

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Privacy settings and permissions
Description	Inquiries about how to manage and customize privacy settings on devices, apps, or online platforms to control the collection, use, and sharing of their personal data.
Data Size	5,064 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

____ your network provider ____ additional layers ____ communication over ____ networks?
 ____ it possible ____ public wireless ____ network provider ____ added security?
 I ____ to ____ if I ____ use ____ layers of encryption when connecting ____ wireless ____.
 I ____ like ____ if ____ would benefit ____ of security when ____ to public wireless ____.
 Can ____ service ____ offer more layers ____ protection for ____ ?
 ____ network service ____ give you more ____ of ____ for ____ wi-fi?
 I ____ my communication safe ____ public ____ networks, ____ I'm requesting ____ you tell ____ if your ____
 ____ service provider ____ to ____ more layers ____ chat on wi-fi spots?
 ____ been ____ public ____ but am ____ supposed to be ____ and use ____ your network?
 Do ____ offer additional ____ of ____ to protect my ____ ?
 Does ____ provide added ____ when ____ wireless networks?
 Can ____ service provider provide ____ protection ____ on ____ spots?
 ____ your ____ operator able to ____ levels ____ Encryption ____ public ____ ?
 ____ it ____ to ____ public ____ via your network ____ with ____ security ____ the process?
 ____ like to ____ I ____ benefit ____ extra ____ of encryption when connecting to public ____ networks.
 Can ____ whether ____ network ____ extra level of security for ____ internet ____ ?
 Does ____ internet ____ provider have more ____ encryption ____ wi-fi?
 I ____ to ____ gives extra levels ____ for public wi-fi?
 Is ____ possible ____ the network ____ more ____ for chat ____ wi-fi?
 ____ there ____ measures you get ____ your provider ____ ?
 Do ____ network ____ allow ____ for public ____ ?
 ____ network operator ____ to provide an ____ of protection for ____ ?
 ____ possible that ____ extra ____ of security for ____ wi-fi?
 ____ it true ____ your network operator provides ____ levels ____ public internet ____ ?
 ____ be able to use your ____ public ____ with increased levels ____ ?
 ____ would ____ know ____ I could use ____ layers of ____ when ____ networks.
 When connecting ____ public wireless ____ do ____ protection?
 I ____ like ____ if ____ network operator ____ levels ____ security ____ secure connections ____ public wi-fi.

_____ would _____ to know _____ operator provides extra levels _____ security for _____.
 _____ confirm whether _____ the _____ extra _____ of security for public wi-fi?
 _____ you _____ confirm whether or not your _____ extra _____ public internet?
 Can you _____ network _____ gives an _____ protection _____ public internet use?
 _____ it _____ for your network _____ use better _____ for _____ sessions?
 _____ it possible that _____ provides _____ levels of Encryption _____ public _____?
 Do you _____ layers of _____ to _____ my communications _____?
 _____ to know _____ could use the _____ layers of protection _____ fi networks.
 Do you offer _____ protection _____ on _____ wi-fi?
 _____ want to _____ you _____ about _____ extra _____ your services _____ to _____ your communications _____ wi-flim
 networks.
 Does _____ company _____ the ability to _____ encryption for _____?
 Is _____ network _____ to _____ better ciphers _____ my _____ wi-fi sessions?
 I want _____ sure you know _____ protections that _____ services _____ to protect _____ using _____ networks.
 Is _____ network provider _____ security for _____ internet?
 _____ possible _____ access public wi-fi _____ network _____ with _____ security layers?
 In _____ communication _____ in _____ wi-fi networks, I'm requesting _____ you inform _____ if _____ services include _____

 _____ advanced secure methods _____ protect public _____ fi networks?
 Is it _____ they _____ protection while _____ wi-fi?
 _____ you have extra _____ on _____ network to protect _____?
 Will I be able _____ use _____ of _____ I use _____ on _____ connections?
 I've been using _____ wi _____ I supposed to _____ on my _____?
 I _____ to make _____ is safe _____ public _____ I request that you _____ if _____ have extra
 Will I _____ access to _____ levels _____ security _____ I use _____ public _____ connections?
 _____ possible for _____ network _____ to _____ extra security on _____?
 _____ need to keep _____ communication safe in _____ wi-fi _____ you to _____ me if _____ include _____ protection.
 _____ I _____ to enhanced _____ when _____ your network on public _____ connections?
 Does it possible _____ wi-fi networks through your _____ security _____?
 Do _____ know _____ network operator gives _____ level _____ for public internet _____?
 _____ it possible _____ provider to have more _____ for _____ fi?
 _____ they _____ to provide additional _____ when connecting to _____?
 Do _____ security _____ my communications on public _____ fi?
 Is _____ to access public wi-fi _____ through _____ provider _____ security?
 Do _____ network provider allow additional _____ for _____?
 _____ I can keep communication _____ public _____ networks, _____ want to know _____ your services
 include extra
 I _____ to _____ sure _____ know that your services _____ extra _____ to _____ using _____ wi-flim _____.
 _____ network _____ allow more protection _____ public wi-fi _____?
 Do _____ security on public wi-fi from _____?
 Do _____ additional protection for _____ on _____ wi-fi?
 Let me know _____ your _____ include _____ measures _____ public _____.
 Is _____ your network _____ provides more _____ security for _____ wi-fi?
 I _____ that _____ me _____ keep my communications secure _____ public wi-fi _____ if your services _____ encryption
 _____.
 _____ the network operator provides additional levels _____ security _____ wi- _____?
 Is _____ they provide extended communication _____ wi-fi?
 _____ access public wi-fi _____ your _____ provider with _____ security layers?
 Can you please _____ me _____ levels of _____ for public _____ fi?
 _____ with extra security _____ your _____ wi-fi?
 Let _____ know _____ services _____ a way to _____ on public _____.
 _____ this _____ you _____ wi-fi _____ your network provider, with extra security layers on _____ standard _____?

Is it possible that _____ levels of _____ for public _____?

Does _____ network _____ give extra _____ for _____?

I _____ to know if _____ services _____ extra security _____ I can _____ public _____ networks to _____.

Did your internet _____ provider _____ layers to _____?

Let me know _____ services include _____ wi-fi networks.

I _____ like _____ know _____ I could use _____ additional layer of _____ to public _____.

_____ it _____ network service provider to provide _____ protection for chat _____ spots?

_____ to keep my _____ in public _____ if your services _____ extra _____.

Is _____ able to offer more _____ help keep the _____ public wi-fi networks?

Let me know if _____ additional protection for _____ wi-fi networks.

I'd _____ know _____ the extra layers of encryption would _____ wireless network.

_____ me know _____ include _____ features when using _____ wi-fi.

_____ you _____ if your _____ operator _____ levels _____ public wi-fi?

_____ I _____ my _____ extra security while _____ public internet?

I _____ like _____ if I _____ use _____ fi networks _____ layers _____ security.

_____ it true _____ your network _____ provides _____ levels of _____ for _____ data _____?

_____ it possible to _____ wi-fi networks _____ your _____ provider, _____ extra _____ top?

_____ you know if your _____ provides extra _____ ofEncryption _____ wi- _____?

Do _____ from the _____ for public wi-fi?

Is _____ possible _____ network service provider _____ layers _____ protection for _____ wi-fi spots?

When using _____ network _____ public wi-fi, will _____ levels _____ encryption?

Do _____ give extended _____ protection _____ using _____?

_____ have _____ encryption layers _____ your internet _____ provider _____ wi-fi?

_____ true that _____ network operator _____ more _____ ofEncryption for _____ internet?

Did _____ levels _____ Encryption for public wi-fi?

Is it possible _____ network company to _____ using _____ my _____?

Is _____ possible to get _____ of encryption _____?

Does _____ offer added protection when _____ networks?

Can _____ the network operator provides _____ level _____ security for public _____?

_____ it _____ that _____ operator provides more _____ security for _____ fi?

Could you please _____ network operator provides _____ levels _____ security for _____?

_____ if _____ could get more protection _____ connecting _____ public wireless networks.

_____ tell me _____ your _____ has _____ extra level of encryption for _____?

I _____ to _____ use _____ networks _____ keep my communications secure, and _____ like to _____ your services _____

_____ to be able to _____ communications _____ using _____ networks if your _____ extra encryption _____.

I _____ like _____ if your network operator _____ extra _____ security for _____ use.

Is _____ network operator _____ level of encryption for public _____?

_____ your company willing to _____ level of _____ public wi-fi _____?

Do _____ network provider offer _____ of encryption to help _____ keep the _____?

When _____ connections, _____ able to _____ enhanced levels of encryption?

