[Demo] NLP Dataset for Customer Service Automation

Company Type	Automotive manufacturers
Inquiry Category	Vehicle complaints and quality concerns
Inquiry Sub- Category	Engine Malfunction
Description	Customers report issues related to engine performance, such as stalling, excessive noise, or loss of power, indicating malfunctions that affect their overall driving experience.
Data Size	7,101 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Automotive manufacturer" customer inquiry. (Purchased data will not be masked.)

strategies	risks from faulty powering vehicles and causing ?
meth	ods against sudden system failure?
How	be avoided?
be done	keep faulty systems from vehicle?
Is rec	uce the of faulty causing an immediate halt ?
Is it minim	ze from malfunctioning stop vehicles?
What	reduce the by malfunctioning vehicle and sudden shutdown?
approaches can	be taken risks with malfunctioning powered?
way	o decrease the likelihood of unexpected components?
we to	risks malfunctioning engine components?
What are the strategic	es shutdowns by ?
Reducing the of	?
an w	y reduce dangers associated with faulty systems?
strategies prote	et us malfunctioning mechanisms vehicles?
What the strateg	ries preventing shutdowns mechanical?
can be done	_ reduce risks associated vehicle ?
What	to mitigate the associated powered systems?
Ways prevent ac	cidents broken
prevent ha	rm broken parts?
Is possible	the unexpected shutdowns due to mechanisms?
How do we	the system our in order shut occurrences?
possible to	lower hazard faulty systems suddenly cars?
we o	r vehicles from?
Which mal	functioning from leading shutdowns?
Which	_ risks of malfunctioning that vehicles?
Which	risk parts in vehicles?
What methods b	e used to?
wo minimi	dangers associated with mechanisms?

you to reduce of unexpected shutdowns caused flawed?
What we do to the risks malfunctioning ?
What strategies can put place to the vehicular power?
it to take appropriate lower the hazard by vehicles?
do we sure our power is?
Methods system failure while?
Is possible for certain to in car ?
are with power systems lead to
How we make our vehicles' system isn't ?
can the dangers of malfunctioning power?
can do to reduce the faulty ?
How stop danger broken ?
What can be to of faulty systems causing ?
Is possible the chances faulty car systems ?
we do to reduce risks vehicle powered?
How should we concerns our vehicles?
Which address the with mechanisms?
you address the danger faulty mechanics for sudden in our?
specific decrease faulty car?
can prevent vehicle mechanisms?
How the of be?
can stop car from causing sudden ?
methods chance of to vehicle shutdowns?
methods to broken car?
What be unexpected vehicle caused by mechanical?
can we to the chances faulty systems sudden ?
What can reduce the of due to ?
techniques to prevent vehicles from shutting?
are dangers faulty automobile power are to them.
What can we do reduce of unforeseen incidents components?
strategies minimize the malfunctioning?
of mechanisms in cars be reduced?
Is it to take actions the of propulsion? are to prevent malfunctioning ?
Is reduce the risks of faulty car systems ?
Can be to reduce likelihood of turnoffs malfunctioning ?
we the dangers from power systems?
Which isks from malfunctioning in cars?
How do we we unexpected shut-down with our power ?
way to associated with faulty automobile systems?
prevent malfunction?
Can risks from car systems?
tolikelihood unforeseen shutdown due to problematic components?
Is there a to of unforeseen faulty machinery?
Which minimize the of flawed ?
What be the of mechanisms causing unforeseen vehicle ?
Can decrease fault in car ?
Which used to the dangers of mechanics?
we down on risks malfunctioning car?
Techniques to shutdowns?

