

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Water quality and safety concerns
Inquiry Sub-Category	Water Discoloration
Description	Questions related to the presence of discolored water, such as brown, yellow, or cloudy water, and potential causes, such as rust or sediment in the pipes.
Data Size	5,031 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

_____ may _____ yellow or cloudy _____ various _____ such as _____ minerals.
_____ are _____ that _____ cause _____ drinking water.
TheTap water _____ appear _____ a number of factors.
There _____ that may contribute _____ the _____ water _____ our _____ water _____.
_____ factors _____ cause water _____ be _____ or cloudy.
_____ tapwater is caused _____ or _____ mix, it can _____ or _____.
A _____ or yellow tap _____ due to _____.
_____ possible _____ tapwater to appear cloudy _____ certain circumstances.
There are a _____ that _____ make _____ cloudy _____ yellow.
Water could _____ due _____ factors such _____ the deposits of _____.
_____ factors _____ can contribute _____ a discolored _____ supply.
_____ cloudy tap water.
Sometimes _____ or cloudy.
_____ is _____ tapwater to _____ cloudy _____ even yellow if it _____ by _____.
_____ is possible for _____ be cloudy _____ it is caused _____ minerals.
There _____ a _____ factors that _____ to discolored _____ water.
_____ factors can cause _____ to _____ or yellow.
_____ factors can _____ discolored _____ our supply.
Some _____ may make _____ cloudy _____
Is tapwater normal for it _____ due _____ and minerals _____ are in it?
_____ water can _____ cloudy or _____.
There _____ that _____ cause the tap _____ cloudy _____ yellow.
_____ cloudy or _____ because of a variety _____ factors.
_____ tap water _____ yellow.
It is normal _____ tap water _____ have _____ cloudy appearance _____ to the _____ the _____.
Is _____ normal for tap _____ have a _____ appearance _____ to the _____ of _____ water?
_____ a mix _____ muddy minerals _____ tapwater _____ be yellow _____ possible.
Some elements _____ cause _____ cloudy or _____.

It is _____ tap _____ to _____.

If minerals _____ any other cause the _____ or cloudy, _____ possible.

_____ possible for tapwater to be _____ yellow _____ there _____ minerals.

_____ is possible that _____ cloudy _____ yellow _____ to _____ factors.

There are _____ of _____ make _____ water cloudy.

It's _____ the _____ looks _____ or yellow.

_____ are factors that _____ drinking _____

There are factors _____ cause tap _____ be _____.

The _____ water _____ a cloudy appearance due _____ and _____ found there.

There _____ a _____ for the water to _____ sometimes _____.

_____ yellow _____ water in the _____.

Water looks _____ clear.

Some _____ might cause _____ tapwater to be _____.

It's _____ for tapwater _____ be cloudy or _____ if _____ minerals.

_____ tap _____ for it _____ have a _____ appearance _____ the silt and _____ found _____?

If _____ water is _____ it could _____ cloudy.

_____ there are a _____ can be yellow or _____.

The _____ seems _____ clear.

There are a number _____ factors _____ to discolored _____.

_____ cloudy or _____ due _____ a number of _____.

Some _____ contribute _____ discolored _____ in _____ drinking water supply.

Changes in water color _____ caused _____ and Sediments.

_____ may appear _____ to _____ number of factors.

_____ is possible for tapwater to _____ cloudy _____ factors.

_____ may look yellow _____ clear.

_____ is _____ chance that the _____ or yellow _____ of deposits _____ minerals or _____.

_____ are a _____ of factors that _____ make _____ or _____.

There is a _____ tap _____ sometimes _____ and _____.

_____ is _____ for the tapwater to _____ yellow _____.

It _____ water is cloudy _____ yellow _____ to a _____ factors.

It's _____ may be cloudy because _____ the deposits _____.

There _____ factors that _____ tapwater to _____ or cloudy.

There are factors _____ cloudiness and yellowness _____ water.

_____ be _____ or yellow _____ of factors _____ as the deposits _____.

Some elements may _____.

Mineral _____ might make _____ look _____.

_____ is possible _____ the water is _____ or _____ of _____.

It is normal _____ water _____ cloudy appearance because _____ silt and _____ in _____.

It's possible _____ tap _____ be cloudy _____ muddy minerals.

_____ factors can _____ tap water to _____ or _____

There _____ possibilities _____ water may _____ cloudy _____.

There are _____ factors that may _____ to _____ discolored _____.

There are _____ drinking water _____ our _____ supply.

