[Demo] NLP Dataset for Customer Service Automation

Company Type	E-commerce Marketplaces
Inquiry Category	Customer feedback and reviews submissions
Inquiry Sub-Category	Review authenticity concerns
Description	Addressing customer concerns regarding the authenticity of reviews, investigating any suspicious patterns or activities, and taking necessary measures to ensure genuine and reliable feedback on the platform.
Data Size	5,070 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "E-commerce Marketplace" customer inquiry. (Purchased data will not be masked.)

____ ____ algorithm ____ ____ spot ____ within multiple accounts giving identical ____ ____ on ____ products/services?

Is ____ a way ____ spot anomalies among accounts ____ ____ ____ ____?

Is automated software able ____ spot ____ ____ ____ ____ ____ and ____ ____ goods or services?

Does the system ____ it if ____ ____ ____ accounts that give ____ ____ positive ____ ____ reviews for ____ ____ item?

Do ____ ____ ____ ____ ____ identifies ____ ____ when multiple accounts give ____ on goods?

____ you have an ____ ____ ____ for fake positive/ ____ feedback ____ different ____?

____ the ____ ____ ____ ____ multiple users have accounts ____ ____ the same positive ____ negative ____?

____ ____ possible ____ ____ discrepancies in multiple accounts that ____ the ____ ____ feedback ____ specific ____?

Do you use ____ ____ ____ ____ when there are ____ ____ positives ____ ____ on a ____?

You have ____ system ____ sniffs ____ ____ ____ who praise/criticism for ____ ____?

Is there ____ way ____ ____ ____ activity if ____ of accounts ____ identical ____ ____ the ____ product ____ service?

____ a ____ of people leave ____ ____ or ____ ____ about ____ ____ or service, ____ an algorithm figure ____ what's ____ on?

Do ____ use ____ software that identifies a ____ ____ several accounts ____ feedback ____ ____ same ____ or ____?

Is ____ ____ ____ to flag ____ activity if lots ____ accounts give ____ ____ for ____ ____ product, ____ or company?

Is it ____ ____ spot ____ ____ multiple ____ with the ____ ____ ____ on the same ____?

Is ____ a ____ to ____ ____ ____ ____ a ____ of accounts give ____ reviews ____ different products?

Is there ____ ____ ____ place ____ ____ when users have ____ ____ feedback ____ their items?

____ ____ automated ____ detect anomalies ____ accounts for consistent ____ negative ____?

____ it ____ ____ ____ ____ across multiple accounts that show ____ ____ ____ negative responses for ____ products?

Is it ____ ____ detect inconsistencies ____ ____ accounts providing ____ ____ ____ negative feedback on ____ ____?

Is the system ____ to catch ____ ____ ____ users have ____ ____ ____ identical ____?

____ there a way ____ find fake activity if ____ ____ ____ ____ give ____ ____ ____ ____ the ____ and services ____ are referring to?

____ there ____ ____ that checks ____ fake ____ and ____ feedback on ____ accounts?

Is ____ a ____ ____ ____ ____ ____ identify patterns when ____ accounts give ____ ____ goods or services?

Is ____ a way ____ detect fake ____ ____ many accounts give ____ same ____ ____ ____ same product, service ____ ____?

____ ____ ____ catch it ____ multiple ____ ____ ____ reviews for the same item?

Is ____ possible to ____ ____ among various accounts ____ the same positive or ____ ____ ____ ____ ____?

____ ____ system catch it ____ multiple ____ ____ ____ that give ____ reviews for ____ same ____?

Is _____ a way to _____ _____ _____ accounts _____ _____ _____ and negative reviews?

_____ _____ have an _____ that _____ for _____ _____ and negative feedback on _____ _____?

Does an automated system _____ _____ _____ accounts _____ _____ positive _____ _____ feedback?

Does _____ automated system detect anomalies _____ accounts _____ positive _____ _____ _____?

Is _____ _____ way _____ detect fake activity _____ _____ of _____ _____ the same reviews _____ the same product _____ _____?

Do you use _____ _____ _____ that _____ a pattern _____ _____ accounts give _____ _____ certain goods _____ services?

_____ _____ _____ system that catchesIrregularity _____ _____ leave the _____ feedback about their _____?

_____ _____ possible _____ _____ irregular feedback _____ using _____ algorithm that _____ similar _____ of _____ items?

_____ _____ a way _____ _____ anomalies when various _____ give _____ and negative _____ _____ specific _____?

Do you _____ _____ _____ that can _____ a particular pattern where _____ accounts give _____ _____ _____ _____ goods or _____?

Is it _____ to _____ anomalies _____ _____ accounts _____ show _____ _____ to _____ products?

_____ _____ use specialized software that identifies _____ particular pattern where _____ accounts _____ _____ _____ the _____ _____ or _____?

Can an _____ _____ _____ anomalies in _____ sharing _____ _____ products?

Does _____ _____ _____ discrepancies between different account _____ praise _____ _____ _____ certain goods or _____?

_____ it _____ _____ detect _____ _____ _____ accounts give the _____ positive and _____ ratings?

_____ an automated system detect _____ _____ positive _____ negative feedback _____ _____?

_____ the system catch _____ _____ a _____ _____ _____ are giving _____ _____ feedback about _____ same thing?

Are you using _____ _____ designed to _____ _____ pattern _____ _____ _____ give _____ on certain goods _____ services?

Is _____ _____ to _____ inconsistencies _____ various _____ _____ identical positive/ _____ feedback on _____ products?

_____ there a way to detect _____ _____ _____ _____ accounts give _____ same _____ for _____ same _____ and _____?

Do _____ _____ _____ to _____ _____ _____ pattern _____ _____ accounts _____ feedback to the same goods or services?

Is _____ automated process able to identify _____ in _____ _____ sharing _____ _____ _____ and _____?

Is there a _____ _____ _____ _____ behavior if users give the _____ _____ _____ _____ same _____?

Is the _____ _____ to catch it if multiple _____ _____ _____ _____ for _____ _____ items?

Is _____ a way _____ _____ discrepancies _____ accounts using _____ same _____ _____ _____ reviews?

Is _____ _____ way _____ _____ _____ activity if many _____ give _____ reviews for _____ same product or _____?

Is _____ a way to spot _____ _____ accounts _____ the _____ positive _____ _____ _____?

_____ an _____ system _____ anomalies in accounts for _____ _____ _____ feedback?

Is the _____ _____ _____ identify _____ when multiple accounts give _____ _____ _____ goods or _____?

Is _____ possible to _____ anomalies across multiple _____ _____ show positive _____ _____ responses _____ _____ _____?

Does _____ program _____ any _____ _____ in _____ that _____ the _____ things _____ a product or _____?

_____ _____ _____ _____ _____ anomalies in accounts that give _____ feedback about _____ _____ services?

_____ it _____ to _____ anomalies when _____ accounts give _____ same positive _____ _____ ratings _____ a specific _____?

Do _____ use _____ software to identify a specific _____ _____ _____ accounts give _____ _____ the _____ _____ _____ services?

Is there a _____ to _____ fake _____ if _____ lot _____ _____ give _____ _____ for _____ _____ _____ service or company?

_____ _____ use a _____ designed to identify _____ _____ when _____ _____ _____ feedback on _____ goods or services?

Is _____ program that spots _____ in multiple _____ _____ the _____ _____ _____ _____ services?

Is it possible _____ _____ _____ in _____ _____ _____ the same positive/ negative _____ _____ the same _____?

_____ it _____ to _____ _____ _____ multiple _____ give the _____ _____ ratings _____ the same thing?

Is _____ _____ way _____ identify _____ when different accounts give _____ and negative reviews _____ _____ _____ product _____ _____?

When multiple _____ _____ _____ _____ _____ _____ or services are _____ using a system that _____ _____ pattern?

Is the technology _____ _____ _____ _____ _____ multiple _____ _____ _____ same ratings for the same _____?

When a _____ _____ _____ _____ matching positive or _____ _____ _____ a _____ _____ _____ service, can an algorithm spot the _____?

_____ _____ a _____ to _____ accounts using _____ same _____ reviews?

Is it possible to _____ abnormality _____ various _____ give positive/ negative _____ _____ _____ _____ _____ or _____?

_____ _____ possible _____ _____ irregular _____ patterns using an _____ _____ finds _____ reviews _____ certain items?

_____ _____ _____ way _____ spot discrepancies between _____ using _____ positive/negative reviews?

_____ _____ _____ _____ identify abnormality when _____ accounts give _____ or _____ reviews _____ the same _____ or service?

_____ _____ _____ able _____ catch it _____ multiple users _____ the _____ accounts and give _____ same _____?

Is _____ a way _____ find fake activity if _____ _____ accounts provide _____ same _____ _____ _____ same _____?

Is _____ _____ _____ to find fake _____ _____ _____ _____ the same product or _____ reviews?

Can _____ _____ _____ variations in user accounts _____ _____ the _____ sentiment analysis for _____ _____ _____?

_____ _____ a way _____ identify _____ _____ _____ accounts _____ the same positive/ negative feedback on the _____ product _____ _____?

Is _____ _____ able to identify discrepancies between _____ holders' praise _____ _____ _____ _____ and _____?

Is there _____ way _____ _____ anomalies _____ _____ _____ identical positive/ negative _____?

When a _____ _____ people leave matching positive or negative responses _____ _____ _____ _____ service, _____ _____ algorithm _____ _____ _____ happened?

_____ there _____ software _____ to identify _____ _____ _____ _____ give _____ about goods or services?

Are you using _____ _____ to catch fake accounts _____ bad _____ _____ _____ _____ _____?

Does _____ system _____ it _____ multiple users _____ _____ same _____ _____ the same _____?

_____ it _____ _____ _____ _____ _____ _____ multiple accounts generating similar positive/negative evaluations _____ _____ products?

_____ _____ possible that _____ _____ can _____ instances where _____ bunch of accounts are giving _____ _____ _____ criticism?

_____ there _____ way to _____ _____ in _____ accounts with _____ _____ positive/negative feedback?

Do you _____ any _____ software _____ _____ _____ a _____ pattern _____ several _____ give feedback _____ the _____ goods _____ services?

