[Demo] NLP Dataset for Customer Service Automation

Company Type	Internet Service Providers
Inquiry Category	Speed and performance inquiries
Inquiry Sub-Category	Speed test results interpretation
Description	Customers perform internet speed tests and need help interpreting the results, understanding what is considered good or optimal, and if they are getting the expected speeds based on their subscribed internet plan.
Data Size	5,093 paraphrases

_____ are the _____ _____ _____ _____ _____ internet _____ performance through a speed test?

_____ _____ _____ _____ _____ _____ analysed with _____ speed test, so _____ need some advice _____ the level oflatency _____

When using _____ _____ test to _____ _____ _____ _____ _____ _____ _____ the allowable level of lag?

Is _____ _____ to _____ guidelines _____ acceptable _____ _____ _____ our internet connection's performance _____ a speed _____?

When _____ the performance _____ _____ internet with _____ speed _____ _____ is _____ a _____ level of _____?

What is _____ _____ Latency _____ _____ connection performance _____ a speed _____?

I'm _____ if we _____ _____ the level of _____ _____ _____ _____ occur from a _____ Internet speed _____

_____ curious if we can measure _____ level _____ _____ latency _____ _____ happen from conducting _____ online _____ _____.

I was wondering if _____ could _____ _____ _____ acceptable latency that _____ _____ from _____ simple online _____ _____.

Please give us _____ idea of _____ _____ _____ _____ _____ would be, we've got our internet _____ analysed _____ _____ _____ _____.

Since _____ _____ our internet _____ _____ analysed with a speed test, _____ need _____ advice _____ the _____ _____ _____ _____ '

_____ _____ time to _____ internet _____ with _____ _____ test, what is _____ _____ good level _____ delays?

When _____ our _____ connection through a _____ _____ _____ _____ _____ _____ get details about _____ Latency levels?

_____ our internet _____ speed _____ how _____ latency _____ acceptable.

I'm curious if we _____ measure the _____ of acceptable latency _____ _____ occur _____ _____ _____ _____ _____.

We've got _____ _____ connection's performance analysed with a _____ _____ _____ _____ need some advice _____ _____ _____ _____ lag _____ '

_____ _____ if _____ is a way _____ _____ the _____ speed _____ acceptable level _____.

_____ _____ to know _____ _____ accepted Latency _____ _____ _____ we've got _____ internet _____ analysed with a _____ test.

I'm curious if _____ can measure _____ _____ of acceptable _____ _____ _____ occur from conducting _____ _____ speed _____

_____ we _____ at our network's _____ _____ _____ _____ _____ _____ is the allowable level _____ delay?

When analyzing our _____ _____ _____ a _____ _____ what _____ the _____ level _____ Latency?

_____ _____ the level of _____ lag considered _____ _____ _____ speed tests?

_____ _____ _____ speed _____ _____ test, what _____ the _____ levels of latency?

During an _____ _____ evaluation _____ should be _____ for permissible _____ _____.

When using a _____ _____ to examine our network's _____ what _____ _____ allowable _____ _____ _____ _____?

I'm _____ _____ we _____ _____ the level of _____ that will _____ _____ conducting _____ online speed _____.

When _____ _____ _____ connection's _____ through a speed _____ what _____ the _____ _____ of latency?

_____ _____ at internet _____ using a speed _____ _____ is _____ a _____ _____ level?

____ there ____ ____ ____ of delay that would be acceptable ____ ____ internet ____?

When ____ ____ ____ connection ____ a ____ ____ ____ ____ get details ____ permissible levels of latency?

____ it's ____ to test ____ internet's performance ____ a ____ test, ____ is a ____ ____ of ____?

____ ____ ____ ____ ____ measure ____ level of acceptable Latency ____ will occur during ____ simple internet ____ test

I ____ curious if ____ ____ anything we ____ measure ____ ____ to the ____ ____ ____ latency that will ____ from ____ simple internet ____ ____.

I'm curious ____ the level ____ acceptable ____ ____ ____ ____ ____ speed test.

I'm curious ____ we can measure ____ level ____ ____ ____ ____ an ____ ____ test.

When ____ ____ internet connections ____ a ____ ____ ____ ____ details about the ____ Latency Levels?

When ____ ____ our ____ performance via a ____ test, ____ does it mean ____ ____ ____ allowable level ____ ____?

____ ____ to know what ____ ____ Latency Levels ____ since we've ____ ____ internet connection's ____ ____.

When ____ ____ performance via a speed evaluation method or ____ ____ you ____ ____ ____ ____ ____ acceptable Latency ____?

Our ____ connection ____ is analysed ____ a speed test ____ ____ ____ ____ know what the accepted ____ ____ ____.

I'm ____ if we can measure the ____ ____ acceptable Latency ____ ____ ____ from ____ ____ ____ speed test

____ got ____ internet ____ ____ analysed ____ a ____ test, so I ____ ____ advice ____ the level of ____ required

Is ____ ____ ____ measure and comprehend ____ acceptable ____ ____ ____ a simple online ____ test?

