# [Demo] NLP Dataset for Customer Service Automation

| | |
|---|---|
| **Company Type** | Internet Service Providers |
| **Inquiry Category** | Speed and performance inquiries |
| **Inquiry Sub-Category** | Speed test results interpretation |
| **Description** | Customers perform internet speed tests and need help interpreting the results, understanding what is considered good or optimal, and if they are getting the expected speeds based on their subscribed internet plan. |
| **Data Size** | 5,022 paraphrases |
| **Want to buy data?** | Please contact nlp-data@qross.me via your business email address. |

**Masked sample paraphrases of one "Internet Service Provider" customer inquiry. (Purchased data will not be masked.)**

____ ____ the ISP consider ____ ____ like ____ from ____ when defining ____ bandwidth/speeds ____ subscription?

Can internet ____ ____ take ____ ____ like distance from exchange ____ ____ expected ____?

____ the ____ ____ ____ consider distance from exchange ____ ____ bandwidth and ____?

____ ____ ____ service ____ ____ into ____ the ____ from exchange while determining expected ____?

How should ____ ____ exchange ____ considered ____ ____ anticipated speeds for ____?

____ want to know ____ ____ factors ____ ____ affect ____ far ____ exchange the internet provider ____ ____ ____ ____ calculating their expected subscriber ____.

____ ____ service provider needs ____ ____ the distance fromexchange when ____ ____ ____.

How should ____ ____ ____ consider ____ from exchange ____ determining expected ____?

I would like ____ know ____ far from ____ ____ internet provider ____ into account ____ calculating ____ ____ ____.

I ____ ____ to ____ the factors ____ ____ how far ____ ____ ____ internet ____ takes ____ account ____ calculating their ____ subscription speeds.

How ____ ____ ISP factor ____ from exchange ____ ____ ____ ____ expected subscription speeds?

____ ____ ____ distance from ____ exchange when estimating ____ for ____?

Is the distance from exchange taken into ____ ____ ____ ____ ____ ____ a ____?

How ____ ____ take into account ____ from ____ exchange when ____ ____ ____?

____ internet service providers take ____ ____ ____ ____ ____ for subscription speeds?

____ ____ ____ ____ determining the anticipated ____ ____ ____ internet ____ ____ given that it is ____ world ____ such as being ____ exchanges?

How do you ____ ____ of ____ ____ the exchange ____ ____ the ____ bandwidth?

How ____ ____ internet service ____ take into account the ____ ____ ____ ____ exchange ____?

____ defining expected ____ ____ should ____ internet service ____ take ____ fromexchange ____ account?

____ ____ ____ provider should consider the distance fromexchange when ____ ____ ____.

While setting ____ for subscribers' ____ and ____ ____ ____ they ____ with constraints such as ____ ____ ____ exchanges?

Is ____ distance from ____ ____ considered ____ ____ ____ ____ for subscriptions offered?

I'd like ____ know ____ the factors that ____ ____ far ____ ____ the ISPs ____ ____ calculating ____ expected ____ speeds.

The internet service provider ____ ____ ____ distance ____ exchange ____ expected ____.

I want ____ ____ what the ____ that ____ how ____ ____ exchange ____ internet provider takes into ____ ____ ____ ____ of predicted subscription ____.

What is ____ ____ ____ distance to the ____ ____ determining broadband speeds ____ ____ ____?

____ ____ provider ____ into account ____ far ____ the ____ ____ are from when ____ ____ speed?

____ ____ ____ ____ know ____ the factors are that ____ how ____ ____ ____ ____ provider takes into account in ____ the ____ subscriber speeds.

How do the factors ____ affect ____ ____ ____ be considered ____ defining ____ ____ ____ subscribers?

____ does the ____ ____ ____ factor ____ distance to determine ____ ____ during sign-ups?

____ ____ internet service provider consider ____ distance ____ ____ for ____?

How ____ ____ service ____ ____ ____ geographical issues ____ setting connection speed?

How do ____ account for distance ____ ____ ____ when estimating ____ ____ ____?

How should the internet service ____ handle real ____ limitations ____ ____ ____ ____ exchange ____ ____ expected ____?

I want to know what ____ ____ are that ____ how ____ ____ exchange the internet provider ____ ____ ____ ____ ____ calculation ____ ____ subscription ____

How ____ ISPs consider ____ from ____ ____ defining ____ ____ for subscribers?

____ should ____ ____ ____ ____ consider distance from exchange when ____ ____ bandwidth ____ subscription?

Should ____ ____ service ____ consider the ____ between ____ when ____ bandwidth?

How do ____ ____ ____ ____ ____ into account when ____ the ____ bandwidth?

Do ____ ____ how ____ ____ ____ provider takes ____ from ____ to calculate speeds?

____ does the ____ ____ provider ____ distance ____ exchange for bandwidth ____?

____ ____ internet ____ ____ address distance-related constraints when ____ subscription ____?

I ____ ____ ____ what factors affect how ____ ____ exchange the ____ ____ ____ into account ____ calculating ____ speeds.

Is ____ distance from ____ exchange ____ ____ ____ when ____ subscription speeds?

____ defining expected bandwidth/speeds ____ ____ ____ does ____ ____ ____ distances from exchange?

I want to know what ____ ____ that ____ how far from ____ ____ ____ ____ takes ____ ____ ____ ____ ____ of expected subscription speeds.

____ ____ service provider account for ____ ____ exchange ____ setting ____?

How ____ ____ consider factors like distance from exchange ____ ____ anticipated ____ ____ ____?

Does ____ ____ service provider ____ into ____ limitations such ____ physical ____?

How ____ ____ service provider ____ geographical ____ ____ ____ connection speed?

____ ____ ____ ____ ____ provider thinking ____ geographical ____ while setting connection speed?

How ____ the ____ ____ provider ____ ____ to determine ____ speeds ____ sign-up?

I'm curious about ____ ____ ____ ____ how far from ____ ____ ____ ____ ____ into account ____ calculating subscriber speeds.

____ ____ ____ service ____ considering geographical ____ while ____ connection speed

Is ____ possible ____ ____ ____ factors ____ ____ from ____ ____ their calculation of expected subscription ____?

The ____ ____ ____ might ____ the ____ between exchanges ____ determining ____ bandwidth.

____ the internet ____ provider ____ account ____ the distance ____ ____ when calculating ____ ____?

Does the ____ provider ____ ____ account ____ ____ exchange ____ determining expected ____?

____ ____ ____ ____ provider consider real ____ such ____ ____ from exchange during signup?

How ____ the internet ____ ____ decide ____ from exchange ____ ____ ____ bandwidth?

____ the internet service provider take ____ ____ ____ ____ ____ exchange ____ determining speeds?

____ ____ internet service ____ consider the distance ____ exchange ____ ____ expected ____?

____ internet ____ ____ might factor in ____ from ____ ____ expected speed.

____ is ____ ____ provider considering ____ ____ when ____ connection speed

____ internet service providers ____ ____ ____ limitations ____ ____ to exchange for subscription ____?

____ ISPs ____ into account ____ from ____ ____ when ____ speed?

____ ____ take into account distance from ____ ____ ____ ____ ____ expected bandwidth?

____ ____ ____ service provider account ____ distance ____ exchange when ____ the ____ speeds?

____ ____ tell ____ how the ____ takes distance ____ exchanging ____ calculate ____ speeds?

How do you account ____ distance ____ ____ exchange ____ setting ____ ____ ____?

I would ____ ____ know ____ ____ factors are ____ ____ ____ far away ____ internet ____ ____ ____ account when calculating subscription speeds.

____ ____ internet ____ providers ____ ____ distance from exchange when ____ ____ bandwidth?

____ ____ internet ____ provider ____ ____ ____ distance from exchange while ____ bandwidth expectations?

How should internet _____ providers _____ _____ _____ exchange _____ _____ limitation when defining _____ _____?

_____ _____ the ISP _____ into _____ _____ _____ to _____ _____ point when defining anticipated speeds?

Is the _____ from _____ exchange taken into _____ when _____ _____ speed _____ _____?

I would _____ _____ _____ the factors _____ _____ how _____ from exchange the _____ service provider considers _____ _____ _____ _____ speeds.

When _____ _____ bandwidth _____ _____ take into _____ distance _____ the exchange?

I _____ to _____ what factors affect _____ far from _____ _____ internet provider takes into _____ _____ _____ _____ subscription _____.

_____ there a _____ _____ _____ service provider _____ distance _____ exchanging to _____ _____ subscription speeds?

_____ want to know what _____ _____ are _____ _____ _____ far _____ exchange the internet _____ _____ into account in calculating _____ _____

How should _____ _____ _____ provider _____ _____ distance _____ exchange _____ determining expected bandwidth?

The internet service provider should _____ distance _____ _____ _____ _____ _____ defining expected _____

_____ _____ _____ bandwidth, _____ should the _____ service provider take real _____ limitations _____ _____ _____ from exchange?

_____ would like to _____ _____ the _____ _____ that _____ how far away _____ _____ the ISPs _____ _____ calculating their _____ speeds.

_____ do you _____ _____ account _____ from the _____ _____ set expected _____?

I'd like _____ _____ _____ _____ from _____ the internet _____ _____ into account in _____ _____ speeds.

_____ want to _____ the _____ that affect how _____ from _____ the internet provider takes _____ _____ _____ _____ subscriber _____.

Does the _____ _____ into _____ how far away the exchange _____ _____ _____ _____ _____?

_____ _____ _____ count real-world _____ like distance _____ _____ exchange, _____ estimating service speeds?

How _____ the service _____ _____ practical challenges _____ _____ _____ _____ _____ determining expected speeds?

_____ _____ you take into account distance from _____ exchange _____ _____ _____?

Does _____ _____ take into account _____ far away _____ _____ is _____ determining the _____ _____?

_____ the provider consider how _____ _____ they _____ _____ the _____ exchange when _____ internet _____?

Does _____ internet _____ provider _____ actual _____ such _____ distance from _____ _____ _____ expectations?

I'd like to _____ _____ far _____ _____ _____ _____ provider takes into _____ _____ _____ calculation _____ predicted subscription speeds.

