

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Renewable energy options availability
Inquiry Sub-Category	Green Energy Certification
Description	Customers seek information regarding the certification process and requirements to ensure that the electricity they are receiving is sourced from renewable energy technologies and meets recognized environmental standards.
Data Size	10,141 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ the _____ for certifying green energy sources _____ ensuring they _____ ?
 Is _____ protocol to _____ ensure sustainable power _____ ?
 _____ is certified?
 Is _____ a procedure that will _____ power _____ conforming _____ ?
 _____ be _____ by following environmental _____.
 Can you give us _____ description _____ to _____ power _____ ?
 Can you _____ about _____ for energy alternatives _____ are _____ ?
 _____ the process _____ eco-friendly _____ ?
 There _____ green energy sources
 _____ want _____ if there is _____ way _____ get _____ green _____ sources.
 How _____ you _____ sure _____ energy is _____ ?
 _____ I be sure _____ the sources _____ green _____ meet _____ ?
 How _____ green energy _____ to meet _____ ?
 How _____ green _____ have _____ requirements?
 _____ it possible _____ environmentally _____ protocols are _____ certifying _____ energy?
 _____ there _____ for legalized _____ alternatives _____ to eco standards?
 How _____ green _____ checked to meet _____ ?
 I wonder _____ a _____ to _____ renewable _____ conforming to eco-standards.
 _____ power is _____ environmental conditions.
 _____ energy _____ checked to meet _____.
 How do _____ ensure _____ to eco-friendly standards _____ energy _____ ?
 I _____ know _____ procedure for clean electricity.
 What is _____ process _____ sources that _____ eco-friendly?
 What is _____ and _____ eco-friendly energy sources?
 _____ can _____ electricity _____ while _____ approved standards?
 _____ is _____ certification _____ eco-friendly _____ sources?
 _____ do _____ green _____ sources don't _____ up with _____ environment?
 _____ there any _____ approve _____ that _____ with environmental rules?

_____ you make _____ so-called green energy sources _____ the _____?
 Is there _____ for _____ of _____ to _____ confirmed?
 What is _____ power being _____?
 _____ you _____ that green energy _____ and meet all _____ requirements?
 Is there _____ procedure _____ and ensuring _____ power _____?
 Green _____ is _____ to _____ it meets _____ environmental _____.
 Are _____ sure _____ are _____ when certifying renewable _____?
 What's the procedure for _____ sure _____ eco-friendly?
 How _____ your certification _____ for _____?
 Do _____ certify _____ a way that protects the _____?
 How do you make _____ your green _____ comply _____?
 _____ there _____ to get certified _____ green _____ sources?
 _____ give an explanation of how _____ are _____ and meet _____?
 How is _____ possible _____ options?
 _____ steps are _____ certify _____ sources?
 _____ can you make _____ green _____ sources follow _____?
 _____ know how _____ certification process guarantees adherence _____ environmental _____?
 How can _____ sure _____ energy _____ meet regulations?
 I _____ to know _____ protocol _____ certifying _____ guaranteeing sustainable _____.
 _____ sure _____ energy meets eco regulations?
 What do _____ that green _____ comply with _____ standards?
 What _____ standards _____ power options?
 _____ renewable power gets certified _____ respecting _____ standards?
 _____ me how _____ power can be _____?
 Green _____ environmental _____ is involved.
 _____ certified _____ meet the environmental _____?
 _____ sure that _____ energy complies with regulations?
 How do you certify green energy supplies _____ standards?
 _____ it possible _____ green power _____ following _____ the environment?
 _____ eco-friendly energy sources _____?
 _____ a _____ for _____ and guaranteeing _____ energy sources.
 _____ green power certifications _____ rules?
 _____ the _____ for certifying clean _____?
 How _____ we _____ renewable _____ sources are _____ with _____ regulations?
 What _____ for _____ eco-friendly power?
 How _____ if _____ green energy sources _____ with environmental _____?
 Are _____ sources _____ environmental requirements?
 _____ do _____ sure green energy sources are compliant _____ standards?
 What _____ green energy _____ process _____ does _____ guarantee _____ environmental standards.
 _____ you tell _____ about the _____ certifying green _____?
 _____ can _____ determine _____ energy _____ environmental guidelines efficiently?
 _____ power _____ prerequisites _____ something _____ to be verified.
 _____ I know if _____ sources are _____?
 Is _____ certification _____ for _____ energy?
 What _____ green _____ certification _____ how do you _____ adherence to environmental _____?
 _____ it possible _____ energy sources _____ are _____ friendly?
 _____ tell us how _____ sure renewable _____ sources _____.
 Did you _____ a _____ energy compliance?
 _____ necessary to certify _____ options according _____ regulations.
 _____ approve _____ power while following the _____?

