

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Repair and Maintenance Companies
Inquiry Category	HVAC system maintenance and repair
Inquiry Sub-Category	Thermostat malfunction in HVAC system
Description	Customers inquire about their malfunctioning thermostats, which can cause temperature discrepancies, inaccurate readings, or unresponsive controls, potentially due to faulty wiring, sensor problems, or programming issues that need troubleshooting or recalibration.
Data Size	5,170 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Repair and Maintenance Company" customer inquiry. (Purchased data will not be masked.)

Why _____ no response from the _____ trying _____ control temperatures _____ our _____ interface _____?
_____ tell me _____ getting _____ response when _____ try to adjust _____ temperature via the _____ panel?
Do _____ why I am not getting _____ when using the _____ panel _____?
_____ do _____ get a _____ from _____ temperature buttons _____ the _____.
The _____ silent when _____ to _____ on the wall mounted _____.
_____ to _____ temperatures, what _____ the reason for _____ of response from _____ buttons on _____ interface _____?
Does _____ know _____ interface _____ isn't _____ to my _____ to _____ temperatures?
Why don't _____ buttons on _____ interface _____?
Why _____ panel _____ responding when _____ try _____ the temperatures using _____ buttons?
The _____ on the interface _____ not _____ when _____ try to control _____.
_____ may be _____ the _____ of _____ from the buttons on our interface _____ regulate _____?
_____ reasons for the unresponsiveness _____ temperatures _____ the mounted system's user-facing _____.
_____ wall-mounted _____ wouldn't _____ when _____ pressed the temperature _____.
_____ tell _____ why _____ via our mounted system's user-facing _____.
Do you _____ I am _____ getting a response when I _____ to change _____?
It _____ clear _____ attempting to _____ temperatures through our _____ to _____ a responsive _____.
Is there _____ reason why _____ control panel buttons _____ not _____?
_____ control panel buttons on _____ wall-mounted _____ have _____ reaction _____.
_____ is our interface panel _____ responding _____ we _____ the temperature using _____?
_____ trouble controlling _____ wall-mounted _____ thanks to unresponsive buttons.
_____ answer _____ we attempt _____ control the _____ in _____ interface panel.
_____ not _____ the temp _____ my wall unit's _____.
_____ having _____ controlling the temperatures through _____ units _____ unresponsive _____.
_____ we attempt _____ the _____ interface panel there _____ a _____ from the buttons.
_____ attempting _____ regulate temperatures _____ our wall-mounted unit's interface _____ elicit _____ responsive action.
_____ we attempt _____ control _____ through _____ panel, _____ is _____ from the buttons.
When we are trying to _____ temperature through _____ respond.

Why do _____ response from _____ buttons _____ our wall _____?

The wall _____ interface _____ don't _____ temp control.

The _____ respond when we _____ attempting _____ temperatures _____ the interfacepanel.

Is _____ something wrong _____ my _____ interface _____ that _____ from controlling _____?

Do _____ why I am _____ getting _____ response _____ try _____ adjust the _____ our interface _____?

When we attempt _____ control _____ the _____ panel _____ a response _____ the _____.

Can _____ us _____ our interface _____ is not responding when we _____ the buttons _____?

When _____ are attempting to _____ interface panel of our wall _____ isn't.

_____ is no response _____ we try _____ control _____ the interface panel.

_____ attempting to _____ the _____ through the _____ do _____ respond.

_____ come the _____ interface doesn't _____ temperature buttons?

The _____ on _____ interface _____ respond _____ we try _____ control _____ temperatures _____ them.

_____ temperature _____ seem unresponsive _____ the _____.

_____ help _____ issue of buttons _____ to _____ our wall-mounted unit.

_____ the buttons when we _____ regulate the _____ the interface panel.

_____ interface _____ are silent when trying _____ regulate temperature.

_____ panel's _____ are _____ when we try _____ temperatures.

When _____ push the _____ controls on _____ screen, the _____ respond.

The _____ unit does not _____ press the _____ controls _____ the _____.

