

[Demo] NLP Dataset for Customer Service Automation

Company Type	Cable and Satellite TV Providers
Inquiry Category	Technical support for TV connections
Inquiry Sub-Category	Smart TV or streaming device setup
Description	Customers require assistance in setting up their Smart TVs or streaming devices, connecting them to their cable or satellite service, and troubleshooting any associated issues. This category addresses steps for device setup, network configuration, app installation, and resolving connectivity problems.
Data Size	8,437 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Cable and Satellite TV Provider" customer inquiry. (Purchased data will not be masked.)

_____ can _____ that both _____ and _____ when configuring them with different options in one _____ ?
 When _____ options for wired _____ what measures _____ be _____ ?
 _____ I set up different settings _____ menu to _____ my wired _____ wireless _____ work?
 _____ possible _____ make _____ wireless connections work _____ changing options?
 Is there _____ to ensure that _____ configuration _____ within a _____ setup _____ for consistent operation of _____ ?
 Is _____ a _____ to maximize the performance of _____ combined _____ menu?
 _____ can _____ make _____ that _____ wired and wireless _____ well _____ different options in _____ menu?
 _____ and wireless _____ seamless from _____ single settings menu?
 What _____ should I _____ make _____ wired and _____ are compatible in _____ single _____ ?
 _____ it _____ to _____ operation _____ wired _____ wireless setups when _____ them _____ ?
 Is it possible _____ different configuration _____ in the setup _____ for wired and _____ ?
 How _____ ensure wired _____ work _____ a single setup?
 Is it _____ wired and wireless _____ operate _____ while _____ options?
 How to make _____ menu _____ wired/wireless connection?
 _____ and _____ connections are _____ a single menu?
 _____ there _____ way to make _____ that _____ configuration _____ within _____ single _____ interface _____ for _____ of a _____ connection.
 Can it be _____ options _____ single menu _____ wired and _____ ?
 Can _____ me how to _____ and wireless connections work _____ a _____ ?
 _____ it possible _____ multiple _____ in _____ single setup _____ for _____ wireless networks?
 When _____ wired and _____ via a _____ interface, what _____ used to _____ proper function?
 Is it possible to _____ that _____ wired _____ wireless _____ in _____ ?
 Is _____ assure smooth _____ options for _____ wired and wireless connections?
 When _____ single _____ what _____ be taken to ensure _____ for wire- connected devices?
 Is _____ way _____ change _____ wired _____ wireless _____ within one menu?
 _____ I do _____ proper functioning _____ multiple connection options _____ one _____ ?
 _____ within a _____ menu, what steps _____ be taken _____ ensure optimal _____ for wire- _____

What can _____ do to _____ of _____ and wireless connections while setting _____ choices?
 _____ I make sure the _____ and _____ connections _____ are so _____ in one menu?

How can _____ ensure flawless _____ wireless _____ while setting up _____ choices in the _____ mode _____?
 _____ to integrate _____ connections into a _____ menu?
 _____ to make _____ wired and _____ work fine _____ choices.

When adjusting settings _____ setup _____ what steps _____ be _____ ensure the _____ performance _____ wire- connected
 _____?

_____ to _____ sure _____ and wireless _____ are working in a _____?

Can _____ connections work together in _____ menu?
 _____ a _____ to _____ multiple options _____ one _____ for _____ and wireless _____?

Does the _____ of _____ configuration _____ the smooth functioning _____ networks?
 _____ both wired and _____ connections are _____ a _____?

How do _____ as well as wireless _____ are working _____ in _____?

Can _____ get _____ setup options _____ work _____ both _____ wireless?

Do you have _____ pointers on how _____ up _____ connections _____ single _____ screen?

Is it possible _____ wired _____ wireless connections _____ setup menu?
 _____ would _____ to _____ and wireless connections _____ in _____ setup _____.

How can we _____ as wireless _____ are functioning _____ in the _____ menu?

Is _____ possible to change _____ for _____ and wireless _____ one _____?
 _____ a way _____ sure _____ different configuration choices in _____ single _____ interface _____ for consistent operation of both
 _____?

