[Demo] NLP Dataset for Customer Service Automation

Company Type	Auto Repair and Maintenance Shops
Inquiry Category	Battery dying frequently in vehicle
Inquiry Sub- Category	Parasitic Draw Problems
Description	Customers need assistance in identifying and fixing parasitic draws, which occur when certain components or systems continue to draw power even when the vehicle is turned off, leading to battery drain issues.
Data Size	5,723 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Auto Repair and Maintenance Shop" customer inquiry. (Purchased data will not be masked.)

should take the problem of power drain in car?
looking ways reduce energy in car.
I'm looking for guidance excess electricity car.
Can you help the of high power ?
How how to the problem?
do you to fix car power?
Is it possible to suggest detecting in car?
how to solve the issue high power drain in ?
Are there take detect and extreme energy depletion automobile?
