[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network speed and performance concerns
Inquiry Sub-Category	Slow internet connection
Description	Customers experiencing slow network speeds or delays in accessing data services.
Data Size	5,002 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Do different devices _____ vs tablets) _____ _____ _____ _____ _____ throughput under _____ conditions?

_____ _____ _____ performance difference between tablets and phones _____ noticed _____ _____ _____ circumstances?

Is phones _____ _____ different _____ their reduction _____ _____?

Do _____ _____ tablets have _____ _____ throughput?

_____ _____ slower _____ smartphones _____ down compared _____ the tablets in _____ same _____?

When _____ _____ _____ _____ different levels of lower _____ access encountered _____ _____ and _____?

Is _____ differing levels _____ reduced _____ observed _____ _____ and _____?

_____ you notice _____ _____ in the _____ _____ tablets _____ _____ suffer from reduced _____?

_____ _____ are _____ constant, _____ _____ _____ difference in diminished bandwidth _____ phones _____ tablets?

When conditions _____ the same, there is _____ in _____ _____ _____ _____ and _____.

When the _____ are _____ _____ _____ there variation _____ reduced _____ between _____ _____ tablets?

_____ there _____ _____ same _____ _____ _____ the reduced throughput of tablets _____ look _____?

how _____ _____ reduced _____ of both _____ _____ _____ vary under _____ same conditions

If the _____ _____ _____ _____ how _____ the reduced _____ of _____ tablets andphones _____?

Is _____ _____ for _____ and _____ to _____ different levels of _____ _____.

_____ _____ and _____ slow _____ differently _____ they're set the _____?

_____ tablets _____ phones _____ _____ levels _____ decreased throughput in the _____ _____?

When _____ _____ to _____ transmission _____ _____ _____ operational settings, do there exist _____ between _____ and _____?

_____ there difference _____ _____ between _____ _____ _____ under similar scenarios?

_____ _____ and tablets _____ different degrees _____ _____ throughput _____ _____ same spot?

_____ it possible _____ different _____ _____ _____ _____ are observed among _____ _____ _____ in the same conditions?

If _____ _____ _____ same circumstances, _____ is _____ _____ throughput _____ both tablets _____ different?

Is there a _____ _____ _____ bandwidth between tablets and smartphones _____ _____ _____ _____?

_____ _____ think there's a difference in _____ _____ _____ _____ and a tablets _____ _____ reduced _____ every day?

Is _____ true _____ smartphones and _____ _____ _____ amounts of reduced _____ _____?

Is _____ _____ _____ signal _____ reduction is _____ for _____ and smartphones _____ _____ conditions?

Do tablets and _____ _____ _____ degrees _____ _____ throughput?

_____ tablets and _____ _____ _____ _____ of _____ throughput in _____ same area?

If there are _____ _____ circumstances _____ _____ the _____ throughput _____ _____ tablets andphones _____?

Do you _____ the way _____ _____ _____ a _____ _____ with _____ throughput varies?

Is the _____ of reduced _____ _____ between tablets _____ _____?

_____ the same circumstances does _____ _____ vary _____ _____ _____ and tablets?

Do phones and _____ have different _____ _____ throughput _____ _____ _____?

Is _____ _____ that signal _____ reduction _____ _____ for tablets _____ phones under _____ _____?

_____ it _____ that different levels _____ reduced _____ _____ _____ among both _____ and _____?

_____ there _____ _____ in the _____ _____ which tablets _____ _____ suffer from _____ throughput?

_____ it possible _____ the _____ _____ reduction _____ tablets and _____ is different _____ _____ conditions?

_____ _____ _____ environments, how slow does smartphones _____ _____ _____ _____ to tablets?

Under the same circumstances, _____ _____ _____ _____ display different _____ _____ decreased _____?

When conditions _____ the _____ _____ there variation in _____ _____ between _____ _____ phones?

Will the _____ _____ _____ between _____ and tablets _____ under the _____ _____?

How does _____ reduced _____ _____ _____ tablets andphones _____ if _____ are _____ same _____?

_____ _____ a difference in speed between tablets and _____ _____ _____ _____?

_____ _____ that _____ _____ appearance such _____ _____ smartphones vs _____ _____ _____ throughput under the same conditions?

Is _____ a difference _____ _____ and tablet _____ regarding reduced _____ capacity _____ equal _____ _____?

_____ _____ be changes _____ the data _____ of _____ _____ phones _____ _____ same circumstance?

_____ _____ same environments, how much slower _____ _____ _____ come down _____ to _____ _____?

_____ it _____ _____ experience _____ _____ reductions _____ a phone than _____ a tablets?

_____ phones and _____ _____ in _____ of reduction in _____?

_____ the _____ _____ _____ _____ _____ and tablets be different under similar _____?

_____ _____ _____ _____ in signal _____ _____ when using _____ and tablets _____ matching conditions?

Do you _____ _____ is a _____ _____ in _____ _____ _____ or a tablets _____ with _____ _____ every day?

Under the same circumstances, do _____ and _____ display _____ _____ _____ _____ _____?

Do phones _____ _____ exhibit _____ _____ _____ reduced throughput?

Can phones and _____ have _____ reductions _____ _____ _____ speed?

_____ _____ _____ different degrees _____ _____ throughput in the same _____?

_____ phones _____ tablets _____ different degrees of reduction _____ _____?

_____ _____ differing levels of _____ _____ _____ _____ tablets and phones?

Reduced _____ varies _____ smart phones _____ _____.

Do tablets and _____ _____ _____ _____ of throughput _____ _____ scenarios?

Can _____ tell me _____ there _____ _____ different _____ of _____ _____ performance for _____ and _____?

_____ there _____ _____ _____ the speed reductions between _____ _____ tablets?

_____ there _____ _____ _____ _____ way _____ a _____ or a tablets suffer with _____ throughput?

_____ you _____ _____ the _____ _____ smartphones or a tablets _____ with reduced throughput _____ _____?

_____ _____ _____ tablets _____ _____ degrees of reduction?

_____ there _____ difference _____ _____ _____ of reduced throughput _____ phones and _____?

How _____ _____ _____ throughput of _____ tablets _____ change _____ _____ _____ the same conditions?

_____ there _____ the _____ circumstances, does the reduced _____ of _____ _____ _____ differ?

Do phones _____ tablets _____ _____ _____ throughput under certain _____?

_____ _____ possible _____ _____ phone to experience _____ different reduction in _____ _____ a _____?

Is _____ a _____ _____ _____ _____ slower tablets _____ users experience?

_____ _____ and _____ exhibit different levels _____ reduced _____?

_____ am _____ if there _____ _____ _____ _____ strength reduction between tablets and _____ _____ _____ conditions.

Is there _____ _____ in the _____ _____ _____ in _____ _____ phones and tablets?

Under _____ _____ _____ _____ possible that the _____ _____ _____ is different for tablets and _____?

_____ _____ _____ that _____ users experience _____ download _____ than _____ users under the _____ conditions?

_____ the data _____ _____ between phones and _____ happen _____ _____ _____ circumstances?

_____ tablets _____ _____ _____ _____ amounts of throughput?

_____ _____ _____ _____ tablets _____ phones have _____ degrees of reduction in _____?

Do you believe _____ is _____ difference _____ how _____ _____ tablets _____ _____ experience _____ it's the _____?

_____ _____ possible to state if there is _____ _____ of decreased _____ _____ _____ phones _____ _____?

_____ _____ a difference in speed between _____ _____ phones _____ _____ circumstances?

_____ it _____ _____ _____ _____ different levels of _____ throughput among _____ and phones?

Do ____ know the ____ to ____ ____ reduction ____ ____ ____ tablets and ____ varies?

Do ____ ____ phones show ____ amounts ____ decreased throughput in ____ ____?

____ tablets ____ smartphones ____ ____ degrees of reduced ____?

If there ____ ____ ____ conditions, how ____ ____ ____ of both ____ and phones ____?

Is ____ ____ ____ in the ____ ____ reduced throughput ____ tablets ____ smartphones?

How does ____ ____ ____ of tablets ____ ____ vary ____ there are ____ same ____?

____ I ____ if there are ____ ____ ____ strength ____ ____ ____ smartphones and ____ under matching conditions?

Can phones and ____ ____ ____ ____ when they're set ____ ____?

Is ____ true ____ different levels of ____ ____ ____ observed ____ tablets and ____?

____ does ____ throughput ____ ____ ____ and tablets?

Is it possible ____ tablets ____ experience ____ ____ ____?

____ is ____ ____ throughput ____ ____ tablets andphones different under ____ ____ conditions?

Is ____ ____ ____ ____ different speeds for tablets and ____ ____ the ____ situation?

Do phones and ____ ____ different levels ____ ____ in ____?

____ ____ ____ variation in ____ throughput between ____ and phones?

Do ____ notice ____ ____ ____ the amount ____ ____ ____ and phones suffer from reduced ____?

____ you ____ me the degree ____ ____ ____ ____ ____ the ____ circumstances for Smartphones and ____?

____ reduced throughput difference ____ ____ phones and tablets under ____ ____ ____?

With a ____ ____ can ____ ____ ____ ____ between tablets and smartphones?

Do ____ ____ if the ____ ____ ____ ____ tablets ____ from a reduction ____ throughput varies?

Is ____ possible ____ ____ have different degrees of ____ ____?

Is ____ ____ for a ____ ____ ____ different speed reductions compared ____ a ____?

____ it ____ to ____ variations ____ throughput between ____ and ____?

Do you ____ there's ____ difference in how ____ ____ Tablets ____ ____?

Is ____ ____ tablets ____ in terms ____ ____ throughput?

Will ____ ____ performance difference ____ phone ____ ____ happen under ____ same ____?

Is ____ possible for the tablets ____ ____ ____ have ____ data in ____ ____?

Do ____ ____ ____ have ____ ____ of ____ throughput ____ the same conditions?

If there are the ____ ____ does ____ ____ throughput of both ____ ____ ____ ____?

Do you ____ ____ the ____ ____ throughput ____ ____ ____ and ____ suffer from varies?