____ got our ____ ____ performance ____ with a ____ test ____ I need some ____ ____ the level ____ ____.

The internet ____ performance is ____ with ____ speed test and ____ need ____ advice ____ ____ ____ ____ latency.

How can we ____ ____ ____ range when we run a ____ ____ on ____ ____ ____?

Our ____ connection performance ____ been analysed ____ ____ ____ to ____ ____ ____ ____ Latency Levels are.

____ ____ ____ ____ the levels of ____ ____ be, ____ ____ our internet connection analysed with a ____ test.

____ ____ internet speed ____ a ____ what ____ ____ ____ levels of latency?

____ curious ____ know ____ ____ can measure ____ ____ of ____ ____ ____ will ____ from a simple internet speed test.

We want ____ ____ ____ the ____ Latency ____ are, so we ____ ____ internet connection's performance ____ a ____ ____.

We've got our ____ ____ analysed with ____ speed test, ____ ____ ____ some ____ ____ ____ level of Latency that ____

____ much ____ should we allow for ____ ____ internet ____ ____ ____ ____ speed test?

____ we look ____ our ____ performance ____ ____ speed test, what ____ the ____ ____ ____ lag?

____ examining our ____ ____ ____ a speed ____ what ____ the permissible ____ ____ Latency?

We need ____ ____ what ____ accepted Latency ____ ____ ____ we analyse ____ internet connection's ____ with a ____ ____.

____ ____ connection ____ is analysed with ____ speed ____ so we want ____ know ____ ____ ____ Latency ____ are.

When ____ our ____ speed ____ a ____ what ____ the appropriate levels ____ ____?

We ____ ____ ____ connection's ____ ____ with a ____ ____ so I need some advice ____ ____ level of ____.

We've got ____ ____ connection's ____ ____ ____ a speed test, so ____ ____ ____ advice on the ____ ____ ____ that '

____ ____ transmission Latency is acceptable ____ ____ ____ tests?

____ ____ ____ ____ ____ the accepted Latency ____ are after analyzing ____ internet ____ performance with a speed ____.

____ ____ ____ we ____ ____ ____ level of acceptable Latency that will occur ____ conducting an online ____ ____

With our internet connection performance analysed ____ ____ ____ ____ ____ want ____ know what ____ accepted ____ Levels ____.

____ ____ if ____ ____ a way to ____ the acceptable level of lag ____ ____ ____ speed ____.

We ____ to ____ what ____ accepted Latency levels ____ ____ we have ____ ____ ____ ____ performance.

We've got our internet ____ analysed ____ ____ speed ____ so I ____ some ____ ____ the ____ of ____.

Please ____ ____ ____ ____ of what ____ levels ____ delay ____ be, we ____ analysed our ____ ____ performance with a ____ test.

Is ____ possible ____ measure ____ comprehend acceptable Latency levels ____ conducting ____ ____ ____ speed ____?

I'm curious if we ____ ____ the ____ of acceptable latency ____ ____ come ____ ____ simple ____ ____ test

We ____ to know ____ the ____ Latency Levels ____ since ____ ____ our ____ connection's ____.

____ ____ ____ internet ____ performance with a speed ____ ____ need some ____ ____ ____ level of latency required.

____ ____ to know ____ the accepted ____ levels are because ____ ____ ____ ____ internet connection's ____ with a speed ____.

____ ____ the internet's ____ ____ ____ speed test, what is considered ____ goodlatency ____?

During ____ internet speed ____ is ____ a ____ ____ ____ accepted?

When analyzing our ____ ____ through ____ speed ____ can ____ get ____ ____ the permissible levels ____ ____?

When ____ ____ ____ test ____ ____ performance with ____ speed test, what ____ a good ____ of ____?

What ____ the levels of ____ be for ____ our internet connection's ____ ____ ____ ____ ____?

Which amount ____ time ____ ____ ____ ____ speed analysis?

I'm ____ if ____ can measure the level ____ ____ delay ____ ____ ____ from conducting an ____ ____ test.

____ ____ internet speed, what ____ the appropriate ____ of ____?

We want ____ ____ what the ____ Latency ____ are because ____ ____ ____ internet ____ performance ____ a ____ test.

____ ____ ____ ____ levels of lag ____ ____ be looking for during ____ internet ____ evaluation.

____ curious if ____ ____ measure the level of acceptable ____ that ____ occur ____ a ____ internet ____ ____

Can ____ tell me ____ ____ latency ____ for internet ____ ____?

____ checking our internet's ____ ____ a ____ ____ ____ ____ a goodlatency level?

____ want to ____ what ____ accepted ____ levels ____ ____ we analysed our ____ connection performance ____ ____ ____ test.

