[Demo] NLP Dataset for Customer Service Automation

Company Type	Electricity Suppliers
Inquiry Category	Energy consumption analysis and advice
Inquiry Sub-Category	Billing discrepancies
Description	Customers have questions or concerns regarding their electricity bills, including discrepancies in charges and unexpected fluctuations in costs. They seek clarification and assistance in resolving billing errors or disputes.
Data Size	5,023 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Electricity Supplier" customer inquiry. (Purchased data will not be masked.)

____ ____ ____ do if estimated ____ ____ readings differ ____ affecting ____ cost calculation?

____ ____ ____ ____ ____ ____ by the different readings, ____ should I do?

If final cost ____ is affected ____ ____ changed ____ ____ ____ I ____?

What ____ you ____ ____ ____ ____ when ____ difference ____ expected and obtained ____ greatly ____ the computation of total ____?

____ ____ ____ ____ course of action ____ deviations that ____ interfere with ____ final ____?

What should I ____ ____ the final ____ ____ ____ ____ ____ the readings?

____ ____ ____ recommendation ____ ____ ____ deviations that influence final expense calculations?

If ____ ____ an ____ on ____ ____ ____ from different readings, ____ ____ be done?

When there's a ____ ____ ____ estimated ____ actual ____ ____ ____ help ____ manage cost discrepancies?

How ____ ____ ____ the final costs involved if ____ ____ significant ____ ____ estimated ____ ____ readings?

____ discrepancies ____ computing ____ ____ recorded ____ clash with anticipated ____?

____ ____ ____ ____ divergence, ____ should ____ handle the impact on ____ expenses?

____ is ____ ____ ____ final cost ____ ____ of estimated readings ____ ____ readings being different

When the contrast ____ ____ ____ obtained measurements ____ ____ computation of ____ expenses/gains/errors, ____ ____ ____ do?

What ____ to be done ____ the assessment ____ ____ ____ ____ impacted by variation between ____ and ____ ____?

Where anticipated and ____ ____ show ____ divergence, ____ ____ ____ ____ with ____ impact on final ____?

____ the assessment of ____ ____ ____ impacted by ____ ____ ____ figures, what should ____ done?

The final ____ ____ ____ ____ ____ a significantVariation ____ Estimated ____ Actual readings.

____ ____ ____ minimize ____ ____ of estimate-real ____ ____ on final cost determination?

How should ____ ____ with a situation where ____ final cost calculation is ____ ____ ____ ____ ____ ____?

____ is possible that a significant ____ between ____ and ____ readings ____ affect ____ ____ ____.

Where anticipated and ____ measurements ____ ____ divergence ____ ____ I handle ____ resulting impact ____ ____ ____?

____ ____ ____ ____ if estimates ____ actual readings don't match ____?

What should be done ____ the ____ ____ calculation is affected by ____ ____ ____ ____ ____

I ____ ____ ____ discrepancies ____ ____ versus true meter ____ ____ have ____ impact on my costs, could ____ ____ ____ guidance?

When ____ assessment ____ an ____ is ____ ____ ____ variation between ____ and ____ ____ what ____ must be taken?

____ my estimated and actual readings ____ match up ____ my ____ ____ what ____ ____ ____?

What ____ be done ____ final ____ calculation ____ ____ ____ ____ estimates and actual ____?

_____ final _____ _____ _____ affected by _____ _____ what should I do?

What should I do _____ _____ _____ calculation _____ _____ by _____ readings _____ _____ readings?

_____ should the _____ price _____ _____ by _____ significant _____ between _____ _____ actual readings?

_____ _____ be _____ _____ _____ in _____ readings and actual _____ causes the final cost calculation _____ be _____?

When the _____ _____ _____ changes _____ computation of _____ expenses/gains/errors, _____ do _____ suggest?

_____ should _____ do when final cost _____ is _____ _____ estimates _____ _____ readings?

_____ the _____ cost calculation is heavily _____ by the _____ _____ _____ and _____ readings, _____ _____ should be _____?

How _____ the change _____ _____ and _____ impacts my _____?

When _____ _____ _____ is _____ _____ by _____ notable divergence _____ expected and obtained readings, _____ recourse _____ _____ recourse?

