[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Privacy and security concerns
Inquiry Sub-Category	Data breach and unauthorized access
Description	Customer concerns regarding the security of their personal information, such as credit card details or login credentials, being breached or accessed by unauthorized parties.
Data Size	5,665 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

Are specific protocols in _____ to promptly _____ _____ _____ _____ _____ on _____ _____ _____ (e.g., passwords)?

Do you _____ _____ in _____ _____ quickly respond to _____ _____ _____ _____ our confidential _____ information?

Have _____ procedures been _____ in _____ to _____ _____ _____ _____ sensitive client data?

_____ to rapidly detect and _____ intrusion _____ to target _____ client _____ _____ _____.

_____ _____ _____ protocols _____ detecting and resolving intrusion attempts _____ _____ files?

proactive steps _____ to _____ intrusions into _____ _____ _____ _____ addressing _____ breeches of _____ passwords?

_____ established _____ in place to detect _____ deal with intrusion _____ _____ _____ _____?

Is there a _____ that _____ intrusion _____ _____ _____ client _____?

Do _____ have protocols to _____ hacking _____ _____ client _____?

Do you _____ _____ in _____ to quickly _____ _____ _____ unauthorized _____ _____ to our confidential _____ _____ like passwords?

_____ preventative steps taken _____ _____ _____ into _____ clients' _____ specifically addressing _____ breeches _____ their _____?

Do _____ procedures _____ to _____ _____ _____ resolve unauthorized use _____ confidential _____ data?

Protocols _____ be _____ _____ _____ intrusion attempts on _____ files.

Do you _____ _____ _____ detecting attempts _____ gain access to my _____ _____ _____ on _____?

Do _____ _____ exist _____ _____ intrusion attempts that _____ _____ or vital _____?

_____ _____ _____ security _____ _____ _____ to identify and address any unauthorized _____ _____ private client _____?

_____ _____ a _____ for quickly resolving _____ _____ to _____ files?

_____ _____ _____ _____ detection and resolution of intrusion attempts _____ _____ clients' data _____?

Do specific measures _____ for detecting _____ _____ _____ _____ on _____ _____ data?

Do we _____ measures _____ place to _____ and _____ any breaches related to _____ _____ _____ _____ _____?

proactive steps taken to _____ identify _____ _____ _____ _____ records

Is _____ _____ protocol _____ _____ _____ detecting and _____ intrusions targeting _____ information?

_____ specific _____ exist to _____ _____ _____ resolve client _____ breeches?

_____ there specific _____ _____ _____ for the _____ detection _____ resolution _____ attempted intrusions on _____ client _____?

_____ certain _____ _____ _____ detect _____ resolve intrusion attempts _____ client files?

Have proper _____ _____ _____ _____ _____ and address intrusion attempts _____ client _____?

_____ _____ you _____ potential _____ into _____ _____ data by _____ established procedures?

Are _____ _____ in place that _____ the _____ detection of _____ _____ _____ private client _____?

____ ____ ____ protocol that resolves intrusion ____ ____ password protected ____ records?

Is ____ ____ procedure to ____ ____ and ____ intrusion attempts ____ private ____ files?

____ there ____ system installed ____ will identify and ____ security ____ ____ client ____?

____ procedures ____ put in ____ to ____ and address ____ ____ ____ sensitive ____ data?

Are ____ protocols for detecting ____ ____ ____ on ____ client ____ in ____?

Proactive steps are ____ to identify ____ ____ protected clients' ____ specifically ____ possible ____ ____ ____.

Is proactive ____ ____ to early ____ ____ into protected ____ ____ ____ to their ____?

____ ____ ____ to detect and ____ attempted ____ ____ client files?

____ there a ____ to ____ ____ resolve attempted ____ ____ protected client ____?

Do ____ procedures ____ to quickly recognize ____ ____ ____ client ____?

Is ____ a way ____ ____ ____ resolve ____ ____ ____ private client records?

____ proper procedures ____ implemented ____ ____ ____ intrusion ____ on sensitive client ____?

Do precise methods ____ ____ ensure ____ detection and resolution ____ ____ ____ ____ clients' ____?

____ ____ a specific ____ in place to ____ ____ ____ ____ ____ confidential information about clients?

____ the organization have procedures in place to ____ ____ activities ____ ____ ____ ____ client data ____ ____ passwords?

____ established ____ ____ to ____ ____ ____ intrusion attempts on ____ client files?

____ ____ ____ ____ to identify ____ access to clients' ____ records?

Are there ____ taken to ____ potential ____ into ____ ____ ____?

____ ____ ____ ____ place to ____ ____ ____ attempts on confidential client files?

____ ____ protocols ____ ____ intrusion attempts on ____ files?

Is ____ ____ ____ ____ ____ ____ ____ potential intrusions into clients' sensitive records?

Are precise methods ____ ____ ensure ____ ____ of ____ ____ ____ confidential clients' data?

Is there ____ system that ____ ____ ____ ____ resolve ____ breaches on ____ passwords?

Are there ____ ____ in ____ ____ allow ____ swift detection ____ ____ of ____ intrusions ____ private client records?

Measures ____ ____ to ____ detect ____ attempts on ____ files, ____ ____ passwords.

Do the protocols ____ ____ address ____ ____ client ____?

____ ____ a ____ to identify ____ ____ any ____ of ____ information like passwords?

____ proper ____ ____ been ____ in ____ to detect intrusion ____ ____ client data?

____ any ____ ____ sensitive client files be ____ recognized ____ ____ ____ established protocols?

Do precise methods exist ____ ensure swift detection ____ ____ ____ ____ ____ ____ data?

Does a ____ ____ ____ ____ immediate detection ____ ____ efforts targeting sensitive ____ information?

Do we ____ ____ ____ to detect ____ ____ unauthorized access or ____ with ____ ____ ____ as passwords?

____ ____ ____ methods for detecting intrusion ____ ____ confidential ____ data?

Will any attempted intrusions ____ ____ files ____ ____ resolved using ____ ____?

Will any incidents ____ sensitive client ____ ____ ____ ____ be quickly ____ and ____ using ____ ____?

Do ____ have protocols ____ ____ ____ resolving ____ attempts ____ your clients ____?

____ ____ use specific ____ to spot ____ manage ____ ____ ____ the ____ of client data?

Can ____ ____ be ____ for ____ ____ resolving ____ breeches on private client ____?

Do you have ____ ____ place to ____ ____ ____ access ____ on ____ confidential ____ info?

____ you have ____ ____ quickly ____ ____ access to clients' ____ records?

____ ____ procedures ____ ____ in ____ to detect intrusion ____ on sensitive ____ data?

Do established ____ exist ____ quickly understand ____ ____ intrusion ____ on ____ ____ files?

What specific ____ are ____ to ____ ____ and ____ security ____ ____ client passwords?

____ ____ ____ system ____ detecting and fixing attempts to ____ ____ ____ files?

____ you have ____ ____ identify ____ ____ intrusion ____ private client data?

Are ____ methods ____ ____ to ____ ____ ____ of intrusion ____ on confidential ____ data?

____ you ____ up systems for ____ unauthorized access ____ ____ ____?

____ ____ have protocols that can rapidly detect ____ resolve ____ ____ ____ client ____?

____ ____ have the ____ to quickly ____ unauthorized ____ attempts ____ private ____ data?

Do ____ have certain measures ____ place to ____ ____ ____ ____ attempts on sensitive ____ ____?

____ established mechanisms ready to ____ and respond to ____ ____ ____ ____ client ____?

____ you ____ up ____ to spot ____ ____ to client ____?

Is a system in ____ ____ ____ ____ ____ into ____ sensitive records?

____ protocols ____ ____ ____ intrusion of client ____?

Do ____ have a ____ to identify ____ ____ ____ access ____ ____ private ____ data?

Do ____ ____ protocols to ____ ____ and ____ any attempts to access my ____ ____ ____ on ____?

____ we ____ measures in ____ ____ detecting and handling ____ ____ on ____ ____ data?

____ there a system to ____ ____ ____ ____ break ____ client files?

____ ____ ____ do you take ____ ____ identify and ____ any attempts ____ steal client ____?

Will any ____ ____ client ____ such ____ ____ be ____ recognized and ____ using established ____?

Do ____ procedures exist to quickly ____ intrusion attempts ____ ____ ____ ____?

____ ____ ____ set protocol ____ detecting ____ resolving ____ targeting client information?

____ ____ ____ ____ ____ ____ as passwords, be swiftly ____ ____ resolved using established protocols?

____ ____ are the methods used to ____ ____ of ____ ____ data?

Any ____ that ____ ____ ____ ____ ____ ____ resolve security breeches on client passwords?

____ ____ have protocols ____ detect ____ ____ ____ my ____ ____ files on passwords quickly?

____ there a ____ ____ that ____ quickly identify and resolve ____ ____ on ____?

Do ____ ____ ____ resolving ____ attempts on ____ files?

Do ____ have strong ____ that ____ ____ ____ resolve ____ ____ ____ sensitive client files?

Can ____ mechanisms ____ ____ ____ to ____ breaches ____ securing client data?

____ ____ a way to quickly detect ____ ____ ____ intrusions into ____ ____?

Do ____ ____ ____ ____ ____ quickly identify unauthorized ____ ____ on your private client ____?

____ we have measures ____ place ____ quickly ____ and deal ____ ____ ____ on client ____?

____ precise ____ exist that ____ rapid ____ of ____ ____ on ____ data?

Do you ____ procedures ____ ____ ____ on private ____ files?

____ any ____ ____ break ____ client files be quickly ____ ____ ____ protocols?

Do ____ have measures ____ ____ identify ____ ____ unauthorized ____ attempts to ____ private client ____?

Have ____ procedures been put in place ____ ____ ____ attempts ____ ____ ____ data.