_____ power is _____ against _____ prerequisites

Which procedure is _____ certifying _____?

_____ are green _____ checked?

_____ can you _____ comply with environmental standards?

Can you _____ about the process _____ certifying _____?

_____ can we _____ environmental _____ for _____ sources?

_____ there any _____ renewable energy in accordance _____ environmental _____?

_____ is _____ procedure for certifying _____ power sources _____ being _____?

_____ happens _____ energy _____ certified and checked to meet _____?

_____ the environmental _____ of _____ get confirmed?

_____ it possible to _____ that your eco-friendly _____?

What is _____ certification process and _____ guarantee adherence _____ environmental _____?

The _____ of _____ sources _____ environmental criteria to _____.

_____ is your _____ clean energy _____?

_____ you _____ for certifying and ensuring _____ sources?

_____ am _____ about _____ procedure for clean _____.

_____ is _____ checked for environmental _____

_____ to _____ green energy _____?

_____ do _____ a _____ process for _____ power?

_____ about _____ for _____ responsible energy _____?

_____ can _____ sure _____ energy complies with _____?

_____ do you _____ sure that green power _____?

_____ ensure that green _____ sources _____ environmental standards?

_____ are environmental _____ that must be _____ to _____.

_____ environmental quality of renewables _____?

_____ is the _____ ensuring sustainable power sources _____?

_____ you _____ and make sure _____ compliance?

Let _____ the _____ for _____ renewable power _____.

Is _____ a _____ clean electricity?

How _____ you make sure _____ standards?

How _____ you _____ green energy _____ sustainable?

_____ eco-friendly power sources _____ of compliance?

How do you _____ eco-friendly _____ sources are _____?

Are _____ energy sources _____ all _____ requirements?

Why does _____ energy _____ certified _____ it _____ standards?

Can you tell _____ procedures _____ certifying _____ power _____?

Is _____ possible _____ green _____ sources are certified _____ all the _____?

Green _____ certification _____ meet _____.

I want _____ know how green energy _____ so _____ standards.

What is the process _____ green _____ meet _____ environmental requirements?

How _____ the eco _____ is _____?

_____ green energy is _____ standards

In order _____ renewable _____ steps are taken?

_____ of eco-certification _____ renewable energy _____.

What _____ guaranteeing _____ meets environmental _____.

Green _____ checked _____ to _____ the environmental requirements.

_____ do _____ make _____ that _____ obey environment regulations?

_____ green _____ sources are in _____ with environmental standards?

_____ guarantee that green _____ meets _____ standards?

What about _____ green _____ is in _____ environmental _____?

_____ you outline the _____ used to _____ ensure _____ sources?

Can you help me _____ power _____?

_____ do you _____ that the _____ green _____ don't ruin _____ environment?

_____ is _____ procedure to _____ renewable _____ alternatives _____ to _____.

I wonder if _____ is a procedure _____ certified _____.

_____ can we make sure environmental _____ energy _____?

_____ sure _____ green energy complies with the _____?

_____ standards _____ green energy sources?

What can _____ done to verify and _____ green _____ with _____?

_____ there _____ to _____ certified _____ eco friendly?

_____ does your process confirm _____?

How _____ you _____ the green _____ comply _____ friendly standards?

Do you _____ sure _____ sound protocols _____ certifying _____ energy resources?

_____ renewable sources _____ meet _____.

_____ assure green power by _____ strict _____ guidelines?

_____ to certify green power _____ while ensuring they _____?

Green _____ is _____ meet environmental _____?

How do you _____ sure _____ green _____ are not going _____?

_____ renewable _____ meeting _____ standards _____ certified?

Is _____ for _____ energy _____ line with environmental rules?

How do _____ green energy _____ by _____ standards?

What do you _____ to _____ make sure _____ meet _____?

_____ do _____ that green _____ sources are certified and _____ environmental _____?

_____ protocol used for _____ and _____ power sources?

How is _____ certified, _____ the environment?

_____ you state _____ power is _____?

_____ you do _____ make _____ sustainable _____ comply with regulations?

_____ about guaranteeing _____ green _____ complies _____ the environmental _____?

_____ these green _____ won't mess with the environment?

Should _____ energy _____ be _____ and make sure _____ meet _____?

_____ you ensure the _____ of _____ sources?

_____ eco-friendly power is _____?

I _____ if there _____ a procedure _____ green _____ sources.

How _____ you _____ sources meet all _____ requirements?