We don't know why attempting _____ the _____ unit's interface _____ responsive action _____ its actual

_____ controlling _____ temperatures _____ our wall-mounted units _____ the unresponsive buttons.

_____ there a reason why _____ wall-mounted _____ unable _____ temperatures?

The _____ interfacepanel _____ respond _____ we attempt _____ the temperature.

_____ trying _____ control _____ temperatures through the _____ the _____ did not _____.

_____ know why _____ am _____ a response _____ try _____ adjust the _____ on our interface _____?

The buttons _____ the _____ were unresponsive _____ tried _____ the _____.

_____ buttons _____ when we try _____ temperatures through _____ interfacepanel.

We _____ with the buttons on the panel, _____ they wouldn't give _____.

_____ to get _____ control buttons _____ the panel _____ respond.

Why didn't the _____ on _____ panel respond _____ tried _____ temperature?

Do you know why _____ not _____ I try _____ adjust temperatures via _____ panel?

_____ is _____ from the buttons when _____ attempt to _____ temperatures _____ interface _____.

Why _____ our _____ panel not responding _____ we use _____ adjust _____?

Why no _____ respond _____ temp control on _____?

Is there a reason _____ panel is not _____ temperature?

Why _____ buttons _____ responsive to _____?

They wouldn't give us _____ response _____ temperature with buttons _____ the _____.

The buttons don't _____ control _____ temperatures through the interfacepanel.

We don't know why _____ regulate _____ our _____ interface fails _____ get a _____ action from _____

Can you tell _____ panel _____ responding when _____ to _____ the _____ using the buttons?

I am not _____ response _____ I try to _____ temperatures _____ interface panel, is _____ a _____?

_____ isn't the _____ unit responding when _____ controls?

_____ we tried to control temperatures _____ not respond.

The interface panel is _____ when we _____ on our _____ unit.

_____ us about _____ for the _____ in controlling _____ our mounted system's _____.

_____ regulate the temperature on _____ wall _____ the buttons _____ interface panel _____ silent.

The _____ interface's _____ don't respond _____ control.

_____ temp on wall _____

We're having _____ temperatures _____ wall-mounted units _____ unresponsive buttons

The _____ we _____ to control _____ temperatures through the _____.

There _____ response _____ buttons _____ we _____ to change _____ temperature in the _____.

We are experiencing difficulty controlling _____ our _____ buttons.

_____ problem _____ the buttons _____ to _____ control on _____ wall-mounted unit.

_____ adjusting _____ the _____ for the _____ mounted unit seems _____.

There was _____ reaction _____ the temperature _____ panel _____ our _____.

Nothing _____ when _____ try _____ the _____ through the wall mounted _____.

_____ we _____ to control the _____ in _____ interface _____ there _____ no _____.

They _____ a _____ after _____ tried _____ control the temperature _____ through the panel.

_____ respond when we tried _____ control the _____ the _____ panel.

We're having trouble controlling _____ wall-mounted _____ to unresponsive _____.

We're having _____ controlling _____ our wall-mounted _____ of unresponsive _____

_____ wall-mounted unit _____ I press the temperature controls?

The _____ our _____ panel don't _____ we _____ to control the _____.

_____ adjusting temperatures _____ is it _____?

_____ wouldn't give us _____ response when we _____ control _____ temperature _____.

_____ you _____ why our _____ panel isn't responding _____ we _____ adjusting _____ the _____?

_____ you know why I _____ response when I _____ temperatures _____ our system's _____ panel?

_____ you _____ I don't get _____ when _____ try _____ adjust temperatures via our _____?

_____ are _____ wall-mounted unit that are _____ responding _____ control.

_____ happens when we try _____ set the _____ unit.

_____ don't know _____ attempting _____ wall-mounted unit's _____ evoke a responsive action from its

_____ set _____ temperature _____ the wall _____?

They _____ give us _____ response _____ tried to control the _____ through the _____.

Why are interface _____ when _____?

_____ us know if _____ reason why the _____ unresponsive via our _____ user-facing console.

_____ could _____ the lack _____ buttons on _____ interface panel to regulate _____?

The buttons don't respond _____ the interface panel _____ control _____.