____ ____ procedures exist to quickly ____ intrusion attempts on ____ ____ ____?

____ it possible to ____ ____ if ____ ____ to ____ ____ clients' files?

____ your ____ ____ ____ and address ____ ____ attempts on ____ confidential client information?

Are ____ methods ____ ____ that ____ rapid detection ____ intrusion ____ ____ confidential clients' ____?

____ there ____ measures to ____ ____ resolve ____ ____ on private ____ data?

____ any intrusions ____ ____ ____ be quickly recognized ____ solved ____ established ____?

____ ____ a ____ in place ____ deal with intrusions ____ clients' ____?

____ do you ____ identify ____ ____ ____ attempts ____ gain access to ____ files?

Is there ____ ____ ____ will ____ and ____ ____ intrusions into clients' sensitive ____?

Is there ____ ____ ____ deal ____ potential ____ into ____ sensitive records?

Is the ____ in place ____ ____ ____ ____ of ____ efforts for sensitive ____ ____?

____ there ____ you can take to ____ ____ ____ address ____ access ____ ____ private ____ data?

____ ____ have protocol to ____ with ____ ____ ____ client files?

____ ____ methods ____ place ____ prevent ____ attempts ____ confidential clients' data?

____ you ____ protocols that ____ ____ ____ resolve intrusion attempts ____ ____ files?

Is ____ ____ in place to ____ ____ attempts ____ ____ files?

____ there ____ ____ ____ place ____ detect potential ____ into clients' records?

Do specific procedures exist ____ ____ ____ ____ resolve ____ access to ____ client ____?

Is there a ____ ____ place ____ ____ ____ unauthorized ____ to ____ confidential information?

Is ____ ____ protocol ____ will ____ and resolve ____ ____ on ____ records?

____ there ____ ____ ____ ____ identify and remedy intrusions into ____ ____ files like ____?

____ ____ steps ____ ____ ____ intrusions into ____ clients' ____ related ____ their keys or passwords?

_____ _____ were installed to _____ identify _____ resolve _____ issues _____ _____ passwords?

_____ there _____ for _____ _____ _____ intrusion attempts on clients _____?

Does the organization _____ procedures in _____ _____ identify _____ _____ _____ are aimed at _____ _____ _____ data such as _____?

_____ proactive steps be _____ early _____ identify intrusions _____ protected _____ _____?

Is _____ _____ _____ _____ _____ resolves intrusion attempts _____ sensitive client _____ possible?

_____ _____ have robust _____ that _____ _____ _____ resolve intrusion attempts on client _____?

Do _____ have _____ in place _____ deal with _____ _____ attempts on _____ _____?

_____ procedures _____ _____ _____ in place to detect _____ _____ intrusion _____ of sensitive _____ data?

_____ _____ _____ _____ procedures in place _____ identify and correct activities that _____ _____ _____ _____ data such _____ passwords?

Do _____ _____ _____ _____ _____ detect and resolve _____ attempts on sensitive _____ files?

How _____ you _____ and _____ unauthorized access _____ _____ _____ client data?

_____ _____ _____ way to quickly detect _____ _____ _____ unauthorized access _____ client files?

_____ the _____ _____ procedures in _____ _____ _____ _____ and correct any activities aimed at _____ sensitive _____ _____ such _____ passwords?

Do _____ _____ _____ _____ to _____ and _____ attempts to _____ the security of _____ data?

What _____ have been _____ in _____ to _____ and address _____ _____ _____ _____ sensitive _____ data?

Do _____ have methods to quickly _____ _____ _____ _____ _____ confidential records?

_____ _____ procedures in place _____ _____ _____ _____ attempts _____ break into confidential files?

Are _____ able _____ identify and _____ _____ access _____ _____ _____ client data?

_____ proactive steps taken to _____ _____ intrusions _____ the records _____ _____ _____?

Do certain procedures _____ _____ _____ detect and _____ _____ _____ confidential client _____?

Measures to _____ _____ _____ _____ _____ attempts _____ valuable client information like _____.

Can _____ _____ _____ to quickly detect and _____ intrusion _____ _____ our private _____?

Dynamic _____ for _____ identification and _____ _____ _____ _____ restricted client files, _____ _____ are implemented?

_____ we have _____ _____ place to deal _____ _____ _____ _____ client data?

Are _____ _____ implemented _____ timely identification _____ _____ attempts on client _____?

_____ proper _____ _____ _____ _____ detect and address _____ attempts concerning sensitive client _____?

Is there _____ _____ in place _____ detecting _____ resolving intrusion _____ _____ _____ data?

_____ _____ _____ procedures _____ _____ for identification and _____ of intrusion attempts _____ _____ files?

_____ _____ mechanisms _____ to _____ detect and respond _____ _____ security breeches _____ _____ data?

_____ specific _____ are you _____ _____ _____ _____ _____ combat _____ _____ to gain access to client files?

Is _____ a _____ to _____ detect and resolve _____ access _____ _____ _____ files?

_____ specific protocols exist to swiftly _____ and _____ intrusion _____ _____ _____ _____?

Do _____ _____ taken to _____ detect and _____ intrusion _____ _____ _____ passwords?

_____ _____ system in place _____ immediately detect _____ handle potential _____ into _____ _____ _____?

Is there a _____ protocol in _____ to _____ _____ _____ _____ confidential information _____ _____?

_____ _____ _____ effective ways to _____ detect _____ _____ to _____ confidential records?

Do _____ procedures _____ _____ _____ detect and resolve _____ _____ client data?

_____ _____ a system in _____ _____ detecting and _____ intrusion _____ _____ client data?

Do _____ have _____ in _____ to _____ _____ and handle _____ access _____ _____ our confidential client _____?

Do proper _____ _____ to _____ _____ address intrusion attempts _____ _____ data?

Will _____ sensitive _____ files, such _____ passwords, _____ quickly _____ _____ resolved _____ _____ protocols?

_____ _____ have _____ protocols that will _____ and _____ _____ _____ on sensitive _____ files?

Do you _____ the protocols _____ _____ with _____ on private _____ _____?

Do _____ procedures exist _____ _____ resolve intrusion _____ _____ _____ client files?

_____ _____ _____ _____ break _____ _____ files, _____ passwords, be quickly recognized and resolved using _____ _____?

_____ _____ _____ certain actions aimed at spotting _____ _____ _____ to break the _____ _____ _____ data?

Is there a _____ _____ can _____ and fix _____ to _____ _____ client _____?

Is _____ _____ _____ in _____ for quickly addressing _____ _____ access to _____ confidential _____?

_____ _____ _____ in _____ to quickly detect _____ _____ into clients' records?

_____ _____ have the _____ in place to _____ detect _____ _____ _____ _____ _____ confidential client information?

Will any attempts to break _____ _____ files, such _____ passwords, _____ _____ _____ _____ resolved using _____ _____?

_____ established mechanisms _____ to _____ _____ and _____ _____ any password leaks?

_____ there a way to _____ _____ attempts to _____ _____ _____ files?

Any _____ systems _____ _____ installed _____ quickly identify _____ resolve _____ breeches _____ _____ passwords?

_____ _____ _____ _____ client _____ such _____ passwords, _____ _____ recognized and solved using established protocols?

Is _____ _____ in _____ to deal _____ potential intrusions _____ _____ data?

Does _____ _____ have _____ in _____ _____ identify _____ _____ any activities intended to _____ sensitive client data _____ as _____?

_____ there _____ in place _____ detection and _____ of intrusion _____ _____ _____ data?

Are _____ specific _____ _____ _____ _____ _____ and handling _____ attempts on sensitive client _____?

Is _____ a _____ _____ place _____ _____ with _____ access _____ confidential _____ about clients?

_____ precise _____ _____ to ensure _____ detection and resolution _____ _____ _____ on _____ clients' data?

Do you have procedures in _____ _____ quickly _____ _____ _____ attempts on _____ _____ _____ like _____?

_____ there _____ _____ system _____ to quickly _____ and resolve security breaches _____ _____ _____?

_____ you have any _____ in _____ _____ _____ _____ and _____ _____ access attempts to our confidential _____ information?

_____ _____ _____ exist _____ detecting _____ _____ security breeches on private _____ data?

_____ you able to _____ _____ _____ intrusion _____ on sensitive files _____ _____?

Which systems _____ installed _____ _____ _____ _____ _____ security breeches _____ client passwords.

Is there _____ established protocols for _____ of _____ _____ _____ client _____?

_____ _____ _____ exist for _____ and _____ security _____ _____ private client data?

Have proper _____ been put _____ _____ _____ _____ and address _____ attempts _____ sensitive _____ data?

_____ any breaches _____ client _____ such _____ _____ be _____ recognized _____ _____ using established protocols?

_____ _____ have protocols _____ _____ and _____ attempts to access _____ private _____ files _____ passwords?

_____ there a system that _____ detect _____ _____ _____ to _____ into client _____?

_____ _____ swift _____ and resolution _____ _____ intrusions _____ _____ client records be _____ through specific _____?

_____ _____ _____ procedures _____ put in place to detect _____ _____ intrusion attempts on _____ _____?

Do _____ have _____ to quickly _____ unauthorized _____ _____ on _____ client _____?

_____ there _____ way to quickly _____ _____ handle _____ intrusions into _____ sensitive _____?

_____ you _____ _____ to quickly detect any _____ to _____ my _____ _____ passwords?

Are established protocols in _____ _____ _____ _____ and resolution of _____ _____ _____ _____ data?

Are _____ _____ _____ in place that _____ _____ detection _____ _____ of attempted intrusions _____ private client _____?

_____ you have a _____ _____ catch and _____ _____ _____ _____ private client files?

Is _____ a _____ to detection _____ _____ of attempted _____ _____ _____ client records?

_____ _____ set _____ _____ that _____ quickly spot _____ _____ to client data?

How quickly are _____ methods _____ _____ detecting hacker _____ _____ _____ data?

Do _____ _____ _____ protocols to detect and _____ intrusion _____ _____ your _____ files?

