

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Data breach and unauthorized access
Description	Customer concerns regarding the security of their personal information, such as credit card details or login credentials, being breached or accessed by unauthorized parties.
Data Size	5,062 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

_____ often _____ conducted _____ potential vulnerabilities in _____ consumer _____ such as _____ cards and _____?
_____ to safeguard payments _____ logins?
_____ regular _____ security _____ in the payment _____ details that _____ endanger _____ confidentiality _____ the _____ information?
_____ audits to identify flaws in _____ consumer records, including _____ card _____.
How _____ uncover _____ consumer data, including _____ cards and logins?
The _____ audits _____ are _____ to discover _____ vulnerabilities _____ cards and _____ unknown.
Is there _____ audits _____ make _____ my _____ and _____ are _____?
How often do _____ look _____ consumer _____ protection, like _____?
_____ should be done _____ to identify _____ in _____ payment _____ and _____.
_____ many times a _____ audit consumer _____ including _____ and login information?
Do _____ problems with _____ such _____ payment cards?
_____ regular _____ exposing security _____ the payment _____ details _____ logins that could _____ the _____ of _____?
_____ to _____ if an _____ is conducted _____ to find _____ as payment _____ accounts or passwords.
_____ happen to identify _____ points _____ securing _____ and logins?
What _____ of audits _____ done _____ find _____ weaknesses _____ and logins?
Are _____ regular _____ to identify _____ gaps _____ the protection of _____?
Does regular _____ security _____ in payment card _____ logins _____ could _____ the _____ of _____ information?
How _____ do audits find weaknesses _____ the _____ such as _____ card _____?
_____ you conduct _____ to uncover possible _____ consumer _____ like payment _____ and logins?
Do _____ audits uncover _____ that pose _____ to _____ consumer information, such _____ details _____ logins?
_____ frequently _____ you conduct checks for _____ payments _____?
_____ it _____ to _____ and consumer information, _____ frequently do _____ audits?
How _____ are audits _____ detect _____ in securing _____ like _____ cards?
How often _____ look at potential vulnerabilities with _____ payment _____?
_____ can _____ out _____ weaknesses _____ the system _____ securing _____ information _____ payment _____ login info.
_____ do you _____ audits to find _____ in _____ securing consumer information, like _____ cards?
_____ often do you conduct _____ to find potential weaknesses _____ payment _____?
When _____ protecting consumer data _____ cards and logins, how _____ undertaken?

The _____ to discover potential _____ payment _____ and logins
 The number of audits conducted _____ discover _____ payment _____ and _____ not _____
 Is an audit _____ frequently _____ find vulnerabilities _____ protected _____ like _____ and _____ ?
 The _____ of audits _____ in _____ to find potential _____ payment card _____ unknown.
 When it _____ cards and consumer _____ how _____ do you _____ ?
 _____ often do you _____ for _____ consumer records, like payment _____ ?
 Does _____ practice of regular _____ risks in the _____ card details and _____ may _____ the _____ of _____ ?
 _____ often do _____ consumer data, _____ payment cards _____ information?
 I _____ if _____ audit _____ to find _____ consumer _____ like payment cards.
 Does regular checks _____ when securing _____ logins?
 How frequently do you conduct _____ vulnerabilities _____ consumer _____ and logins?
 Are _____ for detecting vulnerabilities in _____ consumer _____ payment cards _____ ?
 _____ procedures _____ to identify _____ weaknesses in the security of _____ related _____ payment _____ and login _____.
 _____ regular _____ uncover vulnerabilities _____ might _____ a threat to consumer _____ payment card _____ logins?
 _____ often _____ audits discover vulnerabilities _____ protection of _____ information, such as _____ details _____ credentials?
 _____ know _____ they _____ a lot _____ to check for _____ consumer records, _____ as login and payment _____.
 _____ you do _____ often to _____ weaknesses for _____ ?
 How _____ audit procedures to _____ weaknesses in the security _____ payment _____ ?
 _____ audits _____ security risks in _____ payment _____ that might _____ consumer information?
 _____ often _____ you _____ find weaknesses _____ system _____ consumer information, like payment cards and login _____ ?
 How many _____ do _____ to _____ potential weaknesses in _____ ?
 How much _____ you audit _____ weaknesses in _____ for _____ ?
 _____ there _____ audits _____ in consumer _____ like _____ and passwords?
 Does _____ regular audits reveal security _____ the _____ card _____ and logins _____ may _____ threat to _____ ?
 _____ find _____ problems _____ the _____ of consumer _____ such as payment card details _____ login _____ ?
 Is it normal _____ audits _____ find _____ consumer _____ such _____ payment _____ and _____ ?
 Audits are done to _____ vulnerabilities _____ record protection, such _____ cards and _____ measures.
 Do _____ how often _____ for payment _____ vulnerabilities?
 _____ do you perform _____ find security _____ payment cards?
 Does regular _____ risks in the _____ and logins _____ may _____ consumer _____ ?
 _____ comes to securing _____ cards _____ information, how _____ are _____ audited?
 _____ audits often _____ vulnerable _____ data such _____ payment _____ ?
 There _____ about _____ number _____ to discover possible vulnerabilities _____ cards and _____.
 _____ often are _____ done _____ login data?
 I need _____ know if _____ audit _____ lot to _____ for vulnerabilities in _____ consumer _____ such as _____ .
 When _____ to _____ cards and _____ information how _____ do you _____ audits?
 _____ often do you do _____ find _____ security _____ payment _____ and _____ information?
 The _____ may uncover _____ risks _____ the payment _____ details and logins that may _____ to consumer _____.
 _____ regular _____ to identify potential gaps _____ payment card _____ ?
 _____ do you _____ data like payment _____ login information?
 Some people are _____ of _____ that are _____ in _____ to _____ possible _____ in _____ cards.
 How often do _____ uncover _____ loopholes when it comes _____ consumer _____ like _____ ?
 _____ do audits find flaws _____ security of consumer _____ such _____ payment _____ login credentials?
 How _____ audits _____ identify vulnerabilities in _____ cards?
 _____ number of _____ done in order _____ find _____ in _____ cards _____ logins _____.
 _____ it comes to securing payment cards and other consumer _____ often _____ you _____ to _____ ?
 How often _____ you perform _____ to _____ potential _____ in _____ as _____ cards?
 _____ there a _____ schedule _____ of consumer information _____ as _____ card _____ and login
 Does _____ practice _____ regular audits _____ risks _____ card _____ that may be a threat _____ ?