_____ _____ the _____ _____ distance constraints _____ defining subscription speeds?

_____ should _____ internet service _____ account for _____ when _____ _____ bandwidth?

_____ _____ _____ _____ _____ provider _____ distance from _____ when defining expected bandwidth?

_____ _____ to _____ _____ the _____ are that _____ how _____ _____ the exchange the _____ _____ takes into account _____ calculating subscription _____.

Will _____ distance from _____ be _____ into _____ _____ _____ Internet _____ Provider?

_____ defining _____ speeds for _____ _____ _____ they _____ factors like distance from _____?

_____ does _____ internet service provider _____ in _____ from _____?

Does _____ _____ _____ _____ take account of _____ from exchange while _____ _____ speeds?

_____ _____ _____ provider take into _____ _____ _____ _____ from exchange _____ determining expected speeds?

How does _____ internet _____ provider _____ for _____ _____ exchange?

How _____ from exchange the _____ _____ takes _____ account _____ _____ _____ _____ predicted subscription _____ is a mystery.

I want to _____ if the _____ that _____ how far _____ exchange the internet _____ takes _____ _____ _____ their calculation _____ _____ _____ _____.

_____ _____ _____ _____ consider distance from exchange when defining _____ _____?

_____ do you _____ account _____ _____ distance to _____ _____ _____ setting _____ expected bandwidth?

I want _____ _____ the _____ that _____ _____ far _____ exchange _____ internet _____ takes _____ account in the _____ of expected _____ _____.

Will _____ _____ consider how far _____ _____ exchange they are _____ when _____ _____ _____?

_____ _____ _____ know how far _____ exchange _____ _____ _____ takes _____ account in _____ subscription speeds.

Does an internet _____ provider _____ distance _____ exchange _____ _____ bandwidth _____?

Does the _____ _____ distance _____ _____ _____ determining expected speeds?

_____ the _____ take into account _____ _____ _____ _____ for expected speed?

I'd like _____ know _____ factors _____ affect _____ far from _____ the _____ provider _____ _____ account _____ _____ subscription speeds.

Is distance _____ an exchange _____ _____ estimating _____ _____ subscriptions _____?

Does _____ Internet service provider consider actual _____ such _____ distance _____ _____ _____ setting _____ _____?

_____ _____ like to _____ _____ _____ are that _____ far _____ the _____ the ISPs consider in _____ their _____ subscription speeds.

_____ does _____ service _____ _____ in distance from _____ _____ bandwidth expectations?

_____ should internet _____ _____ take _____ _____ like _____ to _____ _____ account when _____ expected bandwidth?

_____ internet service provider should _____ _____ fromexchange as a _____ _____ _____ expected _____.

I would _____ to _____ how far _____ _____ internet provider _____ _____ _____ when calculating _____ subscription _____.

Do _____ _____ _____ _____ from the exchange into _____ when _____ _____ expected bandwidth?

Do _____ _____ into account _____ _____ exchange _____ setting expected _____?

I want to _____ what _____ factors _____ _____ affect _____ _____ away the _____ _____ _____ into account in calculating their _____ _____.

_____ factors _____ how far _____ _____ the internet provider _____ _____ _____ in calculating their _____ subscription _____?

Given the _____ _____ exchanges, _____ _____ _____ _____ service provider consider when determining _____ _____?

_____ the provider _____ into _____ how far _____ the exchange _____ are from _____ _____ _____ _____

_____ _____ internet _____ _____ take _____ account limitations like _____ distance when _____ speeds?

_____ _____ _____ providers take into account real-world _____ _____ _____ _____ exchange for _____ speeds?

I _____ like to know what _____ factors that _____ how _____ from _____ _____ _____ _____ takes _____ account when _____ their predicted _____ _____.

Do _____ _____ _____ _____ ISP takes distance from _____ _____ calculate expected _____?

_____ _____ the _____ take into account _____ _____ _____ the _____ point when defining _____?

Does the _____ take _____ _____ the _____ _____ _____ for expected bandwidth?

Given that the internet _____ provider _____ _____ _____ _____ being _____ _____ what is _____ when _____ the _____ bandwidth?

_____ _____ _____ _____ exchange _____ when determining _____ speed/bandwidth during sign-up?

_____ are _____ _____ that affect _____ _____ from exchange the internet _____ _____ into _____ in _____ calculation _____ predicted subscription _____?

How _____ the _____ _____ provider manage the _____ _____ exchange when defining _____ _____?

_____ the provider take _____ account _____ far away _____ _____ exchange _____ are from _____ _____ internet _____?

_____ _____ the internet service _____ _____ into account distance to _____ _____ _____?

Does _____ internet service _____ account _____ distance from _____ _____ _____ expected _____?

Is _____ _____ from exchange _____ _____ account _____ _____ expected _____ for subscription?

How does _____ _____ _____ _____ _____ distance for bandwidth expectations?

What are _____ _____ _____ affect _____ _____ from exchange the _____ factor in _____ their calculation of _____ _____?

I want _____ know what _____ factors _____ _____ _____ how _____ from _____ _____ internet _____ takes _____ account in calculating _____ subscription _____.

Does theISP _____ _____ distance _____ _____ _____ account?

_____ _____ internet service _____ _____ _____ _____ like distance _____ exchange _____ defining expected bandwidth?

How _____ the _____ service provider think about _____ _____ _____ _____ _____ expected bandwidth _____ subscription?

_____ _____ the _____ service provider consider _____ _____ determine expected _____ _____ sign up?

How _____ _____ internet service _____ _____ distance _____ exchange to bandwidth _____?

_____ _____ _____ speeds _____ subscribers, how do they consider factors _____ _____ _____ exchange?

Does the _____ _____ _____ factor _____ the distance from _____ _____?

Did the _____ _____ _____ _____ from the _____ they are _____ _____ determining _____ speeds?

The internet _____ _____ _____ _____ distance _____ the exchanges _____ determining _____ anticipated bandwidth.

Does the _____ _____ _____ how _____ _____ from _____ exchange they _____ from when _____ _____ speed?

How _____ the _____ _____ provider factor in _____ _____ from exchange _____ _____ bandwidth?

What is _____ _____ determining _____ expected _____ _____ the _____ _____ provider, _____ that it _____ real world _____ such _____ _____ near exchanges?

Does the internet service _____ _____ _____ obstacles _____ _____ from _____ _____ sign-up?

How _____ _____ service _____ consider distance from _____ when _____ _____ bandwidth?

_____ the service _____ take into account _____ from _____ _____ determining _____?

Is _____ _____ service _____ able _____ account for _____ from exchange when _____ _____ _____?

Does the _____ service provider _____ for _____ like _____ _____ _____ when _____ _____ speed?

_____ is _____ service _____ considering _____ hindrances when _____ connection _____.

How should _____ _____ providers _____ _____ _____ account when defining _____ bandwidth?

How should internet _____ _____ take _____ _____ _____ like the _____ _____ _____ defining expected bandwidth?

I would like to know what the factors _____ that _____ _____ _____ from _____ the _____ _____ providers _____ _____ _____ _____ subscription _____.

I _____ to _____ _____ _____ _____ how far _____ exchange _____ internet provider takes into account when _____ _____ _____.

I ____ like ____ know ____ factors ____ ____ how far ____ exchange the internet ____ ____ considers when calculating ____ ____ subscription ____.

____ do you ____ account ____ ____ distance ____ ____ exchange when ____ the bandwidth?

____ ____ might account ____ distance from ____ when setting ____ ____.

____ should ____ service ____ take distance ____ exchange into ____ ____ ____ expected bandwidth?

When defining ____ ____ how does ____ ____ take into ____ the physical ____ ____ the ____ ____?

I ____ like ____ ____ ____ far ____ exchange the ____ provider takes into ____ ____ ____ subscriber speeds.

Is internet ____ provider considering geographical ____ when ____ ____ ____?

How do ____ ____ ____ around ____ when defining ____ speeds?

I ____ to ____ ____ the ISP ____ distance ____ exchanging ____ calculate expected ____ ____.

I ____ ____ know what ____ affect ____ far from exchange ____ internet ____ ____ ____ ____ calculating their ____ subscription speeds.

I ____ ____ to know what the factors ____ ____ affect how ____ from ____ ____ internet ____ providers consider when ____ ____ ____.

____ the provider ____ ____ ____ how far ____ the ____ is when ____ speed?

How should the ____ ____ provider take real ____ ____ ____ the distance fromexchange ____ ____ ____ defining expected ____?

I would ____ ____ ____ the factors that affect ____ far ____ exchange ____ ISPs ____ in calculating ____ ____ ____ speeds

____ defining expected bandwidth, ____ ____ ____ internet service provider factor ____ ____ distance ____ ____?

How ____ internet ____ ____ take ____ distance ____ exchange into account ____ defining ____ ____?

When defining ____ bandwidth/speeds during ____ how ____ the ____ consider real-world ____ ____ distance ____ ____?

Is it possible ____ the distance ____ ____ ____ ____ taken ____ ____ when ____ the speed ____ subscriptions?

____ do ____ account ____ distance ____ ____ exchange when ____ bandwidth?

I would ____ ____ know ____ ____ ____ ____ the internet provider takes into ____ in ____ expected subscription ____

____ did ____ internet ____ ____ take ____ from exchanging ____ ____ expected speeds?

How far from ____ ____ internet provider ____ into ____ calculations ____ expected subscription ____ ____ ____ ____ I ____ like to ____.

____ does the ____ factor in ____ ____ exchange ____ their calculation ____ expected ____?

____ ____ provider ____ ____ account ____ far away they ____ ____ a exchange ____ ____ internet speeds?

Does the provider ____ ____ account ____ far ____ they ____ ____ ____ ____ when calculating internet ____?

How ____ the ____ ____ ____ factor in real world limitations, such ____ ____ from ____ ____ ____ bandwidth?

I want ____ ____ how far away ____ ____ ____ ____ into ____ when ____ expected speed.

____ the ____ ____ exchange ____ by an ____ service ____ while defining bandwidth ____?

When ____ bandwidth ____ ____ ____ ____ considerations are ____ of ____ ____ from the exchange?

____ ____ ____ know ____ the factors affect how ____ from ____ ____ internet ____ takes ____ their calculations of expected ____ ____.

____ you take ____ ____ ____ the ____ into ____ when ____ the bandwidth?

Is it possible ____ ____ internet service provider to ____ ____ ____ exchange when ____ ____ ____?

