

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Generation source mix disclosure
Inquiry Sub-Category	Renewable energy percentage
Description	Customers request information on the percentage of electricity generated from renewable sources, such as solar, wind, hydro, or biomass, to ensure they are supporting a sustainable energy provider.
Data Size	5,018 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

_____ energy supply? Share _____ breakdown of _____ your _____ source mix.

Share _____ breakdown of _____ sources.

_____ it possible to _____ a _____ the proportion _____ by renewable sources _____ current _____?

Give me _____ of _____ your energy production _____.

_____ the _____ in your generation _____

Make _____ energy _____ sustainable by sharing _____ your _____ with _____.

Is _____ possible _____ shed _____ on what parts _____ source come _____ renewable _____?

You _____ give _____ renewable utilization _____ your _____ supply.

Discuss the breakdown _____ energy _____

_____ you tell the _____ your current _____ mix?

Can _____ a _____ of the _____ sources you _____ in _____ mix?

_____ to make _____ energy supply sustainable, _____ should give _____ your renewables.

_____ would _____ to _____ how _____ of the energy _____ from _____ sources and _____.

_____ me if your _____ renewable and how _____ your _____.

Can _____ give a _____ of renewable sources used _____?

_____ a breakdown _____ renewable _____ if we _____ to make _____ energy _____ sustainable.

Tell _____ sustainable _____ energy supply _____ how _____ renewable sources _____ use.

_____ you _____ the _____ of your current _____ mix?

_____ the _____ of renewable _____ generation mix.

_____ me about _____ sustainable _____ supply _____ how _____ of it is _____ renewable _____.

_____ comes _____ renewable _____ sustainable energy _____ is used is _____ should _____ brought to my attention.

_____ like _____ know _____ many _____ sources _____ incorporated into _____ energy _____.

_____ of _____ sources used in your generation mix _____ confirm the _____ of your _____?

_____ us how green _____ is.

Are _____ able to break _____ of _____ your energy mix?

Let me _____ sustainable your _____ is _____ what _____ of it is derived _____.

You _____ make _____ supply sustainable _____ you share _____ breakdown of _____ sources.

Tell us about _____ renewable sources _____ energy.

What percentage _____ from renewable sources _____ should tell _____.

Take _____ breakdown _____ and _____ us know _____ you want your energy _____ to be _____.

_____ me _____ and percentage of renewable energy.

_____ you give _____ renewable _____ in your generation mix?

_____ how sustainable your _____ supply is _____ how _____ of _____ come from _____.

_____ there a breakdown _____ sources _____ to your current _____ supply?

Can _____ describe _____ percentage _____ in _____ energy mix?

_____ the breakdown of your _____ mix _____.

Take the _____ renewables _____ share _____ us if you want _____ supply sustainable.

_____ you _____ me the _____ of _____ renewable generation _____?

What percentage _____ from _____ sources and what _____ used is _____ you _____ tell me.

Tell me _____ your sustainable _____ and _____ is _____ from _____ sources.

I'd like _____ of _____ sources _____ are included in your _____.

_____ me _____ how sustainable your _____ many _____ from renewable sources.

_____ you _____ me the _____ of _____ energy _____ mix?

What parts _____ your power _____ come _____?

_____ you know _____ portion of _____ come _____ renewables?

_____ know how sustainable your _____ how _____ renewable sources you _____.

How _____ your _____ supply, and how many _____?

_____ percentage _____ from renewable sources is _____ give me.

_____ provide _____ breakdown of _____ in your _____.

_____ would _____ know _____ of _____ sources and _____ energy sources used.

Can _____ of renewable energy _____ your mix?

_____ your _____ source mix of renewable _____ is _____ for _____ energy _____ sustainable.

Discuss _____ the _____ renewable _____ in your supply.

We _____ breakdown _____ your renewable source mix _____ you want to _____.

Do _____ a breakdown of the renewable _____ energy _____?

_____ the _____ in your generation mix _____ if _____ energy _____ is _____.

The breakdown _____ generation _____ of _____ is crucial to _____ your _____ sustainable.

_____ to _____ about _____ of _____ sources in my energy _____.

_____ like to know _____ the _____ of green _____ overall energy _____.

Can _____ give us the _____?

_____ breakdown _____ your renewable generation _____ is _____ need _____ your energy supply _____.

Share the _____ mix _____ see _____ it is sustainable.

It would be great _____ could share _____ breakdown _____ renewables _____.

How _____ is _____ energy _____ and how _____ it _____ from _____ sources?

_____ breakdown _____ breakdown in generation _____

_____ sustainable your energy supply is, _____ come _____ sources.

If _____ want _____ make your energy _____ should _____ your renewables _____ with _____.

_____ renewable energy _____ your Generation _____.

_____ a breakdown _____ renewable _____ used _____ your generation mix and _____ sustainability of your _____?

_____ is _____ supply, _____ a _____ of the proportion contributed by renewable _____?

_____ breakdown of _____ sources _____ share _____ want to make your energy _____ sustainable.

What percentage _____ should be brought to my attention.

Can you _____ about _____ power _____ that _____ from _____ sources?

_____ know what percentage comes from _____ and what _____ is _____ used.

_____ us about your _____ of _____.

What _____ Sources _____ your Generation _____?

_____ you _____ me about the _____ used for _____ power?

We need _____ renewable _____ source _____ if we want to make _____ supply _____.

Can _____ me _____ of _____ supply's renewable sources?

Take the breakdown of _____ renewable _____ if _____ want _____ it sustainable.

_____ details of _____ renewable _____ within your _____.

_____ you let us _____ green _____ energy _____ are?

Are _____ capable _____ providing _____ of renewable sources used _____ generation _____?

_____ the renewable _____ of _____ generation _____ us.

_____ me more _____ percentage _____ energy in _____ supply.

Tell me how clean _____ energy _____.

You can tell me _____ sources _____ is _____ energy source.

_____ you _____ your energy supply _____ you should share _____ breakdown _____ renewables.

What _____ in your _____ mix?

Discuss _____ of _____ generation's _____ content.

_____ supply sustainable by _____ the breakdown of _____ sharing it with us.

Tell me _____ your _____ energy _____ of _____ sources.

What _____ of _____ comes _____ is _____ that you _____ give me.

_____ you _____ what _____ your power _____ comes _____ renewable sources?

_____ out the proportion _____ green sources _____ your energy _____?

_____ know how sustainable _____ energy _____ is _____ many _____ sources _____ have.

_____ and what sustainable sources are used _____ I would like to _____.

_____ me _____ sustainable _____ supply _____ and _____ much _____ from renewable sources.

Can you _____ us _____ what _____ power _____ comes from _____ sources?

Can you show me _____ your _____?

I want _____ of _____ amount of _____ included in _____ mix.

_____ need your breakdown _____ your renewable sources _____ to _____ energy _____ sustainable.

_____ renewable _____ mix _____ you want to _____ your _____ supply sustainable.

_____ the _____ sources in your _____.

_____ you _____ tell me _____ power sources from renewable _____?

_____ breakdown _____ renewable sources and share _____ your energy supply _____ sustainable.

Is _____ possible to _____ what part of your _____ come _____?

What _____ comes from renewable sources and what _____ energy _____ is _____ tell _____.

How _____ is your _____ supply, as well _____ of _____ by renewable sources?

Can _____ us the _____ of the _____ in _____ energy _____?

_____ you tell me the percentage _____ energy _____ energy _____?

_____ share _____ composition in _____ sources.

_____ tell me _____ percentage of _____ energy comes _____ renewable _____.

Can you _____ light on what part of _____ sources _____?

What percentage _____ from renewable sources _____ source is _____ you _____ provide.

Do you _____ amount _____ renewable _____ included _____ your energy _____?

Can _____ breakdown of _____ sources _____ in _____ generation _____ confirm the _____ of _____ energy supply?

The renewable _____ should _____ your _____ mix.

Can _____ tell _____ percentage of _____ in my _____.

_____ you tell _____ of _____ energy resources _____ eco-friendly?

I want to _____ amount of _____ sources used _____.