We _____ to control _____ temperature _____ the _____ the panel _____ wouldn't _____.

Is _____ for no response from _____ control _____ buttons?

When _____ try to regulate _____ on _____ mounted _____ buttons on _____ panel are _____.

Is there a _____ with _____ responding to _____ control _____ the _____?

When _____ attempt _____ regulate temperatures _____ our wall mounted unit, _____ on _____ silent.

_____ having _____ temperatures through our wallmounted units _____ buttons.

_____ happen _____ we try to _____ temperatures _____ our interface?

We _____ temperature using the _____ on the _____ wouldn't reply.

_____ buttons do not respond when _____ control _____ the _____.

There _____ response _____ on _____ panel when we attempt _____ regulate temperatures.

_____ try _____ through _____ wall mounted _____ nothing happens.

We _____ why _____ to regulate _____ our wall mounted _____ interface _____ to _____ a _____ action _____ actual ,

Why _____ wall-mounted _____ respond when I _____ temperature _____?

_____ isn't _____ wall _____ unit responding _____ press the temperature _____?

Anyone _____ we _____ response from the _____ control _____ the interface panel?

_____ to _____ why I am _____ getting _____ I _____ to adjust _____ via the _____ panel.

_____ they responding to _____ buttons _____ wall panel?

Can _____ help _____ issue _____ buttons not responding _____ control on the wall _____?

_____ to _____ my _____ panel is unable to control temperatures.

_____ why my wall-mounted _____ panel is not _____ to _____ temperature?

_____ we _____ control the temperature in the _____ panel, _____ buttons _____.

_____ try _____ control the temperatures in _____ interface _____ response from the _____.

We don't know _____ attempting _____ regulate _____ through the _____ unit's _____ to _____ action.

____ try to ____ temperatures ____ mounted ____ but nothing happens.
 The ____ panel ____ heat levels ____ respond ____ temperature control ____.
 ____ panel buttons ____ adjusting temperatures?
 There isn't ____ reaction from ____ temperature ____ panel buttons _____.
 Is ____ why the ____ control ____ didn't work?
 How come I can't adjust ____ interface of ____?
 How ____ interface temperature ____ do ____?
 Please let us ____ are ____ reasons ____ the ____ system's user-facing ____ is ____ controlling temperatures.
 The buttons ____ reply when ____ tried to control _____.
 ____ us with the ____ responding ____ the temperature control ____ the wall-mounted unit?
 How come there ____ no ____ buttons ____ we ____ to control ____ through ____ interface panel?
 ____ is ____ from the temperature control panel ____ on _____.
 Is it a button ____ I am ____ any ____ for trying ____ through ____ panel?
 ____ happens ____ we try ____ in our wall-mounted _____.
 The ____ does not respond when ____ controls.
 ____ panel temperature ____ respond
 We tried ____ buttons ____ the panel ____ they wouldn't respond.
 There ____ no reaction from ____ buttons on our wall-mounted _____.
 ____ adjust ____ what ____ wrong with buttons?
 Please let us know if there ____ temperatures are unresponsive via _____.
 Do ____ I am ____ a response ____ I try to adjust the ____ the ____?
 The ____ unit ____ not ____ I press ____ buttons.
 ____ you ____ us why our ____ panel is ____ to adjust temperatures?
 We tried to ____ through ____ interface ____ but ____ no ____ the buttons.
 ____ the interface panel the buttons did not respond.
 I am ____ getting a response ____ try to ____ the ____ the ____.
 ____ the wall interface responding ____?
 ____ am ____ response when I ____ to adjust temperatures ____ the interface panel, ____ issue?
 They wouldn't ____ us ____ when ____ tried ____ control ____ with ____ through ____ panel.
 ____ wall unit's panel
 Why ____ the ____ have button ____ controlling the ____?
 There isn't ____ answer ____ the buttons ____ we ____ to ____ the ____ panel.
 When I ____ temperature ____ unit fails to ____.
 They don't ____ to ____ on the wall ____.
 Why didn't ____ be ____ controlling temp through the ____?
 ____ come ____ no response ____ the ____ buttons ____ the wall ____?
 Why ____ the ____ panel's ____ respond?
 Why does nothing happen when ____ set ____ through ____?
 We have ____ with ____ buttons ____ responding ____ temperature ____ on our _____.
 ____ buttons don't ____ we try to control the _____.
 ____ interface panel's ____ are ____ trying ____ temperatures on the _____.
 Nothing happens ____ we ____ temperatures through ____ wall-mounted _____.
 ____ happens ____ we try to ____ temperatures ____ unit.
 When we ____ setting ____ wall-mounted ____ interface, nothing ____.

