

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Check engine light is on
Inquiry Sub-Category	Overheating Problems
Description	Customers contacting the auto repair shop for help with check engine light concerns resulting from engine overheating, potentially caused by problems with the cooling system or thermostat.
Data Size	5,114 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

Is _____ engine _____ on due _____ an overheating _____ my _____ system?
 _____ if the _____ engine light _____ caused _____ a malfunction of _____.
 Engine _____ is _____ and _____ overheating the _____ system.
 _____ is possible _____ the _____ light is telling _____ the _____ is _____.
 It's possible _____ engine light _____ there is _____ in the _____.
 I _____ wondering _____ engine _____ caused by my cooling _____.
 I was wondering if my _____ cooling system _____ the _____.
 _____ my _____ checked _____ light _____ that _____ system is malfunctioning?
 I was wondering _____ the _____ could be _____ a _____ issue.
 _____ the engine light come _____ cooling system?
 Is the check engine _____ me _____ cooling _____ too _____?
 Could _____ light be caused by _____ system?
 Is my _____ light telling _____ problem in the _____?
 _____ wondered if _____ was caused _____ overheating cooling system.
 Have cooling _____ problems _____ a lit _____?
 Is an _____ coolant system _____ reason _____ the illuminated _____ indicator?
 The check _____ be telling _____ the _____ is overheating.
 Is the _____ telling _____ system is overheating?
 _____ the check _____ on because _____ car's _____ system _____ malfunctioning?
 _____ was wondering _____ the check engine light _____ to _____ car's _____ off quickly.
 _____ the check engine _____ due to _____ car's malfunctioning _____ system.
 Is _____ check engine light that _____ my _____ system _____?
 _____ telling _____ that the cooling _____ getting too hot?
 _____ illuminated _____ engine _____ my _____ could suggest a heat-related _____ with _____ system.
 I _____ wondering _____ the _____ engine light _____ caused _____ cooling system not cooling _____.
 I wonder _____ illuminated _____ because _____ an _____ my car's coolant system.
 _____ a check engine _____ of overheating _____ the cooling _____?
 _____ light on, overheated _____?

There's ____ chance ____ check engine ____ illuminates ____ to ____ overheated ____.

____ know ____ a malfunctioning ____ is ____ the check ____ to illuminate.

My ____ cooling system ____ my check engine light ____.

Is ____ check engine light on ____ cooling ____ malfunctioning?

The ____ engine light may ____ an overheating ____ the ____ system.

____ was wondering if the ____ light ____ system being malfunctioning.

Is the check ____ indicative of ____ on ____?

____ the cause of the ____ engine' fault?

____ engine ____ due to the ____ cooling system?

____ if ____ check engine light is signalling ____ overheating ____ with ____?

____ it ____ that ____ check engine light tells me that ____ system ____?

____ a ____ that ____ vehicle's ____ engine ____ to an overheated coolant?

____ engine ____ mean ____ my car's coolant system is ____.

____ causes ____ engine light problem?

____ check engine signaling ____ cooling ____?

I was ____ if ____ engine light ____ cooling System issue.

Is the red light on ____ of ____ system overheating?

____ vehicle's checked engine light indicating that ____ overheating?

____ cooling system causing the ____ engine ____ to ____?

My check ____ light ____ related ____ the car's ____.

____ is ____ the ____ light illuminates ____ to ____ overheated cooling ____ in my vehicle.

Are my ____ engine light ____ a ____ system ____?

Is there a ____ the ____ engine ____ because of an ____ system ____ my ____?

Check ____ by ____ cooling ____?

Does ____ motor ____ cool trouble?

____ the ____ engine ____ from the overheating cooling system.

I ____ wondering ____ check engine light ____ due ____ the ____ system ____.

I ____ if ____ check engine ____ indicative of ____ in ____ cooling ____.

____ the check engine ____ due to my ____?

I was ____ check ____ could ____ been caused by ____ cooling system ____.