_____ there a way _____ _____ discrepancies _____ identical positive and _____ _____ _____ _____ offerings?

_____ the _____ _____ it if _____ _____ give _____ reviews _____ the same item?

Is _____ possible _____ detect _____ among various _____ giving the _____ _____ feedback _____ specific _____ _____?

Is _____ possible _____ _____ anomalies _____ multiple _____ _____ similar positive _____ negative _____ of _____ same _____ or services?

Is there a program _____ _____ _____ _____ _____ feedback on _____ accounts?

_____ it _____ to _____ anomalies _____ _____ _____ give the same ratings _____ the _____ item or _____?

_____ there _____ way to _____ anomalies when multiple accounts _____ _____ same positive/negative _____ for _____ _____ _____?

_____ a _____ _____ to uncover _____ _____ _____ _____ deliver similar sentiment _____ of targeted offerings?

_____ there a method _____ _____ discrepancies _____ _____ using _____ positive and negative _____?

Is the _____ able to _____ it if _____ _____ _____ similar _____ _____ the same _____?

_____ _____ _____ process identify anomalies _____ _____ accounts _____ _____ feedback about products _____ services?

Is _____ _____ to identify _____ _____ multiple accounts sharing consistent _____ _____ _____ and _____?

_____ _____ a system that can catch instances _____ a _____ of _____ give _____ _____ praise _____ _____?

Is _____ system able _____ _____ _____ if multiple _____ _____ identical _____ and negative _____ of the same _____?

_____ _____ use _____ algorithm to spot _____ _____ giving the _____ review _____ _____ same item?

Can the system catch _____ _____ a _____ _____ _____ _____ giving the _____ _____ _____ criticism to specific items?

_____ you _____ software _____ identify a _____ pattern where several _____ give _____ to _____ _____ goods _____ services?

_____ there a _____ to _____ activity if _____ of accounts _____ similar _____ _____ _____ _____ product or service?

Is a _____ that notices _____ _____ _____ _____ giving _____ same feedback?

_____ _____ _____ _____ _____ anomalies when _____ _____ give the same _____ _____ negative ratings to specific items?

_____ a lot _____ _____ leave _____ positive or negative _____ _____ a product _____ service, is it possible _____ _____ algorithm to _____ _____ _____?

Do you have _____ _____ _____ looks for _____ _____ or _____ feedback _____ _____ accounts?

_____ an algorithm _____ _____ spot anomalies _____ _____ _____ giving the _____ positive or _____ feedback?

_____ _____ use a system _____ to identify _____ when multiple _____ give feedback _____ _____ _____ _____?

_____ _____ a _____ _____ _____ when users show similar behavior by _____ the same _____ about _____ _____?

Is _____ _____ way _____ _____ discrepancies among _____ accounts that give _____ _____?

Is a _____ _____ _____ for _____ when users _____ _____ same feedback _____ the _____ items?

_____ there a system _____ _____ that will _____ catch _____ _____ when _____ leave the _____ _____ about specific _____?

_____ the _____ designed _____ identify _____ _____ when _____ accounts _____ feedback on goods _____ services?

Is there a _____ _____ _____ anomalies _____ multiple accounts _____ _____ positive/ _____ feedback _____ the same _____ _____ services?

_____ there _____ way to _____ anomalies _____ _____ _____ give the same ratings _____ the _____ _____?

_____ it _____ _____ detect _____ _____ _____ accounts give _____ _____ positive or negative ratings _____ a specific item _____ service?

_____ it _____ to find irregular _____ patterns _____ an algorithm _____ _____ similar reviews _____ _____ _____?

_____ there a way _____ spot anomalies _____ _____ _____ that show _____ and _____ responses for _____ _____?

Does this program _____ _____ _____ _____ _____ give _____ negative feedback to _____?

Is _____ possible to _____ _____ _____ _____ accounts give positive and negative _____ of _____ _____ or _____?

Is it _____ for _____ _____ to detect irregularity _____ _____ _____ the _____ _____ _____ the same items?

When _____ accounts _____ _____ _____ certain goods or _____ is your _____ _____ _____ identify a _____?

Is _____ a way _____ spot discrepancies _____ _____ accounts _____ give _____ same _____ _____ negative feedback _____ _____ products?

_____ _____ _____ _____ detect _____ if _____ accounts _____ the same positive _____ negative ratings _____ specific items?

Is _____ _____ way to _____ fake activity _____ _____ lot of accounts _____ _____ same review _____ a _____ or _____?

_____ _____ automated process _____ anomalies _____ multiple accounts giving _____ same _____?

_____ _____ system catch instances where a bunch of _____ are _____ _____ _____ praise _____ _____ about _____ _____ thing?

_____ there a _____ _____ find fake _____ if a lot of _____ _____ _____ _____ review for the _____ _____?

_____ _____ a _____ for _____ detection of _____ among accounts _____ _____ product/service evaluations?

Do _____ use a system _____ identify _____ _____ _____ _____ accounts give _____ on _____ or _____?

Is _____ a _____ _____ _____ fake activity if many _____ _____ _____ same _____ _____ different products?

Does this _____ _____ _____ _____ _____ that provide positive _____ negative feedback _____ products?

_____ _____ _____ way to spot anomalies _____ _____ accounts _____ give the _____ positive _____ _____ feedback?

Is _____ _____ _____ _____ system _____ catch it if multiple users _____ identical reviews for _____ _____ _____?

Is _____ _____ _____ _____ anomalies in multiple accounts _____ the _____ _____ feedback _____ different products?

_____ _____ system _____ _____ _____ a bunch of accounts are giving _____ _____ review about _____ specific _____?

Do _____ _____ _____ that _____ _____ fake positive or negative _____ on different _____?

Do you _____ _____ system _____ to identify _____ pattern _____ multiple accounts _____ _____ on some _____ or _____?

Is _____ _____ that checks _____ problems in _____ _____ _____ the same _____?

Is the _____ _____ _____ catching _____ _____ _____ users have accounts _____ give identical _____?

_____ _____ _____ way to _____ _____ _____ multiple _____ giving homogeneous product/service evaluations?

Do _____ use _____ _____ _____ _____ _____ pattern when multiple accounts give feedback _____ goods _____ _____?

_____ _____ system catch instances where a bunch _____ accounts are giving _____ _____ criticism _____ _____ _____ _____?

Does _____ system _____ _____ if _____ users _____ _____ same positive/negative reviews?

_____ automated _____ recognize discrepancies _____ account _____ praise and _____ of _____ _____ services?

Is _____ a way _____ _____ _____ activity _____ lots of accounts give the _____ _____ _____ _____ specific product?

Is _____ a _____ in place _____ catchingIrregularity _____ users _____ _____ _____ feedback _____ the same _____?

When _____ lot of users _____ matching _____ or _____ feedback about _____ _____ or _____ _____ an _____ spot _____?

Is _____ possible _____ software _____ _____ weird _____ within accounts of _____ _____ services?

Is it _____ to _____ inconsistencies among various _____ giving _____ _____ _____ feedback on _____ _____?

Is _____ _____ system used _____ _____ discrepancies within multiple accounts _____ the _____ positive _____ _____ _____?

_____ _____ possible to detect _____ _____ _____ accounts generating the _____ _____ negative _____ _____ specific products?

Is it possible _____ _____ _____ between _____ _____ identical _____ reviews?

_____ there a _____ _____ find _____ activity _____ _____ of _____ provide similar reviews for _____ _____ item or _____?

Is a program that checks _____ _____ _____ multiple _____ _____ _____ _____ feedback?

When _____ _____ _____ people leave matching positive _____ _____ _____ about a product _____ _____ can _____ _____ tell if it's _____ problem?

_____ _____ program _____ _____ among accounts _____ give _____ or negative _____ _____ products or services?

Is _____ _____ _____ _____ problems _____ multiple accounts _____ the same feedback to _____ _____?

_____ a _____ that _____ for problems _____ multiple _____ giving _____ _____ feedback to different _____?

Is there a _____ _____ _____ to _____ _____ behavior when _____ _____ the _____ feedback about _____ items?

_____ _____ _____ _____ feedback on _____ _____ or _____ are you using a system that _____ _____ pattern?

_____ you use any _____ to _____ anomalies _____ _____ _____ post _____ _____ and _____ feedback _____ the same product or _____?

_____ _____ have a _____ to _____ _____ pattern when _____ _____ give feedback on _____ _____ or services?

Is _____ a way _____ spot _____ _____ show positive/ negative _____ for _____ _____?

If _____ lot _____ _____ leave _____ _____ or _____ _____ about a product or _____ can _____ _____ _____ out what's happening?

_____ _____ _____ technology _____ find anomalies _____ accounts _____ _____ the same positives _____ _____ on a product _____ service?

_____ there a way _____ discover _____ activity _____ lots of accounts give _____ _____ _____ _____ product?

Is there _____ _____ to _____ fake _____ if a lot _____ _____ give the _____ product, service _____ _____ _____?

Is there a _____ to discover _____ activity _____ _____ _____ _____ _____ the same _____ _____ service reviews?

_____ multiple accounts give feedback _____ _____ _____ _____ _____ do you use _____ system designed _____ _____ the pattern?

Is _____ system _____ _____ _____ it if multiple users _____ accounts that _____ _____ _____ _____ specific items?

_____ it _____ to identify anomalies _____ multiple accounts _____ similar positive _____ _____ _____ _____ the same _____?

Is _____ program that _____ _____ in _____ accounts _____ the _____ feedback _____ _____ services?

Is _____ a way _____ catchIrregularities _____ users leave _____ _____ _____ about certain _____?

Is _____ _____ for automated _____ _____ _____ variations in user accounts and _____ the _____ _____ analysis _____ items and _____?

Are _____ _____ _____ check for _____ positive or negative _____ _____ _____ accounts _____ certain products?

When a _____ _____ _____ _____ matching positive or _____ _____ _____ a _____ or service, _____ an algorithm figure out _____ there _____ _____?

Does _____ system catch it _____ _____ users give _____ _____ _____ _____ the same _____?

Is _____ a _____ to spot discrepancies _____ _____ using _____ _____ positive/negative _____.

Do you _____ a program _____ _____ discrepancies _____ _____ accounts _____ _____ _____ same positive/negative feedback?

