

[Demo] NLP Dataset for Customer Service Automation

Company Type	Smartphone Manufacturers
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Biometric authentication
Description	Concerns regarding the use and security of biometric features, such as fingerprint or facial recognition, including inquiries about their accuracy, vulnerability to spoofing, or the storage of biometric data.
Data Size	5,058 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)

Do you have safeguards _____ attempts _____ our personal _____ methods?

_____ any safeguards available for protecting PII _____?

Is _____ possible to deter and _____ using _____ systems?

Can _____ assure the _____ our _____ with these methods?

_____ sure we _____ from attempts to hack _____ identifiable info?

_____ have safeguards in place _____ our _____ data from _____?

Are you _____ on _____ identification _____ the _____ protocols?

Do you _____ measures _____ to _____ from gaining _____ to _____ information?

_____ you _____ for _____ attack _____ out of the credentials?

_____ anti-hacking measures in place to _____?

Do you protect _____?

Is _____ that _____ verification processes are _____ to prevent _____ to _____?

Is there _____ against hacking _____ on our _____ methods?

Do _____ login methods protect _____?

_____ any measures in place _____ prevent _____ personal information?

Are _____ in place _____ protecting users' identifying _____?

_____ my details _____ from _____ using your _____?

_____ it _____ to prevent hacking _____ on _____ these techniques?

Is our _____ information _____ from _____?

Have there _____ put _____ place _____ safeguard PII _____?

Is it _____ PII _____ authentications.

Is _____ safeguards for _____ PII _____?

_____ prevent _____ data with these methods?

Do you have _____ safeguards _____ hacking into _____?

Do _____ offer help so bad people _____ details _____ login system?

_____ you _____ in place to protect _____ personal _____?

Is _____ possible that hacking _____ users' private _____?

_____ any _____ for _____ PII during _____?

_____ possible to _____ our personal identifiable information _____ methods?

Do you keep _____ data safe _____ methods?

_____ methods be _____ to _____ hacking _____ personal data?

Do you have _____ in _____ to _____ our _____ identifiable _____ being _____?

Can _____ me _____ are _____ in place to _____ hackers _____ accessing personal _____?

Can I _____ sure _____ information _____ safe _____ hackers with _____?

Do you have _____ measures _____ place _____ identifying _____?

_____ certain that _____ is safe from hackers _____ these methods?

Is _____ possible that _____ protect my _____ information _____?

Can _____ sure _____ our personal _____ protected _____ hacking attempts?

_____ the hacking _____ data with these methods?

Do _____ have anti-hacking _____ to safeguard _____ data?

How _____ personal information _____ while using these _____?

_____ you protect our personal _____ methods?

_____ unauthorized _____ not be able to _____ identifying _____ while _____ this verification _____?

Can _____ be _____ against hacking _____ methods?

_____ your security protocols _____ from _____ accessed by hackers?

_____ information against hacking attempts?

Will _____ be _____ from gaining _____ details while using _____ of verification?

Is there any _____ to _____ hacking _____?

_____ have _____ against _____ our personal identifiable information?

I don't _____ if _____ personal _____ is _____ from hackers _____.

_____ taken to prevent unauthorized access of _____?

_____ are the _____ you have _____ personal identifiable information out _____ hands of _____?

_____ against attempts to hack _____ our personal _____?

Do you have measures _____ to _____ unauthorized _____ to _____?

_____ you _____ anti-hacking _____ in _____ to protect users' _____?

_____ we be _____ safeguards against _____ when _____ methods?

Is it _____ to protect our personal _____?

_____ there any _____ prevent hackers from accessing _____?

Do you have any _____ place _____ our personal _____?

How do I keep _____ using _____ methods?

_____ against attempts to hack _____ sensitive information?

Do _____ measures in place _____ protecting _____ identities?

Is _____ possible to ensure _____ protection against hacking attempts _____ identifiable _____?

_____ be sure that my information _____ be _____ through _____?

Is _____ any safeguards _____ authenticates.

Is _____ way to protect _____ credentials?

How _____ you _____ our _____ out of _____ of hacker?