Is my vehicle malfunctioning due ____?

____ was ____ if the check engine ____ to the malfunctioning ____.

Does ____ check engine ____ that my car's ____ system ____?

____ wondering if the engine light ____ caused ____ system ____.

____ overheated ____ by the check engine?

I wonder if ____ is due ____ the ____ problem.

____ illuminated check ____ indicator ____ due to an ____ car's ____ system.

____ was wondering ____ car's ____ was malfunctioning ____ to the ____ light.

Is ____ overheating ____ the coolant ____?

____ the ____ indicator the result of an issue ____ car's ____?

My ____ light ____ of overheating in the cooling ____.

Is the illuminated ____ engine ____ symptom of a heat-related problem with ____?

Is ____ checked engine light telling ____ cooling ____ is ____?

____ the ____ light ____ because of the cooler ____?

Is ____ red ____ caused by an ____ problem in ____ system?

Is my ____ an issue ____ the coolant?

I ____ wondering if ____ engine ____ due ____ cooling system issue.

Is the ____ related ____ a ____ system issue?

____ the engine light ____ on ____ cooling system?

I ____ check engine is signaling ____ setup.

_____ car's cooling _____ causing check _____?

_____ let me _____ the check engine _____ caused by _____ malfunctioning _____ system?

The _____ engine _____ is _____ because my car's cooling _____.

_____ was _____ the _____ to my car's _____ system not cooling down fast enough.

Is _____ check engine _____ that _____ cooling _____ is overheating?

Is _____ indicator likely caused by _____ my car's coolant _____?

_____ the _____ engine _____ because _____ the cooling system _____?

_____ car's cooling system _____ check engine _____ come on?

Does _____ check _____ come on because my car's _____?

I wonder _____ engine light _____ to _____ overheated _____ in _____ car.

_____ coolant issue causing _____ warning?

Is my car's red _____ a _____ of an _____ problem _____.

_____ engine light signalling a _____ the cooling system?

_____ engine that is _____ overheated cooling?

I _____ light _____ caused by my cooling system problems.

_____ wondering _____ the check _____ light was _____ the cooling system _____.

My car's check _____ might _____ an _____ issue _____ cooling system.

Does _____ check _____ show overheating in _____ cooling _____?

I _____ if the _____ due to the _____ system _____ cooling down as quickly

Is _____ engine _____ the _____ system in my car?

_____ by _____ cooling _____ check _____ light _____?

There is a _____ that _____ engine _____ to the _____ coolant in _____.

_____ check engine light was caused _____ the cooling _____ issue.

Does _____ check Engine light _____ because _____ is malfunctioning?

_____ my car's _____ malfunctioned?

_____ illuminated check-engine _____ due _____ a _____ the car's cooling _____?

Is _____ possible that _____ check _____ of an _____ cooling _____ in my _____?

I wonder if the _____ engine light _____ me _____ is _____ hot.

Is _____ illuminated check engine indicator _____ an _____ coolant system?

_____ warning _____ there is a _____ with the coolant _____?

Is _____ possible my _____ check _____ light is _____ me that my _____?

_____ the check _____ come from _____ system?

The check _____ of the cooling system _____ the _____.

_____ if _____ check engine symbol _____ symptom of a heat-related problem _____ the coolant _____.

_____ check _____ light due _____ the _____ cooling system?

Is my car's check _____ of a _____ with _____ system?

I was _____ engine light _____ due to the _____ system not _____.

I _____ the check engine _____ was caused _____ system.

_____ wonder _____ the _____ engine _____ is an indication of an _____ issue _____.

_____ the engine _____ tells _____ that _____ a _____ issue it might be _____ it's _____.

I _____ if the _____ an issue with _____ cooling system.

It's possible _____ the illuminated _____ my _____ a heat-related problem _____ its coolant system.

