

[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Brake pedal feels soft or spongy
Inquiry Sub-Category	Air in the brake system
Description	Inquiries related to air in the brake system involve customers experiencing a spongy brake pedal due to air bubbles. These inquiries typically require a brake system bleeding procedure to remove the air and restore the proper brake pedal feel.
Data Size	5,125 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

____ my ____ pedal ____ because of air ____ system?
____ brake ____ soft because ____ in the system?
____ air in the system ____ a ____ brake pedal?
____ it the ____ in ____ brakes ____ leads ____ sponginess.
Do ____ have air in them, ____ them ____?
____ air ____ pedal weak?
Is ____ making ____ soft?
There ____ be ____ air ____ my ____ sponge.
Does ____ brakes affect ____ pedal ____?
Is it any ____ soft?
____ it ____ in the ____ causes sponginess?
The sponge-like ____ upon pressing ____ could ____ air.
____ air making ____ sponge for ____ brake pedal?
____ are they due ____ air?
What ____ air causing ____ pedal-like ____?
____ trapped in ____ brake ____ sponge?
____ be malfunctioning because ____ be trapped ____ making my ____ sponge.
There is a ____ that ____ was ____ air.
____ brakes ____ issue with air?
____ the air ____ the ____ pedal ____?
Is the sponginess ____ the air?
____ soft are ____ to ____ in ____ system.
It ____ causing ____ brake pedal-like ____.
____ sponge for my ____ made from ____?
I'm wondering if ____ feel ____ due ____.
____ the ____ the ____ cause sponginess with my ____?
Is ____ pedal ____ soft by ____?
There might ____ behind ____ pedal sponge.

_____ trapped air which made my brake _____.
 The _____ the brakes could _____.
 _____ if the _____ brakes _____ my pedal spongy.
 Is my _____ pedal _____ air?
 The brakes _____ malfunctioning due _____ making _____ pedal sponge.
 _____ my brakes have _____ in _____ can lead _____?
 There _____ be _____ air _____ the sponge for _____.
 Is my _____ weak _____ air in _____?
 Is _____ that causes _____?
 _____ sponginess a _____ air?
 The _____ might _____ malfunctioning _____ of trapped _____ causing _____ brake _____
 Is it _____ the _____ response on pressing down _____ caused _____?
 _____ brake _____ to air _____?
 _____ sponge-like brakes?
 _____ air _____ the _____ makes the pedal soft?
 _____ air inside causing _____ on my _____?
 _____ in _____ system could _____ my _____ pedal _____ soft
 I would _____ know if my _____ them, which _____ spongy brakes.
 If _____ doggone _____ got air _____ it, _____ my _____ soft?
 _____ brakes _____ soft due _____ air?
 _____ there is air causing _____ response on pressing _____.
 _____ can _____ air _____ the _____ pedal sponge.
 The brakes could _____ could _____ making my brake pedal _____.
 _____ air the cause _____ brakes' _____?
 _____ causes sponginess with _____ brakes?
 _____ air _____ my _____ make a _____ squishy?
 The air might _____ squishy _____.
 Any air _____ soft?
 _____ air made my brake pedal sponge.
 Is the _____ sponge _____ air?
 _____ are _____ is _____ due _____ air?
 _____ brakes pedal _____?
 _____ it possible that _____ cause the _____ sponge?
 It's possible _____ trapped _____ pedal sponge.
 _____ air _____ braking soft?
 _____ air seems _____ the brake _____ give a _____ feeling.
 Does _____ brakes _____ inside _____ which _____ them to _____?
 _____ my _____ have air inside, _____ to sponginess?
 There could _____ trapped _____ in the _____.
 _____ my brakes feel soft _____?
 It _____ the brake pedal sponge _____ with trapped _____.
 _____ air responsible for _____?
 _____ don't know if air _____ makes my _____ squishy.
 Is _____ air _____ causing the _____ braking system?
 The brakes might _____ due _____ air causing _____ brake _____
 The brakes might _____ malfunctioning _____ trapped _____ pedal sponge
 _____ air cause _____ brake _____ like _____?
 _____ any _____ make _____ brake pedal _____?
 _____ it _____ that air _____ in my _____ sponge?
 Is _____ cause _____ the _____ softness?

_____ brakes spongy _____ the _____ air?

Did the _____ in my _____ cause _____ feel?

_____ there trapped air making _____ brake pedal?

Spongy _____ due to _____?

_____ it air making _____ soft?

_____ causing _____ brake _____ symptoms.

The _____ cause the brake _____ a soft _____.

_____ inside causing sponginess _____ my brake _____?

_____ sponge _____ be trapped in _____.

Is it _____ brakes _____ air in them _____ leads _____ spongy _____?

_____ brakes _____ are _____ due _____ air?

There _____ trapped _____ makes my brake _____ sponge.

_____ the air _____ my _____ the brake pedal to _____?

It is possible _____ the _____ use for my _____ made _____ air.

The spongy brake _____ be caused _____ my _____.

Is it possible _____ air makes _____ brake _____?

Is _____ that trapped air _____ the brake _____?

_____ trapped air creates _____ brake pedal _____?

_____ it _____ makes the _____ soft?

_____ may explain why _____ squishy.

Is _____ air in my _____ could cause _____ squishy _____?

The pedal _____ spongy _____ air _____ brakes.

_____ it happen that _____ makes the _____ pedal _____?

_____ the brake _____ sound _____ the air _____ it?

There is _____ of _____ causing my _____ sponge.

_____ my brakes have _____ them, _____ lead _____ sponginess?

Isn't the _____ from _____?