_____ me about the _____ for green _____ sources _____ be _____?

What is _____ sure green _____ sources meet _____ guidelines?

What steps must _____ taken to _____ sources fulfill _____ requirements?

What do _____ to make sure _____ energy supplies comply _____?

_____ you able to _____ how _____ achieve _____ for _____ alternatives?

_____ you _____ to certify _____ clean _____ meet standards?

Is _____ process _____ certifying _____ eco-friendly?

_____ a _____ to _____ certain renewable power alternatives _____ to _____?

_____ sure _____ green _____ sources meet enviro standards?

_____ tell me a little about the _____ alternatives?

_____ procedure _____ you use _____ make sure clean _____?

_____ you _____ to make _____ energy supplies meet eco-friendly standards?

What are _____ environmental _____ for _____?

Can you _____ certify clean _____ sources?

_____ to _____ more about the _____ of _____ electricity.

Are _____ for _____ energy _____ line _____ environmental rules?

What are the requirements _____ certify _____ sustainable _____?

What _____ make _____ that _____ sources conform to _____ norms?

Green _____ sources need _____ be _____ comply _____ environmental standards.

_____ verify _____ green energy meets environmental standards?

_____ information _____ eco-certification process.

_____ do _____ certify _____ energy to _____ all environmental _____?

Can we know _____ to _____ renewable energy _____?

_____ how to make _____ power _____ are checked.

There is _____ for green energy _____ be _____ meet _____ requirements.

_____ do you _____ sure _____ energy _____?

How _____ about certifying eco- _____?

Which _____ is certified and _____ requirements?

What are your _____ for _____ energy compliance?

_____ dorenawable power _____ certified _____ ecological _____?

Do you _____ any _____ for achieving certification _____ alternatives?

_____ you ensure _____ green _____ sources are in line _____?

_____ that make _____ energy _____ fulfill environmental requirements?

_____ can the _____ process guarantee compliance _____ environmental _____?

Is there _____ certified _____ energy sources?

_____ eco-friendly standards, what _____ do _____ take _____ green energy supplies?

What process _____ electricity does _____ the environment?

What _____ processes you _____ to certify _____ energy _____?

How _____ tested _____ meet _____ guidelines?

What _____ process _____ making _____ green power _____ are _____.

_____ you ensure _____ the green _____ sources _____ standards?

_____ will you make sure _____ sources _____ with _____ environment?

_____ renewable energy in accordance with rules?

_____ sure certified green power _____ environmental _____?

There is _____ certifying and _____ energy sources.

How can _____ confirm _____ energy _____ and _____ environmental _____?

Is green _____ certified so _____ it _____?

Is it possible _____ green energy gets _____ complies _____ standards?

_____ what steps _____ taken to _____ energy sources?

_____ you certify green _____ sources and _____ meet _____ standards?

How _____ I enforce _____ standards _____ I _____ green _____?

_____ there a _____ certifying green _____?

How do _____ sources meet _____ standards?

Check _____ process _____ make sure they meet environmental _____.

_____ the process of _____ sources _____ are _____ friendly?

_____ should _____ sources be certified _____ eco-friendly?

_____ do certification _____ renewable _____?

Can you _____ us _____ the _____ for _____ energy _____?

_____ certifying renewable _____ does it _____?

_____ you _____ sure that green _____ sources _____ with environmental _____?

How _____ eco _____ for _____ sources?

Green energy _____ certified _____ and _____ with _____ environmental standards.

There is _____ for _____ green _____ environmental standards.

_____ do I _____ green _____?

How do you _____ energy choices _____ with the _____?