_____ you _____ for my communications on public _____?

I need to _____ safe in public _____ so _____ requesting _____ you _____ me if your _____ include _____

_____ I have _____ to _____ levels _____ security when I _____ on _____ connections?

Is _____ they _____ extended _____ protection when _____ public internet?

_____ like _____ know _____ your _____ include additional _____ for communications _____ public wi-fi _____.

_____ more encryption _____ by your internet service provider _____ public _____?

Extra _____ from your _____ be _____ on public _____.

_____ data over _____ wi-fi from the service provider?

Is _____ possible to access _____ wi-fi networks _____ provider _____ security?

I'd _____ to know if _____ benefit from the extra _____ of _____ connecting _____ public _____ .
 Will I _____ able _____ levels _____ when connecting to _____ network on _____ ?
 _____ me whether the _____ operator _____ additional levels of Encryption _____ ?
 _____ like _____ there _____ more layers of _____ connecting to public _____ networks.
 Is your _____ any _____ wi _____ networks through advanced methods?
 I _____ communication _____ in public wi-fi networks, _____ I'm requesting _____ tell _____ if your services _____
 _____ the _____ operator providing _____ levels _____ encryption for _____ internet?
 Is _____ to use _____ wi-fi with _____ protection.
 _____ to access public wi-fi networks _____ your _____ with _____ layers _____ top _____ the original?
 Are there extra _____ public wi-fi from _____ ?
 Is it possible that your _____ provides extra _____ for _____ ?
 Can _____ network provider _____ security when I use _____ ?
 Is _____ that _____ provide protection _____ communication while using _____ ?
 _____ rely _____ your _____ beefed-up _____ on the open wi-fi network?
 _____ me know if _____ services include _____ communications _____ public _____ networks.
 When using your _____ connections, _____ have access _____ levels of encryption?
 _____ like to _____ could use an _____ layer of _____ using public wi- _____ networks.
 _____ that they _____ communication protection _____ using _____ wi-fi?
 _____ need _____ my communications _____ wi-fi _____ so I'm requesting that you _____ services include
 extra
 Is it _____ public wi-fi networks through _____ provider with _____ ?
 Will I have _____ levels of _____ when using _____ network _____ ?
 Are _____ company _____ to _____ wi fi _____ through _____ methods?
 _____ know if _____ from the extra _____ when using a public wireless network.
 _____ it possible that your network _____ for _____ networks?
 Is _____ possible _____ use public wi-fi _____ network provider, with _____ ?
 Does _____ network provider _____ security _____ public _____ fi?
 _____ using _____ does your _____ provider offer _____ layers of _____ ?
 I _____ know if _____ take _____ of _____ extra layers of encryption when using _____ wi- _____ .
 Is it _____ your _____ company _____ try _____ better encryption _____ my wi-fi _____ ?
 Is _____ me _____ benefit from _____ encryption when using public _____ networks?
 Is it _____ operator provides _____ for public internet traffic?
 I want to _____ my communication _____ safe in public _____ want you _____ if your _____ includes _____
 I _____ to _____ communication safe _____ wi-fi networks, _____ I _____ requesting that _____ let me know _____ have

 Is it _____ to _____ public wi-fi _____ through your _____ with _____ ?
 _____ would like to know if _____ the additional layers of _____ using _____ wi- _____ .
 _____ it possible for _____ to use _____ Encryption _____ network sessions?
 _____ your network provider allow _____ public _____ ?
 _____ you _____ additional protection for _____ over public _____ ?
 Is it possible _____ public _____ networks _____ your network _____ extra _____ to the _____ ?
 _____ to _____ layers of encryption while using public _____ ?
 _____ network _____ able to _____ secure _____ over public wi-fi _____ ?
 _____ your _____ include additional protection for communications when _____ public wi-fi _____ .
 _____ possible to add _____ layers _____ encryption _____ safer public _____ ?
 _____ be able to _____ enhanced levels _____ encryption when I _____ ?
 _____ your network _____ have _____ to offer _____ protection _____ chat _____ wi-fi?
 _____ it possible _____ provide extended _____ protection _____ using public _____ ?
 _____ tell _____ network operator provides _____ levels of encryption for public _____ ?
 There _____ additional _____ layers by _____ internet service provider _____ .
 Is _____ to _____ public wi-fi _____ through _____ provider, with _____ layers _____ top?

_____ service provider offer more protection _____ chat on _____?

_____ the _____ able to _____ security for _____ wi-fi?

_____ have _____ better _____ security _____ I use your _____ on public _____ connections?

Is _____ network operator _____ provide extra levels _____ security _____ wi-fi?

_____ I use _____ do I get extra _____ on _____?

_____ would like _____ if I _____ benefit _____ of security _____ to _____ public wireless network.

_____ it _____ use your _____ provider to access public wi-fi _____ security _____ of standard ciphers?

_____ there an extra _____ of _____ for _____ use provided _____ operator?

_____ would _____ could use _____ extra layers of _____ connect to _____ wi-fi networks.

Please _____ me _____ if _____ include a _____ to _____ when _____ public _____ networks.

_____ it possible _____ networks _____ provider with additional encryption layers?

_____ it possible for _____ network _____ provider _____ protection _____ chats on _____?

Is it _____ to _____ the _____ wi-fi networks through your network _____?

I'd _____ to know if _____ benefit _____ extra layers _____ security _____ using _____ wireless _____.

Can _____ provider give _____ additional protection for _____?

_____ to _____ if _____ could take _____ of the _____ of protection when _____ to a public _____.

I'm _____ if I _____ layers of security when _____ public wireless network.

_____ know if _____ network _____ provides _____ security for public internet use?

Is _____ possible _____ access _____ your _____ with extra security _____ top of standard ciphers?

_____ they _____ extended communication protection while _____?

_____ me _____ if your services _____ an option to _____ when _____ public _____.

Do _____ whether _____ operator _____ extra _____ for public wi-fi?

I want to make sure _____ know that _____ services bring additional protections to _____.

Are the _____ operator's _____ of _____ for _____ wi-fi?

_____ it possible to _____ layers _____ when _____ public wireless networks?

_____ it _____ company _____ use _____ for my public wi-fi sessions.

Does your carrier _____ encryption _____ internet _____ in _____?

_____ would _____ to know _____ I _____ from the _____ when connecting to a _____ wireless network.

_____ have been _____ public wi- _____ but _____ to _____ extra _____ on _____ network.

I've been using _____ fi but _____ supposed to _____ extra encryption _____ your network?

_____ your _____ offer _____ layers of _____ for _____ wi-fi?

_____ want to know _____ I _____ benefit _____ the _____ layers of security _____ public _____.

Is it _____ that they _____ communications _____ while _____ wi-fi?

I _____ make sure that _____ is safe in public _____ networks, _____ would _____ to know _____ your _____.

I _____ like _____ if I _____ use _____ layers _____ when connecting _____ public wi-fi.

I _____ like _____ know _____ benefit from _____ layer _____ security _____ connecting to public _____ networks.

Is your _____ able _____ give extra _____ public _____?

_____ you _____ for _____ data _____ using public wi-fi?

_____ get _____ on _____ provider's public wi-fi?

I _____ sure _____ I keep _____ in public _____ so _____ you to tell me if _____ have _____ it _____ to access public _____ through _____ network provider _____ security?

Let _____ know if _____ services _____ to safeguard communications _____ wi-fi networks.

Is _____ network _____ to provide _____ of security for _____ internet _____?

_____ network _____ provide additional _____ of _____ for _____ wi-fi networks?

_____ they offer more _____ connecting to _____ wireless _____?

Is _____ security _____ the _____ wi-fi networks?

Are they able to provide _____ public _____?

_____ sure _____ about _____ extra protections that _____ services bring _____ protect _____ when using _____ wi-fi networks.

_____ confirm whether or not your _____ extra levels _____ security _____ public _____?

_____ offer additional protection while connecting _____ wireless _____?

_____ possible _____ benefit from added layers of security when _____ wi-fi _____?

Are extra levels _____ the _____ operator for _____ wi- _____?

_____ would like _____ know if I could use _____ extra layers _____ to _____ public _____.

_____ it _____ to _____ networks through your network provider _____ security layers on top _____ ciphers?

_____ want _____ to _____ me if I _____ keep my _____ using public _____ your services include extra _____.

Is _____ access _____ wi-fi networks _____ and have additional security layers?

_____ extended _____ protection when using _____ wi-fi?

Is _____ network _____ to provide extra _____ of _____ over _____?

_____ you _____ me if _____ operator _____ levels of _____ for public _____?

_____ me whether or _____ your network operator provides _____ of _____ for secure _____?

Can you tell _____ if your _____ operator provides _____ public _____ fi?

_____ your carrier use _____ security _____ internet use _____?

Is it _____ the _____ service _____ to _____ security _____ chat _____ wi-fi?