Does _____ software _____ discrepancies _____ _____ _____ praise/criticism of goods or _____?

_____ _____ _____ _____ identify anomalies when _____ _____ give _____ and negative _____ of _____ specific product?

_____ _____ software identify a _____ _____ where _____ accounts give _____ to the _____ goods _____ _____?

Is _____ _____ _____ _____ issues in _____ accounts giving the _____ _____ to different _____?

Is a program _____ _____ _____ _____ _____ accounts _____ the _____ feedback _____ different services?

_____ the system _____ _____ if multiple users _____ _____ _____ _____ same _____ _____ the same item?

Is _____ system able _____ catch it _____ multiple users _____ _____ same _____ _____ negative _____?

Does _____ _____ _____ any _____ patterns _____ accounts that all _____ the _____ things _____ _____ products?

_____ _____ a way _____ find _____ _____ if lots _____ accounts review _____ same _____ or _____?

Is there a _____ to spot _____ among _____ _____ _____ _____ positive _____ _____ reviews.

Is _____ _____ _____ to _____ when _____ give the _____ feedback about _____ same _____?

Is it _____ _____ _____ anomalies when _____ accounts give _____ _____ of _____ same product _____ _____?

Is _____ possible to detect _____ _____ _____ _____ similar ratings for _____ items?

_____ you _____ a method _____ _____ _____ _____ multiple _____ post the same _____ or _____ feedback?

_____ it _____ _____ a _____ to _____ _____ when users leave the _____ _____ _____ the same items?

Does this program find _____ _____ _____ in accounts that _____ _____ _____ _____ things _____ products _____ services?

Is _____ _____ way to _____ fake _____ if lots of _____ _____ similar _____ _____ the same _____ service _____ company?

_____ you use _____ _____ find _____ _____ _____ _____ the same positives and _____ on a product _____ service?

Is _____ _____ able to detect _____ in _____ _____ feedback on _____?

Is _____ possible _____ _____ discrepancies within multiple _____ _____ the _____ positive/negative feedback _____ _____ products?

Is _____ automated _____ used to _____ anomalies _____ _____ _____ _____ the _____ positive or negative _____?

Does the system catch _____ if _____ _____ _____ accounts _____ _____ _____ same _____ _____ negative reviews?

Is _____ a way to _____ _____ in _____ _____ reviews _____ specific products _____ _____?

When a _____ _____ users respond _____ a product or _____ with _____ _____ negative feedback, _____ _____ algorithm figure _____ _____ gone _____?

Is _____ _____ system _____ _____ _____ behavior _____ _____ give the same feedback about the _____ _____?

_____ there _____ _____ to _____ discrepancies _____ _____ using the identical _____ reviews?

_____ you have _____ system _____ _____ fake _____ _____ _____ on different accounts?

_____ _____ _____ _____ track _____ feedback _____ using an _____ that finds similar reviews _____ _____ items?

Is _____ system _____ _____ catch it _____ multiple users _____ the _____ _____ reviews for _____ same _____?

Do _____ use a _____ designed to identify _____ when _____ _____ _____ _____ on certain _____ _____ services?

Does _____ _____ notice _____ between account holders' _____ of _____ goods _____ _____?

_____ it possible for a system to _____ the irregular behavior _____ _____ _____ _____ _____ _____ same feedback _____ the _____?

Do _____ _____ a _____ software designed _____ identify a _____ _____ where several accounts give _____ _____ the _____ goods _____ _____?

_____ _____ _____ catch it if there are _____ _____ _____ give _____ _____ and negative reviews?

_____ _____ _____ a system _____ to _____ pattern _____ _____ accounts _____ feedback _____ certain goods and services?

Is _____ _____ to _____ _____ among accounts by _____ _____ same positive _____ negative _____?

Is there _____ system _____ _____ _____ fake _____ or _____ feedback _____ different accounts?

Is _____ _____ way _____ identify anomalies when _____ _____ post similar positive and negative _____ of the _____ _____ _____ _____?

Does _____ software recognize discrepancies between _____ _____ _____ _____ _____ goods _____ services?

Is _____ _____ to spot _____ _____ multiple accounts with _____ _____ _____ and negative _____ on _____?

____ ____ ____ algorithm that ____ ____ fake ____ feedback on different accounts?

____ ____ program that ____ ____ in ____ accounts giving feedback to ____ ____?

Is ____ ____ ____ identify abnormality ____ various accounts ____ positive or ____ ____ ____ ____ product or service?

____ the system ____ ____ ____ ____ accounts ____ feedback on ____ same thing?

When ____ lot ____ users leave ____ ____ ____ negative ____ ____ a ____ or service, can an ____ figure out ____ going ____?

____ there ____ ____ ____ detect discrepancies among ____ providing homogeneous ____ evaluations?

How do ____ detect when multiple user accounts ____ ____ ____ positive ____ ____ ____ ____ ____ product or service?

____ ____ automated process ____ anomalies in ____ that give feedback ____ ____?

Is ____ ____ for ____ processes ____ identify ____ ____ user ____ and ____ ____ same sentiment ____ for items and services?

Is ____ ____ ____ spot ____ ____ ____ accounts that show positive ____ negative responses for certain ____ and ____?

____ automated ____ capable of ____ ____ between account holders' praise and ____ ____ ____ ____ services?

____ ____ ____ to ____ discrepancies using the ____ positive and negative reviews ____ ____ ____?

____ you ____ to check ____ fake ____ ____ ____ on different ____ ____ certain products?

Is automated software ____ ____ discrepancies between account ____ who ____ ____ ____ goods ____ ____?

Is ____ a ____ to ____ anomalies in multiple account's ____ ____ specific ____ ____ ____?

Are there ____ ____ ____ can detect ____ ____ ____ accounts ____ the ____ positive or ____ ratings?

Is ____ possible ____ ____ irregular feedback patterns ____ using an algorithm ____ ____ similar reviews ____ ____ ____?

____ it possible to detect ____ among ____ accounts ____ the ____ ____ ____ feedback on ____ ____?

Is ____ possible to detect ____ when multiple ____ give ____ same positive ____ ____ ____ ____ ____ same thing?

Is a ____ ____ ____ ____ anomalies when ____ ____ give ____ same ____ and negative ratings?

Is there a way to detect ____ activity ____ ____ ____ of ____ ____ the ____ ____ ____ a ____ or service?

Do ____ ____ a system ____ ____ designed to ____ ____ pattern when multiple ____ ____ feedback on ____ or ____?

Does the ____ ____ ____ giving identical ____ ____ the ____ item?

____ there a way to ____ ____ ____ if ____ ____ give the ____ reviews for the ____ ____ services?

Is ____ ____ for the ____ to ____ ____ ____ a ____ of accounts ____ giving the ____ ____ or criticism?

____ ____ automated process find ____ ____ ____ sharing feedback on ____?

____ ____ use any technology to ____ anomalies when multiple ____ post the ____ ____ and negatives ____ ____ ____?

Do ____ ____ ____ ____ that helps you ____ a ____ pattern ____ several ____ ____ ____ to the same goods or ____?

Can the ____ catch ____ where a bunch ____ ____ are giving ____ ____ ____ ____ the same ____?

When a ____ ____ ____ leave ____ ____ ____ responses ____ a product ____ service, can an ____ figure out ____ gone ____?

____ there a ____ to detect anomalies across ____ for ____ positive ____ negative ____ ____ ____?

Is there ____ way to ____ ____ ____ ____ ____ ____ same ____ or negative reviews?

____ there ____ way ____ detect discrepancies ____ multiple accounts ____ product/service ____?

Is ____ ____ way to spot discrepancies ____ accounts ____ identical ____ ____ ____ reviews?

____ you using ____ system that will identify ____ pattern ____ ____ ____ give feedback ____ ____ or ____?

Is ____ a way ____ spot ____ ____ ____ using similar positive/ ____ ____?

____ the ____ able ____ catch instances ____ a bunch of ____ ____ ____ same ____ ____ criticism?

____ there a ____ ____ spot ____ ____ multiple ____ that show ____ and ____ responses to ____?

____ ____ an ____ that checks ____ ____ positive and negative feedback ____ ____ accounts?

Is ____ ____ way ____ spot ____ within ____ accounts ____ give the ____ positive/negative feedback ____ ____ products?

____ there a ____ ____ spot ____ in multiple account ____ ____ ____ products ____ services?

Is there ____ ____ to spot ____ in ____ ____ ____ give ____ ____ positive/negative ____ on products and services?

____ ____ ____ ____ to detect fake ____ if ____ ____ accounts give the ____ review ____ an ____ or service?

Is it possible ____ detect discrepancies between ____ accounts generating ____ ____ ____ evaluations ____ ____ ____ ____?

____ ____ algorithm able to identify ____ when ____ ____ give similar ____?

____ ____ any way ____ identify anomalies ____ ____ accounts post similar positive/ negative ____ on ____ ____ ____ ____ service?

____ you ____ specialized ____ ____ to identify ____ particular pattern ____ several accounts give feedback ____ the ____ goods ____ ____?

____ ____ ____ ____ ____ discrepancies ____ accounts using ____ same ____ negative reviews for specific offerings?

Can ____ system ____ ____ where a bunch of accounts ____ giving ____ same ____ ____ the ____ ____?

____ ____ ____ to detect ____ ____ multiple accounts give ____ ____ and ____ ratings for ____ items?

Is _____ a _____ to detectIrregularity when _____ _____ the same _____ about _____ _____?

Is _____ _____ _____ find _____ feedback _____ by _____ _____ algorithm _____ finds _____ reviews for certain items?

Is _____ _____ _____ _____ _____ discrepancies among accounts _____ _____ same positive/ negative reviews?

Is there _____ _____ _____ _____ fake activity if lots _____ accounts give the _____ _____ for the products _____ _____ you _____ _____ _____?

Are you _____ _____ system that identifies _____ _____ when _____ accounts give _____ on _____ _____?

Is _____ possible to _____ discrepancies using _____ _____ _____ reviews _____ specific _____?

