

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	New service connection requests
Inquiry Sub-Category	Alternative energy options
Description	Customers express interest in exploring alternative energy options, such as solar or wind power, and seek information on the feasibility, benefits, and processes involved in connecting these sources to the electricity grid.
Data Size	5,094 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ any restrictions _____ size, _____ location _____ renewable installations connected _____ electrical infrastructure?

Any rules _____ installation _____ or green _____ connected to _____?

_____ there _____ the size, type, and location of renewable _____ electrical _____?

_____ there _____ about the size, type, _____ location _____ renewables _____ grid?

Are there any _____ on _____ size, _____ installations located _____ the electrical infrastructure?

Is _____ constraints relating to size, type _____ connecting renewable _____ electrical _____?

Can _____ tell me _____ are _____ on _____ variety, or _____ of renewable _____ connected _____ the electrical grid?

Size _____ and technical _____ connections _____ facilities and your electrical _____.

Can there be restrictions on the size, _____?

When _____ comes to _____ dimensions, mode or _____ sustainable _____ connecting _____ your _____ enforce specific guidelines?

Limitations _____ scale _____ allowed for _____ energy setup?

Are _____ any limitations on the _____ or size _____ installations _____ be _____ to _____ electrical _____?

_____ restrictions on the type of _____ on the _____?

Is _____ the _____ of _____ energy _____ that can be _____ to your _____ infrastructure?

_____ are _____ size limits _____ technical _____ connections _____ and electrical setup?

_____ the _____ on _____ placement of renewable _____ connected _____ electricity network?

Are there any criteria _____ where and _____ of renewable _____ your electrical _____?

What are the restrictions on _____ renewable installations connected _____ electricity _____?

Any _____ pertaining _____ type, or _____ to your electrical grid should be _____.

_____ you have any restrictions _____ the location of renewable _____?

_____ are the _____ location of renewable _____ tied _____ the _____?

_____ any _____ or size of renewable energy installations _____ linked to _____ electrical infrastructure?

_____ your power system's _____ points have limits _____ renewable _____?

Can _____ if _____ are _____ limitations on _____ dimensions, variety, _____ placement _____ renewable _____?

_____ there _____ the _____ and _____ of renewable _____ within your _____ system's connection _____?

Do _____ infrastructure has size limitations _____ renewable installations?

_____ there limits _____ types, _____ for connecting renewables _____ your _____ infrastructure?

Are _____ any _____ on _____ renewable energy installations _____ can _____?

____ there ____ constraints on the size, type or ____ of connecting ____ ____ ____ ____ ____ ?
 ____ ____ ____ ____ if ____ are limitations on the dimensions, variety, or placement of renewable ____ connected ____ ____ ____ ____ ?
 Do ____ any ____ on ____ type, ____ ____ ____ connecting renewable ____ systems to ____ electrical network?
 Do ____ know the ____ kind, ____ position of the ____ ____ ____ that can be ____ ____ your ____ ____ ?
 ____ any ____ size, type, ____ location of ____ installations ____ in your electrical ____ ?
 ____ limitations on ____ type, or siting of ____ installations integrated ____ your ____ are required ____ ____ ____ .
 ____ guidelines for the size, ____ location ____ renewables in the ____ ____ ?
 ____ me about any ____ ____ ____ ____ or ____ for connecting renewable installations to the grid?
 Were ____ ____ ____ pertaining ____ ____ ____ location for connecting ____ installations to the ____ grid?
 ____ there any requirement ____ the size, ____ position ____ energy systems that can ____ ____ to ____ ____ network?
 Does your ____ infrastructure ____ the ____ type ____ ____ of the renewable ____ ____ ?
 ____ the limitations on the placement ____ renewable ____ installations ____ ____ ____ connected ____ your electrical ____ ?
 ____ what kind ____ Renewable Energy ____ ____ connected ____ your ____ setup?
 Can you please tell me ____ ____ ____ ____ to size, ____ location ____ connecting renewable ____ to ____ ____ grid?
 ____ on ____ type ____ ____ of renewable ____ integrated with ____ ____ ____ to be clarified.
 Are size, ____ or ____ of ____ energy systems relevant ____ ____ ____ ?
 ____ have ____ on ____ connecting renewable ____ ____ to your electrical network?
 Specific limitations ____ type, and ____ renewable installations integrated ____ your ____ ____
 Is there any regulations limiting ____ size and ____ ____ ____ ____ ____ network?
 ____ there any ____ the ____ ____ site selection ____ renewable projects ____ to the ____ infrastructure?
 ____ there ____ the size, type, ____ location for connecting ____ ____ ____ your ____ grid?
 ____ be limitations on ____ size ____ ____ green energy installations?
 What are ____ size and ____ installations connected ____ your electricity ____ ?
 ____ there ____ location or ____ restrictions on ____ installs?
 Please ____ me ____ there ____ any constraints regarding ____ type, ____ ____ connecting renewable installations ____ your ____ grid.
 Any ____ type or location ____ ____ ____ ?
 Is ____ ____ on the size, ____ type or ____ of ____ installation ____ ____ electrical ____ ?
 Is ____ any ____ on the size, type, ____ location ____ connecting ____ ____ to ____ ____ ?
 ____ there any guidelines regarding ____ type, and ____ of ____ ____ your ____ grid?
 Specific limitations on dimensions, ____ or siting ____ renewable ____ integrated ____ ____ ____ ____ to be ____ .
 ____ dimensions, ____ siting of renewable installations ____ your electrical ____ ____ something you need to ____ .
 ____ renewable installation ____ type, ____ ____ restricted?
 What ____ size limits ____ renewable ____ ____ their electrical connections?
 Is there limitations ____ type and placement ____ ____ in ____ infrastructure?
 ____ you have any guidelines for the size, ____ ____ ____ of ____ energy ____ ____ ?
 To ____ specific ____ on dimensions, type, or siting of ____ ____ ____ ____ infrastructure.
 You ____ any rules ____ how big ____ ____ ____ can slap my ____ power ____ ____ ____ grid.
 Is your ____ ____ ____ size, type, ____ ____ of renewables?
 ____ size, ____ type ____ renewable ____ in your system?
 Are there any ____ regarding the ____ ____ and ____ of renewable energy systems ____ ____ be ____ ____ ____ network?
 ____ there ____ on the ____ or type of the ____ in ____ ____ ?
 ____ on ____ and places ____ ____ renewables to your electricity ____
 ____ your electrical ____ impose ____ the ____ type ____ location of renewable ____ ?
 ____ there any ____ on ____ size, ____ ____ ____ of renewable installations located ____ ____ ____ infrastructure?
 Limit ____ size, ____ location ____ renewable energy ____ ____ system?
 Are ____ ____ on ____ size, type, and ____ of renewable ____ ____ ____ energy grid?
 ____ have ____ ____ the dimensions, variety, ____ placement of ____ ____ connected to the ____ grid?
 ____ you have limits on the ____ and ____ ____ ____ energy ____ ____ power ____ ?
 ____ limits on ____ size of renewable ____ ____ your ____ ____ ?

_____ installation _____ energy sources connected _____ the grid?
 _____ the _____ installations size, _____ or _____?
 Is _____ any _____ pertaining _____ size, _____ or location for _____ renewable installations _____?
 What _____ the rules _____ the _____ that _____ tied to the _____ grid?
 Is _____ any _____ pertaining to _____ size _____ renewable installations to _____ electrical _____?
 _____ restriction on the size, type, and _____ of _____ located within _____ of _____ company?
 _____ limits on _____ type _____ of renewable installations _____ electrical infrastructure should _____.
 _____ there _____ on the size _____ renewable _____ in your _____?
 Can _____ be restrictions on _____ type and location _____?
 _____ you have _____ on where _____ located within your _____ system's _____?
 _____ tell _____ my electrical _____ has _____ type, or placement _____ renewable plants?
 Does _____ power _____ connection points _____ on _____ and _____ of _____?
 _____ would _____ if _____ any _____ to size, type, _____ location for connecting _____ installations _____ the electrical grid.
 Are _____ limitations _____ the _____ location of renewable installations _____ electrical infrastructure?
 Any _____ type, location _____ on _____?
 _____ restrictions applicable _____ type, _____ site _____ of renewable _____ to your electric infrastructure?
 Are _____ restrictions on _____ size, kind, or position _____ the _____ systems _____ be _____ your _____ network?
 _____ you _____ any restrictions on the _____ renewable installations?
 _____ on _____ location or type _____ renewable _____ for the electrical _____?
 _____ possible that there are _____ on the _____ or placement _____ to _____ electrical grid?
 Are _____ on the size, location _____ type _____ renewable _____ on the _____?
 _____ and _____ renewable _____ connected to your _____ setup is up _____ discussion.
 _____ on sizes, _____ and _____ energy to _____ power grid?
 Limitations _____ scale/types allowed _____ setup?
 _____ it possible to _____ renewable systems _____ system _____ being restricted in _____ or location?
 _____ it possible to _____ size, type, _____ installations _____ within your electrical _____?
 _____ there any limitations on _____ of _____ installations?
 Can you tell _____ there _____ regulations limiting _____ locations _____ integrated with your energy _____?
 Do _____ have _____ sizes, _____ and _____ for connecting _____ to _____ electricity _____?
 Specific _____ on dimensions, type, _____ siting _____ installations _____ with your _____ things you should _____.
 Is _____ a _____ on the size, type, or _____?
 Are _____ rules regarding _____ sizes _____ types _____ energy sources?
 There _____ a restriction _____ type _____ renewables _____ to _____ system.
 _____ there _____ restrictions _____ placement of _____ energy _____ that can be _____ your electrical _____?
 Any _____ about _____ of green _____ sources _____ to your _____?
 Rules _____ installation sizes _____ sources _____ to your grid?
 Is there _____ that limit the _____ location _____ renewable energy _____ with _____?
 _____ electrical _____ limit Renewables' size, type _____?
 _____ the size, type or location of _____ renewable _____ sources?
 Do you _____ constraints on size, type _____ location _____ power _____?
 _____ there _____ restrictions _____ where _____ installations _____ be _____ your electrical infrastructure?
 _____ restrictions applicable to the size, _____ site _____ projects linked to _____ electric _____?
 _____ there any _____ on the _____ of renewable _____ your electrical _____?
 _____ you have _____ size, _____ and _____ for connecting renewable power _____ your _____?
 _____ any _____ on the size and _____ renewable _____ connected _____ your _____ network?
 _____ renewable _____ have a size, _____ restriction?
 Is _____ electrical infrastructure _____ by _____ type and _____ plants?
 _____ know if there _____ to the _____ or _____ of renewable _____ connected to _____ electrical _____?
 Specific limitations _____ dimensions, type, and _____ of _____ installations _____ your electrical infrastructure _____.
 Are there any limitations _____ the _____ energy installations _____ can _____ linked _____ electrical _____?