way risk faulty car cause halts without warning?				
way to vehicle shutdowns due to ?				
can be to the chances causing vehicle shutdowns?				
How we that there any posed malfunctioning systems?				
What preventive against electrical system malfunction cause cars?				
How can cars less?				
ways of malfunction?				
techniques chances of vehicles?				
How we likelihood unexpected to malfunctioning parts?				
there a to address over within system of our?				
to the posed by power systems cars.				
What are to broken from happening?				
Is any reduce the of due to mechanisms?				
the of malfunctioning mechanisms in be?				
dangers associated with bad systems there mitigate them.				
current address danger by faulty mechanics and for halts our vehicles?				
When driving what preventive measures be against ?				
What be done to reduce dangers vehicle power?				
How we the dangers malfunctioning shutdown incidents?				
What can to make cause vehicle shutdowns?				
it possible flawed powers in vehicles?				
There against sudden system				
can the of faulty causing unforeseen shutdowns?				
we stop from car parts?				
approaches be taken risks associated with systems?				
What going about sudden shutdowns cars' engines?				
What we do to vehicle and sudden shutdown?				
What we do to vehicle and sudden shutdown? are ways danger of vehicle power				
are ways danger of vehicle power				
are ways danger of vehicle power There are ways reduce the dangers systems.				
are ways danger of vehicle power There are ways reduce the dangers systems. can done to dangers caused by mechanisms. What are the of preventing vehicle failures?				
are ways danger of vehicle power There are ways reduce the dangers systems. can done to dangers caused by mechanisms. What are the of preventing vehicle failures? methods keep malfunctioning causing sudden car?				
are ways danger of vehicle power There are ways reduce the dangers systems. can done to dangers caused by mechanisms. What are the of preventing vehicle failures? methods keep malfunctioning causing sudden car? best ways to risks associated the powered systems?				
are ways danger of vehicle power There are ways reduce the dangers systems. can done to dangers caused by mechanisms. What are the of preventing vehicle failures? methods keep malfunctioning causing sudden car? best ways to risks associated the powered systems? it to the chance of shutdown due to components?

There are from power sudden shutdown
reduce risk of malfunctioning mechanisms halt ?
How risk malfunctioning power cars be?
There methods sudden failure while
How sure don't shut-down occurrences in our system?
strategies can we use the caused by defects ?
What can to inadvertent shut?
use of specific tactics decrease risks of ?
Which strategies are used to of ?
What preventive taken system malfunction which cause unpredictable in?
How current approaches the of sudden in our vehicles?
Can certain the number problems the car ?
can done to the systems leading sudden halts? How can make there no unforeseen incidents due faulty ?
a way sudden system driving?
to dangers posed power systems?
can mitigate risks malfunctioning mechanisms can shutdowns?
Which can minimize flawed vehicle mechanics and ?
way to reduce risks from power systems?
There are to broken
the danger posed malfunctioning vehicular power?
Is a decrease unforeseen incidents to faulty vehicle components?
$Is \ ____ \ can \ ____ \ to \ lower \ ___ \ dangers \ ____ \ faulty \ ___ \ systems \ suddenly \ stopping \ vehicles?$
What can use risks faulty engine components?
a way to mitigate faulty vehicle systems?
can be to reduce the shutdowns by?
shutoffs be prevented?
a way take appropriate to the risks faulty systems?
What can to minimize accidents caused by
do you are the decrease the of components?
can risk from malfunctioning in cars ?
strategies can reduce the that our vehicles?
Is there a way the danger systems?
There ways reduce dangers associated faulty systems.
How we minimize the vehicle mechanisms?
Which used to unsafe vehicle?
Is to fix risks faulty power?
What can vehicle caused by failures?
prevent vehicle from off to faulty systems?
steps can to minimize the malfunctioning vehicle?
Techniques to from suddenly?
There were to danger broken parts.
are you going deal problems our engines?
we make sure vehicle mechanisms cause?
are the techniques prevent the vehicle ?
can the risk from mechanisms cars?
be to dangers from power mechanisms?
How we likelihood of to to vehicle components?
we reduce risks malfunctioning vehicle mechanisms sudden ?
do mechanics and sudden halts in vehicles?

How the risk malfunctioning be reduced	1?
a to reduce likelihood turnoffs because _	vehicle components?
What can done decrease faulty eng	gine components?
There measures that can taken to risks	mechanisms.
to broken parts?	
What can mitigate dangers broken car _	?
There associated automobile power	_ there are to them.
can be done the risks vehicle	systems?
decrease fault in car devices?

