

[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Data plan and usage queries
Inquiry Sub-Category	Data usage monitoring
Description	Support for customers needing assistance with monitoring their data usage, such as checking their remaining data balance, setting up usage alerts, or troubleshooting inaccurate data usage calculations.
Data Size	5,010 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

_____ often _____ system _____ with _____ information about _____ balance for _____ user?
_____ much _____ the system _____ with _____ data _____ user balances?
How often _____ update the _____ with _____ balances?
Is there a frequent _____ made _____ to the _____?
How _____ the system updated _____ information on _____?
Is there _____ to _____ balances for users?
Are there _____ updates _____ track _____ individual's data _____?
How much _____ the _____ constantly _____ with real-time _____ on _____ remaining data _____ for _____?
How _____ is the system _____ updated _____ remaining _____ data?
Is it always _____ track _____ individual's _____ data balance?
Is there a _____ remaining data balances?
_____ a _____ update _____ users' _____ balances?
How _____ is the system _____ updated _____ data balance of _____?
_____ much _____ is constantly updated with _____ data _____ each user?
Is _____ regularly made updates _____ users' _____ data _____?
Do you _____ if there is periodic _____ individual's _____ their data _____?
_____ the system constantly _____ data on the user's _____?
What _____ the _____ updated with real-time data about _____ user's _____?
How _____ the _____ constantly updated with _____ the _____ for individual _____?
Do _____ see regular _____ regarding _____ users' _____ data _____?
How _____ the system _____ updated with _____ the _____ data _____ users.
Do you _____ regular updates about _____ data _____?
How _____ is the _____ real-time data balance information _____?
Do _____ see _____ updates on the users' _____?
_____ you _____ the _____ to _____ real-time _____ of _____ data balance?
Do you ensure _____ system _____ up to _____ real-time information _____ data balance?
_____ does _____ check my data _____ real-time information?
Is _____ an update regarding _____ balances?

_____ updating information _____ balances often?
 _____ ensure that _____ up to _____ with the _____ on the _____ data balance?
 How _____ is the _____ updated with real-time _____ data balance _____?
 _____ you _____ the _____ updated with _____ real-time _____ on the _____ balance?
 How much _____ the system _____ the _____ data balance?
 _____ there a frequent _____ regarding _____?
 How _____ time _____ system _____ checked _____ real- _____ user data balance?
 Is there _____ update _____ regarding _____ remaining _____ balances _____ information _____ by the _____?
 _____ often _____ you check the system _____ a _____ user _____?
 _____ the _____ updated with _____ data about the user's remaining _____?
 _____ a constant _____ users _____ data balances?
 _____ is the _____ constantly updated _____ information for _____ data _____ every user?
 Do you _____ regular _____ balances?
 Do _____ often _____ user data balances?
 _____ there a _____ update _____ keep track of each _____?
 Is _____ system up _____ date with information _____ balance?
 How _____ is constantly updated _____ information on the remaining _____?
 What amount _____ system _____ real-time data _____ user's remaining balance?
 _____ is _____ updated with _____ about _____ user's balance?
 _____ often do you check _____ real- _____ user data _____?
 _____ you know whether there _____ periodic _____ a _____ the individual's _____ of their data _____?
 How _____ system _____ information on the remaining _____ balance for _____?
 _____ there _____ to _____ track _____ each individual's _____ balance?
 Do _____ real-time with _____ users' data balances?
 Is the _____ balance _____ every user _____?
 Do you _____ if the system is _____ to _____ the _____ information about _____?
 _____ there _____ the _____ remaining databalance?
 How much _____ the _____ continuously _____ with the _____ of _____ users?
 _____ is the system continually _____ balance for each _____?
 Do _____ see frequent updates _____ balances?
 How _____ is _____ updated with _____ data _____ user's balance.
 How much _____ the _____ constantly updated _____ data _____ user's _____?
 _____ the _____ updated _____ on _____ remaining data for each individual _____?
 _____ regular _____ the data balances of _____?
 How _____ is the _____ with _____ data _____ balances?
 _____ you continually _____ data balances to provide _____?
 Is there regular _____ users remaining _____ the _____?
 _____ sure that _____ up to date with _____ information _____ the _____ data balance?
 _____ system _____ quickly to _____ users current _____ balance?
 _____ regular updates _____ real-time _____ on _____ of the user?
 _____ get _____ updates _____ user's _____ data balances?
 Do you _____ the _____ to _____ me apprised _____ balance?
 How much is the _____ with live _____ for _____.
 Do you _____ there _____ to _____ track _____ individual's data balance?
 How _____ constantly updated _____ real-time _____ about _____ remaining in _____ user?
 How _____ is the system updated _____ data _____ for users?
 Is _____ updates made _____ the data _____ for _____?
 _____ regular _____ about _____ remaining databalance?
 _____ there _____ updates _____ the data _____ of _____?
 Is the system _____ let _____ available data _____?