Is _____ _____ _____ to _____ _____ attempts to steal _____ private _____ files on _____?

_____ the _____ ensure the _____ _____ and resolution _____ attempted _____ into protected _____ _____?

_____ _____ measures exist _____ detect and resolve _____ client _____ _____?

_____ any _____ _____ _____ to break into client files _____ _____ recognized _____ resolved _____ established _____?

_____ specific systems _____ can quickly _____ and _____ security _____ on _____ _____?

_____ _____ do _____ take to quickly _____ _____ _____ _____ attempts to _____ into client files?

_____ immediate detection _____ _____ of intrusion on _____ _____ _____ are _____ in place?

Do _____ _____ _____ _____ _____ can detect intrusion attempts _____ _____ client files?

Is there _____ protocol in _____ _____ _____ _____ _____ unauthorized _____ to clients' confidential _____?

_____ _____ a set protocol _____ resolution _____ _____ _____ targeting _____ client information?

_____ you have methods to _____ recognize _____ _____ on clients' _____ _____?

_____ you have _____ _____ that _____ quickly _____ and resolve security breeches _____ _____?

_____ steps _____ you _____ to swiftly identify _____ _____ any _____ _____ break into client _____?

_____ _____ a protocol for _____ _____ resolution _____ intrusion _____ _____ sensitive client information?

_____ there a _____ _____ ensure _____ quick _____ _____ _____ of attempted _____ into client files?

Are ____ ____ ____ detect ____ handle attempts ____ ____ my ____ ____ files on passwords?

Does ____ ____ ____ procedures ____ place to ____ ____ fix any activities that ____ to ____ sensitive ____ ____ such ____ passwords?

____ there a protocol to detect ____ ____ ____ attempts on ____ ____?

proactive ____ ____ ____ identify intrusions into ____ clients' ____ specifically addressing possible breaches ____ ____ ____

Any measures to ____ detect and ____ ____ ____ ____ ____ client information?

Do ____ ____ ____ in ____ ____ quickly deal with ____ access ____ ____ ____ confidential client information?

Any ____ taken ____ quickly ____ and resolve intrusion ____ ____ ____ ____ ____ like passwords?

____ ____ measures exist to detect ____ ____ ____ breeches on private ____ ____?

____ ____ have protocols ____ detecting and ____ intrusion attempts ____ client ____?

____ ____ ____ ____ ____ ensure rapid ____ and resolution ____ ____ attempts on clients' data?

Have proper procedures been ____ ____ ____ and ____ intrusion ____ ____ ____ client data?

Is there a protocol ____ ____ ____ resolving intrusions ____ ____ ____ information?

Do you have ____ ____ quickly ____ ____ address ____ access ____ ____ our client ____?

Measures ____ detect ____ resolve ____ ____ to ____ client ____ like passwords.

____ there ____ set ____ for detecting ____ that target ____ client ____?

____ ____ quickly ____ ____ ____ intrusion attempt to target ____ ____ like passwords?

____ ____ steps do you ____ to ____ any ____ to break ____ client ____?

____ the organization have ____ ____ place ____ ____ ____ correct activities that ____ compromise sensitive client data ____ ____ ____?

____ ____ ____ have procedures ____ place to promptly identify ____ ____ any activities ____ ____ compromising ____ client ____ such ____ passwords?

Are precise ____ in ____ ____ ensure swift ____ ____ ____ ____ on clients' data?

Do ____ ____ ____ ____ detect and deal ____ hacks on private ____ ____?

____ specific measures exist for ____ ____ ____ resolving ____ ____ on private ____ data?

Will any attempts ____ ____ into ____ ____ ____ quickly identified ____ resolved ____ established ____?

____ you have ____ ____ ____ with hacks on ____ client ____?

Do specific ____ ____ to ____ ____ ____ ____ password breeches in confidential client ____?

____ a protocol in ____ ____ quickly ____ and resolve ____ ____ ____ protected client ____?

____ there ____ protocols ____ place ____ ____ ____ access to private client ____?

____ ____ be ____ measures ____ detecting and resolving ____ ____ on ____ client data?

Is ____ a ____ ____ can ____ ____ ____ attempts on private client ____?

Do you ____ ____ to quickly ____ ____ ____ access attempts on ____ client ____?

____ ____ ____ ____ ____ detect ____ ____ intrusion attempts targeting confidential client files?

____ there ____ set protocol ____ detecting intrusions ____ ____ ____ information?

____ established ____ exist to promptly recognize ____ resolve intrusion ____ ____ ____ client ____?

Do we have ____ proper ____ ____ ____ to detect ____ ____ intrusion attempts on ____ ____?

____ there ____ protocol ____ place to swiftly ____ and resolve ____ ____ ____ client ____?

____ you ____ protocols ____ quickly detecting ____ to ____ ____ private ____ ____ on passwords?

Is ____ a ____ for ____ ____ resolving intrusion attempts ____ ____ files?

Is ____ ____ protocol in place to ____ ____ ____ to confidential ____ ____ clients?

Can the ____ ____ ____ ____ ____ intrusions on ____ client ____ be accomplished ____ specific protocols?

Is ____ ____ set ____ ____ ____ intrusion efforts targeting ____ client information?

Have procedures ____ put ____ ____ ____ ____ intrusion attempts ____ sensitive ____ data promptly?

Do ____ ____ specific measures ____ place ____ quickly detecting ____ handling intrusion ____ ____ ____ data?

____ ____ a system ____ can detect and fix ____ ____ of ____ client ____?

Measures to rapidly ____ ____ ____ ____ ____ targeting ____ client information like ____.

How ____ precise ____ ensure rapid detection ____ intrusion ____ ____ ____ clients' ____?

____ there ____ ____ to ____ ____ ____ ____ breeches on private client data?

____ ____ ____ have procedures in place to identify ____ ____ ____ aimed at ____ ____ client data like ____?

Do ____ have ____ ____ ____ to quickly detect ____ deal ____ unauthorized access attempts ____ ____ confidential ____ information?

Have ____ been put in place ____ ____ ____ attempts ____ ____ data?

_____ protocols ensure that the _____ _____ and _____ of attempted intrusions _____ _____ _____ files _____?

_____ _____ _____ _____ put _____ place _____ detect and resolve intrusion attempts _____ _____ files?

Do precise methods _____ that _____ quick detection _____ _____ _____ on _____ clients' _____?

_____ _____ detection and _____ _____ _____ on private client _____ are _____ protocols _____ place?

_____ proper _____ been put _____ place to detect and _____ intrusion _____ _____ _____ _____ data?

_____ you have methods to _____ suspicious _____ on _____ _____ _____?

_____ _____ to _____ _____ _____ resolve intrusion attempt to _____ client information _____ passwords?

Do you have _____ _____ use _____ deal with _____ on _____ _____ _____?

_____ there specific measures in _____ for _____ and _____ _____ _____ on sensitive _____ _____?

Is there a _____ in _____ _____ deal _____ unauthorized _____ to _____ _____ regarding _____?

_____ _____ _____ _____ installed to quickly _____ and resolve security _____ on _____?

Should proactive _____ _____ _____ _____ intrusions into protected clients' _____?

Dynamic measures _____ swift identification and _____ _____ intrusions into _____ client _____ _____ _____?

_____ _____ _____ in place for _____ _____ _____ resolution of intrusion _____ private _____ data?

Are _____ able to _____ _____ _____ _____ _____ access attempts _____ our confidential client information, _____ _____?

Is there _____ _____ for _____ and _____ _____ attempts _____ client files?

_____ you _____ robust protocols to deal with _____ _____ _____ _____ files?

_____ specific steps do _____ _____ to _____ _____ _____ any _____ access to _____ client files?

_____ there specific _____ in place that allow _____ detection and resolution _____ _____ _____ _____ _____ client _____?

Which specific systems are installed _____ _____ _____ _____ _____ breeches on client _____?

Any _____ in _____ to quickly identify _____ _____ _____ breeches on _____ _____?

_____ there any specific _____ _____ _____ quickly identify _____ _____ security _____ on client _____?

_____ _____ _____ _____ _____ detect _____ resolve hacks on client files?

Are _____ implemented _____ _____ _____ and _____ _____ intrusion attempts on _____ files?

Is there _____ _____ _____ for immediate detection and _____ of _____ _____ targeting _____?

_____ there a _____ _____ to _____ _____ attempts _____ confidential client files?

_____ there _____ _____ in place for _____ _____ _____ _____ of _____ intrusions on private _____ records?

_____ _____ _____ set protocol _____ place for _____ detection _____ resolution of intrusion _____ _____ _____ client information?

_____ a system for _____ and _____ _____ _____ into _____ _____ records in place?

_____ there protocols _____ place _____ _____ _____ _____ that compromise passwords _____ _____ vital information?

Do protocols _____ _____ _____ attempts _____ client _____ exist?

When _____ comes to _____ _____ _____ _____ passwords, _____ we _____ _____ measures _____ quickly identify and address _____ breeches?

Do _____ know _____ _____ identify and _____ _____ _____ attempts on _____ client data?

Do _____ _____ efficient systems to quickly _____ _____ access _____ _____ data?

Will _____ _____ to break _____ _____ _____ such as passwords be _____ identified _____ _____ using _____ protocols?

Is there _____ _____ place for detecting _____ _____ _____ on _____ _____ data?

Do _____ _____ protocols _____ deal _____ _____ attempts _____ clients' files?

_____ protocols ensure the swift _____ _____ resolution of attempted _____ _____ _____ _____?

Is there any _____ protocols _____ place _____ detect _____ _____ _____ _____ private client _____?

Do there measures _____ identify _____ _____ _____ _____ private client _____?

_____ _____ certain protocols _____ enable the _____ detection _____ attempted intrusions _____ _____ client _____.

_____ the _____ in _____ _____ _____ and _____ with potential intrusions into clients' _____?

For prompt _____ _____ _____ _____ _____ passwords, are secure protocols _____?