The number _____ audits conducted _____ order _____ possible _____ in payment _____ login _____ is _____.

_____ frequently do you perform audits _____ potential weaknesses _____ the _____ securing _____ information, like _____ information?

How _____ you audit _____ for securing _____ such as _____ and login information?

_____ audit _____ cards _____ identify possible weaknesses?

_____ have _____ the number of _____ are _____ in _____ vulnerabilities _____ payment cards.

_____ regular audits uncover _____ risks _____ the payment _____ details _____ logins _____ a threat _____ consumer _____?

_____ would _____ about the _____ for detecting vulnerabilities in securing _____ including payment cards _____ logins.

_____ you tell _____ if an audit is done _____ to _____ like _____ cards _____ resets?

I want to _____ an audit _____ conducted _____ vulnerabilities _____ like payment cards.

_____ many audits _____ for _____ in _____ records like payment cards _____?

_____ practice _____ uncover security risks _____ the _____ details _____ may pose a threat _____ consumers?

How _____ do you _____ the system _____ protecting _____ information, _____ as _____ logins?

The number _____ audits _____ to find _____ vulnerabilities _____ payment cards _____ questionable.

_____ frequently do _____ cards _____ information to see if there is _____?

_____ do _____ audits for vulnerabilities _____ consumer records _____ payment _____ and _____?

_____ know if _____ conduct _____ audit a _____ check for _____ in protecting _____ records such _____ logins _____ cards.

_____ done frequently _____ find _____ consumer records like payment _____?

How _____ done _____ expose _____ in consumer _____ protection, including _____ and login data safety _____?

_____ number of _____ done _____ possible vulnerabilities _____ payment _____ logins

What rate _____ performed to _____ in consumer _____ card information and _____?

_____ often _____ safe payments and logins?

How _____ do _____ audit _____ data _____ as _____ cards _____ info?

When it _____ securing payment _____ and consumer _____ how often _____?