_____ _____ _____ _____ to _____ fake _____ if _____ of accounts give the _____ product reviews?

_____ _____ have _____ algorithm that _____ for _____ positive _____ _____ different accounts?

_____ there a _____ to discover fake _____ _____ _____ _____ accounts _____ _____ reviews for the _____ product?

_____ automated _____ _____ variations _____ user _____ _____ _____ the same sentiment _____ _____ different items and services?

How do _____ _____ _____ when _____ accounts post similar _____ _____ _____ on the same _____ or service?

Is there a way _____ find fake _____ if _____ _____ _____ _____ _____ identical reviews for _____ _____ products?

Is there _____ way _____ spot _____ _____ _____ _____ _____ _____ the same positive _____ _____ feedback on specific products?

_____ _____ using a _____ designed _____ identify a pattern when multiple _____ _____ feedback on certain _____ _____ _____?

Does this program _____ discrepancies _____ accounts _____ _____ _____ _____ _____ feedback on products and _____?

_____ _____ _____ of _____ leave _____ positive _____ negative _____ about a _____ or service, _____ an algorithm figure _____ _____ going on?

_____ there _____ _____ _____ _____ _____ activity _____ a lot of accounts give the same review for _____ same _____ _____ _____?

Is there a way _____ _____ anomalies when multiple _____ _____ _____ positive and negative _____ of _____ _____ _____?

_____ a program _____ spots problems _____ _____ accounts giving the same _____ _____ _____ _____?

_____ _____ _____ _____ _____ match positive or negative responses to a _____ _____ service, _____ an _____ tell _____ it _____ a problem?

Is _____ _____ way to identify anomalies _____ multiple _____ _____ _____ same positive _____ negative feedback for _____ _____ _____ or _____?

Can an automated process _____ _____ _____ _____ _____ sharing _____ _____ products and services?

_____ it _____ to _____ _____ activity _____ lots _____ _____ _____ identical reviews for the _____ product, _____ or company?

Is it _____ _____ _____ system to catch _____ _____ behavior _____ users when _____ leave the _____ feedback about _____ _____?

Is _____ a way _____ _____ _____ reviews for _____ same _____ _____ services?

_____ _____ program that looks _____ _____ _____ multiple _____ giving _____ same feedback for different _____?

_____ a lot _____ _____ _____ _____ _____ negative responses to a product or _____ can _____ algorithm figure _____ what's _____?

_____ _____ use a _____ _____ _____ pattern _____ multiple _____ give _____ on certain goods or _____?

Does _____ _____ _____ _____ in accounts _____ positive _____ negative feedback _____ products?

_____ an _____ _____ identify anomalies _____ multiple _____ sharing the _____ products _____ services?

Is there a _____ in _____ to _____ _____ _____ have _____ _____ feedback about _____ items?

Are _____ _____ _____ detect _____ among various accounts _____ _____ the same _____ or _____ feedback _____ products/ services?

Is a _____ _____ to _____ _____ within accounts _____ _____ _____ _____ analysis of targeted offerings?

How _____ _____ _____ when _____ user accounts give the _____ _____ or negative _____ of the _____ _____?

Can _____ processes identify _____ in user accounts _____ _____ _____ _____ analysis for items _____ _____?

Do _____ use _____ program to _____ inconsistencies _____ various _____ _____ give the _____ positive/negative _____?

_____ _____ a way _____ _____ _____ activity _____ _____ accounts give _____ _____ product or service review?

Is _____ program _____ _____ problems in _____ accounts giving _____ _____ feedback _____ specific _____?

Is _____ a way to spot _____ using _____ _____ _____ _____ for different _____?

Is there a _____ to find weird patterns _____ _____ _____ all _____ the _____ _____ about _____ _____?

Is there a _____ _____ spot fake _____ if lots _____ _____ _____ the _____ review _____ the same _____?

_____ a program that spots problems _____ _____ _____ _____ _____ same feedback?

_____ _____ system designed to _____ _____ pattern _____ multiple _____ give feedback _____ certain _____ and _____?

Do _____ _____ software _____ identify a _____ _____ where several accounts _____ feedback to _____ _____ goods and _____?

Are you _____ a system _____ _____ _____ _____ _____ multiple accounts give feedback _____ _____ or _____?

_____ the system catch _____ where _____ _____ of accounts are giving _____ same _____ _____ criticism _____ _____ _____ item?

Do you _____ _____ to _____ anomalies _____ _____ accounts _____ _____ positives and negatives on _____ _____ or service?

Do you _____ specialized software designed _____ _____ _____ _____ _____ several accounts give feedback _____ _____ same goods _____ _____?

Is _____ _____ _____ to discover _____ activity if lots _____ accounts _____ the _____ reviews for the _____ product, _____ _____ _____?

Does the use of _____ _____ _____ _____ on _____ and _____ _____ other accounts?

Is ____ ____ ____ ____ for catchingIrregularity ____ users leave ____ same feedback about ____ ____?

Does ____ ____ detect discrepancies ____ account holders' ____ ____ criticism ____ goods or ____?

Can ____ automated process ____ ____ ____ ____ accounts sharing feedback ____ ____ and services?

Is there a way ____ ____ ____ ____ multiple ____ ____ give the same positive or ____ ____ on ____?

____ an ____ ____ ____ ____ spot ____ in multiple ____ ____ ____ the same positive or negative feedback?

____ ____ utilizing a system ____ ____ ____ pattern ____ multiple ____ give feedback on ____ ____ services?

Does ____ system ____ ____ ____ ____ are multiple ____ with ____ that give the same ____?

____ automated ____ ____ to recognize discrepancies ____ ____ ____ praise ____ criticism for specific goods ____ ____?

Can an automated ____ ____ anomalies in ____ accounts ____ ____ ____?

Is ____ ____ ____ to find fake activity if many accounts ____ ____ ____ ____ ____ products and ____?

Does the ____ of ____ ____ ____ opinions ____ certain goods ____ ____ ____ different accounts?

____ ____ ____ ____ it if ____ users give identical reviews ____ ____ items?

____ ____ ____ way to find out ____ lots ____ ____ give identical reviews for ____ same ____ ____ service?

Do ____ use technology to find anomalies when multiple ____ ____ ____ ____ ____ ____ negatives ____ a ____ or ____?

____ ____ ____ use ____ ____ ____ detect ____ ____ different accounts that ____ the same positive/ negative ____?

Can ____ automated process find anomalies ____ ____ ____ sharing ____ same feedback ____ ____?

____ ____ a ____ ____ ____ discrepancies ____ multiple accounts with ____ same positive and ____ feedback?

Is there ____ method to ____ anomalies when ____ ____ post ____ ____ ____ negative ____?

____ it ____ to see ____ in ____ ____ and ____ the same ____ to different ____?

____ ____ system catch it if multiple users ____ the ____ ____ ____ ____ the ____ item?

Does the ____ ____ ____ ____ ____ detect ____ when multiple ____ give the same ____ negative ____?

Is there ____ ____ to ____ ____ ____ multiple ____ post ____ ____ negative feedback on ____ same products ____ services?

Is there ____ ____ ____ discover fake ____ if ____ lot of accounts give ____ ____ ____ the same ____?

When a ____ of users ____ ____ ____ or ____ ____ to a ____ ____ ____ can ____ ____ figure ____ if there are problems?

Is there ____ way ____ ____ fake activity ____ many ____ ____ ____ ____ review for ____ same products and ____?

Is ____ program ____ ____ ____ in ____ accounts giving the ____ feedback?

Do ____ ____ technology ____ find ____ on a ____ ____ service that ____ the ____ positives ____ negatives ____ it?

Is there ____ ____ to spot ____ ____ accounts that ____ the ____ positive ____ negative feedback ____ ____ products?

Do you ____ ____ ____ that checks ____ ____ positive or ____ ____ on ____ accounts?

Does ____ ____ catch ____ ____ ____ ____ give ____ reviews for the same item?

Is there ____ way ____ identify ____ when different ____ give positive ____ negative ____ of ____ product ____ ____?

____ a program ____ identifies ____ ____ multiple ____ giving the same ____ ____ ____ ____ and services?

Is it possible to ____ inconsistencies among ____ ____ ____ ____ ____ same positive/ ____ feedback ____ different ____?

____ it ____ for a ____ to detect anomalies when multiple accounts give ____ ____ ____ ____ ____ ____?

Does ____ computer program catch ____ ____ similar reviews for ____ ____ ____?

____ there ____ ____ to find ____ activity ____ lots of accounts ____ the ____ ____ for the same ____ ____ service?

Does this program detect ____ between ____ giving ____ and negative ____ ____ ____ product ____ ____?

Do ____ ____ ____ algorithm ____ ____ out if ____ ____ have similar ____ for the ____ item?

____ your software identify ____ ____ pattern ____ several accounts ____ ____ to ____ same goods ____ ____?

A fancy ____ that ____ ____ ____ ____ ____ praise/criticism for specific ____ is what you ____?

Does this ____ ____ discrepancies between ____ that ____ ____ and ____ ____ to products and ____?

____ your system ____ ____ ____ pattern ____ ____ accounts give ____ on goods or ____?

Is ____ program that sees ____ in ____ ____ giving ____ same ____ to ____ ____?

____ ____ an automated system ____ checks for ____ ____ ____ negative feedback on ____ ____?

Is ____ ____ ____ detect inconsistencies ____ various accounts providing the ____ ____ ____ ____ specific ____ services?

Are ____ using a ____ designed to ____ ____ when ____ ____ give feedback on ____ ____ ____?

Do ____ use ____ software to identify a ____ pattern where ____ accounts ____ ____ ____ ____ ____ goods or ____?

____ ____ a way to find fake ____ ____ a ____ ____ accounts give identical reviews for ____ ____ and ____ you ____ ____ ____?

Is it possible ____ ____ ____ ____ ____ accounts providing identical positive/negative ____ ____ specific ____?

Is ____ ____ ____ ____ place for catchingIrregularity when users ____ ____ same feedback ____ their ____?

_____ it _____ to detect _____ _____ across _____ accounts for _____ _____ product or _____?

_____ it possible _____ detect _____ among _____ accounts _____ give _____ _____ feedback on specific _____?

Do _____ use _____ _____ _____ spot _____ _____ that _____ similar reviews for the _____ items?

Is _____ possible _____ _____ _____ when _____ _____ post _____ and negative feedback on the same _____ or _____?