_____ about addressing _____ _____ difference _____ _____ and actual _____ _____ might _____ the final price?

_____ _____ price _____ _____ affected by a _____ _____ of _____ and actual readings.

How to _____ significant _____ between _____ _____ _____ readings _____ final _____ determination?

How _____ minimize the impact of estimate-real _____ discrepancy _____ _____ _____ _____?

_____ _____ and real measurements _____ _____ divergence, _____ should _____ _____ the impact on _____ expenses?

How should major _____ be _____ with _____ _____ _____ _____ calculations?

_____ should I handle the resulting _____ on _____ _____ _____ the _____ _____ real _____ show marked _____?

_____ the _____ cost _____ _____ _____ by _____ _____ and actual _____ how _____ I handle it?

If _____ final _____ calculation _____ affected _____ the actual _____ what should _____ _____?

What should _____ _____ _____ there is _____ effect _____ _____ _____ calculation from different _____.

_____ my readings _____ _____ up, what _____ _____ my _____ bill?

_____ does cost _____ if _____ _____ _____ not _____ real ones?

What should _____ _____ about _____ impact _____ the marked _____ _____ _____ expenses?

_____ _____ _____ _____ _____ by the noteworthy divergence _____ expected and obtained readings, what _____ _____ one take?

If the final cost calculation is _____ _____ estimated readings _____ _____ readings _____ _____ _____ _____ be _____?

What should happen _____ _____ final cost _____ _____ affected _____ _____ estimated _____ actual _____?

_____ if _____ costs are _____ _____ estimated and _____ _____ differ?

_____ estimated and _____ readings _____ match, how does _____ _____?

If final _____ calculation is impacted _____ _____ _____ readings _____ _____ _____ should I _____?

You _____ _____ address a _____ variation _____ _____ and actual readings, which _____ _____ the _____ _____?

_____ cost _____ can _____ _____ by the _____ _____ _____ expected and obtained readings.

_____ the _____ between _____ and obtained _____ _____ alters the _____ _____ total _____ what _____ I do?

_____ final cost _____ _____ affected by estimate _____ actual readings _____ _____ what _____ I _____?

What should be done _____ _____ _____ _____ actual readings affect the _____ _____ _____?

How can we minimize _____ _____ of estimate-real reading _____ _____ _____ _____ cost _____ _____?

_____ should _____ _____ _____ _____ cost calculation is _____ by estimates _____ readings?

_____ _____ _____ be taken _____ _____ _____ _____ calculation is heavily affected by the _____ readings?

If _____ cost is _____ _____ _____ big difference _____ estimated _____ _____ readings, what _____ _____ do?

_____ _____ cost _____ is _____ impacted _____ _____ _____ divergence between expected _____ obtained _____ what recourse should _____ take?

_____ should I do if the _____ cost _____ is impacted _____ _____ _____ _____?

What should be _____ if _____ _____ cost _____ is _____ by _____ _____?

How should I handle _____ _____ impact _____ final _____ if _____ _____ _____ _____ show marked _____?

_____ _____ readings don't _____ _____ how does _____ change?

_____ final _____ may be affected _____ _____ _____ _____ in _____ and actual readings.

When _____ cost calculation is heavily affected by the _____ _____ _____ _____ and _____ readings, _____ _____ _____ it _____?

What _____ I do if _____ cost _____ is _____ _____ and actual _____ _____ _____?

If _____ _____ an _____ _____ final cost calculation _____ _____ readings, what _____ _____ done?

What recourse _____ one _____ _____ the _____ _____ _____ _____ _____ affected by the _____ divergence between _____ and obtained readings?

What should _____ _____ _____ final _____ calculation _____ affected by _____ estimate and _____ _____?

If there _____ _____ impact on _____ _____ calculation due to _____ _____ and actual readings, what _____ _____ _____?

What ____ I ____ if ____ total ____ is ____ by ____ difference ____ estimated and ____ ____?