_____ there _____ overheating issue _____ cooling _____ of _____ car?

_____ if the check engine light was _____ result _____ the _____ cooling _____.

_____ wondering if _____ check _____ light _____ a malfunctioning cooling _____ in my _____.

I'm wondering _____ engine light is related to _____.

Is _____ a _____ that the check _____ due _____ an _____ Coolant?

I was wondering _____ check engine _____ was a reflection _____.

Is _____ 'check _____ fault tied to _____ system?

I _____ wondering if the _____ light was due to _____ with _____.

The ____ check ____ may suggest ____ heat-related ____ with ____ system.

____ check ____ is signaling an overheated ____.

____ check engine light was ____ of the problem with ____ cooling ____.

____ check engine ____ have been caused ____ a cooling system malfunction.

____ a check engine ____ indicative of ____ system ____?

"Is ____ vehicle's ____ light ____ me that the ____ system is ____

Is the check ____ by ____ of ____ car?

____ if the check ____ light was the ____ of ____ the cooling ____.

It ____ possible that the illuminated ____ engine ____ a ____ of a ____ problem ____ the ____.

____ engine light tells ____ is ____ cooling system ____ be because it is overheating.

____ engine warning ____ the ____ issue?

____ check ____ light due to ____ cooling ____?

____ on: ____ messing ____ cooling system.

____ illuminated check-engine ____ be ____ to an issue with ____ car's ____.

Is the ____ light ____ my cooling system ____?

____ wondered ____ the check ____ light could ____ by a malfunctioning ____.

I want to know if a malfunctioning cooling system in ____ car ____.

____ a check ____ light ____ of overheating ____ system?

Is an ____ with ____ car's ____ reason ____ the ____ engine indicator?

Is ____ red light ____ symptom ____ cooling system ____?

I wonder ____ check engine ____ my ____ a sign of a heat-related ____ with ____.

It's ____ check ____ symbol in my ____ is related ____ a heat-related problem ____ coolant ____.

Is ____ car's ____ light telling me that ____ is ____?

Did ____ problems cause ____?

I was wondering if my ____ the check engine ____.

I ____ if that is ____ issue with ____?

____ check ____ could ____ caused by the cooling ____.

Do the car ____ trouble?

I ____ wondering ____ the check ____ light was ____ the cooling ____.

____ my ____ engine ____ telling ____ that its ____ is overheating?

The ____ light could ____ the ____ of a ____ malfunction.

Is ____ engine ____ triggered ____ coolant ____?

____ if an ____ with my car's ____ is ____ the illuminated ____ engine ____.

There is a chance ____ light ____ to the overheated ____.

Is ____ light ____ because of my car's ____?

I ____ if a cooling system malfunction could ____.

Is ____ car's check engine light ____ a ____?

____ the ____ cooling ____ overheating?

If ____ check engine light ____ caused ____ I was wondering.

Is my ____ me ____ the cooling system is ____ trouble?

Is there a ____ light ____ cooling ____?

Problem ____ car's ____?

____ the ____ overheated due to ____ coolant ____?

I ____ wondering if the check engine ____ by ____ problem

____ a ____ engine light ____ that the ____ system is ____?

____ possible that ____ illuminated check ____ car suggests a heat-related problem ____ its ____ system?

____ the ____ check ____ a ____ of a heat-related ____ with the car's ____?

Is there ____ engine ____ illuminates due ____ an ____ cooling system?

I was wondering if the ____ system not cooling off.

____ a ____ engine light can ____ due to an overheated ____?

Is there _____ that _____ engine _____ illuminates due to _____ overheated _____?

I _____ the check engine _____ caused by _____ system _____.

_____ it possible that _____ check-engine indicator _____ related _____ my _____ system?

_____ the engine warning caused _____?

_____ engine _____ linked to car's cooling _____?

I _____ curious _____ the check engine _____ have _____ a _____ system malfunction.

Is _____ light signalling an overheating issue _____ the _____?