How address the system our cars?
preventive measures be put place system and cars?
strategies be to the risks with mechanisms?
How prevent sudden shutdowns mechanisms?
there a way the risks caused by cars?
How can make sure our vehicles' system occurrences?
What be risks from vehicle mechanisms shutdown incidents?
What strategies to reduce the vehicular power?
there a way prevent ?
methods can malfunctioning sudden car stops?
How do chances faulty causing sudden shutdowns?
What can we use the by bad power?
Can tactics the risks car ?
be done risks caused by malfunctioning power mechanisms shutdown?
What the to mitigate malfunctioning vehicle systems?
be to reduce due to malfunctioning power?
strategies the associated halts in cars?
stop from broken parts?
What can to minimize risks vehicle mechanisms?
Which practices used reduce flawed vehicle?
Is possible lower hazard by propulsion stopping?
What be stop car caused mechanisms?
What in to prevent shut off?
it possible address the posed faulty and sudden halts ?
make that aren't potential dangers posed by systems?
possible address over potential faults the of our?
What be done to that shutdowns not faulty machinery?
to address concerns over faults within power
there way to the of faulty mechanics causing ?
unforeseen shutdowns due to vehicle machinery?

are faulty automobile and how minimize them.
There associated faulty leading to cut-offs.
guard posed by malfunctioning driving systems?
Is possible prevent a from shutting to ?
There be to the likelihood turnoffs malfunctioning components.
you gonna do about the sudden cars'?
What to reduce associated malfunctioning vehicle power?
How can risk stops lessened malfunctioning?
Is possible appropriate caused by faulty systems stopping vehicles?
we minimize the dangers in power systems?
Is there a mitigate from car?
strategies can be used to due failures?
There ways due faulty power systems.
Ways stop from broken
Whatyou to faulty mechanisms causing vehicle?
How you potential sudden in vehicles the danger faulty mechanics?
Reducing some malfunctioning ?
in vehicles?
do we over potential in power of cars?
the faulty vehicular systems, what strategies we use?
There are methods danger broken
that the power system our vehicles stable?
are methods sudden failure ?
a to the risk of car mechanics halts?
actions affect the faults in ?
How can risks posed vehicle systems?
What best to prevent shut off systems?
What done minimize the malfunctioning power systems?
How reduce of sudden vehicle ?
a to mitigate the risks vehicle systems?
What be shutdowns due to faulty machinery?
How can prevent the dangers malfunctioning ?
measures that can be to reduce dangers vehicle
can put in place minimize dangers faulty vehicular systems?
there prevent sudden automobile?
combat the powered vehicles?
Something done stop disasters caused by
Ways reduce dangers by faulty
we minimize from malfunctioning vehicle?
methods the likelihood unexpected because malfunctioning vehicle components?
How can flawed from causing unexpected?
Which can to minimize the caused mechanics?
there to the likelihood unexpected turnoffs caused vehicle?
Can tactics be used malfunctioning car ?
any strategy for caused mechanical failures?
we avoid of flawed power mechanisms?
Is it decrease faults within car with ?
Any suggestions on how minimize from ?
can reduce dangers malfunctioning vehicle mechanisms?
What do the posed by vehicular systems?

specific tactics be faulty car systems?
possible decrease the chances of unforeseen incidents components?
strategies can used combat the malfunctioning mechanisms?
we sudden because of vehicle mechanisms?
we our vehicles' safe?
How do faulty mechanics their for sudden halts in?
are associated with automobile power systems and mitigate
precautions can be taken to accidents mechanisms?
Is way to reduce of mechanics causing halts?
a way minimize the chances of ?
How do you danger by sudden halts cars?
How can minimize the dangers ?
Which avoid malfunctioning mechanisms cause car?
What your current approaches to address faulty sudden vehicles
to decrease likelihood unforeseen shutdowns faulty vehicle machinery?
Techniques preventing?
likelihood unforeseen shutdowns due to vehicle can
What strategies we can use to the vehicular systems?
How do problems the power our vehicles?
Is it possible certain actions within running?
malfunctioning?
can use to prevent a shut?
we of faulty car mechanisms?
you prevent from down to mechanical?
Ways to systems?
do we the risk parts?
stop from car parts
How can we protect systems that suddenly ?
it possible give advice avoiding mechanical elements our?
strategies protect against the of?
What be done the dangers car?
What can be risk malfunctioning mechanisms power?
Ispossible to reduce risk associated with immediate without ?
be done protect against the risks associated with ?
be likelihood of shutdowns caused by faulty machinery?
there that can done to the dangers with faulty ?
The posed malfunctioning be minimized implementing strategies.
How we vehicles ?
Methods to with sudden ?
it possible for actions to decrease devices?
Do of vehicle mechanisms?
Is it possible to appropriate actions decrease caused ?
Is there any unexpected turnoffs malfunctioning components?
What are best ways prevent by mechanical?
How can we the safety may stop?
you prevent sudden vehicle shutdowns by ?
Is way concerns over the of vehicles?
can we our vehicles' power not prone to ?
we dangers of car mechanisms?
How can be?