_____ that your network _____ could try _____ better encryption _____ my _____ sessions?

_____ me _____ if your services include additional _____ using public _____.

Is this possible when _____ networks through _____ provider, _____ on top of the _____ ones?

Is _____ possible _____ wi-fi _____ your network with extra security _____?

I would _____ know _____ I could use the public wi- fi _____ that _____ security.

_____ they offer extended communication _____ wi-fi?

Can your _____ service _____ offer more _____ protection for _____?

_____ possible for _____ to _____ communication protection on public _____?

_____ would _____ to _____ if there _____ more layers _____ protection _____ public _____ networks.

Is _____ network _____ able _____ provide additional _____ for _____ wi- fi?

Is it possible that your _____ security _____ public _____?

Can you tell _____ not _____ network _____ provides _____ of security over _____?

_____ know _____ I could get an _____ layer _____ protection when _____ to a _____ wireless _____.

_____ you _____ the _____ provides _____ levels of encryption _____ public wi- fi?

Is _____ your _____ for extra security when using _____ wi-fi?

_____ like _____ if I _____ wi- fi networks _____ security provided by your service.

_____ it possible to _____ extra protection _____ on _____ network?

_____ it true _____ has _____ levels of security for the _____?

Is it _____ that _____ could _____ better encryption for my _____ networks?

_____ it possible to _____ more _____ when _____ public wi-fi networks?

_____ to _____ if your services include _____ security _____ so I can use _____ my communications _____.

Is _____ true _____ your _____ operator _____ levels _____ security _____ your data traffic on _____ public _____?

I _____ to _____ can benefit from _____ extra _____ security when _____ wi- fi networks _____ using _____ wi fi _____ am I supposed _____ use _____ your network.

I want _____ know _____ I _____ the extra _____ of _____ connecting to a _____ wireless _____.

In _____ keep the peace over public wi-fi _____ provider offer _____ encryption?

Is _____ that your network _____ provides more _____ for _____ use?

_____ more security to public _____ fi _____ with advanced _____?

_____ it _____ for _____ service provider to _____ protection _____ chat _____ wi-fi?

Can you tell _____ extra levels of Encryption _____ public _____?

_____ let _____ if your _____ have _____ to _____ when using public _____ networks.

Is it _____ when _____ to public wireless networks?

I need _____ my _____ safe in public _____ networks, so I _____ you to _____ if _____ options.

Is _____ possible to _____ public _____ your _____ greater security added to _____ process?

_____ possible _____ company _____ give _____ additional level of protection _____ the public _____?

_____ you say _____ your _____ extra _____ of security for _____ internet _____?

Does _____ network provider give you more _____?

Is it ____ for ____ network ____ to ____ more ____ for public ____ ?

Is ____ to use your ____ beefed-up ____ protected ____ on ____ wi-fi ____ across town?

Is ____ network ____ capable ____ extra protection for ____ ?

____ to know if I ____ from ____ extra layers of ____ when using ____ fi ____ .

____ tell me if your network ____ provides ____ levels ____ public ____ ?

When connecting to ____ networks, do ____ protection?

I want ____ know ____ I can use ____ networks with ____ by your ____ .

Is ____ able to provide additional levels ____ Encryption ____ ?

Is your company ____ to ____ advanced ____ methods to ____ to the ____ ?

I ____ like ____ know ____ from the extra ____ of security when ____ wireless networks

____ able to assure ____ communication over ____ wi-fi with ____ of ____ ?

I ____ curious if I ____ from ____ extra ____ security when ____ to ____ networks.

I ____ keep my ____ in ____ networks, so ____ want you ____ let ____ know if your services ____

Let me ____ if your ____ additional options for ____ wi-fi ____ .

____ would ____ know if your ____ can use ____ public network sessions.

____ may have additional encryption layers ____ public ____ .

____ tell me ____ network ____ provides extra levels ____ for public ____ ?

____ want ____ if ____ can ____ the ____ layers ____ encryption ____ connecting ____ public wireless networks.

Can the ____ give me extra security ____ using ____ ?

____ it ____ for the ____ additional ____ when I use public wi- ____ ?

Is ____ access ____ wi-fi ____ your network ____ with extra security layers ____ top of ____ ?

I want to know if ____ additional ____ security ____ connecting to public ____ networks.

____ provider provide ____ security ____ wi-fi?

I would like ____ I can benefit from ____ extra layers ____ when I ____ networks.

____ it possible for them to provide extended ____ ?

I ____ know if ____ get ____ layers of security ____ public wi- ____ .

____ possible when ____ public wi-fi ____ your ____ with additional security layers on ____ original?

I ____ to ____ if they ____ communication protection ____ public wi-fi.

Is your company willing ____ give an ____ public wi-fi ____ advanced ____ ?

Is ____ possible to ____ security ____ using ____ networks ____ your network ____ ?

____ would like ____ know if ____ get extra ____ of ____ when connecting ____ wireless ____ .

____ possible ____ access public ____ through your network provider ____ the mix?

____ it true that ____ network operator ____ of security for ____ ?

____ it possible to access ____ wi-fi ____ your network ____ with ____ layers ____ standard ciphers.

____ it ____ to use ____ layers ____ encryption ____ wi-fi?

Is it possible to access ____ wi-fi ____ additional ____ on top of ____ original?

Is ____ possible ____ access ____ networks ____ your ____ provider with ____ layers on top of ____ ciphers?

Is your ____ operator ____ extra ____ of security ____ wi- fi?

Do you offer any ____ to ____ on public ____ ?

____ it ____ your network provider ____ us more layers ____ talk ____ hot wi-fi spots?

____ network provider offer more layers ____ encryption ____ networks?

Can you say ____ operator ____ levels ____ security for ____ fi?

____ I ____ provider to have more security when ____ wi- ____ ?

Is it possible to ____ public ____ network ____ added security?

____ it possible to use ____ wireless networks through ____ extra security ____ on top ____ ?

Is it possible ____ Wi-fi networks through your network ____ to ____ mix?

Do ____ added ____ using public wireless ____ ?

____ network ____ able ____ extra ____ of encryption for ____ access over ____ wi-fi?

____ it ____ to ____ more ____ of encrypting ____ using ____ wi-fi?

____ possible to use your ____ provider to access public ____ ?

Will _____ to use your network on _____ wi-fi connections _____ higher _____ ?

Can _____ your network operator provides additional _____ security for public _____ ?

Is _____ operator able to provide extra _____ public _____ use?

I _____ be able _____ to keep _____ so _____ want to know _____ your services have extra

Is _____ capable of _____ of security for public _____ ?

_____ if I could _____ layers of protection when connecting _____ public wireless network.

_____ want _____ make _____ you know _____ your _____ protections _____ protect your _____ when _____ public wi-fi networks.

_____ want _____ my communication is _____ in public wi-fi networks if _____ extra _____.

_____ the network _____ offer _____ layers _____ for _____ on wi-fi?

_____ want to know if _____ from _____ of encryption when connecting to _____ fi _____.

Will I _____ able _____ of encryption _____ using public internet _____ ?

_____ if _____ could use more layers of encryption _____ to public _____ networks.

_____ your _____ provide _____ levels of Encryption for public use?

I _____ keep _____ in public wi-fi _____ I'm _____ you inform _____ if _____ service has extra

_____ willing _____ the public wi-fi networks from unauthorized access _____ Encryption _____ ?

_____ it possible for _____ company to use _____ for my wi-fi _____ ?

Does your _____ extra _____ of encryption _____ public _____ use?

Is your _____ operator capable of _____ level of security _____ ?

Is your _____ providing _____ wi _____ networks through advanced _____ ?

Does _____ provide additional _____ when _____ to _____ wireless _____ ?

Can _____ public _____ network provider with _____ security layers?

Is it _____ public _____ networks through your _____ provider, with extra _____ on _____ standard ciphers?

_____ possible _____ access public _____ through your _____ provider _____ security _____ in place?

I _____ to know _____ can get _____ layers of _____ I use _____ fi networks.

_____ like _____ know _____ services have extra encryption options so that _____ can keep _____ public _____.

I _____ to know _____ I _____ get _____ when _____ public wi-fi networks _____ by _____.

I've _____ fi but am I supposed _____ use _____ on _____ ?

Do _____ get additional _____ the _____ provider for _____ ?

_____ your _____ public wi-fi networks?

_____ order to _____ communication safe in public wi-fi _____ I am _____ that you _____ services _____ extra _____.

_____ your _____ willing _____ give additional _____ public wi-fi _____ using advanced encryption _____ ?

_____ access public _____ networks _____ your _____ provider with _____ security?

Is it possible _____ your _____ company _____ for my _____ wi _____ ?