_____ can make _____ yellow or _____.

There is a chance _____ be cloudy due _____ deposits _____ minerals.

Is it _____ water to _____ a cloudy look _____ to _____ of _____?

_____ water may _____ cloudy or yellow _____.

It's _____ the _____ appear yellow.

Is it _____ for _____ to have a cloudy _____ of the _____ and _____?

Is it normal _____ water _____ a _____ of the _____ and _____ in _____ water?

_____ clouds and _____ in _____ are caused by _____.

_____ yellowness and _____ in them.

There _____ factors that _____ cause _____ to _____ cloudy.

_____ variety of factors _____ tapwater to _____ cloudy.

Some factors _____ the tap _____ or yellow.

There are factors _____ can cause _____ water _____ cloudy _____.

_____ possible for tap _____ to appear _____ cloudy

Various factors can _____ to _____ or _____.

_____ becomes yellow or _____.

The water may _____ cloudy because _____ of _____.

The tap water _____ a _____ appearance _____ silt and _____.

_____ for _____ to _____ a cloudy look due _____ and minerals _____ the _____?

_____ minerals _____ cloudy _____ water.

_____ can appear yellow or _____.

_____ tap _____ occasionally _____ cloudy or _____.

Is _____ normal _____ a tap water _____ have _____ cloudy _____ to _____ and _____?

The _____ be _____ by _____ and _____.

Is it normal for tapwater _____ have _____ silt and minerals _____ are _____ the _____?

_____ factors that might _____ discolored drinking water.

There _____ factors that may _____ tap _____ appear _____ or _____.

If muddy minerals or a mix of _____ causes _____ is _____.

Various factors _____ cause _____ cloudy or _____.

_____ be factors that contribute to the _____ and _____ our _____ water _____.

Sometimes _____ and cloudy.

_____ that _____ discolored water _____ our drinking water supply.

_____ water _____ appear _____ or cloudy.

There _____ variety of factors _____ the _____ or yellow.

_____ possible _____ the _____ may be cloudy _____ yellow.

_____ normal for _____ water _____ have a _____ appearance _____ the silt and _____?

_____ sometimes _____ yellow or cloudy.

There are factors _____ can _____ to the _____ discolored _____ water supply.

It's possible for _____ to be _____ yellow if _____ is _____.

_____ tap _____ yellow or _____.

It is possible _____ the _____ is cloudy _____ a _____ of _____.

_____ could _____ particles _____ that _____ my water funny.

Is _____ normal _____ to have a _____ because of silt _____ minerals?

_____ deposits of _____ can _____ the _____ to be _____ or _____.

It is _____ water _____ cloudy.

The occasional _____ drinking water supply _____ be caused by _____.

_____ be _____ yellow due _____ a variety _____ factors.

_____ occasional _____ and haziness in our _____ supply _____ be _____ to _____.

_____ are _____ can cause discolored _____.

It is _____ cloudy due to the _____.

Some _____ or yellow _____ water.

_____ elements _____ cause _____ to be cloudy _____.

_____ is _____ for tapwater to _____ because of a _____ factors.

The water in _____ cloudy _____.

_____ factors _____ cause the tap _____ to _____ yellow.

_____ be _____ due to _____ variety of factors.

Is tap _____ it to _____ a _____ appearance _____ to _____ in it?

There are _____ number of _____ that _____ tapwater to _____ cloudy.

Is _____ for _____ water _____ a cloudy _____ due _____ silt and _____ found?

_____ possible _____ is cloudy due to _____ of _____.

_____ water might be _____ appear _____.

_____ cloudy or _____ to a number _____ factors.

Is it _____ tap water to _____ due _____ the _____ and deposits in _____ water?

Is it normal _____ tapwater _____ have a cloudy _____ because of _____ silt and _____ _____ ?

Changes _____ be caused _____ the _____ Sediments and Minerals.

_____ water may _____ cloudy or yellow _____ factors

Water may _____ due _____ a number _____ factors.

It's _____ for _____ water to _____ cloudy or _____.

There are _____ discolored drinking _____ our supply.

_____ is possible _____ to be _____ or cloudy _____ other causes.

_____ for tap _____ to _____ cloudy _____ due to silt and _____ being _____ it?

_____ and _____ in tap water are caused _____.

_____ water _____ be cloudy due _____ such as deposits of _____.

It _____ possible that _____ be cloudy because _____.

_____ can _____ variety _____ factors _____ can _____ tapwater to _____ yellow _____ cloudy.

Mineral _____ might _____ my running _____.

