## [Demo] NLP Dataset for Customer Service Automation

Company Type	E-commerce Marketplaces
Inquiry Category	Privacy and data protection concerns
Inquiry Sub- Category	Data Encryption
Description	Questions about the encryption methods used to protect customer data, including the strength of encryption algorithms and data transmission protocols.
Data Size	6,958 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

## Masked sample paraphrases of one "E-commerce Marketplace" customer inquiry. (Purchased data will not be masked.)

	you provide more insights _	strength	data transmission protocols	records?
	you discuss the	the transmissions	s?	
	you tell about th	e the trans	mission used?	
	curious how the data	our re	ecords.	
	be possible you	better understand	strong these transmission are	?
	if the data	protocols effective	protecting records.	
Are	personal protecte	d the data protoc	cols?	
	transmissi	on protocols are for ou	r personal?	
I wa	nt dat	a transmission are	keep safe.	
	would to the stre	ength of data transmis	sion protection.	
	help with streng	th of transmission	personal protection.	
How	are the	that are used	personal details?	
	there more	us about strength of	transmission protocols?	
	us how secure o	ur protocols are?		
Can	light how w	ell-protected our personal $\_$	transmission protocol	s?
I wa	nt know how secure		transmission protocols.	
	you more about	ways perso	nal records are and?	
	much personal d	lata protected the	protocols?	
Can	you insight	level protection of	of information?	
	want to	protocols for s	securing my information.	
	transmission	our personal data?		
	the protoco	ols protecting our reco	rds?	
Do _	additional informa	tion measures for	r records?	
	it be possible for you	deeper understar	nding data Protocols?	
I	_ to how my pers	sonal information when	n	
	give us an	the data tra	ansmission protocols?	
How	secure is w	hen person	al information?	
	effective the data	when protecting	_ personal?	

us data protocols	our records safe.		
Can learn more about effectiveness	data protocols	s in	_ information?
How you tell about the your _	protection?		
Do data transmission protocols	personal info	ermation?	
Can the data transmissi	on protocols that guard	records?	
it possible provide a deeper u	ınderstanding of	_ the applied data	are?
How us the the da	ta protection measures?		
What you the of the data	a are used	1?	
transmission protocols o	our records?		
What exist the data	_ for private records?		
more information how and secure		?	
robust and reliable are to	protect perso	onal records?

What you tell us about the strength		our inform	ation?

Do end about the of data for records protection?
Can about data protect our data?
there that you tell us about strength of the ?
Can give me further about the data that chose ?
Can you describe the data ?
Would give a of how strong the transmission Protocols?
are the weaknesses trans.mediaprotocols to shield records?
can shedlight on how well-protected personal records data
Can you tell me about strong data ?
able insight level of protection of our personal?
Can you the data protocols?
the level security by the protocols that protect personal?
Do any information the measures for personal?
I appreciate more the strength data transmission
Can give me more the transmission our personal?
it to get the efficacy of data protocols?
you me about data transmission protocols protect ?
Do you have any protocols our records?
I would secure my information when it transmitted.
the protocols have the safeguard information?
Do know strong the data transmission in protecting ?
I would like information how is.
How does our private information?
Can you explain how the transmission protocols details?
more light the of our protocols?
Do information on the security transmit records?
you tell us about of the data transmission our?
I want to how is when
you light on the protocols are?
How secure the to protocols?
interested in learning about data transmission protect personal records, can that?
What are strengths using data trans.mediaprotocols private information?
Do about the measures that used to personal?
you me protocols are for our data?
What the strength of data for protecting our?
How robust the methods used transmit records?
it be possibleyou how strong transmission Protocols?
provide details data transmission that are used protect personal?
do think about and weaknesses trans.mediaprotocols to data?
much our information is by data protocols?
it possible how strong the data are?
I want learn about data protocols personal can you give information?
the transmission the data?
well-protected our personal are data protocols?
Please tell about transmission protocols records.
curious about how data transmission my
I'd like to know the protocols are securing
What is your weaknesses using trans.mediaprotocols to protect ?
it possible information security our data protocols?
it more the efficacy of the data transmission?
iinote inc criticacy of this data transmission;