____ will ____ variation between ____ and actual ____ my ____?

____ there ____ an impact on final ____ calculation ____ ____ estimates ____ readings, ____ should ____ ____?

____ might ____ an ____ on final cost ____ ____ ____ readings and ____ readings ____ different.

An impact ____ ____ ____ calculation ____ caused by ____ readings and ____ readings ____ ____

____ should ____ ____ if ____ final ____ calculation ____ impacted by the ____ ____ readings.

Can ____ ____ me ____ ____ manage cost ____ when ____ ____ are different?

What ____ be ____ if differing estimated ____ actual ____ ____ ____ ____ on final cost ____?

What should ____ ____ when ____ is an ____ ____ final ____ calculation ____ ____ estimated readings?

The ____ ____ ____ be affected by ____ significant variation ____ estimated ____ actual ____.

When ____ ____ between expected ____ obtained ____ greatly alters the ____ of ____ expenses/gains/errors, ____ do ____ ____?

What action should ____ ____ ____ final ____ calculation ____ ____ ____ by the ____ divergence ____ expected and ____ readings?

How does cost change ____ real ____ ____ ____ ____?

What ____ ____ do ____ the ____ cost calculation ____ affected by estimate ____ ____ readings ____?

What ____ be ____ about the ____ ____ ____ readings ____ ____ readings in final ____ calculation.

____ ____ ____ know ____ ____ cost calculation is ____ ____ estimate ____ actual readings differently.

____ discrepancies ____ computing ____ cost ____ recorded readings clash with ____ ____?

____ ____ ____ cost calculation is ____ by the ____ being ____ what ____ ____ done?

What ____ do ____ there ____ big differences between ____ and ____ ____?

What ____ I do ____ ____ ____ ____ affected by the different ____ readings?

____ should be ____ if ____ is ____ impact ____ final ____ calculation ____ ____ readings?

What should ____ do ____ ____ resulting ____ ____ final expenses ____ cases ____ anticipated and ____ ____ show ____ divergence?

____ ____ ____ change if estimates and ____ aren't ____?

____ ____ be done if ____ is ____ impact on final ____ calculation due to ____ ____ and ____ ____?

____ ____ dealing with ____ ____ have an impact ____ final ____ calculations?

____ ____ ____ ensure an ____ ____ of the ____ charges ____ there ____ discrepancies between ____ ____ and actual readings?

____ you ____ me ____ to ____ ____ discrepancies ____ there is ____ difference between ____ and ____ readings?

____ can ____ between estimates and ____ ____ ____ ____ ____ ensure an accurate ____ ____ final charges?

____ ____ I ____ the final costs if ____ ____ exist between estimated ____ ____ ____?

What if ____ readings are ____ affecting ____ ____ ____?

What should be ____ ____ there ____ ____ ____ and actual ____ ____ the final ____ calculation?

What ____ ____ ____ ____ final ____ calculation is ____ ____ the estimated readings ____ differ?

____ should ____ handle the ____ on ____ expenses in ____ ____ ____ divergence?

How ____ a ____ ____ between ____ and actual ____ ____ reconciled ____ final ____ determination?

What should ____ ____ ____ ____ ____ ____ is affected by the divergence ____ expected ____ ____ readings?

____ ____ measurements show ____ divergence, ____ ____ I ____ ____ resulting impact on final ____?

What ____ ____ do ____ final ____ ____ is impacted by ____ estimates ____ actual ____?

____ there is ____ impact on final ____ ____ ____ to different ____ ____ what ____ ____ done?

____ should one ____ when ____ cost ____ ____ ____ by the ____ readings?

____ the ____ ____ ____ ____ ____ by different ____ and ____ what should be done?

What ____ ____ ____ ____ ____ total cost is ____ by the estimated ____ ____ readings?

If ____ ____ substantial differences ____ estimated and actual ____ ____ do ____ determine ____ final ____?

____ ____ addressing a significant ____ between ____ ____ actual readings, ____ could affect the ____ ____?

How ____ I ____ the final costs ____ there ____ ____ ____ ____ estimated ____ actual readings?

Handling stark ____ in estimated ____ measured values ____ ____ ____.

In ____ with ____ ____ ____ should I handle the ____ ____ on ____ expenses?

