by your _____.
 ____ you ____ when I ____ highest ____ for electricity?
 ____ your team ____ exact hours of ____ when ____ my ____?
 ____ have the ____ electricity ____ the ____ is ____ possible for ____ into it?
 ____ have the ____ demanding electricity ____ day is ____ a ____ to ____ into it?
 ____ help in figuring out ____ used electrical ____ the ____ be _____.
 ____ find out when ____ use ____ most electricity?
 Can you ____ when ____ use ____ most ____?
 ____ it possible ____ you ____ identify periods ____ consumption ____ day?
 Will you ____ identify my highest ____ usage time ____?
 Are ____ able ____ figure out the periods of ____ per ____?

____ my ____ peaks be ____ by your analysts ____ daylight ____?
 ____ analysts ____ out my electric usage ____ day?
 Is it ____ your team ____ exact hours of ____ use electricity?
 ____ have ____ most ____ in the ____ is ____ possible for ____ look ____ it?
 Do you study ____ busiest ____ with ____?
 How can your ____ I ____ electricity than ____ need during ____?
 ____ you know if I ____ the ____ given day?
 Can you ____ when ____ need ____ most ____ power ____ day?
 ____ you ____ excessive ____ needs ____ daytime?
 ____ your ____ evaluate when ____ need ____ power?
 Do you ____ a ____ peak ____ use daily?
 Can ____ tell me when the electricity demand ____?
 Is there ____ my peak ____ usage ____ day?
 Are ____ of determining ____ day I ____ most ____ power?
 Is it ____ for you ____ of ____ when my electricity usage ____?
 Is it possible to ____ of ____ consumption ____ day?
 When ____ in the ____ the day, you could ____ to analyze ____ for electricity.
 When ____ am ____ the middle ____ the day, you could ____ high ____.
 ____ you know ____ of the day uses ____?
 ____ can ____ know if I ____ the day?
 Would your ____ be ____ identify ____ usage period?
 ____ your ____ an ____ the amount of ____ I ____ in ____ day?
 ____ you ____ able to ____ times ____ consumption each day?
 ____ have a way ____ my ____ electricity usage ____?
 Can ____ high electricity usage ____?
 ____ your ____ if ____ use more electricity ____ the ____?
 Is there a ____ determine my ____ energy ____ during ____ day?
 I asked ____ team could analyze my ____.
 I am wondering ____ team ____ identify my ____ usage ____.
 Can ____ part of the ____ uses ____ most power?
 ____ you ____ busiest ____ with electricity ____?
 ____ can find out ____ need more ____ the day.
 How ____ your ____ know ____ I use ____ on ____ day?
 ____ to ____ need the best electrical ____ a single day?
 How can ____ team figure out ____ the day?
 Can ____ at which point ____ I consume the ____ energy?
 Are ____ determine when I ____ electricity in ____ single day?
 Is ____ able ____ out ____ my electricity ____ peaks?
 ____ to figure ____ the ____ of highest electric ____ per ____?
 ____ your ____ to ____ my peak electricity demands in ____.
 Do you ____ your ____ check my ____?
 Can ____ team determine my ____?
 Could ____ the times when I ____ the ____ for electricity?
 Do you know when I ____ the ____ a ____?
 Would you ____ able to analyze my ____ in ____?
 Is it possible ____ to ____ out ____ peak during ____?
 ____ need your help ____ most used ____ the day.
 Is it ____ determine ____ I ____ the ____ electrical power in ____ day?
 Can you ____ about high electricity usage ____?
 ____ can analyze ____ daily ____ of ____?

____ you ____ to ____ out my ____ electricity use daily?
 ____ you ____ of identifying ____ of highest ____ consumption per ____?
 Are ____ able ____ if ____ use more electricity ____ I need ____?
 Do ____ have ____ skills ____ identify ____ of highest ____ per day?
 ____ a ____ can you ____ high electricity ____?
 ____ you ____ hours with ____ electricity usage?
 ____ to help figure out my ____ electrical ____ of the ____.
 ____ have the most ____ electricity ____ is it possible for ____ look at ____?
 Are your ____ going ____ electric usage during ____?
 ____ be great ____ analyze the high ____ for electricity ____ middle of the ____.
 ____ have ____ most ____ electricity ____ can you analyze it?
 ____ experts be able to ____ for electrical use ____ day?
 Is there ____ my peak ____ use during ____ day?
 Would ____ team ____ able ____ analyze ____ I have ____ for electricity?
 ____ you ____ of determining when I need ____ a ____ day?
 Will my electric usage ____ be ____ by ____ analysts ____?
 ____ you ____ when I get ____ most electricity ____ daytime?
 ____ experts may ____ able ____ evaluate my ____ times for ____.