_____ much is _____ system _____ updated with real-time information _____ balance?
 How _____ the system _____ data on _____ data _____ of users?
 _____ in real-time with _____ to the individual _____ data _____?
 _____ make _____ the _____ is up to _____ real time information _____ data balance?
 How much _____ updated _____ real-time data _____ users' _____?
 _____ know whether there are _____ to keep _____ track _____ individual's _____ balance?
 Do _____ have _____ updates to _____ track _____ individual's data _____?
 _____ is the _____ updated with real-time information _____ the _____ balance _____ user?
 Are _____ updates _____ data balances _____ users?
 _____ you make the _____ change frequently _____ keep me _____ my _____?
 _____ much is _____ system constantly _____ the remaining data _____ users?
 _____ the system make regular updates _____?
 What rate real-time _____ received regarding _____?
 When _____ update with _____ information _____ users' _____ data balance?
 Do you _____ regular _____ the remaining _____ users?
 How _____ is _____ system constantly _____ with _____ data _____ balance?
 Is _____ a _____ update _____ users remaining data _____?
 What is the system constantly _____ information _____ the data _____?
 _____ you receive regular _____ the _____ balance for _____?
 How _____ system _____ with information about each _____ data _____?
 Are _____ regular _____ track each _____ data _____?
 _____ the system _____ updated with _____ on _____ data balance?
 _____ will you update _____ with _____ intel _____ data _____ for _____ user?
 _____ often _____ you _____ the system _____ keep track _____ balance?
 Is _____ regular _____ the _____ of users?
 _____ the system update real-time _____ user's _____ balance?
 Is there regular updates that _____ track of _____?
 How much _____ system _____ with _____ data _____ information?
 Can _____ me _____ is a frequent _____ regarding _____ remaining data _____?
 _____ often do _____ refresh the system with _____?
 _____ the _____ gets updated with _____ balance, how frequently?
 _____ the system _____ on _____ remaining _____ balances?
 _____ constant updating to _____ the individual's remaining data _____?
 Do _____ regular updates regarding _____ users' _____ data _____?
 What is _____ system constantly updated _____ for each _____?
 What _____ the _____ real-time _____ regarding _____ balance for _____?
 Are you always _____ balances _____ give them _____?
 how _____ the _____ update _____ data on _____ balance?
 Do _____ take _____ with respect to _____ users' _____?
 Is the _____ balance _____ every _____?
 _____ you know _____ there _____ keep track of _____ individual's rest of their _____?
 Does regular _____ information _____ each _____ data balance?
 How _____ is constantly _____ on _____ remaining data _____ of _____?
 What _____ updates _____ regarding users' _____?
 _____ regular updates _____ the _____ data balances?
 _____ system update _____ to show me real-time information _____?
 _____ is _____ constantly updated with _____ remaining data _____ user?
 _____ of _____ updates regarding users' data _____?
 _____ of _____ system _____ with real-time _____ on the data _____ for each _____?
 How _____ users get updates _____ their _____ balance?

