

[Demo] NLP Dataset for Customer Service Automation

| | |
|-----------------------------|--|
| Company Type | Home Security and Alarm Companies |
| Inquiry Category | Alarm system troubleshooting and maintenance |
| Inquiry Sub-Category | User errors |
| Description | Customers may encounter challenges in operating their alarm system correctly, such as difficulties arming or disarming, setting up access codes, or using remote functionalities. Troubleshooting and maintenance involve assisting customers with training, guiding them through proper usage, and addressing any user-related errors or misunderstandings. |
| Data Size | 5,068 paraphrases |