What _____ from renewable _____ and _____ energy _____ is _____ things _____ want to know.

_____ like to know how much _____ of _____ mix.

_____ me _____ your sustainable _____ supply and _____ comes from _____ sources.

What _____ from renewable sources _____ what sustainable energy _____ is _____ is _____ would _____ to _____.

Can you _____ me how _____ energy _____?

Sharing _____ breakdown _____ renewable _____ will help _____ make your _____ supply _____.

_____ would like to know _____ energy _____ how _____ your energy sources are renewable.

____ your ____ generation ____ mix ____ needed ____ you want to make your energy _____.
 ____ the breakdown ____ your renewable ____ if you ____ going to ____ supply sustainable.
 ____ tell me about ____ renewables in your ____ mix?
 ____ details ____ renewable ____ energy supply.
 ____ sustainable ____ your ____ supply, and how ____ comes from ____?
 ____ know about your energy ____ renewable ____.
 Discuss your ____ renewable ____.
 ____ breakdown ____ generation source mix of ____ sources ____ energy supply sustainable.
 Share ____ breakdown ____ your ____ sources ____ make your energy _____.
 What ____ from ____ sources and sustainable ____ that you ____ me.
 ____ can make your ____ if ____ take ____ of your ____ and share them with ____.
 If you ____ to have ____ sustainable energy ____ need ____ your ____ mix.
 ____ and ____ breakdown of your renewables ____ you ____ make ____ supply sustainable.
 Discuss ____ breakdown of the ____ energy ____ mix.
 You ____ give ____ about what ____ comes ____ renewable sources and _____.
 ____ need the ____ of ____ generation source mix ____ to make our ____ supply sustainable.
 ____ can ____ me ____ energy sources and ____ much comes ____ renewable ____.
 ____ you want to ____ your energy ____ to ____ renewables breakdown.
 If ____ provide the ____ tell me ____ your ____ is.
 How sustainable your ____ what percentage comes ____ sources?
 If you want ____ energy ____ to be ____ we need the ____ renewable _____.
 It ____ important ____ know ____ renewable ____ and what sustainable energy ____ is ____.
 ____ the breakdown ____ your ____ mix.
 ____ breakdown ____ renewable sources used ____ mix in order ____ confirm ____ sustainable ____ of your
 energy supply?
 ____ tell me the ____ of your ____ resources ____?
 Provide ____ mixture and ____ me ____ sustainable your _____.
 I ____ to ____ you can provide a ____ renewable ____ in ____ mix.
 ____ comes ____ renewable sources ____ what sustainable sources ____ should be ____ to _____.
 ____ on ____ your ____ supply is.
 ____ is the contribution ____ sources to ____ mix?
 ____ you ____ to have ____ sustainable energy supply, ____ breakdown of your _____.
 Let ____ know how ____ of ____ from ____ sources.
 If you want your ____ supply sustainable, ____ to breakdown _____.
 Share ____ of your renewable sources ____ you ____ make ____ supply sustainable.
 Give ____ breakdown ____ green energy ____.
 Is there ____ breakdown showing the proportion ____ sources ____ your ____?
 ____ the percentage ____ renewable energy in your energy ____?
 ____ me the percentage of ____ energy in _____.
 ____ you ____ the percentage of your ____ resources ____ eco-friendly?
 ____ you want your energy supply to be ____ need to ____ breakdown _____.
 What ____ from renewable ____ and what sustainable energy ____ is ____ can ____ me.
 Can ____ how eco- friendly ____ power generation ____?
 ____ sources and sustainable energy source ____ you can give ____.
 What ____ sources in your ____ source ____?
 ____ the ____ of the ____ component ____ your generation _____.
 Do ____ have ____ on ____ your ____ sources are from ____ sources?
 Can you ____ the percentage of ____ in your ____?
 I want ____ know the ____ in your energy _____.
 ____ is ____ current ____ supply, including ____ breakdown of the ____ of ____?
 ____ content ____ generation mix.

_____ you want to make your _____ supply _____ renewable _____ source _____ is important.

_____ want your _____ supply sustainable, you _____ to _____ your _____.

_____ tell _____ how eco-friendly _____ resources are?

How _____ is your _____ as _____ breakdown of the proportion _____ by renewable _____?

_____ it _____ provide a breakdown _____ the _____ by renewable _____ your _____ energy supply?

Is _____ shed _____ on _____ part of _____ power _____ come from renewable _____?

_____ content of _____ mix

If _____ sustainable, you _____ breakdown _____ your renewable generation mix.

_____ percentage _____ sources _____ sustainable _____ is used should be _____ to me.

_____ breakdown of _____ renewable sources _____ you make your _____.

Can you tell _____ how _____ are.

Discuss the breakdown of _____ generation mix.

Is _____ of the _____ by _____ sources in _____ current _____ supply?

Is it _____ to _____ on _____ of your _____ sources come _____ sources?

Tell _____ about _____ supply _____ of renewable sources.

_____ percentage of _____ sources _____ something that you _____ tell me

_____ the breakdown of _____ your energy _____.

We would like _____ if _____ resources _____ energy supply.

Can _____ us _____ your energy resources _____?

_____ the _____ energy _____ your generation _____.

_____ me _____ supply _____ what percentage comes from renewable sources.

_____ a _____ of renewable _____ used in your _____ mix in _____ to _____ the sustainability _____ your energy _____?

Do _____ part of your _____ sources come from _____?

_____ give a _____ of _____ renewable sources _____ your generation _____?

Share _____ breakdown of renewable _____ in _____

Let _____ about the _____ of _____ in _____ supply.

_____ me _____ how sustainable _____ is and _____ of it _____ renewable sources.

What _____ of _____ sources in the _____ mix?

If _____ energy to be _____ you _____ to breakdown _____ mix.

It _____ to make your _____ if you share the breakdown _____.

_____ if you _____ a breakdown of _____ sources used _____ generation mix.

We need _____ breakdown _____ your renewable _____ mix _____ make your _____ supply _____.

I _____ to know _____ your _____ supply is, _____ what _____ of _____ is _____ renewable sources.

How sustainable _____ current _____ and _____ percentage is contributed _____ renewable _____?

It _____ possible _____ energy _____ sustainable by _____ of your renewables.

The breakdown of your _____ with _____ if you want to make _____ supply _____.

It _____ a good _____ share _____ breakdown in _____ generation _____.

If _____ to make _____ energy supply _____ share _____ breakdown _____.

We need the _____ of _____ generation _____ if you _____ energy _____ to _____ sustainable.

Can _____ tell _____ how renewable sources _____ used in _____?

_____ is _____ your generation mix?

What _____ sources and _____ is used is what I want to _____.

_____ to _____ in order to make your _____ supply sustainable.

_____ composition _____ your _____ of power.

If _____ to _____ sustainable, let _____ breakdown of your renewable sources.

Can you _____ the _____ resources are?

_____ can _____ your energy _____ with _____ breakdown of _____ renewable _____.

_____ tell me about _____ of _____ energy in _____ mix?

_____ tell _____ the percentage of your _____ that's _____?

Can _____ me _____ your Renewable generation mix?

What percentage of _____ are renewable, _____ your _____ supply is?

_____ is _____ current energy _____ breakdown of proportion _____ renewable sources.

_____ about _____ a _____ of renewable _____ in _____ generation mix?

The _____ generation mix _____ important for sustainable _____.

_____ you provide _____ the percentage of renewable _____?

Sharing _____ renewable sources will make your energy _____.

Share renewable breakdown in _____ to _____ if your _____ supply _____.

Tell _____ how sustainable your _____ and _____ comes from renewable sources

_____ breakdown _____ proportion of renewable sources contributing to _____ energy _____?

Tell _____ sources within your _____ mix.

We _____ the breakdown _____ your renewable _____ mix _____ make _____ supply _____.

_____ the _____ source mix's renewable _____ content.

_____ breakdown _____ energy in _____ generation mix.

Is _____ a _____ showing proportion _____ by _____ your current _____ supply?

_____ you _____ me know what part _____ your power source _____?

breakdown _____ renewable _____ mix is _____ if _____ want _____ your energy _____ sustainable.

