

[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Banks and FinTech Companies
Inquiry Category	Overdraft protection and account limits inquiries
Inquiry Sub-Category	Overdraft fees
Description	Inquiries about charges incurred when the account balance goes below zero, including questions about fee amounts, frequency, and how to avoid them.
Data Size	5,210 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Online Bank and FinTech Company" customer inquiry. (Purchased data will not be masked.)

If _____ enough _____ mechanism prevents unnecessary transfers _____ accounts.
unnecessary transfers _____ linked _____ if there _____ enough _____.
_____ a shortage, _____ will be no _____ linked _____ transfers.
A _____ account transfers _____ a lack _____ funds.
If _____ to transfer from one _____ another, _____ mechanisms stop _____.
There _____ a _____ blocks account transfers _____ not enough _____.
_____ between _____ of insufficient funds
_____ case of _____ there is _____ money transfers _____ being sent _____ my linkedaccounts.
In case _____ insufficient _____ there is _____ way _____ stop _____ money _____ being sent to _____.
_____ of funds _____ transactions on _____.
A mechanism _____ when there isn't _____ of money.
_____ it's _____ to maintain _____ in _____ is a mechanism for reducing superfluous _____.
_____ unnecessary exchanges within linked _____.
_____ of accounts can be _____ is limited _____.
Is it possible to block _____ between _____ isn't enough _____?
The _____ stops the _____ moving _____ it _____ properly _____.
Does the _____ keep from _____ accounts _____ there _____ not enough _____?
_____ is _____ enough funds _____ from transfers in linked accounts?
_____ isn't _____ money to transfer between accounts, _____.
A _____ system _____ moving _____ it's not _____ funded.
_____ adequate finance, _____ automatic _____ prevents useless switches _____ accounts?
_____ the system is not _____ will stop _____.
_____ makes _____ one to the other _____ there aren't enough funds.
_____ might be _____ pointless _____ transfers _____ there is _____ shortage.
_____ within _____ accounts _____ stopped by inadequate _____.
In _____ funds, the mechanism makes _____ they don't _____ between _____.
A mechanism can _____ transfers _____ enough money.
_____ the _____ stop _____ if there _____ in linked accounts?

_____ not possible _____ keep my _____ in linked _____ is _____ for _____ superfluous transfers.
 If it _____ possible _____ maintain my _____ in _____ there _____ mechanism in _____ to _____ superfluous _____.
 _____ case of insufficient funds, there may _____ a _____ money transfers _____ being _____ my _____.
 When _____ is _____ funds the system _____ from _____ linked _____.
 Is it _____ that _____ from linked _____ can be _____ when _____ enough _____?
 _____ possible _____ unnecessary _____ accounts _____ there isn't enough funds.
 Unavoidable shifting of _____ hindered by _____.
 _____ are stopped _____ of insufficient funds.
 Shortage _____ be _____ to stop pointless moves _____ related _____.
 _____ shortage in _____ accounts, does _____ stop unnecessary transfers?
 There are _____ from being moved _____ if _____ enough funds.
 _____ between accounts _____ by insufficient _____.
 It is _____ to _____ superfluous transfers _____ funds _____ linked accounts.
 When there _____ money, _____ the system _____ bad _____ from _____ made _____ accounts?
 _____ mechanisms _____ it _____ there isn't _____ to _____ money _____ accounts.
 _____ possible that _____ impedes _____ of accounts.
 The _____ of shortage _____ pointless _____ between accounts.
 _____ transfers _____ linked _____ stopped if _____ isn't _____ funds?
 Does the _____ from transfers _____ when the _____ are not _____?
 Unnecessary inter-account transfers may be prevented _____.
 Can _____ system stop unnecessary _____ if _____ shortage in _____?
 In _____ of insufficient _____ mechanism _____ sure there _____ no unneeded _____ linked.
 _____ aren't _____ the mechanism prevents _____ transfers between accounts.
 _____ it is not _____ to _____ my _____ my _____ there _____ a mechanism to _____ superfluous _____.
 _____ the _____ of _____ a _____ makes sure there _____ transfers from _____.
 _____ enough money, _____ the _____ keep from transfers _____ accounts?
 _____ there _____ enough _____ the system prevent undesirable _____ being _____ to _____ accounts?
 _____ system stop bad _____ from _____ from linked _____ when _____ isn't _____ funds?
 When there isn't _____ money, a _____ sure they _____ transfer _____.
 _____ the _____ that there isn't enough _____ a mechanism _____ transfers _____.
 _____ there _____ enough funds _____ transfers between linked accounts.
 _____ it is _____ possible to maintain my funds _____ accounts _____ a mechanism _____ decrease _____ transfers.
 If _____ is _____ funds _____ linked accounts, _____ can prevent _____ across accounts.
 If it's _____ possible to _____ linked accounts, there _____ a _____ in _____ reduce superfluous _____.
 _____ is a _____ to _____ superfluous transfers if _____ impossible to maintain _____ funds _____.
 _____ account _____ are _____ by _____ funds.
 In _____ event _____ funds, _____ mechanism makes _____ from one to another.
 unnecessary _____ accounts can _____ if there _____ enough money.
 mechanism halts avoidable _____ transactions _____?
 Unnecessary _____ transfers can _____ by the _____ of _____.
 _____ mechanism to _____ superfluous _____ it's not _____ to maintain _____ funds _____ linked accounts.
 _____ the _____ prevent _____ from being made from _____ there is _____ money?
 _____ it's not _____ to _____ my _____ in linked _____ a mechanism in place to _____.
 excessive _____ transfers _____ be _____ by _____.
 If there isn't _____ money, it's important _____ stop _____.
 Insufficient _____ unnecessary _____ within linked _____.
 _____ there _____ enough funds, a _____ makes sure _____ from linked
 _____ transfers _____ be _____ down by _____ finances.
 _____ a shortage, _____ link account _____.
 _____ accounts _____ halted _____ funds.

