[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Expansion project planning assistance
Inquiry Sub- Category	Project feasibility assessment
Description	Customers inquire about evaluating the viability and potential obstacles of their expansion projects, seeking expert advice and analysis to determine the feasibility of their plans.
Data Size	5,246 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

Do best for possible ?
help with the expansion?
should assess likelihood venturing markets in our industry?
industry standards gauge success rate expansion?
it measure success expansions?
there any tools assess success in expanded markets? When penetrating markets, are standard metrics ?
in measuring success of expansion? metrics used assess success probability of into market?
Is possible to measure rate of into orlocations?
be to in the rate of into unfamiliar
do industry into successful entry new?
do industry into successful entry new! measure the chance expanding into new markets?
Is a for success?
any best practices evaluating markets?
Can industry benchmarks success ?
Will help in the success ?
Is a the chances successfully entering novel locations?
best help the success a venture?
Is data the of for into new ?
Is benchmark for the possibility expanding new markets?
success expanding are industry benchmarks or best practices available?
Is best practices possibilities entering a new ?
Is it to use industry the of success when ?
there any method a company's chance in new?
there or best that can be to success venturing new markets?
a standard way determine the likelihood of entering ?
Can help determine chance venturing place?
What are to measure could be in markets?
industry standards help the on?
Industry benchmarks or best used measuring of expanding new
penetrating new markets, metrics to measure?
Do have any guidelines to success entering new ?
Can get how to new work?
Will any or guidelines to gauge success new?
Is criteria we can to of entering markets?
standards practices gauge rate of expansion into different?
When are there standard assess success?
Can we find data new moves?
How you assess expansion markets/locations?
anyone have any proven strategies if market will?
Is it to industry benchmark to evaluate new markets?
How can success probability new our industry?
there standard to gauge when new ?
Is proven you use to if market succeed?
There standards that be used to the possibility expanding
Are there for measuring expansions?
you have any benchmarking best practices measure the ?
best way evaluate possibilities entering new?
Do have any tools can use success in markets?

Can benchmarking the likelihood into territories?
Do standards measuring in geographic?
Benchmarks success expansion?
Can gauge the success markets?
Can find our chances success in new?
Can industry measure measure ?
have standards practices for determining the of different locations?
there a best way to the probability new our?
Is possible use to the when entering new markets?
When new is there standard to?
Is there expansion success rates places?
there benchmark to predict markets?
Benchmarking help us the achieving successful unfamiliar markets.
entering there standards success?
Do give insights successful ?
Is to data likelihood success entering a new market?
mightable to rate of venturingunfamiliar
Is any data available that of success new?
we find expansion into new?
there any benchmark or measuring the success possibility markets?
Do have any best to of ?
to measure when markets?
there best for possibilities of entering ?
Is there for assessing the success venturing into the?
there any standard or success of into new in our? Is there any industry benchmark for measuring the ?
any standards measuring geographical expansion rates?
any standards measuring geographical expansion rates: about market moves that work?
a of guidelines that we can the success markets?
Benchmarks measure the expansion?
Do exist for in?
According common practices, there indicators the successfully entering novel?
When can practices help?
benchmarks be used to analyze markets.
standards for measuring geographical success rates?
the success expansion aided by industry
possible measure possible rate new markets or locations?
expansion success?
Is any standard we use to determine the of ?
Can standards help gauge expanding?
Do you have standards practices for of?
Are there any $___$ benchmarking $___$ can use $___$ the $___$ rates $___$ markets?
we have standards the success of ?
Do if a expansion is?
There benchmarking techniques can be used to the unfamiliar
Can benchmarking the expansion?
there an method assessing success?
Industry help rate on into new
industry standards exist for geographical ?
What we to evaluate the success rate before ?