Do _____ have protocols _____ _____ with hacking attempts _____ _____ clients _____?

Do _____ _____ exist _____ swiftly detect _____ resolve _____ _____ of _____ data?

There may _____ specific protocols _____ _____ _____ _____ the swift _____ _____ resolution _____ attempted intrusions on private _____ _____.

Do precise methods exist _____ _____ swift _____ _____ _____ _____ on _____ data?

_____ _____ _____ _____ place to _____ _____ potential intrusions into clients' sensitive _____?

_____ _____ protocols exist for _____ detection _____ _____ of attempted intrusions _____ private _____ _____?

Can _____ _____ a _____ protocol for immediate _____ _____ _____ of _____ efforts targeting _____ _____ information?

There _____ certain _____ _____ allow _____ swift detection and _____ of attempted _____ _____ _____ _____ records.

Is there a way _____ _____ _____ _____ to gain _____ to _____ _____ client _____ on _____?

Is there _____ _____ to _____ _____ _____ possible intrusions into _____ records?

Did established procedures _____ _____ _____ _____ resolve intrusion attempts on private _____ _____?

_____ _____ _____ _____ that can _____ _____ resolve security breeches _____ private client data?

_____ a _____ in place _____ _____ potential _____ into _____ records quickly?

_____ proactive _____ _____ to _____ intrusions into _____ clients' records _____ to _____ _____ and passwords?

_____ _____ to _____ detect _____ resolve intrusion _____ _____ target _____ client information?

_____ _____ _____ specific protocols _____ place _____ _____ _____ swift detection and _____ of _____ intrusions _____ private client records?

Is there a _____ _____ _____ _____ _____ fix _____ to _____ _____ confidential client files?

_____ a _____ _____ place for detecting _____ handling _____ intrusions into _____ sensitive _____?

Have procedures been _____ _____ _____ to detect _____ _____ intrusion _____ on _____ data _____?

What _____ are _____ place _____ _____ _____ and resolve _____ attempts _____ client files?

Is there _____ _____ to _____ _____ and _____ unauthorized _____ to _____ files?

Is _____ possible _____ quickly _____ attempts to _____ my private _____ _____ _____ passwords?

_____ procedures are in _____ _____ _____ _____ handle attempts to _____ _____ confidential files?

Can _____ quickly _____ _____ _____ attempts to private _____ _____ like passwords?

_____ _____ procedures _____ to quickly _____ invasions _____ private _____ files?

How _____ _____ _____ _____ _____ ensure rapid detection _____ _____ attempts on _____ clients' data?

_____ _____ intrusions into client files such as _____ be _____ resolved _____ _____ _____?

How do you _____ and combat _____ _____ to _____ _____ _____ files?

_____ you have strong protocols that detect and _____ _____ _____ on _____ _____ _____?

_____ _____ measures _____ _____ detecting and resolving _____ client data security _____?

_____ a _____ in place _____ _____ detect and _____ _____ _____ into clients' records?

Is _____ _____ _____ _____ _____ identify intrusions _____ protected clients' records?

Does the organization have procedures in place _____ _____ and _____ _____ _____ _____ are _____ _____ _____ _____ data such as _____?

Do _____ _____ and _____ _____ of _____ files?

_____ _____ have _____ for _____ _____ on private client files?

Will any _____ to _____ _____ _____ _____ _____ passwords be quickly recognized _____ resolved using _____ _____?

_____ there _____ protocol that _____ _____ _____ resolve intrusion _____ on sensitive _____ records?

When it _____ to _____ client information _____ _____ do _____ _____ _____ _____ that protect it?

_____ have _____ _____ deal with hacks _____ _____ client files?

_____ _____ like to know _____ _____ are protocols _____ detecting and resolving _____ attempts _____ _____ _____.

_____ you _____ protocols to quickly _____ _____ solve intrusion attempts _____ _____ _____?

Is there _____ specific protocol _____ place _____ dealing _____ _____ _____ to _____ _____ about clients?

_____ established _____ ready _____ _____ and respond _____ any breach _____ securing _____ data?

_____ _____ are installed to quickly _____ _____ _____ security _____ on client _____.

_____ the organization have _____ _____ place _____ identify _____ _____ that aim to _____ _____ _____ _____ such as passwords?

Is there _____ _____ _____ _____ can _____ identify _____ resolve _____ _____ on client passwords?

Are _____ protocols _____ place _____ detection _____ _____ of _____ _____ private client data?

_____ to detect and _____ _____ _____ client _____

_____ _____ organization have procedures _____ _____ for promptly identifying _____ activities _____ aim _____ compromise sensitive _____ data _____ _____ passwords?

Do _____ _____ taken to early _____ _____ into protected clients' _____ _____ _____ _____ breaches of their _____?

_____ _____ _____ _____ exist for _____ and resolving security breeches _____ private client _____?

_____ _____ _____ _____ to identify _____ into protected clients' records _____ _____ their keys _____ passwords?

_____ _____ _____ _____ methods to quickly detect instances _____ _____ access or _____ with clients' _____ such as _____?

_____ proper procedures _____ _____ _____ in _____ to _____ and address _____ attempts involving client _____?

Do _____ have _____ _____ _____ to deal with _____ _____ on _____ data?

_____ you _____ _____ in place _____ quickly _____ _____ _____ unauthorized access attempts on _____ _____ client information?

_____ there _____ _____ protocol in place _____ deal with any _____ _____ _____ _____ information?

____ the organization have procedures in ____ to ____ identify any ____ ____ ____ compromising sensitive ____ ____ such ____ ____?

Do you ____ ____ there ____ ____ ____ protocol in ____ for ____ with ____ ____ to clients?

Is there a ____ ____ ____ and resolve ____ ____ ____ client records?

____ you have ____ ____ to detect ____ ____ ____ clients' records?

Do ____ know of any specific systems installed ____ ____ ____ ____ ____ ____ breeches on ____ ____?

____ you have ____ ____ to quickly identify ____ ____ ____ clients' ____ records?

Will ____ ____ ____ actual intrusions into ____ files ____ swiftly ____ and resolved ____ ____ protocols?

Is ____ ____ to detect ____ fix attempts ____ intrude ____ ____ ____ available?

Is ____ a system ____ ____ ____ detecting and ____ ____ attempts ____ sensitive ____ data?

Can you identify ____ ____ any ____ access attempts on ____ ____ ____?

____ specific procedures exist ____ ____ detect and resolve ____ ____ client ____?

____ there ____ procedure in ____ for dealing ____ unauthorized access to ____ ____ ____?

Will any ____ ____ ____ ____ such ____ passwords, be quickly ____ and ____ using established ____?

____ proper procedures been ____ in ____ ____ detect intrusion ____ related ____ ____ client ____?

Have ____ ____ ____ ____ ____ detect and address ____ attempts regarding sensitive ____ data?

____ ____ ____ have procedures in place ____ ____ ____ and ____ any activities that aim ____ ____ ____ data ____ as passwords?

____ ____ ____ taken ____ identify ____ ____ protected clients' records ____ are related to ____ keys/passwords?

Does ____ system in ____ to ____ ____ ____ ____ ____ into clients' records work?

____ there ____ ____ place for ____ ____ detection and ____ ____ attempted intrusions into client ____?

Is the ____ ____ place ____ detect ____ ____ with intrusions ____ ____ records?

____ there a ____ way ____ quickly ____ and ____ any sensitive ____ ____ ____ passwords?

____ proper procedures been ____ ____ detect and ____ ____ attempts ____ client ____?

____ ____ were ____ to identify ____ resolve ____ breeches ____ client passwords?

____ ____ have a plan ____ ____ and address ____ ____ ____ to private client ____?

____ ____ a protocol for ____ intrusion attempts on ____ ____?

____ ____ any system ____ will ____ identify ____ resolve security breeches ____ ____ passwords?

____ are ____ ____ detect and address ____ of ____ files?

Do you have ____ to quickly ____ ____ access ____ on ____ ____ ____?

____ proper ____ been ____ place to ____ and address intrusion ____ ____ client ____?

____ ____ procedures ____ can quickly identify ____ ____ attempts to ____ ____ confidential files?

How can ____ ____ ____ put ____ ____ to detect ____ address intrusion attempts ____ client ____?

____ established procedures ____ to ____ ____ ____ ____ on client files?

____ ____ ____ measures taken to quickly detect intrusion ____ on ____ ____?

Do ____ have ____ in ____ ____ identify unauthorized ____ attempts on ____ client ____?

Measures ____ ____ ____ and resolve intrusion tries targeting ____ ____ ____ like ____

____ for detecting ____ ____ intrusion ____ ____ client files?

Is there ____ ____ ____ identify and ____ ____ ____ to ____ client information?

Do ____ have procedures in place ____ quickly ____ ____ ____ ____ ____ ____ client information?

____ you ____ ____ ____ place to deal with any ____ ____ attempts on ____ ____ client ____?

____ you ____ procedures in place ____ quickly ____ and ____ unauthorized ____ ____ on ____ ____ client information?

____ any intrusions into sensitive client ____ be ____ ____ and ____ using ____ ____?

____ you ____ ____ actions to ____ attempts to ____ the ____ of ____ data?

____ ____ ____ ____ ____ ____ swift to detect ____ resolve intrusion attempts on client ____?

Any ____ installed to ____ identify and resolve ____ breeches ____ ____ ____?

____ ____ ____ ____ to identify ____ activity on clients' ____ records?

____ ____ ____ protocol in place ____ quickly address unauthorized access ____ ____ confidential ____?

____ ____ ____ ____ enabling the swift ____ ____ ____ of attempted intrusions on private ____ records?

____ there ____ ____ protocol for detection ____ resolution ____ ____ efforts targeting sensitive ____ ____?

____ ____ ____ targeted methods ____ at quickly detecting ____ resolving instances of unauthorized ____ or ____ ____ ____?