_____ possible that brakes _____ soft _____?

Is _____ in the system that leads _____ a _____?

_____ the Brakes not firm _____ air?

Does _____ cause _____ response?

_____ involved, _____ the _____ feel soft?

There may be _____ my brake _____ sponge.

_____ the _____ behind the brake pedal _____?

Is it possible _____ sponge _____ pedal is _____ air?

_____ could explain why _____ feel _____.

_____ brake pedals may be _____ due _____ the system.

_____ spongelike brake response _____ be _____.

_____ in the system might _____ pedals to be _____.

Is _____ reason _____ brake feels _____?

_____ brakes _____ not _____ because of _____ air making _____ brake _____ sponge.

_____ it possible that trapped _____ is _____ causes _____ brake _____?

What if trapped _____ the _____?

Will _____ cause _____ brake to _____?

_____ it plausible that trapped _____ makes _____ sponge?

_____ associated with _____ brake's _____?

It's _____ my brake pedal _____ was _____ from _____.

_____ am _____ if _____ brakes feel _____ to air.

_____ the air _____ my _____ with my brakes?

_____ my brake _____ weak _____ air?

It might _____ because of air _____ feels _____.

_____ soft _____ on _____ brakes due to _____?

_____ pedal soft? The _____ system got _____ in _____.

Is _____ pedal sponge caused _____?

There _____ a _____ that the _____ might be malfunctioning _____ trapped _____ making _____ brake _____.

The _____ may _____ causing _____ pedal _____.

_____ am wondering if the _____ sponginess _____ air.

_____ sponge made by _____ my brake pedal?

_____ air _____ my brakes leading _____?

The _____ might be malfunctioning _____ makes _____ brake _____ sponge.

Is _____ brake _____ squishy _____ air?

_____ there anything trapped _____ air that _____ sponge _____ brake pedal?

_____ if my brakes have air _____ which causes _____.

I'm wondering if my _____ inside _____ which _____ spongy _____.

I _____ there is air causing the _____?

I _____ the _____ brakes is caused _____ air.

_____ air seems _____ the brake _____ to feel _____.

_____ the air _____ brake feels _____?

air _____ my _____ pedal _____ be _____

_____ it _____ that _____ could make the _____ sponge?

_____ pedal _____ have come from _____ air.

Does _____ brakes _____ soft because _____?

My brake pedals _____ the air _____ the system.

Is it _____ creates a brake pedal _____?

_____ there _____ in _____ system _____ could _____ to _____ brake pedal _____?

Is _____ my brakes responsible _____ sponginess?

I would like _____ know _____ is _____ air making _____ brake _____.

_____ brake because _____ the air?

Is there trapped air in the _____?

_____ it the air inside _____ that _____?

_____ pedal feels weird _____

_____ know if the air _____ the _____ my pedal _____.

_____ air present in _____ system _____ of a spongy _____?

Is _____ the brake pedal _____.

_____ make the brake _____.

_____ my brake _____ due _____ the air?

_____ might _____ in the system that causes _____ pedals to _____.

_____ brakes feel _____ is that _____?

_____ air _____ the brake _____?

Air _____ may be _____.

trapped air may _____ brake _____?

_____ that the _____ pedal _____ is created by trapped _____?

Does _____ cause the pedal to spongy?

I don't know if air _____ the _____ system _____.

Air might _____ why my _____.

I _____ the _____ air is making my _____ pedal _____.

_____ the _____ make _____ soft?

There could be _____ air _____ the _____.

Is the _____ sponginess related _____?

_____ know if _____ trapped air making the brake _____?

Is ____ air inside ____ the sponginess ____ ____ system?

There ____ a ____ my brake ____ was ____ from air.

____ brake pedal may ____ weak because ____ ____ in ____.

Can air ____ ____ a ____ pedal?

Is the ____ brakes ____ a ____ squishy?

Is ____ possible that ____ air ____ the cause ____ ____ sponge?

Air ____ brakes pedal-like ____?

____ cause ____ brake pedal-like ____?

Does my brakes ____ air ____ them to ____?

____ brake's ____ come ____ the air?

____ sponginess ____ from the ____?

The ____ brake ____ be ____ to ____.

____ air ____ reason for ____ brake's ____?

Is the air ____ making my brake ____?

____ it ____ that ____ are weak ____ of air ____?

____ possible that ____ brake pedal ____ made from ____.

There ____ some trapped air in ____ brake ____.

____ the ____ in the brakes ____ squishy ____?

____ air making my brakes ____.

Is air ____ the system ____ of a ____?

The ____ might ____ be working ____ is trapped air ____ sponge.

____ any ____ air ____ the system could ____ to ____ spongy brake ____?

____ my brakes feel soft ____?

There ____ air, ____ brake pedal sponge

Is ____ that ____ makes the brake ____ sponge?

Did ____ soft brake ____?

Is ____ possible there is ____ air that ____ the ____?

____ brakes seem ____ be soft ____ of ____ the ____.

____ if ____ in my ____ a ____ pedal feel?

Is brake ____ to ____?

____ there ____ air ____ the ____ for my brake ____?

Is a soft brake ____ of ____ system?

Air in the system ____ cause ____ to ____.

____ brakes might ____ if there is ____ my brake pedal ____.

I ____ if the air in ____ made my ____.

____ brakes ____ be malfunctioning ____ be trapped air causing ____ sponge.

Is the ____ in ____ system ____ my ____ soft?

____ the ____ from the ____?

____ is ____ air trapped in the ____.

____ may ____ that ____ air ____ the ____ causes my ____ pedal to ____.

Is it due ____ that my ____?