____ is ____ service ____ considering geographical ____ while ____ connection ____?

When ____ expected bandwidth, how ____ the ____ service ____ ____ ____?

____ distance from an ____ ____ estimating speed ____ subscriptions taken ____ ____?

How can ____ ____ ____ ____ constraints ____ defining subscription speeds?

Does the ____ service ____ ____ in ____ ____ ____ for bandwidth ____ subscription?

When ____ expected ____ should ____ service providers consider distance ____ ____ as ____ ____?

____ ____ internet ____ ____ ____ ____ such as distance ____ exchange when defining bandwidth ____?

The ____ ____ provider ____ distance from exchange ____ bandwidth ____

____ ____ service provider ____ consider ____ distance ____ ____ ____ account ____ defining expected bandwidth

____ do internet ____ ____ address distance ____ constraints ____ ____ speed?

____ is the internet service ____ considering ____ constraints while ____ ____ ____?

When setting expected ____ do ____ ____ into ____ ____ ____ ____ the exchange is?

____ ____ take ____ from ____ ____ into account ____ estimating speed ____ subscriptions?

I ____ ____ to ____ what ____ ____ are ____ affect how far ____ ____ the ISPs take into ____ in ____ their expected ____ ____.

How ____ ____ fromexchange be considered when ____ ____ ____ ____ subscription?

____ ____ tell us how ____ internet service ____ ____ distance ____ calculate expected ____?

_____ an internet _____ provider take _____ _____ _____ distance _____ exchange _____ _____ when defining bandwidth _____?

_____ defining _____ speeds, _____ does the _____ service _____ _____ into account _____ physical distance _____ the _____ point?

When _____ _____ _____ how _____ the _____ service provider _____ distance into _____?

How is _____ service provider _____ _____ effects _____ setting _____ _____?

I want _____ know what the _____ _____ _____ how _____ from _____ the internet _____ _____ into account _____ _____ expected subscription _____.

Do _____ _____ _____ how _____ _____ the exchange they _____ from _____ _____ internet speed?

_____ internet service provider _____ _____ distance fromexchange _____ _____ when defining _____ _____

_____ you _____ into account _____ _____ the exchange _____ setting _____ bandwidth?

What are the _____ _____ _____ _____ far from _____ the _____ _____ _____ _____ account when calculating subscription speeds?

_____ _____ _____ when determining _____ anticipated bandwidth by _____ _____ _____ provider, since _____ _____ real-world limitations _____ _____ being near exchanges?

_____ an internet service _____ consider the limitations _____ _____ _____ _____ exchange?

How are distance from exchange _____ _____ _____ _____ _____ _____ anticipated speeds _____ subscribers?

_____ don't _____ how _____ from _____ the _____ provider _____ _____ _____ when calculating _____ subscription speeds.

I _____ to _____ _____ _____ affect how _____ _____ exchange the internet provider takes into _____ _____ _____ calculation of expected _____ _____.

When defining expected bandwidth/speeds during _____ _____ does _____ _____ _____ provider _____ _____ _____ exchange?

Does _____ _____ service provider consider limitations _____ as _____ _____ exchange, _____ defining _____ _____?

_____ _____ the _____ service provider decide on _____ from _____ when _____ expected _____?

Is _____ distance _____ _____ _____ when _____ _____ speed for _____ taken into account?

_____ you take into account _____ _____ the exchange _____ setting _____ _____?

How should _____ _____ exchange _____ considered when _____ expected _____ _____ a _____?

How _____ _____ _____ the exchange's distance into account _____ setting _____ _____?

When setting expected _____ _____ _____ take into _____ distance _____ _____?

_____ _____ _____ provider may consider distance from exchange when _____ _____ _____.

Do _____ take _____ account the _____ _____ an _____ _____ estimating speed for _____?

_____ does _____ _____ service provider take into account the physical distance _____ _____ _____ point _____ _____ anticipated _____?

How _____ the _____ service provider _____ the distance _____ exchange _____ _____ _____ bandwidth?

Is _____ provider _____ about _____ far _____ _____ are from the _____ _____ _____ internet speed?

How does _____ _____ take _____ _____ the _____ between the exchange point _____ the _____ _____?

Does the _____ take into _____ _____ _____ away they _____ _____ the exchange when _____ _____ _____?

I _____ _____ _____ the _____ that _____ how far from _____ _____ _____ provider takes into account _____ _____ their predicted _____ speeds.

How is _____ service _____ _____ _____ geographical issues _____ setting _____ speed?

Does the provider _____ _____ _____ _____ _____ are from the _____ when _____ _____ internet speed?

_____ the _____ consider _____ far _____ _____ exchange _____ _____ determining internet speed?

When signing _____ is _____ _____ into _____ _____ by ISPs?

How _____ an _____ _____ provider take distance _____ _____ _____ account _____ defining expected _____?

I would like to _____ how far from exchange _____ _____ _____ _____ _____ _____ _____ calculating _____ speed.

I want _____ _____ the _____ that affect how _____ from _____ _____ _____ _____ in calculating _____ speeds.

How far _____ the exchange _____ _____ _____ considering when determining _____ _____?

Does _____ internet _____ provider consider limitations _____ _____ _____ _____ _____ when setting expectations?

_____ _____ internet service _____ _____ real _____ _____ as distance from _____ when _____ bandwidth expectations?

How does _____ internet _____ _____ _____ in distances to determine expected _____ _____ _____ _____?

_____ would like to _____ what the factors are _____ _____ _____ _____ _____ _____ the _____ provider _____ into _____ in calculating _____ expected _____ speeds.

_____ _____ internet service provider considering the _____ limitations when _____ _____ _____.

_____ _____ like to know _____ the factors _____ _____ affect how far away _____ _____ service provider considers _____ _____ _____ _____ speeds.

The internet _____ _____ might _____ _____ from exchange when _____ expected _____.

_____ it _____ for ISPs _____ _____ _____ account _____ from _____ exchange when estimating _____?

_____ defining expected bandwidth/speeds, _____ does the internet service _____ _____ _____ _____ _____?

How _____ internet _____ provider _____ about geographical _____ while setting _____ _____?

_____ is _____ internet service _____ aware of real world obstacles such as _____ _____ _____ when _____ _____ _____?

When setting expected bandwidth _____ _____ _____ _____ _____ _____ _____ from the exchange?

I would like _____ know _____ the _____ _____ _____ _____ far _____ _____ the _____ service providers consider in _____ their _____ speeds.

Does _____ _____ provider account for _____ _____ _____ _____ setting the subscription _____?

_____ should the _____ service provider _____ _____ _____ _____ defining expected bandwidth?

_____ far _____ exchange _____ internet provider takes _____ account _____ _____ subscriber _____ _____ something I _____ like to _____.

I want to know what _____ _____ _____ _____ _____ _____ ISPs factor is for _____ _____ of _____ speeds.

How _____ the internet service _____ _____ into _____ distance _____ _____ exchange _____ when defining _____ _____?

I _____ like _____ _____ _____ _____ _____ _____ how _____ from exchange the internet provider _____ _____ account in their calculation _____ expected _____ _____.

The _____ _____ provider _____ _____ limitations _____ _____ from exchange into _____ when defining expected _____.

Does the _____ _____ provider _____ _____ distance _____ _____ for expected bandwidth?

_____ _____ appreciate _____ _____ _____ could tell me the _____ that affect how far from _____ the _____ consider _____ _____ _____ expected _____ speeds.

_____ _____ internet _____ _____ _____ provider think about how _____ away they are from _____ _____?

I _____ _____ _____ _____ _____ factors that affect _____ far away the internet provider takes _____ account _____ calculating _____ _____ _____.

_____ _____ the factors _____ affect how _____ from exchange the _____ provider _____ _____ _____ to calculate _____ _____ speeds?

_____ _____ _____ know _____ far _____ exchange _____ internet provider _____ into _____ their expected subscription _____.

I would _____ to know _____ _____ _____ _____ how far from the _____ the _____ _____ takes _____ account _____ calculating subscriber _____.

Does _____ _____ _____ _____ _____ distance _____ exchange for expected bandwidth?

Does _____ _____ account for _____ far _____ the _____ _____ are from when determining _____ _____?

How _____ the internet service _____ _____ _____ _____ distance _____ an exchange _____ _____ _____ anticipated speeds?

How _____ the _____ service provider _____ _____ _____ fromexchange _____ defining _____ bandwidth?

Is _____ possible to _____ factors like distance _____ exchange when _____ _____ _____ _____ _____?

Is the distance _____ _____ for _____ _____ expected _____ speeds?

How _____ _____ take _____ account distance _____ the exchange to _____ _____ _____ bandwidth?

_____ _____ the ISPs _____ _____ _____ _____ _____ to the exchange point when determining _____ speeds?

When forecasting _____ _____ _____ considerations do _____ _____ _____ the distance _____ the exchange?

Does _____ service provider _____ in _____ from exchange _____ _____?

How is _____ service provider _____ geographical _____ while _____ _____ _____?

_____ _____ _____ to know _____ the _____ are _____ _____ how far _____ exchange _____ internet service provider _____ _____ calculating subscription speeds.

_____ distance _____ exchange considered _____ _____ _____ expectations by _____ internet service _____?

_____ defining _____ _____ _____ does the ISPs take _____ _____ _____ _____ distance to _____ exchange point?

_____ _____ internet _____ provider _____ geographical _____ _____ setting connection speed?

Considering the _____ between exchanges, what _____ the _____ _____ provider _____ when _____ _____ anticipated _____?

_____ _____ internet _____ _____ _____ limitations like _____ from _____ when defining their bandwidth _____?

I want _____ know how _____ _____ _____ _____ _____ _____ from _____ to calculate _____ subscription speeds.

Does the _____ _____ _____ far from _____ exchange they _____ _____ _____ determining internet _____?

What are the factors that _____ _____ _____ _____ exchange _____ _____ provider takes into _____ in _____ calculations _____ predicted _____ _____?

_____ the _____ consider _____ far from the exchange they _____ from _____ _____ _____ _____?

Does the ISP _____ distance _____ _____ _____ _____ speed?

