

[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Leak detection and repair assistance
Inquiry Sub-Category	Leak detection data analysis
Description	Inquiries related to the analysis and interpretation of data gathered from leak detection activities conducted by the utility company.
Data Size	5,005 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

Are there specific criteria _____ internal analysis _____ potential _____ in _____ system?

Can _____ tell _____ how _____ internal analysis to _____ there are any _____?

_____ we use _____ guidelines _____ assess internal _____ for _____ breeches?

Are there _____ guidelines _____ data to find those _____?

What guidelines _____ reviewing internal _____ for _____ leaks?

Is there _____ followed when looking at internal _____ to see _____ there _____ leaks?

Do _____ any guidelines _____ analyzing _____ in order to _____ system _____?

_____ look at _____ internal _____ see what leaks _____ our system?

Can you _____ us criteria for _____ within _____?

_____ any guidelines that can help _____ system leak _____?

Can _____ tell us the criteria _____ possible _____ our _____?

_____ are used to _____ our _____ to find _____ insights into _____ system _____?

Is there _____ specific set of _____ that _____ internal _____ for _____ leaks?

_____ that can _____ interpreting _____ analysis of leaks?

_____ there _____ review internal data _____ look for potential _____?

What _____ we _____ at in _____ systems using an _____ analysis approach?

_____ criteria should we _____ to _____ our analysis?

When _____ using an internal _____ the key factors?

Is there _____ specific _____ that we _____ data to _____ potential _____?

What are the _____ our _____ order to _____ out _____ a leak around _____?

What criteria should we _____ internal analysis _____ order _____ get better _____ system leaks?

There _____ criteria that _____ be used _____ internal _____ of _____.

How can we _____ to _____ the system _____?

Do we _____ specific parameters _____ our internal _____ to get _____ security _____?

What specific criteria _____ we use _____ at _____ see if there _____?

_____ rules _____ inside _____ so we can find out _____ somethin' _____ leaking?

Do _____ have any _____ for _____ data to _____ the system _____?

_____ it possible to review the _____ analysis _____ parts _____ the _____?

_____ at the _____ analysis _____ see _____ might be leaking?

Is _____ set _____ criteria _____ would make _____ better _____ leaks in our _____?

Is there a _____ be followed when examining internal analysis _____ if _____ leaks?

Do _____ different parameters when _____ our internal analysis _____ order _____ get _____ likely security _____?

_____ should _____ do _____ looking _____ internal _____ detect potential system _____?

_____ criteria that _____ interpreting internal analysis _____?

_____ guidelines should _____ follow _____ looking _____ internal analysis _____ system _____?

We would _____ to _____ criteria _____ and interpreting any _____ our system.

_____ a set of criteria _____ be _____ regards to _____ of _____ leaks?

Is _____ a set of criteria _____ follow when _____ in _____ leaks?

Is _____ specific set _____ that should _____ followed when reviewing _____ detect _____?

_____ criteria do we use _____ understand _____ analysis?

How _____ internal analysis be reviewed _____ find potential _____?

There _____ criteria for evaluating _____ to _____ there is any _____.

A specific _____ of _____ should be followed when _____ in regards _____.

_____ it possible to _____ interpret potential _____ in _____ system by _____?

Should we _____ to _____ our _____ possible system _____?

_____ we _____ potential leaking within the _____ review _____ internal analysis?

There _____ a set of _____ be followed when _____ to find _____ in _____ system

_____ a _____ criteria that should _____ followed _____ internal analysis _____ to potential leaks?

Can _____ help _____ review our internal _____ see _____ are _____ the system?

Some _____ be used _____ our internal _____ to _____ are any leaks.

_____ there a _____ of criteria _____ should be _____ when _____ to _____ leaks?

Can we _____ internal _____ to find the _____ parts _____?

There might _____ for evaluating our _____ to see if _____.

Any _____ to help with _____ of system _____?

_____ be certain _____ internal analysis to _____ if _____ are any leaks.

_____ a set of criteria _____ make _____ possible for _____ analysis to _____ leaks?

_____ criteria can _____ to _____ potential leaks _____ our analysis?

_____ we _____ when evaluating _____ analysis _____ as to get _____ likely security breeches within the system _____?

Does our _____ analysis need _____ reviewed to better _____ potential _____?

What _____ rules _____ inside analysis in order _____ decipher _____ leaking _____ here?

_____ guidelines help interpretation _____ through internal analyses?

_____ look into _____ to see how the _____ leaking?

Can _____ tell _____ how _____ our internal _____ to find _____ our system?

Does _____ criteria _____ be followed when looking _____ our _____ analysis to _____ leaks?

Do you have _____ criteria for _____ and interpreting _____?

Does _____ of internal analysis _____ possible leaks _____ specific _____?

_____ there a _____ set _____ that should be followed when looking _____ internal _____ there _____ leaks?

What criteria are _____ to evaluate _____ system breeches?

Is _____ possible _____ when assessing _____ analysis _____ system breeches?

_____ guidelines _____ follow _____ looking _____ internal _____ detect system leaks?

Is _____ read potential _____ in our system _____ reviewing _____ analysis?

Is there _____ of _____ that should be followed _____ looking at _____ to _____ if _____ leaks?

Is there _____ of criteria _____ feasible for our _____ to _____ leaks?

_____ can be used _____ internal _____ leaks?

Are _____ internal analysis and spotting leaks?

Criteria _____ interpreting internal analysis _____ leaks?

What criteria should _____ used _____ review internal _____?

_____ be criteria for evaluating our _____ analysis to see if _____ system.

Can _____ provide _____ the _____ analyzing _____ in our system?

Is there a _____ be _____ at internal analysis _____ determine if there _____ leaks?
_____ certain criteria for evaluating _____ to see if there is _____.

Is there _____ standards _____ reviewing _____ internal analysis to _____ leaks?
_____ should we use for _____ our _____ spotting _____ system breeches?

What _____ we use in our _____ out _____ leaks _____ our systems?

Can _____ us _____ to review _____ internal _____ to detect _____ leaks?
_____ be _____ criteria for _____ our _____ see if there _____ leak.
_____ we look _____ the _____ analysis to _____ the _____ is leaking?
_____ that _____ internal analysis should be _____ to _____ potential leaks?

Is there a set _____ criteria _____ follow _____ internal _____ see _____ are _____?

There _____ be some _____ for _____ our internal _____ see _____ is _____ leak.

Can you _____ us the _____ for analyzing and _____ leaks _____?

_____ it possible to understand _____ in _____ system _____ our _____ analysis?

There are certain criteria that _____ at _____ in _____ to _____ leaks.

Is _____ specific guidelines _____ when assessing _____ analysis for _____ breeches?
_____ there _____ set of criteria that _____ be followed _____ in order to _____?
_____ look at _____ internal analysis _____ potential leaks?

Does _____ mean that the _____ analysis _____ be looked _____ see possible _____?

_____ you _____ on _____ our own data to find _____?

_____ criteria can be _____ see _____ are any leaks in _____.

Does there a _____ of _____ should _____ examining internal _____ to see _____ any _____ have _____?

_____ potential leaks in our system by _____ our internal analysis?

_____ is a _____ criteria _____ follow when _____ our internal analysis _____ if there are _____.

Is _____ a _____ be followed _____ looking _____ the internal analysis _____ see potential leaks?

Can we look _____ the internal _____ to see _____ our _____?

_____ criteria _____ our internal analysis to see if there _____ leak.
_____ certain _____ evaluating our internal analysis _____ potential _____ breeches.

We need _____ to review _____ analysis of _____.

What criteria do _____ to look into _____ to _____ if _____ are leaks _____ our _____?

_____ there any _____ that _____ help us _____ spots _____ reports?

_____ criteria _____ used _____ review our _____ of system _____?

What _____ to _____ out potential leaks _____ analysis?

_____ are _____ evaluating our _____ to see if _____ have leaks.

What criteria do _____ use in our own _____ see _____?

Is it _____ to _____ specific set _____ criteria _____ in _____ analysis?
_____ criteria _____ may be _____ evaluate _____ internal analysis if there _____ leaks.

There is _____ criteria that should be _____ when reviewing internal analysis _____ detect _____ system.

What _____ are used to evaluate _____ and _____ breeches?
_____ be criteria _____ evaluating _____ to see if there _____.

_____ is _____ that _____ be followed _____ looking at our analysis to _____ there _____ leaks.

When _____ our _____ analysis, _____ we _____ specific _____ to get better insights into _____ security _____?

_____ we _____ the internal _____ order to _____ the _____ leaks?

_____ you _____ any guidelines on how _____ own _____ to _____ the _____ weaknesses?

Does there _____ set _____ criteria that _____ be _____ analyzing _____ analysis _____ if there _____ leaks?

Do _____ have any _____ data _____ hidden system weaknesses or not?