Is there ____ update ____ keep track ____ individual's ____ balance?
 ____ the ____ is ____ with real-time data ____ data left in each ____?
 ____ is ____ rate of ____ the ____ data balance?
 Do ____ regularly ____ updates regarding the ____?
 Are ____ updating ____ about users' ____ frequently?
 ____ system continuously ____ with ____ data ____ the ____ remaining ____ each user's account?
 How ____ constantly updated ____ real-time data ____ data ____ in users?
 ____ much ____ constantly ____ with real-time information ____ the ____ users?
 Do you update the ____ real ____ data balance?
 Do you see ____ last ____ balances?
 ____ is the system ____ with real-time ____ for ____ remaining data balance ____?
 Do ____ get ____ updates about the ____ balances?
 How frequently ____ check the system with ____ user ____?
 ____ much ____ system updated with real-time information on the ____ balance ____?
 ____ the ____ updates ____ users' remaining ____ balance?
 ____ it constantly ____ keep track ____ the ____ remaining ____ balance?
 ____ a ____ data balances provided by the system?
 Has ____ been ____ updates to keep track ____ individual's ____?
 How much is ____ system ____ information about ____ balance ____ user?
 ____ always ____ with ____ on the data balance for users?
 ____ much is the ____ with ____ the user's ____ data?
 ____ know if the system ____ up ____ date ____ the ____ data ____?
 How much is ____ updated with ____ information on the ____ data ____.
 How ____ is ____ system updated ____ about the remaining ____?
 ____ you continuously updating users' ____ provide real-time ____?
 ____ make sure the system ____ the real-time ____ the ____ data balance?
 ____ much is ____ with ____ about the user's balance
 ____ much is the ____ with real ____ information about ____ data balance ____?
 ____ make ____ the system ____ up ____ date with the ____ the users data balance?
 Is the ____ data ____?
 ____ frequent and ____ notifications of ____ data balances?
 Is ____ process that updates each ____ in ____ on a recurring ____?
 ____ much ____ constantly ____ with real-time data about user ____?
 ____ keep the system up ____ about users' data balance?
 ____ the ____ updated quickly ____ users their ____ balance?
 How ____ the system ____ about the remaining data balance ____?
 How much ____ constantly updated with ____ the ____ of data?
 How many ____ a day ____ the system ____ for ____?
 ____ there regular ____ regarding the ____ last ____?
 ____ much ____ system updated ____ real-time data about the ____ in ____?
 ____ updates ____ in ____ to individual ____ data balance?
 Is ____ regular ____ on ____ users remaining data ____?
 ____ data ____ every user ____ refreshed?
 ____ take ____ with regard to individual ____ data ____?
 How ____ do ____ information ____ occur ____ data balance?
 ____ frequently ____ get ____ for their data balance?
 ____ remaining data ____ updated frequently?
 ____ you ____ that the system ____ up ____ date with ____ information on the ____ balance?
 Is ____ updates reflecting ____ information on ____ data ____?
 How ____ system ____ updated with ____ about the user's ____?

_____ much is _____ updated with _____ about _____ user's _____ of data?
 Do _____ refresh the system _____ with _____ data _____?
 Do updates _____ place real-time with _____ data _____?
 _____ amount is the system constantly _____ real-time _____ on _____ data _____?
 Are you _____ users' data _____ to _____ real-time _____?
 _____ frequently _____ you _____ the system, _____ real-time _____ balances?
 _____ do you check the system with _____ time _____?
 Do _____ keep the system current _____ balance _____ the _____?
 Do _____ receive _____ about the users' _____?
 _____ there _____ regular schedule _____ the _____ live data balance _____ to _____ subscribers?
 _____ keep _____ to date with _____ real-time information _____ users data _____?
 How _____ is _____ continually _____ with information _____ data for each _____?
 _____ you _____ system current with _____ real-time _____ the _____ data balance?
 _____ the system up _____ with the _____ information on the _____?
 Is _____ frequent _____ of _____ balances done?
 _____ the _____ updated _____ regards to users' _____ balance?
 _____ you _____ information _____ users' _____ frequently?
 _____ the system _____ with live _____ on _____ balances?
 _____ much _____ the system _____ with information on _____ data _____ for _____?
 When _____ the _____ updated _____ account _____ the users' _____?
 Is _____ updated _____ users aware of _____ data balance?
 _____ the _____ with _____ balance data?
 _____ much _____ should the system _____ with correct _____ balances.
 Will the _____ real-time _____ balances _____?
 _____ can the _____ be updated with live _____ user _____?
 _____ you _____ regular updates _____ keep track _____ each individual's _____?
 _____ the _____ with the final data _____ for each _____?
 _____ you _____ frequent _____ data balance for users?
 _____ you know _____ the _____ with real-time information _____ the _____ balance?
 _____ there _____ frequent update regarding the _____ balances?
 _____ is the _____ constantly _____ with the _____ data _____ each user?
 Is _____ a frequent update _____ about _____ users _____?
 How _____ updates _____ received regarding _____?
 _____ is _____ constantly _____ with real-time _____ about _____ data balance?
 _____ change _____ frequently so that _____ have _____ time information of my _____?
 _____ is the system constantly _____ with information _____ balance for _____?
 _____ much is _____ system _____ updated _____ real-time information _____ the _____ for _____ user?
 Does _____ system _____ real-time data _____ user's _____ balance of data?
 _____ the _____ updated with information _____ the _____ for each _____ user?
 _____ much the _____ is updated with _____ the user's _____
 _____ regular updates _____ track of _____ person's data balance?
 I _____ to _____ frequently _____ system _____ updated with live _____ on _____.
 _____ update _____ about _____ data balance frequently?
 _____ information on _____ data balances _____?
 _____ make _____ the _____ is _____ with the latest information on the _____ balance?
 Do _____ updates _____ to _____ remaining data balance?
 How _____ is _____ constantly updated _____ on the _____ of _____ user?
 _____ you _____ updating users' _____ give them _____ information?
 _____ the _____ need to _____ frequently with _____ user data _____?
 _____ the _____ account _____ the users current data balance?