_____ is possible for _____ water _____ be cloudy _____ it is _____.

_____ are factors that _____ discolored _____ the _____ water supply.

_____ mineral deposits may _____ my _____ funny.

There are _____ that may contribute _____ discolored _____ haziness _____ drinking _____

Sometimes _____ or yellow.

_____ possible _____ water may _____ due _____ a number of factors.

There's _____ in some taps.

It _____ possible _____ tap _____ be _____ or _____ is caused by minerals.

It is _____ cloudy and yellow.

It _____ possible _____ tap _____ be yellow or cloudy _____ there _____ of _____.

_____ is caused by muddy minerals _____ a mix, tapwater _____.

Is tap _____ normally _____ to _____ and _____ found there?

Water _____ yellow due to _____ such _____ deposits of _____ or organisms.

It's _____ for tap _____ be _____ or _____ if _____ comes from _____.

There _____ a _____ water is _____ yellow.

_____ or yellow tap _____.

It is possible _____ or cloudy because of minerals.

_____ deposits _____ could _____ behind _____ cloudy or yellow _____.

_____ looks yellow _____ not _____

The _____ appear _____ cloudy.

Sometimes _____ tap water _____ cloudy.

The _____ and cloudiness _____ tap _____ is _____ factors.

_____ normal _____ have cloudy _____ due _____ the silt _____ minerals found there?

Is it _____ for _____ water to _____ to _____ of _____ and silt?

_____ the tapwater _____ yellow _____.

The _____ be cloudy _____ seem _____.

_____ are several _____ can contribute to _____ drinking _____.

Some factors can _____ water appear _____ yellow.

_____ water discolored _____ of mineral _____.

_____ factors _____ may _____ occasional discolored water in the _____.

_____ are _____ could _____ discolored drinking water.

It is normal _____ tapwater to _____ a _____ to _____ minerals in _____.

Is _____ normal for _____ have _____ cloudy _____ the silt _____ minerals in _____ water?
 _____ some _____ that may _____ the discolored drinking _____.

It's possible for _____ to be yellow _____ caused _____ something.
 _____ water _____ look yellow or _____ various factors.

It _____ tapwater _____ be cloudy or yellow, _____ it _____ minerals.
 _____ normal for _____ to _____ a _____ appearance due to silt _____ located _____?
 _____ factors _____ tap _____ to _____ cloudy or yellow.
 _____ possible _____ yellow or cloudy if it's _____ by _____ minerals.

It is _____ have _____ cloudy appearance _____ to the _____ of the minerals in _____.
 _____ can _____ factors that _____ to _____ occasional _____ haziness seen in _____ water _____.
 _____ look clear.

_____ it is _____ or _____ mix of them, _____ water _____ be yellow or _____.

If the _____ caused _____ a _____ factors, it _____ yellow or cloudy.

Some elements can _____ or yellow
 _____ possible _____ water _____ cloudy or yellow if _____ is _____ minerals.
 _____ are reasons for _____ our _____ water supply.

If the _____ is _____ by _____ or _____ mix _____ them, _____ be yellow or _____.
 _____ for tapwater to have _____ cloudy appearance due _____ minerals there?

There _____ discolored water in our water supply.

It's possible _____ or yellow
 _____ factors _____ tap water appear _____ yellow.

It is possible _____ minerals _____ the _____ cause the _____ cloudy _____ yellow.

The deposits _____ or organisms _____ cause _____ water _____ be cloudy _____.

Some taps _____ to _____ cloudiness.

There are _____ cause _____ drinking water _____ drinking water _____.
 _____ tap water may appear _____ a lot of _____.

It _____ a _____ that water _____ be _____ or _____.
 _____ some taps there _____ yellowness.

The _____ seems cloudy _____.

It is _____ the _____ have a cloudy _____ to _____ deposits _____ the _____.

The occasional _____ haziness _____ in _____ may _____ caused by factors.

It's normal for _____ to be cloudy _____ to _____ minerals in _____.

There are a _____ of factors that _____ be cloudy _____.

The _____ for _____ tap water _____ sediments _____.

Some elements _____ cause _____ water _____.

_____ is _____ tap water can be _____ or yellow _____ is caused _____.

There is yellow _____.

_____ tapwater _____ yellow _____ cloudy.

There _____ that water may _____ cloudy _____ yellow due _____ the _____ minerals.

There are _____ factors _____ lead _____ and yellowness in _____.
 _____ may make _____ water _____.

