

[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Complaints regarding high electricity bills
Inquiry Sub-Category	Usage patterns and habits
Description	Inquiries regarding changes in consumption habits, appliances, or equipment that may be causing an increase in electricity usage and subsequent higher bills.
Data Size	10,868 paraphrases
Want to buy data?	Please contact nlp-data@gross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Has a ____ in occupancy or number ____ impacted ____ ____ ____?

Is it possible ____ increase ____ in people ____ our ____ usage?

____ there a correlation ____ alterations ____ occupant ____ and ____ consumption ____?

Do ____ affect ____ electricity ____ use?

How ____ change in residents ____ use?

Does anyone ____ residents changing ____?

Does ____ number ____ affect energy ____?

____ it correct ____ usage ____ affected by theOccupancy ____?

____ in ____ affecting our energy use?

What is the ____ of ____ change ____ on ____?

____ changes in the ____ of ____ affect ____?

____ the ____ residents affected power ____?

Is the ____ inOccupancy affecting ____ use?

I ____ if ____ change inOccupancy ____ in ____ usage.

____ has ____ change in ____ energy usage?

____ noticed ____ change in energy ____ since ____ moved ____ out?

Is ____ by lower number ____ occupants?

____ what ____ to our energy needs?

Will ____ shifts ____ our energy usage?

Will ____ variations ____ use?

Changes in ____ energy use.

Do changes ____ population ____ rates?

Can ____ change in household ____ our ____ use ____?

____ a change ____ residents ____ an ____ electricity use?

How does the ____ in ____ use?

____ people affected by ____ use?

Energy consumption rates ____ inhabitants.

____ the energy usage ____ by ____ increase or ____ occupants?

____ the ____ of dwellers ____ related?

_____ Resident count _____ use?
 _____ electricity _____ been using because of adding/relocating _____?
 Variations in _____ affect _____.
 Is there _____ connection between _____ and the number _____?
 _____ effects _____ a change in _____ have _____ use?
 Is _____ count _____ on _____?
 _____ resident number influence _____?
 _____ it possible that a _____ occupants _____ influenced _____ consumption _____?
 _____ changes in _____ energy usage?
 _____ is the _____ affected _____ a _____ in residents?
 Will a change _____ affect _____ use?
 How _____ people affect power _____?
 Do _____ to occupant _____ consumption?
 Does _____ change in Occupancy have an _____ our _____?
 Will altered _____ our _____?
 What _____ does a _____ in _____ have _____?
 _____ levels affected _____ fluctuations in _____?
 Is _____ usage affected by _____ in _____ count?
 Is it _____ changes _____ energy usage _____?
 Alterations _____ occupant _____ an affect _____ our energy _____ levels.
 _____ it _____ we are using more _____ have moved _____?
 _____ new residents changed _____ power _____?
 How has _____ fluctuations _____ our _____ use?
 _____ change _____ occupants affecting our _____?
 _____ resident numbers _____ the consumption _____?
 Do _____ in _____ count affect _____?
 _____ shift affect _____ electricity _____?
 Occupancy or _____ effect on energy _____.
 Did _____ changes to people _____?
 Is a change _____ affecting _____?
 _____ a difference between the _____ power consumed _____ the _____?
 _____ correct that energy _____ is _____ by Occupancy _____?
 _____ people _____ are we _____ power?
 _____ there a connection between _____ our power consumption?
 _____ changes in _____ energy _____?
 Do population _____ affect _____?
 We _____ occupant _____ affects _____ use.
 _____ the _____ on energy _____ by Occupancy _____?
 Is it _____ occupied space _____ energy use?
 Is _____ residents affecting _____ power _____?
 _____ the _____ energy usage _____ by changes _____?
 _____ recent _____ resident _____ affecting energy usage?
 Do changes _____ residents _____?
 _____ the use of _____ influenced _____ changes _____
 _____ it _____ changes in Occupancy _____ energy use?
 _____ impact have the _____ on energy usage?
 Is _____ possible that energy _____ by _____ in Occupancy
 _____ the _____ residents _____ for energy _____?
 _____ electricity have we _____ because of adding/relocating _____?
 _____ in _____ of people make a _____ power usage?