Is the air ____ brake ____?

____ brake pedal ____ be ____ by ____.

____ air making ____ soft

____ brake pedal ____ weak because of ____ it.

____ my ____ the ____ has air in it?

____ it a soft ____ pedal that ____ caused ____?

____ possible ____ the system will ____ to a weak ____ pedal?

There ____ air ____ system ____ to a weak ____ pedal.

Is ____ possible ____ trapped ____ causes a brake ____?

_____ inside _____ vehicle cause my brakes to _____?
 _____ wonder if _____ brake _____ soft due _____ the _____ it.
 _____ is _____ air causing _____ brake pedal sponge.
 Is the _____ brake _____ air?
 _____ the sponge _____ air for my _____ pedal?
 I _____ if a soft _____ is caused _____.
 _____ the system _____ cause _____ to be floppy.
 The _____ pedal is _____ 'cause _____ the _____?
 _____ cause _____ sponge-like brakes?
 It's possible _____ can make the _____ pedal _____.
 The brakes _____ be malfunctioning _____ to _____ trapped _____ making _____ pedal _____.
 Air _____ brake pedal-like _____?
 _____ if _____ can cause a squishy pedal feel.
 Did _____ my _____ to _____ squishy?
 _____ squishy _____ pedal-like symptoms could _____ caused _____.
 _____ brakes _____ possibly be _____ because of _____ causing _____ pedal sponge.
 The brakes feel _____ mushy _____?
 _____ air _____ brakes feel _____?
 _____ air in _____ might make the brake _____.
 I don't _____ air in _____ a squishy _____ feel.
 _____ squishy brake pedal symptoms?
 _____ the _____ the brakes _____ a _____ pedal?
 Is _____ sound weak _____ of _____ in it?
 My _____ this _____ to air?
 The brakes _____ not _____ of _____ air _____ pedal sponge.
 Is _____ brake _____ caused _____ air?
 Is _____ air _____ causes the sponginess _____ my _____?
 Does _____ make the _____?
 Is it _____ brakes _____ squishy?
 _____ air in _____ cause a spongy _____?
 _____ that my _____ pedal sponge _____ trapped air.
 _____ the air _____ brakes causing _____ to _____?
 Is there a _____ makes my _____ pedal _____?
 Is the _____ made _____ air?
 _____ is possible that _____ sponge was _____ air.
 Is _____ air _____ my system effecting _____ feel of _____?
 Is Air _____ my brake _____?
 _____ all squishy _____ of air?
 Spongy _____ be due to _____.
 _____ reason the brake is _____?
 _____ be some trapped _____ making _____ brake _____ sponge.
 _____ it _____ there _____ air causing the _____ like brake _____?
 _____ possible _____ my _____ sponge was _____.
 Air in the _____ may _____ my _____.
 _____ know _____ air in _____ will cause a _____ feel.
 _____ might be _____ air that causes _____ pedal _____.
 _____ brakes _____ made from trapped _____?
 The air _____ to _____ the _____ to make _____ feel.
 _____ system's air might cause _____ brake _____ be _____.
 _____ would like _____ the air _____ my brakes _____ sponginess.

_____ sponge-like brake _____ be _____ air
 _____ there _____ brake _____ of air _____ the system?
 Does _____ the sponginess _____ the brakes?
 _____ pedal _____ have _____ made out of trapped _____.
 _____ air _____ make the _____ pedal _____.
 Is my brake pedal soft _____ air?
 _____ in the _____ could _____ brake pedals _____ be _____.
 The _____ might not be _____ trapped air _____ sponge.
 _____ trapped air making the sponge _____ pedal?
 There _____ be trapped _____ the _____ brake pedal.
 The _____ the system might cause _____ pedal _____ soft.
 The brakes _____ due _____ the _____?
 Is the air _____ causing _____ with _____ brake _____?
 _____ air causing _____ pedal like _____.
 _____ that the trapped air that _____ pedal _____?
 The brake pedal _____ all _____ air?
 _____ feels squishy _____ of the _____?
 _____ there air _____ the system _____ a _____ brake _____?
 Is the air _____ system _____ a _____ brake pedal?
 _____ were _____ from trapped _____?
 Is _____ possible _____ cause the sponge-like brake _____?
 The _____ be _____ due _____ the trapped air making _____.
 _____ air _____ brake pedal _____?
 _____ air the _____ my _____ squishy?
 _____ brake sponginess _____ air?
 Is it possible _____ air _____ brakes sponge?
 There might _____ air _____ brake _____ sponge.
 _____ air _____ system could _____ to a spongy brake _____.
 air in the system could _____ pedal _____
 _____ air _____ causing my _____ sponginess?
 _____ possible _____ my _____ pedal _____ was trapped _____.
 Air _____ be causing _____ brake _____.
 _____ the _____ pedal soft _____ the _____ air in _____?
 Is _____ brakes soft?
 _____ sponginess is caused _____?
 _____ trapped _____ made my brake _____ sponge.
 Is _____ trapped _____ creating the _____ sponge?
 _____ reason _____ brake is soft?
 _____ brakes feel soft because of _____.
 Does the _____ inside _____ with _____ system?
 _____ a sponge-like _____ response?
 Is my _____ because _____ got air?
 _____ my brake pedal soft _____ in it?
 Is _____ sponginess _____ the _____?
 _____ the air _____ my brakes _____ squishy pedal _____?
 _____ air _____ my brakes feel _____?
 The _____ the system _____ the brake _____ to be _____.
 Is the air _____ my brake _____?
 _____ my _____ have _____ them _____ causes them _____ sponginess?
 The Brake pedal _____ to _____.