How _____ you _____ wired _____ options within _____ single interface?
 _____ a way _____ sure _____ wired _____ wireless _____ work smoothly _____ same setup menu?

Is _____ to help set _____ wireless connections so they _____ one _____?
 _____ configuring my wired _____ with various _____ one menu, are there any techniques _____ optimal _____?
 _____ make _____ the operation _____ wired as well _____ is correct in _____?

Is _____ to _____ up wired _____ connections _____ different _____ one menu?
 _____ it _____ varied options in _____ in _____ and wireless connections?

How _____ make _____ wired and _____ despite different configuration choices?

Is it possible _____ wired _____ work well while _____ options?
 _____ setting up _____ options, how _____ I make _____ wireless _____ work well?
 _____ to _____ both wired _____ wireless connections _____ a single menu?
 _____ wired and wireless options _____ a unified _____ tell me how _____ the best performance _____ them?

How _____ you _____ smooth _____ of _____ and _____ options in a _____?
 _____ it be guaranteed _____ options in _____ menu _____ wired _____ wireless?
 _____ there be more _____ one option _____ the setup _____ that allows _____ and wireless _____?
 _____ it possible to _____ seamless _____ for wired _____ wireless connections _____?
 _____ both _____ wireless connections _____ in a single _____?

_____ I make _____ that the _____ wireless options _____ together during _____?

Is _____ way to _____ stable wired _____ wireless connections _____ a _____ setting?

Can _____ make _____ the _____ and _____ connections work well _____ menu?
 _____ operation of _____ wireless connections from single _____ menu?

Is _____ any advice _____ configuring different _____ the _____ a smooth _____ connection?
 _____ possible to maximize _____ my network _____ selecting specific configurations _____ the _____ wired and _____ setup
 _____?

How _____ make wireless _____ together in one _____?
 _____ to _____ multiple _____ a _____ menu _____ the operation of both wired and _____ networks?

Is _____ way to _____ my wired and _____ connections when _____ with different settings?
 _____ do _____ ensure accurate _____ wired _____ as wireless in one _____?
 _____ sure the wired _____ connections are _____ correctly _____ the setup menu?
 _____ I make sure wired and wireless _____ work _____ want them _____ have _____ options?

How _____ we make sure wire-based as _____ as _____ are _____ correctly _____ setup _____?

Suggestions _____ options within _____ setup menu _____ smooth wired/wireless _____?

When _____ within _____ single _____ menu, _____ steps _____ taken _____ ensure optimal _____ for _____ connected devices?

When _____ wired and _____ a _____ setting selection interface, _____ are the _____ that _____ proper _____?

_____ there a way _____ guarantee seamless _____ of _____ wireless setup, _____ them _____?

_____ it _____ optimal performance from _____ and wireless options _____ configuring them in _____ unified _____?

How _____ sure that the _____ and _____ connections _____ I _____ different options _____ one menu?

How can _____ wireless _____ well _____ one _____ menu?

Is it possible to have _____ options _____ allow operation of both _____ networks?

_____ possible to _____ wired and _____ to _____ with _____ menu?

_____ and wireless connection _____ be configured _____ single interface?

How _____ of both wired and wireless connections, while setting _____ different _____ the _____ mode _____?

Ensure seamless operation _____ connections _____ a single _____ menu?

What _____ be taken _____ sure _____ wire-based _____ network _____ functioning correctly _____ one setup menu?

How can wired _____ smoothly _____ single menu?

_____ to _____ operation of _____ wireless options during setup?

_____ can _____ make _____ connection _____ in one _____ work?

How _____ I make _____ the _____ connections _____ well in my _____ menu?

_____ should I _____ to _____ sure the wired and _____ work _____ single setup _____?

_____ the different _____ help _____ functioning for both _____?

Is it _____ give _____ and wireless connections so that they work _____ same _____?

_____ it _____ network operations _____ changing separate settings for _____ hybrid _____ connection?

Is it _____ make _____ and _____ functions _____ in one _____ menu?

How _____ you _____ up wired _____ wireless _____ different configurations in one _____?

_____ for _____ and wireless _____ what _____ the measures that guarantee _____ function?

I need _____ performance _____ the wired and _____ when configuring them in _____ setup _____.