_____ the _____ of electricity we _____ be _____ by the _____ in _____
 Do changes _____ number _____ living affect _____ energy _____ levels?
 _____ does _____ count affect _____ use?
 Change _____ can _____ energy _____.
 Is _____ affected by changes _____?
 Did _____ variations _____ energy _____?
 Is _____ changes _____ affecting _____ use?
 Is there _____ population _____ energy use?
 Is there _____ relationship between _____ of _____ usage?
 Changes in _____ energy consumption _____.
 _____ it true _____ alterations to occupant _____ affect our _____?
 _____ of residents affected our _____ usage?
 Is _____ for _____ in _____ to affect _____ power we use?
 Is energy usage _____ in _____?
 _____ have an _____ much electricity we use.
 Is there _____ in _____ energy consumption since _____ people _____?
 Changing _____ energy consumption rates.
 _____ altered residency _____ power _____?
 _____ the _____ interfere _____ the _____ consumption?
 The _____ be _____ a difference in Occupancy.
 _____ has _____ on electricity use?
 Did _____ affect energy _____?
 _____ it _____ more _____ moved in affect _____ use?
 Is _____ any _____ on energy _____ in residence count?
 How has _____ our _____ use?
 Change in inhabitants _____.
 _____ variation in _____ living _____ the amount of power we _____?
 Did _____ numbers _____ usage?
 _____ impacted our energy _____?
 Do _____ know _____ the _____ shuffle _____ our power _____?
 How _____ change in residency _____ consumption _____ energy?
 Change _____ residents _____ affect on our _____.
 _____ or moving tenants affect _____ electricity we _____?
 Can we _____ out how _____ change _____ use?
 _____ us about _____ the changes in Occupancy _____ affected _____ electricity use?
 A _____ population _____ may _____ energy _____.
 Is the energy _____ rates affected _____?
 Is _____ possible _____ people have _____ in _____ energy?
 Does _____ have _____ on our _____ expenditure?
 Energy _____ patterns _____ be affected by _____ or _____ in _____.
 _____ affected by the changes _____
 _____ levels impacted by Occupancy _____?
 How has the _____ in _____ impacted _____?
 _____ much _____ due to a shift in occupancy?
 _____ about the _____ in _____ affecting energy levels.
 Did _____ energy _____ increase because of _____ people _____?
 Is _____ change _____ of _____ impacting energy consumption?
 _____ it _____ for an increase or _____ in _____ affect _____ energy _____?
 _____ changes _____ resident count _____ use?
 Is the _____ usage _____ the _____ of _____?

____ a change ____ population ____ affected ____ ____?
 ____ changes ____ what happens to our ____?
 ____ a ____ affected energy use?
 ____ there ____ correlation between ____ consumption ____ variation in ____?
 ____ our power consumption levels go down due ____ increase ____ ____?
 ____ possible ____ changes inOccupancy ____ on energy usage?
 Will a ____ in ____ amount of electricity we consume?
 Is ____ usage ____ shift in ____ resident count?
 ____ energy use influenced by ____ of ____?
 How does ____ number of people ____ the ____?
 ____ our energy use change ____ the ____?
 ____ there ____ impact on energy use ____ resident ____ orOccupancy ____?
 Do recent changes ____ count ____ energy ____?
 ____ number of ____ affect ____ power ____?
 Occupancy ____ have an effect ____.
 Is the ____ energy affected ____ the ____ of ____?
 Is the variation ____ connected ____?
 Since people moved ____ how ____ energy ____?
 Change in ____ has ____ affect ____.
 How ____ electricity have ____ been using ____ result ____ tenants?
 ____ the ____ energy usage rates?
 Did ____ get messed ____ the ____ residents yet?
 ____ people ____ in affect ____ use ____ energy?
 ____ has ____ fluctuations in ____ had ____ energy use?
 Have ____ changes in ____ energy ____?
 Is it possible ____ levels ____ fluctuations.
 ____ the ____ residents ____ affect energy use.
 ____ change inOccupancy making ____ difference with ____ usage ____?
 ____ the change of residency ____?
 Does ____ residency ____ power ____?
 Is ____ consumption ____ resident ____?
 ____ in ____ affect energy use?
 How has ____ in residents ____?
 ____ does ____ of ____ affect power ____?
 ____ the ____ our power consumption?
 Number ____ affect household ____ usage.
 Will the change inOccupancy ____ in ____?
 ____ recent ____ in resident ____ use?
 Does any change ____ number ____ people affect ____?
 This ____ shuffle ____ power consumption.
 Resident count ____ have ____ on energy ____.
 Is there a ____ occupant changes ____ usage ____?
 ____ and ____ use impact ____ changed?
 ____ our ____ usage be affected ____ shifts ____ count?
 ____ power consumption may ____ the number ____ occupants.
 ____ on ____ when there ____ a change in ____?
 The ____ residents has ____ impact on our ____.
 Is ____ possible that ____ occupancy change made ____ with ____?
 Did the change in ____?
 ____ it ____ that ____ affects how much ____ we ____?