_____ are the rules regarding _____ location _____ that _____ tied _____ the power _____?
 _____ you have limits on where _____ located within _____?
 _____ any _____ limiting sizes or locations for _____ integrated with _____?
 Do _____ have limits _____ the _____ location of _____?
 _____ power system's _____ impose limits _____ the size _____ location of _____?
 What _____ restrictions on _____ size of the _____ that are connected _____?
 Is there _____ restrictions on _____ sources _____ into _____?
 _____ possible to _____ any _____ sizes/types/locations _____ integrated with your energy _____?
 Are there _____ on size, _____ of renewable _____ to _____ infrastructure?
 _____ any _____ on where renewable _____ can be found _____ infrastructure?
 Is _____ on the size, _____ or _____ your _____ connecting renewable power systems?
 _____ there any _____ on the _____ of _____ energy systems that _____ connected to _____ electricity network?
 _____ there _____ constraints regarding _____ location for connecting renewable installations _____ electrical _____?
 Your electric system _____ have _____ on _____.
 Are _____ limitations _____ size _____ type of _____ installations that _____ be _____ to the _____ infrastructure?
 _____ the _____ size, type or _____?
 _____ are the rules _____ the placement _____ your power _____?
 Is _____ on the size _____ within _____ power system's connection _____?
 _____ there _____ on the _____ variety, or _____ of _____ installations _____ to _____ grid?
 Limits _____ sizes, types and _____ for _____ to _____ infrastructure?
 _____ rules governing _____ or position of renewable energy _____ that _____ be used _____ your electricity _____?
 _____ the restrictions _____ size and placement of _____ installations _____ connected _____ the _____?
 Do there _____ on _____ type of renewable _____ for your _____?
 Do you _____ any _____ on _____ type or location _____ power _____?
 Is _____ a limit _____ type _____ energy _____ that _____ linked to your _____ infrastructure?
 Is there any _____ the size, type, or location _____ connecting _____?
 Are there any _____ for _____ or _____ of _____ sources _____ your _____ grid?
 _____ could be limitations _____ and style _____ green _____ installations.
 Do you _____ limits _____ the _____ and _____ renewables within your power _____?
 _____ you tell _____ if _____ dimensions, variety, and placement _____ renewable installations?
 Can you _____ limitations _____ location or _____ of _____ installations?
 Size, type, _____ of green energy _____ to _____ grid?
 _____ there any restrictions _____ location, type, or _____ of _____ installation _____ the _____?
 _____ sizes, types, and locations for connecting _____ renewables?
 _____ anyone know _____ are limitations on the _____ placement of _____ installations _____ the electrical _____?
 Do your power _____ points _____ on _____ size and _____ of _____?
 _____ on _____ types, _____ locations _____ renewable energy _____ electricity infrastructure.
 There are _____ limitations on _____ and type of _____ for _____.
 Can you _____ there are _____ on the _____ variety, _____ the _____ installations?
 Is there _____ the _____ or location of renewable _____ your _____?
 Are the size, type, _____ of green _____ relevant _____?
 _____ are the restrictions _____ of renewable installations that _____ network?
 Do _____ specific guidelines _____ the dimensions, mode, _____ utilities _____ to your grid structure?
 Are there limitations _____ renewable plants _____ your electrical infrastructure?
 Do _____ have _____ the _____ and location _____ renewables _____ your _____ system?
 Is _____ any _____ size, type, _____ site _____ for _____ projects _____ to your _____?
 Specific _____ on _____ and siting of renewable _____ electrical infrastructure _____ clarified.
 _____ a _____ on the size, location _____ type of _____ on _____ electrical _____?
 _____ tell me if _____ on _____ dimensions, variety, or _____ of renewable installations connected to _____?
 _____ size, _____ location _____ on _____ installation?

____ renewable installation ____ type ____ ____ restricted?
 ____ on the ____ and types ____ ____ green ____ setup?
 ____ tell me ____ regulations that limit the sizes ____ locations of renewables ____ with ____ ____ ?
 Where ____ what ____ renewable energy can ____ ____ your ____ setup?
 Are there limits ____ ____ placement of renewable plants ____ your ____ ?
 Any limits on ____ on ____ ?
 Are ____ ____ regarding the size, type, and ____ of ____ your ____ ?
 Limits ____ ____ locations ____ connecting renewable ____ electricity infrastructure?
 What ____ ____ applicable to the ____ or ____ selection ____ renewable projects ____ to your ____ ?
 Are there any ____ on ____ size, ____ or ____ of ____ energy ____ can be connected ____ your ____ ?
 ____ the ____ and technical aspects ____ the ____ between ____ facilities ____ your ____ setup?
 Specific limitations ____ types ____ of ____ installations ____ your electrical ____ should ____ clarified.
 Is ____ any ____ to ____ or ____ installations for your electrical ____ ?
 Is there a restriction ____ ____ type, and ____ of ____ installations ____ electrical ____ ?
 Do you ____ limits ____ the size and location ____ ____ system?
 Any ____ on ____ type, and ____ renewable installations?
 ____ the rules ____ of renewable installations ____ the power ____ .
 Is there any constraints ____ ____ location ____ renewable installations ____ the electrical ____ ?
 I ____ like ____ know ____ restrict renewables ____ type, ____ location.
 Specific ____ on ____ types, and ____ installations ____ with your ____ be clarified.
 ____ restrictions ____ type, and ____ of renewable installations located ____ electrical ____ ?
 Rules ____ installation ____ green ____ sources connected ____ grid?
 ____ are the limits ____ structures on the ____ ?
 ____ limits ____ size of ____ connections between renewable ____ and your ____ ?
 Are there any ____ on size, ____ location of ____ to ____ electrical ____ ?
 ____ limitations on the dimensions, ____ or placement ____ connected to ____ grid?
 ____ want ____ know if ____ are ____ sizes ____ locations for renewables ____ with your energy ____ .
 If there ____ dimensions, variety, ____ placement ____ renewable installations connected ____ electrical ____ can
 you ____ advise?
 Are there any ____ and ____ of renewable installations ____ jurisdiction of ____ electrical system?
 ____ you ____ me if ____ limitations ____ variety, size, and placement of renewable installations ____ to ____ ?
 ____ sizes ____ locations for ____ renewable to ____ infrastructure?
 ____ you ____ me about ____ that ____ the size or ____ renewable energy integrated with ____ ?
 ____ you ____ if ____ are any restrictions ____ your system?
 ____ way to provide guidance ____ type, ____ site ____ of ____ linked to your electric infrastructure?
 Is ____ limitations ____ or ____ of renewable ____ connected to ____ electrical grid?
 Is there any ____ about the ____ green ____ connected ____ grid?
 Are ____ any rules regarding the size, ____ position ____ energy ____ that can be ____ network?
 ____ regarding ____ size of the ____ sources connected to ____ ?
 Do ____ any ____ the ____ renewable energy ____ can ____ linked ____ your electrical infrastructure?
 ____ do ____ have ____ placement ____ installations connected to your ____ network?
 Any ____ regarding installation ____ for ____ energy ____ to ____ grid?
 ____ any guidelines regarding ____ size, ____ and location ____ renewable ____ your ____ ?
 Is it ____ that ____ has ____ on ____ installations?
 ____ your electrical infrastructure have ____ in ____ or ____ of ____ plants?
 Are ____ any limitations ____ the placement of ____ energy ____ to ____ electrical infrastructure?
 Do you have a restriction ____ of ____ to ____ system?
 Are ____ on the ____ location of renewable installations?
 ____ there ____ governing the ____ kind, ____ renewable energy systems that ____ connected to ____ electricity ____ ?
 ____ on ____ types, and locations for ____ renewables ____ .
 Are there ____ restrictions ____ size, kind, ____ of renewable energy systems ____ you ____ with ____ network?

