

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Technical support for mobile applications
Inquiry Sub-Category	Data management and backup
Description	Users may require guidance on managing app data, such as backing up or transferring data between devices, restoring previous data, or recovering lost or deleted information.
Data Size	5,166 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

_____ be adjusted _____ sensitive information _____ device transfers using your designated _____?

_____ should _____ make _____ secure _____ transfer?

_____ want to know _____ safeguard sensitive _____ your method.

_____ can we _____ info leaking _____ switch devices?

_____ should settings _____ device _____ be _____?

Do you have settings _____ sensitive _____ transferring _____?

Which changes _____ be _____ order _____ ensure _____ no _____ information is lost while using _____ device _____?

What _____ prevent _____ loss _____ your _____?

_____ me how _____ set the _____ ensure a secure _____ of data?

How _____ my info is _____ lost when _____ method?

_____ do you _____ loss of data _____ moving _____?

Which method _____ for _____ transfers.

_____ settings _____ I _____ keep _____ information safe when _____ switch devices _____ system?

_____ settings _____ required to _____ the _____ of _____ transferring devices?

Which _____ be modified to _____ data _____ your _____?

_____ adjustments to be _____ in device transfers?

Can _____ me _____ set the right _____ ensure _____ transfer of _____ data?

Which settings _____ for _____ transfers.

I'm _____ advice _____ that will _____ my personal _____ lost _____ transfers.

_____ it _____ to _____ adjustments _____ for _____ information during device transfers?

_____ on _____ that will protect my _____ from being _____ transfers.

Should _____ adjust _____ leaks during device _____?

_____ sensitive _____ during transfers?

_____ to secure sensitive data when using _____ designated methods?

Which settings should _____ to make sure there _____ confidential _____?

What _____ I change _____ don't lose _____ data?

Is it _____ to specify _____ necessary _____ information _____ transfers using your _____ method?

_____ can you keep _____ during a _____ transfer?

How can _____ while _____ it through _____?

Do _____ have _____ recommendations for protecting sensitive information _____?

_____ adjustments _____ data _____ in _____ method?

Adjustments to _____ information _____?

_____ settings _____ be adjusted _____ prevent _____ information loss _____ transfers.

How _____ be changed to _____ information is _____ when _____ devices?

While _____ designated methods, _____ setting adjustments protect _____ sensitive _____?

Help _____ options _____ during a device switch

How can we avoid _____?

Which configurations _____ to prevent _____ loss in _____?

_____ to _____ sensitive data _____ your method?

_____ tweaking _____ few select options assure _____ no confidential data _____ while _____?

Should adjustments _____ avoid info _____ in device _____?

Should sensitive _____ mitigated _____ devices?

How _____ sensitive _____ safe during a _____ transfer?

When _____ devices, _____ settings should be _____ make _____ sensitive information _____?

What _____ should _____ changed _____ sure no sensitive _____ is _____ transferring _____?

_____ needed _____ avoid _____ in device transfers?

_____ are _____ to protect sensitive data when _____?

_____ to keep _____ during a device _____?

_____ the settings that _____ to _____ sensitive data _____ designated methods?

_____ adjustments _____ we _____ make _____ sensitive information _____ not lost?

There _____ on adjusting settings _____ leaks during _____.

Which settings should _____ changed to _____?

_____ settings _____ be changed for _____ transfers.

_____ offer _____ how to _____ sensitive _____ using your transfer methods?

_____ are _____ to protect sensitive _____ when _____.

Can _____ tell _____ the necessary _____ to _____ made for _____ information _____ during _____?

Is there a _____ sensitive _____ loss while _____?

_____ the changes that _____ data loss in _____?

_____ you tell me _____ to _____ to ensure _____ transfer _____?

What _____ are _____ to protect sensitive _____ devices _____ certain _____?

_____ tell _____ how _____ safeguard _____ sensitive info when _____ your _____?

In order to _____ the _____ of _____ data _____ settings should _____?

_____ of protecting _____ as _____ transferred through _____?

The settings for _____ adjusted _____ protect sensitive _____.

_____ transfer settings _____ confidential data?

_____ settings for _____ that _____ sensitive information.

_____ keep data safe while _____ through _____?

Which settings _____ appropriate _____ transfers?

How _____ protect _____ loss in your transfer _____?

_____ should your _____ protect against _____?

_____ settings should _____ change _____ I _____ lose important _____ during transfers?

How can I _____ my _____ when _____ transfer _____?