____ there is ____ impact ____ ____ cost ____ ____ by different estimated ____ ____ readings, ____ should happen?

____ could ____ an impact on ____ cost calculation if there ____ ____ ____ ____ ____ ____ and actual readings.

What should ____ do if final ____ ____ are ____ by ____ ____ ____ and ____ readings?

____ ____ cost calculation ____ affected ____ ____ ____ ____ readings being different what ____ I do?

_____ should I _____ _____ _____ impact on _____ _____ when there _____ marked _____ _____ real measurements?

_____ would _____ change if _____ and real _____ don't _____?

_____ will the _____ between estimated _____ _____ _____ my cost?

_____ should be _____ if _____ is an _____ final cost _____ from differing _____ _____ _____?

_____ happens when my estimated and _____ _____ don't _____ _____ and I have _____ _____ _____?

_____ _____ contrast between _____ & _____ _____ _____ _____ the computation of total _____ what _____ I do?

Addressing _____ significant _____ between _____ and actual _____ could affect _____ _____ _____.

_____ does _____ _____ if _____ _____ and real _____ are wrong?

The final cost _____ _____ be impacted _____ _____ _____ actual readings _____ a _____ deviation.

_____ _____ be done _____ _____ is _____ impact on final _____ _____ caused by _____ readings?

_____ can _____ _____ an _____ computation of the _____ charges _____ the estimated _____ _____ _____ are different?

_____ could _____ _____ impact on final cost calculation from differing _____ _____ _____ _____.

What _____ be done if _____ _____ _____ _____ _____ final cost _____ due to _____ estimates and _____?

If final cost calculation _____ affected _____ estimated and actual readings _____ _____ _____ _____ _____ _____?

What should _____ done _____ _____ final _____ _____ _____ _____ by _____ _____ estimated and actual reading?

_____ can _____ done _____ _____ _____ of an expense _____ significantly _____ _____ _____ between predicted and documented figures?

_____ the final cost _____ is _____ by the _____ _____ _____ and _____ _____ how should I _____ it?

_____ about fixing _____ significant variation _____ estimated and _____ _____ _____ _____ _____ the final price?

How _____ you reconcile _____ _____ and _____ _____ _____ the _____ cost determination?

Can you _____ _____ _____ _____ cost discrepancies _____ there _____ significant variation _____ estimated _____ actual readings.

How _____ the _____ change if _____ readings do _____ _____?

What actions _____ _____ if _____ notable variance _____ _____ amounts _____ _____ _____ price calculations?

_____ _____ _____ calculation _____ _____ different readings, what should I do?

_____ _____ to know if you _____ _____ me _____ _____ _____ with _____ discrepancies in estimations versus _____ meter data which _____ _____ impact _____ my _____

When there's _____ significant _____ _____ estimated _____ actual readings can _____ show me _____ _____ manage _____ _____?

The _____ cost _____ is _____ by estimated readings _____ _____ readings _____ _____

_____ _____ _____ done when the _____ _____ calculation _____ affected _____ the divergence between _____ _____ obtained readings?

If there is _____ _____ on _____ _____ calculation due to estimates and _____ _____ _____ _____ what _____ _____ done?

_____ _____ _____ an impact on final cost _____ from estimated _____ and _____ readings being _____ _____ _____ be _____?

_____ is an impact on final cost _____ caused _____ _____ and _____ _____ _____.

_____ final price might _____ affected _____ a significantVariation _____ _____ and _____ _____.

When _____ measurements _____ _____ divergence, _____ _____ _____ _____ the resulting impact on final _____?

_____ should _____ do _____ final _____ calculation is _____ by readings _____ _____?

What should _____ _____ if there's _____ impact on _____ _____ _____ _____ different estimates _____ readings?

How about _____ a _____ _____ _____ estimated _____ _____ _____ that might affect _____ final price?

What _____ _____ done if _____ _____ cost _____ _____ impacted _____ different estimates.

The final cost calculation _____ _____ impacted _____ the _____ _____ actual readings _____ _____ significant _____.

_____ _____ _____ _____ if the final _____ calculation _____ affected by the _____ _____ differ?

What if _____ _____ costs _____ _____ by _____ estimated _____ actual readings?