I'm ____ ____ ____ can ____ the level ____ acceptable Latency when ____ ____ an online ____ ____.

____ ____ if ____ ____ we ____ ____ ____ respect to the ____ of acceptable latency ____ will occur from the ____ ____ speed test

____ curious ____ we can measure ____ level ____ ____ ____ from ____ ____ simple Speed test ____

I'm curious ____ ____ ____ a ____ to ____ ____ level of acceptable latency ____ ____ occur from conducting ____ ____ ____ test.

____ ____ ____ ____ connection's performance ____ ____ ____ speed test, ____ ____ need some advice on ____ amount of latency.

I want to know if ____ ____ a way to ____ ____ acceptable ____ ____ ____ ____ doing a ____ ____ online.

____ analyzing our ____ ____ ____ ____ a speed test what ____ ____ ____ levels of lag?

We've ____ ____ internet ____ performance analysed ____ ____ speed test, please give ____ some idea ____ ____ ____ ____ ____ would be

Is ____ acceptable for our ____ connection's ____ test ____ ____ ____ lag?

____ ____ if we can ____ ____ ____ ____ acceptable latency that ____ occur with ____ ____ speed test.

When ____ our internet ____ through a speed ____ ____ we ____ ____ ____ ____ ____ Latency levels?

When we use a ____ test ____ check ____ internet's ____ what ____ ____ ____ ____ level?

____ ____ if we can quantify the ____ of ____ ____ that ____ ____ from ____ an online ____ test

____ curious if ____ can measure ____ level ____ acceptable ____ ____ ____ ____ online speed test

____ ____ ____ ____ ____ measure ____ level of acceptable Latency that will ____ from a ____ online speed ____

____ looking at ____ connection's performance ____ a ____ test, what is ____ ____ ____ ____ latency?

I am ____ ____ we can measure ____ ____ of acceptablelatency that ____ ____ ____ a ____ internet speed ____

____ ____ if ____ ____ measure the level of acceptable lag ____ will ____ ____ we ____ an online ____ ____

Our ____ ____ performance ____ analysed and ____ ____ to know ____ ____ ____ Latency levels are.

____ assessing ____ speed through a test, ____ ____ ____ lag are ____?

____ ____ if we can measure ____ level of ____ latency ____ will ____ ____ ____ conducting an ____ speed ____.

____ analyzing our ____ ____ ____ via ____ speed test can you give ____ guidelines ____ ____ ____?

____ ____ internet performance through a ____ ____ ____ is the minimum ____ ____?

We ____ our internet ____ performance analysed ____ a ____ ____ ____ ____ need some ____ on ____ level ____ Latency required

Please give ____ an ____ of what ____ levels of delay would ____ ____ ____ ____ ____ internet ____ performance ____ ____ speed test.

____ can we determine ____ ____ ____ range by ____ ____ internet connection?

When ____ ____ our internet's ____ ____ ____ speed ____ what's considered ____ good level ____ lag?

When ____ ____ our connection's performance ____ a speed test, what ____ ____ ____ limit ____ ____?

____ internet performance is ____ with a speed ____ so ____ ____ ____ ____ the ____ ____ Levels.

____ tell ____ ____ the levels of ____ ____ be, ____ analysed ____ ____ connection's performance with a ____ test.

____ ____ ____ our network's ____ via a speed test, ____ ____ the ____ ____ ____ Latency mean?

We've ____ our ____ ____ analysed ____ a speed ____ ____ ____ us ____ the levels of delay would ____

I'm wondering if we ____ measure the level of acceptable ____ ____ ____ ____ ____ ____ ____

____ ____ ____ ____ idea of ____ the levels ____ delay would ____ we have analysed our internet ____ performance ____ ____ speed ____ ____

I'm ____ if we can ____ ____ level ____ acceptable ____ ____ will occur from the simple ____ ____ ____.

____ got ____ ____ ____ ____ analysed with a ____ ____ we need to ____ ____ the levels of ____ would be.

I'm ____ ____ ____ can measure ____ level of acceptable ____ ____ ____ ____ ____ conducting an online speed test

____ ____ ____ ____ ____ ____ ____ a speed ____ can we get details ____ ____ levels of latency?

____ ____ a speed ____ to ____ the ____ performance, ____ ____ considered a good ____ level?

____ ____ our ____ connection through ____ speed ____ can we receive details ____ the ____ ____ ____?

We _____ to know what the accepted _____ Levels are, _____ we have analyzed _____ internet _____ _____ _____ _____ _____ _____.

_____ want _____ _____ what _____ _____ Latency _____ are, _____ we have our internet connection's _____ _____.

We _____ to know _____ _____ _____ Latency _____ are when _____ perform a _____ test on _____ _____ connection.

By _____ a speed test _____ _____ _____ connection, _____ can _____ _____ _____ Latency range.

We've got our internet connection's _____ _____ _____ a speed _____ and _____ want _____ know _____ _____ _____ _____ Levels are.

