## [Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Modem or router configuration assistance
Inquiry Sub- Category	VPN Setup and Troubleshooting
Description	Customers may need guidance with setting up and troubleshooting Virtual Private Network (VPN) connections on their routers to ensure secure remote access to their network or bypass geo-restrictions.
Data Size	5,013 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

## Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)