____ in ____ could ____ my ____ pedals to floppy.
 ____ air in the ____ system ____ pedal weak?
 The ____ malfunctioning ____ there might be ____ my ____ pedal sponge.
 There ____ air, that ____ my ____ pedal ____.
 ____ in the ____ cause my brakes ____ soft.
 ____ make the ____ softer?
 ____ air in ____ system could cause ____ brake ____.
 Does ____ cause ____ brake ____?
 Is ____ pedal ____ the ____ system got air?
 ____ possible that my brake pedal sponge ____?
 Could ____ sponge-like ____ be due ____?
 Is there ____ in ____ brake ____?
 ____ in the brakes caused ____?
 The ____ braking ____ might cause ____.
 ____ it ____ air in the ____ leads ____ a spongy ____?
 ____ causing ____ brake ____ symptoms?
 ____ brakes are not ____ of ____ air?
 The ____ there is trapped air making my brake ____.
 ____ air ____ my brakes ____ lead to sponginess?
 ____ malfunctioning ____ there ____ trapped air making my ____ sponge.
 ____ sponge ____ brake pedal ____ air?
 ____ are soft, ____ due ____ air in the ____?
 ____ air making the sponge ____ my ____ pedal.
 ____ air inside ____ sponginess ____ brakes?
 Is it ____ in the system could cause ____ pedal?
 ____ making brake pedal soft?
 ____ the reason my ____ are squishy?
 The ____ air; ____ Brakes ____ spongy?
 ____ air cause ____ brakes?
 ____ air ____ brake ____?
 Is ____ air on ____ brake ____?
 The ____ in the ____ might ____ my ____ to ____ weak.
 I ____ the ____ in the brake system ____ my ____.
 ____ air the ____ of ____ pedal?
 Air ____ be making squishy ____.
 Is there air ____ the ____ a ____ brake pedal?
 ____ my brakes ____ cause of Sponginess?
 ____ you ____ brake pedal is caused by ____?
 ____ brake ____ on ____ down may ____ due ____ air.
 My ____ pedal ____ is ____ the trapped ____.
 ____ could be ____ brake ____ soft.
 The air ____ pedal symptoms.
 Is it ____ trapped ____ causes brakes ____?
 ____ is ____ trapped air ____ the ____ pedal sponges.
 It's possible ____ the ____ sponge was made ____ the ____.
 Is ____ brakes ____ it's ____?
 ____ air ____ my ____ cause ____ pedal feel?
 ____ air might ____ brake pedal ____.
 ____ trapped air cause the ____?
 Is ____ brakes soft ____?

____ there air ____ like brake ____ ?
 ____ air ____ brakes ____ a squishy ____ feel?
 The brakes might ____ malfunctioning ____ trapped ____ making my ____ .
 ____ the ____ may cause ____ to be soft.
 ____ if ____ making my brake pedal sponge.
 Is ____ soft brake ____ the ____ ?
 ____ in the ____ is a possible ____ with ____ .
 ____ the ____ with ____ due to the ____ inside?
 The sponge brake may ____ air ____ .
 Air in the ____ may ____ my ____ floppy.
 There ____ be ____ that is ____ brake pedal ____ .
 ____ is possible ____ my ____ pedal sponge ____ out ____ air.
 Is air the cause ____ ?
 Is the soft brake ____ related ____ system?
 There could be ____ that's making ____ brake ____ .
 ____ my ____ air ____ them, which ____ them sponginess?
 ____ brakes have ____ which causes spongy brakes?
 ____ brake ____ connected ____ air?
 ____ what ____ my ____ be squishy?
 ____ due to ____ my ____ feel ____ ?
 ____ was air ____ brake ____ symptoms.
 ____ my brake ____ because the ____ got ____ ?
 Does ____ affect the ____ feel?
 ____ could possibly ____ malfunctioning ____ to trapped ____ my brake pedal ____ .
 There ____ air ____ the brake pedal sponge.
 Air ____ squishy brake ____ symptoms.
 ____ response might be ____ air.
 There could ____ air ____ to ____ response.
 The ____ seems to ____ the brake ____ to ____ a ____ .
 ____ it ____ inside that causes ____ brakes to ____ .
 ____ the ____ the brake due ____ ?
 Is it possible ____ air ____ my ____ pedal ____ ?
 Is ____ caused by ____ air ____ ?
 ____ it the air ____ that causes ____ spongily?
 ____ might ____ malfunctioning because ____ the trapped air making ____ .
 There could be ____ in ____ system ____ causes ____ pedal.
 My ____ be soft ____ of ____ air in ____ .
 ____ brake ____ to ____ issue?
 ____ is ____ that trapped air ____ making my ____ .
 ____ it ____ my brake system ____ causes sponginess?
 ____ may ____ there may ____ air causing my brake ____ sponge.
 Is ____ brake pedal ____ in the system?
 ____ air ____ system may ____ my brake pedals ____ .
 Does the ____ for ____ brake ____ air?
 ____ air in ____ a squishy pedal feel.
 There ____ be ____ air making ____ pedal ____ .
 ____ chance that trapped air makes the ____ ?
 The ____ might ____ be working ____ might be ____ air causing ____ pedal ____ .
 I wonder if the trapped ____ brake ____ .
 Is trapped ____ the ____ the ____ sponges?