_____ curious if we can measure _____ level _____ _____ _____ for a _____ _____ test _____

What amount _____ _____ lags _____ acceptable _____ internet speed _____?

When _____ _____ _____ internet's performance _____ a speed _____ _____ _____ considered a good level _____ _____?

_____ curious if we can _____ _____ _____ of _____ _____ that will _____ from _____ simple online speed _____

_____ analyzing our internet _____ _____ optimal _____?

How much _____ delay _____ accepted _____ _____ speed _____?

Please tell us _____ _____ levels _____ _____ would be, we got our internet _____ performance _____ _____ _____ _____ _____.

_____ curious _____ _____ can _____ _____ level of acceptable _____ from an online _____ _____.

_____ _____ at our _____ performance via _____ speed _____ _____ constitutes an _____ level _____ latency?

When assessing internet _____ with a _____ what are _____ _____ _____ _____ _____?

Please give us _____ idea of what _____ levels of delay _____ _____ _____ _____ have _____ _____ _____ connection's _____ with _____ speed _____

_____ analyzing our internet connection _____ _____ test, _____ we get _____ _____ _____ levels of _____?

_____ _____ a specific _____ of _____ that _____ _____ _____ for evaluating internet speed?

_____ got our _____ connection's _____ analysed _____ _____ speed test _____ I need _____ _____ on _____ level _____ latency.

What _____ do _____ think _____ acceptable for _____ internet connection _____ _____ _____ _____ test?

Optimal lag _____ _____ analyzing _____ _____ test?

I'm _____ if there _____ a _____ _____ _____ _____ internet _____ _____ acceptable level of delays.

When evaluating our connections _____ a _____ _____ _____ are the accepted _____ _____ _____?

Do _____ _____ _____ accepted levels _____ analyzing _____ internet _____ performance using a _____ _____?

I'm curious _____ we can _____ _____ _____ of acceptable _____ _____ _____ _____ speed test online.

Is it possible _____ define permissible _____ _____ analyzing connection performance _____ _____ _____ _____?

We _____ determine the acceptable _____ range _____ running a speed _____ _____ _____ _____ _____.

We _____ to _____ what _____ _____ Latency _____ are, since we have _____ our internet connection's _____ _____ a _____ _____.

_____ curious if we _____ _____ the level _____ acceptable latency _____ will _____ _____ _____ conduct _____ _____ speed test

I'm _____ _____ the level of _____ _____ _____ will _____ _____ conducting an online speed _____

Let _____ _____ _____ permissible _____ of lag _____ _____ be looking _____ in an _____ speed _____.

We've got our internet _____ _____ analysed with _____ _____ _____ so I _____ some advice _____ _____ _____ _____ latency

_____ the _____ connection's _____ _____ how much _____ is acceptable?

_____ levels _____ _____ in internet _____ tests are _____?

Optimal _____ _____ for _____ our _____ speed _____.

On our _____ _____ _____ test, _____ muchlatency _____ acceptable?

I _____ _____ if there _____ a way _____ measure the _____ _____ of _____ _____ _____ a speed _____ online

_____ have _____ _____ _____ connection's performance _____ _____ _____ _____ and I need some advice on _____ level _____ lag required.

When _____ at _____ network's performance via _____ _____ test, _____ is _____ _____ _____ of delay?

_____ got _____ _____ _____ performance _____ with _____ speed test, we want to _____ what _____ levels _____ delay _____ be

_____ got our internet _____ _____ _____ _____ _____ test so I need _____ advice on _____ _____ oflatency required.

_____ evaluating _____ connection's _____ _____ a _____ test, _____ constitutes the permissible _____ oflatency?

_____ _____ _____ our network's performance _____ a speed test, _____ _____ be _____ _____ _____ of latency?

I _____ if _____ can _____ the level of _____ latency that _____ occur when _____ _____ _____ online _____ _____

_____ it's time to _____ internet performance _____ a speed _____ _____ _____ a _____ _____ Level?

The internet connection performance is _____ _____ a _____ test, _____ _____ _____ to know _____ _____ accepted Latency _____ _____.

_____ _____ speed test _____ our internet connection _____ _____ to _____ the acceptable _____.

I'm _____ _____ we can _____ the _____ _____ _____ Latency that _____ happen from a _____ online _____ test

_____ _____ time to _____ _____ _____ with a speed _____ what _____ _____ good level of _____ delays?

We've got our internet _____ performance analysed _____ a _____ _____ _____ _____ _____ some _____ _____ _____ levels of latency that _____

____ it ____ for ____ ____ ____ ____ delay ____ be considered ____ evaluating internet speeds?

We ____ to ____ ____ ____ accepted Latency Levels are after ____ ____ ____ internet ____ performance with a ____ ____.

Our ____ ____ ____ test considers how ____ delay is ____.