_____ regular updates _____ keep track of each _____ remaining _____ ?
 How much _____ constantly updated with _____ data _____ ?
 _____ much _____ system constantly updated _____ real- _____ data about _____ ?
 Is _____ of the data for _____ user _____ ?
 Is the system _____ to _____ users apprised _____ ?
 When _____ updates with _____ users' remaining _____ balance?
 How _____ is _____ it comes to the data _____ ?
 How _____ of the _____ is _____ updated _____ information _____ the _____ balance _____ all users?
 _____ updated _____ to _____ the users data balance?
 _____ there frequently updated data _____ ?
 How _____ do the _____ information _____ users remaining _____ ?
 _____ updates _____ real time _____ on _____ data balance?
 _____ much is _____ updated with information _____ user's data _____ ?
 Is the system _____ updated _____ remaining data _____ ?
 How _____ do _____ the system with _____ data balances?
 Does _____ updates _____ with _____ to _____ users' remaining data _____ ?
 _____ you keep the system up _____ date with _____ ?
 Is there _____ about the users' _____ data _____ ?
 In real-time is the remaining data _____ ?
 _____ frequently _____ users get updates _____ their _____ balance?
 _____ you get regular _____ on the _____ users?
 _____ often _____ the _____ about the user's remaining data?
 _____ users' _____ balances frequently to provide _____ information?
 How often _____ system _____ real-time data balance _____ ?
 Are the system up to date with the _____ ?
 _____ are the real-time updates _____ for _____ balance?
 How _____ the _____ information on the _____ balance of every user?
 Do _____ updates _____ live data _____ user _____ ?
 _____ the _____ constantly updated with _____ about _____ data _____ users?
 _____ updates regarding data _____ for users?
 _____ frequently _____ the system updated _____ information about _____ balance for _____ ?
 How much _____ the _____ live data _____ information?
 When _____ update _____ the _____ regarding users' _____ data balance?
 _____ the system _____ updated _____ balances?
 How _____ is _____ updated frequently _____ data _____ the user's _____ ?
 _____ the _____ with real-time information _____ the users' _____ balance?
 _____ constant and immediate notifications for _____ data _____ ?
 _____ the system up _____ let users _____ their _____ balance?
 _____ often do _____ for users' remaining _____ balance?
 _____ much _____ the _____ is _____ updated with data _____ remaining data?
 _____ is the system constantly _____ with _____ data _____ users' remaining _____ ?
 How much is _____ continually _____ with _____ information about _____ data _____ for _____ ?
 How much _____ the _____ constantly _____ data on the _____ data _____ users?
 _____ often is the system changed _____ balance for _____ user?
 _____ there an immediate _____ frequent _____ data balances?
 _____ the system update itself with _____ data _____ ?
 _____ keep the _____ updated with _____ data balance?
 How _____ is _____ system continually _____ real-time _____ on the _____ of users?
 Do you make the _____ frequently _____ with _____ time _____ my data _____ ?
 _____ there _____ frequent _____ users' data balances?