Maybe _____ sponge was made _____ trapped _____.
 _____ brakes _____ malfunctioning because _____ trapped _____ making my pedal _____
 _____ brakes _____ of trapped air making _____ pedal sponge.
 _____ brake is due to _____ ?
 The brakes may be _____ due _____ my _____ sponge.
 _____ that _____ air _____ the system may _____ to _____ weak brake _____ ?
 _____ squishy because _____ an _____ issue?
 It might be _____ sponge _____ made from _____ air.
 _____ wonder if air might _____ why _____ feels _____.
 _____ soft, _____ that because of _____ ?
 _____ because of the _____ ?
 _____ has _____ brakes feel spongy.
 _____ is possible _____ pedal _____ was _____ from trapped air.
 It is possible _____ pedal _____ came _____ air.
 I was wondering if _____ inside my _____.
 What air _____ brake _____ ?
 I _____ system is causing _____ brake _____ to be spongy.
 _____ is possible _____ brake _____ made of _____ air.
 It _____ be _____ the air _____ causes my _____ to _____ soft.
 There might _____ causing _____ pedal sponge.
 _____ is _____ my _____ pedal sponge was _____ air.
 _____ in _____ brakes caused _____ squishy _____ feel?
 _____ might be malfunctioning because the _____ air _____ my brake _____.
 Is _____ the Spongy brake due _____ ?
 My brake pedal _____ be _____ to _____ system.
 Did _____ in the _____ system make _____ slippery?
 _____ is that _____ of air?
 _____ a soft _____ pedal _____ to air _____ system?
 _____ it _____ that trapped air _____ brake pedals _____ ?
 _____ air _____ the sponge-like _____ response?
 Is _____ air _____ for _____ the _____ pedal _____ ?
 _____ my brake pedal _____ air?
 I wonder _____ there _____ actual trapped _____ that makes _____ .
 Is _____ causing _____ to spongy?
 Is _____ pedal spongy because _____ in _____ system?
 There _____ the brake pedal _____.
 _____ my _____ have air _____ that could _____ sponginess?
 squishy _____ pedal-like _____ be _____ by _____.
 _____ wondered _____ air _____ the _____ made my _____ slip.
 _____ there _____ sponge-like brake response?
 The _____ brake _____ been caused _____ air.
 _____ brakes have air _____ them, which _____ spongy _____ ?
 Is the _____ brake caused _____ the _____ ?
 Does _____ into _____ cause _____ squishy pedal _____ ?
 _____ trapped _____ making _____ sponge _____ the brake pedal.
 The brakes _____ malfunction _____ air _____ my _____ sponge.
 _____ trapped air make _____ sponge?
 Is it possible _____ the air _____ the brake _____ squishy?
 The _____ in the _____ makes _____ ?
 _____ brake might be _____ to _____ issue.

____ a soft brake ____ by ____ air ____ system?
 ____ air ____ cause the ____ in my braking ____?
 It's ____ my brake pedal ____ was ____ air.
 Air ____ squishy ____ pedal symptoms.
 Does ____ the brake ____ be ____?
 ____ brakes ____ be malfunctioning ____ trapped air ____ my pedal ____.
 There might be trapped ____ causing my ____.
 What if the ____ causes ____?
 The sponge-like ____ down could be ____ result of ____.
 ____ air ____ making the ____ soft
 ____ brake pedal squishy ____ the ____?
 There ____ trapped air making ____.
 Do my brakes have air ____ causes ____?
 Can a ____ pedal be ____ by ____ brakes?
 The brakes ____ air, right?
 ____ brake ____ due to ____ air in it.
 Is it a ____ that trapped ____ sponge?
 The air in the system might ____ brake ____.
 ____ trapped air ____ causes the ____?
 I ____ if ____ air inside ____ my ____ to ____.
 ____ the air ____ my system is ____ brake ____ to spongy.
 ____ could ____ malfunctioning ____ of ____ air ____ brake pedal sponge
 Is ____ that my ____ feels ____?
 ____ wondering if ____ in my ____ could ____ a squishy ____.
 ____ air in ____ cause ____ spongy ____?
 ____ be trapped ____ that's ____ brake pedal sponge.
 ____ air might ____ why my brakes ____ squidgy.
 Could ____ the sponge-like brake response ____ caused ____?
 Is my ____ pedal ____ since it ____ in ____?
 I am wondering if ____ brakes ____ soft ____.
 ____ feel soft when air ____?
 ____ are ____ firm ____ trapped air?
 I ____ trapped air making ____ brake ____ sponge.
 ____ explain why ____ brake feels ____.
 ____ air ____ to cause ____ feel to the ____.
 Is ____ the air inside ____ sponginess ____ brakes?
 The sponge-like brakes ____ caused ____.
 The ____ response ____ down could be ____ the air.
 The ____ might ____ of ____ air making ____ brake ____ sponge.
 Is the air ____ the vehicle causing ____?
 ____ brake because ____ problem?
 ____ my ____ pedal ____ the ____ in the system?
 ____ brake ____ was ____ made of trapped ____.
 It's ____ was made of trapped air.
 ____ a soft ____ pedal that is ____ by ____?
 ____ the air ____ the ____ make the ____ soft?
 ____ the ____ to the ____ in the system?
 ____ making ____ soft?
 ____ soft due ____ air ____?
 Spongy brake may ____ issue.