_____ the _____ of generation _____ content

What _____ from renewable _____ energy source _____ used _____ something _____ you should tell me.

_____ can _____ percentage of _____ sources in your _____.

What _____ your _____ comes from renewable sources, _____ sustainable _____ your _____?

What percentage of _____ comes _____ renewable _____ should _____ my attention.

What proportion _____ power is _____ your _____?

_____ you _____ what part of your power _____ from _____?

_____ how sustainable your _____ supply is, and _____ percentage _____ it is _____

How _____ supply is, and _____ sources are you _____?

The _____ breakdown _____ generation _____ be shared with _____.

Can you _____ on _____ part of your _____ renewable sources?

_____ breakdown of renewable energy _____ from your _____.

Discuss _____ of _____ energy of your generation _____.

Can you tell _____ eco-friendly _____ is?

_____ the breakdown _____ energy sources _____ your generation _____

I _____ to know _____ renewable sources _____ are _____ energy mix.

_____ percentage comes from renewable sources _____ supply is?

Did _____ that _____ can _____ a _____ renewable _____ used _____ your generation mix?

How _____ your _____ energy supply, _____ breakdown of _____ proportion contributed _____ sources.

Share _____ your generation _____.

What _____ energy comes _____ sustainable _____ is something _____ tell _____.

I _____ know _____ proportion _____ green _____ in _____ energy outputs.

Can _____ let _____ know how _____ your _____ generation _____?

Can you _____ light _____ what _____ of _____ sources come from _____?

_____ have _____ question about _____ green _____ in your _____ energy output.

If you want to _____ energy supply _____ you need _____.

_____ you tell me _____ renewable energy _____ your energy _____?

You _____ breakdown your _____ source _____ you want _____ your energy _____ sustainable.

_____ able _____ me the breakdown _____ renewable _____ in my _____ supply?

_____ is derived _____ and _____ energy _____ should be _____ to my attention.

What _____ of _____ from _____ is something that _____ can _____ information on.

Share _____ with us _____ want to make your energy supply _____.

What _____ comes from sustainable energy _____ is _____ give _____.

_____ you _____ to _____ your _____ supply _____ we need _____ renewable generation mix

Can you provide a ____ of ____ sources ____ in ____?

We need the ____ generation source ____ renewable ____ if ____ want to ____ energy ____ sustainable.

____ your ____ generation source mix is important if ____ want your energy ____.

Can ____ tell ____ the ____ of ____ renewable ____ you ____?

Take the ____ of your ____ share ____ you want ____ make ____ sustainable.

We need the breakdown ____ your ____ source mix ____.

____ you ____ supply to ____ you ____ breakdown ____ renewable generation source mix.

____ me the breakdown ____ how green ____ energy ____ is?

How ____ are your energy ____ percentage comes from ____?

I ____ to know the percentage ____ in your ____.

____ you want to make ____ share the ____ your ____ sources.

Tell ____ the ____ of renewable ____ that ____ get.

Provide ____ the renewable ____ within ____ generation mix.

The breakdown of your ____ source ____ renewable ____ you to make ____ energy ____ sustainable.

____ me ____ your ____ sources ____ and how ____ your supply ____.

We ____ the ____ the generation ____ mix of ____ sources to make ____.

Please ____ the ____ of ____ in your generation ____.

If ____ want ____ make ____ energy supply ____ there needs ____ be ____ breakdown of ____ renewable ____.

Tell ____ how ____ your energy ____ is, ____ renewable sources ____.

____ supply to be sustainable you ____ to breakdown ____ renewable ____.

____ me about ____ power source ____ renewable energy.

If ____ your ____ sustainable, ____ must give us the ____ of your ____.

____ of your renewables can ____ shared ____ your energy ____.

____ you provide ____ breakdown ____ renewable ____ in ____ mix?

____ proportion ____ renewable energy ____ in your ____?

We need the ____ of your renewable ____ you ____ energy supply ____.

What percentage of energy ____ sources is ____ you can ____.

Tell ____ percentage ____ sources ____ renewable energy ____ your ____.

What percentage comes ____ how sustainable ____ is ____ should ____ more information.

How ____ your ____ supply, and ____ percentage comes ____ renewable ____?

Is there a ____ the proportion of ____ sources ____ supply?

____ us ____ your ____ generation ____.

____ breakdown of ____ and share it with ____ people to ____ supply ____.

Share renewable breakdown ____ generation ____ energy supply is sustainable.

What ____ comes ____ renewable ____ and what ____ energy sources ____ is ____ would like to ____.

____ us about your energy ____ sources.

Share the ____ of ____ mix.

Do you ____ percentage ____ renewables ____ generating power?

____ you tell me ____ renewables ____ your ____ mix?

Can ____ provide a ____ renewable sources used ____ your ____ and ____ sustainable ____ your energy supply?

____ can ____ me information ____ sources ____ sustainable energy.

____ to know about ____ sources in the ____ output.

____ would like to know what percentage comes ____ renewable ____ what ____.

____ your ____ is, and ____ many of ____ from renewable sources.

I ____ like ____ know ____ percentage ____ from ____ sources and ____ energy ____ is.

____ sustainable ____ energy supply is and how many renewable ____.

____ you ____ part of your power generation ____ renewable ____?

What percentage ____ how sustainable energy ____ used ____ be ____ to my ____.

____ want to ____ your supply sustainable, we ____ the ____ renewable source ____.

The ____ of ____ renewable generation mix is key ____ supply ____.

_____ much green _____ your generation mix?

_____ what _____ of _____ you have.

Do you have _____ breakdown _____ the _____ renewable sources _____ current energy _____?

_____ renewable mixture and _____ how _____ energy is.

_____ energy _____ of your _____ mix

_____ me _____ percentage _____ renewable resources in _____ energy mix?

_____ me _____ sustainable your _____ supply is, _____ what _____ from renewable sources

_____ the _____ of green _____ in my energy output.

_____ percentage of energy _____ from renewable _____ given _____ by you.

_____ tell _____ the percentage _____ renewable _____ that _____ have?

_____ from renewable sources _____ what sustainable energy sources are _____ can give me.

The percentage of _____ generation mix should _____.

_____ percentage _____ renewable sources and _____ energy sources _____ something _____ tell _____.

_____ me _____ your sustainable energy _____ renewable _____ sources you have.

_____ you _____ to make your _____ need _____ share the breakdown _____ your _____ with us.

Tell me about _____ energy _____.

_____ need _____ of your _____ generation _____ your _____ supply more sustainable.

What percentage _____ energy comes _____ renewable sources and _____ I _____ like to know.

_____ tell _____ what _____ comes from _____ and what sustainable _____ source _____ used.

Tell me _____ energy and _____ mixture.

To make your _____ supply _____ need to share _____ of _____.

We need _____ breakdown _____ generation source _____ of _____ to _____ your _____ sustainable.

_____ you _____ me the _____ of _____ in _____ energy supply?

_____ breakdown _____ renewable generation _____ is required for _____ energy _____ sustainable.

_____ a _____ of _____ sources used in _____ mix?

Can _____ tell me _____ of green _____ energy output.

_____ breakdown of _____ sources is _____ you want your energy _____.

_____ me the sustainable and _____ your _____ supply.

We _____ of yourrenewable source _____ your energy supply _____.

_____ from renewable _____ and which sustainable _____ source _____ used _____ brought to my _____.

_____ give stats _____ renewable utilization _____ your energy _____.

Can _____ me a _____ of _____ green _____ energy output?

Discuss _____ energy _____ your _____.

_____ your _____ supply is, and _____ much _____ is derived _____ renewable _____.

Can you _____ us _____ of _____ resources _____ are green?

Please _____ breakdown _____ the renewable _____ you _____.

_____ you _____ me about _____ used in your _____ mix?

Tell _____ your _____ supply _____ and _____ percentage of _____ comes _____ sources

_____ percentage comes _____ sources and _____ sustainable is _____ energy _____?

There _____ a _____ of _____ renewable generation mix to make your _____.

Tell _____ the _____ to which _____ sources are _____.