_____ that _____ green _____ are meeting environmental standards?

I _____ to _____ environmental _____ renewable energy gets _____.
 _____ can I _____ that _____ energy sources _____ complying _____ enviro standards?
 How _____ you make _____ green _____ sources don't _____ environment?
 _____ you _____ sure that the _____ for _____ renewable energy _____ _____?
 _____ do _____ endorse clean _____ options _____ maintaining ecological _____?
 Do you _____ _____ certify sustainable power _____?
 What _____ you do _____ that _____ supplies comply with _____?
 Is _____ a protocol for _____ accredited sustainable _____?
 Do _____ ensure _____ protocols for _____ are sound?
 _____ make sure that environmental _____ _____ certifying renewable _____ resources?
 How do _____ _____ energy _____ in line with _____ eco-friendly standards?
 What _____ process _____ eco-friendly energy _____?
 _____ there a _____ to _____ renewable power _____ conforming _____ standards?
 _____ you make _____ energy _____ safe?
 How do _____ make _____ those green _____ mess with _____?
 _____ get _____ eco friendly power?
 _____ the _____ certifying green _____ sources.
 Meet _____ criteria; verify _____.
 How do we make _____ friendly _____ meet _____?
 _____ certify green power _____?
 There _____ for _____ sustainable _____ sources.
 Ensuring green _____ meet environmental _____ a _____ certifying.
 _____ us about the _____ energy _____ process _____ how _____ guarantees _____ standards?
 _____ do _____ verify _____ energy is _____?
 _____ for _____ and guaranteeing eco friendly energy _____?
 Did _____ me how environmental _____ of _____ confirmed?
 Is _____ a _____ certifying _____ ensuring sustainable _____ sources.
 How _____ sure green energy sources _____ mess _____ the _____?
 Is _____ a process to _____ a certified _____?
 _____ you certify for _____ power?
 What is _____ you _____ certify clean _____ sources?
 What _____ the certification process _____?
 _____ you able to _____ renewable _____ gets _____?
 _____ we _____ that renewable _____ are _____ with environmental regulations?
 _____ make _____ the _____ is safe?
 _____ you ensure _____ energy is _____?
 Do _____ make sure _____ certifying renewable _____ are safe?
 _____ protocol _____ for certifying and _____ power _____ mentioned?
 How _____ guarantee that _____ sources _____ the environmental standards?
 Verifying green _____ against _____ prerequisites _____.
 _____ is _____ in _____ verification _____ power?
 _____ guarantee that energy sources _____ with environmental _____?
 _____ take steps _____ guarantee that _____ are _____?
 How _____ sure green _____ sources are in compliance _____?
 How do you _____ sure _____ are _____ with _____ standards?
 _____ possible to _____ that your eco-friendly _____ meet _____?
 _____ is _____ includes guaranteeing _____ green _____ is safe?
 _____ there a _____ to _____ renewable _____ to standards?
 _____ do you _____ green power _____ satisfy environmental standards?
 _____ renewable sources _____ meet _____ criteria.

There ____ a specific procedure ____ renewable power ____ to ____.
 What ____ steps you ____ to certify ____ energy ____?
 There is a ____ green ____.
 What ____ you going to ____ to ____ clean ____ meet ____?
 ____ like ____ know about the ____ to ____ power sources.
 ____ you ____ renewable ____ choices according ____ environmental criteria?
 ____ is a ____ legalized ____ power ____ conform to eco-standards.
 ____ do ____ the green ____ sources comply ____ environmental standards?
 What ____ the ____ for ____ and guaranteeing ____ energy ____?
 ____ there ways to approve ____ while adhering ____?
 Is ____ certified to ____ rules?
 Can ____ me ____ the ____ make ____ green energy sources meet all ____?
 What ____ do ____ certified ____ power?
 How are you ____ to ____ those ____ powers ____?
 How can ____ electricity ____ so that ____ doesn't ____ environment?
 ____ you make ____ green energy ____ standards?
 How does ____ for ____ energies ____?
 ____ you make sure ____ green ____ sources ____ the environmental ____?
 ____ you assure ____ green ____ clean?
 There are ____ need to be followed ____ to ____ renewable ____.
 There is ____ procedure ____ conforming ____ to eco-standards.
 Is there ____ procedure for ____ certified ____ energy ____?
 How ____ power be ____ environmental rules?
 How ____ you ____ a ____ process ____ eco-friendly ____?
 ____ is ____ involved in certifying ____ sources?
 ____ make sure that ____ are ____ when certifying renewable energy ____?
 How do you make ____ that ____ is ____?
 Do ____ sure environmentally sound protocols are met ____?
 How do I certify ____ sources ____ enforce ____?
 How do ____ confirm the compliance ____?
 green energy ____ with ____ environmental ____ get certified.
 ____ renewable sources ____ and monitored ____ they conform ____ ecological ____?
 ____ you make ____ followed in certifying ____ energy resources?
 There ____ a procedure to ____ to eco-standards.
 What ____ process for ____ renewable energy ____ in ____ criteria?
 ____ does ____ green ____ certification process ____ environmental standards?
 ____ can ____ guarantee ____ green energy ____ environmental standards?
 Can ____ tell ____ green energy initiatives can ____?
 ____ you ____ that green ____ is compatible with ____ environment?
 Is ____ a ____ to guarantee ____ certify ____ energy ____?
 The process ____ certifying green ____ related to ____.
 ____ are steps to approve ____ with environmental ____.
 ____ there ____ about achieving ____ for ecologically ____ energy alternatives?
 How do you ____ the ____ energy sources ____ to ____ environment?
 Do you ____ sure ____ protocols ____ complied ____ when certifying ____ energy ____?
 ____ will the eco-friendly fuel ____?
 ____ we ____ green energy providers adhere ____ guidelines?
 What ____ of ____ sources that are eco- ____?
 ____ does ____ work for renewable ____?
 ____ do you make ____ green ____ meet the environmental ____?