Do ____ think ____ ____ difference ____ the ____ a smartphones or ____ tablets perform ____ ____ ____?

How ____ ____ ____ throughput of ____ tablets ____ compare ____ there are the ____ ____?

____ ____ ____ ____ there ____ ____ degree of decreased internet performance on ____ particular smartphones ____ ____?

Do you ____ there's a difference ____ ____ ____ ____ and ____ ____ slower speeds?

Is ____ ____ ____ ____ ____ speed ____ of tablets and smartphones?

____ ____ ____ conditions, ____ reduced throughput ____ tablets andphones varies.

Is ____ ____ ____ in levels ____ reduced throughput between ____ and ____?

____ ____ notice any ____ ____ ____ ____ that tablets and phones ____ reduced throughput?

Do you ____ ____ a difference ____ ____ ____ that a Tablets ____ ____ suffer ____ reduced ____?

____ ____ notice any difference between the ____ ____ which tablets and ____ ____ from ____ ____?

Reduced throughput ____ different between ____ ____ ____ ____ under the ____ conditions.

____ reduced ____ ____ seen between smart phones ____ ____?

____ you tell ____ ____ ____ is different degree of decreased ____ ____ ____ Smartphones and ____?

____ the ____ ____ ____ tablets and smartphones ____ ____ degrees ____ decreased throughput?

Will the ____ ____ difference for ____ ____ tablets happen under ____ ____ ____?

Will ____ data ____ ____ ____ ____ and phones ____ ____ under the same conditions?

Decreased ____ varies ____ smart ____ ____ tablets.

Is ____ possible that ____ and ____ ____ ____ levels ____ network ____ in similar ____?

____ ____ and tablets ____ different levels of ____ ____ ____ conditions?

Is it possible for ____ ____ ____ ____ ____ speed ____ in ____ same ____ a tablets ____?

____ ____ a ____ ____ data slowdown between ____ ____ phones ____ the same scenario?

Under the ____ ____ reduced ____ ____ between tablets and ____.

____ phones ____ tablets have ____ degrees of ____ ____.

In ____ ____ scenario, ____ smartphones and tablets ____ different ____ ____ throughput?

____ ____ possible for smartphones ____ ____ to ____ different amounts ____ ____ internet performance?

Do ____ have ____ degrees ____ reduction in ____ ____ phones?

____ ____ ____ that ____ level of ____ internet speed is ____ ____ ____ and tablets?

Do phones and ____ display different ____ ____ ____ ____?

Is ____ true ____ ____ ____ tablets ____ ____ degrees of throughput?

____ the same ____ ____ ____ ____ vary ____ smartphones and tablets?

____ ____ are similar, is ____ variation ____ reduced ____ between tablets ____ ____?

____ there a difference in performance ____ ____ ____ ____ given the ____ operational ____?

____ ____ ____ ____ same circumstances, ____ does the reduced ____ of both ____ andphones ____?

____ ____ know ____ the ____ to which tablets and ____ ____ a reduction ____ throughput ____?

Will ____ ____ ____ ____ throughput ____ the tablets and ____ phones?

____ ____ performance ____ between ____ ____ tablets ____ different under ____ same circumstances?

When ____ comes ____ reduced transmission ____ do ____ ____ differences ____ ____ between tablets ____ smartphones?

____ ____ ____ ____ ____ a difference in ____ way ____ a ____ and ____ Tablets suffer from reduced throughput?

____ there ____ the ____ ____ the reduced throughput ____ both ____ andphones ____.

When operating identically, ____ different ____ of ____ ____ access ____ ____ phones and ____?

____ ____ possible that the ____ strength ____ ____ different ____ ____ and smartphones ____ matching circumstances?

____ there a different ____ of ____ ____ ____ ____ Tablets and Smartphones?

____ ____ reduction in throughput ____ ____ tablets and ____?

____ ____ and ____ have ____ levels of ____ reduction?

Do ____ and ____ have ____ ____ of decreased ____ ____ the ____ scenarios?

Do ____ ____ phones ____ differing ____ ____ decreased throughput?

____ ____ ____ difference in ____ ____ that a ____ and ____ tablets suffer ____ reduced throughput?

Can ____ ____ be ____ between ____ ____ and tablets?

____ ____ uniform setting ____ ____ ____ ____ in ____ between phones and tablets?

Is there ____ data slowdown between ____ andSmartphones ____ is ____ ____ ____ of the ____ ____?

____ ____ are ____ ____ ____ how does reduced throughput ____ both tablets ____ differ?

____ there are ____ same ____ ____ does ____ ____ throughput of both tablets ____ ____?

Does the ____ throughput ____ tablets ____ smart ____ ____?

____ ____ ____ performance ____ between phones and tablets ____ in ____ same ____?

Will the data ____ ____ between tablets ____ ____ ____ ____ ____ same circumstances?

____ reduced ____ ____ among ____ ____ smartphones in the ____ conditions?

____ ____ think there is ____ difference ____ ____ much slowerSmartphone users and ____ ____?

____ you know ____ the ____ ____ ____ in ____ ____ between tablets and phones?

____ there be differences in ____ throughput of ____ ____ ____?

Is ____ ____ difference in the ____ of ____ ____ ____ in the ____ situations?

Do ____ ____ ____ ____ reduction in ____ ____ between tablets and phones?

____ it possible that there ____ ____ ____ of ____ throughput ____ ____ ____ and tablets?

Under the ____ circumstances, ____ variations ____ between ____ ____ ____ speeds?

____ ____ a difference in throughput of ____ ____ ____?

____ ____ data ____ difference between phones ____ ____ ____ ____ the same conditions?

Under the same circumstances, can tablets ____ ____ ____ different ____ ____ ____?

____ there ____ the same ____ does the reduced ____ ____ both tablets ____ ____ ____?

Do ____ ____ tablets ____ ____ ____ of throughput?

When conditions ____ kept constant, ____ there ____ a ____ ____ diminished bandwidth ____ ____ ____ tablets?

____ you ____ ____ the ____ ____ reduction ____ throughput is different ____ tablets ____ phones?

_____ it _____ _____ smartphones and tablets have _____ _____ of _____ throughput?

Under _____ situations _____ phones _____ _____ _____ in speed?

_____ _____ differences _____ how phones _____ tablets suffer _____ _____ throughput?

Given a _____ setting _____ we expect _____ _____ _____ between phones _____ _____?

_____ _____ and tablets _____ different _____ of _____ throughput _____ similar scenarios?

_____ the same _____ _____ does reduced _____ vary between tablets _____ _____?

_____ _____ know if the _____ _____ which tablets _____ phones _____ reduced _____ _____ between them?

_____ _____ _____ mobile _____ _____ different degrees of decreased throughput?

How _____ the reduced _____ _____ tablets _____ phones vary under _____ _____ _____?

_____ it possible that _____ _____ different levels of _____ throughput _____ _____ _____ and _____?

_____ _____ and _____ _____ _____ download speeds _____ the same conditions?

_____ it _____ for _____ phones and _____ _____ have _____ data in the _____ _____?

Under _____ same _____ how does reduced throughput _____ between _____ _____ _____?

Is _____ possible _____ _____ tablets and phones _____ _____ _____ reductions?

_____ _____ _____ that there are _____ data slowdowns _____ tablets _____ phones?

How _____ _____ _____ throughput _____ both _____ andphones _____ if the situation _____ _____ same?

If _____ are _____ _____ _____ how does the _____ throughput of _____ _____ tablets _____?

Is _____ a difference in the _____ _____ _____ and _____ when _____ _____ _____ same?

_____ _____ _____ difference _____ _____ extent to which _____ and smartphones suffer _____ _____ throughput consistently?

_____ _____ _____ that tablets and smartphones experience different _____ _____?

_____ _____ _____ _____ _____ we _____ reduced throughput between tablets and smartphones?

Do _____ and smartphones _____ _____ _____ _____ _____ throughput under the same _____?

Do tablets and phones display _____ degrees _____ _____ _____ _____ _____?

_____ phones and _____ _____ degrees of _____ _____?

_____ you believe that there is _____ difference _____ _____ much _____ tablets _____ _____?

_____ reduced _____ _____ between _____ phone and _____?

_____ the _____ _____ between phones _____ _____ different?

Do _____ and tablets have _____ _____ _____ reduced throughput _____?

_____ you see any _____ _____ the extent _____ _____ _____ and _____ _____ from reduced throughput?

smartphones _____ _____ show different _____ _____ throughput _____ _____ _____ a similar environment

_____ similar _____ _____ the _____ _____ difference between phones _____ tablets _____ different?

_____ phones and _____ have different degrees of _____ _____ _____?

_____ does _____ reduced throughput _____ both _____ _____ _____ if _____ is _____ same situation?

_____ it possible that smartphones and _____ have _____ _____ _____ _____ throughput?

Is _____ throughput _____ _____ smart _____ and _____?

Is _____ _____ _____ is different degree of _____ internet _____ _____ phones and _____?

Even if they _____ _____ _____ same _____ phones and _____ _____ down _____?

Will the _____ performance difference _____ _____ _____ phones _____ _____ _____ the same circumstances?

Can _____ state _____ there is _____ degree of _____ _____ performance _____ tablets _____ _____?

_____ your _____ of _____ internet performance _____ thatSmartphones _____ _____ show different _____ of performance _____ _____ same?

Do _____ and tablets have differing _____ _____ _____ _____ throughput?

Is there a _____ _____ how _____ _____ tablets _____ from reduced _____?

_____ conditions are _____ _____ is _____ a difference _____ diminished _____ _____ tablets _____ smartphones?

_____ _____ different _____ of reduced _____ _____ _____ _____ and smartphones in the _____ conditions?

Can tablets and phones _____ different _____ of throughput _____ _____ _____ _____?

Do _____ know _____ _____ _____ a different _____ _____ _____ internet performance _____ tablets and Smartphones?

_____ the _____ _____ _____ that differ in _____ _____ _____ a smartphones _____ _____ _____ different amounts of dropped throughput.

_____ it possible _____ a _____ to experience different speed _____ _____ _____ _____ _____ a _____ do?

Is _____ _____ that tablets and _____ display different degrees _____ _____ _____?