_____ transfers _____ not allowed in the absence _____.

_____ it's _____ possible to keep _____ in _____ linked, there is _____ superfluous transfers.

_____ system is able _____ transfers if _____ not _____ in linked _____.

In _____ event of insufficient funds, _____ transfers between _____.

_____ to prevent unnecessary _____ there isn't enough money.

_____ finances hinder unnecessary _____?

Excess account transfers _____ by _____.

_____ are insufficient _____ that prevent needless exchanges _____.

_____ way to _____ unnecessary account-to-account transfers when the _____?

There is _____ mechanism _____ prevent _____ accounts if there aren't _____.

Is it because _____ scarcity _____ unnecessary _____ hampered?

When there is not enough _____ the _____ stop _____?

In _____ there _____ funds, a _____ prevents _____ between accounts.

There could be _____ linked account _____ shortage.

_____ be _____ by scarce finances.

_____ of funds _____ to stop pointless _____ accounts.

If I _____ funds _____ linked _____ there is a mechanism in _____ reduce _____.

_____ of insufficient _____ is a _____ to stop unnecessary money transfers _____.

_____ isn't _____ money in _____ linked accounts _____ prevent _____ accounts.

_____ it's not _____ to _____ funds _____ linked accounts, _____ mechanism is _____ place to _____ transfers.

_____ is insufficient funds _____ transfers _____ connected accounts.

In _____ that _____ funds a mechanism prevents _____ transfers _____ accounts.

_____ the _____ able _____ prevent undesirable transfers from _____ made to _____ accounts _____ funds?

Does the _____ transfers from _____ from linked _____ there's not _____ money?

Does _____ transfers from being _____ from linked accounts _____ not enough _____?

When there _____ not enough _____ system prevent _____ being made _____ linked _____?

_____ possible _____ block unnecessary _____ there is _____ lack of funds.

_____ not possible _____ keep my _____ linked accounts _____ a _____ in _____ to reduce _____ transfers.

_____ prevent undesirable transfers _____ being transferred from one _____ when _____ are not enough _____?

If there _____ enough _____ a _____ sure _____ transfer money between _____.

_____ the system _____ undesirable _____ made _____ linked accounts _____ is not _____ funds?

Does _____ system _____ transfers from being _____ from linked _____ there _____ not _____?

_____ don't transfer money _____ linked if _____ isn't _____.

_____ enough finance, an _____ prevents useless switches _____ connected _____?

_____ aren't enough _____ a _____ sure they don't _____ money between _____

_____ transfers _____ are halted

There are _____ make _____ there aren't unneeded transfers _____ linked _____ funds.

A mechanism blocks unnecessary _____ there isn't _____.

Is there _____ way _____ unnecessary money transfers from _____ linkedaccounts _____ isn't _____ money?

_____ there _____ way _____ unnecessary money transfers from being _____ to my _____ is insufficient _____?

In the _____ there _____ enough funds, a _____ makes _____ they _____ between _____.

In _____ there aren't _____ a _____ unnecessary _____ among linked accounts.

In _____ there's _____ way _____ stop _____ money transfers from _____ sent _____ my linked accounts.

Is there _____ way to stop _____ money _____ linkedaccounts _____ I don't have enough _____?

_____ the _____ stop transfers from _____ linked _____ there _____ not enough funds?

Unnecessary _____ transfers can _____ impeded if _____.

_____ the _____ prevent bad _____ to linked accounts _____ there is _____ enough _____?

If there _____ enough _____ a mechanism _____ there _____ unneeded transfers _____

redundant transfers between _____ are _____.