How should _____ protocol _____ certifying _____ power _____ be used?
 _____ green energy certification guarantee _____ to _____ environmental _____?

What process _____ used _____ certifying _____ energy sources?
 _____ process _____ certifying _____ that _____ eco-friendly.

Is _____ power sources that are eco-friendly?
 _____ is _____ process to ensure _____ energy _____ meet _____ environmental _____?
 _____ can green _____ be certified so _____ it _____ standards?
 _____ us _____ green power _____ certified?
 _____ provide _____ explanation _____ how green _____ certified and meet _____ environmental requirements?

What _____ procedure _____ and ensuring clean _____ compliance?
 _____ there a _____ to make _____ meets eco _____?
 _____ do you _____ green energy _____?
 _____ there _____ way to make sure green _____ follows _____?
 _____ should green _____ be _____ be _____?

I want _____ green _____ is certified so _____ complies _____ environmental _____.

How _____ you going _____ green energy sources _____ environmental _____?
 _____ it possible to ensure green _____?
 _____ you ensure that _____ energy sources _____ eco-friendly _____?

Is _____ possible for _____ guarantee that your _____ meet proper _____?
 _____ the green _____ certification _____ and how it _____ the _____?
 _____ there _____ way to approve renewable energies _____ rules?
 _____ tell _____ steps _____ renewable power sources
 _____ should _____ a _____ for certifying _____.

So _____ certified so it meets _____ environmental _____?

Do _____ sure the _____ for certifying _____ energy resources?
 _____ the protocol _____ for _____ sources?
 _____ you know what is _____ to _____ sustainable _____?

How _____ make _____ green energy _____ violate environmental guidelines?

How _____ we ensure that _____ energy _____ green?
 _____ used _____ certify _____ power sources?
 _____ procedure for _____ renewable power _____ conforming to _____?

What are _____ steps to _____ clean energy _____?
 _____ is _____ used to certify _____ sustainable power _____?
 _____ me _____ the _____ fuel is _____.

_____ you _____ green energy certification process and _____ it _____ adherence to _____?

How _____ green _____ satisfy environmental _____?
 _____ can _____ done to verify green _____ against _____?
 _____ certified by following _____ guidelines?
 _____ a _____ for certifying _____ energy.

How are _____ energy _____ meeting the _____?
 _____ green energy supplies _____ compliant with eco-friendly _____?

Is it possible to _____ the _____ used _____ sustainable _____?
 _____ do _____ energy certification process and _____ it _____ to environmental standards?

Can _____ tell me how _____?

How does the _____ of _____ power _____?

Is _____ to explain _____ get _____ ecologically _____ energy alternatives?
 _____ power gets _____ and how ecological _____ met?

What _____ involved _____ verification of _____?
 _____ the _____ certifying and ensuring sustainable _____ sources _____?
 _____ am looking _____ an explanation of _____ eco-certification _____ for _____.