_____ countermeasures been _____ to protect PII _____ cyber- attacks?

Are my _____ information _____ when _____ use your _____?

_____ you have _____ to keep _____ from accessing _____ information?

Is _____ prevent potential hacks on our _____?

_____ my personal _____ hacking when _____ your methods?

_____ sure _____ we _____ get hacked _____ we use _____ methods?

I _____ like _____ know _____ information won't _____ hacked _____ your process.

Is _____ possible _____ PII _____ deter hackers _____ the verification _____?

_____ you _____ me _____ protections _____ place against hackers _____ our personal information?

_____ this form of verification be _____ to _____ individuals _____ to identifying _____?

Is _____ that _____ personal _____ safe from hackers using these _____?

How do _____ our _____ information against _____ attempts?

Will unauthorized individuals not _____ gain access _____ details _____ method?

Do you _____ in place _____ users' _____ data safe?

Do you have _____ information from hackers?

_____ a _____ to protect _____ data through these _____?

Do you _____ anti-hacking measures _____ place to _____?

_____ these methods safeguard _____ information _____?

_____ methods _____ against hacks on user _____?

_____ you _____ in _____ protect users' identities from _____?

Do you think _____ protect my personal _____?

_____ sure that my personal _____ get hacked _____ process?

_____ you keep _____ information _____ from _____?

_____ do you protect against hacking _____ during _____?

_____ are you going _____ prevent _____ attempts on _____ via _____?

_____ any _____ attempts to hack sensitive _____ these methods?

Do the Authentication techniques _____ against _____?

Is _____ to _____ from _____ these verification systems.

_____ my sensitive information _____ safe _____ when _____ these _____?

_____ this verification stuff _____ against ID theft?

Are you prepared _____ at _____ specific _____ out _____ the protocol?

Are you _____ us _____ theft _____ doing _____?

Is _____ protected against hacks?

Is _____ secure _____ data hacks?

_____ have measures _____ place to prevent hackers from _____ information?

_____ you able _____ breeches aimed at _____ user-specific _____ of _____ protocols?

Are _____ protecting our personal _____ with these _____?

Is _____ protected from _____ attempts _____ verification?

I don't _____ your methods _____ my _____ them.

_____ methods safe from _____ on _____?

Are there protections _____ hack our data?

_____ think your _____ will protect my personal _____ from _____?

_____ these _____ processes be used to prevent _____?

Will _____ verification be enough _____ prevent _____ individuals _____ breaching _____ mechanisms and _____ access to _____ details?

How do you _____ your _____ information _____ using _____?

Were _____ to protect _____ personal data _____?

_____ you prepared for _____ user identification _____ the _____?

_____ you protected _____ attacks that aim to get _____ identification _____?

_____ be certain _____ personal _____ safe from hackers with _____ methods?

_____ do you _____ the _____ hackers?

Is there _____ way _____ on our _____ data through _____ techniques?

How _____ make sure my personal _____ is _____ when _____?

Do _____ place to _____ user-specific identification?

_____ guys protect _____ against _____ theft, _____?

_____ method _____ from potential _____ on _____ data?

_____ exist safeguards _____ hacking attempts _____ target _____ personal _____?

_____ assure the _____ of our personal identifiable information when _____ methods?

_____ against potential hacks on personal _____ are included _____?

Is _____ to _____ hacking _____ on our data _____ these _____?

Do you _____ any _____ to _____ the _____ of _____ personal details?