Do we _____ evaluating _____ internal analysis so that we _____ understand likely security breeches _____?

There _____ certain criteria to be used to _____ the _____ are any _____.

There _____ assessing internal _____ and spot leaks?

Is _____ set of _____ for interpreting _____ in _____ system?

_____ a specific _____ of criteria _____ should be followed _____ to find _____ the system.

_____ there _____ specific set _____ followed when examining internal _____ to see if _____ leaks?
 Can we look _____ find out _____ are leaks?
 Do you _____ guidelines _____ the review _____ own data for _____?
 _____ specific set of criteria should be _____ at _____ analysis to see _____ there _____.
 Criteria _____ aid _____ internal analysis _____ leaks.
 Is _____ a _____ of criteria _____ followed _____ into internal analysis to _____ leaks?
 _____ criteria do we use _____ examining our _____ if there _____ our systems?
 Is it _____ criteria are _____ for _____ potential leaks _____ our _____?
 Can you _____ review our _____ analysis to see _____ leaks _____ our system?
 We _____ criteria _____ help review our _____ of _____.
 What _____ we use to evaluate our _____ find _____ potential _____ leaks?
 There are _____ be used to _____ internal analysis to _____ if _____.
 Are _____ our own data to find system _____?
 There _____ be a _____ followed when _____ at internal _____ to _____ there are any _____.
 _____ can we _____ leaking parts _____ system by reviewing _____?
 Is _____ particular _____ use to assess _____ potential system breeches?
 What criteria _____ evaluate our internal _____ to discover _____?
 What criteria _____ we _____ in _____ our own _____ see _____ there _____?
 _____ can _____ review the internal _____ if _____ is _____ leak?
 There _____ a set of _____ that _____ be followed _____ examining internal analysis _____ potential _____.
 _____ we use for _____ internal _____ and _____ system breeches?
 Is _____ a way to assess and interpret _____ analysis?
 _____ you think _____ analysis should be _____ see potential leaks?
 _____ criteria for _____ our internal analysis to better understand _____?
 _____ criteria should _____ to evaluate our _____ analysis to get _____ system _____?
 _____ be _____ internal analysis to detect leaks?
 _____ there _____ criteria that should be followed _____ analyzing _____ analysis to _____ have been?
 _____ set of criteria that _____ be _____ examining _____ analysis to see if _____ leaks _____?
 _____ you tell us the _____ analyzing _____ our system?
 Is _____ be followed when _____ at internal analysis _____ check for leaks?
 _____ there a set of _____ that should be followed _____ order _____ detect leaks?
 _____ can we _____ analysis to _____ leaking _____ the system?
 Can _____ look _____ the internal _____ to _____ system is _____?
 What criteria do _____ our own _____ find out if there _____ a leak _____?
 Criteria _____ aid in interpreting _____
 What are _____ reviewing internal _____ for _____ leaks?
 Can we look _____ internal _____ find out _____ leaks in _____ system?
 _____ review the internal analysis _____ determine the _____ leaks in _____?
 _____ you have _____ analyzing _____ own data to _____ weaknesses?
 Is _____ any _____ for _____ our _____ analysis _____ spotting system _____?
 There _____ any rules _____ our analysis _____ system _____?
 What _____ use to _____ our _____ to _____ better _____ into system _____?
 _____ you tell us _____ for analyzing the _____ system?
 _____ criteria should _____ use to _____ our _____ and _____ breeches?
 When _____ internal analysis for _____ do _____ follow _____?
 Specific _____ evaluating _____ spotting potential system breeches?
 What are the _____ for _____ inside _____ see _____ there is a _____?
 What criteria _____ to _____ analysis _____ system leaks?
 _____ guidelines _____ analyzing _____ leaks _____ our internal analysis?
 Can _____ tell _____ to review _____ analysis _____ to _____ in the system?

Some _____ might _____ to see _____ there are _____ in _____.

Can you give _____ how _____ review _____ analysis to see _____?

_____ is _____ that criteria _____ aid _____ internal analysis of _____.

Is there a _____ of criteria that _____ followed _____ internal analysis _____?

_____ are _____ used in evaluating our _____ to _____ if there _____ leaks.

Is _____ possible to _____ in order to _____ leaking parts of _____?

For _____ at _____ analysis and _____?

There _____ some criteria _____ can be used to _____ if _____ are _____.

_____ follow when reviewing internal analysis _____ leaks?

_____ may be _____ to evaluate our _____ to see _____ there _____ leaks.

_____ there a _____ that should be _____ looking _____ to see _____ there has been a _____?

_____ be followed when _____ internal analysis _____ system _____?

Do we use _____ to _____ our _____ analysis _____ breeches?

How _____ find potential _____ within our _____ we review _____ internal _____?

_____ a _____ of _____ that should _____ when looking _____ analysis about _____ leaks?

How _____ we _____ analysis for _____ system _____?

_____ there _____ particular guidelines we _____ when assessing _____ internal _____ system _____?

_____ may be certain _____ for _____ internal _____ to see if _____.

In order to _____ potential leaking _____ system, _____ we _____ the _____?

_____ find _____ leaking within _____ when we review our _____ analysis?

_____ there a specific set of _____ that _____ for our _____ analysis _____ determine leaks?

There are _____ to _____ our internal analysis _____ see if _____ leaks.

_____ we _____ our internal analysis to _____ leaks _____ our _____?

_____ rules for _____ the _____ for _____ leaks?

What _____ to evaluate our internal analysis _____ see _____ system _____?

_____ are certain criteria that may be _____ our internal _____ there are _____.

_____ we follow specific parameters _____ internal analysis so that _____ can _____ into possible _____?

Any criteria for _____ internal analysis _____ system _____?

Are _____ standards for _____ internal analysis _____?

_____ do _____ use in our _____ if _____ are _____ in our systems?

Is _____ of _____ that should be followed _____ at _____ to see potential _____?

_____ we look for _____ leaking _____ system by reviewing _____ analysis?

_____ should be _____ set of _____ followed _____ analysis _____ see _____ there have been _____.

_____ that _____ be _____ to _____ internal analysis _____ system leaks?

_____ can help _____ analyze our internal _____ on _____?

_____ criteria _____ interpreting internal _____ of leaks?

Do _____ follow specific _____ internal _____ so _____ to better _____ likely _____ breeches within _____ system?

What are _____ reviewing _____ analysis for _____ system leaks?

_____ can _____ look for potential leaking _____ our system _____ our _____?

_____ can _____ understand _____ leaks, by _____ internal analysis?

There should _____ criteria _____ should be followed _____ examining internal _____ potential _____.

There could be _____ criteria _____ evaluate _____ to _____ are any leaks.

Do _____ to assess internal _____ and spot _____?

There may be _____ criteria _____ evaluate _____ internal _____ to _____ is _____ leak.

When _____ analysis _____ possible _____ we follow any _____ guidelines?

Is there _____ set _____ criteria to follow _____ to _____ if there _____ any leaks?

How _____ the internal _____ to locate _____ leaking _____ of the _____?

_____ of criteria that _____ followed to see potential _____ our analysis?

What _____ is used to _____ internal analysis _____ system _____?

Is _____ set of criteria that _____ be _____ analysis to find potential _____?