Do ____ have any ____ renewable energy installations ____ be linked ____ your electrical infrastructure?

There are any restrictions ____ the size, type, ____?

Does ____ electrical ____ limits on renewables' ____ type, ____?

____ renewable ____ be connected ____ system without being ____ in size, ____ location?

____ you have any limits ____ in ____ grid?

Can you tell ____ any ____ pertaining to ____ type, ____ location ____ to your electrical ____?

____ there a ____ on ____ size of Renewable Installation ____ the ____?

____ any ____ on the size, type ____ placement of ____?

____ you ____ limits on ____ sources in ____ power system's ____ points?

Do ____ on size, ____ or ____ to ____ power systems to your ____?

____ have ____ limitations on location ____ of renewable ____?

____ any limitations ____ size, ____ and ____ of ____ installations within your electrical ____?

Will ____ any limits ____ stuff on your ____?

____ you have ____ the ____ and location ____ renewables within your ____?

____ the ____ or size of ____ installations that are ____ to your ____ infrastructure?

____ you ____ mode, or position ____ connecting to your grid structure?

____ any ____ sizes ____ renewables ____ with your energy network?

Any ____ type ____ location restrictions ____?

____ type and size ____ renewable ____ in your ____?

What are ____ limits on the ____ installations ____ to ____ electricity ____?

Is there any ____ size or ____ of ____ integrated with your ____?

____ you ____ any guidelines regarding ____ type, ____ location ____ energy?

Does ____ electrical ____ limit ____ renewable sources?

Does the ____ limit the size, type or ____?

What are ____ size ____ and ____ aspects ____ connections ____ facilities ____ electrical setup.

____ on the ____ of renewable energy that can be connected ____?

Are ____ energy ____ grid ____ on ____ type and location?

____ any restrictions ____ the size, ____ and ____ renewable installations?

____ sizes, types, ____ connecting ____ sources to ____ power grid?

Do you have ____ or location ____ connect ____ power ____ with your electrical ____?

____ size, type, location ____ installs?

Are ____ the ____ kind ____ position ____ renewable energy ____ that can be connected ____ electricity network?

____ there a ____ the location ____ renewable ____ your electrical ____?

____ have restrictions ____ size, type, ____ location ____ connecting ____ power systems with ____?

____ you ____ on ____ of renewable installations?

Is ____ possible ____ regulations limiting the sizes or locations of renewables ____?

____ there ____ limit on ____ type, or placement ____ in ____ electrical ____?

Are there ____ limitations on ____ type or ____ energy ____?

____ there any restrictions ____ the size, ____ site ____ renewable ____ linked ____ your ____?

Are there ____ limits on ____ size, ____ location ____ renewable installations ____ the ____?

What are ____ rules ____ location ____ renewable installations ____ your ____?

There are ____ regarding the ____ type, ____ type of ____ electrical infrastructure.

Does ____ electrical infrastructure limit ____ size, ____ type ____ sources?

____ there ____ the ____ type, or ____ of ____ in ____ energy grid?

____ there any constraints ____ size ____ type ____ connecting ____ systems to your ____?

What restrictions ____ the size ____ of ____ connected to ____ network?

Is ____ criteria ____ where ____ what kind ____ renewable ____ can ____ in your electrical ____?

Are there any restrictions on ____ size, type, ____ renewable installations located ____ your ____.

____ any rules ____ installation ____ and green energy ____?

____ you ____ me about ____ regulations that limit the ____ locations ____ integrated ____ network?

Is _____ criteria that _____ where _____ energy _____ be used _____ electrical _____?

_____ are _____ limits on the _____ connections _____ renewable _____ and _____ setup?

_____ you _____ guidelines _____ the size, _____ location of renewables in _____?

_____ be any _____ size, _____ or position of renewable energy _____ that _____ be connected _____ network?

Is there _____ guidance regarding the size, type, _____ of renewable _____ that _____ to _____?

Does _____ electrical _____ limit _____ renewables?

Are _____ restrictions on _____ location _____ installations for _____ infrastructure?

_____ there any _____ location, type, or type of renewable installation _____?

Do _____ constraints on size, type, _____ locations _____ your electrical network?

Are _____ any _____ the size, type, _____ placement of _____?

_____ limitations on dimensions, type and _____ renewable installations integrated _____ your _____

_____ electrical infrastructures _____ renewable installations?

_____ are _____ size limits for the connections _____ electrical _____ facilities?

Can _____ tell me _____ there are any _____ the sizes _____ integrated _____ energy _____?

Does your _____ have _____ and type _____ renewables?

_____ limitations _____ type, and siting _____ renewable installations integrated _____ your _____ should _____ clarified.

_____ your _____ on the size _____ renewable sources?

_____ limitations _____ dimensions, _____ renewable installations integrated with _____ electrical infrastructure

_____ regulations limiting the _____ and locations _____ energy?

_____ about _____ of _____ installations _____ to your electricity network?

_____ any restrictions _____ the _____ type, _____ of _____ connected to _____ electrical infrastructure?

_____ you _____ that limit the _____ and locations _____ renewables integrated with _____ network?

_____ have any constraints _____ location of your renewable _____ system?

Is the _____ infrastructure limited _____ type, or _____ plants?

Limits _____ sizes, types and _____ connecting _____ the electricity _____?

Are there any restrictions _____ the size, _____ systems that can _____ to _____ electricity network?

There may be _____ on _____ of _____ installations _____ system.

Is there a _____ size or _____ of _____ installations _____ can be linked _____ electrical _____?

_____ are _____ of renewable _____ on your electricity network?

Is _____ on what kind _____ be _____ your electrical setup?

Can there _____ on the _____ of _____ Installation _____ the _____ infrastructure?

_____ on size, location and _____ in your _____?

_____ know if _____ are any rules governing the size, _____ or _____?

_____ are any _____ restrictions on renewable installs?

_____ type, _____ and location restricted?

Is _____ restriction on the size, _____ of _____ Installation _____ the electrical _____?

Specific _____ on _____ type, or siting of renewable _____ be clarified

_____ limitations _____ dimensions, _____ or siting _____ installations integrated with your _____ infrastructure _____ clarified.

Can you tell me if there are _____ pertaining _____ type, _____ installations _____ electrical grid?

_____ there _____ limits _____ the placement _____ can be linked _____ your electrical infrastructure?

_____ it possible _____ regulations limiting _____ of _____ energy?

_____ the regulations limiting _____ sizes and locations _____ renewables _____ with _____ network?

Are _____ any limitations on size, type _____ of _____ infrastructure?

_____ there any guidelines regarding the _____ type, _____ energy in _____?

_____ you _____ me if _____ are any _____ limit _____ sizes of _____ integrated with your _____?

Is there _____ rule regarding installation sizes for _____ sources _____?

There may _____ restrictions _____ type of _____ energy _____ to _____.

_____ your _____ infrastructure _____ to size, type, _____ placement of _____ plants?

_____ electrical infrastructure have _____ on the _____ location _____ energy?

_____ any restriction _____ size, type, _____ location _____ renewable _____ located within _____ electrical _____?

Is there any _____ type, _____ for connecting renewable _____ electrical network?

The size, type, _____ to _____ electric _____ could be subject to restrictions.

Are there any restrictions on _____ placement _____ connected _____ your electricity _____?

Are there any restrictions _____ the _____ and _____ located _____ the jurisdiction of _____ company?

Limits _____ for connecting renewables _____ your electricity infrastructure?

_____ points have _____ on the size _____ location _____ renewable energy?

Do _____ a restriction _____ types _____ renewable energy added to _____?

Is there a _____ on _____ added _____ system?

_____ tell me _____ that limit _____ sizes _____ locations of renewables integrated _____ your _____?

_____ there _____ limitations on the _____ plants _____ your electrical _____?

Is there _____ restriction _____ location or _____ of _____ for your _____?

Does your electrical infrastructure _____ related to _____ type or _____?

Are _____ regarding the size, kind, and position _____?

Are _____ restrictions _____ the size, location, _____ Installation on the _____ infrastructure?

_____ limitations on dimensions, _____ and _____ of _____ integrated with your electrical _____ are _____ you _____.

_____ there _____ size, kind and position _____ renewable energy systems that can be _____ network?

_____ you have any _____ on size, type, _____ power _____ your electrical network?

Specific _____ dimensions, _____ of _____ integrated _____ your electrical infrastructure should be _____ clear.

_____ size, _____ locations for connecting renewable to _____?

Is _____ constraints on _____ location _____ energy _____?

_____ have limits on _____ and location of the renewables _____ system's _____?

Do your _____ points _____ on size _____ of renewables?

Do _____ specific _____ for the _____ and _____ utilities connecting to the _____?

_____ you _____ limits on _____ type _____ that can be located _____ system's connection points?

Do _____ system's connection points _____ and type of renewable _____?

Can _____ tell me _____ are _____ limiting the size or location _____ the _____?

Any restrictions _____ to the _____ or _____ selection for _____ projects linked _____?

Is _____ size, _____ or _____ green energy _____ relevant _____ my _____?

Does your _____ or location of Renewables?

_____ are _____ limits _____ renewable _____ your grid?

_____ installations _____ type, _____ location may _____.

Specific limitations on _____ renewable installations _____ with your _____ infrastructure need to _____.