_____ safeguards _____ hacking of our personal information?

_____ assure us _____ our _____ information _____ using these methods?
 _____ you have measures in _____ from accessing _____ info?
 _____ keep _____ personal data _____ from _____?
 Is it safe to _____ these _____ our _____?
 _____ my _____ information _____ from _____ hacked _____ I _____ your methods?
 Is _____ that can _____ used to protect _____?
 Can _____ be _____ attempts _____ our data through these _____?
 How do _____ prevent _____ to _____ our _____ via _____ methods?
 _____ you have procedures in place _____ to our _____?
 Will my information _____ I _____ these methods?
 _____ details _____ safe from hacking _____ I use your _____?
 _____ you have safeguards _____ attempts _____ through these methods?
 _____ our _____ from hacks on _____?
 _____ you _____ place to _____ hackers from _____ our personal details?
 _____ a _____ keep hackers out of _____ info?
 How do you protect _____ information from _____?
 _____ there _____ protection against _____ to hack _____ information?
 _____ our _____ on personal data?
 _____ there safeguards in place _____ attempts _____ these _____?
 _____ your _____ protocols _____ hackers to access personal data?
 Do _____ assistance so _____ don't misuse our important _____ system?
 _____ way to keep _____ out _____ our information?
 _____ you _____ our personal data _____ hacked with _____?
 Do you know how _____ protect _____ hacked?
 Is _____ any _____ attempts _____ us _____ these methods?
 Is _____ to protect _____ against hacking attempts through _____?
 _____ you _____ any _____ place _____ prevent hacking _____ our private data?
 Is _____ to protect our sensitive information _____?
 Do _____ anti-hacking _____ exist for _____?
 _____ methods strong enough _____ protect my _____ from _____ hackers?
 _____ you _____ measures _____ to protect our information _____ being _____ by _____?
 _____ against possible hacks _____ be _____ in _____ authentication methods.
 How can _____ prevent _____ attempts _____ our _____ data _____ techniques?
 _____ security techniques _____ hacks _____ sensitive user information?
 _____ protect us against ID _____ using _____?
 These _____ be used to _____ personal data.
 _____ any protection _____ place against _____ stealing _____ personal _____?
 _____ we _____ the verification processes are used _____ prevent _____ access _____ data?
 _____ security been done _____ attacks _____ these methods?
 Are you _____ us _____ theft _____ verification stuff?
 _____ my sensitive _____ protected from _____ these methods?
 Do you _____ us _____ ID _____ this verification stuff?
 Is _____ safeguard against hacking _____ our personal identifiable _____ using _____?
 Do you have _____ in _____ data from hacking?
 Is our methods _____ from _____?
 Is _____ sensitive _____ from hacking while _____ methods?
 _____ not _____ my _____ identifying _____ are safe from _____ these methods.
 _____ my sensitive _____ hacking _____ these methods?
 Do the _____ prevent hacks _____ personal data?
 _____ prevent _____ attempts on _____ via these techniques?

____ your system ____ identifiable information ____?
 ____ a ____ to ____ bad ____ from ____ these methods?
 How do ____ prevent my personal ____ being hacked ____?
 ____ this ____ protect ____ against ID ____?
 Do ____ use ____ for ____ procedure?
 ____ have safeguards ____ hacks of ____ information?
 Is there measures ____ hacks ____ data included ____ theAuthentication ____?
 ____ any ____ to prevent ____ of personal data with ____?
 Do ____ have measures in place to protect ____?
 Will my sensitive information ____ when ____ these ____?
 ____ there any safeguards ____ place for ____ authenticates?
 Do ____ provided ____ against ____?
 Does ____ system make it difficult for ____ get ____?
 ____ there ____ way ____ against hacking viaauthentication ____?
 Is ____ information safe from ____ when ____ methods?
 Do ____ protect against ____ on sensitive user ____?
 Can I be ____ my personal data ____ process?
 ____ you have ____ in place ____ protecting ____ data ____ this authorization ____?
 Is ____ protection ____ hackers ____ our personal ____?
 Is ____ possible for ____ protect ____ sensitive info from ____?
 Do ____ keep ____ personal ____ hacking with ____ methods?
 ____ there safeguards in ____ against attempts ____ into ____?
 Can ____ be ____ are ____ against hacking when using ____?
 ____ possible ____ hack our sensitive ____ through these methods?
 ____ have ____ way ____ keeping ____ out of ____ info?
 Is ____ in ____ to prevent ____ from ____ data?
 Do ____ make ____ our ____ is ____ hacking attempts?
 There should be protections against attempts ____ our ____.
 Is it possible ____ to be put in ____ PII ____?
 There ____ be safeguards ____ hacking ____.
 ____ are protecting us against ID ____?
 Do you have ____ in place ____ into ____ private data?
 How ____ be sure ____ our ____ identifiable information is ____ using ____?
 Do ____ worry ____ my sensitive ____ while using these ____ methods?
 Is there any safeguard ____ to ____ through these methods?
 ____ be ____ unauthorized individuals ____ to identifying details by using ____ form of verification?
 Can I be ____ that ____ information is safe from ____?
 Can you assure ____ of our personal ____ these ____?
 ____ my personal ____ safe ____ hacking?
 ____ any protections against ____ our sensitive information?
 ____ there ____ available for ____ duringauthentications?
 ____ prepared ____ attempts to ____ user-specific ____ the credential protocols?
 Will ____ be protected against ____ using ____ methods?
 Can ____ be ____ verification processes ____ used to ____ access?
 Do ____ have any safeguards in ____ protect our ____?
 Can ____ certain that ____ information ____ when using these ____?
 Can ____ the ____ our personal ____ information when using ____?
 Are you ____ that ____ to get user-specific identification ____ credentials?
 ____ implementing these verification systems have ____ been made ____ PII ____?
 ____ these ____ to protect ____ attempts to hack ____?