_____ there _____ set of _____ that _____ when looking _____ internal _____ to detect _____ the system?
 How can _____ review the internal _____ order _____ spot _____?
 How can _____ in _____ analysis?
 Some criteria _____ be _____ any leaks in our analysis.
 _____ would _____ to _____ the _____ for _____ interpreting _____ leaks _____ our system.
 _____ looking _____ internal analysis _____ detecting system _____ what guidelines _____?
 _____ do we _____ evaluate our internal _____ out more _____ potential system _____?
 _____ the _____ analysis in order to understand how _____ leaking?
 What criteria _____ we use _____ our _____ system leaks?
 _____ certain criteria that _____ used _____ evaluating our _____ analysis to _____ there _____ any leaks.
 Is there a _____ criteria that should _____ followed to _____ are leaks _____ analysis?
 Is it possible _____ better interpret _____ of _____ reviewing our _____?
 Do you _____ analyzing _____ interpreting leaks within _____ system?
 _____ review the internal analysis in _____ in the system?
 _____ you _____ the criteria for _____ and _____ system's leaks?
 How _____ we better _____ at _____ detect leaks?
 _____ we look at the _____ to _____ is leaking into _____?
 Do we follow specific parameters _____ evaluating _____ so _____ can _____ insights into _____ security _____ the system?
 _____ a _____ criteria that _____ followed in _____ system to detect leaks?
 _____ criteria _____ for evaluating internal _____ and spotting _____ breeches?
 How _____ we _____ internal _____ order to understand _____ system _____?
 _____ be _____ set of criteria _____ should _____ reviewing _____ analysis to _____ leaks.
 Can _____ review _____ internal analysis _____ potential leaking parts _____?
 There are _____ criteria _____ used to _____ the _____ see _____ there are any leaks.
 _____ guidelines for how _____ review _____ to find system weaknesses?
 _____ may _____ criteria _____ see _____ there are leaks _____ analysis.
 _____ there a _____ criteria that _____ be _____ when looking _____ internal analysis _____?
 Is _____ a _____ criteria that should _____ when _____ internal _____ detect leaks?
 Is _____ a set of _____ to _____ internal analysis _____ there are _____?
 _____ set of criteria _____ analysis _____ system leaks.
 Do you _____ on reviewing _____ data _____ find those system _____?
 There is _____ criteria _____ should be _____ internal analysis _____ detect leaks in _____ system.
 Is there a set of _____ should _____ analysis to _____ if there are _____ leaks.
 _____ might be _____ evaluate our internal _____ see if _____ are _____.
 _____ there _____ of _____ should _____ when _____ internal analysis to see if there _____ leaks?
 _____ to _____ parts of the _____ we _____ the internal analysis?
 _____ rules _____ our analysis _____ possible _____ leaks?
 _____ should _____ set _____ when reviewing internal _____ detect leaks _____ the system.
 What _____ used _____ better understand _____ leaks in _____?
 _____ you _____ criteria for _____ leaks within our system?
 How _____ we look for _____ leaking _____ the system using _____?
 Is _____ possible to better _____ our _____ we review internal _____?
 _____ of criteria that should be _____ examining internal analysis _____ leaks.
 Any rules _____ evaluate _____ leaks?
 _____ can _____ review the _____ to find _____ in the _____?
 Is _____ set of criteria _____ should _____ followed when _____ analysis _____ see if _____ any _____?
 There _____ criteria _____ evaluating our _____ analysis to _____ there _____ any _____.
 What criteria _____ internal analysis _____ spotting _____ system breeches?
 _____ there _____ criteria _____ reviewing _____ to _____ potential leaks in our _____?
 _____ to find potential _____ parts _____ the system, can we _____ the _____?

How ____ we ____ the internal ____ order to ____ leaking ____ system?

What ____ should ____ used to ____ potential ____ internally?

A ____ set of ____ should be ____ analysis to see ____ are ____ leaks.

____ you ____ any ____ our own ____ find the system weaknesses?

Can you tell me ____ to review ____ analysis ____ to ____ our ____?

____ criteria ____ use ____ evaluate our ____ and ____ spot potential ____ breeches?

Do ____ specific parameters ____ internal ____ so ____ we can learn ____ about likely security ____?

Do we follow specific ____ when evaluating ____ internal analysis ____ better ____ security breeches ____ the ____?

____ can ____ internal analysis ____ potential ____ parts of the ____?

Are there ____ criteria we ____ to ____ spots from ____ internal ____?

Do ____ specific ____ when evaluating ____ to gain ____ insight into ____ security breeches ____ the ____?

____ can we look for potential ____ system ____ the internal ____?

____ tell us how ____ internal ____ efficiently to ____ any ____ in our system?

____ be certain criteria for ____ internal ____ see ____ is any leaks.

To ____ the system is ____ we look at ____ analysis?

Should we ____ internal ____ determine ____ of leaks ____ our system?

To gain ____ potential ____ are the ____ for ____ our internal analysis?

____ criteria are ____ for spotting leaks ____ analysis?

Do we ____ specific parameters when evaluating ____ to gain ____ security within the ____?

____ reviewing internal ____ for possible leaks, ____ guidelines?

There is ____ certain set of ____ that ____ followed when ____ if ____ are leaks.

Is ____ a set ____ criteria that should ____ into ____ analysis of ____?

____ give us ____ for ____ interpreting ____ within our system?

____ we ____ specific ____ when ____ so that ____ gain better insights ____ likely security breeches?

____ we ____ a look ____ the ____ analysis to find ____ the ____ leaking?

____ we ____ system by looking at the internal analysis?

Do ____ follow distinct ____ evaluating our ____ so ____ to ____ insights ____ likely security breeches?

Can we ____ at ____ why ____ system is leaking?

____ should ____ at in evaluating leaked systems using an ____?

____ guidelines ____ our own data to ____ those sneaky ____ weaknesses?

How ____ aid ____ internal ____ of leaks?

____ at ____ if ____ are any leaks, there should be a ____ of criteria ____.

When evaluating our ____ analysis, ____ follow distinct ____ gain better insights ____ likely ____ breeches?

Is ____ criteria to ____ used for interpreting ____ our system?

Does the ____ of internal ____ follow ____ specific ____?

There ____ certain criteria for ____ internal ____ to see ____ is ____.

Do we ____ distinct parameters ____ our internal analysis ____ that ____ better insights ____ breeches?

What ____ use ____ our ____ analyses ____ see if there are ____ leaks ____ the systems?

____ anyone have any criteria ____ analysis and ____ potential system ____?

____ we ____ analyses to see if ____ is a leak?

____ to ____ leaking within ____ can we review the internal ____?

____ be certain criteria for evaluating internal ____ see ____ there ____.

____ for ____ our ____ for system leaks?

____ you give us ____ and interpreting ____ in ____ system?

Is ____ of criteria that ____ when ____ at internal analysis ____ see ____ any leaks?

Is ____ specific way to ____ spot potential leaks?

To ____ potential ____ within our ____ can ____ internal analysis?

____ are used ____ our internal analysis ____ spotting ____ breeches?

How ____ we ____ internal ____ order ____ understand the system ____?

What criteria should ____ to ____ to find ____ potential system leaks?

Is _____ specific set of criteria that _____ be _____ when _____ internal _____ in _____ system?

There _____ be _____ criteria _____ our _____ analysis to see if _____.

What the _____ are for _____ analysis in _____ find _____ somethin' _____ leaking?

_____ we need _____ understand _____ in our analysis?

Which criteria _____ to evaluate our _____ find _____ system _____?

Is _____ to _____ the _____ leaks in our _____ reviewing internal _____?

Are _____ guidelines when reviewing internal _____ for _____?

A set _____ criteria _____ be followed _____ looking _____ our _____ see if _____ are _____.

There _____ be _____ for _____ the internal analysis to _____ if there _____.

There are certain _____ to see _____ there _____ leaks.

How can we _____ by reviewing _____?

_____ guidelines are used _____ our _____ analysis _____ potential _____ breeches?

What criteria should _____ to _____ system leaks?

Is _____ a _____ of criteria that _____ in _____ to see _____ our analysis?

_____ criteria _____ use to better _____ in _____ analysis?

Should _____ specific guidelines _____ assessing our _____ for _____ breeches?

_____ there _____ can aid _____ interpreting _____ analysis of _____?

Is _____ set of _____ should _____ examining internal _____ of potential leaks?

Is _____ of _____ followed when looking _____ to see if leaks are found?

Can _____ the internal _____ understand _____ leaks?

_____ criteria should _____ use _____ spotting potential system breeches?

What criteria _____ use _____ analyses in _____ to see _____ there are leaks?

_____ there _____ criteria that should _____ followed when reviewing _____ analysis _____ find leaks _____ the _____?

Some _____ used _____ see _____ leaks in our analysis.

Can we _____ analysis to see _____ is _____ our system?

_____ it possible for our _____ leaks _____ on a _____ set of _____?

Is it _____ that we _____ reviewing internal analysis _____?

We want the _____ for analyzing _____ any leaks _____.

When _____ internal analysis _____ if there _____ there _____ be _____ set _____ criteria.

There _____ criteria that _____ used to _____ analysis _____ if _____ are any leaks in _____ system.

There should _____ a _____ criteria _____ examining _____ analysis to see if _____ is _____.

_____ there a _____ criteria that _____ followed when reviewing _____ analysis to _____?

_____ you have _____ analyzing our own data to _____?

_____ you have criteria _____ help _____ internal _____ system leaks?

_____ should _____ followed when reviewing _____ analysis _____ detecting potential _____?

_____ that _____ that the internal _____ should be looked into _____ the system?

Is _____ specific way _____ can review _____ detect leaks?

How can _____ understand _____ in the _____ our internal _____?

What _____ do _____ in our _____ analyses _____ see _____ there _____ leaks _____ our _____ systems?

_____ a _____ of criteria feasible for _____ to better _____ leaks?

We should follow _____ parameters when evaluating our _____ so _____ insights _____ likely _____ within the _____ proper.

A specific set _____ criteria should be _____ when _____ our _____.

Is there _____ of criteria that need _____ be _____ looking _____ analysis _____ detect _____?

_____ there _____ way to _____ data _____ look for _____?

Is _____ possible _____ the internal analysis to find _____ be _____?

How can we review _____ internal _____ see _____ are _____?

Is there a _____ that should _____ followed _____ analysis _____ detect leaks.

_____ any _____ way _____ look _____ to detect possible leaks?

Is there _____ set of _____ that should _____ when _____ into our _____ to _____?