_____ you tell _____ _____ _____ and phones show different _____ _____ internet _____ under _____ _____ circumstances?

_____ _____ same _____ how does the throughput of both _____ _____ _____ _____?

_____ _____ _____ that _____ and _____ display differing degrees of _____ throughput?

_____ smartphone and _____ _____ different _____ of _____ throughput?

_____ _____ _____ _____ phone to experience _____ _____ reductions _____ the same _____ as a tablets?

How _____ _____ _____ throughput _____ both tablets andphones vary _____ there _____ _____ _____ circumstances?

_____ _____ _____ there is _____ _____ in _____ a smartphones or _____ _____ perform when throughput is _____?

If there _____ the _____ _____ how _____ _____ _____ of tablets _____ vary?

Do you _____ _____ _____ _____ in _____ _____ of tablets and phones when _____ _____ same?

_____ _____ throughput _____ _____ _____ phones and tablets?

Can _____ _____ _____ _____ between phones and tablets _____ _____ _____ same conditions?

Is there variation in _____ levels _____ _____ throughput _____ _____ _____ _____ phones?

_____ _____ possible _____ different levels _____ _____ throughput are observed among _____ _____ tablets?

If _____ are _____ _____ conditions, _____ reduced throughput _____ tablets andphones _____.

The same _____ _____ reduced _____ _____ _____ _____ phones and tablets?

_____ you think _____ a difference _____ how _____ tablets _____ _____?

Under the same circumstances, _____ _____ _____ reduced _____ of _____ and _____ _____?

_____ the _____ _____ difference _____ tablets and phones _____ _____ _____ same conditions?

Is _____ _____ _____ in _____ issues for smartphones and _____?

Will _____ and smartphones _____ _____ _____ _____ reduced throughput?

_____ conditions are constant, _____ there _____ difference _____ _____ amount of _____ for _____ _____ phones?

_____ _____ _____ _____ same circumstances, how does the _____ _____ _____ _____ tablets andphones change?

Do _____ think that _____ is a _____ _____ the _____ that a smartphones _____ _____ _____ _____ _____ reduced throughput?

Is _____ possible for _____ and _____ _____ _____ different _____ _____ internet _____ under the same _____?

Under _____ same _____ will the _____ _____ difference between _____ and _____ be _____?

There _____ _____ question of _____ _____ and _____ _____ different _____ of reduction in _____.

Is _____ _____ _____ and tablets _____ _____ degrees of reduced _____?

_____ tablets _____ have _____ speeds _____ _____ same situation?

Do you _____ _____ there _____ a _____ degree _____ decreased _____ performance for Tablets _____ _____?

_____ there _____ _____ _____ the performance of smartphones and _____ _____ the _____ settings?

Is there a problem _____ _____ speeds _____ _____ _____ tablets _____ _____ same situations?

_____ _____ _____ reduced _____ of both tablets and phones _____ _____ _____ same conditions

_____ similar _____ do _____ and _____ display _____ degrees _____ decreased throughput?

_____ reduced _____ of both _____ and tablets varies _____ the _____ _____.

_____ _____ and _____ are set _____ same, _____ they slow _____ in _____ ways?

_____ the data performance _____ _____ _____ and tablets _____ in the _____ _____?

_____ a uniform setting, _____ we _____ _____ in _____ between _____ _____ phones?

_____ does the _____ throughput _____ tablets _____ _____ _____ there are the same _____?

_____ tablets and phones have _____ _____ of _____ _____ throughput?

Is _____ possible that there is _____ _____ _____ _____ decreased _____ performance for _____ and _____?

_____ is the degree of _____ _____ performance under the same _____ _____ _____ _____ _____?

_____ _____ _____ difference in throughput between tablets andphones _____ _____ are _____ _____ circumstances?

_____ phones _____ tablets _____ different _____ of reduced _____ somewhere?

_____ _____ _____ scenarios, are there differences in data _____ _____ tablets _____ _____?

Is there _____ difference in the reduction of _____ _____ _____ _____ _____?

Is _____ _____ _____ _____ degrees of reduced _____?

Under _____ _____ conditions, the _____ throughput _____ both phones and _____ _____.

Do you _____ _____ _____ extent _____ which phones _____ tablets _____ from _____ throughput _____ _____ them?

Do _____ _____ _____ differences in the way _____ _____ andSmartphones _____ _____ reduced throughput?

_____ reduced _____ vary in _____ phones _____ _____?

When conditions _____ _____ _____ there variation in _____ throughput _____ _____ and _____?

_____ does the _____ throughput _____ tablets _____ _____ _____ _____ the same conditions?

_____ it _____ that _____ is different _____ of decreased _____ performance _____ phones _____ _____?

How much slower _____ the _____ come down to _____ _____ the _____ _____ _____ same _____?

_____ _____ are kept _____ is _____ a _____ in _____ _____ between _____ and smartphones?

_____ they're set the _____ can phones _____ _____ _____ _____ differently?

Do _____ and _____ have different _____ of _____ at the _____ _____?

_____ the _____ _____ do _____ _____ _____ experience different levels _____ internet performance?

Can _____ be variations _____ _____ _____ of tablets _____ smartphones?

Do _____ _____ there _____ a _____ _____ reduced throughput for a _____ and _____ _____?

_____ you _____ if _____ _____ a different degree _____ decreased internet performance _____ _____ _____ tablets?

_____ the data _____ _____ between phones _____ _____ happen _____ _____ same circumstances?

Does _____ _____ _____ _____ _____ degrees of reduction in throughput?

The reduced _____ _____ phones _____ tablets _____ _____ the _____ conditions.

Do you _____ _____ differences _____ _____ way _____ tablets and smartphones _____ reduced _____?

Is it possible that smartphones _____ _____ _____ different _____ _____ _____ performance _____ the _____ circumstances?

_____ you believe that _____ _____ a difference in the way _____ smartphones or _____ _____ suffer _____ _____ _____?

Do tablets and _____ show _____ levels of _____ _____ in _____ _____?

_____ you think that there _____ a _____ in how _____ _____ _____ and _____ _____?

_____ it _____ to _____ transmission capacity, _____ _____ exist _____ _____ the performance of _____ _____ tablets?

_____ _____ phones and tablets get _____ _____ the same _____?

_____ _____ a _____ in _____ throughput between tablets _____ phones?

Can you tell _____ _____ _____ is _____ degree _____ decreased _____ performance for smartphones _____ _____?

Under _____ _____ _____ _____ _____ and tablets have _____ levels of throughput?

Will _____ data _____ _____ between _____ and _____ happen, under _____ _____ circumstances?

If _____ same _____ _____ _____ _____ the reduced throughput of both tablets _____ _____?

Can _____ and _____ _____ _____ degrees _____ reduction in throughput?

_____ there _____ difference in speed reductions _____ _____ and _____?

Do tablets _____ _____ display _____ degrees of _____ _____?

_____ the _____ scenarios, _____ tablets and _____ display different degrees _____ _____ _____?

Is _____ _____ that _____ _____ _____ _____ of decreased internet performance _____ _____ and tablets?

In _____ _____ environments, how _____ slower does smartphones come _____ _____ _____ _____ tablets?

Under the same _____ do _____ _____ _____ display _____ levels _____ throughput?

Do _____ _____ any _____ _____ the way _____ _____ _____ smartphones _____ from reduced throughput?

_____ it possible _____ reduced _____ _____ observed _____ tablets and _____ in _____ _____ conditions?

Do you _____ whether the _____ to which tablets _____ phones _____ _____ _____ throughput _____ _____ _____?

_____ _____ _____ _____ smartphones and tablets show different _____ _____ decreased internet _____ _____ the same _____?

_____ you _____ _____ if there _____ a _____ degree of _____ internet _____ for _____ _____ Tablets?

Would _____ throughput _____ _____ _____ _____ and tablets?

How does the reduced throughput of _____ _____ _____ _____ if the _____ _____ _____ _____?

_____ you _____ me if _____ _____ different degree of decreased internet _____ for _____ _____ _____?

_____ conditions are _____ _____ _____ _____ variation in _____ between tablets andphones?

_____ there a _____ of different _____ for tablets _____ phones _____ the _____ _____?

Is _____ _____ difference _____ _____ levels between tablets _____ smartphones?

_____ you _____ that _____ is a difference in _____ _____ _____ tablets and _____ _____?

Under the _____ circumstances, _____ _____ and _____ display different _____ _____ decreased _____?

_____ _____ true that phones and tablets show _____ _____ _____ _____?

_____ _____ _____ _____ the _____ that _____ _____ or _____ tablets suffer from reduced throughput?

Is there _____ difference _____ _____ throughput between _____ and _____?

_____ a _____ _____ _____ different for _____ and tablets?

_____ it _____ that _____ and _____ experience _____ levels of _____ speed in _____ same _____?

_____ you know if there is _____ _____ _____ the _____ of tablets _____ _____?

What is the _____ in throughput _____ tablets _____ _____ _____ _____ _____ same conditions?

Do _____ and _____ _____ different levels of _____ in _____.

Do _____ notice _____ _____ the _____ _____ _____ tablets _____ _____ suffer from reduced throughput?

_____ want _____ know _____ there are _____ in _____ strength reduction when using _____ _____ tablets under _____ _____.

_____ it _____ _____ _____ _____ tablets display different degrees _____ decreased throughput?

Do _____ _____ smartphones have different levels _____ _____ _____?

Is _____ a _____ in _____ way _____ _____ smartphones or _____ tablets suffer _____ _____ throughput?

_____ _____ think _____ _____ a _____ in _____ much slower tablets _____ are?

_____ conditions are kept _____ is _____ a difference in the _____ _____ _____ _____ _____ _____ phones?

_____ data _____ between phones and _____ in _____ _____ scenario?

Do you think _____ _____ that a _____ _____ _____ suffer from _____ _____ is _____?

_____ _____ that _____ different _____ as a smartphones and _____ Tablets _____ _____ amounts _____ throughput?

_____ _____ _____ conditions, the reduced _____ of tablets _____ phones _____.

Is _____ _____ that tablets _____ _____ _____ _____ _____ speeds under the same conditions?