_____ from renewable sources and _____ sustainable energy _____ used _____ you can tell _____.

_____ your _____ sources _____ share them with us _____ want to make _____ supply sustainable.

I am curious as _____ what _____ from _____ and _____ source is _____.

_____ know about your renewable _____.

_____ of sustainable _____ comes _____ is something you should tell _____.

_____ you _____ give a _____ the _____ contributed by _____ your current energy supply?

What _____ Renewable Sources _____ generation _____?

_____ the renewable energy _____ mix.

Let me know the _____ of _____ sources _____ your _____.

Can you give _____ breakdown _____ renewable _____ in _____ mix?
 _____ need the breakdown of your renewable _____ to _____ sustainable.
 _____ renewable _____ in your generation mix to _____ if _____ energy _____ sustainable.
 _____ is _____ well as a _____ the proportion contributed by renewable sources?

Discuss _____ content _____ generation mix
 _____ can make _____ supply _____ by sharing _____ breakdown of _____.
 _____ need _____ breakdown of your renewable source _____ want your _____ sustainable.
 If _____ want _____ energy supply sustainable, _____ give the _____ your _____ sources to us.
 What percentage _____ renewable _____ sustainable are _____ energy sources?
 We'd _____ know the use of _____ resources _____ supply
 _____ sustainable your _____ is, and how _____ renewable _____ sources _____.
 _____ the _____ of _____ energy content _____ generation mix.
 How _____ is, and how _____ renewable _____ sources _____ have?
 _____ a _____ at your generation _____ renewable _____ content.
 Are _____ to tell us the percentage _____ renewable _____?
 Can _____ percentage _____ your energy _____ are green?
 _____ me _____ the _____ of _____ sources in _____ supply.
 What percentage _____ renewable _____ and what sustainable energy _____ used is something that _____.
 _____ renewable _____ what sustainable _____ uses is something you _____ give me.
 What _____ of renewables _____ mix?
 Discuss the _____ of _____ in _____ mix.
 _____ of the renewables _____ generation mix.
 Let me know _____ energy supply _____ and _____ renewable sources.
 _____ I _____ an _____ of the proportion _____ green sources _____ output?
 _____ you _____ idea of _____ of renewable sources in your _____?
 Share _____ on your _____ mix.
 _____ would like to _____ many green sources _____ output.
 _____ it _____ to shed light on the _____ your _____ renewable _____?
 If you _____ make your energy _____ share _____ breakdown of your _____.
 Take the _____ if you want your _____ supply to be _____.
 Tell me _____ your energy _____ is _____ and _____ of _____ renewable sources.
 _____ let me know what _____ from _____ sources _____ sustainable energy _____.
 _____ of your power sources _____ from renewable sources.
 You can tell _____ renewable _____ what sustainable energy _____ used.
 Discuss _____ breakdown of _____.
 Please _____ breakdown _____ generation source mix _____ sources.
 Let _____ how sustainable _____ is, _____ how _____ energy you have.
 How sustainable _____ energy sources and _____ many _____?
 Discuss the _____ your _____ renewable _____
 _____ you _____ to make _____ supply _____ take _____ of your _____ energy _____ share them _____ us.
 How sustainable is _____ current energy _____ and _____ sources?
 _____ your power _____ and _____ of renewable sources.
 _____ like to know the _____ renewable sources _____ energy mix.
 Share _____ breakdown _____ generation _____
 Can you give _____ of _____ in _____ mix?
 _____ need your _____ generation mix breakdown _____ energy supply _____.
 In order _____ energy _____ the _____ of your renewables and _____ them _____ us.
 Give me _____ green _____ energy _____ is.
 _____ percentage _____ from renewable _____ and what _____ energy _____ is utilized is _____ to _____.
 _____ me how _____ your _____ how _____ those _____ from renewable sources.

_____ sustainable is your _____ energy _____ a _____ contributed by _____ sources?
 _____ want to have _____ sustainable _____ you _____ to breakdown _____ source mix.
 _____ percentage _____ comes _____ sources and _____ sustainable it is should _____ given _____.
 _____ on _____ utilization _____ your energy _____ be provided.
 Can you tell _____ of your _____ comes _____ sources?
 _____ the breakdown: how green _____ your _____?
 _____ breakdown _____ your source _____ renewable _____.
 If _____ want _____ supply, you need to _____ your _____ sources.
 How _____ sharing _____ renewables in your _____ source _____?
 _____ renewable _____ and tell me _____ sustainable _____ is.
 Let me know _____ you _____ sustainable _____ supply _____ percentage _____ renewable _____.
 What percentage _____ from _____ and sustainable energy is something _____.
 Is _____ breakdown of the proportion _____ by _____ sources _____ energy _____?
 What percentage comes from _____ is _____ supply?
 Can you _____ friendly your _____ resources are?
 _____ power comes _____ sustainable sources?
 You _____ me _____ from renewable sources _____ what sustainable sources _____ used.
 _____ sustainable _____ energy _____ is _____ breakdown of the proportion contributed _____ sources?
 Share _____ breakdown of your _____ you _____ to _____ energy supply _____.
 _____ part _____ your power sources _____ renewable _____ can you _____?
 Will you be able _____ tell _____ what _____ power sources _____ sources?
 Can _____ tell me _____ percentage _____ renewable energy _____?
 _____ the _____ of _____ renewable _____ mix if you want your _____.
 Tell _____ the _____ of renewable sources in _____.
 _____ you _____ of your renewable sources.
 Can _____ tell me _____ your power comes _____ sources?
 _____ renewable energy content _____ mix
 _____ tell _____ the percentage _____ in my _____ mix.
 What is _____ portion of _____ generation _____?
 _____ me about _____ energy supply _____ how _____ it _____.
 _____ breakdown for _____ green your energy production _____.
 _____ yourrenewables and _____ them _____ us if you _____ to make your _____ supply _____.
 _____ you _____ me the _____ of renewables _____ mix?
 Can I find _____ the _____ of _____ in _____ energy _____?
 The breakdown _____ your _____ generation _____ is _____ if you _____ make _____ supply _____.
 _____ should _____ what _____ comes from renewable sources and _____ sustainable _____ source _____
 _____ is the proportion _____ generation sources _____ your _____?
 What _____ energy _____ used _____ something you _____ me.
 Share the _____ of renewable sources in _____.
 _____ the _____ of _____ source mix's _____.
 _____ me _____ sustainable your _____ is _____ percentage _____ from renewable sources
 Can _____ provide _____ breakdown _____ renewable _____ used in _____ mix _____ dependability of your _____ supply?
 Discuss therenewable _____ content _____ mix.
 _____ breakdown of _____ generation source mix is _____ sustainable _____.
 _____ your renewable _____ in _____ generation _____.
 _____ the _____ of yourrenewable sources _____ make _____ supply sustainable.
 _____ you _____ me a _____ of _____ sources _____ generation mix?
 _____ you tell me _____ power is in _____ mix?
 _____ give me _____ information _____ sources in _____ energy output?
 _____ you _____ of renewable sources _____ in your generation _____ in _____ to confirm _____ your _____ supply?

_____ you tell _____ your _____ sources from _____ sources?

_____ the _____ Energy content _____ your _____.

Will you let me _____ what _____ sources come _____ sources?

_____ need the breakdown of _____ mix of _____ you _____ make your energy _____ sustainable.

_____ tell me if _____ use sustainable _____ for _____?

Tell _____ your _____ is.

_____ energy _____ to be sustainable, _____ need a breakdown of your _____.

Is _____ possible to _____ information _____ what part of _____ sources _____ renewable _____?

Please _____ renewable breakdown _____ mix.

_____ tell me the _____ of _____ sources _____ power?

_____ like _____ of _____ sources that _____ in your energy mix.

I would love _____ know _____ from _____ sources and _____ source is _____.

_____ important _____ your renewable _____ to _____ your energy supply _____.

Can you shed light _____ what part _____ your _____ energy?

Can you _____ of your _____ mix is _____?

Can _____ about _____ renewable sources _____ energy?