_____ the internal analysis _____ out how _____ system is _____?

Any criteria we should use to _____ internal _____?

_____ possible to better interpret potential _____ reviewing our internal _____?

_____ give _____ for _____ the leaks within the _____?

_____ criteria may _____ used for _____ internal _____ if there is a _____.

What _____ should _____ use _____ potential _____ in _____ analysis?

_____ guidelines _____ follow when _____ look at internal analysis _____?

Is _____ set _____ criteria that _____ be _____ when _____ internal analysis to _____?

_____ there any set _____ and spot leaks?

_____ a _____ that should be followed _____ our _____ analysis _____ find leaks.

_____ can we _____ internal _____ to _____ possible leaking _____ system?

Can _____ follow specific _____ when _____ for possible _____?

Can _____ give _____ criteria _____ and _____ possible _____ within our system?

_____ you give _____ analyzing and _____ any potential _____ within our _____?

_____ there _____ of _____ that _____ possible for our _____ better determine leaks?

What _____ do we _____ to look _____ our analyses _____ see _____ leaks?

_____ there _____ criteria _____ could use _____ determine leaks _____ our analysis?

What _____ used _____ internal _____ better understand potential system leaks?

_____ criteria _____ to evaluate _____ internal _____ to see _____ there is leaks.

Is _____ a _____ of criteria _____ follow _____ to detect _____ in _____ system?

Can _____ criteria for analyzing _____ interpreting _____ leaks _____ the _____?

Certain _____ be used _____ if there are leaks _____ our _____.

Is _____ criteria that _____ be followed _____ performing internal analysis to _____?

Is _____ a set of _____ be followed _____ our _____ see _____ there are leaks?

Which _____ should _____ used to review _____ analysis for _____?

_____ follow different parameters when _____ analysis in order to gain better _____ breeches _____ the system _____?

Is _____ set of criteria that would _____ analysis _____ find _____?

_____ follow specific _____ evaluating our _____ so we can gain better insights into _____?

_____ there _____ guidelines _____ use to assess _____ for _____ breeches?

Is there a set of criteria _____ follow _____ to spot _____?

_____ of criteria that should _____ followed _____ our _____ analysis to _____ leaks?

_____ certain _____ be used _____ our internal analysis _____ if there are _____ leaks.

_____ are certain criteria for _____ internal analysis to _____ leak.

_____ give _____ criteria for analyzing _____ possible _____ within _____ system?

_____ the _____ potential leaks internally?

_____ criteria do we _____ when _____ at our _____ to _____ there _____ any _____?

_____ criteria _____ should be _____ in regards _____ internal analysis in _____ to potential leaks?

_____ there a criteria for _____ interpreting any _____ within _____?

Is _____ specific set _____ criteria that _____ be _____ when looking at internal analysis _____ there _____?

There _____ certain _____ may be _____ to _____ our _____ to see _____ there _____ leaks.

Is _____ a way for the _____ leak possibilities _____?

What _____ criteria we use _____ at our own _____ to see _____ leaks in _____?

_____ is _____ set _____ criteria that should _____ followed when _____ at _____ to _____ leaks.

Is _____ a way to better understand _____ leaks _____ our _____?

How can _____ the internal analysis _____ the system _____?

_____ there be _____ criteria _____ analysis and _____ leaks?

Can _____ take _____ the _____ analysis to figure _____ how _____ system _____ leaking?

What criteria are used _____ evaluate _____ to get better insights _____ system _____?

_____ can we _____ to understand _____ system leaks _____ analysis?

_____ are the rules _____ analysis _____ order _____ find out _____ somethin' is _____?

_____ that _____ be used to evaluate _____ internal _____ to see if _____ leaks.

_____ we _____ specific _____ for analyzing potential _____ our _____?

_____ us _____ to _____ internal analysis _____ to detect leaks in _____ system?

_____ at the _____ analysis _____ order _____ understand the leaks?

_____ look for potential _____ within the _____ by _____ the internal _____?

_____ there _____ leaks, certain _____ be used _____ evaluate _____ internal _____.

Is _____ possible _____ the _____ analysis in order _____ the _____ leaks?

_____ there specific _____ for reviewing _____ see _____ there _____ leaks?

Is there _____ be _____ looking _____ analysis to _____ out if there have been leaks?

Does anyone have _____ to _____ our _____ for _____?

_____ it possible _____ leaks in _____ system by reviewing _____ analyses?

Can _____ be _____ looking into potential leaks _____?

How can _____ find _____ leaking parts _____ in _____ analysis?

_____ we _____ the _____ in order _____ potential leaking _____ the system?

Do _____ guidelines _____ reviewing our own data _____ find system _____?

What _____ used _____ better understand leaks _____ analysis?

There are _____ for _____ our _____ see _____ there is any _____ in our _____.

_____ of criteria _____ when looking at internal analysis _____ detect _____ in _____ system?

Can _____ tell us how _____ our internal _____ efficiently _____ leaks in _____ system?

Some _____ be _____ evaluating our _____ analysis _____ if there are _____.

Is _____ of _____ should be followed _____ analyzing _____ data to see if _____ leaks?

_____ there _____ set of _____ to _____ into _____ to detect leaks?

_____ for us to better interpret potential _____ system _____ internal analysis?

_____ may be _____ to evaluate _____ internal _____ see if _____ any leaks.

Is there _____ specific set _____ that _____ be followed when looking _____ internal analysis _____ leaks _____?

Are we _____ any _____ reviewing internal _____ for _____?

Does _____ set _____ that _____ followed when looking _____ analysis _____ detect leaks?

Any rules _____ for _____ leaks?

_____ guidelines _____ we follow to _____ internal _____ for _____?

Is there any _____ to assess _____ analysis _____?

_____ criteria can _____ use to find _____ analysis?

_____ be used _____ evaluate our _____ analysis and spotting _____ system _____?

_____ a _____ of criteria that should be _____ internal _____ potential leaks?

_____ order to _____ parts _____ system, how can we _____ internal analysis?

_____ we _____ specific guidelines _____ reviewing internal _____ for _____?

What criteria _____ used _____ evaluate _____ internal analysis in _____ leaks?

_____ should _____ a set of _____ followed when looking _____ analysis _____ see if _____ been _____.

_____ there _____ interpret system leak _____ through internal analyses?

_____ can _____ analysis to find leak in the _____?

Is _____ a _____ of criteria _____ examining our _____ see if there _____ leaks?

Is it possible _____ better _____ the potential leaks _____ system _____ the _____?

Do certain guidelines help _____ interpretation of _____ possibilities _____?

_____ evaluating our internal _____ so as to gain _____ insights _____ likely _____ breeches within _____ system?

_____ do _____ use to _____ internal analysis for _____ breeches?

Is _____ possible to look at the _____ leaking into _____ system?

There are _____ our _____ analysis _____ see _____ there _____ leaks _____ the system.

_____ there a _____ of _____ that _____ followed when reviewing our internal _____ see _____?

Do we follow _____ parameters when _____ our _____ analysis so _____ can get better _____ breeches _____?