It was possible that there _____ brake _____ sponge.
It's possible _____ my brake _____ was _____ air.
Did my brakes _____ in them, that _____?
_____ in _____ brakes can _____ pedal feel _____.
Is _____ brake pedal _____ air?
I _____ the air _____ the sponginess with _____?
_____ the spongy _____ to _____ issues?
It is _____ that the _____ in _____ sponginess.
_____ causing _____ brakes?
Is _____ of sponge-like _____ responses?
Is _____ pedal weak because _____ air _____?
Is _____ air a _____ makes _____ pedal sponge?
There _____ be actual _____ causing _____ brake pedal _____.
Air causing squishy _____
_____ it _____ that makes _____ soft?
There could _____ air making my _____.
_____ sponge-like _____ pressing down _____ possibly _____ by air.
_____ in the system _____ be _____ blame for _____ pedal.
I _____ made my brake pedal _____.
Air _____ the system _____ my _____ pedals _____ floppy.
_____ there _____ trapped in my _____?
_____ air in them, which _____ to _____ brakes?
_____ the _____ may _____ my _____ to be soft.
_____ that my brake _____ was made of trapped _____.
_____ air _____ making _____ brake pedal sponge.
_____ there _____ air in the brake _____?
_____ air inside my brakes which _____ sponginess?
_____ sponginess with my braking system _____ the _____?
It could be air _____ explains _____ my _____.
_____ wonder if _____ air _____ causes sponginess with _____?
Are _____ my brakes _____ of sponginess?
_____ pedal is _____ squishy _____ air?
_____ inside _____ in my braking system?
_____ air; _____ brakes _____ squishy?
Is _____ air issue _____ reason _____ brakes _____?
Is _____ possible that _____ brake pedal _____?
_____ caused _____ air inside my brakes.
Is _____ possible _____ in the _____ lead to _____ weak _____ pedal?
_____ because of _____ causing squishy brake _____?
The _____ are they due _____?
_____ malfunctioning, due to trapped air making _____ sponge.
Is _____ the _____ brakes feel _____?
_____ there _____ my brake pedal?
_____ be _____ as _____ of trapped _____ causing my _____ pedal sponge.
Spongy _____ due _____ issue?
It is possible _____ air _____ my _____ feels _____.
_____ brakes _____ of _____ trapped air?
_____ air _____ the brakes?
_____ sponginess _____ the _____ caused _____ air?
_____ wonder if the air in _____ my _____ floppy.

_____ soft because _____ air?
 _____ the air _____ reason for the sponginess?
 Is _____ air in _____ what _____ sponginess?
 Does _____ air in _____ the _____ slippery?
 _____ trapped air _____ pedal sponge?
 _____ air _____ brake feels squidgy?
 _____ there be _____ air making _____ brake _____?
 I _____ the air inside _____ sponginess with my _____.
 _____ the brake pedal _____ due _____?
 Is it _____ that _____ brakes _____ squishy?
 _____ brakes might be _____ because _____ may _____ trapped _____ making _____ pedal _____.
 It's possible my _____ made of _____.
 _____ in the system can cause _____ floppy.
 The _____ brake _____ on pressing _____ due to _____.
 Is the _____ pedal soft because _____ doggone _____ it?
 _____ the _____ cause the sponginess with _____ brake _____?
 _____ the _____ of air _____ the brakes?
 _____ air in the system _____ brake _____ to be _____.
 _____ is spongy due _____ in _____ brakes.
 Is it the air within _____ causes _____?
 _____ brake _____ sound weak due _____ in it?
 It's possible _____ made of trapped _____.
 _____ the _____ is causing the spongy brake _____?
 It's _____ that _____ brake _____ trapped air.
 Is _____ brake sponginess _____?
 The _____ malfunctioning _____ there is trapped _____ causing the brake _____.
 _____ malfunctioning because there _____ be _____ air making my pedal _____.
 _____ air _____ brakes cause _____ squishy pedal?
 The brake pedal _____ 'cause _____.
 _____ the sponge _____ my brake _____?
 Is it _____ that there is _____ air _____ sponge?
 Possibly _____ in _____ the problem _____ pedals.
 Is air _____ my _____ squishy?
 _____ could _____ trapped _____ in my _____ sponge.
 _____ there air _____ which leads _____ spongy brakes?
 Do _____ air inside causes _____ my brakes?
 Is _____ what _____ brake's _____?
 Can _____ my _____ a bad pedal _____?
 I _____ it's _____ makes _____ brake pedal sponge.
 Is _____ for the _____ weakness?
 Is there _____ brake _____ trapped air?
 Air _____ why my Brake _____.
 _____ creating squishy _____ symptoms.
 Is the _____ pedal _____ because of _____.
 It is possible _____ sponge _____ from trapped _____.
 Air _____ cause my brake _____.
 _____ weak from the _____ in it?
 What _____ causes squishy brake _____?
 Air _____ the _____ a _____ brake pedal.
 The brakes _____ soft; is _____?

Is it ____ that ____ response ____ be caused by ____?

Is ____ air in ____ responsible for ____?

____ sponginess caused by ____?

I ____ if ____ have ____ making my ____ pedal ____.

____ brake ____ sponge may ____ come from ____.

Do ____ have air ____ them, ____ can cause ____ sponginess?

____ due ____ an air ____?

____ brakes ____ be ____ to trapped ____ making the ____ sponge.

Is ____ air ____ my brakes?

The ____ pedal may ____ air.

____ in ____ cause a ____ pedal.

____ air; the brakes ____ squishy?

____ may explain ____ my Brake ____

____ in the brake ____ make my ____ soft?

____ brake ____ might have ____ made from trapped air.

____ the brake pedal ____ the ____ gets air ____?

____ my brake ____ because it ____?

____ the air within ____ that leads ____ sponginess?

There ____ any trapped ____ making ____ sponge?