It's _____ to prevent _____ linked accounts _____ there _____ enough _____.

_____ funds slows avoidable _____.

Measures deter swap among _____ if _____.

_____ irrelevant link-transfers _____ the absence _____ funds.

If _____ enough funds a _____ there _____ unneeded transfers from _____

It's important to _____ accounts if there _____ sufficient _____.

_____ enough funds _____ system prevent transfers _____ made _____ linked accounts?

Can _____ system _____ in linked accounts _____ isn't _____ money?

_____ there _____ way _____ stop unnecessary money transfers _____ case _____ in _____ accounts?

_____ important _____ prevent _____ linked accounts _____ there _____ not _____ funds.

_____ of _____ is _____ by _____ funding.

Transfers between _____ by insufficient _____.

Shortage _____ pointless moves between _____.

_____ there's not _____ in _____ accounts, _____ system _____ to _____ transfers across accounts?

_____ there _____ system prevent bad _____ from being made from _____ accounts?

_____ stopped by insufficient funds

_____ is a mechanism in _____ to _____ transfers if _____ money _____ my accounts.

unneeded account _____ prevented _____ insufficient _____

_____ the _____ from linked accounts _____ when there isn't enough _____?

If there is _____ funding, a _____ system _____.

Shortage of funds _____ accounts?

_____ of funds _____ stopping _____ between related _____

If _____ isn't _____ to transfer _____ accounts, _____ prevent that _____ happening.

When there _____ money, does _____ prevent _____ linked accounts to _____?

Is _____ way _____ from being sent to my _____ accounts _____ cases of lack _____ funds?

_____ the system _____ transfers from _____ to linked _____ when _____ isn't enough _____?

The _____ stops _____ moving _____ it _____ properly funded.

_____ possible to _____ my funds _____ linked it's possible _____ superfluous transfers.

_____ there _____ is important to prevent unnecessary transfers between _____.

_____ by insufficient funds.

In _____ event _____ enough funds _____ mechanism _____ transfers _____ accounts.

_____ shifting of _____ hampered _____ funding.

Lack of _____ among accounts.

_____ the system able _____ transfers _____ there is _____ linked accounts?

Does _____ system prevent _____ from _____ from linked _____ there's not enough _____?

_____ there a _____ stop unnecessary money _____ enough funds _____ my linked _____?

Is _____ way to _____ transfers _____ the _____ are limited?

_____ funds _____ futile _____ among accounts

_____ isn't _____ money _____ prevent _____ between connected accounts.

_____ to _____ transfers _____ linked accounts if _____ aren't enough funds.

wasteful _____ inside _____ accounts _____ if funds are _____?

Does _____ transfers from being _____ linked accounts if there _____ enough _____?

If my funds cannot _____ in _____ there _____ mechanism in place to _____.

It _____ to reduce _____ if it isn't _____ funds _____ linked accounts.

There _____ funds obstructing _____ transfers between _____.

_____ system can prevent _____ not _____ money _____ the accounts.

Unnecessary _____ transfers _____ be _____ if _____ are _____.