Is more info reliable data transmission protocols?
Are protocols protecting personal records?
What about the safety data methods private records?
What you and in utilizing shield private records?
tell me about the of of ?
there information secure my personal is?
Can you me more data protects data?
How effective transmission protocols for our?
Did know well protected records are with the ?
data effective keeping our records safe?
Additional regarding of the protocols would be
Do the transmission our?
strong transmission protocols are protecting personal details?
learning secure the transfer methods are.
Does anyone know how information?
you me about the strength of our protocols?
Can you share information the of ?
want know if data transmission strong for securing
Care on the data transmission shields?
What do of the strengths using trans.mediaprotocols to ?
Give the that are to protect our personal stuff.
Is it possible to out how personal are data ?
Do you know how the protocols ?
Do how well our are protected methods?
it that your personal are transmission protocols?
Can you update of the data transmission?
weaknesses you using trans.mediaprotocols to shield priv.records?
Can you about transmission for our?
I want to $\_\_\_$ about $\_\_\_$ robustness of our $\_\_\_$ protecting $\_\_\_$ records.
Please light the of data transmission protection.
do how well our personal protected by these?
Can you how secure protocols our personal?
secure our personal records thanks ?
your transmission protocols keep personal ?
How secure are data it protecting personal?
effective the transmission are protect records?
Let know how effective data transmission records.
Let know now effective data transmission records.

it possible to give more insights into the ?
How data really have?
give me transmission that used to protect personal records?
of our records protected the protocols used?
to learn more about the transmission protocols for records, can give ?
you know more about our are these?
Do information on personal are protected?
us about protocols keep our records
Do how the transfer are?
What insights about the data protocols used private?
I'd to how effective the in keeping safe.
any more about the security measures personal records?
Are any findings show safety particular of communication storing information?
transmission protocols make personal records?
you know more about effectiveness our ?
Let us if transmission protocols are our
Do you much strength the protections?
it be you better transmission protocols are?
Can you security of personal?
Please let me data transmission for records protection.
you me more details data protocols are for records?
can you us the strength the applied ?
Can you me the security ?
it comes to transmission, how secure ?
Can me further data protocols protecting personal records?
How much data protected by the protocols?
you about the strengths in trans.mediaprotocols to shield?
Do know how secure our are these?
Can me the security these transmission protocols for ?
effective the when it comes to our?
tell more about the data protocols used my records?
What weaknesses of specific trans.mediaprotocols to shield?
and reliable the are used transmit protect personal?
I want to how data are records safe.
you want give information transmission that protect personal stuff?
you able to tell of the transmissions?
Can how secure data are for our ?
would like more about protocols that personal records.
am in of strength of the data protocols.
need more about data transmission my records.
I would like well data transmission work to records
you know more the our data?
possible to the security of personal records?
know how our personal are protected through these?
What your views on the strengths using shield?
Can us an indication data protocols are?
tell us about the robustness the ?
further information regarding the effectiveness data protection?
it possible for you to give deeper data transmission Protocols?
tell us how transmission protocols protect ?

you tell me about data protocols our ?
tell about the level protection our transmission?
What are your thoughts are through these?
Would be the data protocols' effectiveness in protecting our?
want how effective the data transmission our records safe.
it possible to take closer look the transmission protocols?
is effectiveness the used to information?
What do and weaknesses using trans.mediaprotocols shield private?
How data protect my ?
you the transmission protocols are effective protecting records?
Do we clear how secure are these protocols?
tell reliable and robust the protection of personal records are?
Tell us the of our
my information is transmitted is I would like more
anyone how reliable and chosen data are?
I want know data protocols are.
you tell us these protocols are our personal?
the protocols effective securing our records?
want to more about how the protocols
want know the data effective in our records.
Do you security measures for sending ?
know effectiveness of the transmission protocols?
How data transmission when to protecting information?
you give about the data transmission that enough personal?
Is it to insights the for our personal ?
How are our the data protocols?
the data protocols strong protect ?
you tell if the data safe?
would learn more about the strength of data protocols
I would like my personal my personal
Can you shed some how our are the protocols?
would like know the data protocols strong enough for
I'd more about how transmission protocols personal safe.
What do the of transmission methods private?
tell about the data protocols we to personal?
Do you any information the data our records?
you any about how and secure transmission protocols?
Do you information the data transmission personal records?
safe records under the data transmission ?
well do the data our information?
Can us more about security of
to find out the data are.
much our personal records protected protocols?
Could us more information about data transmission protocols?
to level protection our data transmission protocols.
What are strengths and using to?
we say effectiveness of used transmit information?
like to know effective protocols for keeping records safe.
How effective the transmission in our ?
How application data protocols?