____ there protections ____ place to ____ attempts ____ ____ information?
 ____ you have measures in ____ to ____ ____ procedure?
 ____ provided ____ safeguard against ____ on user ____?
 ____ have ____ in place ____ stop hackers from ____ ____ our data?
 Is ____ any ____ taken to fight hackers ____ ____?
 ____ are you able ____ ____ hacking attempts on ____ ____ techniques?
 ____ there ____ to prevent ____ aimed at ____ user-specific ____ of ____ credentials?
 Can ____ target ____ private ____ ____ stopped?
 ____ against potential hacks on personal ____ are ____ ____ in ____ methods.
 Do ____ use verification ____ ____ us against ____ theft?
 ____ you tell ____ if ____ methods protect ____ personal ____ ____ hackers?
 ____ there ____ to stop ____ attempts ____ our information?
 Will ____ not ____ gain ____ to identifying ____ ____ using ____ form of verification?
 Have ____ ____ anti-hacking ____ for this authorization procedure?
 ____ you have ____ ____ our personal identifiable ____ through these methods?
 ____ we be sure ____ ____ are ____ to prevent ____ access ____ PII?
 ____ put ____ place to ____ against ____ through these techniques?
 Can we be certain ____ the verification ____ are ____ used ____ prevent ____ ____?
 ____ you ____ ____ information is protected from hacking ____?
 ____ any protection against ____ to hack ____ ____ methods?
 Can you ____ sure ____ ____ protected ____ to hack our ____ identifiable ____?
 Will ____ ____ against hacking while ____ these ____?
 ____ you ____ precautions ____ place to safeguard ____ identifying ____?
 ____ been measures ____ ____ protect ____ from cyber attacks?
 ____ possible to protect ____ identifiable information ____?
 Is it ____ verification processes ____ taken to ____ access ____ PII?
 Do ____ offer help ____ that bad ____ don't ____ and ____ our important details ____ ____?
 ____ there ____ way ____ protect our ____ data ____ ____ methods?
 ____ you ____ your methods protect ____ ____ from them?
 ____ you ____ safeguards ____ place to ____ our personal ____?
 Do ____ measures in place to ____ users' ____?
 Do ____ have ____ place ____ will prevent hackers ____ accessing ____ personal ____?
 ____ you protecting our ____ ____ hacking ____?
 Are ____ for any ____ ____ user-specific identification from the ____?
 ____ verification processes ____ trusted ____ prevent unauthorized ____ of ____?
 Is ____ the verification ____ protects us ____ ____ theft?
 Does this protect ____ ____ hack ____ ____ information?
 ____ do you ____ personal ____ ____ out of the ____ ____ hacker?
 ____ my sensitive information ____ ____ while using ____ methods?
 ____ are ____ ____ hackers from ____ personal data.
 Can you make ____ our ____ ____ when we ____ these methods?
 Is there ____ protection ____ ____ information through these methods?
 ____ there ____ protect ____ attempts ____ hack our information using these ____?
 Do you protect us ____ ____ doing this ____?
 Do ____ protect us against ID theft ____ ____?
 ____ guys protecting us ____ ID ____ doing ____ verification?
 ____ there safeguards in place ____ ____ accessing personal ____?
 ____ method of verification ____ from ____?
 ____ these ____ methods protect ____ ____?
 How do ____ your information ____ ____ these ____?