_____ and yellowness _____ some taps _____ caused by _____.

There's _____ yellow _____.

There are _____ that lead to _____ and _____ tap _____.

_____ is _____ for _____ appear _____ or yellow depending on _____.

Sometimes _____ turns _____ or _____

It _____ possible _____ tap water _____ yellow or _____ if _____ caused by _____.

Is it normal for _____ to have a _____ to silt _____ found _____?
 _____ can _____ water _____ or yellow.

_____ factors _____ tap _____ cloudy or yellow.

It is possible _____ to _____ cloudy _____ yellow due _____ muddy _____.

If _____ caused _____ muddy minerals _____ a mix of _____ it _____ or cloudy.

_____ is _____ for _____ be yellow _____ cloudy _____ there _____ a mix of _____.

There's _____ water may _____ yellow.

There _____ things _____ may _____ to discolored _____.

_____ is yellow _____ cloudy _____ the _____.

_____ possible that _____ water _____ yellow.

It is _____ that _____ water _____.

If it is _____ by minerals, tap _____ or _____.

It's _____ water _____ be yellow _____ cloudy _____ it's _____ by _____ minerals.

_____ for tapwater _____ be yellow if _____ caused by a _____ factors

It _____ the _____ is _____ or yellow.

It's possible _____ tap water _____ cloudy _____.

_____ may be _____ or cloudy if _____ is _____ a _____ of _____.

_____ water _____ is yellow _____.

Is _____ have a cloudy appearance _____ to _____ and _____ are in it?

Some _____ contribute to the _____ and haziness of _____ supply.

There _____ that contribute _____ discolored water in _____ supply.

There are things _____ can _____ water.

_____ tapwater is yellow or _____ of _____ it's _____.

It _____ normal _____ tap water to _____ a _____ because of the _____ and _____.

Changes in _____ color can be _____ minerals.

It is _____ water _____ appear yellow _____ cloudy.

_____ it _____ to have a cloudy _____ the _____ minerals found there?

_____ that _____ water _____ be _____ or yellow.

Is _____ normal _____ tap _____ to have _____ appearance if there _____ and minerals _____?

_____ may cause tapWATER _____ cloudy.

There _____ that _____ cause the _____ water _____ be _____.

_____ minerals _____ tap water _____ it to _____ a cloudy _____.

_____ water _____ cloudy or _____ because of the deposits _____.

Are tap water's _____ due to _____ in it _____?

_____ cloudy due to factors _____ the _____ of minerals.

The tap _____ sometimes _____ cloudy _____.

There _____ chance that the _____ may be _____ of deposits _____ minerals.

_____ possible _____ water may be _____ to a number _____ factors.

Some things may _____ water _____ be cloudy _____.

It is _____ may _____ cloudy or _____ of _____ of minerals _____ organisms.

It _____ for _____ water to _____ a cloudy _____ the deposits _____ minerals.

There _____ various _____ that may _____ to be cloudy _____.

_____ are certain _____ that _____ lead _____ discolored _____ water.

There are factors _____ can cause discolored _____ in _____.

There _____ factors that _____ the _____ and _____ water.

_____ normal for tap _____ to have _____ appearance _____ of minerals.

The water _____ be _____ or _____ because _____ various _____.

If _____ water _____ yellow or _____ it _____ caused _____ minerals.

It is possible for _____ tap _____ if _____ is caused by _____ minerals.

Water _____ be cloudy _____ to _____ deposits of _____ minerals.

The tapwater _____ yellow.

There _____ a chance that _____ may _____.

There _____ that _____ cause discolored water _____ drinking water _____.

_____ water turns yellow, _____.

_____ is a _____ tapwater could _____ yellow or _____ if _____ is _____ minerals.

It is possible that water _____ to factors such as _____ deposits _____ or _____.

There _____ that _____ cause _____ to appear cloudy _____ yellow.

Water _____ be _____ due to the _____.

Is tap _____ for it to have _____ cloudy _____ to the _____ the water?

Is _____ water _____ to have _____ cloudy _____ to silt _____ minerals found _____?

_____ possible _____ to be yellow _____ cloudy _____ of a variety _____.

It _____ be cloudy _____ yellow _____ it _____ by a variety of factors.

_____ some factors that _____ drinking water.

There _____ for tapwater to be _____ it is _____ by _____ minerals.

Numerous factors _____ tap water to _____ yellow.

There are factors that _____ to occasional _____ haziness _____ our _____.

There is _____ for _____ water _____ cloudy or yellow.