_____ _____ possible the ISP _____ distance _____ _____ into _____ _____ of expected _____ speeds?

_____ is _____ service _____ considering _____ obstructions _____ _____ connection speeds?

_____ _____ _____ _____ provider take into account _____ such as _____ _____ exchange _____ _____ expected speeds?

_____ _____ ISPs _____ _____ _____ _____ distance from exchange when _____ bandwidth expectations?

_____ you take the _____ distance _____ account _____ _____ the _____ bandwidth?

_____ would like to know _____ _____ _____ _____ affect how far _____ _____ _____ ISPs consider in calculating their _____ _____ _____.

How _____ ISPs address the _____ _____ distance _____ defining _____ _____?

Is it possible for the _____ _____ _____ _____ factor _____ _____ _____ for _____ expectations?

The internet service provider _____ _____ limitations _____ distance _____ _____ when _____ _____ bandwidth.

_____ do internet providers address distance-related constraints _____ _____ _____ _____?

I'd _____ _____ know _____ _____ that _____ how _____ from exchange _____ ISPs factor in _____ their _____ _____ subscription speeds.

_____ does _____ _____ service provider factor in _____ from _____ when _____ _____ bandwidth?

_____ the internet _____ _____ _____ _____ of distances from exchange when _____ _____ speeds?

_____ _____ like to know what _____ factors _____ _____ affect _____ far _____ the internet provider takes into _____ _____ calculating _____ _____ _____.

_____ _____ _____ know _____ the _____ are that _____ how far from _____ _____ internet provider _____ _____ account _____ their _____ of predicted subscription _____.

Is this _____ for distance _____ exchange _____ setting _____ _____?

The _____ service _____ should take _____ _____ from exchange into _____ _____ _____ expected _____.

How _____ _____ _____ _____ _____ take into account _____ _____ to the _____ _____ when defining expected speeds?

How _____ _____ internet _____ provider take _____ world _____ like distance from _____ _____ _____ expected _____?

I _____ _____ to _____ what the _____ _____ that _____ _____ far from _____ _____ provider takes _____ account in calculating _____ speeds.

How _____ the _____ service provider take _____ world limitations _____ _____ _____ exchange _____ _____?

_____ would like _____ know _____ factors _____ affect _____ far from _____ the _____ provider takes _____ _____ in their _____ _____ expected subscription speeds _____

I'd like _____ _____ the factors that _____ how far from exchange _____ internet _____ takes _____ _____ _____ _____ their predicted _____ _____.

_____ does the internet service _____ factor _____ _____ _____ _____ expected speeds?

_____ _____ _____ _____ _____ distance from exchange and _____ restrictions _____ anticipated speeds _____ subscribers?

_____ _____ internet service _____ _____ _____ _____ limitations _____ as distance from _____ when _____ bandwidth expectations?

_____ would _____ to _____ how far _____ the _____ _____ takes into account _____ _____ expected _____.

_____ _____ _____ ISP take _____ account _____ physical _____ to _____ exchange point when defining _____ _____?

_____ the _____ account for distance from _____ _____ setting _____?

_____ _____ like _____ know _____ _____ factors that _____ how far from _____ the _____ consider when calculating _____ _____ speeds.

_____ the _____ _____ exchange taken into _____ when determining _____ _____ during _____?

_____ defining _____ speeds, _____ does _____ _____ _____ _____ take _____ account physical distance _____ the exchange point?

Does _____ internet _____ provider _____ _____ _____ distance from exchange for _____ _____?

Does _____ _____ service _____ _____ into account _____ distance _____ exchange when determining _____?

_____ the _____ from _____ exchange considered when _____ _____ _____ for subscriptions?

_____ _____ anticipated speeds, _____ _____ the service _____ _____ into account the physical distance _____ the _____ _____?

I _____ _____ to _____ how _____ from exchange the _____ _____ _____ _____ account in _____ expected speeds.

How does _____ ISP _____ _____ _____ exchanging _____ calculate _____ speeds?

Does _____ _____ _____ _____ take distance from exchange for _____ _____?

Internet service _____ should consider _____ from exchange _____ _____ _____ when _____ _____ bandwidth.

_____ _____ expected bandwidth, how should the internet _____ _____ view _____ _____ _____ exchange?

_____ _____ internet _____ provider _____ for _____ _____ from exchange when _____ subscription speeds?

The _____ service provider _____ consider distance _____ _____ _____ calculating expected _____.

Will the internet service _____ consider _____ distance _____ _____ _____ their _____ _____?

I would _____ _____ know _____ far from exchange the internet provider _____ _____ _____ into _____ _____ _____ _____ subscription speeds

_____ an internet _____ _____ _____ _____ _____ such _____ distance _____ exchange when determining bandwidth expectations?

_____ should the _____ service provider handle _____ _____ _____ _____ from exchange _____ defining expected _____?

I want to _____ _____ _____ factors _____ _____ _____ _____ from _____ the _____ provider _____ _____ their calculations of _____ subscription speeds are.

_____ _____ _____ into _____ distance from the _____ when setting _____ bandwidth?

_____ should the internet _____ _____ take _____ limitations like _____ to _____ when defining _____ _____?

_____ should internet service provider take _____ _____ _____ exchange _____ _____ _____ defining _____ bandwidth?

Considering _____ distance between _____ _____ is the _____ _____ by the _____ service _____?

_____ _____ _____ service _____ _____ for real world obstacles like _____ from exchange when _____ _____?

_____ _____ to know what _____ _____ are _____ affect _____ far _____ exchange _____ internet provider takes into _____ _____ their calculation _____ _____ subscription _____.

While _____ _____ for bandwidth and _____ _____ _____ _____ with constraints such _____ proximity to _____?

I _____ to know the factors that _____ how _____ _____ _____ the internet _____ _____ _____ account when _____ expected _____.

I _____ to know what _____ _____ are _____ _____ _____ _____ from _____ the internet provider _____ into account in calculating _____ _____.

_____ internet _____ providers consider _____ _____ exchange _____ be a _____ _____ _____ expected bandwidth?

_____ want _____ know _____ _____ _____ _____ that affect _____ far _____ from exchange _____ _____ provider _____ into account in calculating their _____ subscription _____.

_____ would like to know _____ _____ _____ how far _____ _____ the internet _____ takes _____ account _____ calculating _____ speeds.

When _____ anticipated _____ _____ does the _____ _____ provider consider physical _____ _____ _____ exchange point?

I'd _____ to know _____ far from exchange _____ internet provider _____ into _____ _____ _____ _____ _____.

_____ _____ internet service provider take into account _____ _____ such _____ _____ _____ exchange _____ _____ bandwidth expectations?

_____ _____ like to _____ how far _____ exchange the _____ _____ takes into account _____ calculating their _____ _____ _____

How _____ the ISPs address _____ _____ _____ _____ _____ subscription speeds?

I _____ _____ to _____ what factors _____ how far _____ _____ _____ _____ _____ provider considers in _____ their _____ subscription speeds.

Should _____ _____ service _____ _____ distance from exchange _____ _____ expected bandwidth?

Does an _____ _____ provider consider _____ _____ _____ distance from exchange when _____ _____ _____?

I don't know what _____ factors _____ affect how far _____ exchange _____ internet provider _____ _____ _____ _____ calculating _____ predicted _____ _____.

_____ internet _____ _____ might _____ _____ distance between exchanges when _____ _____ anticipated bandwidth.

When defining anticipated speeds, _____ does _____ _____ service provider _____ into account _____ distance _____ _____ _____ _____?

_____ _____ _____ _____ service provider _____ distance in determining expected speeds during _____ _____?

How is the internet _____ _____ _____ _____ obstacles while setting _____ _____?

When defining _____ bandwidth, how _____ the _____ _____ _____ factor in _____?

_____ _____ _____ know the _____ that affect _____ far from _____ the _____ _____ takes _____ account in calculating _____ speed.

_____ _____ _____ _____ what the factors _____ affect _____ far from exchange _____ _____ service providers _____ when calculating _____ _____ subscription speeds.

_____ _____ _____ _____ _____ far from the exchange they are _____ _____ determining _____ speed?

How should _____ _____ providers _____ _____ _____ exchange as a _____ when _____ _____ bandwidth?

How _____ _____ ISP _____ _____ consideration _____ _____ to _____ exchange point when defining _____ speeds?

I _____ _____ know what the _____ _____ that affect how _____ from exchange the internet service _____ consider _____ _____ _____ _____ _____.

_____ _____ distance between exchanges, _____ _____ _____ _____ _____ bandwidth by the _____ service provider?

Can _____ _____ service provider _____ actual _____ _____ as _____ _____ _____ when setting bandwidth expectations?

_____ the _____ _____ provider _____ real world _____ like _____ _____ _____ exchange when defining expected _____?

_____ _____ like _____ know the factors _____ affect _____ _____ _____ _____ _____ provider _____ into account in calculating their _____ speeds.

_____ want to know _____ _____ _____ affect how _____ from _____ the _____ _____ providers consider _____ calculating their subscription _____.

_____ does _____ _____ _____ _____ exchange into _____ calculation _____ expected subscription speeds?

_____ _____ to _____ _____ _____ factors are that affect how far _____ exchange _____ internet provider takes _____ _____ _____ calculating _____ predicted _____.

_____ should _____ _____ service _____ consider the distance from _____ _____ defining _____ bandwidth?

Is distance _____ _____ _____ when defining _____ expectations _____ an _____?

_____ should the _____ _____ provider treat _____ restrictions _____ distance from exchange _____ _____ _____ bandwidth?

Does _____ _____ _____ _____ _____ for distance from _____ when _____ subscription speeds?

_____ the provider _____ how _____ _____ _____ exchange they _____ when calculating _____ speeds?

Does _____ _____ _____ at how far _____ _____ exchange they _____ _____ when _____ internet speed?

_____ does the ISPs take _____ distance to _____ _____ _____ into _____ when defining _____ _____?

_____ should _____ _____ _____ _____ _____ real-world limitations like _____ to exchange into _____ when _____ _____ bandwidth during subscription?

Is the _____ _____ _____ taken into account _____ _____ subscription _____?

_____ setting _____ expected bandwidth, _____ do you _____ _____ account _____ _____ from _____ exchange

_____ distance from exchange is _____ real-world _____ that the _____ _____ _____ _____ _____ defining _____ bandwidth.

How _____ _____ _____ exchange _____ the _____ considering when _____ internet speed?

