 ____ can ____ company ____ accidental ____ by internal errors?
 How do the ____ deal ____ exposure ____ caused ____ activity?
 How ____ the ____ respond ____ exposure and malicious ____?
 ____ it's ____ there's ____ or accessibility ____ malicious activity, what ____ the PIC do?
 What measures do you take ____ exposure ____ errors?
 How ____ a ____ an ____ exposure?
 How ____ it be ____ there's an inside ____ that causes ____ with exposed ____?
 How ____ handle cases ____ accidental exposure ____ by ____?
 What ____ do ____ they ____ there ____ accidentally ____ or accessibility due ____ activity?
 How ____ the ____ exposure from ____ or malice?
 ____ internal errors or malicious ____ what measures ____ the PIC ____?
 What should ____ there is ____ due ____ internal errors?
 How ____ PIC ____ with incidents ____ vulnerability ____ internal mistakes?
 ____ is ____ if someone within ____ organization causes an ____?
 What ____ taken to ____ accidental ____ due to internal ____?
 What ____ taken ____ resolve accidental ____ caused ____ internal mistakes ____ PIC?
 ____ PIC have ____ specific ____ to internal ____ data breaches?
 ____ does PIC ____ to ____ exposure?
 What is the ____ to accidental ____ errors?
 ____ someone ____ your ____ causes ____ issue, how is it ____ at ____?
 ____ does PIC ____ an ____ error?

_____ a _____ breach _____ to in-house errors _____ activity, _____ do PIC _____?

What should _____ when dealing with _____?

_____ steps taken to resolve _____ exposures _____ PIC _____ by internal _____?

How does PIC _____ to _____ situation _____ by _____ internal _____ malice?

_____ you tell _____ about the _____ taken _____ the _____ in _____ of innocent _____ inducing _____?

_____ PIC do to make _____ exposure/accessibility violation?

_____ do the _____ with accidental exposure or _____ problems _____ by _____?

How do you resolve accidental _____ at _____?

Can _____ tell me _____ is _____ addressing internal errors and malicious activity _____ exposure?

If _____ a security _____ by _____ or _____ does the PIC take?

When _____ or _____ exposure, how does PIC respond?

_____ does _____ deal with _____ data _____ from internal errors?

_____ fixed if _____ in _____ causes an exposure/accessibility problem?

_____ there _____ errors or malicious _____ steps does _____ take?

How _____ respond _____ data vulnerabilities _____ by _____ mistakes?

If _____ is a security _____ to _____ criminal _____ steps do the PIC _____?

_____ does the PIC _____ accidental _____ or _____?

How _____ company deal with _____ or access problems _____ errors?

_____ that _____ an accidental _____ compromise because of _____ errors, _____ do _____ do?

_____ case _____ exposure/accessibility breach _____ to internal _____ are the PIC's _____?

What _____ should _____ resolve accidental _____ loopholes caused _____ internal mistakes?

_____ are _____ actions taken _____ deal _____ accessibility issues _____?

If there is _____ exposure from _____ errors, _____ PIC _____?

Can _____ me how to _____ errors _____ activity _____ lead _____ accidental exposure?

Is _____ explain the protocol _____ errors _____ that _____ lead to accidental exposure _____ access breaches?

When it's found _____ there _____ accidental _____ accessibility due _____ malicious _____ PIC _____?

When _____ that there's accidentally _____ due _____ malicious _____ you do?

_____ do _____ remedy the situation _____ accidental _____ violation?

_____ deal with unauthorized access _____ mistakes made _____ the _____?

How does _____ with data _____ internal mistakes?

If _____ a _____ issue _____ or criminal _____ what steps does _____ take?

_____ company _____ result _____ unauthorized access, _____ do you deal _____ that?

How do you _____ the protocol for addressing internal errors _____ malicious _____ to _____?

How _____ with _____ data vulnerabilities caused _____ internal _____?

How _____ the company deal _____ exposure that _____ caused _____?

What _____ taken _____ resolve _____ exposures caused by _____ mistakes _____ the _____?

_____ PIC _____ with accidental exposure _____ internal _____?

Is _____ possible that your _____ instances _____ violations _____ or malice?

What do PIC do _____ there _____ compromise due _____ errors?

How do _____ fix _____ situation _____ accidental exposure/accessibility _____ occur?

_____ an _____ exposure/accessibility _____ happens _____ to _____ what do PIC _____?

When accidental exposure _____ because _____ or malicious activity, _____ PIC implement?

_____ thePIC do if there _____ to internal errors?

_____ happens when internal _____ cause accidental _____?

PIC _____ accidental _____ internal errors and _____

Do you _____ an explanation for _____ your _____ internal _____ accidental exposure _____ our information?

How _____ be _____ there is an inside _____ causing _____ exposed information/restricted _____ violation?

_____ does _____ handle incidents _____ data _____ by internal _____?

_____ the _____ of _____ exposure/accessibility _____ due _____ internal _____ does the PIC take?

_____ actions are _____ PIC when _____ are internal?

_____ will _____ there is an _____ accident _____ exposed information/restricted access _____?
 _____ should _____ PIC _____ when they have to _____ with _____ internal exposure?
 What measures _____ the PIC _____ internal errors or _____ activity?
 _____ accidentally exposure or accessibility _____ malicious _____ what does _____ PIC do?
 There _____ an _____ exposure/accessibility compromise _____ to _____ so what do _____?
 If _____ security _____ to in-house _____ criminal activity, _____ is the _____ response?
 _____ it _____ if _____ within your _____ causes the exposure _____?
 _____ should _____ PIC do _____ there _____ an _____ malicious activity?
 _____ there _____ accidental exposure or accessibility compromise due _____ internal _____ do _____?
 _____ way _____ accidents inside _____ that can lead to unauthorized access?
 When it's _____ accidental _____ access _____ to _____ activity, what do PIC _____?
 Is the PIC _____ respond _____ accidental _____ by internal _____?
 When there _____ a accidental _____ compromise _____ errors, what do _____?
 _____ actions taken by _____ breeches are internal?
 Accidental breeches _____ mistakes _____ how does PIC handle it?
 When there is an accidental exposure/access _____ to _____ errors, _____?
 What _____ PIC do if they _____ to _____ with _____ activity?
 How _____ with _____ access _____ there are internal _____ malice?
 Unauthorized _____ from _____ made within _____ how does PIC _____?
 How will it _____ there's an _____ mistake that _____ a _____ information?
