[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Repair and Maintenance Companies
Inquiry Category	Masonry crack filling
Inquiry Sub- Category	Determining crack repair methods
Description	Assisting customers in evaluating the appropriate crack repair methods for their masonry structures, considering factors such as the width, depth, and location of the crack, ensuring a proper and long-lasting repair solution.
Data Size	5,405 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

$\label{lem:masked_sample} \mbox{Masked sample paraphrases of one "Home Repair and Maintenance Company" customer inquiry. (Purchased data will not be masked.)$