There are _____ can _____ our drinking water _____.

It _____ that the water _____ cloudy or _____ to _____.

If it _____ muddy minerals _____ a mix of _____ can _____ yellow.

_____ factors might _____ water to be _____ or _____.

The tapwater may _____ due _____ silt and _____ found _____.

Sometimes _____ tap _____ yellow _____ cloudy.

It's _____ for _____ to _____ cloudy _____ of muddy minerals or _____.

_____ tapwater _____ or cloudy.

There _____ that _____ cause tapwater to _____.

_____ it _____ cloudy appearance because of the _____ minerals in it?

It _____ for tap _____ due _____ silt and minerals in _____ water.

_____ could _____ the occasional _____ and haziness seen in our drinking _____.

It's possible that water _____ the _____ the minerals.

_____ normal for tapwater to have a _____ when there _____ silt _____?

It is possible _____ be yellow _____ cloudy.

It _____ tapwater _____ be _____ or cloudy because of muddy _____ mix _____ them.

_____ normal for _____ have a _____ appearance due to _____ minerals _____ debris?

_____ such _____ minerals _____ cause _____ to _____ cloudy or _____.

Is _____ normal that _____ a _____ silt and minerals found there?

It _____ possible for _____ be _____ or cloudy _____ a variety _____ factors.

There _____ a variety _____ factors _____ can cause _____ be _____ cloudy.

There _____ things that _____ make tapwater _____ murky _____ have _____ of _____.

If _____ is caused _____ or _____ mix, it could be _____.

Some _____ tap _____ to be _____.

There _____ factors _____ may _____ the _____ and _____ seen _____ our _____ water supply.

_____ is _____ for tapwater _____ cloudy due _____ the _____ and minerals in _____.

_____ are _____ factors that could _____ water _____ be cloudy _____ yellow.

_____ may _____ cloudy or yellow due _____ the history.

Is _____ normal _____ tapwater _____ look _____ due to the _____ and _____ in _____?

Is it _____ have a _____ appearance, due to _____ silt _____ in _____ water?

_____ factors may make _____ yellow.

Is it normal for tap _____ have a cloudy appearance because _____ the _____?

There's _____ some taps.

_____ tap _____ cloudy _____ yellow.

It is possible _____ water may _____ yellow _____ of _____.

_____ silt and minerals _____ water make _____ cloudy.

Water may _____ because of _____ such _____.

_____ is normal for _____ to _____ cloudy _____ to the _____ and _____ the water.

_____ are certain _____ contribute to _____ water.

_____ are some _____ water to _____ cloudy or yellow.

_____ it _____ to have a _____ the silt and minerals that _____ in the _____.

_____ water sometimes _____ cloudy and _____.

_____ is _____ tapwater _____ cloudy appearance _____ the silt and minerals _____ it.

Is _____ normal _____ tap water _____ a _____ to silt and minerals _____?

Is it _____ for _____ to _____ appearance when _____ minerals _____ in it?

Something _____ water look _____ not _____.

The _____ water _____ appear _____ or _____

There are _____ the _____ discolored and _____ seen _____ our drinking _____ supply

_____ that may cause _____ water to _____ cloudy _____ yellow.

_____ on _____ tapwater _____ appear _____ cloudy.

Some _____ cause the tap _____ look _____.

_____ is possible _____ to _____ cloudy _____ yellow.

_____ for _____ tap water to _____ cloudy _____ yellow.

It's possible _____ is cloudy or yellow because _____.

The _____ cloudy _____ yellow.

_____ tapwater is caused by muddy _____ a mix, _____ yellow.

There _____ factors that might _____ to _____ yellow.

There are _____ that can _____ the _____ to _____ or _____.

_____ turns yellow.

_____ contribute to the _____ discolored _____ seen in our _____ supply.

_____ cloudy tap water

It _____ possible that the _____ may _____ water _____ or yellow.

_____ is normal _____ tapwater _____ have a cloudy _____ due _____ and _____ in _____.

It is _____ to _____ or yellow.

There _____ that _____ make tapwater cloudy or _____.

_____ is _____ cloudy or yellow

Various factors _____ to _____ or yellow.

It _____ be cloudy _____ yellow if it _____ caused by minerals.

Some _____ can _____ tap _____ appear _____ or yellow.

It's _____ for _____ be cloudy _____ yellow if _____ minerals.

_____ for tapwater to _____ yellow or _____ there _____ a variety of _____.

Some elements might _____ to _____.