_____ _____ the reduced throughput of both tablets _____ _____ _____ the same _____ _____?

_____ _____ _____ _____ _____ of both _____ andphones _____ if there are the _____ circumstances? "

Do you _____ there's a _____ in _____ much _____ _____ _____ are when _____ the _____?

Will there _____ _____ levels _____ reduced throughput _____ _____ _____ and smartphones?

_____ _____ possible that different _____ _____ _____ _____ observed among tablets and _____ in _____ same conditions?

_____ there _____ _____ _____ how much slowerSmartphone _____ _____ tablets are?

Do you _____ if _____ _____ _____ varies _____ tablets _____ phones?

_____ there are the same _____ how _____ the _____ _____ _____ _____ tablets and cellphones _____?

When operating _____ _____ _____ different _____ of _____ _____ _____ by tablets and smartphones?

Is _____ _____ _____ in _____ speed of _____ and phones _____ the same _____?

Will the data _____ difference _____ _____ _____ tablets _____ under _____ same _____?

_____ tablets _____ phones display _____ degrees _____ _____ throughput _____ similar scenarios?

Does _____ _____ _____ difference between _____ and _____ happen _____ the same _____?

_____ _____ believe _____ _____ a _____ _____ how a smartphones or _____ _____ _____ with reduced throughput?

Under the _____ _____ do _____ and _____ display different _____ of _____?

Do gadgets _____ differ in _____ _____ as _____ smartphones _____ _____ Tablets display different _____ _____ _____ throughput?

_____ _____ _____ _____ _____ phones and tablets match _____ same conditions?

Is _____ a _____ between _____ _____ _____ _____ throughput for tablets and _____?

_____ phones _____ tablets exhibit different _____ _____ reduced _____?

_____ _____ _____ _____ do phones and tablets _____ _____ degrees of _____ throughput?

_____ _____ the reduced throughput _____ _____ tablets _____ differ _____ the _____ conditions exist?

_____ _____ the reduced throughput of _____ _____ and _____ differ _____ _____ same conditions?

Under _____ _____ _____ _____ the reduced _____ _____ both tablets and phones _____?

Given _____ uniform setting, can there _____ _____ _____ throughput _____ _____ _____ phones?

Can _____ state if _____ is _____ _____ of _____ _____ _____ for Smartphones and _____?

Do _____ think _____ is _____ difference _____ how much _____ _____ _____ _____ are _____ it's the same?

_____ conditions _____ _____ are _____ _____ in reduced throughput between tablets _____ _____?

_____ _____ a _____ degree of _____ performance _____ _____ _____ _____ for Tablets and Smartphones?

_____ there _____ difference in the _____ of _____ _____ tablets _____ smartphones when _____ _____ constant?

Will _____ _____ _____ difference between tablets and _____ be noted under _____ _____ _____?

When _____ _____ _____ same, is _____ any _____ in reduced _____ between _____ and _____?

Can _____ _____ _____ _____ _____ extent to which tablets and _____ both suffer _____ reduction in _____ _____?

Do you _____ _____ _____ _____ _____ which _____ _____ and _____ suffer from _____ in throughput varies?

Is it _____ that there is _____ _____ of _____ internet _____ _____ _____ and _____?

Do you know if there is _____ _____ in _____ _____ _____ phones _____ _____ _____?

_____ does _____ _____ throughput of both tablets _____ _____ _____ _____ the same circumstances

If _____ are the same conditions, _____ the reduced _____ _____ _____ _____ _____ differ?

Do phones _____ tablets _____ _____ _____ of reduced _____?

_____ _____ _____ smartphones have _____ degrees of throughput _____ the same _____?

How _____ the reduced _____ of _____ _____ andphones _____ _____ there's the same _____?

Does reduced _____ vary between _____ _____ _____ _____?

When _____ are _____ the same, is _____ variation _____ throughput _____ _____ and _____?

_____ you _____ if the amount _____ _____ _____ tablets and phones _____ from _____?

Is there a difference _____ _____ _____ _____ _____ tablets given the _____ _____?

There _____ _____ _____ of reduced throughput for _____ _____ _____ in _____ same conditions.

Do _____ think _____ is a difference in _____ _____ _____ phone and a _____ suffer _____ _____ _____?

In _____ scenarios, _____ _____ and _____ show _____ _____ of reduced throughput?

Is there _____ difference in _____ _____ _____ throughput between _____ and _____?

When _____ _____ similar, is there variation _____ _____ throughput _____ _____ and _____?

If _____ _____ the _____ _____ _____ does _____ throughput of tablets andphones _____?

Under identical circumstances, what _____ _____ _____ _____ _____ tablet speeds?

_____ _____ and phones _____ _____ degrees of decreased throughput _____ _____ same _____?

Will the _____ difference between phones _____ _____ _____ _____ the _____ conditions?

Does phones and tablets _____ _____ _____ of _____ in _____.

Will there _____ _____ in _____ performance _____ tablets _____ phones under the _____ _____?

In _____ _____ _____ how _____ slower _____ smartphones _____ down _____ to tablets?

If there are the same _____ _____ do _____ _____ throughput _____ _____ _____ andphones _____?

Do _____ _____ _____ show different degrees of _____ _____ the same _____?

Do phones _____ _____ _____ different levels of reduced throughput _____ _____ _____ _____?

Do tablets _____ phones _____ _____ _____ in the _____ scenarios?

_____ _____ a _____ _____ signal strength reduction when _____ _____ and _____ _____ matching conditions?

_____ _____ reduction _____ throughput different _____ _____ and tablets?

If there _____ _____ _____ _____ _____ does the _____ _____ of both tablets _____ look like?

_____ you _____ _____ a difference in _____ _____ _____ phones and _____ suffer _____ reduced throughput?

Do _____ _____ _____ the extent to _____ tablets and phones _____ _____ _____ in _____ varies among _____?

Do _____ _____ performance _____ between phones _____ tablets happen _____ the _____ _____?

Is it _____ that smartphones _____ _____ _____ _____ levels _____ throughput?

Is it _____ that _____ _____ different _____ of _____ internet _____ _____ _____ and Tablets?

_____ your _____ _____ _____ internet performance mean _____ and tablets _____ varying degrees of _____ performance _____ the _____

The reduced throughput _____ _____ tablets _____ _____ vary if _____ _____ the _____ circumstances.

_____ the same circumstances, dophones and tablets display _____ _____ _____ _____ _____?

Do _____ _____ _____ have different reductions _____ _____?

_____ there are the same circumstances, how does the _____ _____ _____ _____ _____ _____?

Do tablets _____ _____ have _____ speeds under _____ _____ conditions?

Under _____ _____ conditions does _____ _____ throughput _____ both tablets _____ differ?

_____ you know if _____ _____ _____ reduction _____ throughput for _____ _____ phones _____ on a _____ basis?

How _____ _____ reduced _____ of _____ tablets _____ differ _____ _____ are _____ same conditions

_____ you _____ _____ difference in the _____ in _____ tablets _____ _____ suffer from _____ throughput?

_____ you know if _____ extent _____ _____ _____ and phones experience reduced _____ _____ _____ them?

The _____ throughput of _____ _____ _____ phones _____ under the _____ circumstance.

_____ the conditions are the same, _____ there _____ in _____ _____ _____ and _____?

Do phones _____ tablets _____ _____ degrees of _____ _____?

If _____ are _____ same _____ the reduced throughput _____ _____ _____ _____ can vary.

Is _____ possible that _____ _____ different _____ _____ decreased internet performance for _____ _____ _____?

If _____ are the same circumstances, can _____ reduced _____ _____ _____ _____ _____ differ?

Do phones and ____ ____ different degrees ____ ____ ____ the ____ place?

____ there ____ ____ same circumstances, how ____ ____ reduced ____ ____ both tablets ____ phones differ?

Can ____ ____ differences ____ ____ ____ smartphones and tablets?

Do ____ ____ tablets have different ____ of ____ ____?

Do ____ ____ there's a difference in ____ speeds ____ tablets ____ ____ ____ ____ same?

How does ____ throughput ____ both tablets ____ ____ ____ ____ are the ____ circumstances?

____ ____ the ____ ____ ____ both ____ and smartphones correlate with the ____ conditions?

____ there ____ ____ between ____ degrees of ____ ____ ____ for phones and tablets?

____ you know ____ there is ____ difference ____ ____ throughput ____ ____ and tablets?

____ it comes to reduced transmission capacity, ____ there exist ____ differences ____ ____ ____ ____ smartphones ____ ____?

Is it ____ ____ a phone to ____ slower ____ compared ____ ____ ____?

Under the same circumstances ____ ____ ____ ____ difference ____ phones and ____ be ____?

____ ____ ____ circumstances, do tablets ____ display ____ degrees of ____ throughput?

____ ____ ____ ____ difference ____ the way that tablets ____ suffer ____ reduced throughput?

Do you ____ the ____ that ____ smartphones ____ ____ ____ suffer ____ throughput is ____?

____ does ____ ____ ____ ____ both tablets andphones differ ____ the ____ conditions

____ there ____ difference ____ the extent to ____ ____ ____ smartphones suffer from ____ ____?

____ ____ ____ ____ is ____ ____ in the way that ____ smartphones and a tablets suffer ____ ____ throughput?

Is ____ ____ ____ in ____ speed reductions of ____ and ____?

Do ____ ____ ____ ____ extent to which the ____ and tablets suffer ____ ____ ____ ____ varies?

____ ____ and ____ show different ____ of decreased throughput ____ the ____ ____?

What is ____ ____ ____ the throughput ____ tablets and phones ____ ____ ____ conditions?

____ reduced ____ ____ ____ tablets ____ smart phones under the ____ conditions?

____ ____ ____ ____ ____ ____ capacity given ____ settings, ____ there exist differences ____ smartphone and tablets?

How does the ____ ____ ____ both tablets and phones ____ ____ ____ ____?

____ there different degrees ____ reduction ____ ____ ____ phones ____ tablets?

____ you ____ ____ difference ____ the ____ that tablets suffer from reduced ____ compared ____ ____?

Do ____ ____ smartphones ____ ____ ____ of ____ throughput under the same ____?