_____ is an _____ on final cost _____ caused _____ estimated readings _____ real _____ _____ _____.

_____ _____ _____ handle a _____ where the _____ cost _____ _____ _____ _____ both estimated and actual readings?

_____ does cost change _____ _____ and readings do _____ _____ _____?

If there is _____ _____ _____ _____ _____ calculation due to _____ _____ and actual readings being _____ then what _____ _____ _____?

_____ should _____ _____ _____ the _____ readings and actual readings affect _____ cost _____?

_____ _____ cost _____ is _____ affected by the notable _____ between expected and obtained _____ _____ _____ _____ done?

_____ is an _____ _____ _____ cost calculation _____ different estimated and _____ _____ are _____.

How does _____ _____ when estimates and _____ _____ _____ match?

_____ _____ a big _____ _____ _____ _____ true measurements affect charges?

_____ _____ a _____ to manage _____ discrepancies _____ there is a _____ _____ between estimated _____ _____ readings.

What _____ I _____ _____ the final _____ _____ is affected _____ the _____ readings?

_____ the final _____ _____ is affected _____ the _____ _____ differ, what should _____ _____?

_____ _____ _____ _____ _____ heavily _____ by the notable _____ between _____ and obtained _____ what is the best _____?

_____ the assessment of an _____ is _____ impacted by _____ _____ _____ and documented _____ what actions _____ _____ _____?

When _____ contrast between _____ _____ obtained _____ greatly _____ the _____ of total expenses/gains/errors, what _____ _____ _____ _____ do

_____ _____ a _____ between estimated and actual readings _____ fixed to ensure _____ _____ _____ _____ _____ charges?

_____ there is an _____ on _____ cost calculation _____ _____ readings, then _____ should _____ _____?

What do _____ think _____ _____ do _____ the _____ _____ changes _____ computation _____ total expenses.

_____ need _____ _____ cost discrepancies when _____ _____ a significant variation _____ _____ and actual _____.

_____ final _____ _____ is _____ _____ the differences in readings, _____ should I _____?

_____ _____ deal _____ a _____ where _____ _____ cost calculation is impacted by estimated _____ _____ _____?

_____ final _____ _____ _____ impacted _____ estimate and _____ _____ being different, _____ should I do?

If final _____ _____ is _____ by _____ _____ _____ readings _____ different, _____ should I do?

_____ _____ if my _____ and _____ _____ don't match up _____ I have to _____ _____?

_____ should _____ done if _____ final _____ _____ is _____ by _____ estimated and _____ readings?

_____ should be _____ if there _____ an impact _____ the _____ _____ _____ _____ the difference _____ readings.

How can _____ _____ _____ _____ _____ _____ readings be _____ to ensure an _____ computation of the _____ charges?

What _____ be _____ _____ _____ an accurate _____ of _____ final charges when _____ are discrepancies between _____ _____ actual _____?

What _____ _____ done _____ the _____ cost _____ is impacted by differing _____ _____ _____ readings?

_____ you help me figure _____ how _____ manage _____ _____ _____ _____ readings are _____?

Handling _____ differences in _____ _____ values impacting _____ costing, _____?

_____ _____ I do if _____ _____ _____ is impacted by estimate _____ actual _____

_____ the _____ contrast greatly affects _____ computation _____ total expenses/gains/errors, what _____ _____ suggest _____ _____?

Can you show _____ how _____ manage cost discrepancies _____ _____ a _____ _____ between _____ and _____ _____?

_____ _____ _____ _____ there is an impact on final _____ _____ from differing _____ and _____?

When the _____ of _____ expenses/gains/errors _____ _____ _____ the _____ between expected _____ obtained measurements, what should _____ _____?

If there _____ an _____ _____ _____ _____ calculation caused _____ estimated readings and _____ readings being different _____ _____ _____ done?

_____ _____ I do _____ final _____ _____ is _____ by reading discrepancies?

_____ _____ _____ final bill when my estimated and _____ _____ don't _____ _____?

What _____ you _____ _____ _____ _____ when the contrast _____ expected and obtained _____ greatly affects _____ computation _____ _____ expenses?

When the contrast between expected _____ _____ _____ greatly _____ _____ _____ _____ total expenses/gains/errors, what should _____ _____?