_____ would _____ to know if _____ can _____ the _____ fi networks _____ you provide with _____.

_____ it _____ use public _____ networks _____ your _____ with additional _____ layers _____ top of _____ ciphers?

_____ it _____ public wi-fi _____ through your network _____ additional _____ layers _____ top of standard _____ ?

_____ to make _____ that _____ communication is _____ in _____ wi-fi networks, and _____ to know if _____ services _____

_____ more layers of _____ for _____ communications _____ public wi-fi?

_____ to _____ wi-fi networks _____ with extra security layers on top?

I _____ like to know _____ I _____ extra _____ of security _____ public _____ networks.

_____ your network _____ be able _____ provide _____ layers of _____ for chat _____ ?

_____ I use _____ for _____ security when _____ use _____ wi-fi?

Is it _____ that _____ give protected _____ public _____ ?

Can _____ say _____ network operator _____ of _____ for public wi- _____ ?

Do _____ protection when using public wi- _____ ?

_____ me _____ services _____ security _____ when using public wi-fi networks.

Do _____ network _____ more layers _____ encryption _____ help you keep _____ peace over _____ ?

_____ I have access to _____ levels _____ encryption _____ your _____ on _____ wi-fi?

Can _____ tell me _____ operator offers more levels _____ wi-fi?

Can _____ tell me if _____ provides _____ levels of Encryption for _____.

____ you tell ____ whether ____ security for public internet use?
 Is ____ me ____ on your network provider ____ security while ____ public ____?
 Is your ____ able to provide ____ wi-fi?
 I'd ____ to ____ if I ____ benefit from ____ layers ____ protection ____ using ____ wi- ____ networks.
 Is ____ network ____ more security for ____ wi-fi?
 ____ layers ____ encryption on ____ wi-fi?
 Is it ____ access the ____ wi-fi ____ through ____ provider with ____ layers?
 Is ____ possible ____ the public ____ through your ____ provider ____ security?
 Is your network operator ____ levels ____ public internet?
 I would like to ____ can ____ extra ____ using ____ wi- fi networks provided ____ .
 Is ____ layers ____ security if ____ use public wi-fi?
 ____ operator able to ____ more ____ of ____ for public ____ fi?
 Is ____ to ____ public wi-fi networks through ____ with extra security ____?
 Do your provider give ____ security on ____ ?
 Will ____ to ____ levels ____ encryption when using ____ on public wi-fi ____ ?
 ____ it possible for ____ provider ____ have ____ for public wi- ____ ?
 Will ____ be ____ levels of encryption ____ use ____ on public wi-fi connections?
 Is ____ possible ____ give ____ while ____ public wi-fi?
 Do you ____ your ____ extra ____ of security for ____ wi-fi?
 ____ your company ____ security ____ networks through advanced methods?
 I would ____ to know ____ I could ____ of ____ when ____ public ____ fi networks.
 ____ to access ____ networks using your ____ extra security layers on ____ standard ciphers?
 Is this ____ you access ____ networks through ____ network ____ with extra ____ ?
 ____ would like to know if ____ the ____ layers ____ encryption when ____ public ____ networks.
 ____ know ____ use the extra layers of security when ____ public ____ networks.
 Do ____ additional ____ for my ____ on ____ fi?
 Is ____ possible ____ access ____ networks from your ____ with ____ security ____ ?
 ____ am curious ____ benefit from ____ extra ____ of security ____ a public wireless network.
 ____ you ____ whether ____ network operator provides ____ of ____ public use?
 I ____ to know ____ I could get ____ using ____ wi- fi ____ .
 ____ I have ____ to ____ levels ____ when using your network on ____ ?
 Is it ____ to access ____ wi-fi ____ through ____ network ____ with ____ added to ____ ?
 ____ it possible ____ your network operator gives ____ for ____ fi?
 Is ____ possible ____ networks through your network ____ with more security ____ the ____ ?
 ____ network ____ gives extra ____ of Encryption to public wi- fi?
 Is it possible to access public public ____ your ____ provider, ____ security ____ top of ____ ?
 ____ the network ____ providing extra levels ____ security ____ ?
 I request that ____ tell ____ if my communication ____ safe in ____ wi-fi ____ if your ____ .
 ____ would like ____ extra layers of Secuirty ____ me ____ to public ____ networks.
 Is it ____ network ____ levels of ____ data ____ on ____ public internet?
 ____ provide additional protection while connecting ____ public ____ ?
 I would ____ to know if I would ____ from ____ of ____ connecting ____ a ____ wireless ____ .
 ____ it ____ to access ____ wi-fi networks ____ your ____ provider ____ enhanced security added ____ the ____ ?
 I would ____ to ____ can ____ the extra layers ____ when ____ to public ____ fi ____ .
 I ____ to know ____ from the extra layers ____ encryption ____ a public ____ network.
 ____ it ____ that your ____ encryption for public wi-fi?
 I need to keep ____ networks, ____ I request ____ you inform ____ your services ____ extra security ____ .
 ____ it possible to use public ____ through your network ____ on ____ ?
 I would like to ____ if ____ network ____ extra ____ of encryption ____ secure ____ wi-fi.
 Is it ____ security when ____ public wi-fi networks through your ____ ?

_____ extra _____ of _____ use provided by the network operator?

Is it _____ to _____ networks with _____ security _____ your network _____?

Is it _____ public _____ networks _____ your _____ provider, _____ enhanced security added _____ the _____?

_____ service provider offer _____ layers _____ protection for _____ wi-fi spots?

Do you get _____ for _____ over public _____ the _____?

Does the _____ service _____ the _____ offer more layers _____ protection for _____ spots?

_____ encryption from your _____ provider is _____ on _____.

_____ network _____ providing _____ levels of security _____ public _____?

_____ network _____ able _____ security for public wi-fi?

_____ tell us if your _____ provides extra _____ of _____ for _____ fi?

Is _____ possible to benefit _____ of security _____ connecting to _____ fi _____?

_____ company willing _____ advanced _____ methods to protect from _____ access to _____ public _____?

Is it _____ use your _____ for _____ on open _____ access points?

_____ accessing _____ wi-fi _____ through your network provider, with _____ layers?

I would like _____ know _____ I _____ more _____ I _____ public _____ networks provided _____ you.

_____ want _____ make _____ communication is safe _____ wi-fi _____ and I want you to _____ services _____ extra

Do _____ if your _____ operator provides _____ for public _____?

Is it _____ to access _____ networks _____ your network provider, with _____ security _____ top _____.

Is _____ network operator willing to _____ Encryption for _____ wi- _____?

_____ it _____ for your _____ an _____ the public wireless networks?

Is _____ possible _____ your _____ operator _____ extra level of _____ for _____ internet _____?

_____ it _____ benefit _____ added layers _____ encryption when using _____ wi-fi _____ mobile network service?

_____ possible _____ use _____ on _____ connections _____ better levels of encryption?

Is _____ possible _____ the _____ provider _____ more protection to chat _____?

_____ it _____ to _____ wi-fi _____ through your network provider _____ on _____ of the ordinary _____?

I want _____ know if _____ layers of _____ would _____ connect to public _____.

Does _____ network _____ for _____ wi-fi?

Can _____ me if _____ network operator _____ level _____ for public _____ use?

_____ it _____ public _____ networks _____ your network provider _____ additional security _____ on _____?

Wouldn't it _____ network company could _____ my public wi-fi sessions?

Is _____ possible _____ access public _____ networks _____ your _____ extra _____ layers on _____.

_____ more security on _____ wi-fi from _____ provider?

_____ I _____ a _____ level of security _____ connecting to a public wireless network.

Do you get extra _____ on _____ provider?

_____ company willing to _____ advanced Encryption _____ to protect _____ public wireless networks?

Let _____ know if _____ services _____ protection for _____ wi-fi.

_____ your _____ provider be able _____ offer more _____ for chat _____?

_____ added protection _____ your _____ over public wi-fi from your _____?

Can _____ me _____ or not _____ network _____ levels of security _____ public _____?

_____ layers _____ your _____ service provider on public _____?

Do _____ provide added _____ networks?

I _____ like to _____ network operator _____ security over public _____ fi.

_____ offer additional layers of _____ for _____ public wi-fi?

_____ possible for your _____ to _____ extra layer of _____ to _____ wi-fi _____?

_____ access to higher levels _____ when I _____ your _____ on public _____?

_____ it _____ to access public wi-fi _____ through _____ providers _____ extra _____ of standard ciphers?

_____ using _____ wi-fi connections, will I have _____ levels _____ encryption?

Do they _____ added _____ public wireless _____?

Is _____ encryption layers _____ your _____ service _____ public wireless?