_____ comes _____ sources and what sustainable energy sources are _____ be _____ a _____ more _____.

_____ the percentage _____ renewable _____ in your _____ supply.

What percentage _____ from _____ sources and _____ energy _____ should be given _____.

_____ energy content _____ generation mix.

What _____ comes from _____ sources _____ sustainable _____ source _____ be brought _____ to me.

_____ find out _____ resources are _____ in your energy _____.

What percentage _____ from renewable sources, and _____ source is used _____ brought _____.

How _____ is _____ supply? _____ percentage comes _____ renewable _____?

_____ a breakdown of your _____ energy _____?

_____ tell _____ how much _____ the energy comes from _____ sources _____.

Tell me _____ your _____ supply _____ and how much _____ from _____.

_____ renewable _____ mix _____ if you _____ make your energy _____ sustainable.

_____ renewable sources _____ source is used _____ something you _____ tell me.

How sustainable _____ energy supply is and _____ sources.

_____ tell _____ the percentage of _____ resources in _____ energy _____?

_____ generation source _____ breakdown _____ renewable _____

How much _____ sources _____ in _____ energy output?

_____ it _____ for _____ to _____ breakdown _____ renewable sources used in your _____.

You _____ give me _____ on what _____ used.

Can you _____ a breakdown of _____ that _____ in _____ generation _____?

Can you tell _____ of _____ in _____ energy output?

What _____ proportion of _____ in your _____ source _____?

Can you _____ a breakdown _____ your energy _____?

_____ need _____ breakdown _____ your _____ source _____ you have _____ sustainable energy supply.

What percentage _____ sources and what sustainable _____ source _____ used _____ that I _____ know.

Discuss the breakdown of renewable _____ mix

What _____ your energy _____ from renewable _____ how _____ supply is?

Can you _____ of renewable _____ used _____ your generation _____?

Tell _____ the _____ of renewable _____ in _____ energy _____.

Discuss the breakdown _____ the _____ energy _____

_____ renewable _____ are _____ the _____ mix?

_____ sustainable is your current energy supply, and _____ of _____ sources?

Discuss _____ mix's _____ energy _____.

How _____ your current energy _____ breakdown _____ the percentage contributed _____ sources?

Please share _____ of _____ your _____ source mix

If you _____ energy _____ to _____ sustainable, take _____ renewable sources and share _____ us.

Share the _____ the _____ in _____ generation _____ mix.

Can you _____ of renewable _____ you have?

We need _____ of your _____ sources _____ sustainable _____.

I would like _____ know _____ percentage _____ sustainable energy _____.

_____ you _____ know how _____ your energy resources _____?

_____ a _____ in _____ generation mix.

Can _____ tell _____ about _____ sources?

_____ is your current _____ energy, including a _____ of proportion _____ by _____?

_____ the breakdown _____ your _____ source _____ to _____ your _____ supply is sustainable.

You _____ me _____ comes from renewable sources and what sustainable _____ source _____.

Your renewable _____ mix needs _____ broken _____ if you want _____ your energy _____.

_____ you tell _____ the percentage _____ currentrenewable generation _____?

_____ the _____ of renewable _____ to make _____ energy _____ sustainable.

_____ your energy _____ and _____ many _____ from renewable sources?

I _____ like to know _____ percentage _____ sources _____ sustainable _____ source is _____ used.

Tell me _____ many renewable _____ are _____ energy _____.

_____ breakdown of _____ renewable generation source _____ if you _____ make your _____ sustainable.

Share _____ in _____ mix

Can you give _____ breakdown _____ renewable sources used _____ generation mix, _____ confirm _____ sustainable _____ energy _____?

Please _____ breakdown _____ generation _____ mix of renewable _____.

_____ provide a breakdown of _____ used _____ your generation _____ your _____ supply?

What _____ of renewable energy is _____ something that _____.

_____ you _____ me _____ your energy _____ is?

If you _____ sustainable, you need _____ of your _____ source _____ of renewable sources.

_____ sources _____ up a _____ your _____ production?

_____ should tell _____ is _____ and what percentage _____ from renewable sources.

_____ renewables in your generation mix.

_____ breakdown of renewable _____ your energy supply?

Do _____ know the percentage of _____ generation _____?

_____ you _____ on how much _____ power _____ from _____ sources?

Tell _____ how sustainable _____ energy _____ and what percentage _____ sources.

_____ renewable sources _____ something that _____ can tell me.

_____ describe the percentage of _____ mix?

You can _____ supply _____ if you take the _____ your _____ and _____.

_____ percentage _____ energy comes _____ is something _____ tell _____ about.

The _____ of _____ can _____ if you want _____ make _____ supply sustainable.

_____ of _____ comes from renewable _____ should be brought _____ my attention.

_____ source is _____ something you can _____ me.

Can you _____ light _____ your _____ sources come from _____?

Can _____ us know what part _____ your _____ renewable sources?

Do _____ what amount of _____ power is _____ generation _____?

_____ green power is involved in your _____ mix?

What percentage _____ renewable _____ sustainable _____ is used, is _____ I want to _____.

_____ of renewable energy sources?

_____ comes from renewable sources _____ something I _____ like to know.

Tell me how _____ energy supply _____ percentage of _____ is derived _____.

Do _____ on how much _____ power _____ in _____ generation mix?

Are _____ renewables _____ your _____ eco-friendly?

____ you provide a breakdown ____ sources ____ your ____ mix?
 ____ like to know what ____ from ____ sources and ____ energy source ____ .
 Discuss ____ content from ____ mix.
 ____ sustainable ____ your current ____ supply, ____ breakdown of ____ contributed by renewable ____ ?
 Tell ____ supply is and ____ percentage ____ it is from renewable ____ .
 Is it possible to ____ breakdown ____ renewable ____ in ____ Generation ____ ?
 ____ possible to ____ light on ____ your ____ sources come ____ sources?
 You ____ give me ____ renewable and ____ sources ____ energy ____ used.
 If ____ want your energy ____ be ____ to ____ your renewable ____ .
 ____ you ____ your energy ____ be sustainable, ____ need a ____ of ____ generation ____ mix.
 ____ you ____ know ____ part of ____ power sources ____ from renewable ____ ?
 Are ____ to ____ breakdown of ____ sources used ____ your ____ mix?
 ____ to shed light on ____ part of ____ power ____ come from ____ ?
 The ____ of ____ source mix ____ if ____ make your energy ____ sustainable.
 What percentage comes ____ sustainable ____ sources is ____ should ____ .
 Tell me how ____ your energy supply ____ how it ____ .
 ____ breakdown of your ____ generation mix is needed ____ want ____ be ____ .
 Can you ____ people ____ your energy ____ ?
 Discuss ____ the renewable ____ your generation mix.
 ____ of your ____ sources ____ you ____ your energy ____ to be sustainable.
 You ____ me the ____ on how ____ energy production ____ .
 How sustainable ____ your ____ supply including a breakdown of ____ sources?
 I want to ____ the ____ renewable sources ____ mix.
 ____ your ____ sources ____ your ____ mix?
 ____ percentage ____ renewable sources and ____ is used should ____ more information.
 The percentage ____ renewable ____ mix ____ disclosed.
 What ____ comes from renewable ____ something you ____ tell ____ .
 ____ breakdown of your ____ mix ____ important ____ your energy supply ____ .
 ____ breakdown of ____ renewable ____ and share it to ____ sustainable.
 ____ give ____ breakdown of ____ generation source ____ of ____ energy.
 ____ tell me the ____ your energy resources ____ are ____ ?
 Tell me ____ much of ____ energy ____ from ____ .
 ____ you ____ tell ____ the ____ of ____ sources ____ overall energy output?
 Did ____ you ____ a breakdown ____ renewable sources used ____ mix?
 Can you share ____ renewables ____ generation mix?
 Take the ____ of ____ and ____ with ____ you ____ to make your energy ____ .
 I'd ____ many ____ sources are included ____ your energy ____ .
 ____ about the ____ renewable energy sources you ____ .
 The ____ energy ____ of your ____ be discussed.
 ____ give me information about ____ comes from renewable sources ____ what ____ used.
 If you want to make ____ sustainable, ____ of your renewable ____ .
 What percentage comes ____ sustainable ____ is ____ should ____ me.
 ____ comes ____ renewable ____ and sustainable energy sources should ____ tell me ____ .
 ____ provide ____ breakdown of your generation ____ of ____ .
 How ____ of your energy mix ____ generated ____ ?
 ____ renewable breakdown ____ your generation ____ see ____ your ____ supply is ____ .
 You ____ how eco-friendly your power generation ____ .
 ____ how ____ your ____ is and ____ many of ____ come from ____ sources.
 Please provide ____ and tell ____ sustainable your energy ____ .
 If you ____ your energy ____ be ____ you need to ____ source ____ .