_____ hacker _____ target users' private _____ stopped?
 Do _____ protections _____ place _____ attempts to _____ sensitive information _____ methods?
 _____ you protect us against ID _____ verification _____?
 _____ you _____ in place to _____ hackers from accessing _____?
 _____ my personal _____ protected _____ your _____?
 _____ any _____ safeguards against _____ using authentication methods?
 Do _____ sure that _____ from hacking attempts?
 _____ measures _____ in place _____ protect _____ from potential cyber-attacks?
 _____ assure the _____ of our _____ these methods?
 Can _____ sure _____ my _____ identifying details _____ safe from _____?
 How _____ prevent personal _____ from _____ hacked _____ these _____.
 _____ I be sure _____ my personal _____ are _____ exposed _____?
 Is _____ any protection _____ to _____ our information via these _____?
 Is there safeguards against attempts _____ into _____ information _____ these _____?
 Is _____ information _____ hacks?
 _____ your _____ protect personal identifiable _____ the _____?
 How are _____ going _____ prevent _____ on _____ data _____ these _____?
 _____ you doing _____ our _____ hacked using these mechanisms?
 Do _____ Authentication _____ against _____?
 Has _____ been protected _____ hacking with _____?
 _____ so that _____ don't _____ important details through your login system?
 _____ a way to protect _____ attempts to hack our _____?
 _____ you have defenses that _____ aimed at _____ identification _____ the _____?
 Do _____ have _____ to _____ our personal _____ being _____?
 Our _____ are _____ safe _____ thieves?
 How do _____ your personal identifiable _____ attempts?
 Do we _____ personally _____ during hack attempts?
 _____ hacks _____ users' private _____ be _____?
 Do you _____ in place to prevent hackers _____ to _____?
 Are _____ from _____ personal data?
 _____ you _____ the anti-hacking measures _____ place _____ safeguard _____?
 Do you tryna _____ our _____ info _____?
 How do you protect _____ personal _____ hacking _____?
 Do you _____ protect _____ information _____ hacked?
 _____ do you prevent hacking _____ verification _____?
 Can _____ be certain that my _____ won't _____ stolen _____?
 _____ identifiable _____ safeguarded against hacks?
 _____ any _____ hacking attempts against our _____ these methods?
 _____ there protections in _____ against attempts _____ our _____?
 _____ against attempts to hack _____ information through _____?
 Do _____ have anything stoppin' _____ of our _____ via these dumb _____?
 _____ any safeguards _____ Identifiable Identifiable Information?
 _____ have _____ measures in place to _____ data?
 _____ know _____ to _____ information from hacking?
 Do _____ have anything stoppin' hacker _____ our _____ information?
 _____ need to _____ about the _____ exploiting _____ identity _____ to _____ implemented _____?
 measures _____ on personal data are _____ the _____ methods?
 _____ have any precautions _____ place _____ prevent hacking attempts _____ private _____?
 Do we _____ safeguards _____ prevent _____ our information?
 _____ you _____ any kind of _____ hackers _____ our _____ information?

_____ our data _____ hacking?

Do _____ in place _____ prevent _____ from accessing our _____?

_____ we be _____ that we won't _____ these _____?

Is it possible _____ protect _____ authenticate _____.

Have measures been _____ from _____?

_____ would _____ to know _____ methods protect _____ from hackers.

Is there _____ safeguards _____ of verification?

_____ you _____ sure that our _____ is _____?

Measures _____ potential hacks _____ data _____ included _____ the _____ methods.

Do you have _____ in _____ prevent _____ hack our _____ identifiable _____?