Is there a _____ to _____ anomalies when various _____ _____ positive _____ _____ _____ about _____ _____?

_____ _____ a way to spot _____ _____ show _____ responses _____ _____ products?

_____ it possible _____ spot _____ _____ accounts _____ using _____ same _____ or _____ reviews?

_____ _____ a way to identify _____ _____ _____ accounts post the _____ _____ feedback?

Do you have _____ system _____ _____ _____ fake positive/negative _____ on _____ _____?

_____ it _____ to use _____ _____ to _____ different accounts giving _____ _____ for the _____ _____?

Does a _____ _____ problems in _____ accounts and _____ _____ _____ feedback _____ _____ products?

_____ it _____ to _____ anomalies when multiple accounts _____ the same _____ ratings _____ _____ _____ _____?

_____ it possible _____ identify _____ _____ various _____ _____ positive _____ _____ reviews about the same _____?

Is _____ possible to spot discrepancies in multiple _____ that give _____ _____ _____ _____ _____ _____ on _____ products?

Is _____ _____ _____ _____ _____ anomalies when multiple accounts _____ similar _____ negative _____ on _____ same products _____ services?

Can _____ _____ _____ _____ when _____ bunch of _____ give the _____ _____ or criticism?

Is _____ _____ _____ _____ system _____ catch it if multiple users _____ _____ same review _____ the _____ item?

Do _____ use technology to _____ _____ on a _____ _____ service _____ _____ accounts _____ _____ same positives and _____?

Is _____ _____ _____ _____ detect fake activity if lots of _____ _____ _____ _____ for different products?

_____ it _____ to spot _____ by using _____ _____ positive/ negative _____ for _____ _____?

Is it _____ for a _____ to _____ irregular _____ when users _____ _____ _____ feedback about the _____ _____?

Is it possible _____ detect _____ _____ multiple _____ _____ the _____ _____ or negative ratings _____ _____?

Is _____ _____ _____ sees _____ _____ several accounts giving the _____ _____ to _____ products?

Do you _____ _____ algorithm that _____ for fake _____ negative feedback _____ _____ _____?

_____ _____ a system that _____ catchIrregularity _____ users leave _____ _____ feedback about _____ _____?

_____ there a way _____ find fake _____ if _____ accounts give _____ _____ _____ _____ _____ same product?

_____ _____ possible _____ a _____ to _____ the _____ _____ _____ give the same feedback about the _____.

Are _____ _____ a system designed to _____ _____ when _____ _____ _____ _____ on certain goods _____ services?

Is _____ _____ to _____ anomalies _____ accounts _____ the _____ positive/ _____ reviews?

_____ _____ _____ catch _____ where _____ _____ of accounts _____ giving _____ same _____ or criticism to the same _____ _____ service?

_____ _____ _____ _____ spot discrepancies _____ accounts using _____ same positive and _____ reviews for _____ _____?

Is _____ _____ _____ _____ _____ fake activity _____ _____ of _____ give the _____ reviews for the same product?

_____ there _____ way _____ spot _____ _____ multiple _____ with the same positive _____ negative feedback _____ different _____?

Is it _____ to detect inconsistencies _____ _____ accounts _____ _____ the _____ _____ negative feedback _____ _____ products?

_____ there _____ way _____ _____ _____ in multiple accounts with the _____ positive or _____ _____?

_____ _____ use a program _____ identify _____ when multiple accounts _____ _____ _____ positive _____ _____ feedback?

_____ _____ possible _____ _____ anomalies _____ multiple accounts post similar _____ feedback on the _____ _____?

_____ _____ _____ _____ identify anomalies in _____ accounts sharing _____ about products _____ services?

Is _____ _____ _____ _____ problems in _____ accounts giving the _____ _____ to different products?

When a _____ of people _____ positive or _____ _____ about _____ _____ product _____ service, _____ an algorithm figure _____ _____ _____ _____ problems?

Can _____ processes identify _____ _____ _____ accounts to _____ similar _____ analysis for _____ and _____?

Is _____ _____ way to _____ discrepancies using identical _____ _____?

Is there _____ _____ _____ _____ discrepancies among accounts _____ _____ same _____ or _____ reviews?

Do you use _____ _____ identifies _____ particular pattern where many _____ _____ feedback _____ _____ _____ _____ or services?

Is _____ _____ way _____ _____ when users give the _____ _____ about _____ same _____

Can the system _____ instances _____ a bunch of accounts give _____ _____ praise _____ _____ _____ _____ _____ item?

Is there an program _____ checks _____ fake _____ _____ _____ _____ _____ accounts?

If _____ lot of users leave matching _____ _____ _____ _____ _____ a _____ or service, _____ _____ _____ figure out _____ gone wrong?

Can an automated _____ _____ anomalies _____ _____ accounts _____ feedback _____ products?

_____ _____ a _____ to _____ _____ between multiple accounts _____ _____ on the _____ product?

Do _____ use _____ _____ _____ designed to identify a particular _____ _____ several accounts _____ feedback _____ _____ same _____ _____ services?

_____ _____ possible to find _____ _____ multiple accounts _____ consistent feedback _____ certain _____?

Is there any _____ to detect fake activity _____ lots _____ accounts give _____ _____ review _____ _____ same _____ _____ _____?

_____ _____ _____ way _____ identify anomalies _____ _____ accounts _____ _____ positive _____ negative feedback on different products _____ services?

Is the program _____ _____ _____ in _____ _____ giving the same _____?

_____ there _____ way _____ _____ discrepancies _____ multiple accounts _____ feedback on _____ particular _____?

_____ you _____ _____ _____ to _____ anomalies _____ _____ product or service when multiple _____ post the _____ positives _____ negatives?

Does _____ _____ _____ _____ discrepancies _____ account holders' _____ _____ criticism of goods _____ services?

_____ there a _____ to _____ _____ if lots of accounts _____ reviews for _____ _____ services _____ talking about?

_____ _____ possible _____ use _____ algorithm to spot _____ accounts giving similar _____ _____ _____ items?

Is _____ possible _____ _____ anomalies _____ multiple accounts _____ _____ same ratings _____ the same _____?

Are _____ _____ _____ system _____ to identify the pattern when _____ accounts _____ feedback _____ _____ _____ services?

_____ a lot _____ users leave matching positive _____ _____ responses _____ a _____ or _____ _____ an _____ spot _____?

Is there _____ way _____ find fake _____ if a lot _____ accounts give _____ _____ _____ for the products _____ _____ _____ _____ _____

Is _____ _____ _____ designed _____ _____ _____ pattern when multiple accounts give _____ _____ certain goods or _____?

_____ _____ _____ _____ _____ irregular _____ patterns _____ using an _____ that spots different accounts giving similar _____?

_____ _____ use any _____ designed _____ identify _____ _____ _____ where several accounts give feedback _____ the same goods _____ _____?

Does automated _____ _____ discrepancies _____ _____ _____ _____ and criticism _____ _____ goods or services?

Is there a _____ _____ catchingIrregularity _____ _____ _____ the _____ feedback for _____ items?

Is _____ _____ _____ to _____ _____ multiple _____ with the same _____ negative feedback?

_____ _____ a system in _____ _____ helps catchIrregularities _____ _____ leave _____ _____ _____ about specific items?

Is there a _____ _____ _____ when _____ _____ the same _____ to their _____?

_____ _____ possible to detect inconsistencies _____ various _____ giving _____ _____ positive _____ _____ feedback on different _____?

When _____ lot of _____ leave _____ positive or _____ _____ about a _____ _____ service, can _____ _____ be used _____ _____ the _____?

_____ the system _____ to catch it if _____ users _____ _____ same _____ for _____ _____ _____?

_____ it _____ to identify anomalies _____ multiple accounts _____ similar positive/ negative _____ on _____ same _____ _____ _____?

When users match positive _____ negative responses to _____ product _____ service, _____ _____ algorithm _____ _____ _____ gone _____?

When _____ _____ of people _____ matching positive or _____ _____ about _____ product or service, _____ an _____ _____ _____ what's gone _____?

Is _____ _____ _____ detect anomalies when multiple _____ _____ identical _____ _____ ratings for specific _____?

_____ it _____ to track irregular _____ patterns by _____ _____ _____ _____ _____ similar reviews?

Is there _____ way _____ identify _____ _____ multiple accounts _____ positive _____ negative _____ on _____ same products _____ _____?

_____ you guys _____ to check for _____ _____ _____ on _____ _____ for _____ products?

Is _____ a way to spot _____ in _____ using _____ _____ positive _____ _____ _____?

Can an automated process _____ _____ _____ _____ _____ that _____ consistent feedback?

Is _____ possible _____ spot _____ across multiple accounts that _____ positive/Negative _____ _____ _____ _____?

_____ _____ _____ _____ when multiple user accounts give _____ _____ positive _____ negative reviews _____ the _____ product?

Do the system catch _____ _____ multiple _____ give the _____ _____ _____ _____ reviews _____ the _____ item?

Is a system _____ place _____ _____ _____ _____ _____ _____ same feedback about their _____?

Is _____ a way _____ _____ _____ _____ multiple accounts that give _____ same _____ negative feedback _____ specific _____?

Do _____ use _____ _____ discover _____ _____ _____ _____ post the _____ _____ and negatives on a product or _____?

_____ _____ lot of users _____ _____ _____ or negative responses about _____ product _____ service, _____ an _____ _____ out _____ gone wrong?

Does _____ _____ technology _____ _____ anomalies _____ multiple _____ post _____ same _____ _____ negatives on a product?

Is there _____ _____ you use _____ _____ a _____ _____ multiple _____ give feedback on certain goods _____ _____?

Is it possible _____ _____ _____ in multiple _____ _____ _____ the _____ _____ negative feedback?

Is it _____ to spot _____ _____ _____ _____ that _____ positive or _____ _____ to products?

_____ it possible to _____ discrepancies _____ accounts _____ the _____ _____ evaluations?

Does _____ technology _____ anomalies _____ _____ _____ _____ the same positives and _____ on _____ product or _____?

_____ you _____ _____ _____ _____ _____ anomalies when Multiple _____ post the _____ positives _____ negatives on a product or _____?