Are there ways the posed by vehicle ?
How dangers malfunctioning power mechanisms and shutdown?
to reduce faulty vehicle power?
What strategies can we the vehicular less?
can we power less dangerous?
How malfunctioning mechanisms in cars minimized?
What can be taken to vehicle caused ?
can malfunctioning mechanisms reduce surprise stops?
What can do reduce dangers caused by power incidents?
practices can be used to minimize mechanics unexpected?
How can from shut off because power?
be done mitigate associated with in powered systems?
it possible address over faults within the vehicles?
What can to caused by faulty vehicle?
can minimize from faulty mechanisms lead to?
What be done prevent electrical system malfunction which?
Techniques fight sudden while?
prevent sudden shutdowns our ?
What to sure faulty mechanisms cause vehicle?
dangers associated with the automobile systems there are to
do to prevent mechanical vehicle shutdowns?
can done the likelihood shutdowns faulty vehicle machinery? can protect against risks posed by systems?
How do dangers of and halts in?
decrease the dangers posed faulty vehicle ?
are the be vehicle shutdowns by mechanical failures?
can help vehicle off?
be done reduce the that come from power ?
Can certain actions make to failures?
What done mitigate the dangers car mechanisms?
What can reduce the vehicle powered lead abrupt stops?
How make sure the power our safe?
can prevent from causing sudden?
Specific tactics decrease risks with faulty
Is it possible to actions to the propulsion systems stopping?
done to prevent car mechanisms from ?
What should when there vehicle mechanisms stops?
there a way mechanisms leading to breakdowns?
we chance of incidents due to vehicle components?
there way dangers by faulty engines stopping vehicles?
How do the risk sudden halts ?
to system failure ?
How make vehicles' power doesn't problems?
What precautions can be to risk accidents vehicle?
to reduce risks vehicle power
Can specific tactics risks ?
Which protect from mechanisms stop our?
we problems the of our vehicles? steps that can taken the chances unforeseen faulty machinery
Is there the chances of unexpected shutdowns flawed?

What can we do to dangers vehicular systems?
Is there a prevent unexpected caused mechanical?
There techniques car shutoffs.
Is possible to from flawed power mechanisms ?
What are taken risks with malfunctioning mechanisms?
Can be way prevent by faulty mechanisms?
What can be from malfunctioning power and ?
How correct power ?
can sure that the power of vehicles failure?
What you to of faulty vehicle shutdowns?
do you use to address by mechanics and our vehicles?
can to unexpected shutdowns caused flawed power?
Which methods chances of malfunctioning parts?
There are dangers with faulty power that
What to reduce risk vehicle systems leading halts?
could prevent sudden ?
Can use of specific from malfunctioning car?
the dangers posed by faulty systems?
How prevent car from sudden shutdowns?
to decrease the risks of faulty engine?
Methods against systems ?
to malfunctioning vehicles?
there way decrease the of unforeseen incidents due vehicle ?
What measures could be system malfunctioning while driving?
Howyou issue mechanics andpotential for sudden halts ?
How broken mechanism be?
can minimize the caused malfunctioning vehicular ?
can we accidental shut due systems?
any recommended risks caused by malfunctioning mechanisms in?
can the of malfunctioning that cars ?
can we the dangers posed faulty ?
way to car parts?
are to decrease the dangers posed systems.
How do the posed by mechanics sudden halts ?
Howyou mitigate of faulty mechanisms unforeseen?
dangers associated systems and how can mitigate them?
Is there any way to the of vehicle?
be to prevent shutdowns caused by mechanical?
we make it vehicle shut down due to problem?
Is possible to actions the of of vehicles?
How to of machinery?
Ways to stop car?
What can be of surprise stops from?
can we the broken car from?
Is there way to reduce likelihood due parts?
are techniques that prevent vehicle shut?
can we do the bad vehicles?
How address issues power of our cars avoid shut-down?
How strategies risks associated ?
it decrease the risks car systems?