Do you ____ ____ ____ ____ to which phones ____ ____ ____ from ____ in throughput varies?

There ____ the same ____ ____ ____ does ____ reduced ____ of ____ ____ andphones vary?

____ it ____ that ____ ____ ____ exhibit different levels of ____ throughput?

Is ____ ____ difference in how tablets and ____ ____ ____ ____?

Will ____ ____ differences between ____ and ____ ____ under ____ same conditions?

____ ____ are kept ____ ____ there ____ difference in ____ bandwidth ____ tablets and ____?

How does ____ throughput of ____ tablets ____ ____ ____ the ____ conditions?

Do ____ ____ ____ is a difference in ____ ____ ____ ____ or a Tablets ____ ____ reduced throughput?

____ ____ same conditions does reduced ____ ____ between tablets and ____ ____?

"How ____ the reduced ____ of both ____ ____ phones ____ ____ the same ____ ____

How ____ ____ reduced ____ of both tablets ____ vary ____ ____ same ____?

Do you ____ ____ ____ ____ a difference ____ how much slowerSmartphone ____ ____ tablets ____?

____ ____ differing ____ ____ ____ throughput observed in both tablets and ____?

____ it possible that tablets ____ ____ have different ____ ____ decreased ____?

Is it ____ ____ there ____ ____ levels of ____ throughput ____ ____ ____ and phones?

____ ____ ____ that there's a ____ in how ____ slower tablets ____ phones ____?

With ____ ____ setting, can ____ ____ ____ in throughput ____ phones and ____?

Do ____ and ____ have different degrees ____ ____ ____ ____ certain conditions?

Do ____ think that ____ is a difference ____ ____ much ____ users ____ ____ ____?

Is there ____ ____ ____ ____ speeds in ____ same ____ ____ tablets and phones?

____ ____ ____ ____ do phones and tablets ____ ____ degrees of throughput?

Do ____ know ____ the amount of reduction ____ ____ varies ____ tablets ____ ____?

_____ _____ _____ conditions, _____ does reduced throughput vary between _____ _____ tablets?

_____ you _____ there _____ _____ _____ _____ the way _____ a phone and a _____ suffer _____ reduced throughput?

Is _____ _____ that there are different _____ of _____ internet _____ for _____ _____ _____?

Do _____ and _____ _____ different degrees _____ reduced _____ _____ the same _____?

_____ you _____ there _____ a difference in _____ _____ that a phone or a _____ _____ _____ _____ throughput?

Is _____ slow _____ different for _____ tablets and _____ _____ _____ scenarios?

Under _____ _____ circumstances, do the _____ and _____ _____ different _____ of _____ throughput?

Is it possible _____ tablets and _____ have _____ _____ _____ _____ throughput?

When _____ are _____ _____ _____ there a variation in reduced _____ _____ _____ and _____?

Do _____ throughput _____ smart phones _____ _____?

Is _____ _____ difference in how _____ _____ _____ _____ _____ _____ speeds when it is _____ same?

_____ it possible that _____ _____ tablets display _____ degrees of _____ _____.

Is it possible _____ there is _____ _____ degree _____ _____ _____ performance for Smartphones _____ _____?

_____ _____ same conditions, _____ does the _____ throughput of _____ _____ vary?

_____ reduced _____ of _____ and _____ _____ under _____ same circumstances.

_____ _____ possible for _____ _____ _____ _____ have different degrees of decreased _____?

_____ it _____ that the signal _____ _____ _____ different _____ tablets and phones, under _____ _____?

_____ there _____ difference in _____ _____ _____ and phones when _____ _____ the same?

_____ _____ _____ _____ between tablets andsmart phones?

Can you _____ if _____ is different _____ _____ decreased _____ _____ on _____ _____ smartphones _____ tablets?

Do _____ _____ if _____ _____ of decline _____ throughput _____ _____ phones and tablets?

Is _____ possible _____ _____ _____ _____ _____ for the tablets _____ phones _____ similar scenarios?

When conditions _____ _____ _____ _____ there _____ _____ in _____ throughput between tablets and _____?

Do phones _____ tablets have _____ rates _____ reduction _____ _____?

_____ it _____ that phones and _____ _____ different levels of _____ _____?

_____ _____ _____ _____ is a difference in _____ _____ _____ a phone or a _____ suffer with _____ throughput?

_____ smartphones _____ _____ _____ different _____ of throughput under the _____ circumstances?

_____ _____ the reduced throughput of _____ _____ and phones _____ under _____ same _____?

Can reduced _____ _____ between _____ phones and _____ _____ the same _____?

Is it _____ _____ _____ and tablets _____ display _____ degrees _____ _____ throughput?

_____ there _____ data slowdown between Tablets _____ _____ is _____ to those _____ _____ same _____?

_____ _____ and _____ display _____ _____ of throughput?

How _____ _____ _____ throughput _____ both tablets and _____ vary, _____ _____ same conditions?

Do _____ _____ _____ have _____ changes in _____?

Do _____ _____ if _____ _____ _____ _____ the _____ and phones suffer _____ reduction in _____ varies between them?

How does _____ reduced _____ _____ _____ phones and _____?

Do the _____ _____ tablets _____ different _____ of _____ _____ _____ certain conditions?

When _____ _____ _____ reduced _____ capacity, do there exist _____ _____ _____ _____ performance of _____ and smartphones?

do phones and _____ have _____ _____ _____ _____?

_____ _____ _____ tablets have different levels _____ throughput in _____ same _____?

_____ and _____ _____ different degrees of _____ _____

_____ reduced throughput _____ _____ smart phones and _____ under _____ same _____?

What _____ _____ variation in reduced throughput _____ _____ and _____?

Is _____ _____ difference in _____ _____ of reduced throughput _____ _____ tablets and _____?

Under _____ _____ conditions how does reduced _____ _____ between _____ and _____?

_____ _____ possible _____ _____ levels _____ reduced _____ are _____ in _____ tablets and smartphones?

_____ it _____ _____ have different speed _____ _____ a phone _____ a _____?

Is it _____ that there _____ _____ _____ _____ _____ internet performance on tablets _____ _____?

smartphones _____ _____ _____ different _____ _____ throughput when subjected _____ _____ similar environment

_____ the same _____ reduces throughput _____ between tablets _____ _____.

____ there are _____ same _____ how _____ _____ reduced throughput of _____ tablets _____ _____?

_____ you know if the extent _____ _____ _____ and _____ _____ _____ _____ throughput varies?

_____ _____ _____ _____ different levels of reduced throughput are _____ _____ _____ tablets _____ phones?

Do _____ _____ that _____ _____ _____ difference in _____ _____ smartphones or _____ tablets suffer _____ reduced throughput?

_____ you know if the _____ _____ _____ _____ _____ _____ suffer _____ _____ reduction in throughput varies?

_____ _____ a _____ in _____ _____ tablets and phones when _____ are _____?

Is _____ _____ _____ _____ _____ differences in data slowdown between tablets _____ _____?

_____ it comes to reduced _____ do _____ _____ _____ differences _____ tablets and _____?

Does _____ same _____ _____ different degrees of _____ _____ phones _____ tablets?

Is it possible _____ _____ _____ varying levels of _____ _____ observed _____ _____ and _____?

_____ operating _____ are _____ different levels of _____ internet _____ _____ by smartphones _____ _____?

Do you think there is _____ difference _____ _____ _____ _____ _____ smartphones and _____ _____?

_____ _____ throughput vary _____ _____ and tablets?

Do _____ _____ tablets _____ different _____ _____ _____ internet performance _____ the same conditions?

Under _____ same circumstances, _____ _____ and tablets display different _____ _____ _____ _____?

_____ there _____ _____ _____ conditions, how does the reduced _____ _____ bothphones _____ _____ differ?

_____ _____ _____ _____ there to be variations in _____ between _____ _____ smartphones?

_____ _____ notice differences _____ the _____ that tablets andSmartphones suffer _____ _____ _____?

Can phones _____ _____ have _____ _____ of _____ throughput?

_____ _____ _____ set the same _____ _____ and phones slow _____ differently.

Is _____ possible _____ a phone _____ _____ different _____ reductions _____ _____ exact _____ _____ a tablet does?

Under the _____ _____ how _____ _____ throughput vary _____ tablets _____?

_____ _____ and tablets _____ _____ degrees of _____ throughput under certain _____?

Is there _____ _____ of different _____ _____ phones and tablets _____ the _____ _____?

_____ am wondering _____ there _____ _____ in signal _____ _____ when _____ smartphones _____ tablets _____ matching conditions.

_____ you think _____ a _____ in how _____ _____ and aSmartphone _____ from _____ _____?

_____ there variation _____ _____ observed among tablets _____ _____ in _____ same _____?

_____ _____ _____ _____ if there's different _____ of decreased internet _____ _____ _____ and tablets?

_____ _____ a _____ _____ performance _____ smartphones _____ tablets when _____ is reduced transmission capacity given _____ _____?

_____ _____ know _____ _____ amount of reduction _____ _____ for tablets _____ _____ varies between them?

Under the same circumstances, can _____ and tablets _____ _____ _____ _____ _____?

_____ _____ think _____ is _____ _____ in how _____ and tablets _____ _____ it is the _____?

Does _____ _____ _____ the _____ to _____ tablets and phones suffer from _____ _____ _____ varies between _____?

_____ _____ varies between _____ _____ and _____ under the same _____.

When _____ _____ _____ reduced transmission capacity given equal operational settings, do _____ _____ differences between _____ _____ _____ _____?

_____ there a _____ of different _____ _____ phones and _____ in the _____ _____?

_____ are _____ levels of reduced _____ observed _____ _____ and _____ in _____ same _____.

_____ there _____ _____ in _____ way _____ _____ smartphones _____ a _____ suffer from reduced throughput?

_____ _____ same _____ do _____ _____ tablets _____ different degrees _____ decreased throughput?

_____ _____ _____ tablets have _____ degree of _____ in throughput?

_____ you think _____ is _____ _____ in how _____ _____ _____ a tablets _____ _____ reduced throughput?

The reduced _____ of both _____ andphones would _____ _____ _____ were _____ _____ circumstances.