_____ much is _____ updated _____ real-time information _____ remaining data _____ users?
 Are _____ making _____ updates _____ balances?
 _____ regularly _____ system update _____ live _____ my balance?
 _____ you _____ updates _____ users' remaining _____ balances?
 How much is the _____ constantly _____ information _____ balance _____ users' _____?
 Are updates done _____ respect _____ users' data _____?
 _____ regular updates on _____ users' _____?
 _____ and _____ the data balances of users?
 How many _____ is the system updated _____ remaining data _____ user?
 Do _____ real _____ information _____ a _____ data balance?
 According to _____ provided by the system, _____ frequent _____ remaining _____ balances?
 Is it _____ to keep _____ the _____ data _____?
 Is the _____ to show me _____ my _____ balance?
 _____ much _____ the system _____ updated with real-time _____ remaining _____ balance _____ users?
 How much _____ the system _____ updated _____ on the _____ for _____ person?
 How much _____ constantly _____ data _____ the _____ balance _____ the data?
 How _____ is the system _____ updated _____ information _____ data _____ for _____ users?
 How frequently does _____ the _____ balances _____ users?
 How _____ is _____ updated _____ real-time data about _____ data _____ users?
 Do real-time updates _____ respect _____ users' _____ balances?
 Is _____ system updated _____ about _____ balance for users?
 Is _____ quickly to _____ users _____ data balance?
 How _____ is the system _____ with _____ user's remaining _____ data?
 _____ often does the _____ be _____ with _____ on user _____?
 _____ you see _____ the remaining data balance _____?
 _____ there regular updates on the remaining _____?
 _____ you receive regular _____ on _____?
 _____ updates on the _____ data _____ for users?
 How often should the _____ refreshed with _____ user _____?
 How much of the system _____ with _____ user's _____?
 How much _____ the _____ updated _____ real-time data _____ the _____ data _____?
 _____ individual _____ regular updates _____ keep track _____ their _____ balance?
 _____ updates _____ in _____ respect to individual _____ balance?
 Do users _____ regular _____ about _____ balances?
 _____ does the system _____ data for users?
 How _____ does the system update with information about _____?
 Do _____ the system _____ real-time user data _____?
 _____ real-time with _____ individual _____ remaining data balance?
 How much _____ the system _____ about _____ for users?
 _____ is the system _____ real-time _____ user's remaining balance?
 _____ is the _____ updated _____ the _____ balance for the users?
 Are updates real-time _____ respect to _____?
 _____ of the _____ is _____ with real-time data _____ users' _____?
 How much is the _____ constantly updated _____ balance _____ the users?
 _____ you _____ information regarding _____ data _____ frequently?
 How _____ check the system with its _____ balances?
 Is there _____ data balances _____ data?
 _____ any _____ updates on the _____ remaining _____ balances?
 _____ updates _____ users' data balance are _____?
 Do _____ update _____ gather _____ users' data _____ frequently?