According _____ vehicle's _____ engine _____ cooling system _____ overheating.

_____ car's red light _____ symptom of an overheating problem _____?

I _____ the _____ engine _____ was _____ result _____ a cooling system _____.

_____ the check engine _____ because of _____ of _____ car's _____?

_____ light _____ could _____ be _____ cooling system?

_____ engine _____ that there is a cooling system _____ it could be _____.

_____ the _____ light indicating overheating _____ cooling system?

I _____ if _____ check engine _____ could be related _____ malfunction.

_____ wondered _____ the _____ engine light _____ of my car's _____ not _____ down as _____.

I asked if _____ engine _____ to _____ the cooling system.

Does _____ engine _____ mean that _____ car's coolant system _____?

_____ is possible that _____ illuminated _____ engine symbol _____ a _____ of a problem with _____ system.

_____ the _____ engine _____ a _____ the car's cooling _____?

I was _____ if the check _____ caused _____ my car _____ down _____.

Is _____ engine _____ because my car's cooling _____ is _____?

Does the _____ tell _____ cooling system is _____?

_____ if the check engine _____ was _____ of _____ system.

_____ the check _____ light _____ due _____ system malfunctioning?

Is the _____ engine' _____ down to _____?

If _____ light _____ there is a _____ system issue it _____ be _____ it is _____

The engine may _____ overheated _____.

_____ check _____ fault linked _____ the car's engine _____?

Is _____ check _____ light _____ my car's cooling system _____?

I was wondering _____ the _____ caused _____ check _____ light.

If _____ engine _____ cooling system _____ it is probably because it _____ overheating.

Engine light _____ overheating _____?

I wonder if _____ illuminated check engine _____ my _____ a _____ related _____ with its _____?

_____ was _____ if the _____ was _____ to _____ cooling system _____.

It _____ that the _____ is _____ the system _____ overheating.

_____ possible _____ check engine light _____ overheating issue with the _____.

_____ check engine light _____ on because _____ malfunctioning cooling system?

If the _____ light _____ that there is _____ cooling system _____ may _____ is overheating.

Is it possible _____ check _____ signal _____ triggered _____ cooling system _____?

_____ checked engine _____ telling _____ my cooling system _____ malfunctioning?

_____ car's cooling system fail _____ the check engine _____?

_____ the check _____ fault have to _____ car's _____ system?

_____ motor _____ hot cool trouble?

I _____ if _____ cooling system _____ was to _____ engine light.

Is the illuminated check- _____ indicator _____ with _____ car's _____ system?

My car's cooling _____ engine _____ was _____?

_____ check _____ on because of _____ my _____ cooling system?

Is _____ to car's cooling problems?

_____ check engine light _____ overheating in _____.

_____ was wondering if the _____ light was _____ symptom _____ a _____ .
 _____ it be that my _____ engine _____ indicates that _____ system _____ ?
 _____ a possibility that the _____ engine _____ due to _____ coolant?
 Is _____ check _____ light _____ of _____ issue _____ my cooling _____ ?
 _____ the check engine light was connected _____ a cooling _____ .
 Could _____ tell _____ check engine _____ to _____ malfunctioning cooling system?
 I asked if _____ was _____ by _____ system issue.
 Can you confirm _____ engine light _____ coming on _____ a _____ system?
 Could _____ light _____ the cooling system is overheating?
 Does _____ motor light _____ cool _____ ?
 The check _____ cooling setup
 _____ coolant _____ the _____ may _____ overheating.
 I wondered _____ was _____ to _____ cooling system overheating.
 _____ is a _____ the check _____ illuminates due _____ an overheated _____ .
 _____ car's cooling _____ cause _____ ?
 If _____ engine light tells _____ that the _____ system _____ be _____ overheating.
 _____ check engine light suggest _____ overheating _____ the cooling _____ ?
 Is my vehicle's _____ telling _____ my _____ system _____ ?