Resident ____ fluctuations ____ cause ____ demand.
 ____ our ____ usage ____ by the number ____ the room?
 ____ shift ____ how much energy ____ use?
 ____ a change ____ affect ____ consumption?
 ____ counts affect ____ use?
 The energy use ____ have been ____ inOccupancy.
 Change ____ an influence ____ consumption rates.
 Did the number ____ affect our ____ use?
 ____ our energy ____ since the new people ____?
 Did the ____ tenants ____ the ____ power ____?
 ____ going ____ with the power ____ theOccupancy ____ recently?
 Is ____ change in ____ residents ____ our ____?
 Is resident count ____?
 What changes did the Occupancy ____ and ____?
 Can ____ decrease in ____ of ____ energy usage?
 ____ it ____ people moved ____ and ____ are using more ____?
 ____ in ____ affect use ____ electricity?
 ____ any ____ in residents ____ usage?
 Is ____ made ____ difference with power usage ____?
 Did any ____ inhabitants ____ our ____?
 ____ change ____ number ____ residents have ____ effect on our ____ levels?
 ____ residents ____ be related ____ energy ____.
 ____ way ____ a ____ in ____ affect ____ electricity usage?
 ____ effect ____ changing ____ electric costs?
 Has the recent ____ the resident ____ our ____?
 Does ____ energy levels ____ a difference ____ occupancy?
 ____ the number ____ people ____ building ____ energy usage?
 ____ any ____ on how changes inOccupancy ____ use?
 ____ adding/relocating ____ affect ____ electricity ____?
 How ____ fluctuations in residents affected ____?
 Is ____ power utilization levels from ____ occupancy?
 ____ usage rates might ____ changes ____ occupants.
 ____ residents ____ recently that has ____ usage?
 Occupancy ____ and ____ impact had ____.
 Was the ____ power usage?
 ____ our energy consumption ____ new people ____?
 What ____ relationship between changes ____ count and ____?
 Have ____ in residents affected ____?
 ____ influenced by the ____ in occupied space?
 Is ____ inhabitants on energy ____?
 ____ power ____ have changed due ____ altered ____?
 Is ____ by shifts in ____ number of ____?
 ____ there ____ a ____ in ____ consumption after changing ____?
 ____ change in household ____ change ____?
 ____ how much electricity ____ use?
 ____ the ____ of energy usage affected ____ changes ____?
 Is ____ impact on energy ____ to ____ population?
 Will ____ of electricity ____ affected by ____ variation in residents ____?
 I ____ if ____ change in ____ difference with ____ usage.
 Do ____ in residents ____?

____ going ____ the power usage after a ____?
 ____ in ____ number ____ residents affect energy ____?
 ____ resident count ____ power usage ____?
 ____ influence our energy consumption?
 Our ____ consumption might ____ messed with ____ residency ____.
 ____ has ____ change ____ residents ____ on our power ____?
 ____ inhabitants could ____ consumption.
 ____ changes in residents ____ usage?
 Is ____ residency ____ power use?
 What happens to ____ when ____?
 ____ people ____ in, ____ more energy ____ used?
 What ____ the ____ on ____ and energy ____?
 ____ might ____ influenced by changes ____
 Is ____ that the ____ levels are ____ fluctuations in ____
 Our ____ use might ____ the changes ____.
 How ____ residents count affect power ____?
 Is ____ power ____ affected ____ people we have?
 ____ of tenants a ____ in ____ usage?
 Do you ____ any ____ changed their power ____?
 ____ a ____ household ____ an impact ____ electricity use?
 Is ____ energy usage ____ by changes in ____?
 ____ the resident ____ having ____ effect on our ____?
 ____ of people ____ might affect our ____ consumption.
 Is ____ change ____ number of residents ____ energy ____?
 ____ much ____ we been ____ due ____ a ____ inOccupancy
 ____ our power ____ have ____ because of ____?
 ____ decrease ____ number ____ people in the house affect ____ consumption levels?
 ____ fluctuations in ____ have ____ an ____ energy usage.
 Do you think the ____ power ____?
 ____ tenants impact ____?
 ____ resident ____ our electricity ____?
 Will there be a ____ the level ____ power ____ residency?
 ____ changing occupant ____ energy ____ levels?
 How ____ number of residents affect ____?
 Did ____ tenants affect electricity ____?
 Is ____ a change inOccupancy?
 ____ residency affected power ____?
 ____ residents affecting ____ power consumption?
 ____ in ____ could be ____ with ____.
 ____ occupant status affect ____ energy consumption ____?
 ____ a difference in occupancy ____?
 ____ change ____ power use ____.
 The ____ can cause ____ demand.
 What ____ has the ____ residents ____ on ____ usage?
 How ____ change ____ affected our ____ use?
 ____ energy consumption tied ____?
 ____ shift inOccupancy ____ an ____ on ____ much energy ____ consume?
 ____ influence energy consumption?
 ____ an increase ____ decrease ____ the number ____ affecting ____ energy ____ patterns?
 ____ correlation ____ in inhabitants and energy ____ rates?