What steps do ____ ____ ____ ____ ____ ____ any attempts to steal client ____?

proactive ____ taken ____ ____ ____ intrusions ____ ____ clients' ____ specifically addressing possible breaches ____ their ____ ____ ____ procedures exist to swiftly ____ ____ resolve ____ ____ client data?

____ there a ____ in place that ____ swift ____ ____ intrusion ____ on ____ ____ data?

Do specific ____ ____ ____ quickly ____ and resolving ____ in ____ data?

Have proper procedures been ____ ____ place ____ ____ and ____ ____ attempts ____ client ____?

____ there ____ established protocol ____ detection ____ ____ on private client ____?

Measures to detect and ____ intrusion ____ ____ ____ important ____ ____ like ____.

Has protocols been ____ ____ identify ____ ____ on ____ files?

Do specific procedures ____ ____ quickly ____ and ____ with ____ ____ data ____?

Are ____ ____ protocols ____ can ____ ____ ____ address ____ access ____ private client information?

____ ____ ____ ready ____ detect and ____ ____ any security breaches of ____ data?

Do you have ____ ____ ____ ____ detect suspicious activity ____ ____ confidential ____?

Do ____ ____ ____ ____ to swiftly detect and resolve instances ____ unauthorized access ____ ____ ____ vulnerable ____ data such ____ ____?

Is precise ____ ____ ____ to ____ and resolve intrusion ____ ____ confidential ____ data?

____ ____ ____ ____ to ____ identify ____ address ____ ____ attempts on private client data?

____ precise ____ in place ____ rapid detection ____ ____ attempts ____ ____ clients' data?

Is a protocol ____ ____ that ____ quickly ____ and ____ ____ ____ to ____ files?

____ there specific measures ____ place ____ ____ detecting ____ handling ____ attempts ____ client ____?

____ there ____ ____ ____ detect ____ attempts ____ compromising passwords or ____ vital information?

____ proper procedures been ____ in place ____ ____ ____ address ____ ____ that ____ client data?

____ specific steps do ____ take ____ quickly ____ ____ ____ ____ attempts to ____ client files?

Will ____ attempts ____ ____ into ____ client ____ be ____ ____ and solved ____ established protocols?

____ ____ ____ ____ quick resolution ____ attempted intrusions into client ____?

Do you use specific ____ ____ ____ and manage ____ ____ break ____ the ____ of ____ ____?

Is ____ steps ____ to early ____ intrusions ____ protected ____ records ____ ____ their ____ andpasswords?

____ do ____ deal with ____ intrusions into client ____ swiftly by ____ ____ ____?

Are ____ measures ____ quickly detect ____ ____ intrusion ____ on client ____?

Does the ____ ____ ____ in ____ ____ ____ ____ any activities that aim to ____ sensitive ____ data such ____ passwords?

Should you have ____ ____ ____ hacks on ____ ____ files?

Are protocols ____ place ____ ____ ____ and ____ ____ intrusions ____ client files?

What ____ are in ____ ____ ____ ____ and handle ____ ____ on sensitive client ____?

Is ____ measures ____ ____ quickly ____ and ____ ____ ____ on client files?

Is there ____ specific ____ in ____ to ____ ____ ____ ____ access to confidential information ____ ____?

Can a ____ quickly ____ ____ ____ to client ____?

Do you have procedures ____ quickly ____ unauthorized ____ ____ ____ ____ information, ____ passwords?

____ there ____ way to detect ____ ____ ____ intrusions ____ ____ sensitive records?

Have the ____ ____ ____ put ____ ____ ____ detect and address intrusion attempts on ____ ____?

Will ____ ____ involving client ____ be ____ ____ and ____ ____ established protocols?

Are ____ in action ____ ____ and ____ ____ ____ client files?

____ ____ ____ ____ installed ____ ____ identify and resolve security breeches on client ____?

Can there ____ measures to identify ____ ____ ____ ____ ____ data?

____ steps taken to ____ ____ ____ protected ____ ____ ____ addressing possible breeches of their ____

____ protocols in ____ ____ ____ ____ resolution of ____ on private client ____?

Do specific procedures ____ to ____ ____ ____ ____ security violations ____ client ____?

____ do you deal with ____ ____ ____ confidential client ____ quickly ____ ____ procedures?

What ____ the protocol for ____ ____ resolution ____ ____ ____ targeting sensitive client ____?

____ ____ precise methods in place ____ swift ____ ____ resolution of ____ ____ on confidential ____ ____?

____ ____ ____ ____ that ____ ____ detection and resolution of ____ attempts on confidential ____ data?

Do ____ ____ to ____ ____ on ____ files?

Can there ____ ____ to ____ ____ address ____ on ____ client data?

____ ____ any ____ in place ____ can ____ identify and ____ security breeches ____ client ____?

Is there a specific ____ to ____ ____ ____ ____ ____ attempts on ____ ____ data?

____ there ____ protocol in ____ for ____ and ____ intrusion ____ ____ ____ client information?

____ ____ put ____ ____ ____ ____ to spot unauthorized access to client ____?

Is there ____ ____ to ____ ____ and resolve ____ access ____ ____ files?

____ it ____ to sensitive ____ information like ____ ____ ____ have specific ____ ____ place?

Is ____ specific ____ ____ place ____ ____ swift detection ____ ____ ____ attempted intrusions ____ private client records?

Have ____ ____ been ____ in ____ ____ detect ____ ____ intrusion attempts regarding ____ client data?

Is ____ ____ protocol in ____ to ____ and ____ intrusions ____ ____ client information?

____ ____ be a ____ protocol ____ immediate ____ and ____ ____ ____ efforts targeting ____ client information.

____ ____ procedures exist to quickly recognize and solve ____ ____ ____ ____ client ____?

Is ____ a specific protocol in ____ ____ ____ with ____ ____ access ____ ____ confidential information?

Do ____ ____ ____ any specific ____ ____ can quickly identify ____ resolve ____ ____ on client ____?

____ ____ ____ into ____ ____ including ____ be quickly ____ and solved ____ established protocols?

Can established mechanisms quickly detect ____ ____ to ____ ____ ____ ____ securing ____ data?

____ ____ ____ robust ____ detect and resolve ____ ____ ____ sensitive client files?

Do ____ have a way to ____ with ____ ____ ____ ____ files?

Do ____ have efficient systems in ____ ____ ____ ____ unauthorized ____ into client ____?

____ some measures exist ____ ____ and resolve ____ ____ ____ ____ client data?

Do ____ ____ ____ for ____ detecting ____ resolving ____ client data breeches?

Protocols ____ ____ and address ____ ____ client ____.

____ established ____ have ____ ____ to ____ detect ____ respond to any ____ data ____?

____ there ____ way ____ detect intrusion ____ ____ ____ ____ or other important information?

____ specific steps ____ ____ ____ to combat any attempts ____ ____ ____ to client ____?

____ ____ ____ involving client files ____ as ____ ____ ____ recognized ____ resolved using established protocols?

Are proactive ____ ____ ____ detect ____ ____ ____ clients' records, specifically ____ ____ breeches of their ____?

____ ____ system in ____ to handle potential ____ ____ clients' sensitive ____?

Do ____ ____ exist ____ quickly detect and ____ ____ attempts ____ client ____?

____ ____ you ____ ____ ____ into confidential client ____ by implementing ____ procedures?

Do you have protocols ____ ____ ____ hacking on ____ ____?

Measures to ____ ____ and ____ intrusion ____ ____ ____ valuable client information, like ____?

Do ____ ensure ____ quick detection and resolution ____ intrusions ____ ____ ____?

____ there security protocols ____ ____ ____ identify ____ ____ ____ unauthorized access to private client ____?

____ precise methods ____ to detect ____ ____ intrusion ____ on ____ clients' ____?

Are ____ ____ ____ ____ that ensure ____ detection of ____ ____ ____ confidential clients' data?

____ ____ procedures in place to ____ and ____ ____ attempts ____ ____ data?

____ there any ____ you ____ ____ identify and ____ ____ access attempts on ____ client ____?

Does ____ ____ have ____ in place ____ identify ____ ____ ____ activities ____ ____ compromise client ____ such as passwords?

Can ____ ____ ____ quickly ____ and fix ____ ____ intrude ____ client files?

Do you ____ ____ actions ____ ____ ____ ____ attempts to break the security ____ ____ data?

Will any ____ intrusions into client ____ ____ ____ passwords, be quickly ____ ____ ____ using ____ ____?

Do ____ ____ ____ for ____ ____ hacks ____ private client files?

Is ____ a protocol for ____ ____ ____ sensitive client ____?

____ established ____ exist ____ ____ ____ and resolve intrusion attempts ____ private client ____?

Can ____ be protocols ____ detecting ____ ____ on client ____?

____ ____ a protocol that effectively resolves ____ ____ on sensitive ____ ____?

____ do we ____ ____ deal ____ ____ attempts on sensitive ____ data?

Any ____ taken to ____ detect ____ ____ intrusion that ____ ____ client ____?

____ protocols ____ ____ detect and resolve intrusion ____ private ____ ____?

How do you tackle potential ____ into ____ ____ ____ ____ by ____ ____?

_____ _____ been put in _____ to _____ _____ attempts _____ sensitive client _____?

Do you _____ _____ _____ _____ identify _____ unauthorized _____ attempts on _____ private client _____?

Is _____ _____ _____ _____ intrusion _____ on client files?

Will any intrusions _____ _____ _____ including passwords, _____ quickly _____ and _____ using _____ _____?

Specific measures _____ for _____ _____ _____ security breeches on _____ client _____

Does a _____ in place _____ _____ _____ potential intrusions _____ clients' _____ _____?

_____ procedures been put _____ _____ _____ uncover and address any _____ _____ _____ _____ documents?

_____ _____ _____ detection _____ intrusion attempts compromising _____ _____ vital _____ are secure protocols _____?

_____ _____ _____ _____ implemented _____ detect _____ address intrusion attempts regarding client _____?

_____ _____ _____ _____ _____ detection of _____ intrusions into client files?

_____ _____ a procedure to quickly _____ _____ handle attempts _____ break into _____ _____?

Does _____ _____ _____ place to deal with _____ _____ into _____ _____ records exist?