Does _____ software recognize discrepancies in _____ _____ and criticism of _____ _____ _____ _____ _____ _____ holders?

_____ _____ _____ a system designed to _____ _____ pattern when _____ accounts _____ feedback on _____ goods _____ services?

_____ _____ a _____ to catchIrregularity when _____ _____ the same feedback _____ _____ same _____?

_____ you _____ an algorithm _____ detect _____ _____ _____ accounts giving _____ same _____ negative feedback on _____ products?

Is _____ _____ to _____ _____ _____ multiple accounts with the same positive/ _____ feedback _____ _____ _____?

Is it possible to _____ _____ activity _____ _____ _____ accounts provide _____ reviews for _____ _____ _____ or service?

_____ _____ _____ way to _____ _____ activity _____ lots of _____ provide the same _____ _____ the same product or _____?

Is _____ possible _____ detect _____ _____ multiple _____ _____ the same positive _____ negative _____ for different _____?

_____ it _____ to _____ discrepancies _____ multiple accounts _____ the _____ _____ _____ _____ feedback on specific products?

_____ it possible to _____ anomalies in _____ _____ and _____ the _____ _____ or _____ feedback?

_____ there _____ way to _____ if users _____ _____ same _____ about _____ same _____?

_____ _____ a system _____ catchIrregularity _____ _____ give the _____ _____ to the same _____?

_____ the _____ catch instances where a _____ of accounts _____ _____ _____ _____ or criticism _____ _____ items?

Is it possible to _____ inconsistencies among _____ _____ _____ _____ same positive/ _____ _____ _____ products?

Does _____ _____ _____ algorithms _____ similarities _____ accounts' _____ on _____ goods and services?

_____ _____ _____ identify inconsistencies _____ different accounts give the _____ feedback _____ _____?

_____ _____ _____ the same feedback about the _____ items, is a _____ in _____ _____ _____?

_____ _____ possible to _____ _____ activity if lots _____ accounts _____ _____ same _____ for _____ same _____ or service?

_____ automated software _____ _____ there are discrepancies _____ _____ praise _____ criticism _____ goods _____ services?

_____ a _____ of _____ match _____ or _____ responses to _____ product _____ service, can _____ _____ figure _____ _____ there are problems?

Is _____ a way _____ _____ _____ for _____ _____ _____ feedback on products and _____?

Is there a _____ to find anomalies _____ multiple _____ _____ similar _____ _____ _____ feedback _____ _____ same products _____ services?

_____ there _____ way to identify deviations _____ multiple accounts and _____ _____ _____ feedback _____ _____ _____?

A _____ system that _____ _____ _____ reviewers givin' _____ for _____ goods, _____ what?

_____ it possible to _____ _____ _____ multiple accounts _____ _____ parallel _____ negative responses for _____ _____?

Does _____ _____ program _____ _____ giving similar _____?

_____ _____ _____ to _____ anomalies in multiple _____ _____ show _____ responses _____ certain products?

_____ you _____ _____ _____ that identifies a specific pattern where several accounts give _____ to _____ _____ _____ _____ _____?

Are _____ _____ to check for _____ positive/negative _____ _____ different _____ _____ certain products?

_____ there a _____ _____ checks for fake positive _____ _____ _____ on _____ accounts?

_____ _____ a _____ to spot _____ _____ accounts using _____ positive and negative _____?

_____ it _____ _____ identify _____ _____ different _____ _____ positive and negative reviews about _____ _____ products?

_____ there _____ _____ _____ _____ fake activity if lots _____ accounts _____ _____ _____ for the same product, _____ or company?

_____ _____ possible _____ _____ discrepancies _____ _____ accounts generating _____ _____ negative evaluations on certain products?

_____ _____ a way to spot discrepancies in _____ using identical _____ _____ _____ _____?

_____ _____ a way to detect anomalies when _____ _____ _____ _____ same _____ negative _____ for _____ same item?

Is there _____ way to find _____ _____ _____ a _____ _____ _____ give _____ same _____ for _____ same products?

Is there a _____ _____ detect _____ _____ accounts _____ consistent _____ and _____ feedback _____ products?

_____ there _____ way to spot discrepancies in _____ _____ that give _____ same _____ _____ _____ products?

_____ the _____ catch _____ if _____ are _____ _____ that _____ the _____ reviews for _____ same item?

_____ an _____ system used to _____ _____ in multiple _____ _____ give the same _____ _____ _____ feedback?

Do _____ _____ specialized _____ that identifies a _____ _____ where several _____ _____ _____ to _____ same _____ or services?

_____ _____ _____ identify variations in user accounts _____ _____ the _____ sentiment _____ _____ items and _____?

_____ _____ _____ to _____ anomalies _____ multiple accounts give positive and _____ ratings for _____ _____ _____?

Can the system _____ _____ _____ _____ _____ of _____ give the same praise _____ criticism _____ _____?

Is _____ possible to _____ anomalies _____ multiple _____ _____ similar _____ _____ _____ feedback _____ _____ same products or services?

Is there _____ _____ _____ identify anomalies _____ _____ _____ post _____ positive and negative feedback _____ the same _____ or _____?

Does the use _____ _____ _____ _____ in different accounts' _____ on _____ _____ and _____?

_____ it possible _____ spot discrepancies _____ _____ _____ using identical _____ reviews?

_____ _____ a _____ to identify _____ activity if _____ lot _____ accounts _____ _____ same _____ _____ _____ same products and services?

____ ____ use ____ algorithm ____ ____ if different accounts ____ the ____ reviews ____ the ____ item?

____ ____ a ____ to discover ____ ____ if lots ____ accounts ____ the ____ reviews for different ____?

____ you ____ a ____ to ____ ____ when multiple accounts ____ similar ____ and negative ____ ____ the same ____ or ____?

Is ____ possible ____ ____ irregular feedback patterns using ____ algorithm ____ ____ similar ____ for ____ ____?

____ the ____ ____ instances ____ ____ bunch ____ accounts ____ saying the same ____ about the same ____?

____ it possible for ____ system to ____ when users ____ the ____ ____ ____ ____ items?

____ automated software ____ discrepancies between ____ account ____ ____ ____ different goods ____ services?

Is ____ a way to identify ____ when various accounts ____ ____ and negative ____ ____ ____ ____ ____?

____ there a ____ ____ ____ fake activity if ____ of accounts ____ the ____ review for a ____ ____?

When ____ leave ____ same ____ about the ____ ____ ____ it possible for a ____ ____ detect ____?

____ there a ____ to ____ anomalies when ____ accounts share ____ ____ ____ negative feedback ____ ____ ____ product or service?

Is ____ ____ ____ ____ can detect anomalies when multiple ____ ____ ____ same positive ____ ____ ratings?

Is ____ ____ way ____ detect ____ activity ____ lots of ____ provide ____ reviews for the same ____ ____ ____?

____ ____ a way ____ detect discrepancies ____ many ____ ____ product/service evaluations?

Is ____ ____ for an automated ____ to spot ____ ____ ____ accounts ____ feedback about ____?

Do you have ____ ____ that ____ for ____ positive/ ____ feedback on ____ ____?

____ there a ____ ____ ____ ____ activity if lots ____ ____ give the same ____ for ____ ____ and services?

Is ____ a way to ____ fake ____ ____ ____ ____ ____ ____ ____ identical reviews ____ the same item or service?

____ there a ____ to spot discrepancies ____ ____ ____ the ____ positive/ ____ reviews?

Is there ____ way ____ identify fake activity ____ a ____ ____ ____ ____ identical ____ for the same product ____ ____?

Is there ____ ____ to detect ____ ____ if ____ of ____ provide ____ ____ ____ ____ same product or service?

____ it possible ____ ____ inconsistencies among ____ accounts ____ give the ____ ____ ____ ____ feedback on products?

Is it possible ____ detect anomalies ____ multiple ____ give ____ ____ positive ____ ____ ratings ____ an ____?

Is ____ possible ____ ____ ____ to ____ ____ irregularity when users ____ ____ ____ feedback about items

____ there ____ ____ ____ detect fake ____ if ____ of accounts ____ ____ reviews ____ the ____ and services you're talking ____?

Is ____ a way to ____ ____ ____ ____ multiple ____ with the same positive and ____ ____ ____ specific ____?

____ it possible ____ ____ ____ when various accounts give positive and ____ ____ ____ ____ and ____?

____ ____ using a system that ____ ____ pattern ____ ____ accounts give ____ ____ something?

____ ____ ____ way ____ find ____ when ____ accounts post similar positive ____ ____ ____ on the same ____ and services?

____ ____ program that checks multiple accounts ____ the ____ feedback ____ ____ specific ____?

Is it ____ ____ spot irregular ____ by ____ an ____ ____ finds ____ reviews ____ ____ items?

Do ____ ____ ____ program to detect inconsistencies among ____ ____ ____ give the ____ ____ ____ feedback?

Does ____ software ____ ____ between ____ holders who praise ____ ____ goods ____ services?

Does ____ ____ ____ discrepancies between accounts ____ ____ ____ ____ feedback to products and ____?

____ there a ____ ____ identify abnormality when there ____ ____ positive ____ negative ____ ____ a ____ or service?

____ it possible to detect discrepancies among multiple ____ ____ ____ ____ ____ ____ of ____ products?

____ it possible to detect ____ when ____ ____ give ____ same ____ and ____ ____ for ____ items?

____ there a ____ to find fake activity if lots ____ ____ give ____ reviews ____ the ____ ____ ____ ____?

____ ____ a way ____ ____ anomalies when multiple accounts post ____ positive/ ____ ____ on ____ ____ products or ____?

Is it ____ to ____ ____ in ____ accounts ____ show ____ ____ negative responses ____ certain ____?

Is ____ a ____ to detect fake activity if there ____ ____ of ____ reviews ____ ____ ____ ____ services?

Does ____ ____ ____ it ____ multiple ____ give identical ____ ____ ____ of the same item?

Is it ____ to identify anomalies ____ multiple ____ post positive ____ ____ ____ ____ the same product ____ ____?

____ the system ____ of detecting anomalies ____ ____ ____ give ____ ____ positive or negative ____?

Do you ____ a system ____ ____ ____ ____ when multiple accounts ____ feedback ____ certain ____ ____ services?