_____ any _____ we use _____ internal analysis for system breeches?

_____ criteria _____ be used _____ see if there are _____ in _____ analysis.

There may _____ certain _____ used _____ evaluate our _____ analysis _____ if _____ leaks.
 _____ may be _____ criteria _____ evaluate our _____ analysis _____ see if _____ .
 _____ we _____ parameters _____ evaluating our internal analysis _____ to _____ better _____ into likely _____ breeches within _____ system _____ ?
 Is there any set _____ internal _____ decipher _____ leaks?
 _____ looking at _____ internal _____ to decipher _____ system _____ we _____ set standards?
 _____ criteria _____ used for _____ our internal _____ potential _____ breeches?
 _____ there a _____ to _____ internal _____ to _____ there _____ leaks?
 Does it _____ internal _____ should be _____ at _____ better _____ the _____ ?
 _____ for _____ analysis _____ system leaks?
 Is _____ a _____ set _____ be _____ looking at internal _____ of potential leaks?
 Do we _____ evaluating _____ analysis _____ that we can _____ insight _____ likely security breeches?
 What _____ are used to look _____ our own _____ see _____ there _____ our _____ systems?
 _____ there _____ of _____ must be followed _____ examining _____ in regards _____ potential leaks?
 Is _____ a _____ of _____ should _____ when looking at our internal analysis _____ ?
 What _____ things _____ help _____ our _____ findings on _____ ?
 _____ some criteria _____ be _____ to evaluate our _____ analysis _____ see if _____ .
 _____ should _____ use to _____ our _____ and potential _____ breeches?
 There is _____ set _____ be followed _____ our internal _____ to find _____ .
 _____ there _____ of criteria that can _____ used to _____ leaks in _____ .
 _____ there a _____ of criteria _____ should be followed when _____ internal _____ to _____ in _____ ?
 How can _____ our _____ system leaks?
 Some criteria can _____ evaluate our _____ to see if _____ is _____ .
 How should _____ at internal data _____ spot _____ ?
 What criteria should _____ evaluating _____ and spotting system _____ ?
 There are certain _____ to _____ used to _____ our _____ if there _____ .
 What _____ used _____ our _____ find potential system breeches?
 _____ criteria may be _____ if there _____ leaks in our _____ .
 Can _____ give _____ possible leaks within _____ system?
 Any _____ of rules _____ assess the analysis _____ ?
 A _____ set of _____ should _____ followed when _____ internal _____ to find _____ .
 Is there _____ set of _____ in _____ analysis to see _____ there are leaks?
 _____ there a _____ should _____ followed when looking for potential _____ in _____ analysis?
 _____ there a specific set of _____ to _____ when examining _____ if _____ are _____ ?
 _____ possible to look _____ the internal analysis _____ see _____ in our _____ ?
 In _____ potential _____ our system, _____ we review our _____ analysis?
 _____ should _____ do to _____ the internal _____ for potential _____ in _____ ?
 Is _____ set of _____ that would allow for _____ leaks?
 How can _____ look _____ potential leaking in the _____ internal _____ ?
 When _____ internal _____ if _____ leaks, there should be a set _____ followed.
 Is _____ specific _____ to assess our internal analysis _____ breeches?
 _____ criteria are used _____ evaluate our internal analysis _____ ?
 _____ it _____ to _____ potential _____ in _____ system by _____ internal _____ ?
 Is _____ a set _____ need _____ when _____ stat to spot _____ breeches?
 Is there _____ internal data to detect _____ leaks?
 _____ you give us _____ criteria _____ interpreting any leaks within _____ ?
 Is there a set _____ criteria that _____ when _____ analysis of _____ ?
 _____ criteria may be _____ our _____ analysis if _____ are _____ leaks.
 _____ we look at _____ analysis _____ see _____ there _____ any leaks in _____ ?
 _____ should we _____ our internal analysis and _____ system breeches?
 Certain _____ used to evaluate _____ to see if _____ leaks.

_____ a _____ should _____ followed when _____ potential leaks in our analysis?

Is _____ a set _____ should be _____ when _____ internal _____ to detect _____?

_____ it possible to _____ specific guidelines _____ for possible _____?

To _____ leaks _____ our _____ what are _____ criteria?

Do you _____ any _____ looking _____ our own data _____?

_____ certain _____ used to _____ internal analysis to see _____ there is leaks.

_____ may be certain criteria for _____ analysis _____ if _____ is a _____.

_____ set of _____ that should _____ when reviewing internal analysis to _____.

_____ criteria may be used to _____ there _____ in _____.

_____ guidelines _____ follow for _____ detect system leaks?

There _____ certain criteria _____ evaluating our _____ analysis _____ there _____ our system.

Set _____ to _____ internal analysis of _____ leaks?

Can we _____ the _____ find _____ what is leaking _____ our _____?

_____ there _____ way to look at _____ data _____ detect _____?

Do _____ follow different _____ internal analysis _____ we _____ insights into likely security breeches?

_____ can _____ our internal analysis to _____ insights _____ system leaks?

What _____ we _____ when we _____ at our _____ analyses to _____ there are _____?

How can _____ use _____ internal analysis to _____ interpret _____?

Is _____ any guidelines _____ internal analysis _____?

_____ tell _____ to _____ review _____ internal analysis to see _____ in the _____?

There are _____ criteria _____ evaluating internal _____ see if _____ any _____.

Do _____ for _____ at our own _____ for those system _____?

What _____ we use to evaluate our internal analysis _____?

How _____ we _____ analysis to _____ system leaks?

Is _____ possible to _____ interpret potential _____ through internal _____?

Are _____ able to give us _____ for _____ interpreting _____ within our _____?

_____ do _____ in our _____ if there are leaks in _____ systems?

_____ be certain _____ used to evaluate _____ internal analysis to _____ there _____.

_____ possible to _____ guidelines while assessing internal _____ potential system _____?

_____ internal _____ for detecting system _____ what _____ should _____ follow?

_____ should we _____ internal analysis _____ system leaks?

What _____ are _____ help _____ internal analysis _____ leaks?

_____ a _____ criteria that _____ be followed when _____ at _____ analysis to see if _____?

_____ do _____ to _____ own analyses to _____ there are leaks in the _____ systems?

_____ do _____ use in our own _____ for _____ leaks _____ our systems?

What are _____ analysis to find out if there _____ leaks?

_____ are some criteria for _____ internal _____ see _____ there _____ leaks.

_____ our internal _____ have any _____ to decipher _____ leaks?

_____ that can _____ analysis of _____.

_____ set of criteria that _____ be _____ when looking _____ potential _____ analysis.

_____ there a set _____ that _____ at internal analysis in _____ to potential leaks.

_____ there a particular _____ used for _____ potential _____ system?

_____ criteria should _____ when _____ internal _____ spotting potential system _____?

_____ any set _____ criteria _____ should be followed when examining internal _____ see _____ leaks?

_____ there a _____ that _____ when looking at the _____ analysis _____ see if there are _____?

What _____ used to _____ analysis to look _____ system _____?

_____ use in _____ own analyses to find _____ our systems?

What criteria _____ to evaluate _____ internal _____ to learn _____ leaks?

Is _____ a _____ criteria that _____ be _____ when _____ of potential leaks?

_____ criteria _____ the _____ analysis _____ see if there are leaks.

What ____ do we ____ look into ____ see ____ there ____ leaks in our systems?
 ____ way to better ____ analysis and ____ leaks?
 ____ there specific guidelines ____ use to ____ potential system ____?
 Any criteria that ____ used ____ internal analysis ____ leaks?
 What ____ are ____ to ____ in our analysis?
 What are ____ rules ____ inside ____ in order to ____ somethin' ____ leaking?
 Is ____ interpret potential ____ our system ____ looking at ____ analysis?
 ____ you give ____ any criteria ____ analyzing ____ interpreting any ____ our ____?
 ____ follow ____ when analyzing our internal ____ to get better ____ into ____?
 Is ____ to assess ____ for system ____?
 Is there any ____ reviewing ____ for ____?
 ____ we review the ____ analysis to ____ system ____?
 Is it ____ better interpret ____ our ____ analyzing our ____ analysis?
 Can we ____ analysis of the ____ how it ____ leaking?
 ____ we ____ specific parameters when ____ internal analysis so ____ gain better insights into ____?
 ____ we ____ same parameters when evaluating our internal ____ so that ____ better ____ into likely ____?
 There ____ a ____ criteria that would ____ it ____ for our ____ analysis to ____.
 ____ we review our internal ____ to ____ leaks?
 What criteria ____ possible leaks in ____ analysis?
 ____ any set standards ____ at ____ analysis ____ decipher possible ____ leaks?
 There are ____ criteria to evaluate our ____ if there ____.
 What guidelines ____ when looking at ____ for ____ leaks?
 Is ____ any specific ____ can look at internal data ____?
 ____ a set of criteria that ____ be ____ when examining internal ____ see if ____?
 ____ there ____ criteria that ____ interpret ____ from ____ internal reports?
 ____ be ____ parameters ____ analyzing potential leaks ____?
 Can ____ at ____ internal ____ figure out what ____ leaking?
 To get ____ potential ____ leaks, ____ criteria are ____ to evaluate our ____?
 ____ there any guidelines ____ assess potential leaks ____ internal ____?
 ____ leaking parts ____ the system when ____ the internal analysis?
 ____ set of ____ should be followed when looking ____ internal analysis ____ any leaks ____ been?
 Is ____ standards ____ internal analysis to ____ leaks?
 What ____ to be looked at ____ evaluate ____ using ____ approach?
 ____ give us ____ for ____ and interpreting ____ possible ____ the system?
 Is ____ of criteria that ____ to ____ when looking at ____ internal ____ see ____ leaks?
 Any criteria ____ review ____ analysis of system leaks?
 ____ there a ____ to ____ internal ____ identify potential leaks?
 ____ criteria should ____ use for ____ our ____ analysis ____ spotting potential ____?
 There ____ criteria that can be ____ our internal ____ see ____ there ____ a leak.
 ____ should ____ set ____ criteria to ____ at ____ analysis to ____ if ____ have been leaks.
 ____ could ____ criteria for ____ our internal analysis ____ see if ____.
 ____ assist ____ interpreting ____ analysis ____ leaks?
 ____ criteria ____ to evaluate ____ spotting potential system breaches?
 There are ____ criteria that should ____ when ____ at ____ analysis ____ leaks.
 Should ____ be ____ parameters ____ potential leaks ____?
 Is there ____ specific ____ of criteria that ____ when ____ internal ____ to ____ if ____ occur?
 ____ any ____ standards ____ assess internal ____ and ____ leaks?
 Can ____ certain guidelines for ____ system ____?
 There are ____ criteria ____ evaluating ____ internal analysis ____ if ____ are ____.
 How ____ the ____ analysis in order ____ understand ____ leaks?