_____ it _____ that _____ network _____ provides _____ levels _____ security for _____ internet _____?

Is it _____ provider _____ extra security to public _____?

Do _____ your network _____ provides _____ of privacy for public internet _____?

Does it make _____ for _____ service _____ offer _____ chat on wi-fi?

Do you _____ security _____ fi?

_____ I be _____ to use enhanced _____ of encryption on _____ network _____?

Is it _____ extra _____ on public wi-fi _____ network _____?

_____ your _____ provider _____ public wi-fi networks?

_____ access _____ wireless networks _____ your network _____ with extra _____ protections in _____?

_____ they provide _____ protection _____ to _____ wireless networks?

Is it possible to _____ public _____ through your _____ with _____ security _____ in _____?

_____ service provider _____ additional layers of _____ on _____ wi-fi?

Is _____ access _____ wi-fi _____ via _____ provider, with extra security _____ on _____ of the _____?

Are there _____ extra _____ for _____ wi-fi?

_____ access public wi-fi _____ through my network _____ layers?

Can _____ me whether _____ your network _____ levels _____ security for public _____?

Will _____ be able to _____ your network _____ levels of encryption?

Please _____ me know if _____ services _____ safeguard communications _____ using _____ wi-fi _____.

_____ let _____ services include a way to _____ communications _____ wi-fi networks.

_____ like to know _____ I could benefit from _____ extra _____ security _____ wireless networks.

Can you _____ if _____ network _____ levels of _____ for public _____ fi?

I would like to know _____ I _____ from the extra _____ of _____ when _____ public _____.

_____ would like _____ I can _____ extra layers _____ security when using public _____.

Can _____ tell me _____ network _____ additional levels of _____ for public _____?

_____ would like _____ know _____ of security _____ using _____ wi-fi networks.

_____ it _____ public _____ through your network provider with _____ security _____ the mix?

_____ you tell _____ if _____ operator provides extra _____ public internet use?

_____ it possible _____ your network service _____ for chats _____ wi-fi spots?

_____ keep _____ public wi-fi networks, your network _____ should _____ more _____ of _____.

I _____ like to _____ if _____ extra _____ of security _____ using _____ wi-fi networks.

Is _____ possible for your _____ provide _____ of security for _____?

Is it _____ use your network _____ wi-fi networks _____ extra security _____ top?

_____ your carrier _____ encryption _____ use _____ public places?

Let _____ know if you _____ options for _____ wi-fi _____.

I would like _____ know _____ I could benefit _____ security when connecting to _____ public _____.

_____ to use public _____ through _____ network _____ more security added to the _____?

_____ I have access _____ levels _____ encryption when _____ connections?

_____ tell me _____ not _____ network _____ provides _____ of security over public _____?

I _____ tell me _____ keep my communications secure _____ wi-fi _____ if your services _____ extra security _____.

Is it _____ network service provider _____ better protection for chat _____?

_____ would _____ if there are any _____ layers of _____ when connecting _____ a public _____.

_____ it possible to _____ network _____ fi connections with enhanced _____ encryption?

Is it _____ to access _____ networks _____ your _____ added security?

_____ you know whether your _____ for public wi-fi?

Is it possible _____ access _____ wi-fi _____ security layers _____ network _____?

_____ it possible _____ more _____ encryption while using public _____.

_____ receive added _____ provider for public wi-fi?

Can _____ tell _____ if _____ network _____ level of _____ for public _____ use?

Is _____ possible to _____ network _____ access _____ wi-fi networks with enhanced _____ the mix?

I would _____ if I _____ use more _____ of _____ when _____ a public wireless _____.

Is it possible _____ wi-fi _____ network provider with _____ layers _____ of ordinary ones?

____ it ____ use public wi-fi ____ extra ____ on your ____?
 ____ want to make ____ my communication is safe in ____ networks if ____ include _____.
 ____ your carrier ____ security ____ use in public ____?
 Does ____ provider offer ____ public ____?
 Can ____ use ____ networks through my ____ with additional ____?
 ____ know if your services have ____ to ____ when using ____ networks.
 ____ of security to protect ____ communications on public ____?
 Can ____ me if your ____ provides ____ Encryption ____ use?
 Do you ____ gives extra secure ____ for ____ on ____ wireless networks?
 ____ to ____ if I ____ the extra ____ of encryption ____ connecting to ____ wireless networks.
 Is ____ possible to get ____ encryption ____ to ____ wi-fi?
 Do ____ a layer of protection for ____ public ____?
 ____ it possible that they ____ extended ____ while ____ internet?
 I want to ____ I could ____ layers ____ security when ____ to ____ wi- ____ networks.
 ____ carrier ____ increased security ____ internet ____ public areas?
 Is ____ possible to ____ public wireless networks ____ network ____ with ____?
 In order to ____ communication ____ in ____ wi-fi networks, ____ that ____ let me ____ if ____ services ____ options.
 I would ____ to know ____ the ____ of security ____ benefit me ____ to ____ wireless ____
 ____ the ____ extra ____ for public wi-fi?
 Is ____ that ____ network ____ gives more ____ of ____ internet access?
 Is it possible for them ____ offer ____ wi-fi?
 I'd ____ to know if I could ____ the ____ connecting to public ____ networks.
 Is it ____ for your ____ to ____ better encryption for my ____?
 ____ it possible ____ layers of ____ when ____ public wi-fi networks with your mobile ____?
 Can I ____ provider's beefed-up encryption for ____ browsing ____ wi-fi ____?
 Is it ____ to access ____ your network provider ____ security layers ____ the original?
 Can ____ me if ____ operator ____ an ____ level ____ for public internet ____?
 Is ____ willing to ____ encryption methods for ____ networks?
 ____ it possible to ____ networks ____ your network provider, ____ extra ____?
 ____ wi ____ but am ____ supposed ____ use extra Security on your ____?
 Can you tell ____ network ____ gives ____ levels of ____ for ____?
 Can you tell ____ if ____ provides ____ levels ____ public wi- fi.
 Do ____ have ____ for public ____?
 Can the ____ provider ____ extra ____ when using ____ fi?
 Is ____ when using public ____ networks ____ your network provider, with ____ security ____ of ____ ordinary ____?
 ____ need ____ safe ____ public wi-fi ____ I'm requesting ____ you inform me ____ service includes extra
 ____ of encryption, ____ you ____ over public wi-fi?
 Is ____ to use your ____ up encryption for protected ____ via open ____ town?
 Is ____ network operator ____ of ____ extra ____ of ____ for public ____?
 ____ that your ____ operator ____ extra ____ of Encryption for ____ wi- fi?
 ____ you ____ me ____ your ____ operator gives ____ for ____ internet use?
 Is ____ to access ____ networks through your ____ provider ____ additional security ____ on ____ of ____ standard ____?
 I'd ____ to know ____ operator ____ extra levels of ____ over ____.
 Are ____ while connecting ____ public wireless networks?
 ____ possible to ____ public ____ networks ____ a network ____ extra security ____ on top of ____?
 ____ me ____ benefit ____ added layers ____ security when connecting to ____ wireless ____?
 I ____ know if ____ services ____ additional ____ using ____ wi-fi.
 ____ possible that ____ network service provider ____ more ____ chat ____ wi-fi?
 ____ possible to access public ____ networks ____ provider with extra ____?
 ____ know ____ your services include ____ eavesdroppers when ____ wi-fi networks.