_____ absence _____ adequate funds, no _____ link-transfers are _____?

_____ the system _____ transfers from being transferred from _____ another if there _____ funds?

_____ to _____ unnecessary transfers _____ if there _____ enough funds.

_____ between _____ accounts can be blocked _____ insufficient _____.

If it isn't possible _____ in my _____ there's a _____ in _____ reduce _____ transfers.
 Is _____ a way to avoid _____ transfers _____ funds _____.
 _____ automated system _____ block _____ transfers _____ accounts if _____ are _____ by _____.
 If it's _____ to maintain _____ funds in _____ linked, there _____ a mechanism _____ superfluous _____.
 _____ funds can _____ pointless transactions _____.
 Does the _____ from _____ linked accounts if there isn't _____ money?
 When _____ enough _____ the system prevent undesirable transfers from _____ accounts.
 Can _____ automated _____ transfers between _____ are in _____ of a fund.
 If _____ funds, _____ mechanism stops _____ transfers among linked _____.
 Without _____ money, an automatic _____ prevents _____ from _____ accounts.
 If there aren't _____ mechanism _____ don't transfer money between _____.
 Shortage _____ between related accounts...
 _____ no _____ in _____ linked account transfers if _____.
 _____ the robotic system _____ it will stop _____ moving.
 redundant transfers between _____ because _____.
 _____ irrelevant link-transfers _____ permitted in _____ absence _____ adequate _____.
 If there's not _____ funds in _____ linked _____ is the _____?
 _____ inter-account _____ hindered _____ scarcity finances.
 When _____ not _____ does the _____ stop undesirable _____ from _____ made _____ accounts?
 If it's not possible to _____ my _____ reduce superfluous _____.
 _____ a shortage, no pointless account _____ will _____.
 Link-transfers can't _____ in _____ absence of _____.
 Is the _____ able _____ bad transfers _____ being made to _____ when _____ money?
 Lowering funds _____ transactions.
 If _____ maintain _____ in linked accounts there _____ a _____ in _____ that reduces superfluous _____.
 _____ between _____ accounts _____ if there _____ enough funds
 If _____ is _____ maintain _____ funds inlinked _____ there _____ a _____ in _____ to _____ superfluous transfers.
 _____ should _____ wasteful exchanges _____ linked _____ funds are insufficient.
 _____ the event there _____ money, _____ makes sure _____ don't transfer _____ from _____ another.
 _____ of _____ prevents futile _____ accounts.
 _____ means _____ pointless transactions between _____.
 Shift of _____ if there _____ limited funding.
 _____ is a shortage _____ linked _____ does _____ system _____ unnecessary _____?
 In the event _____ isn't enough _____ stops _____ linked accounts.
 _____ there isn't enough _____ does _____ transfers from linked _____?
 Does _____ transfers _____ being _____ from _____ account to _____ when there _____ enough _____?
 In case of _____ there _____ a _____ stop _____ money transfers _____ sent _____ my linkedaccounts.
 The _____ stops inter-account _____ is not adequately _____.
 Unnecessary _____ among linked _____ can be _____ there isn't _____.
 _____ the _____ isn't adequately _____ it will _____ inter-account _____.
 pointless _____ account _____ don't _____ if _____ a _____.
 _____ prevent _____ transfers from _____ made _____ other _____ when _____ is not enough _____.
 _____ the _____ of insufficient _____ way to stop unnecessary _____ from _____ sent _____ my linkedaccounts.
 unnecessary account _____ stopped _____ insufficient _____.
 _____ the _____ able _____ there isn't _____ money in the linked accounts?
 _____ to _____ futile remittances _____ there _____ shortage of cash.
 In the _____ enough funds _____ mechanism _____ sure _____ transfer money between _____.
 _____ a way to _____ pointless conveyances _____ is no _____.
 In the event there isn't _____ they don't transfer _____ from one _____.
 _____ funds _____ insufficient _____ prevent wasteful _____ linked accounts.

_____ within accounts _____ to inadequate _____.

In the _____ there _____ funds, _____ sure they don't transfer money _____

When _____ does the system prevent _____ from linked _____?

If _____ possible to maintain my funds in _____ linked accounts _____ to reduce _____.

Exchanges _____ accounts can _____ inadequate funds.

_____ aren't _____ funds, a _____ prevents unnecessary transfers between _____ accounts.

_____ fund shortages _____ unnecessary _____ between _____ can _____ automated system block _____.

_____ account _____ are _____ insufficient funding.

_____ the _____ to _____ transfers if there's _____ money in _____ accounts?

_____ transfers _____ connected accounts _____ stopped by insufficient _____.

It is _____ prevent unnecessary transfers _____ linked _____ if _____ enough _____.

If it _____ maintain my funds _____ linked _____ there _____ mechanism available to reduce _____.

_____ mechanism blocks _____ account _____ there's not much _____.

_____ there isn't enough _____ robotic system _____ moving.

If _____ money to transfer _____ mechanisms _____ put in _____.

_____ are prevented due _____ insufficient _____.

redundant transfers between accounts _____ halted _____.

_____ is _____ enough funds, _____ the system _____ from _____ transferred from linked _____ to _____ another.

If _____ aren't enough funds it's _____ transfers _____ linked _____.

When _____ enough money, does the system prevent bad _____ being _____ account _____?

The _____ system stops _____ if it _____ funded.

If there's _____ money to _____ accounts, _____ stop it.

_____ isn't _____ to _____ my _____ in _____ accounts, _____ a mechanism _____ reduce superfluous transfers.

When there isn't _____ a _____ transfers.

_____ money _____ accounts _____ by insufficient _____.

_____ exchanges _____ linked accounts.

Is _____ to _____ transfers _____ there's not enough _____ in _____ linked _____.

_____ mechanism _____ sure _____ transfer money _____ linked _____ there aren't _____ funds.

_____ possible to _____ my _____ a mechanism _____ to reduce superfluous transfers.

_____ there _____ enough funds _____ makes _____ they don't transfer _____ from _____ other.

If _____ is _____ money, does _____ system prevent _____ transfers _____ transferred from _____ one another?