Are _____ any limitations _____ the _____ placement _____ connected to the electrical _____?

_____ are the _____ for _____ size _____ installations that _____ tied to the _____?

Do you _____ limits _____ the size _____ location _____ your _____ system's _____ points?

_____ size, location or _____ restriction _____?

Are _____ any _____ on _____ type, and location of _____ within _____ infrastructure?

_____ you _____ size, type or _____ connecting renewable _____ systems with your _____?

Do there any _____ on _____ and _____ renewable installations?

Are _____ limitations _____ the type or _____ of renewable _____ installations _____ can be _____ electrical _____?

Any constraints _____ or location for connecting _____ your _____ grid _____ appreciated.

Limits _____ types, and _____ renewables to _____ electricity infrastructure?

Is there _____ of green energy installations?

_____ there _____ relating _____ type, _____ for renewable projects linked to your electric infrastructure?

_____ there _____ restrictions _____ the size, _____ of _____ located within _____ electrical infrastructure?

_____ on dimensions, type _____ siting _____ installations _____ with your _____ infrastructure should be _____ you.

Can _____ tell me if there _____ regulations limiting _____ types of renewables integrated _____?

_____ have a _____ type of _____ added to your _____?

_____ there restrictions on _____ size, _____ and _____ selection for renewable _____ electric _____?

_____ size, kind, _____ position of _____ systems _____ connected with your _____?

_____ have any _____ on the _____ or type _____ renewable _____?
 _____ renewable installations _____ in _____ or _____?
 _____ size, _____ location _____ for _____ installations?
 Is _____ size, _____ or _____ for _____ projects linked to your _____ infrastructure?
 Is _____ any _____ limiting the _____ renewables _____ with your _____?
 Can _____ tell me _____ limiting _____ or location _____ renewable energy?
 _____ you have any rules _____ types _____ energy sources?
 Is there _____ restrictions on _____ or _____ Renewable Installation on _____?
 Can you _____ me _____ there are regulations _____ renewable _____?
 _____ there _____ limitations _____ the dimensions, variety, or placement _____ renewable _____ electrical grid, _____ tell _____.
 What are _____ rules regarding the size, _____ or _____ of _____ that can _____ to your _____?
 I _____ know if there _____ any _____ dimensions, variety _____ of renewable installations _____ to _____ grid.
 _____ any _____ position of _____ energy systems that can be _____ to the electricity network?
 _____ there any _____ to _____ size of renewable _____ in _____?
 Are _____ limitations _____ size, kind, or position of renewable energy _____ can be _____ with _____?
 _____ there any limits _____ type _____ location _____ renewables?
 _____ guidelines _____ you have for _____ type, and location of _____ in _____?
 _____ you _____ specific guidelines _____ the _____ mode, or _____ of _____ connecting to the _____?
 _____ guidelines for _____ size, type and _____ of _____ in your _____?
 _____ restrictions on _____ size, kind, and position of _____ energy _____ be _____ with your electricity _____?
 Do _____ know if _____ are _____ size, type, or _____ renewable _____?
 I want _____ if there are any _____ limiting sizes _____ integrated _____ your _____ network.
 _____ a _____ on the size, type or _____ energy?
 Is _____ guidelines regarding the _____ and _____ of _____ your grid?
 _____ there _____ criteria that limits _____ can be _____ to your _____?
 Does _____ electrical _____ have _____ on the _____?
 _____ have limits on the _____ of renewable _____ within _____ system?
 _____ you _____ specific _____ place for the dimensions, mode, or position _____ your grid _____?
 There _____ limitations _____ placement and size _____ renewable energy _____.
 Are _____ any _____ the size, type, or _____ renewable _____ installations that _____ be _____ to _____ infrastructure?
 _____ you have any _____ the _____ of renewables added _____?
 Is there any _____ on the _____ location, _____ on _____ electrical infrastructure?
 _____ there _____ rules _____ the size, _____ of renewable energy _____ can _____ used with your _____ network?
 _____ are the _____ size and placement _____ renewable installations _____ electricity _____?
 _____ have _____ guidelines for the _____ location of _____ your grid?
 _____ locations, _____ for connecting _____ to electricity infrastructure?
 _____ or _____ of green energy _____ are _____ to your _____?
 Do _____ enforce specific guidelines about the dimensions, _____ or _____ connecting to _____?
 _____ you _____ size and location _____ renewable energy _____ power system?
 _____ any size, _____ and location restrictions _____ renewable _____?
 _____ system's connection _____ limits _____ the size _____ type of _____ energy?
 Do you have any _____ location _____ power _____ with your electrical network?
 Is there any _____ size, type, and location _____ grid?
 _____ locations _____ sizes _____ connecting renewable _____ electricity infrastructure
 _____ system's connection points _____ on the _____ type of renewables?
 Are there _____ plugged into _____?
 Do _____ have any constraints _____ type and location _____ your _____ connecting renewable power _____?
 Is _____ possible to _____ sizes/types/locations for _____ with your _____?
 Can _____ me _____ are _____ limiting sizes and _____ renewable energy?
 _____ be _____ on the size _____ style of _____ energy _____?

____ you have ____ type, or location of your renewable ____ ?
 ____ of ____ types ____ for connecting ____ to ____ infrastructure?
 ____ the size, type, ____ location ____ in your energy grid?
 ____ you have any restrictions on ____ placement ____ energy installations?
 ____ tell ____ any regulations limiting sizes/types/locations ____ renewables ____ with your energy ____ ?
 Do ____ on ____ or location of ____ your power system?
 What are the ____ and technical ____ governing ____ connections between ____ energy ____ your ____ ?
 ____ a ____ to ____ regarding ____ size, type, and site ____ renewable projects linked ____ electric infrastructure?
 When it ____ or position of sustainable utilities connecting ____ your grid ____ do you ____ ?
 Any ____ on ____ for ____ sources connected ____ the grid?
 Limits on size, types, and ____ connecting renewable ____ ?
 ____ any constraints ____ size, type, ____ for connecting renewable ____ your electrical ____ .
 ____ on location ____ size of ____ installations connected ____ your ____ network?
 Are ____ on the ____ renewable ____ installations that ____ linked to ____ infrastructure?
 ____ limit on the type and ____ of ____ energy installations ____ can ____ to ____ electrical ____ ?
 ____ types, and locations for connecting renewables ____ your ____
 ____ me about any constraints ____ size, ____ and location for connecting renewable ____ grid.
 Is ____ any ____ size, type, ____ selection of renewable ____ to ____ electric infrastructure?
 ____ renewables by size or location.
 ____ you ____ constraints ____ the size, type, ____ location ____ systems?
 ____ the size ____ installations in your electric ____ ?
 ____ have ____ constraints on size, ____ or ____ for ____ renewable power ____ with ____ electrical ____ ?
 ____ any ____ in ____ to ____ type, or location for connecting ____ installations ____ your ____ ?
 ____ are ____ location of renewable ____ tied to ____ grid?
 Are the size, ____ systems ____ to your grid?
 ____ you have specific ____ regarding ____ dimensions, ____ of sustainable ____ that connect ____ grid structure?
 ____ you have limits on ____ size and location ____ ?
 ____ on ____ and ____ of renewable ____ integrated ____ your electrical ____ should ____ stated.
 ____ on ____ type, or ____ of ____ installations integrated with your ____ infrastructure
 ____ for connecting renewable sources ____ the electricity infrastructure
 Any ____ about installation ____ and ____ green ____ sources?
 ____ size, type ____ location restriction ____ ?
 ____ the criteria for where ____ of ____ can ____ to your electrical setup?
 ____ tell me about constraints pertaining to ____ type, ____ location ____ connecting ____ to ____ grid?
 ____ the ____ for ____ placement of renewable ____ connected to ____ electricity ____ ?
 ____ you have any ____ on ____ renewable power ____ be ____ your ____ network?
 Do you have constraints on ____ and ____ renewable power ____ ?
 Specific ____ type or ____ renewable ____ integrated ____ electrical infrastructure ____ be clarified
 Do ____ have any limits ____ the ____ or ____ your system?
 Any ____ type ____ location ____ are associated ____ renewable ____ ?
 Specific limitations ____ dimensions, type and ____ renewable ____ infrastructure are to be ____ .
 ____ infrastructure have ____ on the ____ renewable plants?
 Can ____ me ____ dimensions, variety or placement of renewable installations connected ____ the ____ grid?
 ____ you tell me if ____ limitations on ____ dimensions, variety, ____ placement of ____ installations ____ your ____ ?
 ____ you have limits on the amount ____ your ____ system's ____ points?
 Does ____ electrical infrastructure ____ on renewables' ____ location?
 ____ there a ____ on the ____ of renewable ____ electric ____ ?
 Can you tell ____ there are any ____ dimensions, ____ or ____ of ____ installations ____ to ____ electrical ____ ?
 ____ any ____ for the size, ____ or ____ renewable energy in ____ energy ____ ?

Does _____ electrical infrastructure have _____ on _____ size _____ of _____ ?

Can you _____ if there are any _____ variety or _____ of renewable installations connected _____ ?

Is _____ any constraints _____ location _____ renewable _____ that you would like to connect _____ grid?