 _____ are buttons not _____ our wall-mounted unit.
 The _____ we tried to _____ the temperatures through _____ interface _____.
 _____ interface _____ buttons are silent _____ to _____ the unit's _____.
 When _____ to control temperatures _____ interface _____ is _____ response _____ buttons.
 There _____ a response _____ the buttons _____ we try _____ control the _____.
 _____ to regulate temperatures through _____ wall-mounted unit's interface _____ elicit _____ responsive action
 from its _____
 Why _____ temperature control buttons on _____?
 _____ panel _____ response from any of _____ buttons _____ we try _____ temperatures
 _____ to regulate temperatures on the _____ unit, the _____ panel are _____.
 There _____ buttons _____ interface panel that we _____ control the _____.
 _____ is no response _____ try to control temperatures in our _____.
 We tried _____ control _____ temperature using _____ the panel, _____ wouldn't _____.
 _____ wouldn't give us _____ response _____ tried _____ temperature through the _____.
 _____ no _____ the buttons when _____ try _____ control the _____ wall-mounted unit.
 The buttons on _____ silent when _____ regulate the _____ temperatures.
 We _____ control _____ temperature _____ buttons _____ the panel but they _____.
 Is _____ a reason _____ wall-mounted unit interface _____ control temperatures?
 We _____ attempting _____ through our wall-mounted unit's interface _____ elicit a _____ action.
 Do _____ know why _____ not getting _____ response _____ try to _____ temperatures with _____ panel?
 Why are interface _____ to _____?
 _____ buttons _____ not respond when _____ to control the temperatures _____.
 _____ doesn't happen _____ set _____ through the wall-mounted _____ interface.
 Why _____ button feedback for _____ temps _____ display?

Why _____ be _____ for _____ the _____ through _____ wall display?

Do _____ know why I _____ not _____ a _____ when I _____ interface _____ adjust _____?

_____ are silent _____ trying to regulate the temperature on _____.

_____ do not respond _____ attempt _____ the _____ through _____ interfacepanel.

_____ control the temperature _____ the _____ the _____ did not _____.

When we _____ control the _____ in _____ of _____ unit, there isn't.

When attempting to control _____ through _____ interface _____ from _____ buttons.

_____ come temperature _____ on _____ wall _____ not respond?

_____ isn't any _____ any of the buttons _____ attempt _____ control _____ temperatures in _____ panel.

_____ interface _____ buttons are _____ responding _____ temperatures.

_____ come _____ wall _____ does _____ respond to temperature _____?

_____ us _____ our _____ is not responding when we _____ to _____ temperatures using _____ buttons?

Is it _____ button issue _____ am not _____ trying to adjust temperatures via _____?

Why _____ the _____ panel _____ when _____ temperatures?

_____ unit's interface cannot be _____ adjust the temps?

_____ try _____ the _____ the interfacepanel _____ buttons don't respond.

No _____ response, _____ set temp on _____?

_____ come the wall-mounted _____ is _____ responding _____ press the _____?

The interfacepanel's _____ do _____ we _____ control the temperatures.

_____ is the _____ panel not _____ to adjust temperatures _____ buttons?

Why no feedback _____ wall _____?

What is causing _____ lack _____ on our _____ panel when trying to _____?

_____ no _____ control panel buttons in our _____ system.

The _____ panel's _____ don't respond when _____ try _____ the _____.

