[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Security and Alarm Companies
Inquiry Category	Alarm system troubleshooting and maintenance
Inquiry Sub-Category	Keypad troubles
Description	Customers may experience problems with the keypad of their alarm system, such as unresponsiveness, malfunctioning buttons, or error messages. Troubleshooting and maintenance involve diagnosing and addressing issues related to the keypad's hardware or software, allowing users to interact with the system effectively.
Data Size	5,016 paraphrases
