[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Network equipment recommendations and compatibility
Inquiry Sub- Category	Network troubleshooting
Description	Customers facing connectivity or performance issues may contact customer support for troubleshooting assistance, seeking guidance on identifying and resolving network equipment-related problems affecting their internet connection.
Data Size	6,424 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)