_____ resident _____ electricity expenditures?
 Have you _____ change in energy _____ people moved _____?
 _____ change _____ residency influencing _____ consumption?
 What do you think _____ power _____ after Occupancy _____?
 Is _____ use _____ new residents?
 _____ a change in _____ of residents affected _____ consumption _____?
 Resident _____ fluctuations _____ cause variations _____.
 _____ recent _____ in residents _____ our _____ use?
 _____ the impact of _____ on _____ usage rates?
 _____ the _____ influenced our consumption of energy?
 Any idea _____ residency shuffle _____ with our _____?
 _____ the _____ residency affecting _____?
 Does _____ in _____ usage?
 Is the _____ the changes in _____ space?
 Can _____ or _____ in occupant numbers _____?
 _____ resident _____ influenced _____ expenditures?
 _____ possible _____ more _____ our energy use?
 Does _____ tenants affect how much _____ now?
 _____ recent _____ in the _____ of _____ affecting _____ usage?
 Change _____ residents _____ affect power _____
 Were _____ power usage _____ the number _____?
 _____ change _____ resident _____ affect _____ usage?
 Did _____ with our power _____?
 Is _____ in resident _____ impact _____?
 Does the _____ population _____ impact _____?
 Is _____ in _____ usage rates?
 _____ more _____ fewer _____ energy levels?
 _____ change in _____ affecting our _____?
 Please _____ me if the _____ impacting energy _____.
 _____ observed difference _____ the _____ of power _____ after altering the _____?
 Occupancy _____ and energy _____ impact _____.
 Is _____ use _____ by the _____ in _____.
 Electricity _____ be _____ by _____ in tenants.
 _____ impact _____ number _____ people _____ have on energy consumption?
 _____ possible to _____ the _____ of occupant _____ on power _____?
 _____ of people living in this _____ affect our _____?
 Is _____ rates _____ by _____ change in occupants?
 _____ relocating tenants _____ electricity _____ use?
 Our energy levels _____ be affected _____ occupancy.
 Energy _____ rates _____ be affected _____.
 Is the change in _____ and _____ affecting _____?
 Is _____ change _____ Occupancy affecting _____?
 _____ the _____ changes in inhabitants on _____ consumption _____?
 _____ numbers a factor _____ energy _____?
 Change in inhabitants _____ effect on _____ consumption _____.
 Is altered _____ impacting _____?
 _____ that _____ shuffle _____ with our power consumption?
 _____ in _____ affect the amount of electricity _____?
 _____ there _____ between _____ power _____ levels and the _____ of _____?
 Is it _____ energy levels _____ by the Occupancy _____?

Are the energy consumption rates _____ changes _____?

_____ number of people _____ consumption?

Is it possible that _____ people _____ energy _____?

_____ residents _____ our use of energy?

_____ resident _____ our energy _____?

_____ can a _____ in _____ of people living affect _____?

_____ in resident count _____ our _____?

_____ adding _____ much electricity we _____?

_____ change _____ residents affect _____ use?

Did _____ household _____ usage?

_____ it _____ that energy levels _____ be _____ fluctuations _____ occupancy?

Is _____ relationship between _____ changes _____ use?

_____ possible _____ the residency shuffle _____ the power _____?

_____ use _____ to be affected by fluctuations _____ resident numbers?

_____ the change in residents _____?

_____ affect _____ consumption rates.

Please tell us _____ the _____ impacting energy _____.

How has _____ in residency _____ energy _____?

_____ power usage increase if there _____?

Have _____ fewer _____ messed _____ our energy _____?

_____ or _____ changed _____ energy bill?

Should fluctuations _____ resident _____ have _____ on _____ much _____ use?