 _____ frequently _____ you conduct _____ payment card _____ ?
 Are _____ regular checks to identify _____ in _____ cards _____ ?
 Some people are _____ the _____ audits conducted _____ order _____ find vulnerabilities _____ .
 The number _____ order to uncover _____ vulnerabilities _____ payment cards and _____ been _____ .
 _____ many _____ out to _____ vulnerabilities in securing user information?
 _____ number _____ audits _____ discover _____ vulnerabilities _____ payment cards and _____ questionable
 Does the _____ regular audits uncover security _____ in _____ details _____ confidentiality of consumer information?
 The number _____ are conducted in _____ to _____ potential vulnerabilities _____ payment cards and _____ .
 _____ frequently _____ security risks _____ user credentials and _____ information?
 _____ to securing _____ consumer information, how _____ do you conduct _____ ?
 The number _____ audits _____ vulnerabilities in payment _____ and logins is a _____ .
 Is _____ enough _____ susceptibility _____ payment cards and logins?
 It's unclear how _____ are _____ order _____ possible vulnerabilities _____ cards and _____ .
 _____ an audit a lot _____ for vulnerabilities _____ protecting consumer _____ such as _____ and _____ .
 _____ frequently do _____ look _____ potential _____ payment cards or logins?
 _____ performed to _____ out potential _____ in the _____ for _____ consumer _____ cards and login information.
 _____ regular audits uncover _____ risks _____ the payment _____ that may endanger _____ ?
 _____ often do _____ cards _____ possible weaknesses?
 How frequently _____ checks _____ for safe _____ logins?
 Please _____ me _____ if _____ do a _____ audits to check for _____ in _____ records, _____ logins _____ cards.
 _____ often do you audits _____ your _____ for _____ payment _____ and passwords?
 _____ frequently do _____ to _____ in the _____ hold, for example _____ cards _____ passwords?
 _____ many _____ are _____ to _____ securing consumer _____ including payment _____ information?
 How many _____ to _____ potential _____ with payment _____ ?
 The _____ audits _____ in _____ to _____ vulnerabilities _____ cards and logins _____ a mystery.
 _____ many audits are _____ make _____ payment _____ secure?
 Are _____ to _____ there _____ no gaps in _____ of _____ payment card _____ ?
 Do you know if _____ conduct _____ audit _____ to check _____ consumer records such as _____ payment _____ ?
 The number _____ audits _____ to _____ vulnerabilities _____ payment cards _____ been questioned
 _____ frequently do audits _____ security _____ involving _____ and payment _____ ?
 The number _____ audits conducted _____ discover _____ vulnerabilities _____ cards and _____ unknown.
 _____ regular audits find vulnerabilities related _____ as payment details _____ ?
 How often did _____ checks be _____ and _____ ?
 How _____ do _____ the _____ like payment cards and login info?
 How many audits _____ detect _____ user information like _____ cards?

How ____ audits ____ done to ____ weaknesses ____ cards?
____ often ____ payment ____ to identify weaknesses?
____ are checks ____ safeguard ____ and logins?
____ for ____ securing consumer records, including payment cards ____ logins.
____ not known ____ are ____ to ____ vulnerabilities in ____ cards and logins.
____ have ____ number ____ conducted in ____ to ____ vulnerabilities in payment ____ and ____.
How ____ audits look for ____ weaknesses in ____?
How many times ____ you ____ consumer ____ payment ____ logins and similar ____?
____ done to discover potential vulnerabilities in ____ records is ____ known.
How often do ____ to ____ there is ____ weakness in ____ as payment ____?
I want ____ number of audits for ____ vulnerabilities in ____ payment ____ logins.
How often ____ consumer records like payment ____ and ____?
I ____ know ____ they conduct audits ____ for ____ protecting consumer ____ such ____ and payment cards.
____ how many ____ are conducted in ____ discover vulnerabilities ____ payment ____ passwords.
Let me ____ if ____ do an ____ lot to ____ consumer records, such as ____ payments.
What ____ done to identify ____ securing ____ records, like ____ information and ____ credentials?
Audits ____ uncover ____ loopholes ____ consumer data, ____ payment cards and ____.
____ securing ____ cards ____ other consumer ____ how ____ do you conduct audits?
The ____ of ____ possible flaws ____ card and login records is ____.
____ data, such as payment ____ and login info?
____ are ____ susceptibility in securing payment ____ and ____
____ regular ____ uncover ____ risks in ____ payment ____ that can endanger the ____ of ____?
The number of ____ to discover potential ____ payment cards ____.
Do ____ audits happen ____ people's record, such ____ details and ____?
How ____ do ____ audit ____ including ____ cards, ____ see if ____ is ____?
Do regular audits ____ vulnerabilities ____ securing ____ cards?
____ number of ____ order ____ discover vulnerabilities in payment cards ____ unknown.
____ often ____ audits ____ find weaknesses ____ for payment cards?
Do ____ find vulnerabilities ____ payment cards and ____ credentials?
____ do ____ find potential ____ protection ____ information, such as payment ____ details?
____ do ____ security ____ with user ____ and payment information?
____ procedures ____ executed to identify ____ security of consumer ____ with ____ payment cards and login ____.
____ audits to ____ if there is ____ data, like payment cards?
Does the ____ of regular audits ____ security risks in ____ payment ____ details ____ be ____?
The ____ of ____ to ____ vulnerabilities in payment ____ and ____ records is ____.
How much do ____ to ____ potential ____ for ____ cards?
____ many audits are conducted ____ find ____ consumer data, like ____ cards ____ logins?
How ____ do you audit payment ____ other consumer data ____ weakness?
____ audits uncover security risks ____ payment card details and logins ____ are ____ information?
If ____ conduct ____ audit ____ lot to check ____ vulnerabilities ____ consumer ____ logins and payment cards, ____ me ____.
Does the ____ audits ____ in the payment card details ____ be threats to consumer ____?
How ____ do you ____ to ____ security for payment ____?
____ do you ____ audits to find ____ system for ____ information, like payment cards?
Is ____ practice ____ regular ____ enough ____ uncover security ____ in ____ card ____ and ____?
____ is ____ many ____ are ____ to find possible ____ in ____ and logins.
____ identify possible weaknesses, ____ consumer data, ____ payment cards?
What ____ of times ____ you ____ data, ____ payment ____?
____ conducted to uncover possible weaknesses ____ the security ____ as payment ____ logins.
____ number of ____ possible vulnerabilities in ____ cards and logins ____ a ____.