How can smooth _____ by _____ settings _____ wired and _____?

_____ like _____ how _____ from the wired and wireless _____ in a unified _____ menu.

_____ the _____ way to _____ flawless _____ wired and wireless _____ while _____ up with _____ options?

_____ one setup _____ do _____ set _____ for wired as well as _____?

Is there _____ way _____ ensure _____ of both _____ and _____ connections when configuring them _____ settings on _____?

_____ do I _____ up mixed wired _____ connections _____?

_____ can _____ combination of different _____ help maintain smooth _____ for _____?

_____ guarantee proper function when configuring _____ and _____ a single _____?

Is there a _____ that _____ choices _____ a _____ setup _____ allow _____ consistent operation of both a _____?

_____ I ensure _____ best _____ of _____ and wireless _____ them with different settings on one _____?

How can _____ wired _____ connections _____ different _____ in a single _____ menu?

Is _____ way to _____ optimum performance _____ my _____ wireless _____ when configuring _____ with _____ one menu?

_____ options, how do _____ sure _____ wired and _____ connections work?

_____ way to guarantee seamless operation _____ wired _____ wireless?

How can I _____ wireless _____ work _____ in one _____ menu?

_____ to _____ up a wired and _____ connection _____ different _____ in the _____?

Can there _____ a way _____ set _____ options _____ of both _____ wireless _____?

How _____ smooth performance with settings for _____ wired _____?

How do I _____ up _____ wired _____ in _____ single _____?

How _____ I _____ wired and wireless _____ one _____?

_____ for _____ and wireless _____ managing varied setup _____?

How do you _____ and _____ connections _____ together in _____ single _____?

How _____ wired and wireless connections _____ a single _____?

Can ____ set ____ both wired and wireless ____ in ____ ____ ?

____ setup ____ can I make sure both wired and ____ ____ ?

Is it ____ to ____ different ____ of both wired and wireless connections in ____ ____ ?

How can I ____ sure the ____ and wireless ____ I ____ different options in ____ ?

____ there a way to make ____ that ____ configuration ____ within ____ ____ for ____ operation ____ wired and wireless ____ ?

____ can I make the ____ options work in ____ ?

Ensure flawless ____ wired ____ wireless connections ____ a ____ menu?

____ I make sure ____ wired ____ wireless is accurate ____ one ____ ?

____ a way ____ verify optimum ____ wireless network configurations ____ one setting ____ ?

____ steps ____ secure optimal performance for ____ and ____ when adjusting settings ____ a ____ menu?

Do you ____ any ____ how to set ____ wired ____ one ____ screen?

____ flawless operation ____ wired and wireless connections ____ setting up ____ different ____ in ____ mode configuration

____ can ____ done ____ make sure that ____ and ____ network ____ correctly in ____ menu?

How ____ make sure ____ the wired and ____ smoothly when ____ a single ____ menu?

____ sure wired and ____ connections work well in ____ setup?

____ it be ____ wired ____ wireless ____ using a variety ____ options ____ a single ____ ?

When adjusting settings ____ a single ____ menu, ____ are ____ secure ____ performance ____ wire- connected ____ ?

How can ____ make ____ work in one setup?

____ setup menu do I ____ seamless performance ____ wireless ____ ?

____ possible to ____ multiple ____ in one setup ____ both wired and ____ ?

Is it ____ make both wired ____ wireless ____ work ____ with ____ ?

____ I ____ sure that both ____ and ____ work well ____ up ____ options?

Is it possible to setup ____ setup interface?

____ there any way ____ sure that different ____ choices ____ a ____ interface ____ for consistent operation ____ both a ____

Is ____ to ____ seamless performance for ____ and wireless ____ setup?

How do I ____ sure the ____ of ____ wireless ____ in the ____ setup menu?

When adjusting settings ____ a single setup menu, ____ be ____ optimal ____ for wire- ____ ?

____ way to setup ____ wired and wireless options ____ a ____ ?

How ____ sure ____ wire-based as well as ____ network connection ____ working ____ in ____ menu?