_____ the _____ shift _____ our _____ expenditure?

_____ there any impact on _____ when _____ is _____ in _____?

Is it possible for _____ or decrease _____ our energy _____?

Is _____ an influence on _____?

_____ the _____ of tenants affect _____?

How does _____ of people _____ here _____ our _____?

_____ changed _____ the impact _____ Occupancy shift _____ energy _____?

_____ it _____ that _____ increase or decrease in _____ influence _____ patterns?

_____ about Occupancy shift _____ energy _____?

How _____ the _____ residents _____ electricity usage?

_____ it _____ that the _____ are _____ by Occupancy fluctuations?

_____ recent changes in _____ count _____?

_____ been _____ changes in residents.

Our _____ bill has _____ as people _____?

Is the impact on _____ due to _____?

Is _____ shuffle _____ for _____ use?

_____ residents have affected _____ energy _____.

_____ has the _____ residents changed our _____?

_____ utilization levels may _____ affected _____ revised occupancy.

How did _____ number _____ affect _____?

_____ impact _____ a _____ have on our energy _____?

_____ energy usage affected _____ the _____ in resident _____?

Is _____ power _____ affected _____ changing _____?

Increasing or decreasing _____ people in _____ building _____ energy _____.

Is _____ connection _____ our _____ consumption and _____ of inhabitants?

_____ did the _____ of _____ affect their _____?

_____ energy consumption _____ to _____ residents?

Does _____ change in the number _____ energy _____?

How _____ count affect _____ energy _____?

_____ change _____ affect power _____ here?

_____ an increase _____ in _____ affect _____ use patterns?

Did changing _____ of _____ affect _____ consumption?

Is _____ possible _____ the changes _____ influenced _____.

_____ people change, _____ to _____ needs?

Is _____ count _____ energy use?

_____ number of _____ affect our _____?

Do the _____ of _____ usage?

Does _____ more _____ bills?

_____ the fluctuation _____ affect our energy _____?

_____ energy _____ affected by _____ of people?

_____ may have been _____ by people moving _____.

Is _____ tenants _____ how _____ electricity?

Were you able _____ us how _____ changes _____ have _____ our _____?

_____ change _____ population size _____ an impact _____ use.

_____ could _____ affected by changes _____ occupants.

Is _____ change _____ number of _____ impacting our _____ patterns?

Is _____ a difference in _____ the residency?

_____ changes _____ residents _____ energy usage?

_____ a _____ inOccupancy _____ our energy _____?

Population _____ may _____ an _____ used.

How _____ changing _____ people living affect the _____ of energy _____?

_____ possible that _____ change inOccupancy _____ use?

Does the number _____ on _____ energy consumption patterns?

Is _____ usage affected _____ shifts _____ residents count?

_____ the energy usage affected by _____ in _____?

Will fluctuations in _____ how _____ use?

Is there _____ about _____ usage _____ new _____ arrived?

Is _____ energy _____ are _____ by fluctuations inOccupancy?

_____ the _____ affect energy usage?

How is the _____ affecting _____ power _____?

Is the number _____ power _____?

Are the _____ consumption rates _____ changes _____ inhabitants?

Is there _____ impact on _____ usage _____ a _____ in _____?

There _____ question _____ the _____ after _____ changes recently.

_____ there a difference in _____ consumed after _____?

_____ altering _____ number _____ people related _____ our electricity _____?

The _____ inOccupancy _____ impact _____ much energy we _____.

Is _____ that _____ in _____ influenced energy usage?

Has _____ number _____ residents _____ energy _____?

I was _____ change inOccupancy made a _____ usage.

_____ change _____ members affecting _____ use?

_____ there _____ change in our _____ new people _____ in?

_____ don't know if _____ shuffle _____ with _____ use.

_____ difference _____ affecting energy levels?

_____ have _____ fluctuations in residency influenced _____?

_____ there anything _____ our energy _____ people arrived?

Is the _____ affected _____ the _____ occupancy _____?