I _____ know if _____ a way _____ communication safe in public _____.
 Is it _____ for the _____ to _____ more security _____ use public _____?
 Does _____ provider give _____ on public _____?
 Do _____ if the network operator provides _____ of _____ wi- _____?
 I want _____ know _____ I could _____ the extra _____ when using _____ wireless _____.
 Is _____ when _____ public _____ through _____ with extra security _____ on top of standard _____?
 _____ possible to access _____ wi-fi networks _____ network provider _____ security?
 Is it _____ they _____ extended _____ communication _____ using public _____?
 _____ you _____ additional security when using _____ your _____?
 Let me _____ if _____ services _____ security for _____ wi-fi _____.
 I _____ keep my _____ in public wi-fi _____ so _____ want _____ tell _____ if your services have _____
 _____ you access _____ through _____ network _____ with more _____ layers?
 _____ willing to _____ extra _____ for public wi-fi?
 _____ would love to _____ if I could _____ from the extra _____ when _____ a _____ wireless _____.
 _____ me if your network _____ levels of _____ public wi-fi?
 Is it possible to _____ public wi-fi _____ layers _____ protection?
 _____ am _____ public _____ fi but _____ I _____ to use _____ on your _____?
 _____ to provide _____ communication _____ when using _____ wi-fi?
 Is _____ willing _____ offer extra _____ public wi-fi?
 Can you _____ if your _____ extra _____ of Encryption for _____?
 Is it _____ access to public wi-fi networks through _____ provider _____?
 Can _____ service provider _____ more layers _____ protection for _____?
 _____ possible _____ service provider to give more _____ for chat _____?
 _____ that they _____ extended _____ while _____ public wi-fi?
 _____ confirm _____ or not _____ network operator _____ levels of _____ for _____ wi- _____?
 I would like to _____ I _____ benefit from _____ extra _____ encryption _____ connecting to _____ fi _____
 _____ your network company _____ better _____ for _____ public _____?
 _____ your _____ for public _____ networks through advanced methods?
 Do _____ know _____ not your _____ extra _____ of security over public _____?
 _____ your network provider have _____ place _____ wi-fi?
 _____ there more encrypting _____ public _____?
 _____ your network provider able _____ security _____ wi-fi?
 Is it _____ that _____ operator _____ more _____ security for data _____ internet?
 _____ possible to _____ public wi-fi with more _____ of _____?
 _____ want to know _____ benefit from the extra _____ of security _____ networks.
 _____ your _____ able to offer more layers _____ for _____ wi-fi spots?
 _____ the service provider _____ you _____ protection _____ over public _____?
 _____ there more layers of _____ public wi-fi _____?
 _____ to _____ public _____ networks through _____ network _____ with additional _____ layers?
 _____ to _____ if I can get _____ when using public _____ fi _____.
 I'd _____ know _____ I _____ advantage of the extra _____ security when using _____ wi- _____.
 Is the company willing to _____ an _____ wi-fi _____?
 Is _____ company providing _____ networks with additional _____ through _____?
 _____ sure public wi-fi is safe _____ new layers _____?
 Can _____ me whether or _____ provides extra _____ security over _____ wi-fi?
 I would _____ know _____ there _____ more layers _____ to _____ public wireless network.
 Will I be _____ levels of _____ when using _____ on _____ wi-fi?
 I'm _____ public wi fi _____ supposed _____ on your network.
 _____ it possible that your network _____ extra levels _____ wi- _____?
 Is _____ true _____ operator _____ levels of encryption for _____ traffic?

_____ please _____ me if the _____ operator provides extra levels of _____?

_____ they _____ protection _____ public wi-fi?

Please let me know if _____ security for _____.

Is _____ possible to _____ public _____ your network _____ security?

I _____ know if I _____ benefit _____ of security _____ to public wireless networks.

Is this _____ you access _____ wi-fi networks through your _____ provider, with _____ layers _____ the _____?

I want to _____ your network _____ of _____ over public _____?

Is _____ true that _____ network operator _____ security for _____ internet _____?

I want _____ can benefit from _____ additional _____ of security _____ connecting to _____ networks.

Is your network operator _____ provide an _____ of _____ internet _____?

_____ for _____ company _____ better encryption _____ my public wi-fi sessions?

Let me know _____ additional _____ communications _____ using public wi-fi.

Are _____ able _____ use _____ wi-fi networks through your network _____?

I want _____ know _____ your network _____ levels of _____ public _____?

Does _____ provide extra _____ of _____ for _____ wi-fi?

_____ if _____ network operator provides extra _____ of protection _____ public _____?

_____ it possible to access _____ network _____ with extra security in _____?

Does _____ you more protection _____ public _____ networks?

Do _____ give _____ extra security for _____?

Is _____ to access _____ via _____ network _____ extra security _____ on _____ of standard ciphers?

I _____ to know _____ your services include _____ security _____ so _____ public _____ networks _____ keep my communications _____.

_____ more _____ encryption offered by _____ to keep _____ over public wi-fi networks?

_____ it _____ to _____ public _____ your network _____ with additional _____ layers _____ place?

Does _____ network provider offer more _____ of _____ peace over _____ wi-fi _____?

_____ think _____ service _____ can _____ layers of _____ for chat on _____ spots?

Is your network operator _____ of _____ for _____ internet _____?

_____ your _____ allow for _____ for _____ wi-fi networks?

Do _____ protect _____ public _____?

I would _____ to know if _____ layers _____ encryption would help _____ connect _____ public _____.

_____ you _____ protection for _____ wi-fi?

Are _____ to _____ wi-fi networks _____ provider _____ extra _____ protections in place?

_____ using _____ will I have access _____ of encryption?

Is it possible _____ public _____ through your _____ extra security _____?

_____ get additional _____ for your data _____ wi- _____?

Is it _____ provide extended _____ while using public _____?

Is _____ to _____ through your _____ with additional security?

Is it possible to use _____ networks through your network _____ more security _____ the _____?

Is _____ extra protection _____ by _____ network _____ wi-fi?

Is _____ use _____ wi-fi _____ your network _____ with _____ security protections?

_____ internet _____ provider _____ more _____ of encrypting on _____ wi-fi?

Is _____ service provider to provide _____ protection _____ chat on wi-fi?

Can _____ try and _____ encryption _____ my wi-fi _____ public networks?

Can you tell _____ the _____ extra levels _____ security _____ wi-fi?

I would like _____ know _____ encryption would be _____ when _____ public _____ fi networks.

Is your network _____ extra _____ of _____ for _____ internet use?

_____ to _____ if I _____ use the extra layers _____ protection when _____ to _____ networks.

_____ it possible _____ public _____ networks _____ your _____ provider with _____ in place?

_____ it possible _____ rely _____ your provider's _____ encryption for protected _____ via _____ wi-fi _____ points _____

Does your _____ extra protection _____ public wi-fi _____?

_____ would _____ to know _____ I _____ use _____ layers of _____ public wireless networks.

_____ network provider give _____ security for _____ Fi?
 _____ if your services _____ to _____ communications when using public _____ networks.
 Is _____ one encryption layer _____ your ISP _____ public _____?
 _____ like to know if I would benefit _____ extra _____ of _____ connecting _____ public _____ network.
 Is it _____ to access public wi-fi networks through _____ network _____ top _____ the _____?
 _____ you offer _____ against unauthorized _____ to _____ networks _____ advanced _____?
 _____ possible for _____ provider to give you extra _____ public _____?
 Is _____ possible _____ on _____ network _____ for extra security _____ public _____?
 _____ wireless network, I _____ like _____ know if I _____ benefit _____ the extra _____ of encryption.
 _____ network provider _____ to give you extra _____ public _____?
 Is _____ company _____ to _____ public wi fi _____ through _____ methods?
 Can _____ tell _____ if your network operator _____ extra _____ security _____ internet _____?
 Can _____ me if _____ operator _____ more protection for public _____?
 _____ network provider able to _____ public wi-fi?
 Can _____ network provider _____ security _____ I _____ public _____ Fi?
 Can you tell me if your _____ offers _____ wi- fi?
 _____ I _____ to _____ of encryption when using public _____?
 Is _____ providing _____ security to _____ wi _____ networks through _____ methods?
 _____ it _____ to _____ wi-fi _____ through your network provider with _____?
 Is there _____ my communications _____ public _____?
 _____ possible for your network _____ to _____ for _____ on wi-fi?
 _____ it _____ for _____ network service provider _____ additional _____ chat on _____?
 _____ want to know _____ can _____ from _____ extra _____ of _____ when _____ to public _____ networks.
 Is it _____ that _____ give protection _____ while _____ public _____?
 Is _____ provider willing to give _____ extra _____ public _____?
 _____ your _____ provider able _____ provide more _____ encryption _____ the _____ over public wi-fi _____?
 _____ want to be able _____ keep _____ when using _____ wi-fi networks, _____ I want _____ your _____ extra
 I want to _____ safe _____ I want to know if your services have extra
 Is there more _____ one _____ on _____ fi?
 I would like _____ whether or not your network _____ for _____ wi-fi.
 I want _____ services include _____ security _____ so I can _____ public _____.
 _____ possible to _____ public _____ via _____ provider, with extra _____ layers on _____ of _____ ciphers?
 _____ you _____ it's a _____ idea for _____ offer better encryption over _____?
 _____ to _____ could benefit from _____ layers of encryption _____ connecting to _____ wireless networks
 _____ your company protecting _____ wi _____ advanced security _____?
 _____ possible to get enhanced security while _____ through your _____?
 _____ your _____ provider _____ extra protection for _____ networks?
 Is it possible to access _____ networks _____ provider with _____ security _____ on _____ ciphers?
 _____ tell me _____ network operator provides extra levels _____ for public _____?
 Do _____ know _____ network operator provides _____ of _____ public _____ fi?
 _____ true that your network operator _____ of encryption for _____?
 I would _____ sure you _____ extra protections that your services bring _____ protect communications _____ using
 _____ I be able _____ use _____ network _____ public _____ better levels _____ encryption?
 _____ sure that _____ aware _____ extra _____ that _____ services bring to protect _____ when _____ public wi-flim
 _____ to _____ public wi-fi _____ your network _____ with _____ security added?
 Do they _____ security when connecting _____ networks?
 Will I have access to better _____ your _____ on _____ connections?
 I would like _____ if _____ to keep my _____ secure using public internet _____.
 _____ I have access to _____ of encryption _____ using _____?
 _____ encryption for _____?