____ different ____ in ____ setup menu for both wired and ____ connections?

____ make sure wired ____ connections work ____ in ____ menu?

____ configuring diverse ____ wired ____ wireless ____ measures do you use to ____ sure ____ functional?

How can ____ well ____ different setup choices?

How ____ make ____ the wired and ____ connections ____ their ____ when ____ have so ____ in ____ menu?

When configuring ____ wired ____ wireless options in ____ unified ____ menu, ____ tell me how ____ ?

How can ____ sure wired and wireless ____ setup ____ ?

In one setup ____ can I ____ wired and wireless ____ functioning ____ ?

____ can ____ to make ____ that wired ____ wireless ____ operate smoothly ____ one ____ ?

Is ____ possible ____ make ____ with only one menu?

____ ideas as ____ how ____ set ____ wired and wireless ____ one menu screen?

____ way to ____ the configurations ____ wired ____ wireless connections ____ a ____ menu ____ ?

How do ____ set up different settings ____ make ____ operation of wired ____ is ____ ?

____ to ____ sure both ____ work well with different ____ ?

Is it ____ set ____ wired and wireless connections with ____ single ____ ?

How ____ make sure ____ operation ____ wired ____ wireless ____ accurate ____ a ____ menu?

Can ____ configuration options keep the ____ running ____ ?

How should ____ wireless ____ in a single ____ ?

How ____ wireless connections function in ____ setup ____ ?

How ____ make ____ and ____ connections work ____ a menu?

____ can be taken ____ and wireless ____ connections are functioning ____ in one menu?

____ could multiple ____ in ____ option ____ for ____ between personal ____ using both wired and wireless ____?

Is there a ____ ensure that different configuration ____ single ____ consistent operation of both ____?

Is it ____ to ____ a ____ where ____ change ____ options for consistent operation ____ wired and wireless ____?

How can I ____ sure ____ the ____ wireless ____ when I ____ one ____ menu?

How ____ sure wired and ____ work ____ with ____ setup ____?

____ there a way ____ up different settings ____ of both ____ and ____?

I ____ ensure ____ of ____ wired and ____ connections while ____ up with ____ options.

Is it possible ____ change settings ____ a setup ____ for ____ functioning ____ connections?

Will wired and wireless ____ menu?

____ possible ____ wired and wireless ____ work ____ when configuring ____ setup menu?

____ it possible to ____ wired ____ wireless ____ with a ____?

____ there ____ the ____ menu ____ have ____ configuration ____ for wired and wireless ____?

Is it possible ____ verify optimum ____ wired and cordless networks ____?

Is ____ a way to ____ operation ____ wireless ____ they ____ configured differently?

____ way to ____ smooth ____ with ____ setup options for wired ____ connections?

Is it ____ to ____ wireless ____ one menu and make sure ____?

Is it ____ to change ____ wireless connections ____ setup menu?

____ to setup ____ and wireless connections with ____ options ____ one ____?

Is ____ a ____ the best ____ my ____ connections ____ configuring them with different ____ on one menu?

____ a way to make wired and ____ setup ____ configuring ____?

____ possible ____ set ____ options ____ and ____ connections in a menu ____?

____ wired and wireless connections in ____ single ____?

Is ____ a way ____ guarantee seamless operation ____ both wired ____ configuring ____?

Is it ____ multiple ____ in ____ menu ____ wired and wireless networks?

____ it possible ____ assign different options ____ functioning ____ wireless connections in ____ menu setting?

configuration of ____ for stable functioning ____ connections in ____ menu ____

____ it possible ____ and ____ work in just one ____?

Is it ____ give guidance on ____ and ____ so they work ____ in ____ menu?

____ can ____ to make the wired ____ wireless ____ work in one ____?

How could multiple choices in the ____ be configured ____ coordination between personal ____ wired ____?

How ____ I ____ settings ____ sure wired and ____ is accurate?

____ the ____ way to ____ operation of ____ as ____ as ____ in a setup ____?

How ____ sure ____ and wireless connections work ____ setting them up?

____ there any ____ on ____ different ____ ensure ____ wired/wireless connection?

Is ____ a way to ____ operation of both ____ wireless ____ they are ____?

____ configuring my wired and wireless connections ____ settings on ____ single ____ any ____ or ____ ensuring optimal ____?

