

[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system troubleshooting and maintenance
Inquiry Sub-Category	False alarms
Description	Customers may have issues with their alarm system frequently triggering false alarms, causing inconvenience and a waste of resources. This category involves troubleshooting the system to identify the root cause of the false alarms and implementing necessary maintenance to prevent them from occurring.
Data Size	5,705 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Home Security and Alarm Company" customer inquiry. (Purchased data will not be masked.)

Do you suggest more _____ for users _____ understand the _____ alarms?

Is _____ to _____ increased training _____ supplementary _____ to aid in _____ better?

Need help _____ less _____ alarms?

_____ you suggest _____ for users to _____ the system and _____ ?

_____ better _____ of system and _____ ?

_____ should get _____ training to _____ .

Can _____ offer better _____ to _____ ?

Can you recommend additional _____ to avoid _____ alarm?

Is it _____ to _____ options to _____ unnecessary _____ ?

_____ need assistance _____ system and _____ false _____ ?

Do _____ extra resources _____ training _____ improve user _____ and _____ false _____ ?

_____ you can _____ to enhance _____ understanding and reduce _____ ?

_____ we need to train users _____ alerts?

Do _____ recommend _____ avoid mistaken warnings?

_____ training _____ better comprehension of the _____ mechanism?

_____ given _____ or resources to _____ them understand the _____ .

Is there a _____ comprehend _____ alarm prevention _____ ?

Do _____ for added know-how _____ grasp?

_____ assistance with understanding _____ false alarms?

_____ have _____ training _____ to help users understand _____ avoid false _____ ?

_____ we _____ training for _____ comprehension?

_____ needed to _____ false alarms?

Do _____ there should _____ options to reduce _____ alarms?

_____ you think _____ would _____ users understand the _____ ?

_____ users _____ grasping the system?

_____ more training _____ resources needed _____ system comprehension?

Shall _____ more ways for users _____ understand _____ ?

Should _____ the system more?
_____ recommend user _____ to avoid _____?
_____ possible to _____ training _____ help _____ better comprehend _____ system?
Should _____ the _____ for system _____?
_____ to prevent false alarms?
_____ you _____ additional training to _____?
How _____ stop bogus wake-up calls?
_____ be _____ to _____ false alarms?
_____ info _____ avoid _____ alarms?
_____ you think that _____ can _____ us from false _____?
_____ think there _____ be _____ training _____ reduce unneeded notifications?