_____ there _____ in place _____ personal data through these _____?

Do you have _____ protection _____ stealing our _____ information?

_____ you have _____ securing our information from _____?

Are _____ against ID _____ through this verification?

_____ a _____ to protect the _____ authentications?

Is _____ safeguards _____ place to _____ of our _____?

Do _____ have a way _____ keep _____ hackers _____ of _____?

_____ be able to prevent unauthorized individuals from gaining _____ this _____?

How do _____ using these methods?

_____ there a plan _____ from potential _____ attacks?

_____ really attempt _____ our _____ from getting hacked?

_____ for protecting _____ during authenticates?

Is it _____ that _____ sensitive information _____ protected _____?

_____ against _____ hacks on personal _____ be _____ in _____ methods?

_____ there any safeguards against _____ to hack _____ personal _____?

Do you _____ place _____ prevent hackers from accessing _____?

_____ do you _____ information against _____?

Efforts _____ been made to _____ and _____ have _____?

Is _____ protected _____ with _____ methods?

_____ any _____ attempts _____ hack _____ sensitive information through these _____?

_____ are _____ prevent _____ attempts on our private _____ using these _____?

Do _____ protect _____ to hack our _____ identifiable _____ these methods?

Will _____ data be protected from _____ using _____?

_____ possible that your methods _____ my _____ from the _____?

Do the _____ methods _____ hacks _____ information?

Can _____ assure the _____ of our personal _____ methods?

How _____ personal information doesn't get hacked?

How _____ we prevent _____ hacking _____ data with _____?

_____ there any _____ in _____ against _____ attempts _____ these _____?

_____ it possible _____ your _____ my _____ info from _____?

Do you have anything _____ stop _____ getting a hold _____ private _____?

_____ have _____ about hackers exploiting our identity through _____?

Do you have _____ against _____ to _____ access to _____ these _____?

_____ we be _____ that _____ processes are used to _____ access _____?

When using _____ methods, _____ you _____ our _____ identifiable information?

_____ there _____ measures to _____ personal _____ being hacked?

_____ anything you can _____ our personal identifiable _____ during authentication?

Do you offer _____ don't access _____ misuse _____ details through this _____?

Can we stop _____ from _____ methods to steal _____?

Is it _____ personal _____ to _____ with these methods?

Do ____ have ____ against ____ hack our ____ via ____ methods?
 ____ there any ____ protecting ____ during ____?
 Do you ____ information ____ identifiable ____ hacking attempts?
 ____ feasible to ____ and deter ____ when ____ these verification ____?
 Can ____ assure ____ of the ____ of ____ using these ____?
 Can you make sure ____ against ____ to hack into ____?
 Can I be ____ that ____ personal ____ won't be ____?
 ____ would like to ____ your ____ protect ____ personal ____.
 ____ you ____ anything ____ from ____ hold ____ us ____ these dumb login methods?
 ____ you ____ against ____ via this verification?
 Measures to ____ hacking ____ with ____ methods?
 Are our methods of ____ safe from ____?
 ____ sure ____ won't get hacked when ____ these ____?
 ____ this ____ verification ____ enough to prevent unauthorized ____ from gaining ____ information?
 Do ____ made to deter hackers ____ these verification ____?
 ____ identifiable information ____ from hacks?
 ____ adequately ____ against ____ on sensitive user information?
 Do you ____ place to ____ attempts ____ hack into ____ data?
 ____ to ____ my personal information is safe ____ using ____ methods.
 ____ have ____ against hackers from ____ personal details?
 ____ for ____ protect our ____ info in these methods?
 Is it possible that ____ methods protect ____?
 ____ any ____ against hacking ____ authenticate ____?
 ____ there any measures taken to ____ hackers ____?
 Is there ____ hacks ____ personal data with ____ methods?
 Is ____ safeguards against ____ authentication ____?
 Do ____ know if ____ personal ____ from hacking?
 Do ____ have any measures ____ prevent ____ access to our ____?
 Do you ____ in ____ prevent unauthorized access to ____ information?
 Do you ____ measures in place ____ users'identifying ____ through ____?
 Is ____ to prevent ____ attempts on ____ via ____ techniques?
 Are ____ methods ____ from potential ____ on ____?
 ____ safeguards against ____ hack into ____ personal identifiable information?
 ____ assure ____ of ____ against ____ hack our personal identifiable info?
 ____ given ____ guard ____ on sensitive user information?
 ____ I be ____ my ____ identifying details are ____?
 Do ____ to protect our ____ info ____ getting ____?
 ____ there ____ safeguards ____ prevent hacking ____ our information?
 ____ us against ID ____ using verification?
 ____ we ____ sure ____ our ____ identifiable ____ is protected ____ using these ____?
 ____ can ____ data from ____ hacked ____ these methods?
 Do you ____ your methods ____ protect ____ personal ____ hackers?
 Can we ____ certain ____ against hacking when ____?
 ____ know how you protect ____ personal information ____ methods.
 ____ know ____ are available ____ protecting PII?
 Do ____ to ____ our ____ info from ____ hacked?
 How do you ____ us through our ____?
 Are you ____ data with ____?
 Do you ____ any precautions ____ hackers from ____ to ____ information?
 ____ possible to count on protections against ____ methods?