_____ there _____ that my wall-mounted _____ panel can't _____ temperature?

_____ you help _____ buttons _____ responding to temperature _____ on our _____?

_____ try _____ temperatures with the interfacepanel, the _____ don't _____.

_____ wouldn't _____ any _____ tried to control the temperature _____ the buttons on _____.

_____ you know why I am _____ a _____ when I try _____ adjust the _____ interface _____?

_____ through our wall-mounted units due to _____ buttons.

Please _____ if there's _____ reason for _____ in controlling _____ mounted system's user-facing console.

They wouldn't _____ us any response _____ attempted _____ temperature with the _____ the _____.

The wall _____ interface _____ buttons that _____ respond for _____.

Is _____ reason _____ does not respond _____ press the _____ buttons?

_____ no _____ the _____ the interface panel when we attempt _____ the _____.

The interface _____ silent _____ attempting to _____ temperatures _____ unit.

We _____ understand _____ temperatures through our wall-mounted _____ interface _____ evoke a responsive _____.

Is there _____ why _____ temperature control _____ not responding?

We don't _____ why _____ to _____ through our wall-mounted unit's interface _____ to _____ action _____ actual

When adjusting _____ interface _____ are _____.

Our _____ panel is not _____ temperatures using the buttons.

The _____ buttons _____ when trying to regulate _____ on _____ unit.

_____ about why _____ don't _____ response _____ the temperature control _____ on our _____ panel?

We're having _____ with our _____ units because _____ unresponsive _____.

_____ buttons did not respond when _____ the _____ the interface.

_____ isn't _____ wall-mounted _____ when I press _____ controls?

We don't _____ why _____ to regulate _____ our _____ unit's _____ does not elicit a _____ from _____

When _____ the wall-mounted _____ fails to respond.

_____ you know why I _____ getting _____ response when I _____ our _____ temperatures?

_____ be the reason _____ don't _____ response from the _____ control buttons on _____ panel?

_____ couldn't _____ response from the _____ buttons _____ our _____ unit.
 _____ the _____ when _____ attempt _____ control the _____ through our interface panel.
 _____ having _____ our wall _____ units due to _____ buttons.
 The buttons _____ the _____ when trying to regulate _____.
 _____ reason why we perceive no _____ from _____ control buttons _____ panel?
 We tried to _____ buttons through the _____ but _____ respond.
 Anyone got _____ to why we don't see _____ temperature control buttons _____?
 Do _____ know _____ am _____ response _____ adjust temperatures via the interface panel of our _____?
 We are _____ getting _____ response _____ the _____ control buttons _____ our _____.
 _____ control _____ buttons on the panel _____ they wouldn't give us _____ response.
 Why _____ buttons _____ to temperatures?
 They _____ any response if _____ tried to control the _____ through the _____.
 _____ do we _____ response _____ the temperature _____ on _____ wall unit?
 We're _____ trouble _____ temperature through _____ wall-mounted _____ due _____ unresponsive _____.
 We don't get a _____ buttons on _____.
 The _____ our wall-mounted unit _____ respond _____ try to _____ temperature _____ interface panel.
 There isn't a reaction from the _____ on _____.
 _____ is the _____ unit not responding when _____ hit _____?
 _____ we don't _____ a response from the _____ buttons _____ our interface _____ for _____ heat levels?
 We don't _____ attempting to regulate temperatures _____ the wall-mounted unit's _____ fails _____ action _____.
 _____ when we tried _____ control _____ temperature through _____ interfacepanel
 We _____ know _____ trying _____ regulate temperatures _____ our _____ interface _____ to elicit _____ from its actual
 The interface _____ for _____ wall-mounted _____ seems unresponsive _____.
 When _____ to _____ temperatures on a wall _____ panel buttons _____.
 When _____ to control _____ temperature through _____ panel, there is _____ response _____.
 I need _____ our interface panel is _____ when _____ the buttons _____ temperatures.
 Why _____ temperature _____ in _____ interface _____ respond?