Do _____ have _____ way _____ _____ with _____ client files being _____?

Do _____ procedures _____ to quickly detect and _____ _____ of _____ _____?

_____ procedures been put in _____ to _____ and address _____ _____ involving _____ _____?

_____ it comes to _____ client _____ _____ passwords, do we have _____ _____ measures _____ _____?

_____ precise _____ _____ _____ _____ detection of intrusion attempts on clients' _____?

_____ _____ a way _____ quickly identify _____ address any _____ _____ _____ sensitive _____ _____ like passwords?

Do _____ use specific actions _____ spot and manage any _____ _____ breaching _____ _____ _____ _____ _____?

_____ the _____ have procedures _____ place to identify and _____ activities _____ _____ _____ _____ _____ data like passwords?

_____ _____ _____ specific _____ _____ spot and manage _____ _____ _____ break the security of client _____?

Can _____ be specific measures _____ _____ and _____ security _____ _____ _____ client data?

Do _____ _____ _____ _____ quickly detect and resolve client _____ security _____?

_____ swift detection _____ _____ _____ attempted intrusions _____ private _____ records _____ be _____ _____ specific protocols.

_____ you _____ _____ _____ place to _____ and address any _____ _____ attempts _____ _____ confidential client information?

Are _____ _____ to quickly _____ _____ _____ unauthorized _____ _____ on private client data?

_____ _____ procedures exist _____ quickly identify intrusion attempts on _____ _____ _____?

_____ _____ specific _____ _____ can quickly _____ and resolve security breeches _____ _____ passwords?

_____ _____ procedures _____ to quickly detect and _____ _____ of client _____?

_____ there _____ _____ installed _____ can quickly _____ and resolve security _____ _____ _____ passwords?

Is there any _____ _____ _____ can _____ identify and _____ security _____ on _____ _____?

Do specific _____ exist for _____ _____ and resolving _____ _____ client _____?

_____ your _____ _____ and deal with _____ on private _____ _____?

_____ there a _____ _____ quickly _____ _____ intrusions into clients' _____ records?

_____ _____ possible _____ _____ rapid _____ and resolution _____ intrusion attempts on clients' _____?

_____ procedures _____ _____ in _____ to detect _____ address _____ attempts on _____ data?

Are secure _____ used to _____ _____ attempts that _____ _____ passwords _____ _____ vital _____?

Is _____ a specific measure _____ _____ _____ _____ security breeches on _____ _____ data?

_____ _____ protocols _____ for _____ intrusion _____ private client data?

_____ _____ protocol in place to _____ _____ access _____ client _____?

Do _____ _____ protocols _____ _____ and _____ with _____ attempts on _____ files?

Do precise methods exist to _____ _____ _____ _____ _____ attempts on confidential _____ _____?

_____ you have _____ _____ _____ detecting _____ resolving intrusion _____ on sensitive client _____?

Is _____ _____ _____ place to _____ _____ and _____ attempts to intrude client _____?

_____ there a protocol _____ _____ to quickly detect _____ _____ unauthorized access _____ _____ _____?

Is _____ a _____ _____ _____ _____ handling intrusion attempts _____ _____ client data?

Is _____ a _____ to _____ _____ and fix _____ to _____ confidential client _____?

Do you _____ _____ to deal _____ _____ on _____ files?

_____ the _____ taken to _____ detect _____ _____ _____ attempts related to client _____?

Is a _____ protocol in _____ for detection _____ _____ of intrusion _____ _____ sensitive _____ _____?

Is ____ ____ taken to early ____ intrusions ____ protected clients' ____ related ____ ____ keys ____?

Are there ____ ____ ____ place for the ____ ____ ____ ____ ____ attempted intrusions ____ private client records?

Is ____ a ____ protocol ____ ____ for immediate ____ ____ intrusion ____ targeting sensitive ____ information?

____ are protocols ____ will ____ the ____ ____ ____ attempted intrusions into ____ ____ files.

____ there ____ ____ that allow ____ swift ____ ____ attempted ____ ____ private client records?

Is ____ a ____ in place ____ ____ resolve ____ ____ to client ____?

____ ____ ____ ____ in place to swiftly ____ ____ address unauthorized access attempts ____ client ____?

____ ____ sensitive client ____ such as ____ be ____ identified and resolved ____ ____ ____?

____ your protocols ____ detect and ____ ____ attempts on ____ ____ files like ____?

____ ____ ____ taken ____ ____ intrusions into ____ clients' ____ specifically addressing ____ breeches of ____ passwords?

____ there ____ protocols ____ the detection and ____ of intrusion on ____ ____ ____?

Is a system in place to deal ____ ____ ____ ____ ____ ____?

Do any ____ ____ to ____ detect ____ resolve intrusion attempt ____ target ____ ____?

Do ____ ____ measures in ____ to ____ ____ ____ attempts ____ private client data?

Do you ____ ____ ____ place ____ quickly ____ and address ____ access attempts ____ ____ client ____?

Have ____ ____ ____ put in ____ ____ detect and ____ with ____ ____ on sensitive ____ data?

____ established procedures in ____ to quickly ____ ____ ____ on private ____ ____?

Is there ____ ____ to ____ ____ ____ resolve unauthorized access ____ ____ file?

____ ____ ____ used for identification ____ resolution of ____ ____ on client ____?

____ ____ a ____ ____ detect ____ fix ____ to intrude confidential ____ files?

____ protocols ____ ____ can quickly detect and address ____ ____ on ____ ____?

Is ____ protocol ____ ____ and resolves ____ attempts on sensitive ____ ____?

____ proper procedures been put in place ____ ____ ____ address ____ ____ ____ ____ data?

Do you have methods to ____ ____ ____ ____ ____ clients' confidential ____?

Do the ____ ____ quick detection ____ resolution ____ ____ intrusions into ____ client ____?

The ____ ____ and ____ ____ attempted ____ on private ____ records is aided ____ ____ protocols.

____ it possible to ____ detect ____ resolve intrusion attempts ____ ____ ____ ____?

____ ____ set protocol ____ place ____ detection ____ ____ of intrusions ____ ____ client information?

____ ____ ____ protocols ____ deal with hacking of private ____ ____?

Do we use targeted methods to ____ detect ____ resolve ____ ____ ____ ____ or ____ ____ clients' ____ such as ____?

Do any ____ ____ exist ____ ____ ____ resolve ____ incidents on private client ____?

____ established protocols ____ place ____ detecting ____ ____ private ____ data?

____ ____ have procedures in place ____ ____ ____ intrusion ____ on sensitive client ____?

What procedures exist to ____ ____ ____ ____ ____ ____ private client files?

Are ____ measures that are taken ____ ____ detect ____ ____ ____ ____ on ____ files?

Is ____ ____ ____ to detect and deal ____ ____ ____ into clients' ____ records?

____ there ____ procedures to quickly identify ____ ____ attempts to ____ ____ ____ files?

Is ____ a way ____ ____ ____ and address ____ ____ of client information ____ ____?

Can ____ ____ be ____ ____ quickly detect ____ resolve intrusion attempts on ____ ____?

____ there ____ ____ measures ____ ____ ____ resolving security breeches ____ client data?

Do you have ____ ____ ____ for ____ ____ resolution ____ intrusion efforts ____ ____ client information?

Is there ____ protocol in place ____ ____ ____ ____ and ____ unauthorized ____ to client ____?

____ you ____ protocols to quickly detect ____ solve ____ attempts ____ sensitive ____ ____?

____ established mechanisms ____ to ____ detect ____ respond ____ any ____ data security ____?

Can ____ ____ ____ protocol to quickly ____ and ____ unauthorized ____ to ____ files?

____ there a ____ for ____ ____ identify and ____ ____ sensitive ____ information related to ____?

Will any ____ of ____ ____ ____ as ____ be swiftly recognized ____ resolved ____ ____ protocols?

Is it possible ____ identify and address ____ ____ of ____ ____ ____ like ____?

Is there ____ ____ procedure ____ place for ____ with ____ ____ ____ clients' information?

____ it possible ____ ____ ____ detect any attempts ____ ____ my ____ ____ ____ on passwords?

Do you _____ protocols _____ _____ to _____ _____ _____ on _____ client files?

Will _____ _____ intrusions of _____ files _____ _____ recognized and _____ _____ established protocols?

_____ _____ have _____ in place to quickly detect any unauthorized _____ _____ _____ our _____ _____?

Do _____ have _____ in _____ to _____ to unauthorized _____ _____ on _____ confidential _____ information?

_____ proper procedures been _____ in place _____ _____ _____ attempts _____ sensitive _____ data?

Are you able _____ _____ _____ address _____ access _____ on _____ client _____?

_____ _____ _____ and _____ intrusion _____ client files?

Do you _____ efficient systems _____ _____ spot _____ _____ to client _____?

What _____ _____ _____ _____ _____ resolution _____ intrusion on private client data?

_____ _____ _____ a _____ _____ for _____ detection and _____ _____ _____ efforts targeting sensitive client information?

Can you _____ identify and address _____ _____ _____ on _____ _____ _____ like passwords?

Is there a protocol in _____ _____ detecting _____ _____ _____ efforts on _____ _____ _____?

_____ _____ methods in _____ _____ ensure quick _____ and _____ _____ intrusion _____ on confidential _____ data?

Is there a specific protocol _____ _____ to _____ with _____ _____ _____ clients' _____ _____?

Doestablished _____ _____ to _____ resolve _____ attempts on private _____ _____?

_____ _____ _____ _____ quickly detect and solve intrusion attempts _____ _____ files?

Do _____ _____ procedures in _____ to _____ _____ _____ _____ access _____ on our _____ client information?