_____ should I _____ make _____ lose private _____ during device transfers?

Will altering settings _____ it _____ to _____ sensitive _____ devices?

Ways _____ keeping data safe _____ it's _____ through _____?

_____ can _____ data _____ protected when a _____ is _____?

Ways of _____ safe _____ it _____ devices?

_____ should be _____ to make sure _____ information is _____?

Protect sensitive ____ during ____?

____ settings ____ I ____ to not lose ____ data ____?

____ you advise on ____ sensitive information when ____ methods?

How do ____ sensitive information while ____ transfer methods?

Adjusting ____ avoid ____ during device ____.

____ me if ____ are ____ right ____ secure information transfer?

____ avoid losing ____ data ____ settings must I ____?

What ____ modify ____ not ____ important data?

____ are ____ that ____ to safeguard sensitive data when ____.

____ I ____ settings so my ____ stuff ____ when I switch ____?

____ you tell me ____ sensitive information using transfer ____?

____ you ____ to ____ data leaks when ____ method?

How can ____ avoid ____ leak when ____ devices?

Is ____ specify what ____ needed for ____ loss ____ device transfers?

____ order to ____ loss ____ during ____ what ____ should I modify?

In order to make ____ that ____ information ____ we make?

Is ____ specific settings for ____ when ____ devices?

What should we do ____ make sure that ____ sensitive ____ recommended ____ technique?

How can we ____ leaks ____ using ____?

____ be made ____ that no ____ is ____ when using ____ recommended ____ transfer technique?

____ adjust ____ to avoid ____ during device transfers.

Will ____ sensitive info from ____ lost ____ transferring ____?

____ settings should ____ changed ____ stop sensitive information from ____ transferring ____?

____ protect ____ data ____ you transfer devices through certain ____?

When ____ method, what security ____ should I ____?

Can you ____ to ____ sensitive ____ during ____?

____ are the necessary ____ you ____ to ____ preventing information loss ____?

What ____ need to ____ info loss ____ transfers?

____ should be ____ that ____ leaks of private data ____.

There ____ settings that ____ be used ____ sensitive ____ transferring ____.

____ can ____ transfer method from data loss?

How should I secure ____ data ____ transfer ____?

To make ____ no ____ information ____ transferring devices, what ____ should ____?

____ your transfer ____ what ____ I change to ____ data?

____ need ____ be changed for ____ transfers.

Can ____ be made to ensure ____ confidential ____ is ____ while ____ transports ____?

____ you tell ____ to protect ____ sensitive ____ when ____ method?

Setting ____ prevent leaks ____ private data ____ transfers?

Is ____ way ____ limit ____ loss while transferring ____?

____ the necessary ____ for ____ information ____ device transfers?

Which settings should ____ secure ____

____ tell ____ settings that ____ tweaking ____ to ____ information leaks with your ____?

Changes ____ be made ____ for secure ____ transfers.

____ that ____ sensitive ____ during a device transfer?

____ we ____ information leaks ____ we ____ devices?

Changing ____ help ____ from getting ____ when transferring devices.

____ help prevent sensitive ____ lost while transferring devices?

Can ____ tell me ____ adjust ____ settings ____ transfer of the data?

____ there any insight ____ which ____ to avoid ____ leaks with ____ method?

Changes to settings ____ sensitive ____?

_____ method demands _____ secure device _____?

_____ settings should be changed _____ sure _____ are _____?

_____ you _____ to adjust settings _____ data _____ devices?

_____ be _____ to protect _____ data when _____ devices?

_____ required _____ keep sensitive data _____ you transfer devices?

How _____ settings for _____ transfer

What adjustments _____ against data _____ in _____ method?

_____ you prevent _____ of data _____ transfer things?

What _____ be changed _____ make _____ no sensitive information _____ transferring devices?

_____ be _____ for secure device _____.

_____ you _____ be modified _____ sure no sensitive _____ is lost?

Changing _____ sensitive info _____ lost _____ transferring devices

_____ tell me how to _____ settings to ensure _____ of _____?

_____ help me _____ the settings _____ a smooth _____ data?

What settings _____ adjusted to _____ sensitive information _____?

_____ do in _____ to _____ sensitive information is _____ while using your _____ device _____ technique?

_____ for _____ changes _____ prevent leaks _____ private _____ in device _____?

In order to prevent _____ during _____ your recommended _____ what settings should _____ modify?

_____ should we make sure that _____ while using _____ technique?

Can you tell me the _____ use _____ transfer _____?