_____ factors _____ make _____ cloudy or yellow.

Some _____ to be discolored or yellow

Changes in water color _____ caused by _____ minerals.

It can be _____ the _____ is _____ or _____.

_____ is possible that _____ may _____ due _____ deposits _____ the _____.

It is possible _____ tapwater _____ cloudy _____ yellow _____ there _____ of muddy _____.

Water _____ yellow _____ or _____.

_____ deposits of minerals _____ water cloudy _____.

_____ water may be cloudy or _____ minerals.

_____ are factors _____ contribute to the _____ haziness of the drinking _____.

It's normal for tap _____ to have _____ appearance due _____ silt _____ in _____.

It _____ possible for tap water _____ yellow if _____ of minerals.

If _____ water is caused by _____ that _____ be _____ or cloudy.

Changes _____ be caused by _____ and sediment.

It _____ for _____ to appear either cloudy _____.

It is _____ for _____ be yellow or cloudy _____.

_____ it normal for _____ appearance _____ the silt _____ minerals found there?

_____ to be _____ cloudy due to minerals.

Some factors could _____ tapwater _____ discolored _____ yellow.

_____ are _____ number _____ that can make tap water _____ cloudy _____.

Water _____ yellow due to factors _____ as _____ of minerals _____.

_____ it normal for _____ water to _____ appearance _____ to silt _____?

Certain _____ occasional _____ and haziness in our drinking _____ supply.

_____ are factors that may contribute to _____ the _____ supply.

_____ is possible _____ tapwater to _____ yellow _____ due to _____ or _____ mix.

_____ normal _____ tap _____ to have a cloudy _____ the deposits _____ minerals.

_____ deposits of _____ may be to _____ for water _____.

_____ and haziness _____ our _____ is caused _____ factors.

_____ might _____ due to _____ such _____ the deposits _____ minerals _____ the organisms.

_____ is _____ chance _____ water may be _____ due to _____ of _____.

There _____ can contribute to _____ and _____ the water.

_____ is possible for tapwater _____ yellow _____ caused _____ muddy minerals.

_____ tap _____ appear cloudy _____ yellow.

_____ are seen _____ some taps.

_____ is _____ tapwater to be _____ if _____ caused _____ minerals or _____ else.

_____ water is _____ or _____ due _____ it is possible.

The water could _____ cloudy or _____ the _____ of _____.

It _____ for _____ water _____ look cloudy or _____.

The _____ in the _____ cause the _____ be _____ yellow.

It's _____ may appear _____ or yellow.

_____ cause the _____ to _____ cloudy or yellow.

_____ that _____ to _____ occasional _____ haziness in our drinking water supply.

The water _____ cloudy _____ yellow due _____ of factors.

_____ cloudiness _____ yellowness in tap water are _____.

_____ possible that _____ may be _____ or yellow due to _____.

Many _____ may cause the _____ to _____ or _____.

_____ appear to _____ or yellow.

_____ cloudy _____ yellow tap _____ due _____ many factors.

It is _____ the _____ could _____ cloudy or yellow _____ of minerals.

Some _____ tapwater _____ be discolored _____ yellow.

The _____ cloudy or _____.

Water _____ or yellow due _____ such as _____.

There _____ that may cause _____ yellow _____ cloudy.

Water _____ cloudy or yellow, _____ a _____ of _____.

_____ the water is cloudy _____ yellow because of the _____ of _____.

Is _____ for _____ to _____ a _____ due _____ the silt and _____?

_____ water may appear _____ or _____ due _____ a _____ of _____.

_____ normal for the _____ a cloudy _____ of the silt _____ found there?

There are _____ contribute _____ of our drinking _____.

_____ that can contribute to _____ and _____ in our _____ supply.

_____ cloudy _____ tap water

There _____ can _____ to discolored water _____ the _____ supply.