_____ your generation source _____ of renewable energy.

_____ possible to _____ me what _____ of your _____ from _____ energy?

_____ comes from _____ sources and _____ sustainable energy _____ is _____ can give me _____ about.

What percentage _____ energy _____ sustainable sources is _____ me.

You need to _____ what _____ from renewable sources _____ what _____ energy _____.

Please tell _____ your energy _____ is, and _____ of _____ comes _____ sources.

The _____ your _____ is crucial to making your _____ supply _____.

_____ me _____ your renewable energy sources _____ are.

_____ be _____ to tell _____ what part of your _____ come _____ renewable _____?

_____ to know the amount _____ green _____ in my _____.

_____ your _____ sources in _____ mix.

The breakdown of _____ mix's _____ energy content _____.

_____ you _____ us a _____ of _____ proportion _____ your current energy supply?

Take _____ your renewables, and share it if you _____ sustainable.

Tell _____ how _____ energy _____ is and how _____ from _____ sources.

If _____ to _____ supply sustainable, share your _____ breakdown.

_____ you can _____ me about what _____ of _____ sources come _____ renewables?

_____ renewable energy _____ breakdown.

_____ me the percentage _____ in the _____ supply.

Tell us _____ sources.

_____ amount of renewable _____ within _____ generation mix.

_____ generation _____ renewableenergy content.

_____ percentage _____ renewable sources and _____ energy _____ something you _____ me.

_____ the renewable _____ your _____ mix

_____ you provide a _____ renewable _____ your generation mix?

_____ you able to share _____ breakdown _____ in _____ supply?

_____ wish to know _____ amount _____ included _____ energy mix.

The _____ of your generation source _____ sources _____ necessary _____ your _____ sustainable.

_____ and _____ me how sustainable your _____ is.

_____ want _____ make your energy supply _____ the _____ yourrenewables.

Can you provide _____ breakdown _____ used in _____ generation _____ in order _____ confirm your energy _____?

Share _____ breakdown _____ generation _____ your _____ mix.

_____ give me what _____ comes from sustainable _____.

Please tell _____ percentage of _____ energy _____ fromrenewable sources.

_____ would like _____ know _____ resources are utilized in _____.

Can you give a breakdown _____ your generation _____?

_____ me _____ sustainable your energy _____ and _____ percentage _____ derived _____ renewable sources.

_____ like to _____ the percentage of renewable _____ energy mix.

Share the _____ in your _____.

You can _____ me what _____ renewable sources and what _____ source _____.

_____ the proportion _____ renewable _____ your generation _____?

Share your _____ if _____ to make _____ energy _____ sustainable.

_____ you tell _____ the percentage _____ sources _____ energy?

What _____ of energy _____ renewable sources _____ you _____ me.

_____ me _____ much of your _____ fromrenewable _____.

What percentage _____ from _____ is _____ you can _____ me information _____.

Do you _____ what _____ your power sources _____?

_____ to know _____ amount _____ sources in _____ energy mix

Can you tell _____ renewable _____ my _____ mix?

_____ share _____ breakdown of _____ renewable sources in _____.

_____ share the _____ breakdown _____ your generation _____.

Were _____ to _____ a _____ of _____ contributed by renewable sources in your _____?

_____ of your _____ and share _____ to _____ your supply _____.

Discuss _____ source _____ energy _____

_____ tell me _____ percentage _____ your _____ generation mix?

What _____ the proportion _____ renewable sources _____?

_____ percentage from renewable sources _____ what sustainable _____ is _____ should _____ more _____.

Let me know _____ provide _____ breakdown of renewable _____ in your _____.

I would like _____ know what percentage _____ from _____ sources _____ used.

_____ about renewable _____ sources in your _____.

Can _____ me _____ the percentage of _____ in _____ energy _____?

Can _____ tell me _____ eco-friendly your _____ is?

Can you show us the _____?

_____ energy _____ sustainable, take the breakdown _____ renewables and _____ it.

_____ need _____ breakdown of your _____ in _____ to make _____ energy _____ sustainable.

What percentage of _____ comes from _____ sources _____ source is used _____ be _____ information.

How _____ is your _____ energy supply, _____ a _____ featuring the _____ renewable _____?

How renewable is _____?

_____ know _____ sustainable your _____ is, _____ how _____ renewable energy sources _____ have.

_____ you _____ me the amount _____ in my generation _____?

_____ a good idea _____ give _____ information _____ sustainable energy _____ and _____ from _____.

_____ sustainable your _____ is _____ give _____ renewable mixture.

What percentage _____ from _____ sources and _____ I want _____ know.

I want to _____ involved in your energy _____.

_____ on the _____ within your _____ mix.

_____ to be _____ down _____ you _____ to make _____ energy supply sustainable.

Let _____ know how _____ your _____ is, _____ percentage of it is _____ sources.

_____ know how renewable resources are _____ your energy _____.

_____ breakdown _____ in your generation _____.

Can _____ provide me with the _____ of _____ energy _____?

How _____ current _____ including _____ the percentage contributed by renewable sources?

I want to know about the _____ in _____.

How sustainable _____ current _____ supply, _____ breakdown _____ proportion contributed _____ renewable _____?

_____ tell me the _____ of sustainable _____ from renewable _____.

What _____ comes _____ sources _____ what _____ is something that _____ be brought to my attention.

_____ me the _____ renewable sources in your _____.

_____ breakdown _____ renewable sources in your energy _____?

I need information _____ percentage comes _____ renewable sources _____ what _____ source _____.

Can you _____ me _____ proportion _____ renewable sources _____ your _____?

Tell _____ about _____ energy _____ sources of _____ energy.

What _____ renewable sources _____ is something _____ give me.

_____ the _____ mix _____ your _____ energy.

_____ to _____ renewable _____ are _____ in your energy supply.

_____ you know _____ green power _____ in _____ generation _____?

What _____ of _____ energy comes from renewable _____ is _____ me.

I _____ a question about _____ percentage of _____ sources _____.

_____ statistics on _____ of _____ energy in _____ supply.

Can _____ tell _____ of _____ sources _____ your energy output?

What _____ energy is _____ something _____ should tell me.

Discuss _____ energy _____ in your generation _____.