Do _____ restrictions on _____ type, _____ power systems _____ your electrical network?

_____ there _____ limitations _____ the _____ of renewable energy _____ that _____ connected to _____ infrastructure?

_____ infrastructure limit the size or _____ of _____ renewable _____ ?

_____ are _____ restrictions _____ installations connected to your electricity network?

_____ on size and _____ energy _____ your system?

Size limits _____ as _____ aspects _____ renewable facilities and _____ electrical _____ asked.

_____ there any constraints _____ to _____ type _____ location _____ renewable installations _____ grid?

_____ are _____ limits on _____ of _____ your _____ setup and _____ energy facilities?

_____ you have restrictions _____ where _____ can _____ ?

_____ would like _____ are _____ regulations _____ the sizes or _____ of renewables integrated with your _____ .

_____ you have specific guidelines _____ the _____ and position _____ sustainable _____ connecting _____ grid structure?

_____ what type _____ renewable energy _____ connected _____ electrical setup?

_____ me _____ if _____ restrict renewables by _____ type _____ .

Are _____ location of renewable energy structures?

Please tell me if there _____ the _____ variety _____ placement of _____ to the _____ grid.

There are rules about _____ or _____ of _____ that _____ be connected to your _____ .

Do _____ power system's connection _____ have _____ size and _____ energy?

What _____ the _____ for location of _____ in _____ grid?

_____ be limits _____ renewable stuff _____ your _____ ?

What are _____ for the location of _____ the _____ grid?

Do _____ any _____ on the _____ variety, or _____ of _____ installations connected _____ your _____ grid?

_____ restrictions on _____ type, and location _____ renewable installations _____ of your _____ company?

There are _____ limitations _____ and _____ of _____ installations _____ can _____ linked _____ your electrical infrastructure.

_____ limits on the _____ of _____ installations located in your electrical _____ ?

Are there _____ size, _____ location _____ your electrical infrastructure?

_____ installations _____ in size?

_____ have limits on _____ size _____ location of _____ ?

_____ you _____ there are any regulations _____ sizes and _____ renewables _____ with my _____ network?

_____ on the size, type _____ of _____ in your _____ .

What are _____ on the placement _____ size of _____ connected _____ electricity _____ ?

_____ are _____ restrictions on the _____ of renewable _____ in _____ to _____ ?

_____ there any limitations on _____ size, _____ of _____ located within _____ infrastructure?

_____ on dimensions, _____ of renewable _____ integrated with _____ infrastructure _____ not clear.

Can you tell _____ and location of renewables _____ with your energy _____ ?

_____ you have specific _____ for _____ position _____ sustainable utilities _____ to a grid _____ ?

_____ be constraints _____ of renewable energy structures.

_____ to the _____ of renewable installations _____ your electrical infrastructure?

Is _____ limitations _____ renewable installations _____ located for your electrical _____ ?

_____ renewable _____ by size, _____ or _____ ?

_____ enforce _____ for the _____ mode, _____ position of _____ utilities _____ to the grid _____ ?

_____ any _____ on size, type, or locations for _____ renewable power _____ network?

_____ if your _____ infrastructure has _____ on renewable _____ ?

Do you have specific _____ for the _____ position _____ utilities _____ grid structure?

_____ any constraints _____ size, _____ location for _____ installations to your electrical _____ ?

I want _____ know if you _____ or location.

_____ limitation _____ type of renewable _____ installations _____ be _____ to your electrical infrastructure?

_____ there any limit _____ the size or _____ ?

Will _____ the dimensions, variety, or _____ renewable installations _____ the electrical _____?

Any _____ regarding the _____ of _____ sources connected to _____?

_____ any limits on _____ size _____ installation _____ electric system?

_____ size _____ renewable energy in your system?

_____ any rules regarding _____ size, _____ or position _____ renewable energy _____ be connected _____ your _____ network?

Are _____ any _____ or _____ connecting renewable power systems _____ electrical network?

_____ are _____ restrictions on location _____ size _____ renewable _____ electricity network?

Please let me know if _____ constraints _____ size, type _____ location _____ connecting _____ installations _____ grid.

clarify _____ on dimensions, _____ or _____ renewable installations integrated _____ infrastructure

_____ specific guidelines when it _____ the _____ mode, _____ position of sustainable _____ connecting to _____ grid _____?

_____ any constraints _____ to _____ type, or _____ connecting renewable _____ your _____ grids?

_____ you _____ if you have size/configuration _____ installations?

Do _____ have any _____ location _____ connecting _____ installations to the electrical _____?

_____ on the _____ allowed _____ energy _____?

_____ have limits on _____ the renewables within _____ system?

_____ limits _____ on the electrical grid?

Is there a _____ to _____ energy can _____ connected to _____ electrical _____?

Does your electrical _____ limit _____ location of Renewables?

_____ guidelines for the _____ and location _____ energy sources _____ your grid?

_____ rules regarding size and placement _____ connected to _____ network?

_____ your electrical _____ size, type, or _____ of _____ sources?

_____ renewable _____ be _____ to your _____ setup?

_____ tell _____ any _____ the size _____ location of the renewable _____ network?

_____ your electrical infrastructure limiting the size, _____ renewable _____?

Is it _____ specify _____ regulations that limit the sizes or _____ of _____ energy _____?

Limits on _____ of renewable _____ system?

Are there _____ the placement _____ renewable _____ can be linked _____ infrastructure?

Is there any _____ size, type _____ renewable _____ to _____ electrical grid?

_____ size, _____ and location _____ green _____ systems relevant to _____ grid?

_____ the placement of renewable plants?

Is _____ criteria that restricts where renewable _____ to _____ setup?

Is there _____ limit _____ location or _____ for your _____ infrastructure?

_____ there any _____ to _____ dimensions, variety, _____ installations _____ to _____ electrical grid?

_____ there any _____ sizes/types/locations for _____ integrated _____ your _____ network?

Can _____ me if there _____ on _____ placement of _____ installations _____ to the grid?

_____ there restrictions _____ or _____ of renewable _____ to your electric infrastructure?

_____ there limitations on _____ installations for your _____ infrastructure?

Are _____ any _____ on the _____ and location _____ located within _____ jurisdiction of _____?

_____ it _____ to specify any _____ sizes and locations _____ with your energy _____.

_____ electrical infrastructure have limitations _____ size, _____ and _____ of _____?

Is there any constraints pertaining _____ size, _____ and _____ for _____ your _____?

Are _____ any _____ or _____ renewable installations for your _____ infrastructure?

Is there _____ regulations limiting the _____ of _____ your network?

_____ renewable _____ size, _____ or location _____?

Is _____ any _____ pertaining _____ size, _____ location for _____ renewable installations to _____?

Specific limitations _____ type and siting _____ installations integrated with _____ should _____.

Do _____ about the type _____ renewables added _____ system?

_____ any _____ on the _____ location, and type _____ Renewable _____ on the _____?

_____ there _____ on the size, kind, _____ position of renewable _____ systems _____ can be _____ network?

_____ your infrastructure _____ on _____ type _____ location of _____ energy?

____ are ____ limitations ____ the ____ of ____ energy ____ that ____ connected to your electrical ____ .
 Does ____ electrical infrastructure have ____ or placement of ____ ?
 ____ it possible ____ any regulations ____ location of renewables integrated ____ your ____ network?
 ____ any type ____ location restrictions on ____ ?
 ____ there any constraints ____ the ____ of ____ energy ____ that can be ____ the ____ ?
 ____ have ____ on the location ____ type ____ renewable ____ for your ____ infrastructure?
 Do ____ guidelines for the ____ of sustainable utilities that ____ to ____ grid?
 Are ____ limits on the ____ renewable ____ in ____ system?
 Are there ____ size or type of renewable ____ that can ____ your electrical ____ ?
 ____ you ____ about ____ restrictions applicable ____ the ____ type, and site selection ____ renewable ____ linked ____ my ____ ?
 Do you ____ on size, ____ location ____ renewable ____ systems ____ your electrical ____ ?
 Is it possible ____ your ____ has limits ____ renewables' ____ or ____ ?
 There could ____ a ____ on ____ of ____ added to ____ .
 ____ there any ____ of renewable ____ installations that ____ be linked to your ____ ?
 ____ limitation on the ____ or style of green ____ ?
 ____ limits on size/type/location of ____ your ____ system?
 Can ____ tell me if ____ the ____ variety, and ____ of renewable ____ connected ____ the ____ grid?
 ____ there ____ size, ____ renewable installations located within the electrical infrastructure?
 ____ renewable ____ size, ____ or ____ restricted?
 Are ____ that limit the size or ____ renewables ____ the ____ network?
 ____ have ____ guidelines ____ dimensions, mode, or ____ sustainable utilities ____ grid structure?
 ____ know ____ any limitations on ____ dimensions, variety, or placement of ____ connected ____ the ____ ?
 ____ any restrictions on ____ size, type, or placement of renewable ____ installations ____ electrical infrastructure?
 ____ any restrictions ____ size, type, ____ placement of ____ installations ____ can be connected ____ your ____ infrastructure?
 ____ there ____ on ____ type of ____ installations ____ your electrical infrastructure?
 There ____ governing ____ or ____ energy ____ can be connected to your electricity network.
 Are there ____ regarding ____ size, ____ location of renewable energy ____ ?
 ____ is the restriction on size ____ placement of ____ electricity ____ ?
 Do you ____ any ____ or location ____ connecting renewable ____ systems to ____ network?
 ____ the size ____ location of the renewables?
 Does ____ size, type ____ your electrical infrastructure ____ the ____ renewables?
 Do you have ____ guidelines for the ____ mode, ____ position of ____ connected ____ your ____ ?
 Do you ____ constraints ____ location ____ renewable ____ systems?
 Do you have ____ guidelines ____ to the ____ mode ____ of ____ utilities connecting ____ your grid ____ ?
 ____ you have ____ to ____ type, ____ location for connecting renewable installations to ____ ?
 Do renewable ____ size, ____ or ____ ?
 ____ any ____ limiting the ____ location of ____ integrated ____ energy network.
 Specific ____ type, or ____ renewable installations integrated with ____ electrical ____ be clarified.
 Are ____ any limitations on the ____ renewable energy ____ can be ____ to ____ infrastructure?
 ____ you ____ on size, type, and ____ for ____ renewable power ____ your ____ ?
 Does anyone know ____ on ____ energy ____ into your ____ ?
 Can ____ tell ____ if ____ limitations on the dimensions, ____ placement ____ renewable ____ ?
 ____ guidelines for ____ size, ____ or ____ renewable energy in your grid?
 ____ size, ____ restrictions on ____ installs?
 ____ power system impose ____ size and location of ____ ?
 Do you have ____ on ____ size ____ energy within ____ power ____ ?
 ____ there a ____ of ____ within your power ____ connection points?
 ____ there ____ guidelines about ____ type, or ____ renewables in ____ energy ____ ?

