[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Repair and Maintenance Companies
Inquiry Category	HVAC system maintenance and repair
Inquiry Sub- Category	Thermostat malfunction in HVAC system
Description	Customers inquire about their malfunctioning thermostats, which can cause temperature discrepancies, inaccurate readings, or unresponsive controls, potentially due to faulty wiring, sensor problems, or programming issues that need troubleshooting or recalibration.
Data Size	10,574 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.