How should _____ internet service provider _____ _____ _____ exchange _____ defining _____?

Is distance _____ _____ _____ when defining _____ _____ for _____ _____ service Provider?

Is _____ _____ _____ exchange taken _____ account when _____ the subscription _____?

How _____ the _____ service provider _____ _____ distance _____ exchange _____ defining _____?

Is _____ ISP _____ _____ _____ for distance _____ exchange when determining _____ _____?

_____ _____ _____ _____ internet service _____ make _____ it comes _____ distance and expected _____?

_____ would _____ _____ know how far _____ the exchange _____ _____ provider _____ into account to _____ expected _____.

_____ _____ like to _____ the _____ that _____ _____ far away _____ _____ provider takes into _____ _____ calculating their _____ speeds.

Has _____ internet service provider taken distance _____ _____ _____ _____ _____ speeds?

_____ _____ like _____ _____ how far from _____ _____ _____ _____ takes into account to calculate _____ speeds.

_____ the internet service provider _____ _____ _____ like _____ _____ exchange when determining _____ _____?

_____ _____ _____ provider needs _____ consider distance from exchange _____ defining _____.

Does _____ _____ service provider consider _____ _____ _____ as _____ _____ exchange when setting bandwidth _____?

Does the provider consider _____ far away from _____ _____ _____ _____ _____ _____ internet _____?

Is the provider _____ _____ how _____ from _____ exchange _____ _____ _____ when determining _____?

_____ _____ _____ for the _____ to factor in _____ _____ exchange into their calculation _____ _____ subscription _____?

I want to know _____ the _____ are _____ affect _____ _____ _____ exchange _____ _____ consider _____ calculating their subscription _____.

_____ _____ distance from exchange taken into _____ when determining _____ _____ _____ _____?

_____ does _____ ISPs _____ _____ _____ the physical distance to _____ _____ point _____ _____ expected speeds?

Can _____ _____ service _____ take real _____ limitations like _____ distance _____ exchange _____ defining _____ _____?

_____ _____ like _____ _____ _____ _____ _____ are that affect how far from exchange the internet _____ takes into _____ in _____ their _____
_____

_____ _____ distance from exchange considered when _____ _____ _____ _____ an ISPs?

Is _____ _____ _____ factored _____ the _____ bandwidth _____ the internet _____ provider?

Does _____ service provider factor in _____ _____ exchange _____ _____ _____?

_____ _____ the _____ for distances _____ the exchange when _____ bandwidth expectations _____ _____?

How does _____ _____ service provider factor distance _____ _____ _____ _____ calculations?

Is proximity _____ _____ anticipated _____ _____ ISPs _____ sign up?

Does _____ ISPs consider distance _____ _____ _____ _____ bandwidth?

Is _____ _____ from _____ considered when determining _____ during _____?

Is _____ to exchange taken _____ account by _____ _____ _____ _____?

_____ _____ internet service providers _____ _____ the _____ from exchange _____ defining expected _____?

Is the _____ service provider _____ _____ of _____ _____ exchange when _____ _____ speeds?

_____ about distance from exchange _____ _____ expected _____ during _____?

I _____ _____ know the _____ _____ affect how _____ from exchange _____ internet provider takes _____ _____ _____ _____ their subscriber _____.

_____ _____ _____ consider _____ _____ _____ the exchange they are from _____ _____ internet speeds?

_____ does _____ internet service _____ take into consideration _____ distance _____ the _____ _____ _____ defining _____ speeds?

How does the ISP _____ _____ _____ _____ _____ from _____ _____ point when defining anticipated _____?

_____ you know _____ the _____ _____ _____ takes _____ _____ exchanging to _____ expected speeds?

_____ do _____ take _____ _____ distance from the exchange _____ _____ _____ bandwidth?

_____ proximity factored into anticipated bandwidth _____ _____ _____ service _____?

_____ _____ _____ when determining the anticipated _____ by the internet _____ provider, _____ that there are real-world _____ _____ _____
_____ _____ exchanges.

Does the internet _____ _____ _____ _____ from _____ for speed?

How _____ distance _____ _____ _____ by real-world _____ when _____ anticipated speeds _____ subscribers?

The _____ service _____ should _____ the distance from _____ into _____ _____ defining _____ _____.

How should internet _____ _____ limit _____ from _____ when _____ _____ bandwidth?

Does _____ ISP account _____ _____ distance from _____ when _____ _____?

I would like _____ _____ what _____ _____ _____ _____ affect how _____ from exchange the _____ provider _____ into account _____ _____ the
subscription _____.

I _____ _____ know the factors that affect _____ far _____ exchange _____ ISPs _____ _____ calculating _____ _____.

I want _____ _____ _____ factors that _____ _____ far from exchange _____ _____ provider takes _____ _____ in calculating _____ _____ speeds.

_____ internet service provider _____ take _____ _____ _____ distance from exchange _____ _____ when defining _____ _____.

I _____ like to _____ _____ the _____ that _____ _____ far _____ exchange the _____ _____ _____ _____ account in calculating _____ subscriber
speeds.

_____ want to know _____ _____ affect how far from _____ _____ _____ _____ _____ into account in calculating the _____ _____ _____.

When defining expected _____ how _____ the internet _____ provider _____ at _____ _____ _____?

I'd _____ to _____ what _____ are that affect _____ far _____ _____ the ISPs consider _____ calculating _____ _____.

The _____ service provider _____ _____ _____ _____ _____ exchange when _____ expected bandwidth.

_____ _____ _____ _____ how _____ internet service _____ look at distance _____ exchange?

The _____ _____ _____ consider distance _____ _____ a limitation when _____ expected bandwidth.

_____ the _____ service provider _____ _____ of the _____ from _____ _____ determining speeds?

_____ _____ _____ service provider consider the distance _____ exchange _____ _____ speeds?

_____ _____ provider take account _____ how _____ away _____ the _____ _____ are _____ when determining _____ speed?

How _____ the ISP _____ in distance from _____ into _____ calculation _____ _____ _____?

When _____ _____ speeds for subscribers, how _____ _____ _____ distance from _____?

How _____ the internet _____ _____ factor in distance to decide _____ _____ _____ _____ _____?

_____ _____ to _____ _____ the factors are that _____ _____ far _____ _____ internet _____ takes into _____ _____ calculating the subscription speeds.

When _____ bandwidth expectations _____ subscribers, _____ considerations _____ ISPs make regarding _____ _____ _____ _____ exchange?

I _____ like _____ know _____ far _____ _____ _____ internet provider takes into account _____ their calculation _____ _____ _____.

The _____ service provider _____ consider the _____ from exchange _____ _____ limitation _____ determining _____ _____.

_____ want to _____ _____ _____ factors are _____ _____ _____ far away from _____ the internet provider takes _____ account _____ _____ _____ speeds.

_____ is internet _____ _____ _____ the _____ constraints _____ setting connection speed

_____ _____ speed _____ subscriptions, do ISPs _____ into _____ the _____ from an _____?

_____ should the _____ service provider _____ real-world _____ _____ distance _____ _____ expected bandwidth?

_____ internet service _____ should _____ _____ from exchange _____ a _____ when defining _____.

_____ want to _____ _____ _____ _____ how far from _____ _____ internet provider takes _____ account in _____ calculation _____ predicted subscription _____

_____ do you _____ for _____ _____ an _____ when _____ service speeds?

When _____ bandwidth, _____ should the internet _____ _____ _____ distance from _____?

_____ _____ _____ _____ service provider _____ distance into _____ when _____ expected bandwidth?

_____ factors that affect how _____ from exchange _____ internet _____ _____ into account in _____ _____ _____ _____ subscription speeds _____ _____ known.

_____ it possible for the _____ _____ factor _____ _____ _____ _____ their calculation of _____ _____ speeds?

What _____ the _____ the _____ service _____ _____ about distance _____ expected _____?

What about _____ from exchanges is _____ when _____ expected _____ _____ _____?

How should _____ _____ providers decide _____ _____ _____ exchange when defining _____ _____?

How _____ _____ _____ _____ provider _____ into _____ distance from _____ when estimating bandwidth?

_____ the distance _____ _____ _____ into _____ _____ _____ _____ subscription speeds by the ISP?

_____ defining _____ _____ how should _____ internet _____ provider account _____ _____ to exchange?

_____ _____ the considerations for _____ _____ the _____ when predicting bandwidth _____ _____?

When determining _____ _____ does _____ _____ _____ how _____ away they are _____ the _____?

_____ setting _____ for subscribers, how _____ _____ incorporate constraints such as _____ _____ _____?

_____ are the _____ of distance _____ _____ _____ when _____ _____ for subscribers?

When defining _____ speeds _____ subscribers, _____ should distance from _____ _____ _____ into _____?

_____ about _____ _____ exchanges is considered when _____ _____ speeds _____ subscriptions?

_____ _____ expected bandwidth, how should the _____ _____ provider _____ _____ _____ exchange?

How do _____ _____ _____ the _____ from _____ exchange when _____ expected _____?

How _____ internet service _____ _____ distance _____ exchange _____ _____ _____ speeds for subscribers?

I _____ _____ _____ _____ _____ far from _____ the _____ provider takes _____ account subscription speeds.

_____ would like to know if the _____ _____ affect how _____ from _____ _____ internet _____ _____ _____ in _____ _____ _____ subscription speeds.

When defining _____ _____ how do the _____ _____ _____ _____ from exchange?

Is the distance _____ exchange taken _____ _____ _____ _____ _____ _____ during subscription?

_____ internet service _____ should _____ _____ from _____ when _____ bandwidth.

_____ should an _____ _____ _____ take the distance _____ _____ _____ _____ defining expected bandwidth?

I want to _____ _____ _____ _____ how far from exchange the _____ consider when _____ their _____ _____ _____.

I would like to _____ what the factors _____ _____ _____ _____ _____ _____ exchange the internet _____ _____ _____ _____ _____ calculating their expected _____ speeds.

_____ _____ _____ consider how far from _____ _____ _____ are from _____ setting _____ internet speed?

_____ you _____ into account the distance from _____ _____ _____ _____ _____ bandwidth?

Does the _____ _____ _____ _____ exchange into _____ calculation _____ expected _____ speeds?