____ don't know how to ____ the wired and ____ the setup ____.

Suggestions on configuring different options ____ menu to ____?

____ options ____ wired and wireless connections, ____ the measures used?

Is ____ a way to ____ sure ____ different configuration ____ single ____ interface can ____ used ____ wired and ____?

____ tell us ____ set ____ wired ____ wireless ____ in one menu?

How ____ make ____ both wired and ____ connections work ____ in ____ single ____?

____ able ____ ensure flawless operation of both wired and wireless ____ setting ____ choices?

Is ____ possible to ____ sure that ____ configuration choices ____ interface allow for ____ both ____ wired connection.

____ can I ____ sure that ____ and wireless ____ together in ____ setup ____?

Can _____ tell me _____ wired and _____ a single setup menu?

_____ is the best way to make _____ wireless options _____ single menu?

Is _____ to _____ wireless and _____ connections _____ in _____ menu?

Is there _____ way _____ ensure that different _____ choices _____ single interface _____ consistent _____ of _____ as well as _____

How _____ as well as wireless is accurate in a setup menu?

How _____ I _____ settings _____ setup menu _____ sure _____ wireless connections are working?

Is it _____ change settings _____ setup menu to _____ and wireless.

In _____ setup menu, _____ and wireless _____ function?

_____ using various options _____ a single _____ wired and _____ connections?

Is it _____ to have more _____ that allows _____ of _____ wired and _____ networks?

Is _____ possible to _____ while setting _____ up with different options?

_____ it _____ ensured _____ varied _____ in a _____ for both _____ and wireless _____?

_____ I make _____ that _____ wired and wireless connections _____ set up _____ options?

If I _____ single _____ menu, how do _____ wired and _____ work?

_____ it possible to have _____ for _____ connections _____ a _____ menu?

_____ is _____ to set up _____ wired and _____ connections _____ a _____ interface?

_____ there anything I _____ do _____ ensure optimal performance _____ my wired and wireless _____ configuring _____?

Is it _____ set _____ for wired _____ wireless connections _____ menu?

_____ single _____ can I be _____ wired and wireless connections _____ correctly?

From a _____ can _____ make wired _____ wireless _____ seamless?

_____ up wired _____ wireless connections in a _____ menu, _____ sure they work _____?

_____ you _____ me _____ to _____ the _____ and wireless connections work _____ menu?

_____ you _____ me how _____ setup wired _____ connections in _____ single _____?

How _____ I make sure wired _____ wireless _____ despite _____ options?

_____ don't _____ how to _____ sure _____ and wireless _____ function well _____ the _____.

If I use _____ menu, _____ I guarantee _____ both wired _____ connections will work _____?

When configuring with _____ options, how do I _____ that _____ are _____?

How do you set _____ connections _____ configurations _____ a _____ menu screen?

Is _____ possible to _____ that wired _____ wireless functions operate _____ different _____?

_____ the _____ options help _____ smooth functioning for both _____?

How _____ I _____ to _____ accurate _____ wired as _____ as wireless?

Is it _____ to setup _____ for _____ and _____ networks _____ menu?

How can _____ make my _____ wireless _____ when _____ different settings on one menu?

_____ me about _____ up _____ wireless connections successfully in one menu screen?

How do _____ make _____ wired and wireless _____ work _____ when _____ up _____ options in _____?

How _____ wired and _____ connections _____ well in _____ menu?

Ensuring _____ single _____ menu for _____ wireless _____ viability?

What _____ process _____ configuring wired _____ options _____ a single _____?

_____ should the _____ wired _____ be _____ in a single menu?

_____ can be done to _____ as well _____ connections are functioning correctly in _____?

Is _____ possible _____ give _____ on _____ and wireless _____ work in _____ same menu?

When configuring wired _____ a _____ setting interface, what _____ measures _____ proper function?

What _____ the _____ way to ensure flawless _____ of both _____ setting _____ up with different _____?

_____ a single _____ menu, _____ wired _____ wireless _____ be operated?

Is _____ way to assure _____ operation of both _____ wireless setups _____?

How to make _____ wired _____ work _____ in _____ menu?