_____ there any change _____ energy _____ after _____ arrive?

Is ____ energy usage ____ by shifts ____ count?
 ____ difference in power ____ after altering ____?
 ____ residents mean ____ to ____ needs?
 ____ do we use ____ a ____ a shift inOccupancy?
 Is there anything ____ can tell ____ about ____ inOccupancy ____ changed ____?
 ____ energy usage ____ were affected ____ changes in ____.
 Is ____ energy usage ____ by ____ Occupancy ____?
 Does ____ number ____ have ____ our power consumption level?
 ____ more ____ affecting our energy ____?
 ____ shift ____ factor ____ our ____ expenses?
 Did the ____ power consumption levels?
 What ____ didOccupancy shift and ____?
 ____ the ____ of energy usage ____ by ____ occupancy?
 ____ the use of energy ____ changes ____ Occupancy?
 ____ possible for an ____ or ____ in ____ to have ____ impact on ____ patterns?
 Have you noticed ____ people moved in?
 ____ the ____ residents affect ____ bill?
 ____ impact ____ energy usage ____ there is an ____ resident count?
 The residency ____ might ____ messed ____ power ____.
 ____ there a ____ the ____ and power usage?
 Is ____ correct ____ affected by changes inOccupancy
 Does ____ members ____ our consumption ____?
 ____ it possible that ____ change inOccupancy ____ difference ____ usage?
 The ____ may have ____ effect ____ household ____ usage.
 ____ we using ____ energy because ____ moved ____?
 ____ the change ____ doing to our ____ consumption?
 ____ shift in ____ usage after people ____ or out?
 Is ____ shuffle ____ our ____ use?
 ____ the ____ affected ____ fluctuations inOccupancy
 ____ the residency fluctuations ____ consumption?
 Is there ____ impact ____ energy usage when there ____?
 Did the ____ or ____ in ____ affect the ____ levels?
 ____ in ____ an effect ____ our ____ usage.
 Will ____ the resident count ____ usage?
 Is ____ possible that the ____ occupancy has ____?
 ____ of power consumed ____ after ____ residency?
 Is ____ that ____ changes inOccupancy ____ our power ____?
 Any idea ____ the ____ messed with our ____?
 How ____ number of ____ living affect ____ consumption?
 Does ____ have an ____ our electricity use?
 Is ____ energy usage ____ the ____ the ____ count?
 ____ inhabitants a factor ____ energy ____ rates?
 Energy ____ can ____ by ____ count orOccupancy ____.
 ____ have you noticed any ____ in energy ____?
 ____ the impact ____ energy ____ caused by ____ in ____?
 Is the ____ influenced by changes ____?
 Do ____ know ____ a decrease or ____ in ____ effect on ____?
 ____ the power ____ levels affected ____?
 ____ usage ____ resident counts?
 How much energy ____ we used ____ shift ____?

____ count fluctuations ____ demand...right?
 ____ if ____ residency ____ messed ____ power use?
 ____ there any correlation ____ changes ____ occupant ____ our ____ levels?
 Is ____ shift ____ size affecting ____ usage?
 Will the change ____ affect ____?
 Will ____ increase or ____ in people affect ____?
 ____ number of ____ affect our ____ bill ____?
 ____ usage ____ by ____ in the ____ of people?
 ____ what will ____ to our ____ needs?
 ____ there any ____ energy consumption ____ inhabitants arrived?
 Do ____ occupancy ____ energy ____?
 How does an ____ in the number ____ here ____ our ____?
 ____ the ____ inOccupancy ____ our ____ usage?
 Does an increase or decrease ____ the ____ influence ____?
 ____ affected ____ the fluctuations inOccupancy?
 ____ changes ____ affect our ____ usage?
 Is ____ changes in ____ use?
 There ____ an ____ the residency ____ messed with ____ consumption.
 Did ____ increase or ____ inOccupants ____ power ____?
 Can increase or ____ in ____ affect energy ____?
 Is it ____ inOccupancy have ____ usage?
 Is there ____ correlation ____ inOccupancy ____ use?
 ____ altering the number ____ our electricity ____?
 There is ____ impact on ____ usage ____ resident count.
 ____ the increase/decrease ____ occupants ____ levels?
 ____ number ____ tenants affect household ____ power?
 How has a ____ of ____ our ____?
 The ____ in the ____ may ____ our power ____.
 Is ____ in population size ____?
 Does ____ in ____ affect energy ____?
 Is it possible ____ energy levels ____ in the ____?
 ____ changing ____ power consumption?
 Is ____ possible ____ an increase ____ decrease ____ our ____ usage patterns?
 ____ energy ____ affected by ____ population?
 How ____ in the ____ of residents impact ____?
 ____ may have ____ on energy ____.
 Is ____ possible ____ altered residency ____ electricity use?
 Are ____ needs ____ by changing ____?
 Have ____ changes ____ count affected our ____?
 ____ the level ____ affected ____ revised Occupancy?
 The ____ of change in ____ consumption ____.
 What ____ does the number ____ living here ____ on our ____?
 ____ the ____ usage affected by ____?
 Did ____ in ____ affect ____ energy ____?
 ____ levels change due ____ difference inOccupancy?
 How has ____ in residents ____ usage?
 ____ in ____ our energy usage?
 ____ in residents ____ on electricity usage?
 ____ count variations ____ an ____ use.
 Are there recent ____ in ____ energy usage?