____ you ____ system with ____ information about ____ data ____?
 ____ regular ____ to ____ data balance for the ____?
 ____ regular updates ____ the users' ____?
 ____ there ____ updates about ____ users' ____?
 ____ is the system constantly ____ data for ____ user?
 Are there regular ____ balances?
 ____ is the system ____ information about the ____ balance ____ users?
 Do ____ the ____ is ____ to date ____ information ____ the ____ data balance?
 How ____ is ____ system ____ updated with ____ remaining ____ in ____?
 ____ the system ____ frequent update on ____ users' ____ data ____?
 ____ receive ____ about remaining data balance for ____?
 ____ much is the system constantly ____ with real-time data ____ data ____?
 ____ much is constantly updated ____ on the ____ balance for ____?
 ____ the system ____ updates regarding ____ data balances?
 ____ you make ____ system is ____ with the latest information ____ users ____?
 Do you see the ____ balances ____?
 How ____ is ____ system ____ with ____ balance data ____ user?
 ____ see regular ____ regarding ____ data balance ____ users?
 How ____ system continuously ____ information on the ____ data for ____ user?
 ____ use real-time information ____ data balance to ____ the ____?
 Is ____ data ____ for ____ user.
 How ____ is ____ updated ____ data ____ user balances?
 How much is ____ with real-time information ____ balance ____ users?
 How often ____ updated ____ the user's remaining data ____?
 ____ is ____ system updated ____ real-time information ____ the user's ____?
 ____ the ____ make ____ updates about the ____ data ____?
 ____ much is ____ with information about remaining ____ for ____?
 How ____ do ____ system ____ live data ____ balance?
 ____ much is the ____ constantly ____ data ____ the ____ remaining balance of ____?
 ____ is the system constantly ____ information about ____ remaining ____?
 How often will you update this ____ intel and the ____?
 Do you make sure ____ the ____ is up to ____ balance?
 Is there a regular ____ regarding ____ users ____?
 Do ____ updates ____ real ____ information ____ user's ____ balance?
 Is the system ____ updated on ____ data ____?
 How much ____ with the current ____ balance of ____?
 Do ____ real-time ____ respect to ____ data balance?
 ____ it ____ updated ____ keep ____ the individual's remaining ____?
 ____ you get regular ____ on ____ data ____?
 How much is the system constantly updated ____ remaining ____ of ____?
 How ____ will you ____ this system with ____ user?
 ____ the data balance updated ____?
 Is ____ regular ____ about remaining ____ balance for ____?
 ____ the system updated ____ with live data ____?
 Do ____ updates ____ the users' ____ balance?
 ____ is the ____ real-time data on ____ remaining balance of all ____?
 ____ there a ____ the users' data ____?
 Can there ____ regular ____ regarding ____ data balances ____?
 ____ updates made about ____ balances?
 Are there regular ____ users ____ balance in ____ system?

Is there a _____ about users' _____ data _____.

How _____ continually updated _____ real-time information on _____ data balance _____?

_____ recurring process _____ updates each user's _____ real time?

How much _____ the _____ constantly updated _____ information for _____.

Is there _____ regarding users' remaining data _____?

_____ updates _____ about _____ data balance _____ users?

What is the rate _____ received _____ data _____?

Do _____ often see updates regarding _____ data _____?

Do you _____ updates _____ the _____ last data _____?

_____ much is _____ updated with real-time _____ about the _____ each _____?

Does _____ system _____ regular updates _____ the _____ balances?

Do updates _____ respect _____ individual users' data _____ take _____?

How often _____ system _____ the _____ balance in real-time?

Are there _____ updates _____ the _____ data _____ of _____?

Is there _____ immediate _____ users' _____ data balances?

How _____ constantly updated _____ real-time data about the _____ for _____ user?

_____ frequent _____ on the users remaining _____ balances?

_____ often do _____ about users' available data _____?

Do _____ know _____ periodic _____ to _____ track _____ the individual's rest _____ data balance

_____ system been updated _____ on user balances?

Do you _____ the _____ with _____ real-time information about _____ users' _____ balance?

How _____ the _____ real-time data _____ information for users?

_____ much is _____ system updated with live _____ data _____?

Has the _____ with _____ information _____ users' data _____?

_____ much _____ the _____ updated with _____ data _____ data?

_____ update _____ frequently to give real-time information?

How often is _____ system _____ the _____ on _____ balances?

_____ often do _____ information about their data _____?

Is _____ regarding _____ data balances _____ users?

Do you _____ updated about remaining _____ balance _____?

How _____ of the _____ with _____ information _____ the user's _____ balance?

Is updates _____ to individual users' _____ balance?

Do you get _____ updates _____ balances?

How much _____ updated _____ real-time information about the _____ remaining _____?

Is _____ a _____ update _____ users' remaining data _____?

How frequently _____ updated _____ balance data?

Is there regular updates _____?

_____ much is _____ system _____ about the user's balance of _____?

_____ often _____ the system updated about _____?

Are _____ constantly _____ users' _____ provide real-time info?

_____ real-time, _____ remaining data _____ refreshed _____ each user?

How _____ system be _____ with _____ data balances?

_____ see regular updates _____ the _____ balance _____ users?

Does the _____ an update _____ users' remaining _____?

Does your system _____ real-time _____ data has been _____?

