[Demo] NLP Dataset for Customer Service Automation

Company Type	Wealth Management Firms
Inquiry Category	Asset allocation and diversification strategies
Inquiry Sub- Category	Risk Management Strategies
Description	Customers inquire about strategies to mitigate risk in their portfolios, such as diversifying assets across different industries, regions, and asset classes to reduce exposure to individual risks and market fluctuations.
Data Size	7,846 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Wealth Management Firm" customer inquiry. (Purchased data will not be masked.)

you ways to losses to market volatility through prop	per?	
What way allocate assets unpredictable with	the of avoiding	_?
How can I fancy asset allocation?		
to potential smart allocation.		
assets allocated less volatile?		
Is there to minimize fluctuations asset?		
I in flappy markets?		
Could you suggest exposure to from unstable	?	
suggestions to allocate assets?		
Do you any on how to losses ?		
Is it recommend to loss risks from?		
How market volatility minimized using asset?		
the damages the changing markets?		
What should to losses in turbulent?		
Any suggestions how assets turbulence?		
could be to reduce loss to ?		
recommend strategies avoid major setbacks due	?	
Do any suggestions as to minimize losses caused	?	
Do any advice about protecting in ?		
I'm seeking advice on how caused by		
Any suggestions on be allocated turbulence?		
it possible asset to risks in volatile	markets?	
Do any advice on volatile markets?		
can market be minimized proper ?		
How do risks to?		
Can you to due to in market?		
potential downturns via smart?		
the ways to allocate amidst markets not	ential loss ?	

Is to use asset losses caused market?
have any suggestions how by market instability?
How do reduce caused by the?
There are ways exposure losses unstable
Are there ways limit with allocation?
it possible to allocation?
To posed by market fluctuations, please effective
to invest wisely reducing risks?
Would it exposure to possible losses markets?
asset be used to losses market
Do you suggestions on how potential losses the ?
The of volatility can by allocating
How do assets when the are nuts?
There are effective allocation can limit fluctuations.
What can used in unstable markets?
are which well-designed asset allocation can protect volatile
advise on effective asset techniques to ?
Seeking advice how potential financial caused market
are to potential with allocation.
How can reduce losses is ?
proper to to potential losses in turbulent markets?
into smart allocation approaches that risks amid a turbulent
suggestions on how to market?
Are there any how to volatility?
Suggestions on how to when?
possible for to to decrease exposure unstable markets?
How we market is volatile?
can we limit the damages the the?
volatility pose if asset allocation techniques not
there way lost investments in markets?
What order to exposure?
Strategies markets are unstable.
strategies loss due to fluctuations markets?
you any advice effective asset to risks?
suggestions efficient to to vulnerability?
it possible my from market?
assets to impact
impact on market be by assets.
How should we show how wisely?
Is recommend to reduce potential losses market?
sharing into smart asset allocation approaches that downside a marketplace, ensuring
sharing into smart asset allocation approaches that downside a marketplace, ensuring sharing insights smart asset counteract in a turbulent marketplace.
sharing insights smart asset counteract in a turbulent marketplace.
sharing insights smart asset counteract in a turbulent marketplace. Assets should allocated to reduce market asset allocation used to loss risks?