Green _____ and _____ can _____ certified.
 _____ the _____ for checking _____ power _____
 _____ sure _____ energy sources _____ in keeping _____ environmental standards?
 _____ you _____ the green energy certification process _____ to _____ standards?
 _____ energy initiatives _____ and _____ environmental _____?
 Can _____ me how _____ sources are certified _____ what _____ meet?
 _____ we make sure _____ green power _____ eco-friendly?
 I _____ to know more _____ the procedures _____.
 Can you _____ protocol used _____ ensure sustainable power _____?
 Should _____ used for _____ sustainable power sources?
 _____ you tell me _____ achieving certification _____ eco-friendly _____ alternatives?
 The process for _____ sources.
 How _____ the green _____ comply _____ environmental standards?
 _____ you proof _____ in line with _____ criteria?
 _____ in learning _____ eco-certification process _____.
 _____ you _____ how _____ power _____ certified?
 _____ energy certificates _____ to environmental standards?
 _____ me _____ to make _____ green _____ meet environmental requirements?
 _____ do you _____ eco-friendly _____?
 How to make _____ energy _____ environmental _____?
 _____ you _____ me _____ process _____ energy sources _____ all environmental requirements?
 How _____ you make _____ green _____ don't _____ the environment?
 _____ are _____ to ensure that _____ energy sources fulfill _____?
 _____ a procedure _____ green energy sources?
 Did _____ how to certify _____?
 Can you _____ a _____ achieving certification for _____ energy _____?
 _____ there _____ approve _____ energy _____ to environmental rules?
 _____ is _____ certified while meeting _____?
 How _____ we make sure _____ energy providers _____ the _____?
 _____ do _____ so it's clean?
 _____ do you _____ certify sources of clean _____?
 How do _____ eco-friendly energy _____?
 Who makes _____ your _____ energy _____ in line _____ environmental _____?
 _____ is _____ certification _____ for _____ power _____?
 Is _____ way _____ certify _____ so they follow _____ standards?
 I _____ the _____ used for _____ and _____ power sources.
 _____ you _____ that _____ is in line with eco _____?
 _____ sure _____ green energy sources aren't going _____ ruin the _____?
 _____ there a way _____ get _____ friendly _____?
 _____ do _____ sure green energy _____ with regulations?
 _____ possible _____ outline _____ green _____ certification process _____ adherence to environmental _____?
 _____ do we verify _____?
 What steps _____ taken _____ and certify renewable _____?
 _____ there _____ to _____ green _____ follows eco-friendly standards?
 How do _____ protocol _____ and ensuring _____ power sources?
 _____ do you make sure green _____ with _____?
 _____ are _____ going _____ make sure that _____ energy _____ standards?
 How _____ green _____ be certified _____ to _____ environment?
 Is it possible to _____ the _____ procedures for _____?
 _____ rules _____ be followed when approving renewable _____.

____ do ____ standards ____ green energy sources be ____?
 ____ to ____ your eco-friendly options ____ proper ____ regulations?
 ____ of ____ eco-friendly ____ is not known.
 How ____ certification process done?
 How ____ check ____ eco energy ____ safe?
 What ____ to certify ____ power sources ____ with ____ standards?
 Green ____ supposed to comply ____ environmental ____ get certified.
 ____ give me information about how renewable ____?
 Is ____ a ____ certify ____ energy ____ follows ____ standards?
 ____ there ____ to ____ renewable power ____ certified while meeting ____ standards?
 ____ you get to ____ sources?
 ____ should you ____ to ____ energy supplies?
 How do ____ is appropriate?
 ____ make sure that ____ energy sources ____ the environment ____?
 ____ can you ____ sources ____ standards?
 How do ____ make ____ energy supplies ____ eco-friendly ____?
 Is ____ protocol for ____ green ____.
 ____ is ____ to certify and ____ energy sources?
 ____ process ____ guaranteeing eco-friendly ____.
 I ____ green ____ process guarantees adherence to environmental standards.
 How does the ____ for ____?
 ____ certification of ____ sources done?
 ____ does ____ renewable energy choices?
 How ____ you make sure eco ____ and ____?
 How can we ____ sure ____ are eco-friendly ____ them?
 There ____ take to ____ clean energy ____.
 ____ you certify eco-friendly power ____ confirmation ____ compliance?
 ____ there ____ explanation ____ process for renewable energy?
 ____ ensure ____ energy is sustainable?
 ____ us how to ____ green ____ while ____ the environment ____?
 ____ make ____ that the ____ are followed when ____ renewable energy ____?
 How ____ certify green ____ comply ____ environmental standards?
 ____ is ____ with green power verification ____?
 ____ eco-certification ____ related to renewable ____.
 What ____ involved in determining ____ environment?
 Is ____ a ____ for certifying ____ Ensuring ____ power sources?
 ____ you ____ that green ____ are not going to ____ with the ____?
 ____ can ____ eco-friendly fuel ____?
 To confirm ____ with ____ are ____ to certify ____ energy sources?
 ____ the ____ for making ____ compliance?
 ____ does ____ to certify power options ____ sustainable?
 There ____ a ____ for getting ____ energy ____.
 How are ____ done?
 Does there a ____ for certifying ____?
 What can we ____ sure that environmental ____ are ____?
 ____ do ____ ensure ____ green energy ____ fulfill environmental ____?
 ____ can ____ sure ____ the energy ____ is clean?
 ____ is ____ inspected ____ meet environmental ____?
 ____ do ____ make ____ sustainable ____ sources comply with ____?
 What ____ steps ____ to ____ that ____ sources meet ____ requirements?

How ____ we ensure ____ green energy ____ meet ____?

What ____ you take ____ make ____ green energy ____ rules?

____ we ____ sure ____ energy sources ____ the requirements?

____ is a ____ to legalized renewable ____ alternatives ____.

____ is ____ so ____ can meet environmental standards?

Is ____ possible ____ get certification ____ ecologically responsible energy ____?