Is my ____ information safe from ____ while ____?

Is ____ personal data from ____ hacked with ____ methods?

Are ____ for a possible ____ on ____ identification ____ of ____ credential ____?

Is ____ safeguards against ____ the ____?

____ are you ____ hacking ____ data using these techniques?

Can you make sure that ____ info ____?

____ this verification ____ do ____ protect ____ against ID ____?

Do ____ protect your personal data ____ these ____?

How ____ you protect ____ information ____ using these ____?

Is ____ any ____ available ____ the Personally ____ Information?

Do ____ methods include measures ____ hacks ____ personal ____?

Is ____ possible to ____ hack our sensitive ____ via ____?

Will ____ sensitive information against hacking?

____ there ____ in ____ prevent ____ on our information?

____ you protect ____ from hacking with these ____?

Are there safeguards in ____ hacking ____ methods?

____ anything ____ can ____ to protect our ____ identifiable information ____?

Do you have ____ to ____ information from ____?

Do there exist protections ____ hack ____ sensitive information ____?

Can you ____ are ____ against ____ to ____ personal identifiable info?

____ this ____ of verification be ____ prevent ____ individuals from breaching ____ protective ____ gaining ____ to ____ details?

Are you prepared ____ prevent ____ at ____ out of the ____?

____ we be ____ will not ____ hacked using ____ methods?

____ you ____ any ____ to ____ hackers ____ methods to steal ____ personal data?

____ it ____ that ____ against ____ hack into our personal ____ information?

How do you protect our ____ data from ____?

Do ____ our ____ being hacked?

Can we be sure that ____ are taken ____?

____ do ____ sure ____ personal ____ information isn't hacked?

Can you ____ sure ____ protected ____ using these ____?

____ against attempts to hack ____ through ____ methods?

Do ____ been made ____ deter ____ when using ____ verification ____?

How do I make ____ my ____ is not ____ these ____?

____ there a ____ protect PII ____?

____ against hacking with these methods?

Can ____ information ____ protected when using these methods?

____ you have ____ sure that we ____ hacked?

Can we ____ measures are ____ in ____ to ____ unauthorized ____ PII?

____ protected ____ attempts ____ our information?

Is there any ____ through these ____?

____ protected from hack attempts?

Will this ____ verification prevent ____ people from ____ your ____ and ____ access ____ details?

Can ____ assure ____ protection of ____ when ____ these methods?

____ if safeguards are ____ for ____ PII during authentications.

Is it ____ verification processes are ____ unauthorized ____ of PII?

____ to ____ hackers out ____ our info?

Have measures ____ taken to ____ PII ____ cyber- ____?

_____ protect our sensitive _____ hacking?

Do we have _____ against _____ information using these _____?

_____ want _____ know _____ protect my information _____ these methods.

You guys _____ us _____ through _____?

_____ safeguards against hacking _____ methods.

How _____ protect your _____ identifiable information _____ attempts?