____ ____ use any ____ to ____ anomalies when multiple ____ post the ____ positives ____ ____ on ____ ____ product?

Can the system ____ ____ where ____ of ____ praise ____ same ____?

____ it possible to ____ irregular ____ ____ ____ positive/negative reviews?

When a ____ ____ ____ leave matching positive ____ negative responses about ____ product ____ ____ ____ an algorithm figure ____ ____ ____ wrong?

____ it possible ____ the ____ ____ it ____ multiple ____ ____ the same reviews for ____ ____ item?

____ there a ____ ____ detect inconsistencies among ____ accounts ____ the same ____ ____?

____ ____ a way to discover fake ____ ____ ____ lot ____ ____ ____ the same ____ for the ____ item ____ service?

____ this program ____ discrepancies among accounts ____ give ____ ____ ____ on ____?

Is there ____ ____ ____ catch fake accounts ____ good/bad reviews on ____ ____ ____?

____ there a ____ ____ ____ users leave the same ____ on ____ items?

Is ____ possible to identify anomalies ____ ____ accounts ____ positive ____ negative reviews ____ ____ specific product ____ ____?

____ ____ automated ____ recognize ____ between account holders' ____ and ____ ____ specific goods ____ services?

____ ____ possible ____ software to recognize anomalies within ____ posting ____ ____?

____ it possible for ____ ____ ____ detect anomalies when ____ ____ ____ the same positive and ____ ____?

Is there ____ way to ____ discrepancies between ____ ____ feedback on ____ ____ ____?

Is it possible ____ track ____ ____ by ____ ____ algorithm ____ finds similar reviews ____ ____ ____?

If a ____ of users leave matching positive ____ ____ ____ ____ ____ ____ or ____ can ____ algorithm spot ____?

If a ____ of ____ ____ ____ ____ ____ negative responses ____ ____ product or ____ can an algorithm figure out ____ ____?

When ____ lot of people ____ ____ positive or ____ ____ ____ ____ product ____ service, ____ ____ ____ be used to spot ____ problem?

Do you ____ specialized ____ ____ ____ a ____ ____ ____ several accounts give ____ to the ____ goods ____ service?

____ ____ ____ way to detect ____ ____ ____ ____ of accounts give identical ____ for ____ same products?

Is it possible to spot inconsistencies ____ people ____ leave ____ ____ ____ ____ the ____ ____?

Does ____ ____ ____ for ____ positive/ negative ____ on ____ accounts?

____ it possible ____ ____ system to catch ____ irregularity ____ both users give ____ same feedback ____ ____ ____?

____ there a way to spot ____ that ____ both ____ and ____ ____ ____ certain ____ ____ services?

____ you use a system designed ____ identify ____ ____ when ____ accounts ____ feedback ____ ____ ____ services?

When ____ ____ ____ or ____ ____ ____ product or service, can an algorithm ____ ____ if it's ____ problem?

Is ____ ____ ____ in place to catchIrregularity ____ users ____ ____ same feedback ____ their ____?

Does ____ system ____ ____ if ____ users give similar reviews for ____ ____ ____?

Is ____ a ____ to ____ ____ among ____ using ____ reviews?

____ there ____ ____ ____ ____ ____ ____ when multiple ____ give the same positive or negative ____ for specific ____?

Does automated ____ know ____ ____ are ____ ____ the ____ and ____ of certain goods ____ ____?

Is it ____ ____ spot ____ ____ using the ____ ____ negative ____ for different ____?

____ you ____ technology ____ find anomalies if ____ ____ ____ ____ same positives and ____?

Is the ____ able ____ ____ it if ____ users ____ accounts that ____ the ____ review ____ different ____?

____ it possible to ____ discrepancies within ____ accounts ____ the ____ ____ ____ on ____?

When a ____ ____ people leave matching positive ____ negative responses ____ a ____ or ____ ____ ____ ____ ____ an algorithm ____ ____ anomalies?

Is ____ ____ way ____ identify anomalies ____ ____ are many ____ and negative ____ about a product ____ ____?

____ do ____ find ____ ____ ____ ____ accounts ____ ____ same positive or ____ reviews for the same product/service?

Is there a ____ to identify ____ ____ ____ ____ ____ provide ____ ____ ____ on specific items?

Is ____ system ____ ____ identify ____ pattern ____ multiple ____ give ____ on goods or ____?

Do you ____ any ____ to find anomalies ____ ____ ____ ____ ____ same positives and ____ of a ____ or ____?

____ the system catch it ____ multiple ____ ____ similar reviews ____ ____ same ____?

____ ____ ____ ____ to ____ fake ____ if ____ of accounts give similar reviews for ____ ____ products ____ services?

Is there ____ way ____ find fake activity ____ lots ____ ____ give ____ ____ ____ for ____ ____ product, service or ____?

Is ____ ____ ____ ____ ____ when ____ ____ give positive and negative reviews about ____ product or ____?

____ ____ a way to ____ discrepancies ____ accounts ____ product/service ____?

Is ____ ____ ____ ____ anomalies across multiple ____ ____ show ____ positive/ negative responses for ____ ____?

____ you use software that ____ a particular pattern ____ ____ ____ give ____ ____ the same ____ or ____?

Is it ____ ____ detect ____ when multiple accounts give ____ ____ positive/negative ____ ____ ____ things?

Is ____ ____ to ____ discrepancies ____ using the same ____ ____ for different ____?

Is ____ a ____ in place for ____ ____ ____ leave ____ ____ feedback ____ their items?

Is ____ ____ way to detect ____ among accounts ____ ____ homogeneous ____ ____?

Does automated ____ recognize ____ among ____ ____ ____ praise ____ criticize goods ____ services?

____ ____ use ____ ____ to ____ irregular ____ patterns ____ different accounts to give ____ reviews?

_____ it possible _____ _____ anomalies when _____ _____ _____ _____ same _____ or negative ratings _____ the same service?

_____ you _____ _____ _____ system that checks _____ fake positive/negative _____ _____ different accounts?

Is there _____ system _____ _____ _____ _____ _____ when _____ leave _____ _____ feedback about different items?

Is it _____ to spot _____ among _____ _____ identical _____ _____ _____ reviews for _____ offerings?

_____ it possible _____ _____ irregular feedback patterns _____ an _____ _____ finds _____ reviews _____ certain _____?

_____ _____ _____ able to _____ it if _____ _____ have _____ that give the _____ positive or _____ reviews?

Is _____ possible _____ _____ _____ when _____ _____ give the _____ positive/negative ratings _____ a _____ item?

_____ it _____ to spot _____ in _____ using identical positive/ _____ _____?

_____ the system able _____ _____ _____ if multiple users have _____ _____ give identical _____ _____ the same _____?

Can the _____ catch _____ _____ _____ _____ of _____ are giving _____ same praise _____ criticism _____ a specific _____ or _____?

Is _____ _____ that picks _____ problems in _____ accounts _____ _____ same _____ to _____ services?

Is there _____ _____ _____ _____ _____ activity if a lot of _____ give _____ same reviews _____ the same _____ _____ _____?

_____ _____ _____ for _____ to catchIrregular _____ when _____ leave the same _____ about _____ items.

_____ _____ possible _____ spot anomalies _____ multiple _____ _____ show _____ and positive responses _____ _____ products?

_____ _____ _____ _____ catch accounts giving _____ reviews?

Is it possible _____ _____ anomalies when _____ accounts _____ _____ or negative _____ _____ _____ specific _____ or service?

_____ there a system _____ place _____ helps _____ _____ behavior when users _____ _____ same feedback _____ certain _____?

_____ users give the _____ feedback _____ _____ _____ item, _____ there _____ system for _____?

Is _____ possible _____ identify anomalies when various _____ _____ _____ _____ specific products?

Is there _____ _____ to _____ _____ when multiple accounts _____ _____ and _____ feedback of _____ _____ _____ or services?

Is there a way _____ find _____ _____ _____ lots of accounts _____ _____ same _____ for _____ products _____ services _____ _____ talking _____?

_____ do _____ identify _____ multiple user accounts give _____ _____ positive _____ negative reviews _____ _____ same product/ _____?

Is _____ _____ for _____ _____ recognize weird things _____ _____ _____ similar endorsements?

Is there a _____ to _____ _____ when multiple _____ post positive/ negative _____ _____ the _____ products _____ _____?

Do you _____ specialized software _____ _____ _____ _____ pattern where _____ _____ give feedback _____ _____ same goods and _____?

Is a program that _____ _____ _____ in more _____ _____ account _____ _____ same _____?

Does _____ _____ catch _____ _____ multiple users have _____ _____ give _____ same positive _____ negative _____?

_____ _____ _____ catch instances _____ a _____ _____ accounts _____ giving the same praise _____ criticism _____ the same _____?

Is _____ _____ _____ identify anomalies _____ multiple accounts _____ _____ _____ and negative _____ _____ the _____ products or services?

Do _____ _____ catch it if multiple _____ _____ _____ reviews _____ _____ same item?

Is there a _____ to _____ fake _____ _____ lots of _____ _____ _____ reviews for _____ _____ and services _____ _____ to?

Is it _____ to _____ anomalies when _____ _____ give _____ _____ positive/ negative _____ _____ the same _____?

Do you _____ _____ _____ _____ designed to _____ a _____ _____ _____ several _____ give _____ to the _____ goods and services?

_____ you use an automated _____ to _____ inconsistencies _____ _____ _____ giving the _____ _____ _____ feedback?

_____ _____ _____ of _____ _____ to a product or _____ with _____ or _____ feedback, _____ an algorithm _____ out _____ there _____ problems?

Does a _____ _____ anomalies _____ _____ positive and _____ feedback on _____?

_____ a lot of users _____ _____ positive or _____ _____ about _____ product _____ _____ _____ an _____ _____ spot the problem?

Does this _____ _____ _____ patterns _____ accounts _____ _____ the same _____ about products and _____?

Is it possible _____ spot discrepancies by _____ _____ _____ _____ _____ reviews _____ specific _____?

Is _____ _____ to find anomalies when _____ accounts _____ _____ and _____ reviews _____ _____ _____ product?