There ____ procedure ____ permitting renewable power ____ eco-standards.

How does ____ of ____ sources ____?

____ you check ____ energy ____ good?

____ green power ____ by ____ strict ____ guidelines?

____ you know ____ guarantees ____ the ____ proper certification?

How ____ clean ____ sources to meet ____?

____ are ____ certify power options ____ are sustainable?

____ a ____ to make ____ green power is ____ environmental guidelines?

What ____ to ____ clean energy ____.

____ do ____ ensure the environmental standards ____ sources?

How ____ you ____ that ____ energy ____ meet environment ____?

____ a ____ for certifying green ____ that ____ eco-friendly ____?

To ____ environmental ____ how is ____?

____ can you ____ energy sources comply ____ environmental standards?

What ____ process for ____ clean ____.

____ can ____ sure green ____ eco friendly?

How ____ you certify ____ energy supplies ____ with ____?

What is ____ process ____ green ____?

In ____ does certification ____ energy?

____ it ____ to certify clean ____ standards?

____ do ____ make sure ____ so-called ____ ruin the environment?

Do you make sure ____ met for ____ energy?

How do you ____ energy sources ____ with ____?

____ does ____ eco-friendly ____ to be ____ for?

____ you ensure that ____ energy ____ are compliant ____ eco-friendly ____?

Is ____ any method ____ certifying ____?

Can ____ the process ____ approve ____?

____ process is ____ certifying ____ power ____?

Is ____ a ____ to ____ certified and ____ all environmental requirements?

____ way ____ renewable ____ alternatives that are ____ to eco-standards?

____ a ____ get ____ environmental energy sources?

How ____ the ____ renewable ____ choices work?

____ your ____ do to confirm ____ energy choices?

____ do you ____ that green energy ____ are ____ standards?

____ is ____ to ____ and ____ clean energy compliance?

____ do ____ how renewable power ____ certified?

How ____ for ____ power?

____ you tell ____ how the ____ of ____ gets ____?

Green ____ must ____ make ____ eco-friendly.

Can ____ tell me ____ power is ____ with environment ____?

____ are ____ steps for certifying ____ guaranteeing ____ sources?

How should ____ energy supplies be ____ with ____ standards?

What ____ you ____ make sure ____ green ____ sources comply ____ eco-friendly ____?

____ an ____ of ____ certification process for ____.

_____ there _____ renewable energy _____ accordance _____ environmental rules?
 Do _____ make _____ protocols _____ when certifying _____ energy resources?
 _____ a _____ to _____ power sources.
 _____ you ensure _____ is green?
 _____ certification _____ energy choices has environmental _____.
 _____ energy certification _____ guarantee adherence _____ environmental standards?
 I _____ about the _____ clean electricity.
 _____ process used _____ certify green _____ comply with environmental standards?
 What _____ to make green _____ sources _____ requirements?
 What is _____ certifying green _____ that are _____?
 What's the process of _____ sources?
 What _____ the _____ guaranteeing _____ certifying eco-friendly _____ sources?
 What _____ verification _____ guaranteeing _____ meet environmental _____ include?
 How _____ sure _____ choices conform to established environmental _____?
 _____ you _____ power is certified?
 _____ guarantee environmental _____ for _____ energy sources?
 _____ you make _____ guidelines are followed _____ energy?
 _____ there a _____ achieving _____ for ecologically _____ energy alternatives?
 How _____ you make _____ green _____ sources _____ environmental _____?
 How do you _____ that _____ energy _____ are compatible _____?
 _____ is _____ process for _____ green _____ to _____ harm _____ environment.
 Tell _____ what _____ the _____ certified?
 What _____ required _____ sustainable _____ options?
 How can green _____ be certified and _____ environmental _____?
 _____ the _____ processes _____ eco-friendly _____ done?
 Can _____ learn _____ about the certifying _____ for _____?
 Tell me how eco-friendly _____.
 _____ ensure that _____ energy sources _____ with environmental standards?
 Can you tell me _____ energy sources are _____ and _____?
 Eco-friendly _____ can be _____.
 How about _____ for certifying _____ sustainable power _____?
 Do you _____ sure the _____ are followed _____ renewable _____?
 _____ should be certified to _____.
 _____ you _____ sure _____ energy is _____?
 _____ you _____ green energy meets _____ rules?
 _____ I _____ green energy _____ eco-friendly?
 _____ can green energy _____ verified _____?
 Can you tell me _____ the _____ has _____?
 _____ there any information _____ how renewable _____?
 _____ do _____ sure _____ so-called _____ sources are _____ messing with the _____?
 How _____ green _____ certified _____ that _____ can _____ all environmental _____?
 Is _____ a _____ to ensure that green _____ is _____?
 How _____ you _____ energy sources are following _____?
 How _____ we confirm _____ environmental regulations _____ energy _____?
 What about _____ is _____ environmental requirements?
 _____ do _____ environment by certifying green energy _____?
 _____ how _____ eco-friendly fuel will _____.
 Can _____ help _____ understand _____ to _____ green power?
 _____ the _____ used to _____ ensure _____ power sources _____?
 Can _____ power _____ confirmed _____ meet _____?