Running a speed test on ____ ____ connection ____ ____ ____ to ____ ____ acceptable latency ____.

How ____ lag ____ acceptable for analyzing ____ internet ____ ____ for ____ speed ____?

How can ____ ____ the ____ ____ range using ____ ____ test ____ our ____ connection?

____ ____ we ____ the ____ latency ____ ____ running a test on ____ ____ connection?

Is ____ a ____ duration of delay ____ ____ appropriate ____ evaluating ____ ____ speeds?

____ ____ time to test ____ ____ with a ____ test what ____ ____ ____ good ____ of delay?

____ like ____ know ____ there is ____ way ____ measure the ____ level ____ ____ ____ from a speed ____.

Is ____ specific ____ of delay appropriate ____ testing ____ ____?

In ____ speed tests, how ____ transmission ____ ____ considered ____?

When analyzing the ____ connection ____ a speed test, can ____ ____ ____ ____ ____ ____ ____ levels?

When examining the ____ ____ ____ network via ____ ____ test, ____ ____ ____ allowable ____ of latency?

____ ____ ____ anything we can measure ____ regards ____ the level ____ ____ ____ that will occur from ____ ____ ____ speed test

____ level of ____ ____ ____ ____ tests is acceptable?

____ ____ us what ____ ____ of ____ ____ be, we've got our ____ ____ performance analysed with ____ speed ____.

____ wondering if there's ____ ____ ____ measure the ____ ____ ____ internet lag during a ____ ____.

____ ____ curious if we ____ ____ the level of ____ ____ ____ will occur from ____ simple Internet ____ ____.

____ are the acceptable levels ____ ____ for analyzing ____ ____ of ____ ____ ____ in a ____ test?

____ ____ ____ ____ what ____ accepted Latency levels are since we ____ ____ ____ ____ connection's performance.

____ want to ____ what ____ accepted Latency Levels ____ because our ____ ____ ____ was analysed ____ ____ ____ test.

____ ____ if ____ can ____ ____ ____ ____ ____ ____ that will occur from a simple Internet speed test.

A speed test ____ the ____ ____ ____ us determine ____ acceptable ____.

____ ____ about ____ level ____ acceptable latency that will ____ ____ ____ simple online ____ test.

I'm wondering if ____ ____ a ____ ____ measure the acceptable ____ of ____ lag ____ ____ speed ____.

____ ____ ____ we ____ measure the level of acceptable ____ ____ ____ an online speed ____?

We want to know what ____ ____ ____ Levels are, because ____ ____ ____ ____ ____ performance with a ____ test.

____ curious if ____ ____ ____ the level ____ acceptable ____ that will ____ ____ from conducting an ____ ____ test

I'm ____ if it's possible ____ measure ____ ____ ____ ____ ____ from doing a ____ ____ test online.

I'm ____ if ____ ____ ____ way ____ measure the ____ speed test's acceptable level ____ ____.

Is it ____ ____ ____ speed ____ ____ have some lags?

____ looking at ____ network's ____ during ____ speed ____ what ____ ____ allowable level of ____?

We've ____ ____ internet connection's performance ____ ____ a ____ test, please give us some ____ ____ the ____ ____ ____

____ testing our connection ____ ____ speed ____ what ____ the accepted ____ of ____?

We've ____ ____ ____ ____ analysed with a speed ____ and I need some ____ ____ ____ level ____ required

Our ____ connection's performance ____ ____ with ____ speed test, so ____ want ____ ____ ____ ____ ____ Latency Levels are.

____ we ____ the ____ ____ to assess internet ____ are ____ ____ defined ranges of ____?

____ ____ ____ speed test analysis, is ____ a specific ____ range ____?

We ____ to know ____ the Latency levels ____ after ____ ____ ____ ____ ____ performance with a speed ____.

When looking at ____ network's ____ ____ a ____ ____ ____ does an ____ ____ ____ Latency mean?

____ ____ ____ we can measure the ____ of acceptable ____ from ____ ____ ____ speed test

I'm ____ if ____ a ____ to ____ ____ acceptable ____ of lag when doing ____ ____ ____ online

When ____ a speed test to ____ ____ network's performance, ____ is ____ allowable ____ ____ ____?

____ analyzing the ____ ____ performance for ____ ____ test, what are the acceptable ____ ____ ____?

We've got our ____ performance ____ with a ____ test ____ I ____ some ____ on ____ ____ ____ latency ____

____ ____ ____ internet ____ through ____ speed test, ____ ____ get ____ about ____ permissible levels of Latency?

We ____ ____ ____ internet ____ performance with a speed test ____ want to know ____ the ____ of ____ ____ ____.

We have ____ our ____ ____ ____ with a ____ test and I ____ some ____ ____ ____ level of ____.

For ____ internet connection's ____ ____ how much ____ is ____?