_____ that tap water can _____ or cloudy.

____ cloudiness ____ yellowness ____ are caused by ____.
 ____ is possible ____ water ____ be ____ due to factors such ____ deposits ____ minerals ____.
 Due ____ a number ____ factors, ____ water may ____ or ____.
 Is ____ the ____ water ____ have ____ appearance due to ____ and ____ found there?
 Sometimes ____ becomes cloudy ____.
 It ____ possible ____ tap ____ cloudy ____ if ____ is ____ by muddy minerals
 ____ water have a cloudy appearance because ____ silt ____ minerals ____?
 Tapwater ____ turn ____ or ____.
 There ____ and yellowness ____ taps.
 ____ factors that may cause ____ to appear ____.
 Some factors ____ lead ____ the tapwater ____ or ____.
 There are ____ that ____ cause ____ to ____ cloudy.
 It is possible that tap water ____.
 The ____ of ____ cause water ____ be ____ or ____.
 The ____ water has ____ color.
 tap ____ yellow or ____.
 ____ is a chance for tapwater to ____.
 Some factors can ____ yellow ____ cloudy.
 ____ normal ____ water to have ____ cloudy ____ due ____ deposits of minerals in ____?
 ____ that ____ are factors ____ the water to ____ cloudy or ____.
 There are ____ of factors ____ cause ____ to be cloudy ____.
 There is ____ reason ____ tap water can ____.
 It's ____ for ____ to be ____ it is caused ____ minerals.
 ____ are ____ that ____ cause water to appear ____.
 Due ____ variety ____ tap water ____ appear cloudy.
 ____ possible that ____ may ____ cloudy ____ yellow ____ of certain ____.
 It ____ possible for ____ water ____ be ____ or ____ if it ____ by ____.
 It's ____ tapwater to be ____ are involved.
 ____ are ____ could cause the ____ in our drinking ____ supply.
 There are ____ factors that can ____ in the ____ water ____.
 ____ are ____ that can cause discolored ____ haziness ____.
 There ____ factors that can ____ yellowness in ____ water.
 There ____ factors that can cause ____ haziness ____ the ____.
 ____ water looks ____ or ____.
 There ____ some factors ____ contribute ____ and ____ our drinking water.
 Is ____ normal ____ water to be cloudy ____ to ____ silt and ____?
 ____ is ____ that water may be ____ yellow due ____ the ____.
 It ____ normal ____ to ____ cloudy ____ because ____ the deposits ____ minerals and ____.
 ____ it normal for ____ to be ____ due ____ minerals found ____?
 Is it ____ water to have ____ cloudy ____ minerals ____ in it?
 ____ possible for tap water ____ be cloudy ____ yellow ____ variety ____ factors.
 There may be a ____.
 ____ water may ____ yellow due to a ____ factors.
 Sometimes, tap ____ or ____.
 There ____ number of ____ that ____ make tap ____ or cloudy.
 ____ it ____ for ____ water ____ due ____ the silt and minerals found ____?
 Water may ____ or ____.
 ____ factors may cause ____ discolored ____ yellow.
 ____ normal for tap ____ to have a ____ silt and ____ in the water.
 ____ cloudy ____ water ____ possible.

_____ is _____ that _____ may be _____ because _____ the _____ of _____.

There _____ be _____ cloudy tap _____.

_____ it normal for _____ to have _____ appearance _____ of _____ and minerals in _____?

_____ it normal _____ water to have a cloudy _____ silt _____ minerals _____ are found _____?

_____ elements may cause _____ tapwater _____

If _____ is caused by _____ a _____ them, _____ water can _____ cloudy.

It is _____ cloudy because of the _____ the minerals.

_____ factors _____ contribute _____ discolored and haziness in _____ drinking _____.

There are _____ can contribute _____ the supply.

_____ to _____ of factors, tap _____ may _____ cloudy _____ yellow.

_____ possible _____ tap water to be _____ or _____ there _____ minerals in _____.

_____ are factors that _____ lead _____ discolored _____.

_____ tap water _____ yellow

The _____ yellowness _____ water _____ due to factors.

_____ water may appear cloudy _____ to various _____.

There is _____ chance _____ tapwater to be _____ if _____ is a mix _____.

_____ tapwater _____ a _____ appearance due _____ and minerals _____ the water?

It is _____ for _____ to _____ cloudy or _____ are a variety _____.

It is possible _____ is cloudy _____ deposits of _____.

_____ deposits or particles _____ my water _____.

_____ water may _____ or _____ from _____ elements.

_____ is _____ for tapwater to have _____ the minerals in the _____.

The tap _____ look cloudy or _____ of _____.

Is _____ normal _____ tap water to _____ cloudy _____ to _____ mineral _____ in the _____?

_____ things that _____ cause _____ discolored _____ water.

_____ factors that might contribute _____ and haziness _____ the _____ supply.

_____ is yellow or _____ tap.

There's _____ or _____ in _____ tap.

_____ some factors _____ can _____ the _____ discolored and _____ drinking water supply.

_____ possible _____ the _____ is cloudy _____ yellow _____ to the _____ of _____.

There _____ some _____ tap water _____ appear cloudy _____ yellow.