_____ renewable _____ be _____ and location?

Do your _____ infrastructure _____ size, _____ placement of _____ plants?

Do _____ constraints _____ size, type, or location of your _____ network _____ connecting renewable _____?

When _____ renewable _____ your electrical _____ do you have _____ or location?

_____ you _____ constraints _____ type _____ location when connecting _____ systems _____ your _____ network?

_____ you impose _____ on _____ location of _____ energy sources?

_____ there _____ restrictions on the _____ type _____ installations _____ within the jurisdiction of your _____?

Is _____ restriction on the size, location, _____ Installation?

_____ on sizes, _____ and locations _____ to _____ electricity grid?

_____ any limitations on the location _____ renewable _____ electrical _____?

_____ on size, type _____ of renewable installations?

Do you _____ about how _____ or where I can slap _____ power thingies _____?

I _____ like to _____ by size, type _____ location.

_____ there _____ on _____ dimensions, variety, _____ placement of renewable _____ connected _____ your electrical grid?

Do you _____ limits _____ the size _____ your _____ connection points?

The size _____ as _____ technical _____ governing _____ renewables-based _____ and your _____ are unknown.

There _____ some _____ on _____ type, or placement _____ installations.

_____ there any restriction on _____ of _____ installations _____ to _____ infrastructure?

Limits on _____ type _____ renewable _____ can _____ imposed _____ your power _____.

What restrictions _____ to _____ size, type, and _____ for _____ projects linked _____ electric _____?

_____ any limits on _____ renewable energy _____ can _____ to your electrical infrastructure?

Does _____ limit the size, _____ placement of renewable _____?

Does _____ infrastructure _____ size _____ renewable energy?

Is _____ any _____ size, type, _____ installations connected to your electrical _____?

Do you _____ constraints on size, _____ renewable _____ systems _____ your electrical _____?

_____ and what _____ of _____ energy _____ be connected to _____?

Rules about _____ of green _____ sources connected _____ the _____?

_____ on _____ type and _____ of renewable _____ your _____?

_____ any restrictions on _____ size _____ location of renewable installations _____ jurisdiction _____ your electrical _____?

Any _____ type, or _____ connecting _____ installations to your electrical _____ can be _____.

_____ there any restrictions on _____ size, type, or _____ of renewable _____?

Limits _____ the _____ location _____ energy sources in your _____?

Can you _____ me _____ the _____ and _____ of renewable energy?

Specific _____ dimensions, _____ siting of renewable installations _____ with your _____ be clarified.

_____ be limits on the size _____ installation _____ your _____?

Is _____ any _____ on _____ or size _____ renewable _____ to connect _____ the _____?

Do _____ have limits _____ the _____ location of renewable _____ within _____?

_____ there any _____ the size, kind, and _____ renewable _____?

Are _____ any limitations on _____ place renewable _____?

_____ size, type, or _____ for _____ renewable _____ systems to _____ electrical network?

Are _____ on the size, _____ location of _____ the electrical infrastructure?

_____ you _____ me _____ any regulations _____ sizes of _____ integrated _____ my energy _____?

Limits on _____ type _____ for _____ to your _____ infrastructure.

I want to _____ are any _____ the _____ locations _____ renewables integrated _____ the _____ network.

Limits _____ renewables _____ your system?

_____ you have limits _____ size _____ renewable sources _____ your power _____?

What _____ the _____ limits and the _____ the _____ renewable facilities and your _____?

Can _____ tell me _____ there are any _____ limiting sizes and _____ integrated _____ network?

_____ you tell _____ if _____ any limitations on the _____ placement _____ renewable _____ connected _____ the electrical _____?

Are ____ constraints ____ location ____ renewable energy ____?

Any ____ pertaining ____ type or ____ for ____ renewable installations ____ your electrical grid ____.

Is ____ type ____ location restricted?

Were ____ any constraints ____ size, ____ location ____ renewable ____ with ____ electrical network?

____ on dimensions, type and ____ installations integrated ____ infrastructure need ____ be clarified

Does your energy ____ guidelines for ____ or ____ of renewable ____?

Please tell ____ there ____ limitations ____ variety and ____ renewable ____ connected to the electrical ____.

There ____ be limitations ____ the placement ____ renewable energy ____ be linked ____ electrical ____.

____ there any limitation ____ the ____ style of ____ energy ____?

What are the limits ____ the size of ____ connections ____ setup?

Can you tell ____ about the ____ on the dimensions, variety, ____ installations connected ____?

____ your electrical ____ the ____ type or ____ of ____?

Are there ____ size, ____ or location ____ for ____?

Do ____ have specific ____ about the dimensions, ____ sustainable utilities ____ your grid ____?

What ____ the ____ limits ____ well as the technical ____ connections ____ facilities and ____ electrical ____?

Does your ____ limits ____ the ____ type or location ____?

Does ____ limitations related ____ size, type, and ____ of renewable ____?

____ restrictions ____ the size ____ of renewable ____ connected ____ your electricity ____?

Are there any ____ the ____ type, or position of ____ energy ____ to your electricity ____?

____ you have specific guidelines ____ the ____ or ____ of sustainable ____ to ____ grid structure?

____ are ____ size ____ aspects governing the ____ between renewable ____ and ____ setup?

Limits ____ the ____ and type of renewables can be ____.

Does your ____ limits on ____ of ____ renewables?

What ____ the size, ____ or position of ____ that can ____ electricity network?

Are there restrictions on ____ size, ____ site ____ renewable ____ the electric ____?

____ dimensions, ____ siting of renewable ____ with ____ electrical ____ should be clarified.

____ any limitations ____ placement of ____ energy ____ can ____ linked ____ the electrical infrastructure?

____ there any ____ size, type, ____ of renewable installations ____ electrical infrastructure?

Limits on ____ type, ____ location ____ system?

Can you ____ me ____ there are any regulations ____ or ____ for renewables ____?

____ you ____ about ____ regulations that ____ the ____ renewables ____ with ____ energy network?

Are ____ regarding the ____ of renewable ____ for your ____?

Are ____ any limits ____ of renewable ____ can ____ linked to your electrical ____?

Can ____ tell ____ there are ____ on the ____ site ____ renewable ____ to my electric infrastructure?

____ there ____ restriction on the ____ of ____ connected to your ____?

____ limits on the size ____ connections ____ renewable-based ____ and your ____?

Do you have ____ on ____ for connecting ____ your ____ network?

____ on ____ types, ____ for ____ renewables ____ the electricity grid?

____ on sizes, ____ and ____ for ____ renewables to ____ infrastructure?

____ any ____ size, ____ or position of renewable energy systems that ____ connected to ____ network?

Do you ____ if ____ infrastructure has some ____ on ____?

Limits ____ and location for connecting ____ to ____?

____ any ____ type ____ location restrictions on ____ installs?

What are ____ and technical ____ governing connections ____ facilities ____ electrical setup?

Do ____ have constraints ____ size, ____ type ____ power ____ your electrical network?

Does your ____ infrastructure allow ____ of renewable ____ that can be ____?

____ size, ____ and ____ of renewables in your ____?

Are there any restrictions on ____ size, type ____ selection of ____ linked ____?

____ you ____ limits ____ size or ____ renewable installation?

____ any ____ on the size, type ____ location of ____?

Limits ____ sizes, ____ and ____ connecting ____ your infrastructure?

Any ____ to ____ type, or location for connecting ____ installations ____ electrical grid ____ be ____.

Specific limitations on ____ and ____ installations integrated ____ your electrical ____ may ____.

Can you tell ____ about any ____ the ____ location of renewables integrated ____ network?

Are ____ any ____ on the type ____ size ____ renewable ____ can be ____ electrical infrastructure?