Is _____ in place _____ safeguard users' _____ data?

_____ on _____ against hacking _____ these methods?

Do _____ have _____ in place to _____ access _____ personal _____?

How should we _____ hacking _____ personal _____ with _____?

Do _____ have anything stoppin' _____ from _____ hold _____ private _____?

_____ in place that _____ users' identifying data?

_____ be _____ the verification processes _____ used to prevent _____ access of _____?

_____ your _____ strong _____ to protect my _____ info _____?

Do we _____ protections in _____ against _____ sensitive information?

_____ potential hacks _____ personal data can be _____ in _____.

_____ possible for you to _____ our _____ information _____ hacking _____?

_____ you _____ our _____ these methods?

Have the _____ put in _____ PII?

_____ our identifiable information safe _____?

Do you safeguard our _____ with _____ methods?

Do the _____ methods _____ of sensitive user _____?

Do you have measures _____ to prevent _____ hacker from _____ to _____?

_____ any _____ to protect against hacking _____ Authentication _____?

Do _____ to prevent hackers _____ using _____ to access our _____ info?

Do _____ safeguards in _____ accessing our personal info?

Do _____ keep hackers _____ of the information?

Will _____ be _____ to gain access _____ while _____ this _____ method?

_____ you protected _____ from hacking?

Are _____ enough to protect _____ info from _____ hackers?

Do _____ provided _____ guard against _____ on _____?

Do _____ attempts _____ hack into our _____ information?

Do _____ keep our information _____?

_____ you _____ information from _____ attempts?

_____ you _____ able _____ stop _____ from gaining _____ to _____ while using this form of _____?

Can you assure _____ that _____ information _____ protected _____ these _____?

Can we _____ sure that _____ in place _____ prevent _____ access _____?

_____ our _____ methods _____ hacks on personal _____?

_____ information _____ protected from hacking when _____ these _____?

Can you _____ that _____ attempts on our _____ identifiable _____?

Do _____ have _____ place to protect our _____ accessed by _____?

Can I be certain _____ my personal _____ accessed _____ verification _____?

_____ you _____ safeguards _____ attempts to hack _____ through these _____?

Are our methods safe _____ unauthorized _____?

Do you have _____ to _____ user _____ identification?

Can _____ the _____ of our _____ information _____ using these _____?

Do you _____ measures _____ place _____ the hacking of _____ identifiable _____?

_____ it _____ protect personal identifiable _____ hacking attempts during _____?

_____ for attacks _____ identification in _____ credential protocols?

Measures _____ potential hacks on personal data should _____?

Is _____ implemented against attempts _____ sensitive information?
 _____ you have _____ in _____ to prevent _____ access _____ our private _____?
 _____ protections _____ place _____ attempts to _____ our _____ information?
 _____ you _____ place _____ breeches of the credentials protocols?
 Will _____ able to _____ from _____ access _____ identifying details _____ using this form of _____?
 Have measures _____ put _____ place to _____ PII _____?
 _____ have _____ to prevent _____ access to _____ information through these processes?
 Is _____ safe during hack _____?
 Can _____ be _____ the protection against hacking _____ methods?
 _____ you have _____ in place _____ hacking _____ personal identifiable information?
 _____ from _____ with these methods?
 _____ my _____ identifying _____ are safe from hackers?
 Are _____ prepared to _____ breeches aimed at getting user-specific _____?
 How do _____ my information _____ using _____?
 _____ a way _____ Hackers out of _____ info?
 Will the _____ methods _____ hacking?
 _____ my personal _____ safe _____ hackers with _____ methods?
 Is there _____ against _____ through _____?
 How can _____ personal information is _____ hacked when _____ methods?
 _____ we be sure _____ these _____ processes _____ not _____ to gain _____ to _____?
 Do _____ to protect _____ from hacking?
 _____ form _____ enough to keep unauthorized _____ breaching _____ mechanisms and gaining access to
 identifying _____?
 Can I be _____ my personal _____ are _____ against _____?
 Do you have _____ way of _____ attempts to _____ into _____?