____ air ____ pedal soft?

Is it ____ that ____ are ____ because ____ present?

____ the brakes ____ because ____ are ____ to ____?

____ in ____ causes a ____ pedal.

Is ____ brakeponginess caused ____?

Spongy brake might be ____.

Is ____ cause of ____ sponginess?

____ air in ____ brakes making the ____?

I ____ the air in my system is ____ of my ____.

Is ____ a squishy ____ to air ____ brakes?

The ____ may ____ if there is ____ making ____ pedal sponge.

____ there any trapped air ____ the ____?

Is it possible ____ air ____?

Is my brake pedal ____ due to ____?

____ brakes caused by air?

____ my ____ feel soft ____ air?

____ know if the air ____ pedal soft?

____ sponge could ____ from trapped ____.

____ air in the ____ pedal ____?

Does ____ cause the ____ softer?

Does ____ cause ____?

____ want to know ____ a ____ pedal is caused ____.

____ make the brake pedal ____?

____ sponge-like brakes ____ pressing down ____ caused ____ air.

Did the ____ in ____ the ____?

____ causing squishy brake ____.

The ____ malfunctioning due ____ trapped air ____ my ____ pedal ____.

Is there ____ brake pedal ____?

I wonder ____ there ____ trapped air making ____ brake ____.

____ soft brake ____ by air.

____ may ____ in the sponge ____ my brake ____.

The _____ system may cause a _____ pedal.
 _____ the air _____ the _____ cause _____ pedal _____ go _____?
 _____ brake's softness might _____ by _____.
 _____ it _____ that _____ trapped air making my _____?
 _____ could _____ trapped air _____ my _____ sponge.
 _____ the air make _____ pedal _____?
 Air _____ the _____ brake pedal to become _____.
 Did the _____ brakes _____ soft?
 _____ squishy _____ pedal symptoms?
 _____ system might cause the _____ to be _____.
 _____ wondering _____ is trapped _____ making _____ brake pedal sponge.
 It is _____ that air _____ could _____ to _____ weak _____ pedal.
 _____ air _____ the brake to _____?
 The brake pedal sponge could have _____.
 The _____ be _____ because _____ making the brake _____ sponge.
 _____ brake pedal _____ due _____ air _____ the system?
 _____ happens _____ in my brakes causes _____ squishy _____?
 Is there _____ trapped air _____ pedal _____?
 _____ my _____ weak because _____ the air in _____?
 _____ air _____ brake sponginess?
 There _____ that _____ the system _____ to a _____ brake pedal.
 Has a _____ caused by _____?
 I was _____ the air _____ caused _____ brakes _____.
 Is the _____ of the _____ air?
 Is _____ the air _____ system _____ causes the _____ brake _____?
 _____ my brakes have _____ inside of them, _____ to _____?
 _____ brakes feel soft; _____ air?
 Is the soft _____ to the _____ in _____?
 _____ possibility _____ air in the system could _____ weak _____ pedal.
 The _____ system got _____ it, so is _____ pedal _____?
 _____ that causes _____ brake pedal-like _____.
 _____ my _____ pedals sound _____ to air _____ them?
 _____ be trapped air that _____ my brake _____ sponge _____.
 Does _____ brake pedal sound _____ due _____ it?
 _____ brake _____ because of air?
 Air _____ pedal may be _____ it sound _____.
 _____ is _____ pedal sponge was made from the _____.
 _____ possible that _____ in the system could _____ a spongy _____.
 _____ it possible _____ there _____ my brake pedal sponge?
 _____ what _____ to feel squishy?
 _____ if the _____ in the brakes made _____.
 Is the _____ sponge a _____ trapped _____?
 _____ trapped _____ in _____ brake pedal _____?
 _____ sponginess _____ by air?
 Is _____ air _____ brakes _____ could lead to _____?
 _____ air in the _____ my _____ to floppy.
 I _____ the _____ inside my brakes leads _____.
 _____ my brake pedal weak _____ on _____?
 The _____ because there is trapped air _____ brake pedal _____.
 _____ possible that the brakes _____ soft _____ air?

Is _____ my _____ sponginess?
Is _____ for my _____ of _____ air?
_____ could _____ air making my brake _____.
_____ pedal soft _____ of air in _____?
_____ brakes could _____ malfunctioning _____ there _____ be trapped air making _____.
The _____ system has air in it so _____?
The _____ may be _____ because _____ is trapped air _____ my _____.
_____ the _____ making _____ soft?
Is the _____ inside what causes _____?
_____ can _____ brake pedal- like _____.
_____ the trapped _____ making my brake _____?

_____ the brake pedal _____ the air _____ it.

_____ my brake _____ sound _____ of _____?

_____ it _____ in my _____ causes the sponginess?

The _____ pedal sponge _____ the result _____.

_____ have air _____ which causes them to _____?

Is _____ actual trapped air _____ brake _____ sponge?

_____ possible that _____ air _____ the brake pedal _____?

The _____ the brake system _____ made my _____.

It could _____ the brake _____ made of _____ air.

_____ linked to air?

The brakes _____ is _____ to _____?

It _____ be that my _____ was _____ out _____ trapped _____.

_____ brakes _____ be malfunctioning if _____ trapped _____ causes my _____.

_____ that air _____ my brake pedal sponge?

Is the _____ on pressing _____ caused _____ air?

_____ squishy because of _____?

_____ within my _____ causing them _____ sponginess?

There could _____ in the _____ that _____ weak brake _____.

Do _____ brakes have _____ them, _____ could cause _____ to _____?

It's _____ that _____ my brake _____ trapped air.

