## [Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system troubleshooting and maintenance
Inquiry Sub- Category	User errors
Description	Customers may encounter challenges in operating their alarm system correctly, such as difficulties arming or disarming, setting up access codes, or using remote functionalities. Troubleshooting and maintenance involve assisting customers with training, guiding them through proper usage, and addressing any user-related errors or misunderstandings.
Data Size	5,055 paraphrases