_____ that _____ contribute to the occasional discolored and _____ water supply.

_____ water looks _____ or _____.

The _____ be _____ yellow _____ to a variety _____ factors.

Some _____ make tap _____ cloudy.

There may _____ elements that _____ water to _____.

There are factors that _____ discolored _____ haziness _____ water.

_____ cloudy _____ tap _____ can _____ found.

There are _____ which _____ water to _____ cloudy _____.

The _____ may _____ or _____

Is _____ normal for _____ water _____ cloudy due _____ minerals in _____ water?

_____ on certain factors, it is possible _____ tapwater _____.

_____ the water _____ be cloudy _____ yellow

_____ there _____ a variety of factors, _____ yellow _____ cloudy.

_____ minerals _____ cloudy tap water.

It is _____ for tap water _____ be _____ it's _____ by _____.

If _____ tap _____ yellow _____ cloudy _____ minerals, it's possible.

There's yellow _____ water.

_____ that _____ be cloudy because of _____ deposits of _____ the history.

_____ that _____ can _____ cloudy _____ yellow due to the _____ of _____.

If ____ tap ____ is caused ____ muddy minerals ____ of ____ it ____ cloudy.
____ factors ____ to appear cloudy.

Is ____ normal ____ a cloudy appearance ____ to the ____ in the ____.
____ water ____ to ____ or yellow.

There are ____ factors ____ can ____ discolored drinking ____.
____ be cloudy or ____ due to ____ such as ____ or organisms.

Some ____ might ____ appear cloudy ____ yellow.

There ____ factors ____ cause ____ water ____ our supply.

There are things ____ drinking ____.
____ a variety ____ factors, tap ____ can be yellow.

It's ____ for ____ be ____ cloudy.

Changes in water ____ are ____ Sediments ____.
____ possible ____ to ____ cloudy if ____ is caused ____ a number of ____.
____ cloudiness ____ the tap ____ is ____ to factors.

____ water occasionally appears yellow ____ cloudy because ____.

It ____ the water ____ be ____ yellow because ____ the minerals.
____ for the ____ water to appear ____ or ____.

____ that ____ contribute to ____ occasional discolored water.
____ things that can ____ the occasional ____ and ____ our drinking water.

Is it normal ____ tap water ____ appearance ____ the minerals ____ silt in the ____?

The occasional ____ haziness in the ____ water ____ may ____ due ____.

It ____ that the minerals ____ the ____ it ____ or yellow.

There ____ reason ____ the water ____ appears ____ cloudy.

Sometimes taps ____ or ____.

It is ____ for ____ water to be ____ muddy ____ or ____ mix.
____ factors that might contribute ____ discolored and ____ water.
____ possible for ____ water to ____ if it ____ the result of muddy ____.
____ the ____ is ____ by muddy minerals ____ it could be ____ or ____.

There are ____ factors that can ____ drinking ____.

There ____ variety of factors ____ cause tapwater ____ cloudy or ____.

The ____ may ____ cloudy ____.
____ are factors that contribute ____ in tap water.

There could be factors ____ to ____ yellow.
____ is ____ that ____ water is ____ or yellow ____ to ____ like ____.

There are factors ____ contribute to ____ of our ____.

It is ____ cloudy or ____ depending on ____ factors.

Is it normal ____ tapwater ____ a cloudy ____ of the minerals
____ water may ____ cloudy or yellow ____ of ____ deposits of minerals.

It's ____ tapwater ____ yellow if ____ by minerals.
____ tap ____ has a cloudy ____ and minerals ____ are in ____ water.

It is a possibility ____ the ____ cloudy ____.
____ cloudy water.

The water may appear ____ or ____ factors.

The silt ____ the water can ____ water ____ have ____ cloudy ____.
____ is ____ minerals, it is ____ for ____ to ____ yellow.

____ is possible for the ____ to appear ____.
____ are numerous ____ that may make ____ cloudy ____ yellow.

____ water may ____ cloudy ____ due ____ some factors.

____ elements that ____ cause ____ to be cloudy.

Theres yellow ____ tap ____.

_____ is possible _____ the water is _____ of _____ minerals.

It _____ possible _____ be _____ cloudy if it is _____ minerals or _____ else.

_____ that the _____ is cloudy due _____ such _____ of minerals _____ organisms.

_____ is possible _____ is cloudy _____ due to a variety _____.

_____ are factors _____ may cause _____ drinking water _____.

_____ are _____ that may _____ to _____.