_____ there's _____ funds, can linked accounts _____.

_____ transfers _____ be _____ if insufficient _____ is _____.

_____ is _____ to prevent transfers across _____ isn't _____ in linked accounts.

_____ is _____ does the system keep from transfers in _____.

_____ is a _____ to _____ transfers when _____ is insufficient _____.

_____ there _____ there is a _____ that _____ sure _____ unneeded _____ from linked.

_____ there is _____ keeps from transfers in _____ accounts.

_____ it's not possible to keep my _____ is a _____ that _____ transfers.

In _____ event _____ enough _____ a _____ sure they _____ transfer _____ between accounts.

There aren't _____ if there _____ a _____.

When _____ is not enough money, _____ the _____ prevent _____ transfers _____?

Lack of _____ prevent _____ accounts.

_____ in-between accounts _____ by insufficient funds.

_____ enough _____ a _____ stops unnecessary _____ between accounts.

Unusual _____ prevented _____ insufficient funding.

When there _____ enough _____ system prevent undesirable _____ being transferred _____ accounts?

_____ to transfer between _____ there are mechanisms put in _____.

Is the _____ to _____ across _____ isn't _____ money in _____ linked accounts?

_____ it isn't _____ to maintain my _____ a mechanism is in place _____ superfluous _____.

____ it is not possible ____ maintain ____ funds in ____ there ____ a ____ reduces superfluous ____.
 The ____ prevent money ____ between accounts ____ isn't enough ____.
 If ____ aren't ____ funds, ____ mechanism stops ____ between ____.
 When ____ enough money, ____ transfers to linked accounts?
 ____ the ____ prevent ____ transferred from ____ accounts when there is ____ enough ____?
 ____ of funds ____ stop ____ moves ____ accounts.
 ____ funds can prevent wasteful ____.
 ____ may ____ by scars finances.
 ____ the ____ undesirable ____ being made to linked ____ when ____ not ____ funds?
 If it ____ to ____ funds in my ____ there is ____ way ____ reduce ____ transfers.
 If ____ enough money in ____ accounts, ____ is ____ way to ____ superfluous ____.
 There ____ pointless ____ if ____ a shortage.
 superfluous ____ accounts are ____ by insufficient ____.
 Measures ____ needless ____ among linked profiles ____ resources ____.
 ____ the system able ____ transfers ____ accounts ____ there isn't ____ money in ____?
 There ____ mechanism to ____ transfers if it ____ keep my funds ____ linked accounts.
 If there ____ funds to ____ between accounts, ____ put ____.
 ____ blocks unneeded ____ transfers ____ a ____ of funds.
 ____ system able ____ prevent transfers ____ there's not enough money ____?
 If there is ____ of cash, there is ____ prevent ____.
 ____ I ____ my funds ____ my linked, there ____ a mechanism to ____.
 ____ there isn't ____ makes sure ____ don't transfer money between ____
 wasteful ____ linked accounts ____ be prevented ____ funds ____.
 ____ case of lack of funds, there ____ to stop ____ transfers from ____ sent ____.
 Transfer stuff ____ connectedaccounts could ____ funds ____ that.
 ____ case ____ enough funds, ____ mechanism makes ____ aren't ____ from linked.
 ____ the system stop ____ transfers ____ linked accounts if there ____ not ____?
 If ____ not ____ money in ____ linked, there ____ place to reduce superfluous transfers.
 They don't transfer ____ event ____ isn't enough funds.
 ____ don't transfer money ____ accounts ____ isn't enough ____.
 Exchanges ____ are stopped ____ funds.
 There is not ____ funds ____ undesirable ____ from ____ made to ____.
 transfers between accounts ____ funds
 ____ transfers ____ hindered by shabby ____.
 ____ of ____ pointless moves between related ____
 Unrequired ____ can ____ prevented ____ is ____ enough.
 How ____ mechanisms ____ account-to-account ____ when ____ are limited?
 ____ are halted by inadequate ____.
 The ____ halt to ____ transactions ____ low on ____.
 If ____ not possible ____ linked accounts, ____ a ____ reduce superfluous transfers.
 ____ the event ____ a mechanism ____ unnecessary ____ between accounts.
 Is the ____ if there ____ not ____ in the linked accounts?
 ____ deter ____ swapping if monetary ____ not ____.
 ____ the system ____ prevent transfers ____ if there isn't adequate ____ linked ____?
 ____ to ____ not enough money in the linked accounts?
 ____ pointless ____ account transfers would ____ if ____ a ____.
 ____ there ____ enough ____ makes ____ they ____ not transfer ____ from one to another.
 If ____ not ____ funded, it stops the ____.
 If it is ____ to maintain ____ funds in ____ there ____ a mechanism for ____.
 In ____ there ____ funds, a ____ makes sure ____ transfer money ____ one to ____ other.

Does the system prevent _____ transfers from _____ made _____ accounts _____ funds?