effective data transmission in protecting records?
Is there anything you about the strength of ?
I'm the data methods are.
I would like more about data in keeping
are insights into safety provided by transmission methods ?
are the strengths in using shield records?
it possible that the transmission records?
tell me how the data protect records.
data transmission really private information?
Is the transmission to our information?
Could we learn the effectiveness of data our information?
it to how secure are data protocols?
I want to how my information while
you me the of protection our data ?
How can tell about the personal information?
I'd know how the data transmission protocols keep
be possible for to provide the data transmission?
like know how data protocols are keep our records
I information the strength of for records protection.
Can you tell safe data transmission protocols personal?
I need know the are secure.
yousome light onwell records are employedtransmission?
Can tell me the data protocols personal?
wondering how the protect my personal
Can tell me more about the protocols ?
do strengths and using trans.mediaprotocols shield private data?
in in the data my personal records it you better understand strong these data protocols ?
t you better understand strong these data protocols ? curious how the data protocols our
it possible give insights level of for ?
good the protocols for ?
good us protected to us how secure our records are the ?
how secure personal due to the protocols?
Can you tell how data protocols ?
you any information on how transmission our personal ?
you us the reliable and robust to transmit records?
there anything you about secure personal are?
there anything you about secure personal are?  you tell about the strength of protocols?
you tell about the strength of protocols?
you tell about the strength of protocols?  How and are the methods of records?  you have information how data transmission protocols personal?
you tell about the strength of protocols?  How and are the methods of records?  you have information how data transmission protocols personal?  Do know our records are the?
you tell about the strength of protocols?  How and are the methods of records?  you have information how data transmission protocols personal?  Do know our records are the?  How transmission protocols protect ?
you tell about the strength of protocols?  How and are the methods of records?  you have information how data transmission protocols personal?  Do know our records are the?

you tell us about the our
tell me the security provided these protocols?
I want know the our records.
Do you effectiveness data transmission in protecting personal?
How data transmission protocols when it our?
you have more information are protected?
us data transmission are doing to our
Can the protocols our personal?
Do you know whether transmission protocols effective securing ?
Is there on how on how are?
Can you security of our data?
Can you me provided by data transmission protect personal records?
the strength of transmission protocols for protection.
protected personal records with the data transmission?
How the of data transmission?
effective data transmission in personal records?
wantknowaboutrobustness ofdata transmission protocolspersonal
Want know the level our transmission protocols?
Do you know transfer safeguards really?
I know secure my information is is
how data protocols are to personal information?
Can you about robustness data transmissions?
you show how data are?
Does anyone more how secure is?
know the data transmission methods are safe ?
Can you about of transmission and protecting ?
Do more transmission protocols that protect my ?
if data transmission protocols for personal records strong.
possible to tell the level of protection for ?
any about effectiveness of data protocols securing records?
Can you tell how secure my personal ?
me the level of for data protocols?
Can the transmission protocols protect our personal ?
Would it possible to more the efficacy protocols?
How the transmission our personal records?
How are the transfer ?
Are data transmission protocols enough our ?
I get the security of information?
Would be to more about efficacy transmission in protecting information?
need more information the data transmission protocols
tell us about strength of protocols our personal?
light the of security provided by data transmission protocols?
How transmission protocols protect information?
information on the of data ?
I to how secure is when sent.
information about the strength the data transmission?
secure the transmission it to personal?
I want know well our records are with transmission
do know the transmission methods for private records?
about the data transmission protocols records.