Does _____ system catch it _____ _____ users give _____ _____ _____ _____ _____ _____ for the same items?

Do _____ use an _____ that can spot _____ _____ giving _____ reviews _____ _____ same _____?

Is there a system _____ helps _____ irregular _____ _____ _____ _____ the same feedback _____ _____ _____?

_____ it possible to detect inconsistencies among _____ _____ giving _____ _____ _____ negative _____ _____ _____ products?

Is it _____ to _____ _____ _____ different _____ _____ _____ and negative _____ of _____ same product or service?

Is it _____ to detect _____ in _____ _____ _____ _____ on products?

_____ there _____ way _____ uncover _____ activity if lots _____ accounts _____ the same _____ for _____ _____?

Is it possible to _____ _____ _____ _____ _____ post _____ _____ or _____ _____ on the same product _____ service?

Is there a _____ to find _____ activity _____ lot _____ accounts give identical _____ for _____ _____ _____ services _____ _____ about?

Is there a _____ to catch _____ accounts _____ _____ _____ _____ the same _____?

Are you using ____ system ____ identifies a ____ ____ ____ ____ ____ ____ on goods and ____?

____ ____ lot of users ____ ____ ____ ____ negative responses ____ ____ ____ or service, can an machine be used ____ find ____?

____ there a ____ ____ ____ ____ among multiple ____ providing the ____ product/service evaluations?

____ ____ ____ way ____ detect ____ if lots of ____ provide the ____ ____ the same product or service?

Is there ____ ____ to detect ____ ____ accounts ____ the ____ ____ evaluations?

____ there ____ way ____ detect ____ activity if lots ____ ____ provide identical reviews for ____ ____ ____?

Is there ____ way ____ find ____ activity ____ ____ lot of ____ ____ ____ same reviews for the ____ ____ ____ services?

Is there ____ way ____ find ____ if ____ accounts ____ the ____ ____ for ____ items?

____ you ____ a ____ ____ identifies a pattern ____ multiple accounts ____ feedback ____ goods ____ ____?

____ the ____ catch ____ if ____ ____ give ____ ____ positive or negative ____ for the same ____?

____ the system catch instances ____ ____ ____ ____ accounts give ____ ____ praise or ____?

____ a program that ____ multiple ____ ____ the ____ feedback ____ services?

Does ____ ____ find ____ in accounts that ____ ____ ____ negative ____ on products?

Does ____ ____ system ____ anomalies for positive ____ on products ____ ____?

____ it ____ to detect ____ when multiple ____ give ____ ____ positive ____ ____ ratings for ____ items?

Is there ____ ____ to identify ____ activity if ____ ____ accounts ____ identical ____ ____ the same ____ ____ service?

____ automated software ____ discrepancies between ____ ____ praise and criticism ____ ____ or ____?

Is ____ ____ ____ ____ spot anomalies ____ show ____ or negative ____ ____ a certain product?

Is it ____ to ____ anomalies across ____ accounts ____ show the ____ ____ ____ ____ products?

____ there ____ way to ____ fake ____ if lots ____ ____ ____ ____ reviews for ____ same product?

Is ____ algorithm used ____ spot anomalies in multiple ____ that ____ ____ ____ ____ negative ____?

Can ____ ____ catch instances ____ ____ ____ ____ ____ praise and ____ the same item?

Do you ____ any technology ____ find ____ since ____ accounts post the ____ positives ____ negatives ____ a ____ ____ ____?

Will the ____ show inconsistencies between ____ ____ ____ alike positiveativity towards ____ ____ ____?

Can ____ ____ process ____ anomalies ____ multiple ____ sharing ____ for certain ____?

Is ____ ____ to ____ discrepancies ____ multiple accounts ____ the ____ ____ or service ____?

____ it ____ ____ ____ irregular feedback ____ ____ an ____ that finds similar ____ ____ certain items?

____ it ____ ____ identify ____ when various ____ give positive ____ negative reviews ____ specific ____?

____ ____ accounts ____ ____ ____ ____ and negatives on ____ product, do you use ____ technology to find ____?

Is ____ a way ____ ____ discrepancies by ____ identical ____ negative ____?

____ ____ ____ system you use that ____ a ____ when ____ accounts ____ feedback on goods ____ ____?

Can ____ automated process spot anomalies ____ ____ ____ sharing feedback about ____ ____ ____?

____ ____ ____ to ____ problems ____ multiple ____ and give the same feedback ____ ____ products ____ services?

____ ____ ____ ____ ____ to look for a ____ pattern ____ ____ ____ give feedback to the ____ goods or services?

____ there a way ____ find fake ____ if ____ of ____ provide ____ ____ reviews for ____ same ____?

____ there a ____ that you ____ to ____ ____ pattern when ____ ____ ____ feedback on goods ____ services?

____ ____ possible to ____ anomalies ____ multiple ____ with the same positive/ ____ ____ on ____ ____?

____ there ____ way ____ identify anomalies ____ multiple accounts ____ ____ positive and negative ____ of ____ products ____ ____?

____ there ____ ____ to look for fake activity if lots of ____ give ____ ____ reviews ____ ____ ____?

Is automated ____ ____ ____ ____ between ____ holders' praise ____ criticism of ____ goods ____ services?

____ an ____ process identify anomalies in ____ accounts ____ ____ ____ certain ____ and ____?

____ it ____ to ____ inconsistencies ____ ____ accounts ____ give the ____ positive/negative feedback ____ specific ____?

____ ____ a way to ____ ____ ____ if lots ____ ____ give the ____ reviews ____ the same products and ____?

____ ____ ____ way to spot ____ in ____ using ____ same ____ negative reviews?

____ ____ ____ ____ to ____ fake ____ if ____ ____ accounts give identical reviews ____ the same service?

____ you use a ____ software ____ to identify ____ particular pattern where ____ ____ ____ ____ ____ the same ____ ____ services?

____ ____ system ____ to ____ it ____ multiple users have ____ ____ the ____ reviews?

____ there a system you ____ to ____ a ____ when ____ ____ ____ feedback ____ certain goods ____ services?

____ ____ ____ way to ____ discrepancies between ____ by using ____ ____ reviews?

Does ____ program ____ discrepancies among ____ ____ give ____ ____ negative ____ to products ____ services?

____ ____ ____ a special ____ that identifies a ____ pattern where several ____ give ____ ____ the ____ goods or ____?

____ this ____ ____ ____ accounts ____ ____ or negative feedback to products/ services?

____ ____ ____ way ____ ____ anomalies when multiple ____ share ____ same positive or negative ____?

____ it possible to spot anomalies among ____ ____ ____ same ____ ____?

Is the ____ able to ____ it if ____ ____ give ____ ____ negative ____ for ____ same ____?

____ there a ____ to identify ____ when ____ ____ post the same ____ ____ negative ____?

Do you use specialized ____ to ____ ____ ____ where ____ accounts give feedback ____ ____ ____ ____ or services?

____ ____ program used ____ ____ inconsistencies ____ accounts that deliver ____ sentiment ____ ____ targeted offerings?

Is there ____ ____ to discover fake activity if ____ lot ____ ____ give ____ ____ review ____ different ____?

____ ____ ____ to detect ____ when ____ accounts give ____ positive/ negative ____ for different ____?

Is there ____ program that ____ uncover ____ ____ ____ ____ identical sentiment analysis of ____ ____?

Is ____ ____ way to ____ ____ ____ that ____ same reviews on the ____ things?

Is ____ a ____ ____ find fake ____ when ____ ____ accounts ____ identical reviews for ____ ____ item ____ service?

Is ____ ____ to find ____ when multiple ____ post ____ ____ and negative ____ ____ ____ ____ products or services?

____ ____ ____ ____ ____ find fake ____ if ____ ____ ____ provide the same reviews for the products ____ services ____ referring to?

____ ____ use ____ system designed ____ ____ ____ specific pattern when ____ ____ give feedback on goods ____ services?

Is ____ ____ ____ detect anomalies ____ ____ accounts ____ ____ ratings for the ____ ____ or service?

____ ____ a program you use to ____ anomalies ____ ____ ____ ____ ____ ____ and negative feedback?

Is ____ ____ way ____ find ____ activity if lots of ____ ____ similar ____ ____ the same ____?

____ automated software ____ ____ between account ____ ____ and criticism ____ specific goods ____ ____?

Is ____ ____ to identify ____ when different ____ give ____ ____ of the ____ ____ or ____?

____ ____ possible to spot anomalies ____ multiple accounts ____ ____ positive ____ ____ ____ to ____ products?

____ ____ lot ____ users leave matching positive ____ ____ responses ____ ____ product or ____ ____ ____ algorithm accurately identify the ____?

Does ____ ____ ____ algorithm expose ____ ____ different accounts' opinions ____ ____ and services?

____ users ____ the same ____ ____ the ____ ____ it ____ for a ____ to catch ____ irregularity?

Are ____ ____ ____ system ____ identify ____ ____ when ____ ____ ____ feedback on goods or services?

____ ____ possible to identify anomalies ____ different ____ give ____ and ____ reviews of ____ product ____ ____?

____ you use ____ ____ find anomalies ____ multiple ____ post positives ____ ____ ____ a ____ or service?

Is there ____ ____ ____ ____ anomalies when multiple ____ ____ identical ____ ____ negative ratings?

Is there ____ way ____ ____ fake ____ if lots of ____ give ____ ____ ____ ____ same products and ____?

____ there ____ way to detect ____ across ____ for ____ positive/ ____ feedback ____ ____?

Is there ____ ____ ____ discover fake activity if lots ____ ____ give the ____ review ____ ____ ____ ____ services?

____ there ____ way ____ ____ ____ users ____ the same feedback ____ ____ same items?

____ ____ the program identify inconsistencies ____ ____ ____ give ____ ____ the ____ thing?

Do you have ____ ____ ____ check for ____ ____ ____ negative ____ ____ different accounts?

Is this program ____ ____ ____ ____ patterns ____ ____ that all say ____ ____ things?

____ ____ ____ ____ detect anomalies when multiple accounts give ____ same ____ ____ for the same ____ ____ service?

____ ____ use any technology to ____ anomalies when ____ ____ post ____ same positives ____ ____ on a product ____ ____?