There are _____ when _____ our internal analysis _____ see _____ there are any _____.
 How _____ review _____ internal analysis in _____ find _____?
 _____ can we understand _____ leaks _____ review _____ internal _____?
 When looking _____ internal _____ leaks, _____ should be _____ of criteria followed.
 Is there _____ of system _____ possibilities through _____ analyses?
 Do _____ guidelines _____ our own _____ find hidden system weaknesses?
 _____ a specific set of _____ that should be followed _____ leaks _____ our _____?
 Is _____ clear criteria _____ internal analysis _____ leaks?
 _____ do we _____ our _____ to _____ potential system _____?
 _____ criteria for reviewing _____ analysis _____ leaks?
 Can _____ look _____ internal _____ to see what _____ into _____ system?
 What _____ are used to understand _____?
 _____ for looking at _____ internal analysis to see if _____.
 Any rules _____ check _____ study _____ predict _____?
 Criteria _____ help with _____ analysis _____?
 _____ there a set _____ for evaluating _____ and _____ system _____?
 _____ at internal analysis _____ leaks?
 Is _____ of standards to _____ internal _____ and _____ leaks?
 Do we follow specific parameters _____ evaluating _____ get _____ insights into _____?
 Is there a _____ be _____ in our internal analysis _____ leaks?
 _____ set of criteria should be followed when _____ at _____ analysis _____.
 _____ are _____ criteria _____ evaluate _____ internal analysis to find _____?
 What _____ do we _____ reviewing internal _____ possible _____?
 _____ there _____ criteria _____ internal _____ to see if there are _____?
 How can _____ potentially _____ the system _____ reviewing the _____ analysis?
 _____ the _____ the internal analysis to prevent _____?
 _____ us the criteria for _____ any leaks within _____?
 _____ do _____ in _____ own analyses _____ find probable leaks in _____ systems?
 _____ tell us what the criteria _____ for _____ and _____ system?
 _____ parameters when evaluating _____ internal _____ to _____ better insights _____ likely _____ breeches within the _____ proper?
 _____ give _____ criteria for analyzing _____ any _____ within _____ system?
 How _____ we _____ the internal _____ find _____ parts of _____ system?
 _____ criteria _____ to evaluate our _____ analysis to _____ system leaks?
 How _____ within our _____ by reviewing the internal _____?
 _____ are _____ criteria _____ used to evaluate our _____ to _____ if there are _____.
 Does _____ a set of _____ that should be _____ at _____ in regards _____ potential _____?
 How can _____ review _____ in order _____ leaking parts _____ the system?
 Is there specific criteria _____ internal _____ see _____?
 _____ there _____ of criteria _____ looking at internal analysis _____ see _____ there are _____?
 _____ criteria should we use to evaluate our _____ to _____ better _____?
 There are _____ criteria _____ be used _____ internal analysis _____.
 There _____ certain _____ for evaluating _____ analysis _____ there are any _____.
 _____ guidelines should we follow _____ for _____ leaks?
 _____ we review _____ analysis in _____ to _____ leaking?
 Some _____ may _____ used _____ evaluate _____ internal analysis _____ see if _____ are _____.
 Is there _____ set _____ criteria _____ followed when looking at _____ analysis to see _____ leaks?
 Is there _____ set of criteria _____ should _____ followed _____ analysis _____ relation _____ potential _____?
 In _____ potential _____ the _____ we review the internal analysis?
 _____ there a _____ interpreting leaks in our system?
 Any _____ used to _____ our internal analysis of _____?

_____ us _____ the criteria _____ and interpreting leaks in our _____?

What criteria is used _____ evaluate _____ internal _____ leaks?

What _____ do we _____ our own _____ look _____ leaks _____ our systems?

_____ criteria is _____ to evaluate our _____ analysis _____ learn more _____?

_____ should be a set _____ criteria followed _____ our internal analysis _____ leaks.

_____ may be some _____ evaluate _____ internal analysis _____ if _____ leaks.

_____ looking _____ our internal _____ are _____ there should be a _____ set _____ criteria followed.

_____ any clear criteria for reviewing _____ and _____?

Is _____ a set of _____ reviewing internal _____ for _____?

What are _____ analysis so _____ we _____ determine if somethin' _____ leaking?

What criteria _____ to _____ leaks in our analysis?

Some _____ could be _____ see _____ are leaks in _____.

Do we _____ specific _____ when _____ our internal _____ so as _____ into likely _____ breeches?

Does anyone _____ specific _____ for evaluating internal _____ spotting _____?

_____ we look _____ the internal _____ find out if _____ is _____?

Can we _____ in _____ internal analysis _____ the _____ leaking?

Is _____ specific set _____ criteria that _____ be _____ when _____ at internal _____ if _____ have been?

_____ you give us the _____ for _____ interpreting possible _____ within _____?

Clear criteria for _____ internal _____?

_____ in understanding _____ of leaks?

How can _____ leaking parts _____ system _____ the _____ of the _____ analysis?

Can we _____ the internal analysis _____ learn how _____?

What criteria can _____ use _____ review _____ analysis for _____?

_____ can _____ the _____ so _____ we understand the system _____?

How _____ we _____ internal data _____ if there _____ leaks?

_____ criteria _____ be used _____ evaluate _____ internal analysis _____ see _____ is _____.

_____ it possible to look _____ internal _____ see what _____ our system?

_____ to assess _____ for _____ leaks?

What _____ should _____ in _____ analyses to _____ if there _____ in _____ systems?

Are _____ criteria that can be _____ interpret _____ of _____?

Should we _____ when _____ internal analysis so _____ can gain better _____ into _____ security _____?

Is it _____ internal analysis to _____ interpret _____ leaks _____ system?

Our internal analysis _____ be reviewed _____ understand _____ our _____.

_____ criteria are _____ for _____ internal _____ and spotting _____?

_____ set of criteria _____ be followed _____ reviewing _____ internal analysis to _____ leaks _____ our _____.

Do _____ any rules _____ analysis for possible _____ leaks?

_____ we follow distinct _____ when _____ our _____ as to get _____ insights _____ likely _____ breeches?

What _____ do we use _____ own _____ find out _____ there _____ leaks _____ systems?

There _____ criteria used to evaluate our internal _____ if there _____.

Any criteria _____ review internal _____?

Should _____ parameters when _____ internal _____ as _____ gain _____ insights into likely security breeches?

_____ any guidelines we use to _____ potential system _____?

Do _____ have any guidelines _____ looking _____ our _____ system _____?

_____ it _____ better interpret potential _____ in our _____ examining our _____?

What criteria _____ we _____ in _____ analysis to _____ if _____ are _____ systems?

Is there a _____ of _____ that should _____ analysis to _____ leaks?

_____ possible _____ better _____ potential leaks in _____ system by reviewing _____?

There _____ a set of _____ that should be _____ reviewing our internal _____ if _____ leaks.

Is there _____ specific way we _____ look _____ data _____ detect _____?

_____ there _____ specific _____ of criteria _____ when _____ internal analysis _____ see if there _____ any leaks?

_____ assess our _____ for system _____?

_____ there a _____ that would _____ our internal _____ to find _____?

When _____ at _____ analysis _____ see _____ any _____ there should be a specific _____ of _____.

_____ guidelines should we _____ when considering internal _____ leaks?

Criteria _____ and spotting _____ system breeches?

_____ certain criteria used _____ evaluate _____ to see _____ there are any _____.

_____ use to _____ at our own _____ to _____ if there _____ leaks _____ our systems?

We _____ follow _____ when evaluating _____ internal _____ so as _____ gain _____ insights into _____ security breeches _____ proper.

Can _____ look _____ the internal analysis _____ see _____ could _____?

_____ considering _____ analysis for _____ potential system _____ we follow?

Is _____ determine _____ in our analysis _____ a specific _____ criteria?

What criteria _____ our _____ to uncover _____ system leaks?

_____ there a _____ of _____ to _____ when examining _____ analysis _____ potential _____?

Does there _____ of criteria that should _____ when _____ internal _____ leaks?

_____ we check the internal _____ leaking in our _____?

Is _____ possible _____ internal _____ to _____ see potential _____ in _____ system?

What criteria are _____ to _____ internal _____ for _____?

_____ you have any _____ our analysis of system _____?

Is it _____ that _____ internal analysis _____ be _____ to _____ leaks?

What guidelines _____ we follow _____ internal _____ for _____ leaks?

There should be a _____ criteria followed when _____ potential _____.

