

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Vehicle overheating and coolant loss
Inquiry Sub-Category	Water Pump Malfunctions
Description	In this category, customers seek guidance on diagnosing and repairing problems with the vehicle's water pump, which may fail due to worn bearings, leaks, or other issues. These malfunctions can result in coolant loss and engine overheating.
Data Size	5,051 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

What ____ the ____ of a ____ in ____ pump?

There are ____ regarding ____ inside your water ____.

____ detect ____ water ____ bearings?

I need to ____ what signs ____ of ____ bearing on ____.

If the water pump ____ a worn bearing, there ____ to ____.