Are there any ____ the ____ type, and ____ energy in ____?

Is ____ any restrictions on ____ size ____ location of ____ connected to ____?

Where ____ what kind ____ renewables ____ in the electrical ____?

____ and ____ of renewable energy can be ____ setup?

____ there any ____ on the size, type, ____ position ____ that ____ be connected ____ your ____ network?

Do ____ have ____ limitations ____ the ____ renewable installations?

Do you ____ limits ____ the ____ and ____ renewable ____?

Are there restrictions ____ size, ____ type of ____?

Do ____ have ____ on ____ type ____ location for connecting renewable power ____ to ____?

Does ____ have limits ____ size?

I would like to know ____ regulations ____ the sizes ____ of ____ integrated with your ____.

____ infrastructure ____ limitations on size, type, or ____ renewable ____?

____ a limit on ____ size, ____ or type ____ on the electrical ____?

____ are ____ between renewable energy facilities and ____ electrical setup?

Does ____ electrical infrastructure have ____ on ____ or location ____ sources?

What ____ the size limits and ____ technical ____ governing the connections ____?

Is ____ any limit to ____ of ____ installations that ____ to your ____ infrastructure?

____ are ____ restrictions on size and ____ of renewable installations ____ electricity ____?

____ have any guidelines ____ the ____ of renewable energy?

____ on size, type, or ____ connecting ____ power ____ to your network?

____ limitations ____ and placement of renewable ____ in your ____ infrastructure?

There ____ be ____ on ____ of ____ energy structures.

Is there ____ size, type, or ____ renewable projects that ____ linked ____ electric infrastructure?

Any ____ the installation size of ____ energy ____ grid?

Is ____ to ____ and what kind of renewable energy ____ be ____ electrical ____?

____ the ____ on size and ____ installations connected to your ____?

____ there ____ limit on ____ type of ____ your system?

Do ____ put ____ on ____ and location of ____ within ____ power ____ points?

Can you ____ there are any ____ limiting sizes ____ with your ____?

Limits on the ____ allowed ____ green ____ setup?

____ renewable ____ and location restricted?

____ size, kind, and ____ of renewable energy systems that are ____ to your ____?

____ any ____ type, or ____ for ____ renewable ____ systems to the ____ network?

Any ____ about ____ sizes ____ of green ____ sources ____ to the ____?

Are there limitations ____ size, ____ of renewable plants ____ electrical ____?

What ____ limitations ____ size and ____ installations ____ to ____ electricity network?

Are ____ any restrictions ____ the size, type, and location ____ renewable ____ located ____ electrical ____?

Do you ____ on location for ____ renewable ____ with your ____?

____ size, type, or placement ____ renewable ____ affect your ____?

Is there any guidelines for the size, ____ renewables ____?

Do you ____ any ____ the ____ type, ____ location of ____ systems?

Do you have limits on ____ size ____ points?

Are ____ the size, ____ or ____ of renewable installations connected ____ the ____?

Can there be ____ the size, ____ and ____ Renewable ____ on the ____?

____ if ____ on the dimensions, variety, or placement ____ renewable installations ____ to the ____ grid?

____ and what ____ of renewable energy can ____ your ____?
 ____ there a limit to ____ size, ____ location of ____ connected ____ your electrical grid?
 ____ a ____ green energy installations?
 ____ on ____ and locations for connecting renewable sources ____?
 What ____ for ____ of renewable ____ tied to ____ power grid?
 ____ limitations ____ or siting ____ installations integrated with your ____ infrastructure should be ____ you.
 ____ any limits ____ the ____ kind, or position of ____ energy ____ that can ____ your electricity ____?
 Specific limitations ____ type, or siting of renewable installations ____ infrastructure ____
 Are ____ on ____ type, or placement ____ renewable energy ____ can be ____ to your ____ infrastructure?
 Are there any restrictions on ____ kind, ____ position ____ systems ____ can be ____ to ____ network?
 Limits ____ sizes, ____ and ____ for ____ renewables to ____ infrastructure?
 Are there ____ limitations on ____ size, ____ position of ____ energy systems ____ the electricity network?
 Are ____ any restrictions on the ____ type, ____ of Renewable ____ electrical infrastructure?
 ____ type and ____ for renewable ____?
 ____ there ____ restrictions on the ____ and ____ renewable installations located in the ____ of ____?
 Is ____ any limits ____ size ____ location of renewable energy ____?
 Are ____ any ____ to ____ type ____ connecting ____ installations to the electrical ____?
 Limits ____ size ____ renewables in your system.
 ____ renewable ____ type, location or ____?
 Is there ____ constraints regarding ____ or size ____ to ____ grid?
 What ____ limits and technical aspects of ____ connection ____ your ____ a ____ facility?
 Are ____ restrictions on the type ____ installations ____ are ____ to your ____?
 ____ me if ____ are ____ constraints pertaining to ____ or ____ for ____ renewable ____ electrical grid?
 Is there ____ restrictions ____ the ____ type, ____ of ____ on the ____ infrastructure?
 ____ there any limit ____ the ____ type, ____ of ____ installations?
 There ____ a ____ the size, ____ type, ____ type ____ Renewable Installation ____ the ____.
 Do ____ limits on the ____ and location of ____?
 ____ any ____ where renewable ____ be located for your ____ infrastructure?
 ____ and places ____ for green ____ setup?
 ____ any guidance for ____ renewable projects linked to your electric infrastructure?
 ____ limits on the ____ of the ____ installation in your ____?
 ____ any ____ the type or ____ energy installations that can ____ to your ____ infrastructure?
 ____ it possible to ____ regulations ____ sizes ____ with ____ energy network.
 ____ what ____ of ____ sources ____ connected to ____ electrical setup?
 Is ____ possible ____ your electrical ____ renewables' size, ____ location?
 Are there any ____ the size, ____ and position ____ energy systems ____ be connected ____ electricity ____?
 ____ you have ____ on ____ or location of your renewable ____?
 ____ are the size ____ and ____ governing ____ renewables-based facilities and ____ setup.
 ____ infrastructure ____ on the size, type ____ renewable energy?
 ____ there limits ____ type, or placement ____ renewable plants ____ electrical ____?
 ____ on ____ and sizes for ____ sources to ____ electricity ____?
 Do you ____ for the ____ type, ____ location of ____ in ____ energy ____?
 ____ there any ____ governing ____ size, ____ or ____ of your renewable ____?
 Is ____ a ____ on the ____ or location ____?
 ____ any size, ____ location restrictions ____ renewable installs?
 ____ on ____ size ____ renewable energy ____ your system.
 ____ tell ____ about restrictions on the size, ____ or ____ renewable projects linked ____ infrastructure?
 Are ____ limitations ____ size, ____ of renewable energy ____ can be ____ to your electrical infrastructure?
 Does ____ electrical infrastructure ____ type, ____ of renewable plants?
 What ____ the regulations ____ placement ____ renewable installations ____ your electricity ____?

Do _____ restrictions _____ size, _____ or location _____ renewable power systems _____ network?
 _____ the _____ type, or placement of renewable plants in your _____?

Do you have _____ guidelines _____ the _____ location of renewable _____?
 _____ there a _____ on the size _____ location of _____ your power _____?

Any _____ about _____ size of _____ green energy _____ grid?
 _____ electrical infrastructure _____ on _____ or _____ of renewable plants?

Does your _____ limits _____ and _____ of renewable energy?

Are there _____ on size, _____ and location _____ renewable _____ located _____ infrastructure?
 _____ there _____ restrictions on Renewables plugged _____?

_____ the _____ limits _____ technical aspects governing _____ between _____ and electrical _____?
 _____ there a _____ on the dimensions, _____ connected to your _____ grid?
 _____ limits on the _____ type _____ renewable _____ in your power _____?

Limits _____ size, _____ and _____ connecting _____ sources to electricity _____?
 _____ guidance regarding the _____ or _____ selection _____ renewable _____ linked to _____ electric infrastructure?

Are _____ on the _____ type and _____ installations located within _____ jurisdiction?

Any _____ size, _____ connecting renewable _____ your electrical grid would be appreciated.
 _____ there _____ limit _____ the size _____ type _____ within _____ power _____ connection points?
 _____ on the _____ type, _____ of renewable energy _____ your _____.

Are there rules governing the size, _____ renewable energy systems _____ can _____ to _____?

Specific limitations _____ dimensions, _____ and _____ of _____ installations integrated _____ your _____ known.

There can _____ size and _____ of green _____ installations.

What _____ the _____ size _____ renewable installations connected _____ the _____ network?

Are your electrical infrastructure limited _____ or _____ plants?
 _____ your _____ infrastructure have any _____ on _____ or _____ renewable plants?
 _____ there any guidelines regarding the _____ location _____ the energy _____?

Can _____ tell me _____ the _____ renewables integrated with _____ energy network?
 _____ your _____ infrastructure have _____ on _____ size, _____ location?
 _____ renewable _____ by type _____ size?

What _____ limits on _____ installation _____ your _____ system?

Do _____ if your electrical _____ size, type or location _____?

_____ you have any constraints _____ size, type or _____ to your _____ network?
 _____ on _____ size of renewable installation _____ your electric _____?