Is _____ affected _____ energy consumption patterns lately?

Is the _____ number of _____ power _____?

_____ residents can _____ needs.

What _____ did Occupancy _____ and _____ use _____?

_____ number affect _____ consumption?

Has the number _____ our _____?

_____ change _____ resident _____ have _____ impact on energy _____.

Did altering the number of _____ electricity?

Is recent _____ in _____ number of _____ our _____?

_____ in residents affect our energy _____?

_____ the _____ utilization _____ affected _____ the revised Occupancy levels?

_____ there is _____ impact _____ energy _____ due to _____ change _____ resident _____.

Did new residents _____ power _____?

How _____ a _____ the number of _____ living _____ energy _____ levels?

Has there been _____ change _____ the _____ of power _____?

_____ regarding our energy use _____ the _____ people _____?

Is the number of _____ our _____ consumption _____?

_____ in residents _____ energy consumption?

_____ affect energy use?

Is energy use _____?

Changing _____ may _____ energy _____.

_____ of Occupancy _____ use have changed.

_____ impact _____ energy _____ due to _____ count or Occupancy change?

Did _____ impact _____ use?

Is there _____ relationship _____ in resident _____ and _____?

_____ amount of electricity we _____ be _____ a variation _____ residents _____?

Is _____ recent _____ resident _____ energy use?

_____ change in _____ our energy usage?

Has _____ changed since _____ people _____?

Did _____ number _____ people affect the _____ used?

_____ shift _____ impacting energy usage?

How do _____ number _____ living _____ amount _____ we use?

_____ influenced our _____ usage?

_____ to the _____ of people affect _____ energy _____?

Do _____ counts affect _____?

_____ a _____ population affect _____ consumption _____?

How do _____ number _____ living _____ energy _____?

_____ of people _____ the _____ use?

_____ the residents' _____ affected _____ usage?

Does any _____ the number of people _____ our _____?

_____ with our power consumption?

Has the _____ the new _____ arrived?

_____ did _____ in residents _____ power use?

_____ has the change _____ residency changed _____?

_____ variations _____ residents _____ to _____ consumption?

Did an increase _____ decrease _____ occupant _____ affect _____?

_____ have _____ been any changes in our energy _____?

Is _____ electricity use?

_____ possible _____ a difference in _____ affects our _____?

What _____ a change _____ residents have _____ electricity _____?

Is _____ lowered _____ people _____ our _____ use?
 _____ our power _____ get _____ by the _____ residents?
 _____ the _____ affecting our _____ use?
 Did our energy use _____ a _____ changes inOccupancy?
 What impact _____ a _____ in _____ much energy _____ use?
 Did the _____ usage?
 _____ changes _____ affect energy _____ rates?
 Have _____ a change in energy usage _____?
 Alterations _____ occupant _____ affect our _____ levels.
 Has _____ number _____ residents _____ our energy use?
 _____ affect our _____ consumption?
 Is _____ number of people _____ our energy _____?
 How _____ count _____ energy _____?
 Is the effect _____ changes in _____?
 _____ power consumption _____ with by those _____?
 Is our _____ consumption level _____ the _____ of _____?
 _____ you think this residency _____ our _____ consumption?
 Energy _____ may have _____ inOccupancy.
 Have recent changes _____ our energy _____?
 Is it _____ the _____ inOccupancy impacted _____ power _____?
 Energy _____ rates _____ have _____ changes inOccupants
 Do _____ affect _____ energy consumption?
 _____ of tenants _____ home _____ usage?
 _____ our energy usage _____ by the _____?
 _____ the _____ residents changed our energy _____?
 The _____ be influenced by an _____ in occupants.
 Does _____ our power _____?
 _____ in inhabitants _____ affect _____ rates.
 _____ changes _____ inhabitants affect _____ energy use?
 Do we _____ our _____ the difference _____?
 Will _____ or _____ occupants affect _____ usage patterns?
 Is _____ usage influenced _____ resident _____?
 Is there _____ impact on _____ of _____ change _____ resident _____?
 _____ it _____ moved in that we're using _____?
 Did _____ number _____ people affected _____ yet?
 _____ impact has a change _____ on our energy _____?
 _____ may have been _____ changes _____
 How do _____ number _____ people living _____?
 Did _____ living _____ affect _____ usage?
 _____ it possible that _____ increase _____ tenants has _____ on _____?
 Does _____ changes _____ residents _____ usage?
 _____ energy _____ are caused _____ resident count _____?
 _____ possible _____ or decrease in occupant numbers _____ influence _____ usage patterns?
 Is our _____ affected _____ changes _____?
 Did _____ in inhabitants _____?
 Does _____ residency _____ an _____ on how much _____?
 Is altered _____ affecting _____?
 _____ there a relationship between _____ power use _____ the _____?
 Is _____ residency _____ power _____?
 How _____ in residents _____ use?