If ____ want to make your ____ need your ____ source ____ breakdown.
 ____ renewable ____ tell me how sustainable ____ energy ____.
 What percentage ____ your ____ supply ____ sources, ____ your supply is?
 Are there any numbers ____ much ____ in ____ generation ____?
 ____ give ____ the breakdown of renewable ____ energy supply?
 ____ tell ____ percentage of renewable ____ in your energy ____?
 Can you ____ light on ____ of ____ comes from renewable ____?
 ____ is your current energy supply, a ____ contributed ____ sources?
 ____ me ____ energy supply is, ____ how ____ of your sources ____.
 What ____ of ____ sources ____ in ____ generation source ____?
 If ____ to ____ your energy supply ____ to breakdown ____ generation ____ mix of ____ sources.
 Is there ____ breakdown ____ the proportion ____ in ____ current energy ____?
 ____ percentage of ____ comes ____ sources ____ something ____ you should ____ about.
 ____ me how much of ____ energy ____ from ____.
 ____ part ____ your energy mix?
 ____ breakdown of renewables in ____ generation ____?
 You think ____ energy supply ____ sustainable ____ which ____ comes ____.
 Can ____ provide a breakdown ____ renewable sources ____ in ____ the ____ supply's longevity?
 You ____ me the ____ that comes ____ renewable ____ and ____ energy ____.
 ____ you provide ____ of ____ sources?
 I would like ____ the ____ renewable sources ____ sustainable sources ____.
 ____ you ____ the breakdown ____ the renewable sources ____ your ____?
 ____ need ____ breakdown ____ your renewable ____ mix to ____ your ____ sustainable.
 Can you tell ____ of green ____ in my ____?
 ____ much ____ energy is renewable.
 Is it possible to show ____ breakdown ____ sources ____ mix?
 I ____ like ____ know ____ amount ____ energy sources ____ your ____.
 ____ let me ____ how ____ your power generation ____.
 Tell ____ about the ____ sources ____.
 What ____ the ____ of renewables in ____ generation ____?
 breakdown of your ____ sources is needed if ____ make ____.
 What ____ of renewable energy ____ generation ____?
 Share ____ composition in ____ energy?
 Can you show ____ much ____ in your ____?
 Tell ____ much of ____ is renewable
 ____ your ____ need a breakdown ____ your generation source mix ____ renewable ____.
 ____ breakdown of ____ renewable ____ you are going ____ make your energy ____.
 We ____ breakdown your ____ source ____ sources to ____ your energy supply ____.
 Do you ____ the amount of ____ in ____?
 Can ____ give ____ breakdown ____ in your generation mix ____ confirm ____ your energy supply?
 Can you ____ me ____ eco-friendly your power ____?
 ____ you should tell ____ comes from renewable sources.
 ____ tell ____ of renewable sources ____ the energy mix?
 Discuss the ____ your generation ____.
 ____ me know ____ your ____ supply is ____ how much ____ comes from ____.
 If you ____ your energy ____ take the ____ of your ____ share ____ with us.
 Take the ____ of ____ and share them with us ____ your ____ supply to ____.
 ____ to know how ____ your energy ____ is ____ much comes ____ sources.
 ____ from renewable sources is ____ you ____ tell ____.
 ____ about your renewable ____ sources.

Do you ____ a ____ the ____ sources in your ____ supply?
 ____ a breakdown ____ used in your generation mix?

What percentage of ____ from sustainable ____ can tell me.
 Can ____ find ____ many ____ you use in your ____?

Tell me ____ much renewable ____ make ____ energy ____.
 How sustainable ____ your ____ supply, and ____ many ____ come ____ renewable ____?
 ____ you ____ me ____ the percentage ____ energy resources that ____?
 ____ provide us ____ a ____ renewable ____ used ____ the generation mix?

It's important to breakdown your renewable ____ your ____ sustainable.
 ____ able ____ give ____ a breakdown ____ sources used in ____ mix?

The ____ of ____ generation mix ____ shared.
 If you want ____ supply sustainable, you ____ a ____ renewable generation ____.
 ____ a ____ your generation source ____ of renewable ____.
 ____ make your ____ supply sustainable you need ____ share ____ of ____ renewables.
 ____ your energy supply is, and ____ comes ____ renewable ____?
 ____ me ____ ofrenewable ____ your supply.

Discuss ____ energy content of the ____.

Can you give ____ breakdown ____ green your ____ production ____?
 Is there ____ breakdown of the ____ sources ____ contributes ____ your ____?
 ____ energy come ____ sources and ____ is ____ you can give me.

Do you have ____ information ____ your power ____ from renewable ____?
 ____ breakdown of ____ generation source ____ be shared.
 ____ sustainable ____ your energy supply, ____ how ____ of those ____ renewable ____?
 ____ the ____ of ____ in your ____ mix.

____ want to make your energy ____ sustainable, ____ need to ____ breakdown ____ your ____.

Please ____ about your ____ proportion from renewable ____.
 ____ to how ____ your ____ percentage ____ from renewable sources?
 ____ what ____ comes ____ renewable ____ what sustainable energy sources are used.

What percentage ____ renewable sources ____ is something ____ you ____ tell me about.
 ____ you tell ____ much renewable energy ____?
 ____ are ____ source ____ proportion ____ renewables?

Can you tell ____ the percentage of ____
 ____ percentage ____ from renewable sources is ____ tell ____ about.

The ____ of your renewable ____ if you want your ____ sustainable.

If ____ make your ____ supply sustainable, share ____ breakdown of ____ us.

We ____ renewable generation source mix ____ you to ____ your energy ____.
 ____ can ____ breakdown of ____ renewables with us ____ want to make ____ supply ____.

Tell ____ energy supply ____ how ____ comes from ____ sources.

Share your ____ with us ____ energy supply is sustainable.
 ____ is ____ about the proportion ____ green sources ____ output.
 ____ me how sustainable your ____ sources are ____ how ____ renewable.
 ____ can make ____ energy supply sustainable ____ renewable breakdown ____.
 ____ is ____ energy supply ____ how many ____ do ____ use?
 ____ a breakdown ____ sources ____ in your ____ and confirm how sustainable your ____ supply ____?
 ____ know ____ sustainable your ____ supply ____ and how much ____ derived ____ renewable sources.

What ____ comes ____ renewable sources ____ what sustainable ____ is ____ should ____ something that ____ tell ____.
 ____ percentage ____ renewable ____ what sustainable energy source is ____ is something you can ____.

Let ____ know ____ breakdown of how ____ production ____.
 ____ me how ____ the ____ is, ____ of ____ comes from renewable sources.
 ____ percentage ____ from ____ sources ____ what ____ sources are ____ you can ____ me.

_____ can _____ information about what sustainable _____ sources _____.

The _____ renewable source mix _____ important _____ your _____ supply sustainable.

_____ percentage of _____ in your supply.

_____ how _____ your energy supply is, _____ derived from renewable sources.

_____ would like _____ the percentage _____ in _____ energy output.

Discuss _____ breakdown of _____ your _____ mix.

Tell me _____ your _____ supply _____ how many _____ come _____ sources.

_____ the _____ mixture _____ me _____ sustainable energy is.

Please _____ me _____ breakdown of _____ in _____ mix.

Can you _____ the _____ of renewable _____ mix?

Discuss the _____ renewables in _____ generation _____.

I want to know how _____ energy _____ mix.

_____ sustainable is _____ supply, _____ percentage come from renewable _____?

_____ need _____ breakdown of your _____ in order _____ make _____ energy supply _____.

Let _____ know how _____ energy _____ and how _____ them _____ renewable sources.

The _____ your renewables _____ shared _____ you _____ to _____ your energy supply _____.

_____ your renewable generation source _____ you want your energy _____ be sustainable.

_____ renewable energy content _____ mix

Can you _____ of _____ generation mix and confirm your _____ supply's sustainable status?

_____ shed _____ the breakdown of _____ sources in _____ energy _____?

What _____ of _____ sustainable sources is something _____ should _____ about.

_____ how _____ and what percentage comes from _____ sources.

_____ sustainable are your _____ comes _____ renewable sources?

Discuss the _____ energy _____ for your _____ mix.

If you want to make _____ energy supply _____ you should _____ the breakdown _____.

_____ breakdown of your _____ mix's renewable _____.

_____ like to _____ renewable resources _____ used _____ your _____ supply.

_____ give a _____ of renewable _____ used _____ and confirm their _____ nature?

_____ order to make your _____ sustainable, we _____ of _____ generation source _____ renewable sources.

_____ percentage comes _____ renewable _____ sustainable is the energy _____?

_____ me _____ your _____ sources of _____.

_____ want to know _____ amount _____ sources incorporated _____ your _____.

If you _____ make _____ energy supply _____ you _____ your _____ breakdown.

I'd _____ to know _____ your energy _____ is _____ many of _____ from _____ sources.

_____ of _____ renewable _____ mix is _____ if you _____ energy supply sustainable.

Tell _____ your _____ sources are.

_____ to tell _____ the percentage _____ renewable generation mix?

Discuss the breakdown _____ energy _____.

_____ sources incorporated _____ your _____ mix is something I _____ to know.

Can _____ me how _____ your _____ of _____ are?

_____ let _____ know _____ eco-friendly _____ generation is.

_____ breakdown of your renewable energy _____ it _____ your energy _____ to _____ sustainable.

_____ your generation _____ mix of renewable energy?

I want to know the _____ sources _____ into _____.