_____ you _____ the system is up to _____ with _____ information about _____ data _____?

_____ frequently _____ system refresh _____ the user's remaining data _____?

_____ is _____ updated with the _____ on the _____ balance for users?

_____ much _____ the _____ with the remaining _____ for each _____?

Do _____ have _____ updates about _____ users _____ balances?

_____ you tell me how _____ your _____ updated _____ data balance?
 How much _____ the _____ updated with _____ the remaining data _____ users?
 _____ updates to keep track _____ data _____ for each _____?
 Is _____ frequent notification showing _____?
 Do _____ if there _____ updates _____ track of the _____ rest of _____ data _____?
 What is _____ updated _____ information on _____ remaining data _____ of every _____?
 How _____ do _____ get _____ their _____ data balance?
 Do _____ updates for _____ data _____?
 _____ much is _____ updated with real-time data _____ balance?
 _____ there a frequent update _____ regarding _____ data _____ users?
 _____ live data _____ user _____ is the system _____?
 _____ you see _____ updates _____ the users' final _____?
 Do you get _____ on data _____?
 _____ keep up with the users' _____ real-time information?
 _____ is _____ reflect the remaining data balance for each _____?
 _____ times do _____ update _____ balances?
 Do _____ see _____ about _____ remaining data _____?
 Do you _____ regular updates to _____ of _____ data _____?
 _____ much is the _____ information on _____ remaining users' data _____?
 _____ much _____ the _____ with the _____ user data balance?
 _____ there regular updates _____ the _____ data _____ users?
 How much is constantly _____ data _____ for _____?
 Is the _____ updated _____ show _____ balance _____ data?
 How much _____ the _____ constantly updated with _____ the user's balance _____?
 Do _____ see _____ of the users _____ data _____?
 _____ the system _____ the users' _____ data balances?
 How much _____ system updated _____ real-time _____ data _____ in each _____?
 _____ much of _____ continually _____ with real-time information _____ the remaining _____ of _____ users?
 _____ much _____ the system is _____ with _____ about the _____ balance?
 How much _____ is _____ with _____ information on _____ data _____ for users?
 Is _____ a _____ update of users' _____ balances according _____ information provided _____?
 _____ continually updated with real-time _____ about the user's _____?
 _____ system be updated with _____ about the remaining data _____ each _____?
 A frequent _____ users' remaining _____ is _____ by _____ system?
 _____ much _____ system always _____ information on _____ remaining _____ for _____ user?
 How _____ the system continually updated _____ data balance _____?
 How _____ the system _____ real-time information about data balance _____?
 _____ constantly _____ with _____ time _____ the user's data balance?
 _____ the system constantly updated with real time _____ user?
 How _____ of _____ system is _____ with _____ information on the _____ data _____ each _____?
 _____ you _____ regular _____ on _____ users _____ balances?
 How _____ is the _____ updated with _____ live data _____?
 Is the _____ users their current data _____?
 _____ you updating information _____ often?
 With _____ data on user balance, how _____?
 How _____ continually updated with _____ on the remaining data balance _____?
 What _____ the system _____ with real-time _____ data balance for _____?
 _____ much time do _____ refresh information _____ data?
 Do regular updates _____ real-time _____ every user's _____?
 _____ regular updates reflect _____ time information _____ balance?

How much _____ updated with _____ information _____ the _____ balance?
 _____ often is _____ updated _____ information about data balance for _____?

Is _____ system regularly _____ the users' _____ balances?
 _____ system _____ updated with _____ on the data _____ for _____ user?

How often does _____ with information _____ user's _____ data _____?
 _____ frequent update made about users' remaining _____ according _____ the _____?

Does real-time _____ with _____ to _____ balance happen?
 Is there _____ update _____ users' _____ balances?

Are you _____ the information _____ users _____ balance _____?
 _____ much _____ updated _____ information on the remaining _____ for each _____?
 _____ you keep _____ up _____ date _____ real-time _____ on the users _____?

When _____ there _____ to _____ system about _____ data _____?
 _____ is _____ system continually updated with _____ user's balance?
 _____ frequent _____ for users' remaining data balances?
 _____ there a frequent _____ regarding _____ remaining _____?
 _____ to keep track of _____ remaining data balance?
 _____ you _____ updates on _____ data balance for _____?

How _____ does _____ an update _____ the _____ balance for each _____?
 _____ is the system updated _____ information _____ each user?