_____ are _____ criteria that _____ be _____ to _____ analysis to _____ if _____ are _____.

_____ are _____ that _____ be looked _____ evaluating leaked systems _____ an _____ approach?

_____ be a _____ of criteria that should be followed when _____ analysis _____ potential _____.

_____ there _____ set _____ that should _____ looking _____ internal analysis to see any _____?

Is _____ saying _____ internal analysis _____ looked _____ see potential leaks _____ system?

Is _____ criteria _____ interpret _____ in our system?

What are the _____ analysis _____ detecting _____ leaks?

_____ there a _____ set _____ criteria to follow when _____ at internal analysis _____ have _____?

_____ there _____ set _____ that _____ be _____ when _____ internal _____ to detect leaks in the _____?

Is _____ way to look _____ data _____ detect leaks?

Certain criteria _____ be _____ to evaluate _____ to _____ there is _____.

_____ evaluate our _____ analysis _____ spot potential system breeches?

There should _____ a set of criteria _____ when looking _____ internal analysis _____ there _____.

_____ parameters _____ evaluating _____ internal analysis so _____ can get better insights _____ possible _____ breeches?

_____ we _____ the internal _____ for _____ parts of the system?

_____ guidelines _____ we _____ for reviewing _____ for detecting _____ leaks?

_____ there _____ set of _____ that _____ when _____ internal _____ to _____ if _____ have been leaks?

How can _____ understand _____ leaks _____ internal analysis?

Set _____ to _____ internal analysis for _____?

What _____ should we _____ understand possible leaks _____ our _____?

_____ are certain criteria for _____ internal analysis _____ see _____ leaks.

Is _____ a _____ criteria _____ be followed when _____ internal analysis to _____ leaks?

How can the _____ be _____ in _____ leaking?

_____ can we use to analyze _____ interpret _____ within _____ system?

What criteria _____ to _____ our internal analysis _____ see if _____ leaks?

What _____ we use _____ evaluate our _____ analysis _____ order _____ gain _____ insights into _____ system _____?

What _____ the criteria for _____ analysis to _____ about potential _____?

_____ criteria _____ we _____ look _____ our own _____ to see if _____ leaks?

Is there _____ set of _____ that should _____ followed _____ looking _____ internal _____ _____ _____ _____ leaks?

_____ can we review _____ analysis to _____ leaks.

_____ may be _____ criteria for _____ the internal _____ _____ _____ is leaks.

Is it possible to _____ in our _____ by _____?

_____ it possible _____ specific _____ for _____ internal analysis for _____?

_____ should we do when _____ internal _____ to _____ system _____?

_____ may be _____ criteria _____ evaluating our _____ to _____ if _____ are _____ leaks.

_____ can we review _____ internal _____ in _____ to find _____ within _____?

_____ certain _____ evaluating the _____ to see if _____ are any _____.

_____ are the criteria _____ analysis to _____ system _____?

_____ there _____ set _____ criteria that should be _____ when looking _____ internal _____ to _____ potential _____?

How should _____ at _____ internal analysis _____ potential _____?

_____ can we _____ to find better insights into _____ system _____?

_____ there _____ of criteria that should _____ looking at internal _____ to _____ leaks?

Is it possible _____ set criteria to review _____?

Are _____ give us _____ for _____ possible leaks _____ our system?

Is _____ to _____ the internal analysis to look _____?

Any criteria _____ use _____ our _____ of _____ leaks?

There _____ a set of criteria that _____ followed when _____ analysis _____ leaks _____ system

Do _____ criteria _____ help review our internal _____ leaks?

_____ to use _____ specific set of _____ determine _____ in our _____?

Can you give _____ the criteria _____ analyzing and _____ leaks _____?

_____ are used _____ evaluate _____ analysis to _____ system leaks?

_____ should _____ use _____ analysis of system leaks?

Is there _____ internal analysis for _____ leaks?

_____ guidelines that _____ use when _____ internal analysis _____ system breeches?

_____ you _____ us _____ analyzing and interpreting _____ within our _____?

There may _____ criteria to _____ are _____ in our _____.

Any criteria _____ help evaluate _____ analysis of _____?

How can _____ the _____ our system by reviewing the _____?

_____ there _____ set of criteria to follow when _____ analysis to _____ leaks?

_____ should we use _____ evaluate our internal _____ system leaks?

_____ criteria should we _____ our internal _____ and _____ system breeches?

_____ it possible to review _____ internal _____ to find _____ parts _____?

Is _____ the internal _____ looked _____ to see any leaks?

_____ we follow _____ same _____ when _____ our _____ analysis _____ gain _____ insights _____ likely security breeches?

_____ we follow specific _____ when _____ internal analysis so _____ better _____ likely security breeches _____ system?

Is _____ our _____ to better interpret potential leaks _____ system?

What _____ follow when _____ internal analysis _____ leaks?

Do _____ specific _____ evaluating _____ internal _____ so that _____ can gain _____ into _____ breeches _____ the system proper?

_____ certain _____ internal analysis to _____ if there _____ leaks.

Can _____ at the internal analysis to _____ how the _____?

Are _____ specific criteria that should _____ followed _____ see if there are leaks?

What criteria do _____ to _____ internal analysis to _____ into system _____?

What are _____ for our _____ order _____ out if _____ leaking?

_____ criteria _____ use _____ our internal _____ and see potential system _____?

Is _____ a _____ of _____ examining internal analysis to _____ if there _____ been a leak?

Can _____ review _____ analysis more efficiently to _____ any leaks?

_____ you _____ how to properly review _____ internal _____ to _____ leaks _____ the _____?

_____ can _____ system _____ after reviewing _____ analysis?

What _____ used to better understand _____ analysis?

Do we _____ specific parameters _____ analysis so _____ can gain better _____ into _____ breeches?

Criteria _____ see _____ there _____ leaks in our analysis.

Is there a set of criteria _____ would _____ us _____ in our _____?

_____ me how _____ review our _____ to find any _____ our system?

Is _____ possible _____ better _____ leaks _____ the _____ if we _____ our internal _____?

Are _____ standards _____ evaluate _____ analysis and spot _____?

_____ criteria do _____ use _____ evaluate _____ analysis _____ find _____ more _____ system leaks?

How can we understand system _____ the _____?

There _____ criteria _____ be _____ evaluate our internal _____ to see if _____ are _____.

_____ are certain _____ that should be used _____ evaluating _____ internal analysis to _____ leaks.

In order _____ system _____ how can _____ review the _____?

_____ review our analysis _____ leaks?

Rules for _____ analysis _____ possible _____?

Do guidelines exist _____ help interpretation _____ system _____ analyses?

Certain criteria may _____ used _____ evaluate our _____ to _____ there _____ leaks.

Are we _____ the internal _____ how the system is leaking?

Is there a set _____ followed _____ examining the _____ analysis _____ see if _____ any leaks?

How can we _____ interpret potential _____ in our _____ analysis?

_____ we check the internal analysis _____ the _____ is _____?

Do _____ when evaluating _____ internal analysis so _____ get better insights _____ likely security _____ in _____?

_____ be certain _____ for evaluating _____ analysis _____ if there is a _____.

There _____ be _____ criteria _____ evaluating _____ analysis _____ see if _____ any _____.

Does _____ have _____ set of _____ to _____ analysis _____ leaks?

_____ can we review _____ analysis to _____ leaking _____ system?

Is _____ a _____ criteria _____ should be _____ we _____ our _____ to find leaks?

How _____ review the _____ analysis _____ find _____ within _____ system?

_____ want to find _____ within the _____ we _____ the internal _____?

_____ do we _____ the examination of our _____ analyses _____ are leaks _____ our systems?

What _____ do _____ when _____ internal _____ for leaks?

Do _____ follow _____ evaluating _____ internal analysis _____ as _____ get better insights into _____ security _____?

_____ you have any _____ to _____ our internal analysis _____?

_____ we _____ the _____ analysis _____ order to _____ potential leaking?

_____ any specific _____ at _____ analysis for possible leaks?

_____ can we _____ the _____ analysis in _____ understand _____ system _____ "

There _____ be a _____ set of _____ followed when _____ internal analysis _____ are _____.

_____ specific _____ for analyzing potential system _____?

_____ is a set _____ criteria _____ should _____ followed when reviewing _____ to _____ there _____ leaks

_____ there a specific _____ that _____ look at _____ data _____ potential _____?

There are _____ criteria that may _____ for evaluating _____ see if _____ leaks.

Is _____ a set of _____ be _____ when _____ analysis _____ leaks?

Can you _____ the criteria _____ interpreting _____ possible _____ the system?

_____ criteria _____ we _____ evaluate our _____ gain _____ insights into system leaks?

_____ in interpreting internal _____ of leaks?

Is _____ set _____ criteria that should _____ followed _____ internal _____ to _____?

There should be a _____ of _____ when looking _____ analysis _____ leaks.

There _____ some _____ that can _____ interpreting internal _____ of _____.

What _____ our _____ analysis in order to _____ out _____ is _____ around here?

Can _____ give us _____ possible leaks in our system?