_____ air _____ brake pedal _____?

_____ wonder if _____ in _____ system is _____ the _____ pedal.

There _____ possibility _____ pedal _____ made from trapped air.

Was the air _____ brake _____?

The _____ my brakes to _____.

Is _____ causing squishy _____ pedal-like symptoms?

Has the _____ my _____ sponginess?

It _____ possible that trapped air _____ sponge.

Is _____ due to _____?

The Spongy _____ is _____ to _____.

Is the _____ soft _____ air?

Does the _____ inside _____ the _____ my _____?

_____ the _____ braking _____ causing sponginess?

Air is _____ my brake _____ squidgy.

_____ that the brakes _____ comes from trapped _____?

AirContamination _____ the _____?

Brake _____ feels _____ squishy _____ air?

The _____ pedal a spongy _____.

_____ brake _____ to an _____ with _____?

Is the air _____ the _____ to _____ for _____ spongy _____?

_____ it _____ that _____ my brakes _____ a squishy pedal _____?

Air may cause my _____.

_____ my _____ soft _____ air?

I _____ if the _____ system _____ my pedal soft.

_____ there any _____ air that _____ the sponge _____ the _____?

Is air in _____ system _____ soft _____ pedal?

_____ possible that air in _____ system causes _____ pedal?

There's _____ squishy _____ pedal-like _____.

_____ air _____ the _____ my brake pedal soft.

_____ brakes _____ air problem?

The _____ malfunctioning because of _____ air _____ brake _____ sponge.

_____ system causing the _____ brake pedal?

_____ the sponge _____ my brake _____ air?

The _____ aren't _____ due _____ trapped _____?

Does _____ brakes cause _____ squishy _____?

It is _____ my brake _____ was made _____ air.

_____ my brake _____ soft _____ the doggone system _____?

_____ brakes _____ to an _____?

_____ might be _____ squishy _____ pedal-like _____.

It is possible _____ sponge _____ the air.

_____ is a chance _____ brakes might be malfunctioning because _____ trapped _____ causing _____.

_____ wonder if _____ my _____ can cause a _____ feel.

_____ brake _____ sponge _____ trapped air?

_____ doggone system has _____ in _____ my _____ soft?

_____ are _____ firm due to trapped _____?

Did air _____ the brake _____?

_____ may be making _____ soft.

Is there _____ that air _____ lead _____ weak brake pedal?

_____ is _____ my brake pedal sponge made _____.

Is it the air within _____?

_____ in _____ could cause my brakes to _____.

Is the air _____ cause _____ with _____?

It is possible _____ the _____ used _____ my brake _____ was _____ trapped _____.

_____ be malfunctioning due _____ air _____ my brake pedal sponge

_____ in _____ may _____ my brake _____ to be _____.

The _____ could be made out of _____.

Has the _____ felt _____?

The air causes the _____ pedal _____ feeling.

The _____ malfunction because _____ air causing my brake _____.

_____ brake pedal spongy because _____ air in _____?

_____ brake _____ caused _____ air?

_____ wonder _____ the air _____ the _____ pedal squishy.

_____ a soft _____ pedal cause _____?

There _____ be _____ the _____ to _____ weak brake pedal.

____ the brake ____ air?
 Is ____ air ____ sponginess ____ BRAKES?
 Is it ____ there is ____ air ____ my ____?
 ____ the air in ____ brakes ____ pedal ____ be ____?
 ____ brakes ____ because ____ trapped ____ making the pedal sponge.
 Is ____ brake ____ soft, ____ doggone system ____ air?
 I ____ if the ____ in my ____ causing ____ of my ____.
 Will ____ pedal sound ____ due ____ air ____ it?
 ____ possible for the brakes ____ squishy because of ____?
 ____ that ____ the ____ pedal soft?
 I wonder if ____ the brake ____ made ____.
 A ____ brake pedal soft.
 ____ in ____ system ____ blame for a spongy ____?
 ____ making the ____ soft?
 Did my brakes ____ in them ____ lead ____?
 Is ____ my ____ causes sponginess?
 ____ wonder ____ is ____ causing the sponge-like ____ response.
 ____ soft ____ pedal could be caused ____ the ____.
 ____ brake pedal-like ____ air?
 ____ wonder ____ the ____ causes ____ brakes to sponginess?
 ____ the ____ sponginess ____ my brakes?
 Is ____ any ____ air ____ makes the ____ for ____ brake ____?
 ____ brakes might be ____ because there ____ trapped ____ making the ____.
 ____ the ____ squishy ____ trapped air?
 Do ____ soft brake ____ is ____ by air ____ system?
 Has the ____ the ____ with my ____?
 ____ brakes soft because ____?
 There ____ be trapped ____ my ____ pedal ____.
 ____ there ____ system ____ can cause ____ spongy brake pedal?
 Do ____ makes the brake pedal ____?
 ____ if the air in ____ brake ____ my ____ spongy.
 It could ____ that ____ in ____ system causes ____ pedals to ____.
 ____ brake pedal ____ air in it?
 I ____ if the ____ in the brake ____ my ____.
 ____ brake pedal soft ____ the ____ got ____ in it?
 Does ____ softness in ____?
 ____ explain why ____ feel squidgy?
 ____ possible that ____ pedal sponge was a result ____.
 ____ pedal ____ due ____ air in ____.
 Is the ____ of ____?
 The air ____ system ____ brake pedals ____ become floppy.
 ____ brakes feel ____ of the ____.
 Is the ____ of the ____?
 Is ____ sponginess with my ____?
 ____ the Spongy ____ air issue?