_____ you have _____ guidelines _____ the dimensions, mode, or position _____ sustainable _____ grid _____?
 _____ limits _____ the size and _____ of renewable _____ connected to _____ electricity _____?

Are _____ restrictions _____ size, type, and _____ connected to your electrical _____?
 _____ size, _____ location _____ renewable installs?

If _____ on the _____ of _____ installations connected to your electrical grid, _____ please advise?

Is _____ any _____ on the _____ type _____ location _____ installations _____ be connected _____ the electrical grid?
 _____ limitations on dimensions, type, _____ of _____ with your electrical _____ should be _____ by _____.

_____ you _____ on the size and _____ renewable sources _____ system?

Is _____ possible to specify _____ regulations _____ of renewables _____ with _____?

Is _____ of renewable installations for your electrical _____?
 _____ you put _____ on the _____ of renewable _____ within _____ system's _____ points?

Will you _____ sizes _____ clean _____?

_____ you _____ size, kind, or _____ of renewable _____ systems that _____ to your _____ network?
 _____ size, type and location _____ renewable energy _____.

I want _____ regulations _____ for renewables integrated with _____ energy network.
 _____ there any _____ the _____ and _____ of _____ energy _____ that can be _____ to _____ infrastructure?

Is _____ limit _____ the _____ or _____ of _____ can be linked _____ your electrical infrastructure?

Is _____ a _____ on the size, _____ renewable energy _____?

_____ on the _____ green energy _____ connected to your _____?
 _____ the _____ limit _____ size, type _____ of the renewables?
 _____ there _____ limitations _____ the dimensions, _____ placement of renewable installations _____ to _____ electrical grid?
 _____ specific limitations on dimensions, _____ of _____ installations _____ electrical infrastructure
 _____ wonder if _____ restrictions on _____ your system?
 _____ on _____ and _____ of renewable _____ in _____ system?
 Where and _____ kind of _____ be _____ your _____ is _____ question.
 _____ the rules for _____ renewable _____ near the power _____?
 Can you _____ me _____ any constraints pertaining _____ location for _____ renewable installations _____ grid?
 Are there any restrictions on the _____ of _____ installations _____ connected _____ electrical infrastructure?
 _____ what _____ renewable energy can be _____ electrical _____ is a question.
 _____ the scale and _____ green energy setups?
 _____ any _____ on the size, _____ type, or _____ of Renewable _____ electrical _____?
 _____ any limitations regarding the _____ variety, _____ placement _____ installations _____ your electrical _____?
 Are _____ limited _____ type _____ location?
 _____ there any rules _____ the size, _____ or _____ renewable _____ that _____ connected _____ your network?
 Is there any _____ size, location, type, or _____ Installation on _____?
 Does your _____ size or type of Renewables?
 _____ constraints pertaining to size, _____ or _____ for connecting renewable installations _____ be _____ to _____.
 What _____ the _____ of renewable installations _____ to your _____ network?
 Any _____ regarding _____ or types of green _____?
 _____ and what kind of _____ can _____ an electrical _____?
 I _____ like to _____ limitations on _____ variety, _____ placement _____ renewable installations _____ to the electrical _____.
 _____ there any _____ regarding the size, type, _____ location _____ energy _____ grid?
 What are the restrictions on _____ of _____ connected to _____ electricity network?
 Are _____ to the _____ type, and _____ renewable _____ within your _____ infrastructure?
 Is _____ limited _____ size, type, _____ placement of renewable _____?
 _____ any guidance _____ the size, type, or site _____ projects linked _____?
 There _____ be _____ on _____ size, type, _____ location of _____ installations located within the _____.
 I _____ know _____ regulations limiting sizes _____ integrated with your _____ network.
 _____ limit _____ size or type _____ renewables in your _____?
 _____ have _____ regarding the _____ type, and location _____ renewable energy _____?
 _____ about _____ constraints pertaining to size, _____ location _____ connecting renewable _____ to my electrical _____.
 Can you _____ me if there _____ the _____ energy installations?
 _____ sizes, _____ and _____ connecting renewable sources to _____ infrastructure?
 _____ the electrical _____ any limitations _____ size, type or _____ of _____?
 _____ there a _____ on the _____ of _____ renewable installation _____ your _____?
 Do _____ impose _____ on the size and _____ renewables in _____ connection _____?
 What _____ the size limits _____ between _____ energy facilities and your _____?
 _____ there any _____ the size, _____ or site of renewable _____ linked _____?
 What are the _____ for connections _____ electrical setup _____?
 _____ tell me if _____ limitations _____ the dimensions, variety, _____ placement _____ renewable installations that _____ the electrical _____?
 There are _____ regarding installation _____ or _____ energy _____?
 _____ there _____ size, type, or _____ renewable plants in _____ electrical _____?
 Are there _____ to _____ location _____ renewable _____ for _____ electrical _____?
 Are there _____ rules governing _____ kind, or position of _____ systems _____ be _____ to _____ electricity _____?
 Limits on the _____ types and locations _____ to _____?
 There _____ restrictions _____ the _____ kind, _____ of renewable _____ systems that _____ with your electricity _____.

____ you have limits on ____ renewables within your ____ system?
 ____ a limit ____ renewable ____ can ____ connected ____ your electrical system?
 Specific limitations on dimensions, type, ____ siting of ____ installations ____ electrical _____.
 What ____ you do about the size ____ placement ____ installations ____ to ____?
 Is there any ____ size ____ placement ____ renewable installations connected ____?
 Is there ____ the ____ or style ____ green energy ____.
 Are ____ any ____ on ____ type ____ of ____ installations ____ the electrical infrastructure?
 Is ____ guidance on ____ size, type, ____ site selection of renewable ____ your ____?
 Do ____ have ____ and location of renewable energy ____ within ____ system?
 ____ there ____ rules ____ sizes for green ____ sources?
 Is there ____ kind, ____ of renewable energy systems that can ____ connected ____ electricity network?
 ____ limits on ____ type ____ in your electrical infrastructure?
 ____ have any constraints ____ type or ____ of renewable power ____?
 ____ you ____ limits ____ the ____ type ____ in your ____ system?
 Limits on ____ locations for connecting renewables ____ infrastructure
 Do there any restrictions ____ of ____ energy systems ____ connected with your electricity network?
 ____ there any restriction ____ type ____ on the electrical ____?
 ____ power system ____ on size/type/location ____ renewables?
 Do you ____ if your ____ infrastructure ____ limitations ____ type ____ location ____ renewable ____?
 ____ and sizes ____ connecting renewables ____ your ____ infrastructure.
 Is ____ on the ____ location, type, ____ of renewable ____?
 ____ a limit ____ the size, ____ location of ____ installations?
 ____ are the ____ on ____ renewable installations that ____ to your electricity ____?
 ____ you tell ____ regulations ____ sizes/types/locations ____ with my energy network?
 Is ____ electrical ____ limiting ____ type and ____ of ____ energy?
 ____ electrical infrastructure ____ the size or type ____?
 ____ there any limits on the size, ____ installations in ____ electrical ____?
 Are ____ limitations ____ dimensions, ____ placement of ____ to the electrical grid?
 Are there ____ on ____ size, location ____ of Renewable ____ the ____ infrastructure?
 ____ are ____ limits, as well as the ____ aspects ____ connections between renewable facilities ____?
 Are ____ restrictions on ____ and location of ____ installations ____ the ____ infrastructure?
 ____ on the size ____ installations in your electric ____.
 ____ it possible ____ regulations ____ the ____ and locations of ____ with ____ network?
 Please tell me if ____ on ____ dimensions, ____ and placement ____ renewable installations ____ to ____.
 ____ there any ____ on size, ____ location of connecting ____ electrical grid?
 ____ any restriction on the ____ location of ____ Installation ____ electrical infrastructure?
 ____ there any rules ____ size, ____ or ____ renewable energy ____?
 What are the ____ between renewable-based ____ and electrical ____?
 ____ sizes, types, and locations for ____ power grid?
 ____ are ____ renewable installations tied ____ the power grid.
 ____ tell me the regulations limiting ____ for ____ your energy ____?
 Is there ____ limits on the ____ and ____ the ____ in ____?
 ____ you tell ____ if there are ____ dimensions, variety, or ____ of renewable ____ connected ____ the ____?
 Are ____ the size, ____ and placement ____ installations that ____ be linked ____ your ____ infrastructure?
 ____ sizes, types ____ locations ____ renewable energy ____ electricity infrastructure?
 Are ____ restricted ____ on ____ type ____ location?
 Are there any restrictions ____ the ____ position, ____ of ____ systems ____ be connected to ____ network?
 Are ____ limitations on the ____ location of renewable energy ____ can be ____ your ____ infrastructure?
 Please ____ me ____ limitations on the dimensions, variety, or ____ of renewable ____ electrical grid.

Limits _____ type and size _____ your system?

_____ installation sizes _____ types of _____ connected to your grid?

Can you _____ about _____ constraints pertaining _____ size, _____ or _____ connecting renewable _____ to _____ electrical _____?

Are there _____ sizes or _____ of green _____ sources?

_____ there a _____ renewable _____ can be connected in _____ setup?

What _____ the rules _____ the _____ kind, or position of renewable _____ that can _____ electricity _____?

What are _____ rules for size and _____ of _____ installations _____?

_____ your electrical infrastructure limit _____ renewable _____ sources?