_____ there different _____ _____ reduced throughput _____ _____ tablets _____ phones in _____ _____ conditions?

_____ there any _____ _____ _____ reductions for tablets and _____?

Do _____ _____ there _____ a _____ in _____ _____ _____ and tablets experience _____ speeds?

_____ _____ _____ _____ _____ and tablets experience different levels of network _____ _____ _____ same situation?

_____ _____ _____ throughput vary _____ tablets and _____ phones?

How _____ _____ reduced _____ of both _____ andphones _____ if there _____ _____ _____ situation?

_____ there different _____ _____ reduced throughput observed _____ _____ _____ smartphones?

Can phones _____ _____ slow _____ differently _____ they're _____ the _____.

Is there _____ _____ between the performance _____ smartphones and _____ _____ _____ _____?

_____ you _____ the _____ to which _____ _____ _____ throughput for tablets _____ phones _____?

_____ _____ notice _____ differences _____ _____ way _____ _____ and tablets suffer from _____ throughput?

Can _____ expect to see _____ in _____ _____ _____ _____ smartphones?

Is device speed _____ _____ _____ and tablets _____ similar _____?

_____ the same conditions, do _____ _____ _____ _____ different amounts of _____ _____?

_____ phones _____ _____ have different degrees _____ _____ _____ _____ the same area?

Can _____ _____ _____ slow down differently if _____ _____ exact _____?

Is the reduction _____ _____ different _____ _____ _____ phones?

Do _____ and smartphones _____ different _____ _____?

Is _____ a difference in _____ amount of bandwidth _____ _____ and _____ when _____ _____ _____?

_____ _____ notice differences in _____ _____ _____ which tablets _____ smartphones suffer from reduced _____ _____?

_____ there variation in reduced _____ _____ tablets _____ _____?

Is _____ a difference _____ _____ _____ _____ between _____ and tablets?

_____ a _____ setting, can we expect diminished _____ between _____ _____ _____?

_____ _____ _____ tablets have different _____ of _____ under _____ conditions?

How _____ _____ same conditions _____ reduced _____ on _____ and _____?

Do _____ _____ _____ there is _____ _____ in how much _____ tablets _____ users _____?

_____ _____ _____ setting _____ _____ _____ variations _____ throughput between tablets and phones?

_____ _____ and tablets _____ different degrees _____ _____ under the same _____?

_____ you know if the _____ _____ _____ in throughput _____ for tablets _____ _____?

Does the _____ _____ vary between tablets _____ _____ _____?

_____ _____ same _____ _____ how _____ _____ reduced throughput of both tablets andphones _____?

Does reduced throughput _____ _____ _____ phones _____ tablets under _____ _____?

Are phones _____ _____ different _____ _____ reduced throughput in _____ same _____?

How does _____ _____ _____ of _____ _____ andphones change _____ there _____ the _____ conditions?

_____ _____ are _____ same, is _____ variation _____ throughput between _____ and _____?

_____ you _____ _____ the level _____ _____ in _____ varies between tablets _____ phones?

_____ _____ _____ there's _____ difference in _____ _____ slower phones _____ tablets are _____ it's _____ same?

Will tablets _____ _____ slow down _____ _____ _____ are set the _____?

_____ you think there's _____ _____ _____ _____ throughput _____ a _____ _____ on a Tablets?

Is _____ _____ _____ experience _____ speed reductions _____ a phone _____ a _____?

_____ phones _____ _____ have different _____ of _____ reductions?

Is the degree _____ _____ in throughput _____ _____ _____ _____ tablets?

_____ phones _____ _____ different in the amount _____ _____ _____ throughput?

_____ _____ possible that the _____ _____ reduction _____ _____ for tablets _____ phones _____ matching conditions?

Do tablets _____ _____ show different _____ of _____ _____?

_____ conditions _____ kept constant, _____ _____ _____ difference in reduced bandwidth _____ phones _____ _____?

In the _____ environments, _____ slow _____ the _____ come _____ to _____ _____ to the _____?

_____ _____ are the same, _____ there _____ in _____ _____ throughput between _____ _____ smartphones?

Can _____ and tablets have different _____ _____ _____ _____?

_____ there be _____ difference in throughput _____ _____ and _____?

Do _____ _____ there's a _____ in _____ much _____ users and _____ _____?

_____ _____ data performance _____ between tablets _____ phones happen under _____ _____?

Do _____ notice _____ difference in the _____ _____ _____ and tablets suffer _____ _____ _____?

How _____ the _____ _____ of both tablets _____ compare _____ _____ same _____?

_____ _____ the _____ of phones and _____ _____ under the same _____?

If there _____ _____ _____ conditions, _____ reduced throughput of both _____ _____ _____.

Is _____ possible _____ there _____ differing _____ of _____ throughput _____ _____ tablets and _____?

_____ tablets _____ phones _____ different _____ of _____ in _____ same scenarios?

____ ____ ____ ____ in ____ speed for tablets and phones ____ ____ same scenarios?

Do ____ and tablets have ____ throughputs ____ ____ ____?

____ the data performance difference between ____ ____ tablets ____ different ____ ____ ____ situation?

____ there different ____ of ____ throughput ____ among tablets ____ ____?

____ ____ tell me if ____ extent ____ which ____ ____ phones suffer ____ ____ in ____ varies?

____ you believe there ____ a ____ in how much ____ ____ ____ phones ____?

How does ____ reduced ____ ____ bothphones and ____ vary ____ ____ ____ the ____ conditions?

____ ____ possible ____ smartphones and tablets ____ ____ different ____ of decreased ____?

How ____ ____ reduced throughput of ____ ____ ____ tablets vary?

In ____ ____ do tablets and smartphones ____ different ____ ____ ____?

Do ____ think ____ way that ____ smartphones or ____ ____ ____ with ____ throughput ____?

Does phones and ____ have ____ ____ ____ reduced throughput in ____ ____ ____?

____ the phones ____ ____ have ____ levels of reduction ____ ____?

____ ____ throughput ____ between smart phones ____ ____?

____ ____ true that ____ ____ tablets have ____ levels of ____?

Under ____ ____ ____ how does ____ throughput ____ ____ phones and tablets?

Is it possible ____ ____ phone ____ experience different speed ____ ____ ____ ____ manner ____ ____ tablet?

____ vs ____ have ____ ____ of reduced ____.

Is it ____ that ____ are ____ levels ____ reduced ____ observed between ____ ____ ____?

When ____ are ____ ____ ____ variation in ____ between tablets ____ smartphones?

____ ____ are the ____ ____ there variation ____ throughput ____ tablets and ____?

Does ____ throughput ____ from ____ phones ____ ____?

____ ____ know ____ the extent ____ which ____ and ____ have reduction ____ ____ ____ between them?

Does reduced ____ ____ according ____ smart ____ ____ tablets?

Will the ____ performance difference ____ ____ ____ ____ ____ under ____ same circumstances?

____ ____ think ____ ____ ____ that a smartphones or a Tablets suffer ____ ____ throughput ____ ____?

If ____ are ____ ____ ____ the reduced throughput of both ____ andphones ____ ____.

____ ____ ____ reduced ____ ____ both tablets ____ phonesvary under ____ same conditions?

Will ____ difference in data ____ ____ ____ and tablets ____ under the ____ ____?

In similar ____ ____ phones and ____ show ____ ____ of ____ throughput?

____ you ____ if the ____ ____ ____ tablets ____ ____ both ____ from reduction in throughput ____?

Do ____ and tablets have ____ degrees ____ ____ throughput ____ the ____ ____?

Is ____ ____ for ____ ____ and phones ____ get ____ ____ the same conditions?

Do you know whether the ____ ____ which ____ ____ ____ suffer ____ reduced ____ ____?

Is ____ ____ difference ____ the ____ of ____ ____ between ____ and smartphones?

Do ____ ____ ____ ____ a difference ____ ____ way that a ____ or a tablets suffer from ____ ____?

Will the data ____ ____ between phones and ____ ____ within ____ ____ ____?

____ ____ ____ ____ ____ ____ there differences in throughput between tablets ____ phones?

____ tablets have different ____ ____ ____ throughput in ____ same ____?

How does ____ ____ throughput of both ____ ____ ____ under certain ____?

____ ____ ____ ____ ____ throughput between tablets and smartphones ____ conditions are the ____?

Do you ____ there ____ ____ difference ____ the way ____ phone ____ ____ ____ suffer with reduced ____?

____ ____ the reduced throughput ____ both ____ andphones vary under ____ ____ conditions? ____

Are ____ ____ ____ reduced ____ observed for tablets ____ phones ____ the same ____?

If ____ are the ____ conditions, ____ ____ the reduced throughput ____ ____ ____ ____ differ?

Do you ____ that the way ____ ____ or ____ tablets ____ ____ reduced ____ is ____?

____ phones ____ ____ ____ levels of reductions in throughput?

____ the ____ performance ____ between the phones and ____ ____ under ____ same ____?

Do ____ think that ____ ____ ____ ____ ____ how much ____ ____ and tablets experience?

____ conditions ____ ____ is there a ____ in diminished ____ ____ tablets ____?

Can you tell _____ if _____ _____ a different degree _____ _____ _____ _____ for _____ _____ phones?

Do _____ _____ a _____ in _____ _____ that tablets _____ smartphones suffer from _____ _____?

_____ _____ data performance _____ between phones and _____ _____ different under _____ same _____?

_____ _____ know _____ the amount _____ _____ _____ throughput _____ between _____ phones and tablets?

_____ _____ think _____ way _____ which _____ _____ or a tablets suffer _____ _____ throughput _____ different?

_____ there _____ the _____ conditions _____ _____ the reduced throughput of both _____ and _____ _____?

Do _____ _____ if _____ a _____ _____ reduced throughput for _____ _____ phones?

Is _____ _____ _____ _____ _____ speed for _____ _____ phones in the same situation?

Do phones and tablets _____ _____ _____ _____ of reduction _____ _____?

Is _____ _____ at _____ _____ _____ slow down different _____ smartphones _____ tablets _____ the same _____?

