# [Demo] NLP Dataset for Customer Service Automation

| | |
|---|---|
| **Company Type** | Smartphone Manufacturers |
| **Inquiry Category** | General customer service and support |
| **Inquiry Sub-Category** | App and app store support |
| **Description** | Customers require assistance with downloading, installing, or troubleshooting issues related to smartphone apps or queries related to app store policies and procedures. |
| **Data Size** | 5,091 paraphrases |
| **Want to buy data?** | Please contact nlp-data@qross.me via your business email address. |

**Masked sample paraphrases of one "Smartphone Manufacturer" customer inquiry. (Purchased data will not be masked.)**

What _____ should _____ taken to address compatibility issues _____ _____ _____ _____ and _____ system _____ _____?

Is there a _____ to _____ _____ issues _____ _____ party _____ _____ pre-installed system software/warefirm _____?

_____ can we _____ _____ _____ apps?

_____ can we _____ _____ problems _____ _____ and system software?

_____ can _____ make third _____ _____ compatible with pre-installed _____?

_____ you _____ how to resolve _____ _____ between third-party _____ _____ _____ software?

I _____ like to _____ _____ to _____ problems _____ the latest _____ _____ old _____ software.

_____ do I handle _____ _____ of _____ applications with _____ _____?

_____ to make _____ _____ new apps and _____ _____ are _____?

_____ want to _____ _____ _____ resolve _____ between the latest _____ _____ the old system _____.

What _____ the specific _____ we _____ take _____ _____ _____ discrepancies between the _____ and the operating _____ _____ _____ phone?

_____ procedures _____ _____ _____ to _____ _____ differences between recently added applications and _____ installed _____ of _____?

_____ _____ be done _____ _____ conflicts between third-party _____ _____ my software?

I _____ _____ _____ how to _____ the problems _____ _____ latest apps and _____ older _____ _____.

_____ should be done _____ resolve _____ _____ new _____ apps _____ pre-installed _____?

_____ _____ _____ _____ be compatible with softwarefirmware?

How can _____ handle _____ conflicts of _____ _____ _____ with the _____?

What _____ do _____ _____ to _____ harmonious _____ of fresh applications and _____ _____?

_____ should compatibility _____ _____ new third-party apps and _____ _____ _____ be _____?