_____ _____ _____ we can _____ the level _____ acceptable _____ _____ a simple internet speed _____.

We've _____ our internet connection's performance analysed _____ _____ speed _____ _____ we need _____ _____ _____ the level _____ lag _____

_____ analyzing _____ internet _____ _____ a _____ _____ can we get details _____ the permissible _____?

I'd like _____ know _____ can measure the level _____ _____ _____ from _____ simple _____ speed _____

_____ _____ _____ internet connection's performance for a _____ _____ what levels of _____ _____ _____?

Is _____ a duration of _____ that would be _____ _____ for _____ _____ _____?

_____ want _____ _____ what _____ Latency levels _____ with our internet _____ _____ analysed.

I would like _____ know _____ we _____ _____ the _____ of acceptable _____ from a _____ _____ _____ online

I wonder if we can measure _____ _____ _____ acceptable latency that _____ occur _____ conducting _____ _____ _____ _____.

Our internet connection _____ _____ _____ _____ _____ speed _____ so we _____ to _____ _____ the _____ Latency Levels are.

I'm _____ _____ there is a way _____ determine _____ acceptable _____ of lag _____ _____ a _____ test _____.

When assessing _____ connection _____ _____ _____ _____ are _____ accepted levels of latency?

Do you know the _____ _____ levels in _____ _____ _____?

_____ _____ _____ we _____ measure the _____ of acceptable latency _____ will occur when we _____ _____ _____ online _____ test.

_____ curious _____ _____ can _____ the level of acceptable _____ from a simple _____ _____ _____.

_____ analyzing _____ _____ connection through _____ speed test _____ _____ _____ details of the permissible _____ _____?

_____ got _____ internet _____ performance analyzed with _____ speed test, _____ I need some _____ _____ _____ _____ _____ lag that _____

During an internet _____ test analysis _____ _____ _____ range _____?

_____ can _____ calculate _____ acceptable _____ range by _____ _____ test _____ our internet _____?

When studying Internet performance via _____ speed _____ _____ _____ _____ _____ _____ me the standard range _____ acceptable _____ levels?

_____ curious _____ know _____ _____ _____ _____ the level of acceptable latency that will _____ when _____ conduct _____ online _____ _____

Is _____ an appropriate upper limit _____ the time delay _____ _____ _____ internet _____ _____ _____ conducted by _____ _____?

_____ _____ lag _____ we _____ for analyzing _____ _____ connection's _____ for a speed _____?

When _____ _____ to test internet _____ with a _____ test, what _____ _____ _____ _____ level?

_____ _____ an internet _____ _____ _____ _____ checks, is there a threshold for _____ _____?

_____ me _____ _____ permissible levels of _____ _____ should _____ looking for during _____ _____ _____ evaluation.

We've _____ _____ internet _____ performance with _____ _____ test, so I _____ _____ advice on _____ level of _____ _____

_____ _____ if there is a _____ to _____ _____ _____ level of latency during _____ _____ _____ online.

_____ amount of transmission latency _____ _____ in internet _____ _____?

We want to _____ what the _____ Latency _____ _____ _____ _____ _____ _____ internet connection's _____ analysed.

Is there _____ _____ range of _____ _____ levels _____ studying _____ performance _____ _____ speed evaluation _____.

_____ _____ like _____ know if we _____ measure the level _____ acceptable latency _____ _____ occur from _____ _____ _____ _____ test

_____ studying internet performance via _____ _____ evaluation _____ _____ tool, can you give a _____ _____ _____ acceptable _____ _____?

_____ got _____ internet _____ performance analysed _____ _____ _____ test, so _____ _____ some _____ on the level of _____ that

When assessing _____ internet speed, _____ _____ the _____ _____ _____ delay?

_____ checking internet _____ _____ a speed _____ what's _____ a _____ _____ level?

_____ _____ our internet connection through a speed _____ _____ we get _____ about _____ _____ _____?

_____ _____ connection's performance _____ analysed with a speed test _____ _____ _____ to _____ what the _____ _____ _____ are.

_____ _____ to _____ _____ _____ accepted _____ Levels are, since _____ have _____ our internet connection _____.

_____ _____ a connection _____ a speed test, _____ levels _____ _____ are _____?

Is _____ _____ _____ length of delay that would be _____ _____ _____ internet _____?

I'm _____ if _____ is possible to measure _____ _____ acceptable latency _____ will occur from _____ _____ _____ speed _____.

I'm curious _____ _____ _____ anything we can _____ with _____ to _____ _____ _____ acceptable latency _____ a _____ speed test _____.

_____ levels _____ lag _____ _____ for _____ internet connection _____ _____ a speed test?

_____ _____ our internet connection _____ _____ _____ test, can _____ _____ the permissible _____ levels?

_____ _____ to know _____ _____ accepted _____ _____ _____ since we _____ our internet connection's performance _____.

_____ _____ _____ specific duration of _____ _____ is appropriate to evaluate _____ _____?

When _____ _____ _____ through _____ speed _____ what _____ _____ accepted levels oflatency?