How _____ performed to _____ flaws in securing consumer records, _____ as payment _____ credentials?
 _____ it _____ to protecting _____ payment card details, _____ checks _____?

Do regular audits _____ security risks _____ details and _____ could _____ the _____ of consumer _____?
 _____ do you audit _____ including payment _____ logins _____ other _____?

I _____ know the frequencies _____ vulnerabilities in _____ consumer records, including payment cards _____.

Does _____ practice of _____ uncover _____ risks _____ the _____ card _____ that could _____ confidentiality of _____?
 _____ there regular checks to look _____ cards and _____?

Does the _____ of _____ audits _____ risks in _____ payment _____ that may endanger _____ confidentiality _____ consumer information?

It is not _____ the number _____ conducted _____ discover possible vulnerabilities _____ and _____.

The _____ audits that _____ done to _____ vulnerabilities _____ payment _____ and login _____ is not _____.

_____ often _____ consumer records like payment _____ logins occur?
 _____ do _____ see if there is _____ weakness with consumer data, _____ cards?
 _____ there frequent audits to _____ as payment cards?
 _____ see if there is a weakness _____ consumer data _____ login _____.

How often do audits _____ in _____ protection, including _____?

Does _____ regular audits _____ security _____ in _____ card details _____ may threaten _____ information?

How _____ do _____ be _____ for _____ payments _____ logins?

Does the _____ of regular _____ in the _____ card _____ passwords?

The _____ of _____ in _____ to _____ potential vulnerabilities in _____ passwords _____ questionable.

What _____ are done to find flaws _____ securing _____ including _____ card _____ and _____ credentials?
 _____ of _____ audits _____ risks in payment card data?
 _____ often do we conduct _____ on _____ payments _____?

Do you _____ often _____ are _____ cards and _____?

How _____ do audits find _____ consumer _____ payment card details _____ credentials?
 _____ do audits _____ card vulnerabilities _____?
 _____ regular _____ it comes _____ payment card details and logins?

How many audits _____ done _____ consumer records _____ payment cards _____?

When _____ audits, _____ you _____ for possible _____ may exist _____ vital client records _____ cards or _____ authentication

_____ comes to _____ payment cards _____ information, how often _____ you conduct _____?
 _____ of audits _____ discover possible _____ payment card _____ login records _____ not _____.

_____ often do _____ cards and other consumer data?
 _____ often _____ audits _____ find possible _____ in the data that you hold, _____ and _____?

There _____ done _____ vulnerabilities in _____ cards and logins.
 _____ there enough auditing for _____ susceptibility in _____ logins?
 _____ want to _____ if an audit _____ conducted _____ spot vulnerabilities in _____ payment _____.

_____ procedures are executed _____ identify _____ weaknesses _____ the _____ consumer records _____ cards and _____ credentials.

_____ a regular _____ auditing _____ protection _____ such _____ credit card details and logins?

Some people _____ the number of _____ to find _____ in _____ cards.

How _____ audits _____ done _____ look for _____ in _____ logins?

The number of _____ order to discover vulnerabilities _____ been _____

_____ it _____ to securing _____ like payment _____ login information, _____ frequently do _____ audits?
 _____ comes to securing _____ data including payment _____ information, _____ are _____ audited?
 _____ many audits are _____ detect _____ in securing user information _____?

Do regular audits _____ security risks in _____ endanger _____ information?
 _____ protect _____ data such as payment _____ login credentials?
 _____ you know if _____ an audit _____ lot _____ for _____ in _____ consumer _____ as _____ and payment cards?
 _____ you know _____ many _____ to detect vulnerabilities in securing _____?
 _____ often _____ done _____ card and _____?

_____ are audits _____ flaws _____ securing consumer records, _____ card information and _____ credentials?

When _____ comes to securing _____ data such as _____ how many _____ do _____ perform?

_____ a regular schedule for auditing the _____ of _____ credit _____ details and logins?

Does _____ audits _____ security _____ in _____ and consumer _____?

_____ audits focus _____ security, like payment _____ or logins?

How frequently _____ to detect vulnerabilities _____ records, including _____ cards _____ logins?

_____ to _____ if _____ conduct _____ audit _____ lot _____ check _____ in protecting consumer _____ logins and payment cards.

_____ do you conduct _____ payments and logins?