security of the transmission protocols for personal records?
you tell if protocols enough to keep personal safe?
more about strength data transmission protocols?
Are able to the level protection our personal?
Do to much strength those data transfer?
you me the data protocols for personal records?
the data our records?
you more on security of data protocols?
What do the strengths and trans.mediaprotocols to shield ?
you tell us records are with the transmission?
I am looking for on secure transfer
I the data transmission protocols records.
the data effective at records?
How transmission protocols to protecting personal records?
Do you want give more about the that supposed to ?
Can you me about the data transmission are protecting ?
Tell us if effective at our records.
well-protected are our with the transmission?
I to transmission protocols that protect our records.
Can tell more the of protection of personal?
robust reliable reliable protection of records?
What you us about the of to to private information?
it possible to more of transmission protocols our information?
Is there more you can sending personal?
the safety data transmission for records?
learn more about the protocols that records.
the protocols protect records?
Care to let us about shields supposed to stuff?
What about strengths weaknesses of using trans.mediaprotocols to ?
Can you tell more about and ways in and our?
Can you detail on of protocols?
you tell me provided these transmission protocols?
the transmission protocols our?
want more information about data personal records.
are data transmission our ?
Do know more protected in these protocols?
Can you well personal records are the transmission?
the data transmission protocols are protecting ?
Can the transmission that our records?
the data transmission protocols for ?
want to know how strong protocols are details.
Need know the of protection for?
Are able provide more about the transmission?
the data transmission that are our records.
information on the shields are supposed protect stuff?
Can give explanation the effectiveness the data ?
know how secure the transmission are?
able to give understanding of how these protocols really?
Can me the data protocols that records?
tell the strength protocols personal records protection

How are the transmission of sensitive?
What insights you strength transmission protocols to protect information
need know how well-protected our personal the employed
it possible that are well with the data ?
to secure data transmission protocols are personal
you tell about the transfer?
curious about how transmission safeguard personal
Can you tell more about security transmission protocols?
What learn from that are used for private?
some insight into level security by transmission protocols?
would like about data keep our safe.
are the strengths of transmission protocols used private?
know how data transmission records.
are and weaknesses using data to shield ?
us more about security of protocols?
more about robustness of transmission protocols for protecting records?
with about the strength the data transmission
You can light on our are with the data
light on secure the data transmission are?
explain protocols our personal?
Iow strong the data protecting ?
Vhat strengths and of trans.mediaprotocols to shield?
want how transmission protocols records safe.
Oo data transmission protect private?
Vould you be provide deeper understanding how these protocols?
know about how the data personal records.
am for more information strength the protocols.
like know data transmission that keep our
there more say security for personal records?
Can you level that is provided data transmission protocols?
like to the protocols for securing my
Oo transmission keep our ?
might able to shed some light well-protected personal records employed data
s there more info on my?
Ve need know how protocols in our records.
you tell the level security data transmission?
you tell me the level of data transmission?
know how information is being transmitted.
tell how data transmission protocols personal records?
do you think and using trans.media protocols to?
to know the data transmission our personal details.
there more details about our protocols?
give any how secure these data transmission ?
How strong is the to safeguard ?
how secure the transfer methods are?
you about the the data transmission protocols?
youif the dataprotocols areto keep our?
would to the effectiveness transmission keeping our safe.
I'm curious to our the employed data protocols.
Would possible gain insight data transmission protocols our personal?

tell us how strong the are our personal?	
Would it more insight the effectiveness the data?	
How you tell about of the protocols protect our information?	)
me the transmission protocols for protecting personal records?	
want know how data transmission protocols for	
Want know protection our data transmission protocols?	
it possible more efficacy of data transmission protocols?	
secure are records with ?	
about of transmission used to protect our information?	
do transmission our private information?	
How our records the implemented data ?	
Do know the protocols to protect my?	
Are able to tell how secure transmission ?	
are personal records protocols?	
I have question how the transfer methods	
would to know how effective the data transmission safe.	
want know how data protocols my information.	
tell the data protecting our personal records?	
are your data protocols in details?	
the data transmission protocols, well personal records?	
Do know the data transmission are?	
Can you further about protocols protecting personal that are	_?
is the personal are protected by the data ?	
more details on the data transmission shields protect ?	
How the data protocols to?	
insight into the strength the data personal protection.	
Can you tell our personal records with employed ?	
I would know how secure information when transmitted.	
Can update on the transmission securing our personal?	
wondering how data transmission protocols my	
How effective data protocols for records?  able insights the of protection of our information?	
able insights the of protection of our information? transmission protocols it comes to protecting our?	
Can you more about transmission protocols that are protect	2
Is it possible the that protect our ?	•
What you regarding the strength of transmission?	
like to about of the data that safeguard records.	
Is it personal are under transmission protocols?	
Can you give us insight strong are?	
can we learn from safety data transmission records?	
Is it possible to of protocols in our personal?	
data secure for our ?	
you us about data transmission secure personal?	
What strengths and weaknesses using data trans.mediaprotocols to ?	
Can teach us about data protocols?	
you tell the level our transmission protocols?	
know more about data transmission protocols records, can you gir	ve me
Is more info effectiveness of protocols?	
Can you to me the data my ?	
I'm more about the data we chose records.	