How much _____ the system _____ with real time _____ of users?
 How _____ the system _____ data _____ user balance?

Does real-time _____ with respect _____ individual _____ data _____?
 _____ much is the system constantly _____ users data _____?

What _____ of real-time _____ are _____ data balance?
 _____ regular updates _____ balance information _____ users?

Are _____ making _____ updates about the _____?
 _____ is the system updated _____ data?

How _____ does _____ refresh with information _____ each user's _____?
 What _____ is _____ with _____ information on _____ remaining data for each _____?

Do you see _____ the _____ balances?
 _____ you _____ regular _____ the data balances _____ users?
 _____ the _____ have _____ updated _____ users' remaining data?

Do you _____ about _____ data balances?
 How _____ is the system constantly _____ for _____ user?

How much _____ should the system _____ with _____ user _____?
 _____ much is the system _____ updated with _____ about _____ each _____?

Do _____ get _____ information updates for _____ data _____?
 How _____ is _____ information about remaining data balance for _____?
 _____ often _____ the _____ live data on my _____ balance?
 _____ the system make _____ regarding the _____?

What is _____ of real-time updates _____ balance?
 _____ does the _____ check _____ data _____ real-time info?

Is _____ the _____ remaining databalance?
 _____ you periodically change the _____ with _____ information of my _____ balance?

Does _____ real-time _____ amount of data left?
 _____ system updated with real-time _____ user's data _____?
 _____ you _____ updates _____ data balance for users?
 _____ updates _____ real-time information on each users _____?

How _____ is _____ information _____ data for each user?
 _____ you gather _____ data _____ frequently?

_____ updates take _____ real-time _____ to _____ users' data balances?

Does _____ system _____ regular updates _____ remaining _____ balance?

_____ there _____ updates _____ track _____ individual's data balance?

Are _____ real-time with _____ to _____ data balance?

Is the _____ up to _____ the _____ on _____ balance?

_____ you make _____ system _____ to _____ with real-time _____ the users data _____?

Are there regular updates _____ remaining _____ of _____?

When the _____ information _____ remaining data balance _____ each user, _____ often?

_____ you regularly _____ the users data _____?

Do you _____ updates _____ data balance for _____?

How much of _____ system _____ live _____ balance _____ users?

_____ system update with _____ data on user _____?

How _____ is the _____ constantly changed _____ real-time information _____ for each _____?

_____ regular updates about users' last _____?

Do _____ system with real _____ about users' data _____?

_____ sure that the system is _____ with information about the _____?

_____ much is _____ system _____ with real-time data on the _____ data _____?

Is _____ updates that _____ track of _____ data _____?

How _____ the _____ updated _____ about data balance for users?

How much _____ system constantly updated with _____ the _____?

_____ amount of time _____ the _____ accurate data balances?

Is there _____ frequent _____ data balances?

_____ amount of _____ updated _____ information on the _____ balance for _____ user?

Do you _____ users' remaining _____?

_____ system continually _____ with real-time information on _____ for each individual _____?

Do _____ gather regularly updates about _____?

_____ updated to keep users aware of their _____?

_____ is the system _____ to reflect _____ data balance _____ user?

How _____ is the system always _____ with _____ data _____?

_____ a _____ live _____ details to all subscribers?

_____ always _____ with information _____ the _____ data balance of every user?

_____ updates on remaining data balance _____?

_____ regular updates regarding the _____ data _____?

_____ often is _____ system updated with _____ data about _____?

_____ the _____ constantly updated with the _____ balance for _____ user?

_____ much is _____ updated _____ data balances?

Is there _____ updated _____ users?

_____ update _____ users remaining _____ balances?

Do updates take _____ real-time with _____ individual _____ remaining _____?

_____ gather _____ on users' data _____?

What _____ updates received regarding _____ data _____?

How _____ system constantly updated _____ about the users' _____ balance _____ data?

What is _____ rate of _____ updates _____ balance?

What _____ at _____ real-time updates regarding users' _____ received?

_____ you see regular _____ regarding the _____ balance?

Are _____ system up _____ date _____ the real-time _____ the _____ data _____?

_____ always updated _____ of the _____ data balance?

How _____ is _____ system _____ information about the data balance _____?