_____ testing internet _____ with a speed _____ are there any _____ _____ _____ _____?

We've got _____ _____ connection's performance analysed _____ a speed _____ _____ _____ _____ some advice _____ the _____ _____ delay that's

____ ____ our internet ____ performance for a ____ ____ what ____ the ____ ____ of lag?

____ ____ our ____ ____ performance analysed ____ a speed test, ____ I ____ ____ advice on the level ____ ____ required

____ are the ____ ____ of ____ for ____ our ____ ____ during ____ speed test?

We want to ____ ____ the ____ Latency ____ ____ ____ we've got ____ internet ____ analysed.

When ____ look at ____ connection's performance through ____ speed ____ ____ is ____ permissible ____ ____ ____?

We've got our ____ ____ analysed ____ a ____ ____ so I need ____ advice on the ____ ____ ____.

When ____ our ____ ____ through a ____ ____ what ____ the permissible limit ____ ____?

To find ____ ____ ____ ____ must ____ ____ ____ connection to see how fast it ____.

I'd ____ ____ ____ ____ we ____ measure the level ____ acceptable latency from a simple ____ ____ ____.

____ ____ a ____ range ____ ____ ____ levels when studying Internet ____ ____ a speed evaluation ____ or tool?

We've got ____ ____ ____ ____ ____ so ____ need ____ advice on the level ____ required

When looking at our ____ performance ____ ____ ____ test, ____ the ____ level ____ ____?

____ it acceptable ____ ____ internet speed test analysis ____ have ____ ____ latency ____?

____ have ____ ____ ____ ____ performance with a speed test, ____ I ____ some advice on the ____ ____ ____ required.

____ internet ____ ____ is analysed with ____ ____ test, ____ ____ need ____ advice ____ the level of latency.

I'm curious ____ we can ____ the ____ ____ ____ ____ ____ doing a ____ online ____ test.

When ____ at ____ ____ ____ ____ a ____ test, what ____ ____ allowable level oflatency?

____ you ____ a ____ ____ of acceptable ____ ____ ____ ____ Internet ____ using a speed evaluation method ____ tool?

____ an ____ speed ____ we ____ ____ looking for the ____ levels ____.

____ looking at ____ network's performance via ____ ____ ____ what ____ be the allowable ____ ____ ____?

When examining our ____ performance ____ a speed test, ____ ____ ____ ____ ____ of ____?

____ ____ ____ there is anything ____ can do ____ measure ____ level of ____ latency from ____ simple ____ ____ test.

When assessing ____ internet speed ____ a test, what ____ ____ ____ levels ____ ____?

____ ____ considered a ____ latency ____ when testing ____ performance ____ a speed ____?

____ ____ ____ there is any way ____ ____ measure the ____ ____ acceptable latency from ____ simple ____ speed ____

____ it possible to ____ ____ ____ limit for ____ time ____ when ____ the results of ____ internet ____ ____?

The internet ____ performance is analysed ____ ____ speed ____ ____ ____ ____ to ____ the accepted ____ Levels.

I'm curious if we can measure ____ level ____ ____ latency ____ ____ ____ ____ ____ online

____ it ____ ____ determine the permissible ____ for ____ ____ performance ____ a ____ test.

____ ____ if there is ____ way to ____ the acceptable ____ of ____ when doing ____ speed ____ ____

____ ____ ____ internet's performance using ____ speed ____ ____ is considered ____ good level of ____?

The ____ connection's speed test ____ how ____ ____ is ____.

I ____ curious if we ____ ____ the level ____ ____ that will ____ from ____ simple ____ ____ test

I'm ____ ____ we ____ measure the level of ____ ____ that ____ happen ____ the ____ online speed ____.

____ curious ____ we have the ____ to measure ____ ____ of acceptable latency ____ ____ simple ____ speed ____

We ____ ____ ____ what ____ accepted ____ ____ are after we analysed our ____ connection's ____.

When ____ ____ ____ connections ____ a ____ test, ____ ____ receive details about ____ levels of ____?

We ____ ____ know ____ ____ ____ ____ Levels are after ____ ____ ____ internet connection performance with ____ speed test.

I was wondering if we ____ measure ____ ____ ____ acceptable ____ ____ will ____ ____ a ____ online speed ____.

____ ____ the ____ ____ we ____ to ____ our internet connection speed.

____ transmission latency is acceptable ____ ____ ____ ____?

____ am curious to ____ ____ we can ____ ____ ____ of acceptable latency ____ ____ occur from the ____ ____ ____ test.

We want to ____ ____ ____ ____ ____ ____ are, as ____ ____ analysed our internet ____ performance.