_____ internet _____ provider _____ _____ real world limitations like distance from _____ into _____ when _____ _____ _____.

_____ should _____ internet service provider _____ _____ from _____ into account _____ _____ bandwidth?

_____ is internet _____ _____ considering geographical _____ when _____ _____ speed

_____ _____ to _____ the factors that _____ _____ far from _____ the ISPs _____ _____ calculating their expected _____ _____.

I'd like to know _____ _____ _____ are that _____ _____ far _____ _____ the _____ consider _____ _____ their expected _____ speeds.

_____ the _____ service _____ factor _____ _____ from exchange for _____?

I _____ like _____ _____ what factors affect _____ far from exchange the internet _____ _____ _____ in _____ _____ expected _____ _____.

_____ _____ _____ _____ provider considering the _____ _____ when setting connection speed?

What factors _____ _____ far _____ exchange the internet _____ takes _____ account _____ _____ _____ speed?

_____ the ISP account for _____ from _____ _____ _____ bandwidth/speed?

Will _____ _____ _____ exchange be _____ into _____ by the _____ provider?

_____ distance from exchange is _____ _____ the _____ that _____ ISP _____ _____ _____ expected bandwidth/speeds.

Do _____ _____ providers take _____ _____ like distance to exchange _____ _____?

_____ _____ service provider _____ take _____ limitations like _____ to _____ into _____ setting _____ bandwidth.

_____ defining _____ speeds _____ subscribers, _____ do they consider _____ like _____ _____ exchange

How does the _____ _____ provider _____ _____ _____ to determine _____ speeds for _____?

_____ should the _____ service Provider _____ _____ from exchange _____ _____ expected _____?

_____ _____ _____ know the factors that _____ _____ _____ from exchange the internet _____ _____ considers in _____ _____ subscription speeds.

When setting _____ _____ _____ do you account _____ distance _____ _____ exchange?

_____ does _____ internet service _____ handle practical _____ such as _____ from _____ when _____ _____ _____?

_____ internet _____ provider should take real _____ _____ like distance fromexchange into _____ _____ _____ _____ _____.

_____ does the ISP _____ into account _____ distance _____ _____ _____ point _____ _____ anticipated speeds?

_____ forecasting bandwidth expectations _____ subscribers, what _____ _____ they make _____ _____ _____ from _____ exchange?

How _____ the ISP _____ _____ _____ the physical _____ _____ the exchange point _____ defining _____ anticipated _____?

_____ internet service _____ take _____ account _____ from _____ _____ when _____ _____ for subscribers?

How should the _____ _____ _____ consider distance from _____ _____ a limitation _____ _____ expected _____?

_____ _____ ISP _____ into _____ _____ _____ _____ for expected bandwidth/speed during subscription?

Is proximity to _____ _____ _____ account by the _____ _____ provider _____ _____ _____ bandwidth?

_____ _____ _____ take _____ account _____ _____ from exchange when setting _____ speeds?

When setting expected bandwidth, _____ _____ _____ into account _____ from _____ _____?

How _____ from _____ the _____ _____ _____ into account in _____ expected speed is _____ _____ _____ like _____ know.

I wonder _____ _____ distance from _____ is taken into _____ _____ _____ subscription _____.

_____ _____ _____ take into account _____ _____ away they are _____ the exchange _____ _____ _____ speed?

_____ an _____ service _____ _____ _____ _____ such as the distance _____ exchange?

What are the considerations _____ distance _____ _____ _____ when predicting bandwidth _____ _____ _____?

_____ _____ provider consider how _____ away _____ _____ exchange they _____ from _____ figuring _____ _____ speed?

I would like _____ _____ how far _____ _____ _____ internet _____ _____ into _____ _____ subscription speeds.

_____ internet _____ _____ _____ distance from _____ in expected speeds?

How does _____ internet _____ _____ _____ into account _____ distance to _____ _____ point when defining _____ _____?

_____ determining internet speeds, _____ the _____ _____ about how _____ from the _____ _____ _____ from?

_____ _____ you take _____ of _____ _____ the _____ when _____ the expected bandwidth?

_____ _____ _____ _____ service _____ _____ the distance from exchange _____ defining bandwidth?

I _____ like _____ know _____ _____ from _____ the internet provider _____ _____ account when _____ _____ speed

_____ _____ internet service provider consider limitations like _____ _____ exchange when _____ _____ _____?

_____ the _____ consider how far away from an _____ _____ _____ _____ _____ _____ speed?

Does _____ Internet service _____ factor in _____ _____ _____ _____ expected speed?

I _____ _____ to know the factors _____ affect _____ far _____ exchange _____ _____ provider takes into account _____ _____ _____ subscription _____.

The internet _____ provider _____ take real-world _____ like _____ _____ _____ into _____ _____ _____ expected bandwidth.

While setting expectations for _____ bandwidth _____ speeds, how _____ _____ _____ _____ _____ _____ their proximity to _____ _____ predicting bandwidth _____ for _____ considerations should be made _____ the _____ from _____ _____?

How do _____ _____ about _____ _____ distance from _____ _____ defining _____ speeds _____ subscribers?

Does the internet _____ _____ _____ _____ distance _____ exchange _____ anticipated bandwidth?

Does the _____ take into _____ distance _____ _____ _____ expected _____?

_____ you take into _____ the _____ from the _____ _____ _____ the _____ bandwidth?

How far _____ _____ the _____ provider _____ into account in calculating expected subscription _____ _____ _____ _____ _____ to _____.

I want _____ know what the factors are that affect _____ far _____ _____ _____ _____ provider takes _____ account _____ _____ _____ _____.

_____ _____ bandwidth _____ for _____ _____ considerations _____ be made regarding the distance from _____ _____?

How is _____ distance _____ _____ _____ into the _____ of _____ expected subscription _____?

I _____ to _____ what the _____ _____ that _____ _____ far _____ exchange the _____ _____ _____ into _____ in calculating expected speeds.

_____ factors _____ _____ how far from _____ the _____ provider takes _____ account _____ _____ their _____ _____ _____ should be known.

_____ _____ possible _____ an internet service _____ considers _____ such as distance from _____ _____ setting _____ _____?

How _____ _____ service _____ _____ about the _____ _____ _____ when defining expected bandwidth?

_____ does the ISP _____ _____ practical challenges like _____ _____ _____ when _____ expected _____?

_____ _____ _____ between exchanges _____ is considered _____ determining the anticipated _____ by _____ _____ service _____?

The internet _____ provider _____ _____ _____ from exchange _____ limitation _____ defining expected _____.

When _____ _____ _____ are you taking _____ account _____ _____ the exchange?

_____ _____ _____ _____ consider _____ from exchange _____ defining expected bandwidth?

How _____ _____ _____ exchange _____ considered _____ _____ anticipated speeds for subscribers?

_____ is _____ service _____ considering _____ _____ drawbacks _____ setting connection speed?

Does _____ internet service provider take _____ _____ the distance _____ exchange _____ _____ _____?

_____ forecasting bandwidth _____ for subscribers, _____ _____ _____ considerations for _____ from _____ exchange?

Is _____ provider _____ _____ _____ far _____ the exchange they are _____ _____ determining internet _____?

_____ the _____ _____ take _____ account _____ from _____ while determining expected _____?

How _____ ISPs _____ _____ _____ factors like distance from _____ _____ hub when _____ _____ speeds?

_____ are _____ considerations _____ internet service provider _____ when _____ _____ _____ _____ and expected speeds?

How _____ _____ _____ constraints relating to distance when _____ _____ _____?

_____ do ISPs _____ _____ _____ _____ _____ to exchanges _____ set expectations for bandwidth and _____?

_____ defining _____ bandwidth, _____ should _____ service _____ take _____ limitations like the _____ _____ exchange?

_____ _____ the ISP _____ _____ distance from exchange _____ _____ calculation _____ _____ subscription speeds?

_____ the _____ service provider _____ for distance _____ exchange when _____ _____ _____?

_____ would like _____ _____ _____ _____ _____ that _____ how _____ from _____ the internet provider _____ into account in calculating subscriber _____.

_____ defining expected _____ _____ does _____ ISP factor _____ exchange _____?

How should the _____ _____ _____ handle _____ World limitations _____ _____ _____ fromexchange _____ _____ expected bandwidth?

_____ _____ _____ give _____ _____ to how far from _____ _____ they are _____ when determining internet _____?

_____ the _____ service provider account for distance _____ exchange _____ _____ _____ speed _____ sign _____?

What are _____ _____ _____ affect how _____ from _____ _____ _____ internet provider takes into _____ when calculating _____ _____?

How do internet service providers _____ constraints such _____ _____ proximity _____ _____ _____ _____ _____?

_____ should internet _____ providers take real _____ limitations _____ the _____ from _____ _____ account when _____ _____ bandwidth?

_____ _____ that _____ how _____ from exchange the ISPs _____ in calculating their _____ subscription _____ _____ _____ I would _____ _____ know.

When _____ bandwidth, _____ _____ the ISP _____ in _____ from _____?

Is it _____ _____ the internet _____ provider factors _____ _____ _____ _____ their calculations?

_____ _____ to know what _____ _____ are _____ _____ how far _____ exchange the ISPs consider when _____ _____ expected _____ _____.

____ internet ____ provider ____ to ____ real-world restrictions like distance ____ exchange ____ ____ ____ defining expected ____.

Does ____ internet service ____ take ____ account the distances ____ ____ ____ ____ ____ speeds?

I ____ like ____ know what ____ ____ are ____ affect how ____ from ____ ____ ____ provider ____ into account ____ ____ subscriber speeds.

____ the ____ think ____ how far away ____ ____ ____ they are ____ ____ calculating internet ____?

I want ____ know what ____ affect ____ ____ ____ exchange ____ internet provider ____ into ____ ____ calculating expected subscription ____.

Does the service ____ take ____ account ____ distance from ____ ____ ____ ____ speeds?

____ role ____ the distance to ____ ____ ____ in determining ____ speeds during ____?

Can you ____ ____ account distance ____ the ____ ____ setting ____ expected ____?

____ do ____ incorporate constraints ____ ____ ____ proximity to exchanges while ____ expectations ____ ____ and ____?

Does the provider ____ ____ mind ____ far ____ the ____ they are from ____ ____ ____ ____?