Any suggestions on how _____ protect _____ while _____?

Changing settings may help keep _____ getting _____ transferring _____.

There are _____ can protect _____ information.

_____ know _____ settings _____ in order to _____ potential information _____ with your _____?

_____ settings should be _____ to _____ transfers _____?

_____ should be _____ sure no _____ information is lost _____ devices.

Asking _____ advice _____ settings _____ will protect _____ personal _____ during transfers.

_____ can be _____ to safeguard sensitive data _____?

_____ you need _____ do _____ when transferring devices through your _____?

_____ settings _____ sensitive _____ being lost while transferring _____?

_____ should I do _____ protect _____ device transfers?

Which _____ should _____ to avoid _____ information _____ during device _____?

Which _____ should _____ updated _____ transfers?

_____ transfer _____ can prevent _____ of confidential information?

_____ changes be made to _____ in device transfers?

_____ more modified settings for secure _____?

_____ of keeping _____ safe _____ it _____ devices?

What _____ the settings needed _____ sensitive data _____ devices?

How _____ I _____ my sensitive info isn't _____ your _____?

What should _____ to make _____ that no _____ lost while using _____ technique?

There _____ some settings _____ should _____ for secure _____.

How _____ I prevent a _____ sensitive _____ using your _____?

How _____ you prevent _____ loss when _____?

_____ settings should _____ for _____ protected devices?

_____ configuration should you modify _____ prevent sensitive _____ in _____?

Which adjustments should _____ make to _____ no sensitive information _____ using _____ recommended device _____?

_____ settings will _____ safe while transferring devices.

What settings _____ used _____ secure _____ when _____ devices?

_____ to _____ changed for _____ transfers?

_____ need to be altered to _____ data _____ method?

_____ data loss from _____ transfer _____?

_____ changes needed _____ information loss in _____?

Which device _____ can _____ confidential information safe?

_____ the settings _____ to use to _____ sensitive _____ through _____ method?

How can _____ loss of sensitive information _____ transfer _____?

_____ me how I can adjust _____ a secure _____ of _____ data?

_____ can _____ do _____ protect _____ sensitive info when _____ transfer _____?

_____ help _____ find the right _____ to _____ a _____ of confidential _____?

Can you give me advice _____ to _____ using _____?

Which _____ should _____ to _____ sensitive _____ loss _____ device transfers?

_____ done to _____ during device transfers?

Is _____ any _____ for _____ sensitive _____ while you _____?

_____ you want settings _____ protect _____ data _____ transferring _____?

How can _____ when using your _____?

_____ you tell _____ how _____ the settings _____ safe _____ of data?

I want _____ the _____ data while using your _____.

What settings _____ I modify _____ to prevent _____ of _____ transfers?

What _____ should we _____ order to ensure that _____ information _____ lost while using your _____?

What should _____ data _____ during device transfers?

Changing _____ protect _____ when _____ devices

There _____ suggestions _____ settings to avoid _____ device _____.

Can _____ tell _____ to secure sensitive _____ my transfer _____?

_____ settings _____ used to _____ sensitive information _____ the _____ of _____?

Setting changes can _____ leaks _____ data _____ device _____.

_____ you tell me _____ settings _____ should use _____ a secure _____ of confidential _____?

How _____ you _____ information _____ during a _____ swap?

Which _____ need _____ in _____ avoid possible information leaks _____ method?

Can you _____ adjust _____ settings to ensure safe transfer _____ confidential _____?

Can _____ change _____ to safeguard sensitive _____ transferring _____?

Which configurations _____ be changed _____ to not _____?

What settings _____ change to _____ I _____ lose _____?

Which settings _____ changed _____ protect sensitive _____ during _____.

_____ prevent _____ of private data in _____ transfers.

_____ seeking advice _____ keep my personal _____ safe _____ transfers.

What settings _____ be changed _____ sure _____ lost when _____ devices?

_____ you tell _____ how _____ settings _____ ensure _____ secure transfer _____ confidential data?

On _____ sensitive _____ during transfers?

When _____ switch _____ what _____ I change so my _____ doesn't _____?

_____ sensitive information during device _____

What adjustments must _____ made to _____ info _____?

Changing _____ will _____ info from being _____ while transferring _____.

_____ tell _____ about the _____ for _____ during _____ transfers?

What actions _____ I take to _____ private data _____?

There _____ settings _____ guard against _____ info loss _____.

_____ transferring _____ settings _____ adjusted to protect _____ data?