Are there procedures in _____ to _____ _____ _____ handle _____ to _____ _____ _____ _____ and passwords?

_____ there a _____ _____ quickly detect _____ _____ unauthorized _____ to client _____?

Is _____ a _____ protocol _____ _____ and _____ _____ attempts targeting sensitive _____ information?

_____ _____ have _____ way to _____ _____ hacks on client _____?

Is _____ specific measures in _____ _____ _____ detecting _____ _____ intrusion attempts on sensitive _____ _____?

_____ there _____ _____ that takes _____ of intrusion attempts _____ client _____?

_____ systems were installed _____ _____ _____ and _____ security breaches _____ _____ passwords?

Have proper _____ _____ put in place _____ _____ _____ _____ sensitive _____ data promptly?

Do _____ methods _____ _____ ensure _____ resolution of _____ attempts _____ confidential clients' _____?

_____ steps _____ _____ early identify intrusions _____ _____ clients' records, _____ addressing _____ _____ of keys/passwords?

Have _____ _____ _____ _____ _____ place _____ _____ and address _____ attempts involving client data?

_____ it _____ _____ quickly _____ and address _____ _____ attempts on private _____ data?

proactive _____ taken to _____ identify intrusions _____ _____ clients' _____ _____ _____ _____ breeches of keys/passwords

_____ _____ _____ protocols in place _____ _____ detection _____ resolution of _____ _____ on _____ client records?

Does _____ organization have _____ in _____ _____ _____ and _____ _____ activities that _____ at compromising _____ client data _____ _____ passwords?

_____ proper _____ _____ implemented to detect and _____ intrusion attempts _____ to _____ _____?

_____ proper _____ been _____ in _____ _____ detect and address _____ _____ _____ sensitive client data?

Have proper _____ been _____ in _____ to detect and address intrusion _____ _____ _____ _____ _____?

Will _____ sensitive files, _____ as passwords, _____ quickly recognized _____ _____ _____ _____ protocols?

_____ there a _____ _____ can _____ _____ attempts to _____ on _____ files?

_____ there a _____ _____ for immediate detection and _____ _____ _____ _____ targeting sensitive client _____?

Is there _____ _____ system installed _____ can identify _____ _____ security _____ _____ _____ passwords?

Is established _____ _____ place for detection _____ _____ _____ intrusion _____ client _____?

Is _____ any _____ _____ for detecting and _____ security _____ _____ private client _____?

Are _____ protocols that _____ the _____ detection _____ resolution _____ _____ intrusions into _____ _____?

_____ any _____ _____ of _____ _____ be swiftly recognized and resolved _____ _____ protocols?

_____ specific _____ exist _____ quickly _____ _____ resolving _____ in confidential _____ data?

_____ _____ _____ targeted _____ to _____ detect _____ resolve _____ of unauthorized access or tampering with clients' _____ _____ as _____?

Do _____ use _____ _____ to _____ detect _____ access _____ _____ with passwords?

_____ specific actions _____ you _____ to quickly identify and combat _____ _____ _____ _____ _____ _____ files?

_____ there a process _____ _____ and _____ intrusion _____ _____ client data?

_____ _____ have procedures in place to _____ _____ _____ unauthorized access _____ _____ private _____ data?

Do _____ _____ detection _____ resolution of intrusion on _____ _____ data _____?

Have ____ ____ up ____ ____ can quickly detect ____ ____ to ____ data?

Do ____ ____ ____ systems that ____ quickly identify ____ ____ security ____ on ____ passwords?

Do ____ have protocols to detect ____ ____ ____ attempts ____ ____ into ____ private ____ files?

Does ____ protocol exist for ____ ____ ____ resolution of intrusion ____ ____ ____ client ____?

____ a system exist ____ ____ and handle ____ ____ ____ records?

Is ____ ____ protocol in ____ ____ detecting ____ resolving intrusion ____ private ____ data?

Is there ____ set ____ ____ ____ ____ detection and ____ of ____ ____ targeting sensitive ____ information?

____ you have procedures in ____ to ____ ____ ____ attempts ____ confidential client ____?

Is ____ a ____ ____ quickly ____ ____ ____ unauthorized access to protected ____ files?

____ you have a ____ ____ ____ ____ access to clients' ____ records?

____ you ____ any procedures in place to ____ detect and ____ ____ ____ ____ ____ our confidential ____ information?

Are there protocols ____ place to ____ identify ____ access ____ ____ ____ ____?

____ we use ____ ____ to ____ ____ and ____ unauthorized access to clients' ____?

Is there ____ ____ system ____ ____ ____ quickly identify and ____ ____ breeches on ____ passwords?

Is ____ a ____ ____ ____ ____ address ____ access ____ to private client data?

Is ____ a ____ in ____ ____ detecting ____ ____ sensitive client information?

Is it ____ ____ ____ ____ address ____ ____ ____ on private ____ data like passwords?

____ there protocols ____ ensure quick detection and resolution ____ ____ intrusions ____ ____ ____ ____?

There should ____ protocols ____ ____ ____ ____ intrusion attempts on client ____.

Can you ____ ____ and address ____ ____ ____ attempts on your ____ ____ data?

Will any intrusions ____ ____ ____ such as ____ ____ ____ recognized and ____ using established ____?

____ ____ a protocol that ____ ____ identify ____ ____ ____ attempts on sensitive client ____?

____ we have specific ____ ____ place ____ ____ intrusion ____ ____ client data?

____ ____ ____ in ____ to ____ deal ____ potential ____ into clients' records?

Do ____ ____ ____ to deal with ____ client files ____ ____?

____ you have any procedures ____ ____ ____ quickly detect ____ address unauthorized ____ ____ ____ client ____?

Do you ____ protocols to ____ ____ ____ ____ private ____ information?

Is ____ ____ ____ ____ ____ ____ deal with potential intrusions into clients' ____?

____ specific ____ ____ ____ detecting security ____ ____ private client data?

How are proper ____ implemented ____ detect and ____ ____ ____ ____ sensitive ____ data?

Do ____ ____ procedures in ____ to ____ detect ____ ____ ____ ____ our confidential client information?

____ ____ are installed to ____ ____ and resolve security breeches ____ ____?

Are ____ ____ ____ ____ that allow the ____ detection and resolution ____ attempted intrusions on ____ ____ ____?

____ there be measures ____ ____ ____ address ____ into private client ____?

Do ____ have ____ protocols to quickly ____ ____ ____ ____ attempts on client ____ like ____?

Do you ____ procedures in ____ ____ detect and ____ ____ ____ attempts to ____ ____ information?

Have ____ procedures ____ ____ place to detect ____ attempts ____ client ____?

____ there ____ established security ____ ____ ____ ____ address unauthorized access ____ private ____ information?

Do ____ have procedures to ____ detect ____ ____ ____ to our ____ client ____ ____ passwords?

Is there ____ ____ ____ for detecting ____ efforts that ____ ____ client ____?

Is there ____ ____ ____ ____ ____ resolve intrusion ____ on private client ____?

____ specific systems have been installed ____ quickly ____ and ____ ____ ____ ____ client ____?

What protocols are ____ place to detect ____ ____ ____ ____ client ____?

____ there protocols for ____ ____ ____ on client ____?

Is there a ____ system installed to identify ____ resolve ____ ____ ____ ____ ____?

Are ____ systems in place ____ ____ ____ handle potential intrusions ____ ____ sensitive ____?

____ you ____ if any ____ ____ ____ ____ quickly ____ ____ resolve ____ breeches on client passwords?

Are ____ ____ ____ ____ ____ ____ of intrusion on private client data?

Does a system exist ____ ____ ____ handle possible ____ ____ ____ sensitive ____?

Is ____ mechanisms ready to detect ____ ____ ____ any ____ ____ ____ data?

Are ____ able ____ ____ ____ unauthorized access ____ on ____ confidential client ____ like ____?

____ ____ a way to quickly ____ ____ stop unauthorized ____ ____ ____ files?

____ you have ____ actions you ____ to ____ ____ attempts ____ ____ the ____ of ____ data?

____ you have measures ____ identify unauthorized ____ attempts ____ ____ ____ data?

____ swift detection ____ ____ of ____ ____ ____ ____ ____ records depends on specific protocols.

____ there ____ ____ to quickly ____ any unauthorized access ____ on ____ ____ data?

____ to ____ ____ and ____ intrusion ____ ____ target ____ client information such ____ passwords.

Does a ____ in ____ to promptly ____ ____ ____ ____ intrusions ____ clients' sensitive ____?

Do protocols ____ ____ the ____ and ____ ____ ____ ____ private client data?

Do you ____ ____ protocols for ____ and ____ intrusion ____ ____ client ____?

Are there specific ____ that ____ quickly detect ____ ____ ____ attempts on ____ ____?

Does ____ organization have ____ ____ place to deal ____ ____ activities aimed ____ compromising sensitive ____ ____ such ____ ____?

Do you have a way ____ ____ ____ ____ ____ ____ to ____ ____ client data?

____ established mechanisms ready ____ ____ ____ to any ____ ____ securing ____ data?

____ ____ ____ been used to quickly ____ intrusion ____ ____ private client ____?

____ there ____ ____ installed that ____ quickly identify ____ resolve ____ ____ on ____ passwords?

____ there a system in ____ to ____ potential ____ ____ ____ ____ records?

Do ____ ____ procedures ____ place ____ ____ ____ deal with unauthorized access ____ on ____ ____ client information?

____ there ____ process for ____ ____ resolving intrusion ____ ____ client files?

____ protocols take action to detect ____ ____ ____ of ____ ____?

____ specific steps ____ you ____ to identify and combat any ____ ____ ____ ____ to ____ ____?

____ ____ methods in place to ensure quick ____ ____ ____ attempts ____ ____ ____ data?

____ ____ ____ involving ____ files such as ____ be ____ recognized ____ resolved using ____ protocols?

Will ____ breaches ____ client ____ ____ as passwords, ____ ____ resolved using ____ protocols?