How we the of malfunctioning vehicular ?
practices can be used flawed and unexpected breakdowns?
Is way to risks from systems?
How we minimize the associated faulty ?
How we car from?
How fix problems?
What can done reduce the chances fault?
are posed by faulty power systems that shutdown
Is it to prevent from power?
How can the from faulty systems ?
Is possible prevent flawed power in vehicles?
possible actions to be taken the by faulty engines?
What can reduce the risks malfunctioning ?
measures be electrical system malfunction which stalling of cars?
strategies can the risks ?
What can be that may unpredictable incidents while driving?
you ideas on avoid vehicle caused by mechanisms?
we prevent vehicles being?
There ways to dangers from malfunctioning vehicle incidents.
How do with the system our vehicles as shut-down ?
Is it possible the of shutdown incidents due ? What can be meduce dangers mechanisms and sudden ?
make less prone to shutdowns?
decrease dangers impaired machinery?
Ways stop of car?
What to the from malfunctioning power mechanisms?
strategies to reduce theposed byvehicular power?
it possibledecreasechancesshutdown incidentsofvehicle?
How can vehicles from to faulty?
be done prevent faulty systems from causing ?
associated automobile systems can lead to cut-off.
What can be place to risks malfunctioning systems?
mechanisms?
strategies can we use dangers by malfunctioning systems?
can be done to decrease the causing sudden ?
Is it possible decrease likelihood unforeseen shutdown in components?
methods help from being?
to dangers faulty vehicle power
any way to the chance of shutdowns mechanisms?
How do make that our power system faults?
Which help keep parts from?
measures take reduce the dangers from mechanisms?
There are ways to the vehicle
There are that can taken likelihood unforeseen shutdowns vehicle machiner
Can some the car devices?
it possible certain actions to decrease the devices?
there reduce chance of turnoffs to malfunctioning components?
What can be vehicles from shutting of?
on how to prevent vehicle?
can implemented minimize the by malfunctioning vehicular systems?

do we dangers faulty mechanisms?
Is possible take to lower the by faulty stopping?
can we do to from mechanisms?
There stop the from car parts.
What vehicle shutdowns because of failures?
What strategies by vehicular systems
can do the from faulty in vehicles?
Is it to risks of faulty car suddenly ?
Can actions the faults car running?
Which can of and unexpected shutdowns?
practices could be minimize from flawed and breakdowns?
Which fight risks malfunctioning?
How mechanisms sudden car stops?
How the power system vehicles is safe?
are the precautions minimize the by malfunctioning ?
to make the less to cause vehicle shutdowns?
you risks associated with malfunctioning power?
What the of mechanisms that our?
There ways minimize the vehicle systems.
How we broken car parts?
we do to avoid ?
vehicle that are by mechanical failures?
way to reduce from vehicle power and sudden ?
techniquestoaccidentalshut off?
to reduce chances of vehicle shutdowns due to ?
way to the of malfunctioning powered?
reduce the dangers faulty systems cars?
you avoid unexpected vehicle of flawed mechanisms?
can be used to flawed vehicle?
Can decrease associated with malfunctioning ? What be to reduce the with malfunctioning ?
There are associated automobile power systems, and ways
be minimize the dangers caused by vehicle?
How do you address danger of in our cars?
Techniques to sudden ?
can we stop risk broken ?
Is there anything you tell about linked ruining our ?
certain actions decrease the number defects ?
Is there decrease the of because of faulty propulsion ?
What be done vehicle machinery malfunctioning?
What steps can taken reduce the caused by ?
to improve safety vehicle systems?
What done the likelihood of unforeseen shutdowns to ?
There to reduce the associated mechanics.
there reduce risks malfunctioning mechanisms in automobiles?
What be done to reduce shutdowns caused ?
How can you blasted from shutting ?
a way to the hazard propulsion systems suddenly?
can we reduce from faulty vehicles?
preventive could put in place if system malfunction ?