____ the ISP take ____ account ____ like ____ from ____ ____ ____ expected speeds?

____ the ISP factor ____ the ____ ____ exchange for ____ ____?

How ____ ____ ISP take ____ account factors ____ ____ distance ____ ____ ____ point when defining anticipated ____?

Does the provider think ____ how far from ____ ____ ____ ____ ____ when ____ internet ____?

Does the internet service ____ factor ____ ____ from ____ ____ for ____?

Do ____ take the distance ____ the exchange ____ ____ ____ ____ ____ bandwidth?

____ ____ bandwidth, do you take ____ distance ____ ____ exchange ____ account?

____ ____ ____ for ____ from exchange when ____ subscription speeds?

I would like ____ ____ the ____ that affect ____ ____ ____ ____ the internet provider takes into account ____ ____ ____ expected ____ ____.

____ ____ ____ ____ if ____ ____ ____ affect how ____ from exchange the internet ____ providers ____ in ____ their subscription speeds.

Can ____ ____ account of the distance ____ ____ exchange ____ ____ expected ____?

____ ____ to ____ ____ the ____ are that affect ____ ____ ____ ____ ____ internet provider takes into account ____ calculate subscriber speeds.

When ____ expected bandwidth/speeds ____ ____ subscription, how ____ ____ ____ service provider ____ distance from ____?

Does ____ internet service ____ ____ ____ from ____ for ____ speeds?

____ like to know ____ the ____ ____ affect ____ far from exchange the ____ consider ____ ____ their expected ____ ____.

____ are ____ ____ ____ ____ distance from the ____ when forecasting ____ for subscribers?

What are the ____ that ____ ____ ____ from exchange the ____ provider ____ ____ ____ ____ ____ calculation ____ expected subscription speeds?

____ do ____ ____ ____ account ____ ____ from ____ exchange while setting the ____ bandwidth?

____ would like ____ know if the ____ ____ ____ how far ____ ____ ____ internet provider ____ into account ____ calculating ____ ____ speeds.

I ____ ____ it ____ ____ could tell ____ ____ ____ ____ exchange ____ ____ provider takes into account in calculating their ____ subscription ____.

____ ____ like ____ know ____ ____ ____ affect how far from exchange the ____ ____ takes into ____ ____ calculating ____ subscription speeds

____ estimating ____ for service, ____ ____ you count ____ ____ ____ ____ from an exchange?

____ would ____ ____ ____ ____ far ____ exchange ____ internet ____ takes into account in ____ expected subscriber speeds.

How does the ISP ____ ____ ____ distance ____ ____ ____ ____ when ____ anticipated speeds?

Does ____ internet ____ ____ consider limitations ____ as ____ from ____ when ____ ____ speeds?

____ is ____ when determining the anticipated ____ by the internet ____ ____ given that ____ ____ ____ limitations ____ ____ being near ____?

How ____ ____ internet service provider consider distance ____ exchange ____ ____ ____ ____?

____ should the ____ ____ provider think ____ ____ ____ exchange when setting expected ____?

During ____ ____ ____ ____ factored into the anticipated bandwidth by ____ ____?

What considerations ____ the ____ ____ provider ____ about distance ____ expected ____?

____ does the ISP take into ____ ____ physical distance to ____ ____ ____ ____ ____ speeds?

I want ____ ____ ____ far from ____ ____ internet ____ ____ into account in ____ ____ expected subscriber speeds.

____ defining ____ bandwidth the internet ____ ____ should ____ ____ distance ____ exchange

____ would like ____ know how far ____ ____ ____ ____ provider takes into ____ in calculating ____ expected ____ ____.

_____ _____ to know what the factors _____ that _____ how _____ _____ _____ _____ ISPs consider when _____ the _____ subscription _____.

_____ is _____ _____ _____ considering geographical challenges when _____ connection _____?

I would _____ to _____ the factors that _____ _____ far away _____ _____ _____ takes into _____ _____ calculating _____ speeds.

_____ want _____ _____ if the _____ that _____ how far _____ _____ the ISPs _____ when calculating their _____ _____ speeds.

_____ _____ distance _____ an _____ considered when estimating _____ for subscriptions _____?

_____ want _____ _____ what factors _____ how far _____ exchange _____ _____ _____ takes into account when calculating _____ _____.

What _____ _____ made by _____ _____ _____ provider _____ distance _____ expected speeds?

I _____ to _____ the factors that affect how _____ from _____ _____ _____ _____ takes _____ account _____ _____ expected subscriber _____.

How _____ the internet _____ provider take real _____ _____ like _____ _____ _____ _____ _____ defining expected bandwidth?

_____ _____ to _____ how far from _____ the _____ _____ _____ into account in _____ expected _____

_____ _____ _____ service _____ _____ actual geographical obstacles while _____ connection speed?

_____ _____ internet service providers take World _____ _____ _____ _____ _____ _____ when defining expected bandwidth?

Is the _____ _____ exchange _____ _____ setting expected bandwidth/speeds _____ _____?

The _____ _____ provider _____ consider distance _____ exchange _____ a limitation _____ _____ _____ bandwidth.

What _____ _____ _____ _____ the _____ _____ by _____ _____ service provider, given _____ _____ _____ limitations such as being near exchanges?

_____ _____ _____ know _____ the factors are that _____ how far _____ exchange _____ internet _____ providers _____ _____ calculating their subscription _____.

I _____ _____ to _____ _____ _____ _____ exchange the internet provider _____ _____ _____ when calculating _____ expected subscriber speeds.

When _____ _____ _____ _____ should _____ internet _____ provider view _____ from exchange?

_____ _____ _____ service provider _____ _____ account _____ from exchange when determining expected _____?

Does an _____ _____ _____ _____ limitations such _____ distance _____ exchange _____ defining expectations?

_____ the _____ from exchange _____ for when _____ _____ subscription _____?

_____ defining _____ bandwidth, how _____ _____ ISPs factor _____ _____ from exchange?

_____ _____ from exchange the _____ provider _____ _____ _____ _____ their _____ _____ expected subscription speeds _____ something I'd like _____ know.

I _____ _____ how far from exchange _____ _____ provider takes into _____ in their _____ of _____ _____ _____.

The internet _____ _____ needs _____ take real-world _____ _____ distance to _____ into account _____ defining _____ _____.

_____ does the _____ _____ provider factor _____ _____ distance from the exchange _____ _____ _____?

_____ should the _____ _____ provider _____ distance _____ when defining expected _____?

I would like _____ know _____ the _____ _____ that _____ how _____ from _____ _____ internet _____ takes into _____ _____ calculating subscription _____.

_____ _____ _____ to _____ the factors _____ affect _____ far _____ from _____ _____ internet _____ takes into _____ _____ calculating their predicted subscription speeds.

_____ _____ _____ _____ service provider take distance _____ _____ to calculate expected _____?

Does _____ internet service provider consider _____ _____ such _____ distance _____ _____ _____ _____ signup?

_____ _____ _____ subscription speeds, _____ the _____ _____ for distance from exchange?

Does the _____ consider _____ _____ _____ they are _____ _____ exchange _____ determining the _____ speed?

_____ does the internet _____ _____ _____ distance from _____ exchange _____ _____ expectations?

_____ determining _____ speed, does _____ provider consider _____ far _____ _____ exchange they _____ _____?

I _____ like to _____ what the _____ _____ _____ _____ _____ _____ _____ exchange _____ ISPs _____ in _____ their subscription speeds are.

_____ determining internet _____ does _____ provider think about how _____ _____ they _____ from _____ _____?

How is _____ _____ _____ _____ considering geographical constraints _____ _____ connection speed?

Is the _____ _____ _____ _____ into account when _____ _____ speeds _____ a subscription?

_____ the _____ _____ provider take into _____ distance from exchange while _____ _____ _____?

How should the internet _____ _____ _____ _____ _____ distance to _____ _____ defining expected bandwidth?

_____ _____ _____ from exchange _____ considered _____ _____ _____ provider when defining expected bandwidth?

How is internet service _____ _____ the _____ _____ _____ _____ connection speed?

The _____ _____ provider should consider distance from _____ as _____ _____ _____ _____ expected _____.

How should _____ internet service _____ _____ the distance _____ exchange _____ account _____ _____ _____ bandwidth?

The _____ _____ _____ _____ consider the _____ _____ exchanges _____ determining the anticipated bandwidth.

_____ internet _____ _____ needs to consider distance _____ _____ when _____ expected _____

Does the _____ think about _____ _____ _____ an _____ they _____ _____ _____ internet speed?

_____ should _____ _____ _____ provider _____ _____ World _____ like distance _____ exchange into account when defining _____ bandwidth?

_____ want to know if the _____ _____ _____ how _____ from _____ the internet _____ _____ _____ account _____ _____ their predicted speeds.

When setting _____ for subscribers' _____ and _____ how do _____ _____ constraints _____ _____ _____ proximity to _____?

Does the internet _____ provider take _____ _____ obstacles _____ _____ _____ _____ when _____ expected speed?

_____ internet service provider should _____ distance from _____ _____ a limitation _____ _____ _____ _____.

How _____ the internet _____ _____ considering geographical issues _____ _____ connection _____?

_____ _____ provider consider how _____ _____ from _____ exchange they _____ _____ _____ _____ the internet speeds?

How does the ISP _____ _____ account physical _____ _____ _____ _____ point _____ calculating _____ speeds?

I am curious _____ _____ factors that affect how _____ from _____ _____ _____ provider _____ _____ account _____ calculating subscriber _____.

_____ want to know _____ far _____ exchange the internet provider _____ into _____ _____ _____ their _____ _____.

_____ the _____ _____ _____ _____ distance from exchange for bandwidth?

_____ an internet _____ provider consider actual _____ _____ _____ _____ _____ exchange when _____ their bandwidth _____?

_____ the _____ _____ in distance _____ exchange for expected _____?

I _____ to know what _____ factors are _____ affect _____ _____ _____ exchange the _____ _____ in _____ their subscription _____

_____ want to know what the _____ are _____ affect _____ far _____ from exchange _____ internet _____ takes into account _____ _____ _____ _____ _____ subscription _____

I _____ like to know _____ _____ _____ how far _____ exchange _____ internet provider _____ _____ account in _____ _____ speeds.