Is there ____ ____ ____ in ____ ____ ____ intrusions targeting ____ client information?

____ ____ a ____ to quickly detect ____ to access my ____ ____ ____ ____ passwords?

Do ____ have a ____ to quickly ____ ____ resolve unauthorized ____ ____ ____ files?

Does ____ ____ have procedures in place for ____ identifying ____ ____ ____ ____ ____ sensitive ____ ____ such as passwords?

Is ____ methods ____ ____ to ensure swift ____ of ____ ____ ____ confidential clients' ____?

____ ____ ____ procedures in ____ to detect ____ ____ intrusion attempts on ____ data.

Is ____ a ____ system ____ ____ will quickly identify and ____ ____ ____ ____ client passwords?

Are ____ protocols ____ ____ of intrusion ____ private client ____ ____ place?

Is ____ ____ set ____ for immediate ____ of ____ efforts targeting ____ client ____?

____ ____ a protocol ____ efficiently identifies ____ ____ ____ attempts on ____ records?

____ ____ protocols used for ____ intrusion attempts ____ ____ passwords?

Is ____ ____ in place ____ ____ ____ of intrusion on ____ client ____?

____ there any specific ____ that ____ ____ ____ to identify and address any ____ ____ information ____ ____?

Is ____ ____ to ____ detect and solve intrusion ____ targeting ____ ____?

____ there a protocol ____ place ____ ____ with unauthorized access ____ confidential ____ ____ ____?

____ ____ protocols in place ____ detect and ____ private client ____ ____?

Are there ____ protocols ____ ____ of intrusion on ____ ____ ____?

____ you have protocols for ____ and ____ ____ on ____ ____?

Do ____ protocols ____ for quick ____ and ____ of ____ ____ ____ client data?

Have you ____ ____ ____ systems to ____ unauthorized access ____ client ____?

Do you ____ systems ____ ____ ____ spot ____ access to sensitive ____ ____?

____ protocols ____ to ____ ____ and deal with ____ attempts ____ private ____?

What ____ ____ taken to quickly identify and combat ____ ____ to ____ ____ ____ client ____?

Is ____ system in ____ ____ ____ ____ intrusions into ____ records?

____ ____ specific ____ ____ ____ be ____ to detect attempted intrusions on ____ client ____.

____ ____ have procedures ____ identify and address ____ access attempts ____ private ____ ____?

_____ _____ have efficient systems you _____ use _____ spot _____ _____ _____ client data?

Should proactive steps _____ taken _____ identify _____ _____ _____ clients' _____ specifically addressing _____ _____?

How _____ precise _____ ensure _____ _____ and resolution _____ intrusion _____ _____ confidential clients' _____?

_____ _____ comes to sensitive _____ _____ like passwords, _____ we _____ _____ _____ that we _____ take?

Is there _____ way _____ quickly detect _____ _____ _____ access to _____ _____?

_____ you know any _____ _____ _____ quickly _____ _____ _____ security breeches on client _____?

_____ _____ _____ identify and _____ any _____ _____ _____ on private client data?

What _____ _____ used to detect and _____ _____ on private _____ _____?

_____ there measures taken _____ _____ detect intrusion _____ _____ client _____?

_____ sensitive _____ _____ such as passwords, be _____ resolved using _____ _____?

_____ _____ procedures have been implemented _____ _____ and _____ _____ attempts concerning sensitive _____ _____?

_____ _____ _____ _____ systems _____ place to quickly detect unauthorized access to _____ _____?

_____ there a _____ in place _____ _____ with _____ _____ to _____ _____ of clients?

_____ _____ a set protocol for _____ intrusion _____ that are _____ _____ _____ information?

_____ a protocol in place _____ quickly _____ and _____ _____ _____ _____ protected files?

_____ you _____ any _____ in _____ _____ quickly _____ _____ _____ attempts on our confidential client _____?

Have proper _____ _____ put in _____ to detect and _____ intrusion _____ _____ _____ client _____.

_____ _____ _____ _____ _____ quickly identify and resolve _____ breeches on _____ passwords?

_____ _____ taken _____ quickly _____ and _____ intrusion _____ target valuable client _____?

Is _____ _____ _____ in _____ for detecting and _____ _____ _____ _____ sensitive client information?

_____ actions taken _____ _____ _____ solve intrusion attempts that _____ _____ _____ files?

_____ _____ _____ _____ that _____ rapid detection of intrusion attempts _____ confidential clients' _____?

Do we have _____ _____ _____ place _____ _____ and deal _____ intrusion attempts _____ _____ data?

Is preventative steps _____ to _____ intrusions into _____ clients' _____ _____ to _____ _____ _____ passwords?

Will any attempts _____ _____ _____ _____ sensitive _____ _____ be _____ _____ _____ resolved using established protocols?

Do _____ procedures _____ to quickly _____ _____ resolve _____ in client _____?

_____ protocols _____ _____ quick _____ _____ resolution _____ attempted intrusions into protected _____?

Are there protocols _____ _____ _____ and _____ of _____ intrusions _____ protected client _____?

_____ _____ _____ _____ to quickly _____ unauthorized _____ attempts on our _____ client information?

Is _____ _____ _____ _____ detection _____ resolution of intrusion efforts for sensitive _____ _____?

_____ _____ _____ _____ systems installed _____ quickly identify _____ resolve security breeches _____ _____ passwords?

Is _____ _____ _____ for the _____ detection _____ _____ intrusions into _____ files?

Is _____ a system _____ _____ _____ detect _____ fix attempts to _____ into _____ _____?

_____ _____ organization have procedures in _____ for quickly _____ _____ _____ that aim _____ compromising sensitive _____ data such _____ _____?

_____ proper _____ been put in _____ to detect and _____ _____ attempts _____ _____ sensitive _____ _____?

_____ _____ _____ procedures in _____ to deal _____ unauthorized access _____ on _____ _____ information?

_____ _____ system _____ place _____ quickly _____ and _____ _____ intrusions into clients' records?

Is _____ _____ in place _____ _____ detection _____ _____ of intrusion _____ _____ client data?

_____ you set _____ _____ _____ _____ _____ unauthorized access _____ sensitive client data?

Are procedures _____ _____ _____ _____ recognize and resolve intrusion _____ _____ private _____ files?

_____ _____ a way _____ detect and _____ _____ attempted _____ on _____ client records?

_____ a specific _____ in _____ _____ _____ with _____ access to _____ _____ about clients?

Any systems _____ that quickly _____ _____ resolve _____ _____ _____ client passwords?

Have proper _____ been put in _____ to _____ _____ address _____ _____ for sensitive _____ _____?

Is _____ a system installed _____ _____ _____ and _____ security _____ on client _____?

_____ _____ _____ _____ place for immediate detection _____ _____ on _____ client data?

Have _____ been _____ _____ _____ _____ uncover and address client _____ _____ problems?

_____ _____ have protocols to fight _____ _____ private client _____?

_____ procedures are in place _____ _____ _____ _____ _____ intrusion _____ on private client _____?

Are there _____ protocols that can _____ identify _____ _____ _____ _____ private _____ information?

_____ you _____ _____ systems to spot _____ access _____ client _____?

_____ there a _____ _____ quickly resolve _____ _____ on _____ client files?

_____ intrusions _____ client files, such as passwords, _____ _____ _____ using _____ _____?

_____ _____ _____ _____ _____ _____ attempt to target valuable client information _____ passwords?

Can the _____ _____ _____ _____ of attempted _____ _____ _____ client records be accomplished through _____ _____?

_____ _____ have _____ _____ place _____ quickly detect _____ _____ _____ attempts on client information?

Are _____ _____ _____ place to detect _____ resolve _____ client _____ intrusions?

Do you have _____ in _____ _____ quickly detect _____ _____ _____ my _____ client files _____ _____?

_____ _____ _____ _____ to detect _____ resolution attempted intrusions on _____ _____ records?

_____ there _____ _____ place _____ _____ the swift _____ _____ resolution of attempted intrusions on _____ _____ records?

Is _____ _____ system that _____ detect _____ _____ attempts _____ take _____ _____ client files?

Are _____ specific protocols in place _____ _____ _____ _____ _____ and resolution of _____ _____ on private client _____?

There are _____ _____ that _____ _____ detection and _____ _____ attempted intrusions on _____ _____ records.

_____ _____ measures exist for _____ detecting and _____ _____ breaches _____ _____ client data?

_____ _____ _____ be used to _____ _____ _____ resolve _____ in client data?

Do _____ have _____ _____ _____ unauthorized access _____ on our _____ _____ information?

_____ there any protocols _____ action _____ _____ and address _____ of _____ _____?

Are there protocols in place _____ _____ _____ detection and resolution _____ _____ _____ on _____ _____ _____?

_____ you _____ _____ _____ deal _____ hacking _____ on the client files?

_____ _____ preventative steps _____ to identify _____ into _____ _____ records?

Are _____ protocols _____ _____ quick _____ and _____ of _____ intrusions _____ protected _____ files?

There are specific _____ _____ place _____ allow _____ _____ _____ of attempted _____ on _____ client _____.

Are _____ in place for _____ _____ of _____ _____ private _____ data?

_____ you have procedures to swiftly detect and _____ _____ _____ _____ _____ _____ client _____?

Do you _____ _____ systems _____ _____ identify and _____ security _____ on client _____?

Do _____ exist _____ identify _____ _____ break _____ confidential client _____?

Should a system be in place _____ _____ _____ _____ _____ _____ _____ _____ clients' records?

Do you _____ protocols _____ _____ _____ handle _____ attempts to steal _____ _____ client _____?

Is _____ a _____ _____ can _____ _____ _____ _____ attempts on client records?

Is there _____ way _____ _____ detect and _____ _____ _____ to _____ files?

_____ there _____ _____ _____ _____ for quickly addressing unauthorized _____ _____ clients' information?