_____ _____ are the _____ _____ there a variation _____ _____ between tablets and _____?

Do _____ _____ if the amount _____ reduction _____ _____ varies for _____ and _____?

When conditions _____ constant, _____ _____ a difference _____ _____ _____ between phones and _____?

_____ it _____ _____ _____ _____ _____ to have _____ levels of reduced throughput?

If there are _____ same conditions, _____ does _____ _____ _____ _____ both Tablets _____ _____?

Is it _____ thatSmartphones _____ tablets show _____ _____ of _____ _____ _____ the same?

_____ _____ possible that _____ and tablets have different _____ of _____ _____ _____ the same _____?

_____ it _____ _____ there are _____ levels _____ reduced throughput _____ _____ tablets and _____?

Do _____ _____ _____ the extent to which _____ and phones suffer _____ _____ _____ _____?

Does _____ and phones slow _____ _____ _____ they're the _____?

_____ _____ data _____ difference between _____ _____ _____ be different, under similar _____?

How _____ the _____ _____ of phones and _____ vary _____ _____ _____ conditions?

_____ _____ know _____ the extent to which _____ _____ _____ have _____ reduction _____ throughput varies?

_____ _____ _____ tablets exhibit _____ _____ of reduced _____ under certain circumstances?

Do _____ and _____ _____ different degrees of _____ _____ throughput?

When conditions are _____ _____ _____ there _____ difference in _____ _____ _____ tablets and _____?

There are the same _____ _____ does _____ _____ throughput of _____ tablets _____ _____?

When conditions _____ the same, _____ _____ _____ _____ throughput _____ _____ and phones?

Does _____ _____ throughput vary _____ the smart phones _____ _____?

If there _____ the _____ _____ _____ does _____ _____ _____ of _____ the tablets andphones differ?

_____ the _____ circumstances do _____ _____ _____ _____ different degrees of throughput?

Is _____ _____ for _____ _____ to experience different _____ reductions _____ the _____ way _____ a tablets _____?

How does the _____ _____ of _____ _____ _____ vary _____ there are the _____ _____?

_____ tablets and _____ _____ different degrees of _____ throughput _____ similar _____?

How _____ the reduced throughput _____ _____ _____ _____ _____ differ if _____ are _____ same circumstances?

Under _____ _____ conditions, _____ _____ the reduced _____ of both _____ _____ phones change?

When _____ _____ _____ _____ there a _____ _____ _____ bandwidth between smartphones and tablets.

Will _____ be _____ _____ performance _____ tablets and phones _____ _____ _____ circumstance?

Is _____ _____ different _____ _____ and smart _____?

How does reduced _____ _____ both _____ _____ change under _____ same _____?

_____ phones and Tablets _____ different _____ _____ reduced _____?

_____ _____ _____ _____ tablets and smartphones _____ different degrees _____ internet _____ _____ similar circumstances?

Do _____ _____ smartphones _____ _____ degrees of decreased _____?

Under the same conditions, will the _____ _____ difference _____ _____ _____ _____ _____?

_____ _____ think there _____ a difference _____ a reduced _____ _____ _____ _____ and _____ reduced throughput for a _____?

_____ _____ _____ difference in speed reductions for _____ _____ phones?

Will _____ _____ _____ between phones and _____ _____ noted under _____ _____ conditions?

Under the _____ circumstances _____ _____ _____ _____ display different _____ of _____ throughput?

_____ there are _____ same circumstances, _____ _____ reduced throughput _____ both _____ andphones _____?

_____ _____ possible _____ the _____ strength reduction _____ different _____ tablets and smartphones in _____ _____?

____ ____ ____ there is ____ difference in the way a ____ and ____ tablets suffer ____ ____ ____?

____ it ____ for ____ and ____ to show ____ levels of ____?

____ there ____ ____ in ____ ____ slowerSmartphone users and tablets are ____ it is ____ ____?

Under the same ____ ____ ____ ____ smartphones have ____ download ____?

____ phones and ____ have ____ degrees of ____ ____

____ ____ and phones have different ____ of ____ ____ in ____ ____ location?

____ ____ throughput vary between smart ____ and tablets ____ the ____ ____?

Does ____ ____ ____ ____ ____ tablets ____ ____ vary under the same conditions?

Do phones ____ ____ have ____ ____ of throughput ____?

Is ____ ____ for ____ ____ to ____ ____ speed reductions in ____ ____ a tablets?

____ ____ variation in levels of ____ ____ observed among tablets ____ ____?

Do smartphones and ____ have different ____ ____ ____ ____ in ____ scenarios?

Under ____ same conditions, ____ does reduced ____ ____ among phones ____ ____?

Do you believe ____ ____ difference in ____ much ____ the phones ____ ____ ____?

____ it ____ ____ state ____ there is different degree ____ decreased ____ performance ____ tablets ____ ____?

Is the ____ ____ ____ ____ between phones ____ tablets?

____ ____ state if there is different degree of decreased internet ____ ____ ____ ____ ____ ____ ____?

Is there ____ ____ in data slow ____ ____ ____ ____ and tablets in ____ same ____?

____ ____ think ____ ____ difference in ____ way that a ____ and ____ tablets suffer with ____ ____?

Do you ____ ____ is a difference ____ the way ____ ____ ____ aSmartphones suffer ____ ____ ____?

____ it possible ____ tablets and ____ to slow ____ ____ ____ ____ set the ____?

Do ____ think ____ the ____ ____ which a ____ ____ a tablets suffer ____ ____ ____ is different?

Given a uniform ____ ____ ____ expect ____ ____ throughput ____ tablets ____ smartphones?

____ tablets and phones ____ ____ levels of ____ throughput ____ the ____ ____?

How ____ reduced ____ ____ both ____ and phones vary under ____ ____ ____?

____ reduced ____ ____ ____ smartphones and tablets?

Is ____ possible ____ a ____ ____ experience ____ speed reductions compared ____ a ____?

____ ____ ____ ____ ____ smart phones and tablets?

Will ____ ____ ____ between ____ ____ tablets ____ under the same conditions?

Is there ____ ____ ____ throughput of phones ____ tablets ____ ____ conditions are ____ ____?

If ____ are the same conditions ____ ____ ____ how ____ ____ reduced ____ vary?

____ does ____ ____ of both ____ ____ phones change under the ____ ____?

Do ____ know if ____ ____ to which tablets and ____ ____ from reduction ____ ____ varies ____ ____ ____ basis.

____ similar circumstances ____ the ____ performance ____ between ____ and ____ differ?

Is it possible that ____ ____ ____ ____ ____ decreased ____ performance ____ tablets ____ smartphones?

____ you say if there ____ different ____ of decreased ____ ____ ____ ____ and ____?

Will the ____ ____ difference ____ ____ and ____ be noted under ____ same ____?

Is there a ____ ____ ____ ____ a ____ ____ a tablets suffer with reduced ____ ____?

____ ____ ____ ____ difference ____ the amount of throughput that smartphones ____ ____ ____ from?

____ you think there is ____ ____ in ____ ____ slower tablets and phones ____ ____ ____ ____ same?

Is it ____ ____ ____ levels ____ reduced ____ ____ observed on ____ ____ and smartphones?

Do ____ notice any differences in ____ amount ____ ____ tablets ____ ____ ____ from ____ throughput?

____ it ____ ____ ____ matching conditions the ____ strength reduction is ____ ____ ____ and smartphones?

When conditions ____ ____ is there ____ ____ reduced throughput ____ ____ andSmartphones?

____ there ____ levels of reduced ____ observed ____ ____ ____ and smartphones?

Will the ____ performance differences ____ phones and ____ be ____ ____ ____ same ____?

____ ____ notice any ____ in the way ____ which tablets ____ ____ suffer ____ ____ throughput?

When conditions are ____ ____ there a ____ ____ ____ amount ____ ____ between ____ and smartphones?

____ ____ the ____ throughput of ____ tablets and ____ correlate ____ the ____ circumstances?

____ you notice any ____ ____ the ____ to which tablets ____ phones ____ ____ ____ ____ consistently?

Do you believe ____ ____ a ____ ____ how muchSmartphone users and ____ ____ ____ ____?

Do you believe ____ ____ ____ ____ ____ how much ____ tablets and phones experience when ____ is ____ ____?

Is ____ ____ for phones ____ ____ ____ experience different ____ reductions?

____ ____ ____ the way ____ a ____ or a ____ suffer ____ ____ throughput is different?

____ you ____ ____ a difference ____ the ____ a ____ or a ____ suffer ____ reduced ____?

Will ____ ____ ____ difference ____ ____ ____ tablets happen under the ____ conditions?

____ you notice any difference ____ ____ amount ____ reduced ____ that ____ and ____ suffer ____?

Do phones and tablets ____ different levels ____ ____ ____ ____ ____?

When conditions ____ constant, ____ ____ ____ difference in diminished bandwidth ____ ____ and ____?

Under ____ same ____ ____ tablets and smartphones have ____ ____ ____ throughput?

____ you ____ there's a ____ in how much ____ and ____ ____ ____ speeds?

Reduced ____ varies among ____ ____ ____ tablets under the ____ ____.

____ there ____ ____ same situations, how ____ the reduced ____ of ____ tablets ____ ____?

____ ____ ____ same, ____ ____ think there is ____ difference in how ____ and tablets ____?

____ tablets ____ smartphones ____ ____ levels ____ reduced throughput?

What is the ____ ____ throughput ____ tablets andphones ____ there ____ the ____ ____?

____ ____ and tablets have different ____ ____ throughput in ____ ____ place?

How ____ the reduced throughput of ____ andphones vary if ____ ____ ____ ____ ____?

____ you think there ____ a different ____ ____ ____ ____ or a tablets ____ reduced ____?

____ ____ ____ difference between tablets and phones ____ under the ____ ____?

____ ____ throughput varies between ____ phones and tablets ____ ____ same ____?

The ____ environments, how much ____ ____ the phone come down ____ ____ ____ ____ ____?

____ ____ scenarios do tablets and ____ ____ different levels ____ ____?

Will ____ ____ performance ____ ____ ____ and tablets be ____ under the same ____?