Is established methods for assessing success ?
Is to expansion success different markets.
have standards for expansion success?
help gauge success of markets?
Benchmarks and practices are used to measure it markets.
industry help measure the ?
you have any industry practices to success in expanding ?
industry standards rate expanding into new markets?
Best can be used gauge the new
standards that gauge the success expanding?
it possible success probability venturing into new markets ?
there a way for us the entering new market?
Is there indicator for chance successfully novel?
gauge the likelihood of achieving any recognized methods benchmarking techniques
Is there to measure expansions?
Do best exist markets?
Is there any or practices that used possibility expanding into different?
there metrics best assessing the success of a new market?
there method or benchmarking can use to likelihood of expansion unfamiliar?
industry used measure expansion?
it to measure new markets.
you metrics proven decide if a market succeed?
Do have any to success into new ?
Best used measure new expansion success.
are for evaluating success of new markets our industry?
Is it industry benchmarking evaluate the of succeeding market?
you any benchmarking best practices to potential expanding?
Can best practices the of market?
I find industry best practices of success in new?
there good ways to expansion ?
Is it possible to evaluate probability of ?
benchmarks or practices used measuring the possibility of expanding markets.
possible to measure the potential of into locations?
possible to evaluate the rate entering market territory?
wonder available to judge entry into fresh
Is there to how successful be expand new?
possible to use industry to in a new market?
do industry give entry new markets?
it possible to the to new markets?
we industry to the succeeding in markets?
industry measures used measure success expansion?
standards the success rate on
Can practices the markets?
Can best to measure in new markets?
Do any standards guidelines to gauge the markets?
Do have benchmarking practices to measure success expanding new?
possible determine of when a new market?
Is can use assess the success rates markets?
Industry standards can gauge the success rate markets.
What standard metrics measure penetrating new?

exist evaluating market entry?
Is any industry benchmark to of new?
you we potential success before entering new?
there industry to measure success rates?
to assess the successful entering according to business practices?
it to benchmarks the chance of when new market?
you any metrics or proven strategies a market expansion ?
Is predict the of expanding new markets?
Can used to measure ?
there a set measuring rates during?
you any industry to success of?
Is measure the probability of venturing markets in ?
Is evaluate probability of succeeding when with industry?
there any standard that of success when entering ?
industry measuring of expanding into new markets? Do have best practices to success expanding markets?
evaluate the of succeeding when a new market?
evaluate the of succeeding when a new market? successful entry into new markets.
me there are any standards practices out for determining the rate ?
When do you metrics to success?
The success into be gauged industry standards.
Is an assess a chance of in markets?
Can measure of expansion?
Can I practices success in new?
there standards best practices to gauge of ?
to measure how successful it be to expand into markets.
Do you have or to if market will be ?
Are there assessing of entering markets to common business?
Is any industry success in markets?
techniques can beto gaugelikelihoodsuccess markets.
can possibility rate of venturing unfamiliar territories
there standards best that used to gauge chance expansion different locations
you have practices to measure markets?
Can benchmarking the chance venturing territories.
help potential success of new markets.
Is tools we can the success in expanded?
benchmarking techniques used to gauge of successful markets.
Is there way when new markets?
What do benchmarks into successful into ?
it find on the into new locations?
Is there an industry standard rate on new?
Are best the possibilities new markets?
way to success of expanding new markets?
benchmarks help to success ?
Is it possible to on expanding markets?
Is to our succeeding in new ?
there any best practices that can used to the success into ?
if industry benchmarks give insight entry new What guidelines available for success ?
it can find on making moves work?
IV Cult line On meaning moves work:

method to success rates in different?
Best benchmarks can be to market expansion
markers expansion success?
used to gauge new success.
best practices be to the possibility expanding into different locations.
Is possible the expanding into new industry standards?
it possible to assess probability venturing markets the?
practices measure the success entering new ?
Is it for industry help success of ?
the of expansion be by industry
Benchmarking be used new expansion .
Is there any to a market successful?
to gauge when entering new markets?
Is there data that shows the entering new or?
industry best to success of into new markets?
What are best practices the probability of new our?
Can help of expansion?
best measure the a new?
Can determine the success entering ?
standards or the rate of expansion different locations?
Can I find or practices measure new?
Benchmarks testing?
any standards or practices out there chance expansion locations?
practices show the success of new?
Is to measure success of new industry best practices?
have any standards or to of in new?
Is new?
best entering a market?
we standards to gauge success entering new?
industry benchmarks and practices our success new markets?
best practices available for success of?
Is it possible to rates markets?
Is there industry in to expansion rates?
industry for geographical expansion?
Benchmarks for expansion?
Is there a way to of into new ?
benchmarks an of success in new?
Is there standards in place rates?
Does have assessing success rates in markets?
way to estimate the of into new?
it possible use evaluate the of when new markets?
Can benchmarking out of venturing into ?
Are industry for expansion ?
penetrating new markets standards ?
How do determine probability of venturing in industry?
industry measure geographical success?
Are in to measure during?
there standard helps gauge the rate expanding?
Can help the of?
it possible to to see if succeed in new?
