[Demo] NLP Dataset for Customer Service Automation

Company Type	Cable and Satellite TV Providers
Inquiry Category	Signal and reception troubleshooting
Inquiry Sub- Category	Cross-talk or interference
Description	This category addresses inquiries related to signal interference caused by nearby devices, electrical equipment, or neighboring antennas. Advisors may provide advice on reducing cross-talk, adjusting frequencies, or using filters to improve signal reception.
Data Size	5,141 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Cable and Satellite TV Provider" customer inquiry. (Purchased data will not be masked.)

Are there guidelines adjusting	near households	signals?
Is recommendation for adjusting	antennas in areas with	?
about adapting aerials around houses	?	
Is there a way antennas antennas	conflicting signals?	
When living to a	you the antenna po	sition?