Do ____ know ____ ____ reduction ____ throughput ____ ____ and phones ____ between them?

Under ____ ____ circumstances, do ____ ____ smartphones have different ____ ____ throughput?

Is it ____ for tablets ____ ____ to show ____ ____ ____ decreased internet ____?

____ ____ and tablets experience different ____ ____ ____ transfer speed?

There ____ ____ ____ circumstances and how ____ the ____ ____ of ____ tablets andphones ____?

____ the same ____ ____ much ____ ____ a ____ come ____ to compared ____ a tablet?

____ ____ ____ reduced ____ ____ ____ tablets andphones differ if there ____ the same ____?

____ ____ ____ smartphones ____ different degrees of decreased ____ in ____ ____ scenario?

____ phones and ____ exhibit different degrees ____ ____ ____?

____ ____ ____ reduced throughput of both tablets andphones differ ____ ____ ____ ____?

____ ____ a different degree ____ decreased internet performance under ____ ____ ____ ____ tablets ____ smartphones?

Is ____ ____ difference ____ ____ under certain conditions for ____ ____ tablets?

____ ____ throughput vary between ____ ____ and ____ when the ____ conditions are ____?

Is it possible ____ ____ ____ and phones ____ have ____ ____ in the ____ ____?

Can my ____ and phones have ____ ____ despite ____ ____ ____?

____ ____ ____ problem ____ different speeds in the same situations ____ tablets ____ ____?

____ there a ____ slowdown between tablets ____ that ____ ____ to ____ ____ the same ____?

Do ____ ____ ____ ____ different ____ of decreased throughput ____ similar scenarios?

How does ____ ____ in throughput ____ both ____ and ____ ____?

Do ____ ____ ____ have ____ ____ in throughput?

____ ____ possible to see ____ ____ of ____ throughput ____ tablets and ____?

____ the ____ circumstances, ____ smartphones ____ ____ display different degrees of ____ ____?

____ there is ____ ____ ____ how does the ____ throughput ____ both tablets ____ ____?

Is it ____ ____ tablets and phones ____ ____ down ____ if they're ____ ____ ____ same?

Can ____ ____ if ____ ____ ____ degree ____ decreased ____ ____ for Tablets and Smartphones?

____ ____ ____ the same, ____ there variation ____ ____ throughput between tablets ____ cellphones?

____ ____ notice differences in the extent ____ which tablets ____ phones ____ ____ ____?

What ____ ____ ____ throughput of ____ and phones look like under ____ ____ ____?

Do ____ ____ ____ ____ a ____ ____ ____ way that a ____ and phones suffer from reduced ____?

____ there any ____ ____ the levels of ____ ____ ____ ____ tablets and phones?

____ ____ any difference ____ the levels of reduced ____ ____ tablets ____ ____?

If ____ are the ____ conditions, ____ does ____ reduced throughput ____ ____ andphones ____?

I ____ to know if phones and ____ ____ ____ degrees ____ ____ in ____.

____ ____ ____ variations ____ throughput ____ tablets andsmartphones?

____ it ____ ____ phones and ____ ____ different ____ of reduction in ____?

____ the ____ ____ ____ tablets and smartphones ____ different degrees ____ decreased ____?

If there ____ the same ____ the ____ throughput ____ both tablets ____ ____ ____.

Is it ____ that ____ signal ____ reduction is ____ ____ ____ ____ ____ under matching conditions?

Do ____ ____ ____ is a difference ____ how ____ ____ ____ tablets ____ when it's ____ same?

____ you ____ there's ____ ____ in ____ ____ ____ tablets ____ when it's the same?

Does the ____ throughput ____ between ____ ____ ____ phones?

When ____ are kept ____ ____ there ____ difference in ____ between ____ and ____?

Can you ____ ____ if ____ amount of ____ ____ throughput varies ____ ____ and ____?

Do phones ____ tablets ____ different ____ levels under ____ ____ ____?

Under ____ ____ conditions, ____ ____ ____ differ ____ phones and tablets?

____ ____ is ____ same conditions, ____ does ____ reduced throughput of ____ tablets ____ ____ vary?

____ there ____ differences ____ throughput between tablets ____ ____?

Is ____ possible for ____ ____ ____ ____ ____ different ____ of ____ speed in similar circumstances?

____ ____ ____ the same circumstances, how ____ the ____ throughput between ____ andphones ____?

Is it possible that ____ ____ different data ____ ____ ____ and ____?

Is there ____ ____ ____ ____ ____ levels of tablets and ____?

Is ____ possible that ____ and ____ show ____ levels ____ ____?

Is it possible to expect ____ ____ ____ ____ ____ ____ smartphones?

Is there ____ problem of ____ speeds for ____ ____ ____ in ____ ____ situation?

____ does ____ reduced throughput of ____ ____ andphones ____ ____ ____ ____ the same conditions?

Is it ____ ____ tablets and phones ____ ____ ____ ____ internet performance ____ the same ____?

____ there a difference ____ the bandwidth ____ phones ____ ____ when ____ ____ are ____?

____ ____ ____ reduced throughput of ____ and phones ____ ____ the ____ conditions?

____ gadgets ____ differ in ____ ____ as a smartphones vs ____ ____ different amounts of dropped ____ ____ ____ same ____

Is ____ variation ____ ____ ____ of tablets and phones ____ ____ ____ conditions?

Do ____ ____ there's ____ difference in ____ ____ smartphones or ____ tablets perform ____ reduced ____?

How ____ the throughput ____ both tablets ____ phones differ ____ ____ ____ ____?

____ it ____ that ____ ____ tablets experience ____ amounts ____ reduced ____ performance?

Do ____ ____ if the extent to ____ ____ ____ phones experience ____ ____ ____ varies?

Is it possible ____ ____ differences in ____ ____ ____ and ____?

____ phones ____ tablets ____ different degrees ____ ____ throughput in ____ ____ scenario?

Do you ____ ____ the extent ____ ____ phones and tablets ____ from ____ ____ ____ between ____?

____ there ____ ____ in throughput between ____ and tablets ____ a ____ ____?

Do ____ notice any difference ____ the amount ____ ____ ____ ____ ____ suffer ____ reduced throughput?

How does ____ reduced ____ of phones ____ ____ vary ____ ____ ____ circumstances?

____ phones and ____ ____ different degrees of ____ throughput ____ ____ ____ scenarios?

Is ____ a ____ in the ____ ____ ____ smartphones or a tablets ____ with ____ ____?

If there ____ the same ____ ____ does ____ ____ throughput ____ both Tablets ____ ____?

In ____ same ____ do ____ ____ ____ show different ____ ____ reduced throughput?

____ ____ the reduced throughput of ____ ____ andphones ____ if there are ____ ____ ____?

If there are the ____ conditions, ____ ____ ____ reduced ____ ____ both tablets ____ ____?

_____ does the _____ _____ _____ _____ tablets and _____ _____ to the same conditions?

_____ conditions are _____ constant, is _____ a _____ _____ bandwidth between _____ _____ smartphones?

_____ _____ _____ difference in _____ reduced _____ of _____ andphones under the same _____?

How _____ the reduced throughput _____ _____ tablets _____ _____ _____ under the _____ conditions.

Do _____ know _____ the _____ _____ _____ phones and tablets _____ _____ reduction _____ throughput varies?

Is _____ _____ difference between _____ _____ of _____ throughput observed among _____ _____ phones?

_____ _____ notice _____ _____ in _____ way in which smartphones and _____ _____ from _____ throughput?

Do _____ believe that there is a _____ _____ how _____ _____ _____ _____ users _____?

Is _____ a difference in _____ _____ _____ tablets and _____?

_____ does the _____ of tablets andphones _____ if there _____ _____ _____ _____?

Is it _____ _____ tablets _____ smartphones _____ different _____ _____ decreased internet _____?

Will _____ performance difference between tablets _____ phones happen _____ _____ _____ _____?

_____ gadgets such as _____ and _____ have _____ _____ _____ lowered data flow _____?

What is the difference _____ reduced _____ _____ tablets _____ _____ _____ same _____?

_____ reduced throughput _____ between smart _____ _____ _____?

_____ _____ _____ performance difference between _____ _____ _____ different _____ the same circumstance?

If there are the same _____ _____ does _____ _____ throughput _____ both _____ _____ _____?

_____ _____ _____ conditions, how _____ _____ throughput change between tablets _____ phones?

_____ _____ _____ _____ throughput of _____ tablets andphones vary if there are _____ _____ _____?

_____ you know _____ _____ extent to which _____ and phones _____ _____ throughput _____?

Do phones _____ _____ _____ different _____ of _____ decline?

If they're _____ _____ exact _____ _____ tablets _____ phones _____ down differently?

When conditions _____ _____ same, is _____ a _____ _____ reduced throughput _____ phones _____ _____?

_____ _____ and tablets have _____ _____ of throughput _____?

Do gadgets that different _____ appearance _____ as _____ _____ vs tablets _____ different _____ _____ _____ _____?

_____ _____ possible _____ _____ _____ _____ _____ different speed reductions than a tablet?

_____ we _____ a difference _____ _____ between tablets and _____?

_____ you see any differences _____ _____ _____ to _____ _____ and _____ suffer from _____ throughput?

_____ it _____ _____ different _____ _____ reduced _____ observed _____ tablets and _____ in _____ same conditions?

_____ much _____ does a _____ _____ down _____ compared _____ the tablets _____ the _____ environment?

_____ there _____ variation in data _____ down _____ the phones _____ _____ _____ _____ scenarios?

_____ _____ _____ _____ have different _____ of decreased throughput?

Is _____ slow down _____ for _____ phones _____ _____ _____ the _____ scenario?

_____ _____ are the _____ _____ _____ _____ _____ reduced _____ of both tablets andphones differ.

_____ and _____ display different _____ of _____ _____

Will the data performance _____ _____ phones _____ tablets _____ _____ _____ _____ circumstances?

Do _____ _____ _____ differ _____ _____ degree of reduced throughput?

Do tablets _____ smartphones show _____ degrees _____ decreased _____ _____ _____ scenarios?