Shortage _____ ceases _____ between accounts.

A mechanism is _____ block _____ transfers when _____ is _____.

A _____ makes sure _____ don't transfer _____ accounts _____ there is _____.

Lack _____ funds saves _____ associated _____?

There is a _____ to _____ unnecessary _____ from being sent _____ my _____ in _____ of _____.

_____ of _____ a mechanism to stop unnecessary money _____ my linked _____.

redundant transfers between _____ to _____

_____ of _____ stops pointless transactions _____.

There's something that stops _____ money _____ no _____.

The system can _____ accounts _____ there isn't adequate _____ in _____.

_____ to stop _____ money _____ being sent to _____ linked accounts _____ case of lack _____ money?

_____ important _____ prevent _____ transfers between connected _____ there _____ enough _____.

_____ there _____ enough _____ does the system prevent _____ from _____ made _____?

_____ system able _____ prevent undesirable _____ from _____ transferred _____ one account to _____ there _____ funds?

_____ pointless linked _____ transfers occur _____ the _____ shortage.

_____ is a _____ block account transfers _____ there _____ no _____.

superfluous transfers between _____ be _____ by insufficient _____.

_____ to prevent _____ there isn't enough _____ in the linked _____?

When _____ enough _____ does the system _____ transfers _____ accounts to one _____?

If _____ is not funded, _____ the inter-account _____.

Is there a way _____ prevent undesirable _____ being _____ other _____ not enough funds?

_____ a way _____ unnecessary money _____ in _____ of insufficient _____ within my _____?

_____ there _____ enough _____ does the _____ prevent _____ from _____ made _____ accounts?

_____ account _____ by insufficient funds.

Excess _____ between _____ accounts are _____ insufficient _____.

_____ transfers _____ linked _____ can _____ prevented if there _____ enough _____.

Is there a _____ to _____ unnecessary _____ from being _____ to _____ case of _____ funds?

_____ system _____ transfers from _____ to _____ accounts _____ are not enough funds?

_____ the _____ is not _____ funded, it _____ inter-account _____.

_____ system stop transfers from _____ linked _____ when _____ enough money?

If there aren't _____ money _____ accounts _____ mechanisms _____ it.

Unnecessary _____ hampered by _____ finances.

There _____ a mechanism that _____ unneeded _____ no funds.

_____ system able to _____ undesirable transfers _____ linked accounts when _____ isn't _____ funds?

Does _____ system prevent _____ being transferred from linked _____ to _____ there _____ not enough _____?

They _____ sure they _____ transfer money _____ to _____ there _____ enough.

_____ there _____ enough funds, does _____ prevent transfers from _____ transferred _____ linked _____?

_____ there isn't _____ funds, it's _____ transfers between _____ accounts.

_____ pointless _____ occur _____ there's a shortage.

_____ don't _____ between accounts _____ there isn't _____.

Unnecessary inter-account _____ are _____ by _____.

Unnecessary _____ hampered if finances _____ tight.

If it is not _____ to _____ funds in _____ a mechanism for reducing _____.

_____ the system _____ prevent undesirable transfers from being _____ from _____ enough funds?

_____ insufficient _____ linked _____ can avoid _____ transfers.

A mechanism makes _____ that _____ transfer _____ another _____ there _____ enough funds.

There is _____ mechanism _____ blocks _____ transfers when _____ lack of _____.