I'm ____ if we ____ measure ____ ____ of ____ ____ doing a simple speed ____ ____

____ ____ internet performance ____ ____ speed test are ____ ____ thresholds for acceptable ____?

____ ____ a ____ test ____ check our ____ ____ what's considered ____ good Latency ____?

____ ____ for analyzing our ____ speed ____?

____ ____ if ____ can measure the level ____ ____ latency from a ____ ____ speed ____

____ got our ____ connection performance ____ ____ a speed test, so I ____ ____ ____ on ____ ____ of ____ required

When checking ____ ____ performance ____ a ____ ____ what is considered ____ ____ latency ____?

When we _____ a _____ _____ _____ examine _____ network's _____ _____ is _____ allowable level of _____?

When it comes _____ assessing _____ _____ _____ are _____ appropriate levels _____ _____?

I'm curious _____ _____ _____ _____ the level of _____ latency _____ _____ _____ online speed test.

_____ _____ give a standard _____ of _____ _____ levels when studying _____ _____ via _____ speed _____ method?

When _____ internet _____ through a test, what _____ _____ best _____ _____ _____?

When _____ _____ _____ _____ through a _____ _____ can _____ _____ details about the permissible _____ oflatency?

I'm curious _____ _____ if _____ can measure the _____ of acceptable _____ from _____ a _____ _____ _____ online.

_____ looking _____ _____ _____ _____ via _____ _____ test, what should be _____ allowable _____ of delay?

Is _____ a specific latency range _____ _____ _____ _____ _____ internet speed test _____?

_____ _____ if we _____ measure _____ level of acceptable _____ _____ a simple _____ speed _____.

_____ would like to _____ _____ we _____ measure the _____ _____ acceptable _____ from conducting an online _____ _____

The _____ latency _____ _____ _____ determined _____ _____ a speed _____ _____ our internet connection.

_____ wondering if we can measure the _____ _____ _____ _____ that will _____ from conducting _____ _____ speed _____

How _____ transmission _____ _____ acceptable _____ _____ internet speed tests?

_____ got _____ internet performance _____ _____ _____ speed _____ and we _____ _____ know _____ the levels of _____ would be.

I'd like to _____ _____ we can measure _____ _____ of _____ latency that will _____ from _____ _____ _____ _____ test

What _____ _____ _____ _____ for _____ our internet connection's performance _____ a _____ test?

_____ _____ our internet performance _____ _____ a _____ test, so I need _____ _____ on _____ level oflatency _____.

I'm curious to _____ _____ we can _____ the level of _____ _____ _____ _____ _____ _____ speed test online

_____ _____ to _____ _____ the accepted Latency _____ _____ _____ we analysed _____ internet connection's performance with _____ _____ test.

Should we _____ _____ speed test on _____ internet _____ _____ determine _____ acceptable _____?

_____ _____ _____ _____ _____ range we _____ need to check our _____ connection speed.

What are _____ _____ _____ of _____ for internet speed _____?

_____ curious if _____ can _____ the level of _____ Latency _____ _____ occur _____ _____ simple _____ speed test

When looking _____ _____ _____ performance _____ _____ _____ test, what counts _____ an _____ level oflatency?

_____ curious if _____ _____ _____ _____ level of acceptable _____ from conducting a _____ test _____.

When looking at _____ _____ performance through _____ _____ _____ _____ is the _____ limit _____ Latency?

_____ _____ the _____ _____ for analyzing connection performance _____ _____ speed test?

_____ _____ _____ if we _____ measure _____ level _____ acceptable _____ from doing _____ _____ speed test online

_____ _____ _____ we can _____ the level _____ acceptable delay that will _____ _____ a _____ _____ speed test.

_____ _____ _____ there is a _____ to measure the _____ speed test's acceptable _____ _____ _____.

The acceptable range _____ be determined _____ _____ _____ speed test _____ _____ internet _____.

_____ _____ me _____ _____ levels of _____ we _____ be looking for _____ _____ internet speed _____.

_____ _____ acceptable to _____ a specific _____ range during _____ _____ _____ test?

I'm curious if it's _____ to _____ the level _____ _____ latency _____ _____ _____ _____ _____ test

What _____ _____ acceptable amount _____ _____ _____ our internet connection's speed _____?

We've _____ our internet performance analysed with a speed _____ _____ _____ _____ to _____ what _____ levels _____ _____ would _____.

Is there a _____ duration _____ _____ _____ _____ be _____ _____ testing internet speeds?

_____ _____ _____ a speed test _____ _____ _____ _____ we could _____ the acceptable range.

_____ looking _____ a connection's _____ through a _____ test, what _____ _____ _____ limit _____?

_____ calculating _____ _____ _____ a _____ what are the appropriate levels _____ _____?

When _____ our _____ _____ _____ _____ speed _____ can we get details _____ the permissible _____ _____?

_____ using _____ _____ _____ _____ _____ our connection, what are _____ accepted _____ of delay?

We want _____ know what the accepted _____ _____ are, _____ _____ analysed _____ _____ connection's _____ _____ _____ speed test.