How do ____ make sure ____ green ____ not ____ the environment?

What do ____ do ____ make ____ meets regulations?

____ is ____ process for ____ guaranteeing eco-friendly ____ sources?

What ____ we do ____ that ____ energy sources fulfill ____?

____ do ____ sure that green ____ with environmental ____?

What ____ to make ____ sources are meeting standards?

Ensuring meeting ____ how ____ certification work for ____?

certifying and ensuring ____ your procedure?

The ____ for ____ green energy ____ environmental ____.

How do ____ get ____?

____ does the process ____ certifying ____ power ____?

____ you ____ about how environmental quality ____ renewables ____?

How do ____ ensure ____ process is ____ with environmental standards?

____ you ____ to ____ how to approve ____ power while ____?

How ____ make ____ the ____ energy ____ good?

____ verify ____ process, meet environmental ____.

____ your ____ certification of eco-friendly ____?

How ____ green energy sources ____?

I'd like ____ know ____ for certifying clean ____.

How do you ____ green ____ eco-friendly?

____ is a ____ for certifying and ____ sources.

____ can ____ initiatives ____ certified?

____ you tell me about the ____ certification ____ and ____ to ____?

Are green ____ to ____ all ____?

Green ____ needs to ____ guaranteed that ____ meets ____.

Can I know more about ____ for ____?

____ it possible ____ certified ____ sources of ____?

What ____ do ____ take to ____ that the ____ are ____?

____ about ____ green energy ____ certified.

____ you make sure ____ complies with environmental standards?

____ can green ____ be ____ and ____ for environmental ____?

What ____ the ____ for certifying ____?

____ can you make ____ eco energy ____ good?

____ to be sure that green ____ meet ____ standards.

____ there ____ in place ____ energy?

____ can ____ approve green ____ obeying ____ rules?

____ do you ____ energy ____ don't hurt the ____?

Are ____ procedure ____ certified ____ energy sources?

____ you have ____ description of ____ power ____ certified?

Does ____ include guaranteeing that ____ meets ____?

____ you tell me ____ certifying ____ clean electricity?

How ____ confirm ____ in accordance with ____ criteria?

____ is the protocol ____ certifying ____ sustainable ____ sources?

____ don't ____ if green ____ sources ____ certified and ____ standards.

Is it ____ renewable energy in ____ environmental rules?

____ is ____ procedure ____ eco-friendly power ____?

How ____ if green energy ____ standards?

____ you make renewable ____ in line ____ environmental criteria?

____ you ____ the ____ to certify ____ power sources?

How do you ____ green ____?

_____ do you _____ sure _____ energy _____ are not bad _____ ?

How do you assure _____ meet _____ ?

_____ the steps _____ renewable energy _____ ?

_____ be possible to _____ certified green _____ following strict _____ .

_____ do you make sure _____ is _____ eco _____ ?

How does _____ energy _____ certified _____ order _____ meet _____ standards?

_____ do _____ certify _____ energy _____ complies _____ eco regulations?

_____ do _____ make _____ that sustainable _____ of energy _____ the _____ ?

_____ do you _____ green _____ complies with environmental _____ ?

Which _____ are _____ certify green _____ sources _____ satisfy _____ standards?

_____ is green _____ to meet _____ ?

How _____ power get _____ ?

_____ is it that needs _____ be done _____ sustainable _____ ?

_____ tell _____ about _____ procedure for certifying _____ power _____ ?

How _____ we make sure _____ green _____ sources _____ environmental _____ ?

_____ you certify _____ green _____ ?

_____ steps are _____ taking to _____ sure _____ clean _____ sources _____ ?

_____ you give us _____ idea _____ to _____ green _____ sources?

How _____ you check _____ compliance?

_____ a protocol _____ of green _____ ?

_____ is _____ for _____ sure green energy _____ meet environmental _____ .

What do _____ do _____ make _____ green energy _____ are _____ standards?

_____ do you certify _____ power sources _____ standards?

_____ you _____ me how _____ approve _____ power and _____ rules?

How _____ I _____ that the sources _____ energy _____ clean?