_____ inter-account _____ can _____ shabby finances.

_____ are insufficient _____ makes sure they _____ money _____ one to another.

If it's not possible _____ in _____ is _____ mechanism in _____ to _____ superfluous transfers.
 Unnecessary _____ are hindered _____ finances.
 _____ enough funds _____ prevent _____ transfers from _____ made to _____.
 _____ the _____ able _____ if there is not enough funds _____ ?
 _____ it is _____ possible _____ maintain _____ funds in _____ I _____ a _____ place _____ reduce superfluous transfers.
 _____ enough money, _____ device _____ switches _____ connected bank accounts?
 Disastrous _____ could be _____ limited funding.
 Is _____ system able to _____ transfers _____ the _____ funds in _____ linked _____.
 _____ the system prevent _____ there's _____ funds _____ the _____ accounts?
 _____ funds stop futile _____ among _____.
 Does _____ prevent _____ transfers _____ being transferred _____ when there is _____ enough _____ ?
 When there is insufficient _____ the _____ prevent undesirable _____ transferred _____ linked _____ to _____ another?
 The _____ transfers across accounts _____ there is not _____.
 Lack of _____ prevent transits _____.
 _____ isn't enough _____ does the system _____ made to linked accounts?
 Does _____ system _____ transfers from _____ transferred from linked _____ to _____ another when _____ funds?
 _____ it's _____ to _____ my _____ accounts, there's a mechanism to _____ superfluous _____.
 _____ possible that _____ enough _____ to prevent unnecessary _____ linked _____.
 _____ are prevented _____ insufficient funding
 _____ not possible to _____ my funds _____ my linked, there _____ mechanism _____ superfluous _____.
 If it _____ to maintain my _____ linked accounts, there is _____ superfluous _____.
 _____ it's not _____ my _____ my linked _____ there is a mechanism in place _____ reduce _____.
 _____ aren't enough funds, _____ transfers _____ accounts _____ stopped.
 Does the _____ prevent transfers from _____ when there _____ not enough _____ ?
 _____ enough funds to prevent _____ transfers _____ from linked _____.
 _____ it is not possible _____ maintain _____ in my _____ there's _____ mechanism to _____ .
 If _____ is _____ funded, it _____ stop _____ moving.
 Lack _____ funds _____ futile _____ associated _____.
 _____ isn't _____ to transfer _____ between accounts, _____ in place.
 The _____ from being transferred _____ accounts _____ there isn't _____.
 _____ is _____ transfers among accounts if there isn't enough _____.
 If there _____ enough money, _____ prevent undesirable transfers _____ transferred _____ account _____ another?
 A mechanism _____ transfers if _____ no _____.
 If it's not possible to _____ linked _____ there _____ a _____ reduce _____ transfers.
 _____ stop _____ between accounts.
 Measures deter _____ monetary resources are insufficient.
 _____ there _____ enough _____ there _____ mechanism that prevents _____ transfers between _____.
 The _____ account transfers _____ there isn't _____ money.
 Do _____ system _____ transfers from _____ made _____ when there _____ money?
 Poor funds stop _____ exchanges _____.
 _____ between connected accounts are prevented _____.
 Low _____ funds _____ inter-account transactions _____ ?
 If _____ is _____ linked accounts, is _____ system _____ to stop _____ ?
 _____ of funds prevents _____ transactions _____.
 If _____ is _____ my funds _____ my linked, there is a mechanism in _____ to _____.
 _____ is _____ in place to reduce _____ transfers if _____ is _____ maintain _____ funds in _____ linked _____.
 The mechanisms _____ being _____ if there aren't _____ funds to _____ so.
 Unnecessary _____ accounts _____ if there _____ enough funds.
 Is it _____ of _____ means stopping pointless _____ between _____ ?
 A mechanism makes sure there _____ the _____ isn't enough funds.

_____ enough funds to prevent _____ transfers _____ being _____ from _____.
 _____ is insufficient funds and _____ unnecessary transfers.
 _____ there _____ money, do the _____ from transfers in _____?
 Does the _____ from _____ in _____ there is not _____ money
 _____ funds _____ pointless _____ related accounts?
 If _____ is _____ adequately _____ stops the _____ the accounts.
 If _____ is not possible _____ my funds in _____ there _____ mechanism _____ place _____ reduce superfluous _____.
 _____ there aren't enough funds, the _____ they _____ transfer _____ linked
 In _____ aren't _____ a mechanism _____ sure they _____ transfer money _____ to another.
 The automated _____ block _____ transfers between the _____ if _____ danger.
 _____ shortage _____ funds may mean _____ pointless _____ between _____.
 _____ the _____ prevent transfers from _____ made to linked _____ there isn't _____?
 _____ is _____ mechanism that _____ unnecessary account _____ is _____ of funds.
 _____ don't transfer _____ there _____ not enough money.
 Lack _____ money _____ futile transactions _____.
 _____ stop _____ transfers between _____ if there aren't enough _____.
 Shortage of _____ pointless _____ accounts.
 _____ to block unnecessary transfers between _____ if there is not _____?
 Improper account _____ by insufficient _____.
 _____ linked accounts _____ stopped by _____
 Transferring between _____ are _____ inadequate _____.
 There's a mechanism that _____ when _____ money.
 A _____ block _____ transfers when _____ is _____ money.
 Is the _____ able _____ transfers from _____ from _____ accounts when _____ is not enough _____?
 Is the _____ able _____ prevent transfers _____ not enough _____ in _____.
 Exchanges _____ accounts are _____ if insufficient _____ are _____.
 Is _____ system _____ of _____ accounts _____ there isn't enough _____ linked accounts?
 Does the _____ stop _____ transfers _____ made _____ linked _____ when there _____ enough _____?
 _____ adequate finance, _____ automatic _____ prevents useless switches in _____?
 _____ a mechanism _____ reduce _____ transfers if it isn't possible _____ keep my _____ accounts.
 There _____ mechanisms that _____ money from _____ transferred between accounts _____ money.
 _____ does _____ system prevent _____ from linked accounts to _____ other?
 In _____ event there _____ mechanism makes _____ there _____ no unneeded _____ from _____.
 Account _____ be _____ funding is _____.
 unneeded account _____ be _____ by _____.
 _____ mechanisms stop it _____ there _____ enough funds _____ accounts.
 _____ funding prevents unnecessary _____ transfers.
 Lack _____ eliminates _____ transactions amongst _____.
 _____ is _____ that stops _____ when there is _____ money.
 _____ isn't _____ a _____ makes sure _____ isn't transferred between _____.
 Lack of _____ redundant _____ accounts.
 Account _____ are _____ by _____
 Does the _____ from _____ made from linked accounts _____ not _____ funds?
 If the _____ isn't adequately funded, _____ the _____.
 When _____ is not enough _____ does the _____ transfers from _____ from linked _____ one _____.
 If _____ shortage in _____ accounts, _____ the _____ unnecessary transfers?
 _____ system _____ transferred _____ one account _____ another when there _____ enough money?
 Does _____ system _____ transfers from being made _____ linked accounts _____ enough _____?
 If _____ is not _____ to maintain my _____ accounts, a mechanism _____ superfluous transfers.
 If _____ is _____ possible to _____ funds in linked _____ there _____ a _____ reduce _____.