Does it _____ internal _____ be looked _____ to _____ see potential leaks in _____?

_____ we _____ internal analysis _____ order to detect leaking _____ the _____?

Is _____ of criteria _____ be followed when analyzing _____ analysis to _____ leaks have _____?

_____ better interpret potential leaks in _____ system _____ we review our _____?

_____ can be used for evaluating our _____ analysis to _____.

_____ be certain _____ evaluating our _____ see _____ there are leaks.

Is _____ a set of _____ should be _____ reviewing _____ detect leaks?

Do we follow _____ at internal _____ leaks?

Can _____ us _____ criteria for _____ leaks in our _____?

Is _____ criteria for _____ interpreting _____ possible _____ within our _____?

_____ there a specific _____ should _____ when looking at internal analysis _____ see _____ leaks?

_____ there _____ specific _____ we _____ use to determine leaks in _____?

When _____ analysis to see if _____ leaks have _____ be _____ specific _____ of criteria _____.

_____ be _____ to _____ internal _____ to see if there _____ leaking.

We need _____ of criteria to _____ our internal _____.

_____ a _____ of criteria _____ be followed when _____ at internal _____ to find _____ if there _____?

Is there _____ set _____ that should _____ followed _____ analysis _____ see if there are any _____?

_____ are certain _____ may _____ to evaluate our _____ if _____ are _____ leaks.

_____ that _____ that the internal analysis _____ be _____ at _____ see _____ are leaks _____ system?

_____ do when looking _____ internal analysis for _____ system _____?

What _____ rules for our inside analysis _____ order _____ see _____ is _____?

What _____ can _____ find leaked _____ from our _____ reports?

_____ are used _____ internal analysis to _____ insight into _____ system leaks?

_____ criteria that _____ aid _____ interpreting internal _____ leaks.

_____ there standards _____ and spot leaks?

Criteria _____ better understand _____ analysis.

Can you _____ guidance on _____ to _____ efficiently to _____ any leaks?

Can _____ criteria _____ used _____ review our _____ system leaks?

Is it _____ specific guidelines _____ reviewing internal _____ for _____?

_____ review our _____ analysis in order to better _____ in _____?

_____ the review _____ internal _____ for _____ leaks follow any _____?

_____ are the rules for _____ inside analysis _____ something is leaking?

_____ that mean _____ internal _____ should be _____ at _____ leaks in _____ system?

Set _____ to _____ our _____ analysis _____ system _____.

There _____ a set of _____ followed when _____ into internal analysis to _____ the _____.

How _____ the _____ analysis to _____ the system _____?

If there _____ leak in _____ may be _____ to evaluate our _____.

_____ look _____ our analyses to _____ if there are any leaks in _____ systems?

Can _____ give us _____ for analyzing _____ possible _____ our system?

_____ there _____ specific _____ we _____ look _____ to detect potential leaks?

_____ used to evaluate our _____ analysis to _____ if there _____ a _____.

What are the _____ evaluating the _____ analysis _____ potential _____?

_____ criteria should we _____ for _____ analysis _____ spotting _____ breeches?

There are _____ evaluating our internal analysis in _____ see if _____.

_____ a _____ criteria _____ should be followed when _____ internal _____ leaks in _____ system?

What _____ do _____ use when we look at _____ analyses _____ see if there _____ in _____?

Should _____ our internal _____ better understand _____ leaks _____ the _____?

Is _____ a _____ criteria that _____ be followed _____ reviewing _____ analysis _____ detect _____?

Some _____ may _____ needed for _____ to see if there _____ any _____.

_____ we _____ a look at the internal _____ is leaking?

Is _____ set _____ criteria that _____ be _____ when looking at our _____ find _____.

What criteria should _____ evaluate our _____ and see _____ breeches?

_____ a set _____ criteria that must _____ when looking _____ internal analysis _____ see _____ leaks?

Do _____ different parameters when evaluating _____ internal _____ to _____ into _____ breeches?

_____ be a _____ criteria to follow _____ reviewing internal _____ to _____.

_____ any standards to _____ and spot leaks?

Does there _____ criteria _____ should _____ followed when _____ internal analysis _____ regards to _____?

What criteria _____ we _____ look _____ see if _____ are leaks _____ our systems?

_____ follow specific _____ when evaluating _____ internal analysis _____ better insight _____ breeches within the system?

There should be _____ criteria _____ if there are leaks _____ analysis.

How _____ we _____ internal _____ for leaks _____ system?

Do _____ evaluating our internal _____ so we can get better insights _____ security _____ system?

What _____ to _____ analysis to _____ better insight into potential _____ leaks?

What _____ do we _____ look at our analyses to _____ if _____ are leaks _____?

Is there a _____ criteria _____ it possible for _____ to _____ leaks.

_____ to gain better insights _____ security breeches _____ the system _____ do we follow _____ evaluating _____ internal _____?

What _____ should _____ use to evaluate our _____ more about _____ system _____?

Do _____ follow _____ parameters _____ evaluating _____ internal _____ so _____ to _____ likely _____ breeches within the system _____?

Is it _____ review _____ internal analysis to _____ in our _____?

_____ there a _____ criteria _____ to follow when analyzing stat _____ spot possible _____?

_____ set of criteria should _____ internal _____ to _____ leaks.

_____ assess _____ potential system _____ are _____ specific guidelines we use?

_____ there a set _____ to _____ leaks in _____ system?

_____ are certain criteria for evaluating our _____ to _____ if there _____ any _____

_____ explore _____ internal analysis to find _____ is leaking?

_____ are _____ that _____ be used to _____ the _____ analysis to _____ if there are _____.

What factors _____ we _____ look at _____ evaluate leaked systems _____ approach?

_____ there a _____ to better _____ potential leaks in _____ internal _____?

_____ that should be followed when reviewing _____ analysis to identify _____ in the _____?

_____ used to evaluate our internal analysis to gain _____?

_____ criteria should _____ followed _____ analyzing the system _____?

_____ our _____ analysis to see if _____ leaks, there should _____ a _____ of _____.

Is it _____ use _____ guidelines _____ assess _____ for potential _____ breeches?

_____ it possible to gain _____ likely security breeches within the system _____ when _____ analysis?

What _____ do _____ evaluate our internal analysis to _____ potential _____?

_____ should we evaluate _____ systems _____ an _____ approach?

What criteria are _____ to _____ our internal _____ gain _____ system leaks?

When examining internal analysis _____ there _____ any _____ there should be _____ set of _____.

_____ any _____ standard to assess _____ analysis and _____?

How _____ internal analysis in order to find _____ within _____?

_____ can _____ use _____ evaluate _____ internal analysis _____ see potential _____ breeches?

Do we _____ when _____ our _____ analysis so as _____ better _____ into likely _____ breeches?

Is _____ any specific _____ we _____ to _____ internal _____ for _____ breeches?

What _____ used to _____ our internal _____ to _____ potential _____.

_____ there a _____ we _____ at internal data _____ detect _____?

There are _____ assessing our internal _____ to _____ there are _____.

What _____ the _____ our _____ analysis to gain _____ into potential _____ leaks?

_____ a set of criteria _____ would make _____ feasible _____ our analysis?

_____ us _____ on how _____ our _____ analysis to see any leaks?

How can we review _____ order _____ the system _____?

Do you have _____ reviewing our _____ data _____ to _____ those system _____?

_____ to evaluate our internal _____ spotting potential system breeches?

_____ set _____ for reviewing internal _____ to _____ potential leaks?

Some _____ be used to _____ to see _____ are leaks.

There _____ set _____ be followed when looking _____ our internal analysis to _____ are leaks.

_____ give us _____ for _____ and _____ potential leaks _____ system?

Is _____ a _____ of criteria _____ be _____ analysis _____ detect leaks?

There may _____ criteria for _____ to see _____ there is _____.

Certain criteria may _____ to _____ our internal _____ are _____.

What guidelines _____ follow for _____ analysis to _____ system _____?

Do _____ have _____ criteria to help _____ system leaks?

Is _____ any _____ for reviewing _____ for _____ leaks?

_____ be criteria _____ in interpreting internal _____ of _____?

_____ there _____ criteria to review _____ internal analysis for _____?

_____ is _____ to _____ our internal _____ to get _____ into system _____?

What criteria _____ in our own analyses to _____ if _____ a leak _____ systems?

_____ can _____ check the _____ analysis _____ order to _____ potential _____?

_____ criteria exist for interpreting _____ leaks in _____?

Any _____ to help _____ system leaks?

Is there a set _____ criteria _____ should be _____ when looking _____?

_____ looking at internal analysis _____ system leaks, what _____ should _____?

Do you _____ criteria for analyzing and _____ any _____ within _____?

Is _____ possible to better _____ internal _____ detect _____?

_____ should be _____ set _____ criteria to _____ looking _____ internal analysis _____ detect _____.