_____ possible _____ access _____ via your network provider, with _____?
 _____ layers by _____ service provider _____ wi-fi
 _____ network _____ allow additional protections for _____ wi-fi _____?
 _____ it possible for the _____ encryption for my _____ public networks?
 Does _____ service provider _____ more _____ on public wi-fi?
 Can _____ or not _____ operator _____ levels of security _____ public wi-fi?
 _____ I _____ able to _____ enhanced _____ of _____ using public _____ connections?
 _____ possible _____ get added encryption _____ protecting _____ over public _____?
 _____ your service _____ safety _____ open wireless connections _____ cryptography?
 _____ me _____ your network _____ provides _____ levels of encryption _____ public _____?
 _____ been using public _____ fi but am _____ to _____ cautious and _____ on your _____?
 _____ you know if your _____ extra protection _____ public _____?
 Is _____ possible _____ company _____ better encryption for my wi- _____?
 Will _____ be able to use _____ levels _____ when _____ public _____?
 _____ you tell me if _____ can keep _____ communications secure _____ public wi-fi _____ if _____ include _____ options.
 _____ need _____ public wi-fi _____ in _____ communications secure, so I would _____ to _____ if your _____ include _____
 Do you know if your _____ operator _____ extra level _____?
 Can you _____ your network _____ provides _____ level of security for _____?
 Is this _____ when you _____ provider to _____ wi-fi _____ with extra _____?
 _____ like _____ the extra layers of encryption _____ me _____ wireless networks.
 _____ it _____ benefit _____ additional _____ of _____ when connecting to public wi-fi _____?
 Can you _____ me if _____ network _____ gives extra _____ for _____?
 _____ be able to use _____ wi-fi _____ keep _____ secure, so _____ need to know if your _____
 _____ your network company able to _____ better _____ on public _____?
 _____ I use the _____ security when using public _____?
 _____ that your company _____ providing additional security _____ public _____ networks?
 _____ need _____ my communication safe _____ public wi-fi _____ I am requesting _____ you _____ me if _____ security
 Is _____ true _____ network _____ provides more _____ of security _____ on _____ internet?
 Did your provider give you _____?
 _____ for public _____?
 Is _____ operator providing more _____ security _____ internet _____ traffic?
 I _____ like to know _____ I would _____ from more _____ of _____ connecting to _____.
 _____ your provider _____ you extra _____ public wi-fi?
 Are _____ of Encryption provided _____ your _____ operator for _____?
 I would _____ to know if _____ additional levels _____ for public _____?
 _____ like _____ know if _____ use the _____ layers of encryption _____ connecting to _____ networks.
 _____ they give added protection while _____ to _____?
 _____ you _____ protection _____ unauthorized _____ to _____ wi-fi _____ through advanced _____ methods?
 Is it _____ your _____ to provide _____ public wi-fi?
 _____ if the network operator _____ additional levels of _____ public wi- _____?
 _____ know if I can get _____ when _____ use _____ fi _____ provided by _____ service.
 _____ your _____ advanced security _____ wi fi networks?
 _____ you receive _____ the _____ for using public wi-fi?
 Can you tell _____ your network _____ gives _____ levels _____ for _____ wi- _____?
 _____ it _____ to use public wi-fi _____ your network provider, with _____ of _____ original?
 Are they _____ provide added protection when _____ to _____?
 Is it _____ network operator _____ levels of Encryption _____ use?
 Is _____ for your _____ at least _____ better encryption _____ wi-fi sessions?
 _____ me _____ your network _____ additional levels _____ security _____ public internet?

Does ____ network ____ allow more ____ for public ____ ?

Is ____ your network service ____ provide ____ protection for chat ____ wi-fi?

____ your network provider ____ for public ____ ?

Can you tell ____ if ____ extra ____ for ____ internet use?

I ____ to keep ____ communication ____ public wi-fi networks, ____ that ____ let me know ____ have ____

Does the network operator provide additional ____ ?

____ added security from the service ____ using ____ wi-fi?

____ if your ____ provides an extra level ____ security for ____ .

Is ____ possible ____ protection from your ____ provider ____ public ____ ?

Does your ____ security for ____ wi-fi?

____ to ____ sure that I can keep ____ safe in ____ so I want to know ____

____ you offer ____ security to ____ communications ____ public wi-fi ____ ?

____ keep ____ communications ____ using public ____ networks, so I request ____ you tell ____ if ____ services include

____ that ____ network operator ____ extra ____ of security ____ public wi-fi?

Is it ____ to ____ network provider ____ access public wi-fi networks ____ enhanced ____ added ____ ?

Is it ____ for ____ network ____ protection for chat ____ wi-fi?

Is ____ security provided by the ____ operator ____ public ____ use?

____ possible ____ your ____ use ____ encryption ____ my public network sessions?

____ provider willing ____ extra security for public ____ fi?

Can you ____ me if ____ offers ____ levels ____ Encryption ____ public ____ ?

____ company ____ additional ____ public ____ fi networks through advanced methods?

Can you ____ if ____ operator ____ extra levels ____ public wi- ____ ?

Could you ____ tell me ____ network ____ levels of ____ over public ____ ?

Do you ____ additional ____ protect ____ communications on ____ public ____ ?

I ____ like to know ____ I could ____ of security ____ to ____ wireless networks

____ possible to access ____ through ____ network provider, ____ additional security ____ ?

Can ____ me ____ your network operator ____ levels ____ Security for ____ fi?

Does ____ have ____ ability ____ give more ____ of ____ chat on wi-fi spots?

I ____ know ____ could benefit from the extra layers of protection ____ public wireless ____ .

Is ____ possible for ____ provider ____ give you ____ protection for ____ on ____ ?

____ to ____ I could ____ advantage ____ extra layers ____ security when ____ public wireless networks.

Is ____ for the ____ provider to have more ____ when I ____ ?

Adding more layers of ____ internet ____ on public ____ ?

Is ____ of encryption when connected to public ____ ?

I ____ like to ____ I ____ the extra ____ of ____ when ____ a public wireless network.

I would like to know if ____ benefit ____ connecting to a public ____ network.

____ know ____ services include additional protections when ____ public ____ networks.

____ it ____ to access public ____ networks through your network ____ security layers ____ top ____ ?

Is it ____ access public ____ with additional security ____ your ____ ?

When ____ public wi-fi ____ extended communication ____ ?

Is ____ possible for your company ____ the ____ wi-fi ____ with ____ ?

____ me know if your ____ include ____ public ____ .

I would ____ know ____ extra layers ____ help me connect to ____ public ____ fi ____ .

Do ____ offer ____ security to ____ my ____ at public ____ ?

Is ____ possible ____ public ____ networks ____ provider, ____ increased security added to the ____ ?

I would ____ know ____ I could ____ wi- ____ networks provided ____ service ____ more security.

____ to ____ safe in ____ wi-fi networks, I ____ you to ____ me if your ____ include ____ options.

____ they give ____ protection when ____ wireless ____ ?

____ you ____ network ____ provides ____ of Encryption for public use?

Do ____ if ____ provider ____ additional ____ of security for public ____ ?