How the data transmission are our safe?
data protocols effective in our?
you give more about security protocols?
Can you us about our due to the?
are transmission protocols to our personal?
need information on strength of data protocols for
you tell me how data protocols ?
about these protocols for our personal records?
to how data work to our personal records
you think and weaknesses in using data trans.mediaprotocols ?
I would know how effective the transmission protocols comes records safe.
would to the strength used to transmit data.
would like know how well our by these.
explain data transmission guarding records?
you effectiveness of the current to sensitive information?
would more the data transmission keep our records
to about the of for data protocols?
Can you the data transmission protocols?
What is security our personal records transmission?
Do explanations for data transmission protocols records?
effective are data when protecting records?
How the data transmission protocols protect ?
Can you tell us about applied data?
Can gain further efficacy data protocols in our personal?
I would my information when
the data transmission protocols to our personal information?
can you tell strengths the transmission protocols?
Is this data transmission our our records?
Can tell a bit the level security these transmission?
can me how the data transmission records.
Can me our data transmission protocols for records?
What about the strength of data transmission used private information?
strength the data for ?
How strong protocols are to details?
How well protected personal are with data?
Tell us more the the
do you about and of using to private information?
Can me how our personal are under transmission?
Is information about how and transmission protocols are?
I would like to how my when transmitted.
Can you more the transmission protocols securing ?
information about secure data protocols are?
I how data transmission keep records safe.
I know how secure my are data transmission
How are data protocols records?
the of protection the data transmission protocols?
need info how data transmission protocols data.
Do have information regarding the personal?
Could us about the of protocols protect our?

you know the provided by data transmission protocols?	
Is our records by ?	
you security the data?	
want know if the data transmission securing information.	
Can you give insight into level of data protocols?	
you provide additional information security for records?	
What of the weaknesses of trans.mediaprotocols to priv.records?	
Can tell us the of provided these transmission?	
Want know the for data transmission?	
Can you protocols guard our records?	
I are to our personal	
tell me level of by the data ?	
Can you me the robustness data protocols for personal?	
more information how reliable our data transmission protocols?	
to know strength of transmission for records protection.	
Can you more information security of protocols.	
explain the transmission that protect our records?	
you me information about data transmission records?	
Can you the our data protocols?	
Do protocols records well?	
us know how effective the data our safe.	
Is about the effectiveness of the protocols?	
think about in using trans.media protocols priv. records?	
Can you help me understand transmission?	
Do know how transmission are protect our personal?	
I want how data transmission personal	
I am strength transmission personal records protection.	
Is the data protocols for records?	
data transmission protect personal?	
How much the protocols private details?	
like to know how strong are securing information.	
strong the protocols records?	
have information how our records safeguarded?	
Were data effective protecting records?	
to know more about strength used to protect my	
I would learn about the that are to protect	
Do the data protocols are in our records?	- +: O
your opinions strengths weaknesses in trans.mediaprotocols to inform	ation?
Can about the data transmission strength?	
me more about the that are chosen to personal?	
Can me about how my personal ?  Can let how well personal ?	
Canlet how well personal are with data protocols?  Can you more information how these are?	
would how strong the transmission are for my	
Is there more information regarding reliable protocols ?	
protecting our personal how secure the transmission?	
How are the that are used ?	
Can you give data transmission protocols secure personal?	
can jou give personal;	

	secure	the transn	nitted data	(	comes	protecting	g our	?
		 is the level _						
What	do _		the	provided _	the	transmi	ssion m	nethods?
	and	are the	transmissio	on and prote	ecting of		?	
How	secure		transfer _	?				
		t	he effective	eness of the	techniques	used		sensitive information?
Do yo	u have an	y inforn	nation	our _		protec	cted?	
Give	us more _	about		transmis	sion shields	·	_ to	our personal
	give	insight	into the lev	/el	provided	by		protocols?
	you tell m	e how _	the		are?			
Do	know ł	now	_ personal	are _	pı	rotocols?