_____ does the _____ service _____ consider _____ distance from _____ when _____ _____ bandwidth?

_____ _____ like _____ know _____ _____ factors that _____ _____ far _____ exchange _____ internet provider takes into _____ _____ their calculation _____ predicted _____ speeds.

How _____ _____ internet service _____ take real-world _____ _____ distance _____ account _____ setting expected _____?

_____ the internet service _____ _____ the _____ from exchange in _____ _____ _____?

_____ are distance from exchange _____ when _____ _____ _____ for _____?

How _____ internet service provider considering _____ _____ _____ _____ connection _____

Does the _____ service _____ account for real _____ _____ like _____ _____ exchange when _____ _____ _____?

_____ _____ _____ _____ _____ take _____ limitations like distance and _____ _____ _____ when defining expected bandwidth.

_____ _____ _____ factors that affect how far _____ exchange the _____ _____ _____ into _____ in the _____ of expected _____ _____?

_____ _____ from exchange the _____ provider takes into _____ in calculating _____ _____ subscription _____ _____ _____ _____ want to know.

The internet _____ provider _____ _____ distance _____ _____ when defining _____ _____ subscription.

_____ you take _____ _____ _____ the _____ into consideration when _____ _____ bandwidth?

_____ _____ take into account the _____ _____ _____ _____ when setting _____ bandwidth?

_____ _____ internet _____ _____ consider _____ limitations such as _____ from _____ _____ defining bandwidth expectations?

_____ the _____ service provider _____ _____ obstacles like _____ _____ _____ when determining expected _____?

How _____ _____ service provider _____ _____ problems when setting _____ _____?

How _____ the _____ _____ provider consider _____ from _____ _____ defining _____ bandwidth.

How does the internet _____ provider _____ _____ the _____ _____ _____?

_____ the provider _____ _____ _____ away they are from _____ _____ _____ determining speed?

Does _____ provider _____ how _____ _____ the exchange _____ _____ from _____ deciding on internet _____?

_____ _____ expectations _____ subscribers' _____ and _____ _____ _____ they account for _____ such _____ their proximity to exchanges?

I want to _____ _____ _____ _____ _____ _____ _____ far _____ _____ _____ internet provider takes _____ account when calculating expected subscription speeds.

Does _____ ISP take _____ account _____ _____ _____ when determining _____ speed?

When _____ _____ _____ during _____ what is _____ distance from exchange _____?

Does the internet _____ provider _____ real _____ _____ like _____ from exchange _____ determining _____ _____?

Is the _____ from exchange taken into _____ _____ _____ expected _____ _____?

_____ internet _____ provider should take _____ _____ into account _____ _____ expected _____.

How _____ ISPs _____ distance-related constraints _____ _____ _____ speeds?

The _____ _____ _____ might _____ distance from exchange as _____ _____ when _____ _____ bandwidth.

_____ does the _____ service _____ factor _____ from _____ exchange?

_____ _____ internet service _____ _____ _____ such _____ distance from exchange into _____?

Does _____ internet _____ _____ _____ into account distance from the exchange _____ _____ _____ _____?

How does the _____ _____ _____ factor in _____ _____ _____ for expectations?

Does the _____ service provider _____ into _____ _____ _____ _____ when _____ expected speeds?

The _____ service _____ needs _____ consider distance _____ _____ as a _____ when defining _____ _____.

While _____ _____ _____ _____ bandwidth and speeds, how do they _____ _____ such _____ their _____ _____ exchanges?

I want _____ _____ what _____ factors are that affect _____ _____ _____ from _____ _____ ISPs _____ when calculating _____ expected _____ speeds.

Does _____ service _____ take into account the _____ _____ _____ _____ determining _____?

_____ _____ _____ service provider considering geographical _____ _____ setting connection _____.

_____ an _____ service provider consider _____ _____ distance _____ _____ when setting bandwidth _____?

_____ _____ internet service _____ _____ _____ limitations _____ _____ distance into account when defining expected _____?

When defining _____ bandwidth/speeds _____ a subscription, how _____ _____ ISP _____ distance _____ _____?

_____ _____ _____ take into _____ the distance from the _____ _____ setting _____ bandwidth?

Does the provider consider _____ _____ _____ _____ _____ they are _____ _____ determining internet _____.

Does _____ _____ provider take into _____ distance from _____ _____ _____ bandwidth?

_____ does _____ internet _____ _____ take _____ _____ physical distance to an _____ _____ when _____ speeds?

_____ the _____ service _____ _____ into _____ distance _____ exchange when _____ expected speeds?

_____ _____ internet _____ providers _____ _____ such as proximity to exchanges _____ _____ expectations for bandwidth _____ _____?

_____ are _____ _____ that _____ _____ far _____ the exchange _____ internet provider takes _____ _____ calculations of expected _____ speeds?

_____ _____ do ISPs _____ about the _____ from _____ exchange _____ _____ _____ expectations for subscribers?

When _____ expected _____ how should _____ internet _____ _____ _____ the distance _____ exchange _____ account?

The _____ service provider _____ consider distance from exchange _____ _____ _____ limitation _____ defining _____ _____.

_____ the internet service provider _____ in the _____ _____ _____ exchange _____ _____?

_____ _____ _____ to _____ _____ _____ _____ that affect how _____ from exchange the _____ service providers consider in _____ _____ expected subscription _____.

_____ determining _____ speeds _____ a _____ what _____ _____ distance to the _____ play _____?

Do _____ service providers _____ _____ _____ _____ _____ exchange for subscription speeds?

_____ do ISPs incorporate _____ such _____ proximity to _____ when _____ _____ subscribers' _____ _____ speeds?

_____ _____ _____ provider should _____ real _____ _____ such as _____ distance fromexchange into _____ when _____ expected bandwidth.

How is internet _____ provider _____ geographical _____ _____ _____ _____ speed

_____ the distance between exchanges, _____ should the internet service _____ _____ _____ _____ _____?

_____ the distance from exchange impacted by _____ restrictions _____ defining _____ _____ _____ _____?

When defining expected bandwidth, _____ _____ _____ ISP _____ in distance _____ _____?

_____ _____ the _____ service provider _____ in distance to _____ expected _____?

_____ is internet service _____ considering _____ geographical _____ _____ _____ connection speed?

Does _____ _____ _____ provider _____ actual limitations, _____ as distance _____ _____ setting bandwidth expectations?

_____ _____ ISPs incorporate constraints _____ as their _____ _____ _____ when _____ _____ _____ subscribers' bandwidth and speeds?

_____ _____ distance _____ exchange considered by the _____ when _____ _____ expectations?

_____ need _____ _____ what the _____ are _____ _____ how far from exchange _____ _____ provider takes _____ _____ in calculating their _____ _____.

_____ the internet service providers _____ _____ _____ _____ in _____ speeds?

Does _____ internet service _____ account _____ distance from _____ _____ _____ setting _____?

_____ an _____ _____ provider consider _____ such as distance _____ exchange _____ _____ bandwidth _____?

How _____ you take into account _____ _____ from the _____ _____ _____ expected _____?

How _____ the ISP _____ _____ distance _____ determine _____ speeds _____ _____ up?

_____ would like _____ know if _____ _____ that _____ _____ far from exchange _____ _____ provider takes _____ _____ _____ calculating their predicted subscription _____.

Does _____ internet service _____ _____ actual limitations _____ as distance _____ _____ during _____?

_____ does the _____ _____ _____ factor in _____ to determine the _____ _____?

Does _____ service _____ _____ distance from exchange _____ determining _____ _____?

_____ are _____ factors that affect how _____ from exchange the _____ _____ takes _____ _____ _____ _____ calculation of _____ _____ speeds?

_____ distance _____ _____ considered when _____ expected bandwidth/speeds in _____ _____?

_____ should _____ _____ _____ _____ _____ _____ world limitations such _____ distance to exchange into account _____ defining _____ bandwidth?

_____ _____ internet _____ providers _____ real-world limitations like _____ _____ account when _____ bandwidth?

_____ do _____ define anticipated _____ for _____ when _____ _____ factors _____ _____ from exchange?

When signing up, _____ _____ factored _____ anticipated _____ by _____ _____?

_____ the distance _____ exchanges, _____ is considered _____ _____ _____ _____ bandwidth _____ _____ internet service provider?

Is _____ from an _____ considered _____ estimating _____ _____ subscriptions?

What _____ the _____ _____ affect how far _____ exchange the internet _____ takes _____ _____ for _____ calculation of _____ _____ _____?

Is the _____ thinking about _____ _____ _____ the _____ is when _____ internet _____?

What are the factors _____ affect _____ far from _____ exchange _____ provider _____ into _____ _____ calculating _____ _____?

_____ setting _____ _____ _____ you take into _____ the _____ distance?

_____ setting subscription speeds, _____ the _____ _____ provider _____ for _____ from _____?

I would _____ to _____ what _____ _____ are that _____ _____ far away _____ _____ provider takes _____ _____ _____ calculating subscriber speeds.

_____ the Internet _____ Provider _____ into _____ the _____ _____ exchange _____ determining expected _____?

_____ _____ from exchange the _____ _____ takes into account in _____ their _____ _____ speeds _____ a _____.

_____ does the _____ _____ in the distance from _____ when _____ _____?

_____ you _____ _____ account the distances from _____ exchange _____ setting _____ _____?

When setting _____ _____ are you _____ _____ account _____ distance _____ the _____?

When defining _____ speeds, _____ _____ _____ _____ take _____ consideration _____ distance to the _____ point?

_____ _____ expected _____ is the distance _____ the exchange _____ into _____?

Does _____ provider _____ _____ distance from _____ _____ into account when _____ _____ speeds?

_____ does the _____ _____ _____ _____ distance from exchanging _____ _____ expected speeds?

How does _____ _____ service provider factor _____ _____ _____ _____ like distance to _____ _____ speeds?

_____ _____ subscription _____ should _____ ISP account _____ _____ from exchange?

Is the _____ from _____ part of _____ _____ _____ _____ subscription speeds?

How are _____ going _____ take _____ account the _____ _____ _____ _____ _____ setting _____ expected bandwidth?

What _____ should _____ _____ regarding the _____ from _____ _____ _____ forecasting _____ expectations for subscribers?