Is ____ possible to use public ____ your ____ with ____ security ____ the original?
 ____ need ____ keep ____ in ____ wi-fi networks, so I ____ you ____ me ____ include extra encryption options
 ____ network service ____ offer more ____ chat on ____ spots?
 ____ if your services ____ security options for ____ wi-fi.
 ____ your network operator ____ of ____ for ____ wi-fi?
 ____ tell me if ____ network operator provides ____ for public internet ____?
 Is ____ possible ____ public ____ networks through your network ____ with more ____ of ____ ciphers?
 Is it ____ to access ____ wireless networks ____ provider ____ additional ____?
 Is ____ for the ____ service provider ____ give more ____ for ____ spots?
 Is ____ possible ____ public ____ through ____ network provider ____ additional layers ____ security?
 Did ____ while connecting to ____ wireless networks?
 ____ it ____ that ____ operator provides extra levels of ____ over ____ wi-fi?
 Do you get a service that ____?
 Does your provider ____ you ____ on ____ wi-fi?
 ____ for me to ____ my ____ provider with extra security layers on top ____ ciphers?
 ____ you get ____ from ____ service provider for ____ wi-fi?
 I need to know ____ could ____ the extra ____ of security ____ connecting ____ wireless ____.
 ____ you ____ network ____ provides an extra level of security ____ internet ____?
 ____ tell ____ whether ____ network operator ____ levels ____ Encryption ____ public use?
 I'm curious if your ____ provides extra ____ wi-fi?
 ____ to ____ if ____ benefit from an ____ layer ____ when connecting ____ public wireless networks.
 ____ security measures on ____ wi-fi ____ your provider?
 I ____ like ____ if ____ more protection when ____ to ____ wireless network.
 Can you ____ me ____ extra ____ of privacy ____ public wi-fi?
 ____ possible ____ benefit from added ____ of encryption ____ to ____ wireless ____?
 I would ____ know if ____ from the ____ security when using ____ wireless networks.
 ____ your ____ additional layers of ____ for ____ wi-fi?
 Will I ____ to ____ levels of encryption ____ network ____ public wi-fi?
 ____ your company ____ advanced ____ public ____ fi networks?
 Can ____ me ____ provides extra levels of ____ secure ____ access over public wi-fi?
 Is there more ____ service provider on ____ wi-fi?
 Is ____ to ____ wi-fi ____ your ____ provider with enhanced security?
 Is it ____ network provider ____ access public wi-fi ____ with ____ security added ____ process?
 I ____ like ____ know if ____ security options so ____ I can ____ wi-fi networks ____ keep ____ secure.
 I ____ like ____ if your ____ include ____ security ____ for ____ wi-fi.
 ____ to ____ wireless ____ through your network provider with more ____?
 Do you ____ extra protection ____ provider for ____?
 ____ let ____ know ____ your services include ____ options ____ public wi-fi networks.
 Can you ____ me ____ your ____ an extra ____ of privacy ____ use?
 Can you ____ if the network ____ extra ____ of security ____ internet ____?
 ____ like to know if ____ the ____ of security ____ connecting to public wireless ____.
 ____ know if ____ network ____ has extra security ____ wi-fi?
 ____ your network provider willing to ____ security ____?
 Do ____ additional layers ____ protection for ____ public wi- ____?
 ____ want to ____ able to keep ____ communications secure ____ public ____ networks, and ____ if ____ services have ____
 ____ extra ____ of Encryption ____ by your network ____ use?
 Can I ____ my network ____ security ____ public ____ fi?
 It's possible ____ your ____ to offer more layers ____ chat ____ spots.
 ____ know if your ____ include ____ for public wi-fi ____.

I _____ like _____ your services _____ extra _____ so that _____ use _____ wi-fi networks to communicate.
 _____ this _____ use _____ network _____ public wi-fi _____ with extra security layers?
 Is _____ network _____ giving you extra _____ public _____?
 _____ want to be _____ keep _____ secure when using public _____ networks, _____ want to _____ your _____ extra
 Is _____ possible for _____ network service _____ offer _____ protection _____ chatting _____?
 _____ there an _____ of security _____ public internet _____ offered _____ operator?
 _____ a service _____ that _____ data _____ public wi-fi?
 Is _____ possible to access _____ your _____ with extra security _____ the original?
 _____ get _____ from _____ provider on public wi-fi?
 I would like _____ I could _____ layers of _____ using public wireless networks.
 _____ using _____ wi- Fi can I depend on _____ security?
 _____ like to _____ if _____ the extra layer of _____ when _____ to public wireless _____.
 _____ your _____ service _____ add _____ encryption layers on _____ fi?
 Is _____ possible to _____ wi-fi _____ through _____ network provider _____ protections _____ place?
 _____ you tell _____ the network operator provides _____ ofEncryption for _____?
 _____ your internet service _____ have _____ encryption _____ on _____ fi?
 _____ internet _____ may _____ additional layers of encryption _____ public _____.
 Is it _____ your _____ provider _____ add _____ for _____ wi-fi?
 _____ like to _____ could take _____ of _____ layers of protection _____ connecting to _____ public _____ network.
 _____ would like _____ know _____ your network operator _____ extra _____ over _____ wi-fi.
 Is your _____ operator _____ to _____ extra _____ of Encryption _____?
 Is your _____ provider _____ more encryption _____ to public _____?
 Does _____ provider _____ for additional _____ for _____ wi-fi _____?
 Are you able _____ access public _____ your _____ security layers?
 Can I _____ from _____ protection _____ public wi-fi networks?
 Is it possible to _____ wi-fi _____ with _____ security layers _____ of standard ciphers?
 _____ it possible _____ network _____ provide _____ levels of Encryption _____ wi- fi?
 _____ me if _____ network _____ provides _____ levels of _____ for public wi- _____?
 _____ your network _____ of providing _____ of protection _____ on wi-fi?
 _____ it possible to rely _____ the network _____ extra _____ using _____ wi- _____?
 Is _____ possible for _____ use _____ wi-fi with _____ security _____ your _____?
 Is it possible _____ use public wi-fi networks _____ security?
 _____ able _____ use public wi-fi _____ my _____ secure, and I want to know _____ your services _____
 _____ tell _____ the network _____ provides _____ protection for _____ internet use?
 Is it possible that your _____ operator _____ an extra _____ use?
 _____ it possible that your _____ provider _____ encryption _____ public wi-fi?
 I _____ like to know _____ get extra _____ of _____ connecting to a public _____.
 _____ you _____ security measures on _____ from _____ provider?
 Do _____ a network provider _____ additional _____ wi-fi networks?
 _____ your _____ provide _____ levels of Encryption _____ public use?
 _____ like _____ know _____ could _____ from the _____ of security _____ connecting to a _____ wireless network.
 Will I _____ able to use _____ I _____ your _____ network?
 _____ that _____ network company can use _____ encryption for _____ wi-fi _____?
 Is _____ possible to access public wi-fi networks _____ provider _____?
 I've _____ using public wi fi, _____ am I _____ use _____ on _____?
 _____ you _____ if _____ has _____ extra level of security _____ internet use?
 Is it _____ network company _____ security for my _____ wi- fi _____?
 If your services include extra _____ my _____ in _____ wi-fi networks.
 Will _____ have _____ higher levels of encryption _____ public wi- _____?
 _____ want to know _____ can benefit _____ the extra _____ security _____ connecting _____ public wireless _____.

_____ keep my communication safe _____ networks _____ your services _____ extra security _____.
 _____ tell _____ if your _____ operator has _____ of _____ for public _____?
 I _____ like to know _____ I could _____ extra layers _____ when _____ public wi- _____.
 Can _____ use your _____ provider _____ security _____ on public _____?
 _____ for _____ network _____ add more protection for chat on _____?
 Is there more _____ by _____ internet _____ provider _____ public _____?
 Do _____ get _____ security _____ from your provider _____?
 Is it possible _____ networks through _____ network provider, _____ additional _____?
 Is _____ providing _____ for _____ wi fi networks through advanced _____?
 I _____ to _____ communication safe in public wi-fi networks, so _____ you _____ tell _____ if _____ options.
 _____ it _____ provider provides _____ for public wi-fi?
 _____ would like _____ know if I _____ take _____ the _____ of security _____ a _____ wireless network.
 Please _____ me if _____ additional _____ when using public _____.
 Do you _____ your _____ over public wi-fi from _____ service _____?
 Is there an _____ public wi- fi?
 _____ it _____ service provider _____ provide _____ protection for _____ on wi-fi?
 _____ want _____ make sure that my communication _____ public _____ if _____ services include _____ security.
 Is it possible _____ when _____ public wireless networks?
 _____ to _____ network _____ provides additional levels _____ for public wi-fi.
 Is _____ provider _____ to provide _____ on _____ wi-fi?
 _____ provider include additional protection for _____ wi-fi _____?
 Is _____ possible _____ your network _____ with extra _____ layers _____ top of standard ciphers?
 _____ willing to _____ protection to the public wi-fi networks _____?
 Is it _____ more layers _____ for safer _____ when connected _____ wi-fi?
 _____ using public wi-fi connections, will _____ have access _____ advanced _____?
 When _____ wi-fi connections, will I have access _____ levels _____ security?
 _____ I _____ use extra security _____ your _____ use _____ wi fi?
 _____ it possible that _____ provide added _____ wireless networks?
 Is _____ to _____ over _____ wi-fi networks with more layers _____?
 Let _____ your services _____ protections when using _____ fi networks.
 I _____ to _____ my _____ in _____ networks, _____ you to tell _____ your services include extra cipher _____.
 I would _____ to know if I could _____ from _____ extra _____ of security _____ networks.
 _____ tell me _____ your services _____ options to protect _____ using public _____.
 Is _____ use public _____ your _____ provider with added security _____?
 _____ want _____ know if I can _____ the _____ layers of _____ connecting _____ wi- _____ networks.
