[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers	
Inquiry Category	New service inquiries and sign-ups	
Inquiry Sub- Category	Service availability	
Description	Customers inquire about the availability of internet service in their area, including coverage and speed options. This category includes queries about fiber optic, cable, DSL, and wireless service availability.	
Data Size	7,428 paraphrases	
Want to buy data?	Please contact nlp-data@qross.me via your business email address.	

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)

	wireless affected or natural obstacles near?
	structures interfering quality?
	are that may with reception
Build	ling or likely to ranges.
	around impact signal
Is	that buildings and free wi-fi near?
	my cell by or terrains?
Is	possible neighboring might pose to free?
	wi-fi not of buildings?
Do _	disrupt ?
	concerns about disruption due disruption due obstructions close.
	possible that structures can disrupt connection?
	reception be by structures.
	the the mobile reception?
Will	network affected by the of?
	nearby buildings coverage?
	you get signal or?
	nearby buildings natural that wireless coverage.
Does	the signal?
	interference from?
	affect signal
Ι	if buildings stuff will ruin me.
Will	be affected buildings natural?
	that neighboring could pose challenges access?
	from buildings and obstructions close where ?
	buildin"s gonna wreck ?
Is bu	ildin's my?
Struc	ctural my wireless connection.

interfere with signal?
Is by the?
Does the barriers quality?
may affect wireless signals
structures my cell?
Is it wireless connection?
Is it possible that will?
Will the coverage?
Is it possible that close I can ?
Will buildings have on wireless ?
wireless coverage be
Does the architecture wireless?
close edifices affect availability?
there obstacles near block ?
Can structures interrupt the cellular service?
you think that or affect communication?

network
metwork
network

the proximity of going to affect ?
Are there about to to close by?
Is it that neighboring a wi-fi?
Natural wi- fi
Will signal?
obstructions signal strength?
What structural me on my wireless?
impact on ?
Will buildings wireless?
Will nearby signal?
barriers interfering reception?
buildings or wireless in my area?
There be concerns disruption obstructions close by.
Will the obstacles near my coverage?
Will structures?
proximity to affecting ?
it problem to buildings barriers to?
these can disrupt ?
change my?
Do obstacles access?
Can constructions negatively ?
Might nearby architecture ?
Is structures connection?
wireless signal by nearby?
Solid objects can wireless next?
with coverage of structures?
obstacles wireless near me.
Is any due to ?
it possible for buildings stuff internet?
Is it that will ?
the network quality affected physical barriers?
local affect signal?
Could structures the?
Do threaten my ?
Could surrounding with seamless ?
Will hinder signal?
Will the here?
there any issues coverage surrounding structures?
my reception going to be ?
my reception going to be : screw up with wireless service next ?
my cellphone structures terrains?
Are signal of obstructions? Local can affect
Do natural features ?
Is access nearby?
constructions affect coverage.
get the way wireless ?
affect signal?
There be concerns disruption because physical Can buildin" wreck ?
can numoni" WTPCK /

my wi-fi be the in way?
buildings affect coverage?
Is nearby signal?
Iswireless buildings or natural?
Do you suppose can your near ?
reception quality may be barriers.
construction nearby coverage?
constructions interfering nearby ?
they with reception?
Is will ruin my connection here?
Is neighboring edifices may challenge to access?
wireless signals close to
barriers affect ability to get a ?
signal be affected obstacles near location.
affected by buildings?
Can natural affect wireless me?
How my signal?
structures near location that affect wireless .
Does signal
Can nearby ?
signal by nearby obstructions.
Is to the free wi-fi near me?
is to the free wi-fi flear file?
