[Demo] NLP Dataset for Customer Service Automation

Company Type	Car Dealerships
Inquiry Category	Accessories and customization inquiries
Inquiry Sub- Category	Safety Accessories
Description	Customers inquire about options to enhance vehicle safety, including features such as backup sensors, blind-spot monitoring systems, lane departure warning, or adaptive cruise control. They often request guidance on the effectiveness, compatibility, and installation requirements of these accessories.
Data Size	8,679 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Car Dealership" customer inquiry. (Purchased data will not be masked.)