Do _____ the breakdown of _____ your _____ supply?

_____ sustainable your _____ is, and how _____ renewable energy you _____.

_____ know _____ the _____ of green _____ in your _____ output.

_____ can make your _____ by _____ breakdown _____ your renewable sources and sharing _____ with _____.

_____ to breakdown the _____ generation _____ if _____ to make your energy _____.

Are you able to _____ the _____ of _____?

_____ the breakdown _____ energy _____.

We'd _____ to _____ how _____ resources are _____ energy supply.

Tell _____ what _____ your energy _____ is _____ from renewable _____.

How about sharing a _____ of _____ of renewable _____?

You can _____ me percentage from renewable sources _____ is _____.

_____ your _____ energy _____.

_____ green _____ are in _____ energy _____?

_____ me _____ breakdown on how _____ your energy _____.

Give me the _____ of how _____ your _____

Tell me _____ make _____ your energy _____.

_____ you talk _____ breakdown of _____ sources?

_____ to know how _____ supply _____ and how _____ of your energy sources _____.

In your energy _____ can _____ the breakdown _____ renewable _____?

_____ to _____ your _____ supply sustainable, _____ need to _____ your generation _____ of renewable sources.

_____ it _____ shed light on _____ of _____ power sources _____ from renewable _____?

Share _____ of _____ renewable _____ in your generation _____.

_____ renewable _____ and let _____ sustainable your energy is.

_____ the renewable breakdown _____ mix.

We _____ a _____ of your _____ generation _____ mix if _____ want _____ your _____ supply _____.

Tell me how sustainable _____ energy supply _____ and what _____ is _____

_____ you _____ to _____ your _____ let _____ know _____ breakdown of your renewables.

_____ like to _____ how renewable _____ are _____ your _____ supply.

_____ you _____ make your _____ supply _____ we need _____ breakdown of _____ generation _____

Will you provide _____ sources _____ in your generation _____?

_____ me _____ proportion of green sources in _____ energy output?

Are _____ able _____ what part _____ your _____ sources _____ from _____ sources?

_____ you have any _____ on _____ part of _____ power _____ renewables?

_____ me how _____ supply _____ and how a lot of _____ comes _____.

_____ breakdown of _____ generation _____ mix's _____ energy content.

_____ you _____ how _____ green _____ is _____ your _____ mix.

Let me _____ how sustainable _____ energy _____ is _____ percentage is _____ sources.

_____ should provide statistics _____ renewable _____ within _____ energy _____.

_____ green power _____ in your _____?

_____ renewable _____ in your generation _____?

_____ about _____ sustainable energy _____ and how _____ of those come _____.

_____ about your _____ energy _____ and how many _____ use.

_____ love _____ know _____ amount of _____ sources _____ your _____ mix.

Tell _____ sustainable _____ energy supply is, _____ how much _____ comes from _____.

Tell _____ how sustainable _____ energy supply _____ how much _____ sources.

_____ comes _____ renewable sources _____ what _____ source is used is _____ can _____.

_____ us with _____ of your current _____ generation mix?

Can you _____ me _____ breakdown of _____ my _____?

_____ of renewable sources in _____ is _____ I _____ to know.

Tell _____ about _____ generation _____.

How _____ comes _____ renewable _____ and how _____ from sustainable sources is _____ me.

_____ how sustainable _____ energy _____ is and _____ much of it comes _____.

_____ the _____ your _____ energy mix.

Can _____ tell me the percentage _____ the _____?

_____ would like _____ know _____ renewable sources used _____ energy mix.

_____ there _____ breakdown _____ of renewable sources contributed _____ your energy _____?

Can ____ tell me ____ you ____ sustainable resources ____ power ____?

Do ____ have ____ breakdown ____ renewable sources ____ energy?

____ you ____ to make your ____ sustainable, ____ breakdown your renewable generation ____.

Can you tell ____ the ____ of energy?

Tell me ____ the ____ of ____ you have ____ your ____.

If ____ make ____ energy supply sustainable, ____ the ____ of ____ and share them.

The breakdown ____ your renewable sources is ____ if you ____ to ____.

____ your ____ to ____ if your energy supply ____.

____ you ____ to tell ____ of green ____ in your energy ____?

____ there ____ the ____ contributed by renewable sources in ____ energy ____?

We need ____ generation ____ to make your energy ____.

What ____ comes ____ renewable sources ____ is used ____ given a bit ____ information.

____ energy comes from renewable sources ____ energy ____ is something ____ can give me.

____ renewable ____ is ____ you can give me information about.

What ____ and what ____ energy ____ used should be more known.

We ____ to know about the use ____ in ____.

____ comes ____ sources ____ what sustainable energy ____ are used ____ something ____ tell me.

____ me about the percent of ____ sources ____.

____ renewables in your generation mix.

____ breakdown ____ yourrenewables ____ your ____ mix.

____ breakdown ____ your ____ mix is ____ must ____ make your energy ____.

Share ____ your ____ mix.

Do you ____ a breakdown ____ your generation ____?

____ you ____ to provide a ____ of ____ sources ____ generation mix.

Can ____ tell ____ the percentage of your ____ generation ____?

____ breakdown ____ renewable ____ mix ____ needed ____ a sustainable energy supply.

____ source mix's ____ energy content.

Discuss ____ of ____ generation's ____ content.

What ____ of your ____ supply ____ and how sustainable ____ it?

I ____ what ____ of ____ power ____ come from ____ sources.

If you want ____ supply to ____ the ____ your ____ sources.

____ breakdown of ____ renewable ____ to make your ____ supply sustainable.

Can ____ a breakdown ____ you use ____ your ____ mix?

____ me ____ your ____ supply is, and how ____ fromrenewable sources.

The breakdown ____ your ____ if ____ want your energy supply ____.

Can you ____ the ____ renewable ____ in my ____ mix?

If ____ to ____ energy supply ____ you should ____ renewables breakdown.

____ percentage ____ from renewable sources ____ sustainable energy ____ is ____ should ____ to my ____.

____ make your energy ____ sustainable ____ sharing ____ of yourrenewables.

What ____ of ____ is information you ____ give me.

What ____ from ____ is something ____ can provide ____ with.

Share ____ in ____ mix

Can ____ tell ____ how green your ____ energy ____?

The breakdown ____ your ____ required ____ want to make ____ supply sustainable.

____ me the ____ of ____ use ____ renewable ____.

The breakdown ____ in ____ source ____ be shared.

____ renewable ____ of your generation mix ____.

What ____ comes from renewable sources and what ____ are ____ give me information ____.

Is there ____ breakdown of ____ renewable sources contributed ____ supply?

We ____ like to know ____ use of ____ in your ____.

_____ tell _____ parts _____ your power _____ are from _____ sources?

How _____ are your energy _____ many _____ renewable?

Can _____ a _____ renewable sources used in generation _____?

_____ know _____ percentage from _____ sources _____ what sustainable energy _____ is used.

If _____ want _____ make your _____ you need to _____ of _____ renewable sources.

I'd like to know _____ amount _____ in _____ mix.

You could _____ how eco-friendly _____ power _____.

_____ state the percentage _____ energy _____ that are _____?

The breakdown _____ can _____ with _____ if you want _____ supply sustainable.

_____ sustainable your _____ supply is _____ what _____ is derived _____ sources.

Can _____ tell me _____ breakdown of _____ in _____ supply?

Please share a _____ of renewables _____ mix

Can _____ part of your power _____ are made _____ sources?

Take _____ of _____ and _____ them with us _____ make _____ supply _____.

How _____ is _____ supply _____ what percentage come _____ sources?

Share _____ of _____ renewable sources _____ want _____ energy supply _____ be sustainable.

What _____ renewable _____ within your _____?

Can _____ what part _____ your _____ sources come _____ energy?

_____ like _____ the percentage of renewable sources _____ energy _____.

Share _____ renewable _____ of _____ energy _____?

_____ about how _____ energy production is.

I _____ like to _____ the _____ green sources _____ energy _____.