In _____ event there _____ funds, _____ mechanism _____ isn't unneeded transfers from _____ of funds _____ stop _____ moves _____ accounts.

_____ isn't enough money, _____ the _____ transfers from _____ accounts to _____?

Unnecessary account transfers are _____.

_____ the system able to prevent _____ across _____ not _____ funds in _____?

_____ fundsmmeans _____ pointless moves _____ accounts.

Account _____ are prevented _____ of _____.

If it's _____ maintain my _____ linked there _____ a _____ to _____ superfluous transfers.

If there _____ insufficient _____ to _____ money _____ mechanisms stop _____.

If _____ not _____ to maintain my funds _____ my linked, _____ that _____ superfluous transfers.

_____ not enough money, a mechanism makes _____ don't _____ accounts.

There is a mechanism _____ when _____ no funds.

_____ there isn't enough _____ prevent undesirable transfers from _____ from linked _____?

_____ account _____ are prevented _____ fund

Does the _____ prevent undesirable _____ from linked accounts to one _____ is _____ money?

In _____ that _____ aren't _____ mechanism prevents unnecessary transfers among _____.

Is _____ mechanism to prevent _____ transfers _____ limited?

_____ enough money, the robotic _____ the inter-account _____.

_____ is a mechanism _____ transfers between accounts _____ there _____ enough _____.

_____ there _____ enough _____ does _____ system _____ transfers _____ to other accounts?

Measures deter _____ among profiles _____ not adequate.

_____ system _____ if there isn't enough funds in _____ accounts?

_____ between connected _____ is hampered _____ insufficient _____.

_____ prevent transfers _____ linked _____ when _____ is not enough _____?

The _____ prevent money _____ flowing _____ accounts _____ enough funds.

No _____ transfers occurs _____ there is a _____.

_____ linked _____ stopped by insufficient _____.

_____ funds prevent superfluous _____ from _____.

Is there _____ way to _____ money transfers _____ being _____ to _____ linked _____ of insufficient _____?

The _____ between _____ accounts if there _____ enough funds.

If there _____ pointless _____ transfers occur.

If there _____ money _____ between _____ the mechanisms _____ it

If it is not _____ funds _____ accounts _____ is a _____ to reduce superfluous _____.

It _____ prevent _____ transfers between accounts if _____ isn't _____.

Is _____ transfers from _____ accounts to _____ another when _____ is _____ enough money?

Is _____ system able to _____ being made _____ linked accounts when _____ enough _____?

_____ make _____ they don't _____ money _____ there isn't enough _____.

_____ enough funds, a _____ sure there _____ transfers from linked.

When there isn't _____ does the system prevent bad _____ from _____?

_____ aren't _____ account transfers if there _____ shortage.

When _____ enough money, does the _____ transferring money _____ accounts?

superfluous _____ between _____ are blocked because _____ insufficient _____.

_____ accounts can be _____ by _____ funds.

Measures deter _____ profiles if _____ resources _____ insufficient.

_____ there a way to _____ money _____ sent to _____ linkedaccounts if _____ is not _____?

_____ event there aren't _____ funds, a _____ transfers from linked.

If there _____ enough funds, a mechanism _____ transfers from _____.

There's _____ lack of funds and _____ transfers.

_____ among linked _____ if monetary _____ are lacking.

_____ aren't _____ can _____ from linked _____ be stopped?

If there _____ enough funds, _____ unneeded _____ accounts.
 _____ system _____ transfers from being made _____ linked _____ if there _____ enough _____?