How _____ the _____ energy usage?

Is a shift _____ space _____ we consume?

Is it possible to _____ inOccupancy _____ affected our electricity _____?

_____ count _____ energy use?

Is _____ possible _____ revisedOccupancy _____ utilization levels?

_____ a change in people affect _____?

_____ people changed _____ use?

Is _____ a relationship between energy consumption _____?

Have _____ in _____ our _____ consumption?

_____ the power consumption impacted _____?

_____ changed the amount _____ used?

_____ rates might _____ affected by changes _____ inhabitants.

_____ there a correlation _____ power consumption and the _____?

_____ recent changes _____ the _____ count affect _____ usage?

How much _____ we use _____ of adding/recharging _____?

Will the amount _____ electricity _____ by a _____ orOccupancy _____ energy _____ to _____ in residents?

Is there any _____ to _____ people _____ the _____ impacting _____ energy consumption _____?

_____ influenced energy usage?

Is _____ new _____ messing _____ power _____?

_____ change in _____ number of people _____ energy consumption?

Will _____ influence _____ changing tenants _____?

The fluctuation _____ has _____ effect _____ use.

Is _____ consumption messed with _____ shuffle?

Did _____ occupants _____ decrease power _____?

I _____ if _____ are _____ more _____ since people moved _____.

Is _____ link between our power consumption and _____?

_____ does _____ in residents _____ energy use?

_____ the energy levels _____ inOccupancy?

With _____ people, _____ to energy _____?

Will _____ count _____ power usage?

_____ recent changes _____ the _____ our energy usage?

_____ amount of _____ household power _____?

What happens to _____ energy _____ people move _____?

_____ our energy use _____ inOccupancy?

_____ of residents affected _____ usage.

_____ residents affected energy _____?

_____ any _____ number of _____ affected _____ energy use?

_____ possible that a _____ affect the amount _____ electricity _____ use?

_____ the changes _____ affecting our _____?

Did changing the _____ of _____ electricity _____?

_____ amount of electricity _____ consume _____ by _____ number of _____ living in _____?

_____ a variation _____ residents _____ how much _____ use?

Is it possible that _____ are affected _____?

_____ counts _____ energy use?

_____ consumption changed since the new _____ in?

Have _____ influenced _____ energy _____?

_____ the _____ impacts energy _____?

_____ in _____ affect our energy _____?

_____ energy usage _____ occupancy changes _____?

Is there a _____ between _____ in _____ and _____ usage?
 _____ the addition/relocation _____ tenants affecting _____?

Is _____ a _____ in level of power _____?
 _____ change in _____ our _____ usage?

Is a change _____ number of _____ having _____ consumption _____?
 Will _____ energy _____ affected _____ the changes in _____?

How _____ are we _____ of _____ tenants?
 Is _____ to tell me about _____ inOccupancy _____ changed _____ use?
 Is _____ give _____ changes inOccupancy _____ affected our electricity use?
 Has _____ change in residents _____?

I _____ wondering if _____ messed _____ our power _____.
 Is _____ energy _____ affected _____ the _____ in occupied _____?
 _____ the energy _____ changes inOccupancy
 _____ the change in _____ usage?

Are changes _____ inhabitants _____ energy _____?
 _____ number _____ residents _____ our _____ bill yet?
 Have you _____ changes _____ since people _____ in?
 _____ the _____ residents have an impact on _____?
 Can _____ residents affect _____ electricity _____?
 _____ it _____ that _____ occupiers affect _____ usage?
 _____ possible that a _____ in _____ has influenced _____ levels.

Has a _____ number of residents _____ usage?
 _____ demand can be _____ by _____ count change.
 Is the _____ impacted by _____ energy consumption _____?

What effect _____ a _____ our power usage?
 _____ there a difference _____ our _____ consumption since _____?

What _____ did _____ and _____ have?
 _____ changes _____ affect _____ usage?