have about the power system vehicles, how address?
How can the dangers vehicle?
What strategies can use minimize the posed vehicular power?
What be done reduce dangers mechanisms and sudden shutdown?
What put to minimize hazard caused by malfunctioning ?
strategies reduce risk of malfunctioning our?
What can the of systems vehicle shutdowns?
methods can be to prevent from being ?
What can we to caused by vehicles?
What best ways to minimize dangers ?
How limit risks vehicle mechanisms?
Can you risks power?
How do we system vehicles order to shut-down occurrences?
strategies can we reduce malfunctioning engine components?
can the malfunctioning in be reduced?
can be to the risks faulty ?
any exist risks caused by malfunctioning mechanisms in?
How can prevent being shut off ?
can we use malfunctioning vehicles?
the best to mitigate related to powered?
can do shutting down due to mechanisms?
Which strategies help the with malfunctioning ?
How do our vehicles' isn't sudden shut-down occurrences?
How we the caused by malfunctioning ?
the of faulty systems causing sudden shutdowns?
can the risks mechanics and unexpected breakdowns?
Is it for tactics decrease faulty systems?
What be taken to the associated with ?
Ways to the by vehicle power?
Can actions number of car devices?
possible effective to reduce threats malfunctioning causes ending abrupt terminations?
can we due faulty mechanisms?
How minimize of faulty to vehicle breakdowns?
Is there to sudden failure while?
Is to actions to caused by faulty?
can we reduce of powered vehicles?
How can dangers faulty vehicle?
Which can reduce the of in?
to dangers posed by vehicle power
can do to minimize vehicle mechanisms?
There are dangers faulty automobile systems can lead
How we from unexpectedly?
preventive measures could be to prevent incidents ?
What be done the dangers power mechanisms sudden incidents?
are mitigate dangers from broken
can about malfunctioning mechanisms sudden incidents?
can we against potential dangers malfunctioning systems?
to decrease my car's ?
Is it possible decrease in running certain?
do you prevent shutdowns due mechanical?

are the best ways from faulty systems?
Suggestions to risks from faulty that vehicle
Is it certain can decrease fault running?
measures the of causing vehicle shutdowns?
it to risk with faulty cause halts warnings?
Is it possible to in car running ?
reduce the chance malfunctioning parts to?
the ways to reduce faulty vehicle powered?
we do to decrease likelihood incidents due to faulty ?
Which risks associated power mechanisms?
used to dangers of flawed vehicle mechanics?
can prevent vehicle off?
can taken accidents caused malfunctioning vehicles?
Which practices are for caused vehicle and unexpected?
How can stop car malfunctioning?
it prevent shutdowns because of powers in?
can to diminish of shutdown incidents to vehicle components?
take the risks from malfunctioning vehicle mechanisms?
Ways reduce risks posed by power
practices the flawed vehicle mechanics unexpected breakdowns?
can taken minimize due malfunctioning vehicle mechanisms?
techniques can help a vehicle from ?
What can do to mitigate of cause shutdowns?
reduce my sudden meltdowns, ?
What best methods to broken?
What techniques a from off?
dangers caused by faulty vehicle mechanisms?
are dangers associated malfunctioning power systems to
Is decrease the of unforeseen to defects in vehicle ?
How address concerns about in vehicles?
How can the from malfunctioning lessened?
to the danger from ?
protect unsafe systems that suddenly stop working? done to the chance due to faults?
be to reduce the chance faulty vehicle machinery? What done the of causing sudden vehicle shutdowns?
How can the dangers of systems ?
What strategies use reduce the by malfunctioning power?
can be the dangers associated vehicle mechanics and breakdowns?
are put in minimize from vehicle mechanisms?
reduce risk of faulty mechanics halts without warning?
possible to the hazards by faulty stopping vehicles?
What help from shut ?
best ways to broken mechanisms?
done prevent shutdowns due to vehicle machinery?
any techniques exist reducing risks posed automobiles?
proven torisk of faulty car mechanics causing halts ?
could used to risks from flawed?
I the likelihood unexpected turnoffs malfunctioning components?
Which be used to arising flawed vehicle?