_____ the assessment _____ _____ expense _____ impacted _____ variation in predicted and _____ figures, _____ actions _____ _____ taken?

_____ can the discrepancies between _____ _____ _____ readings _____ _____ to _____ an _____ computation of final _____?

_____ to _____ _____ estimated _____ actual _____ effectively in cost _____?

How does cost _____ _____ estimated _____ readings _____ _____?

_____ _____ _____ do if the _____ _____ calculation _____ impacted by different _____?

_____ differences _____ _____ vs. measured values _____ ultimate _____

What if _____ _____ _____ due _____ estimated and actual _____?

What should I do _____ final _____ calculation _____ _____ _____ difference _____ estimate _____ _____ readings?

_____ would _____ _____ know if _____ could _____ guidance when faced _____ large discrepancies _____ _____ _____ _____ _____ data which have _____ impact on my _____

_____ should _____ done _____ the _____ of an _____ is seriously impacted _____ variation _____ _____ _____ documented figures?

_____ the final cost calculation _____ heavily affected _____ the noticeable _____ _____ expected _____ _____ readings, what _____ _____ _____ taken?

What should _____ do if _____ _____ _____ _____ impacted by _____ _____ estimates?

_____ can _____ reduce _____ effects of _____ reading _____ _____ _____ final _____ determination process?

_____ _____ is an _____ on final _____ _____ from _____ _____ what should _____ done?

_____ the final _____ _____ is _____ _____ _____ estimate and _____ readings, what _____ I do?

How _____ a _____ difference between _____ and _____ _____ affect _____?

____ ____ ____ done if the final cost ____ ____ impacted by estimates and ____ ____ ____ ____?

How ____ the resulting ____ ____ final ____ be ____ ____ ____ and anticipated measurements ____ ____ divergence?

How ____ ____ change ____ estimates ____ ____ readings are different?

____ ____ ____ way ____ deal ____ a difference ____ anticipated ____ ____ measurements impacting cost calculation?

What should ____ do ____ ____ final ____ calculation is ____ ____ differences ____ estimated ____?

____ should be done ____ ____ ____ cost calculation ____ ____ by ____ ____ ____ readings being different

____ can we ____ an accurate computation of the ____ charges ____ ____ are discrepancies ____ ____ ____ ____?

What ____ ____ done when there ____ ____ ____ ____ ____ cost calculation from different ____ readings?

When ____ is ____ ____ ____ ____ cost ____ from differing ____ and actual readings, ____ ____ be done?

How will ____ ____ between estimated and ____ impact ____ ____?

The final cost ____ ____ ____ impacted if the ____ and ____ ____ ____ not ____.

____ stark ____ between estimated and measured ____ impacting ____ ____ ____?

If the assessment ____ an ____ ____ greatly ____ by ____ between ____ ____ documented figures ____ should ____ done?

____ it possible to manage ____ ____ ____ there's ____ significant variation ____ estimated ____ ____ readings?

____ does cost change ____ ____ readings ____ ____?

The ____ price ____ be affected by ____ significant ____ ____ ____ estimated and ____ ____.

____ should ____ ____ ____ ____ difference ____ estimated readings and ____ readings affects ____ final ____ calculation.

What ____ I ____ if final cost ____ ____ impacted ____ different ____?

____ should be done ____ there ____ a change ____ ____ ____ ____ calculation?

____ cases ____ ____ measurements show marked ____ ____ should ____ ____ with the ____ impact ____ final expenses?

Is it possible ____ ____ with ____ divergence ____ anticipated ____ genuine ____ ____ ____ calculation?

____ ____ final costs are ____ by actual and ____ ____?

____ it possible ____ ____ with a ____ divergence ____ anticipated and genuine measurements ____ ____ ____?

____ ____ ____ ____ cost discrepancies when ____ ____ ____ variation ____ estimated and actual readings.

____ I ____ a ____ ____ ____ final cost calculation ____ ____ by the ____ ____ actual readings?

Solutions ____ ____ ____ impact on total ____ analysis ____ deviating.

____ should be done ____ ____ difference ____ ____ readings ____ actual readings ____ final ____ calculation?

____ for handling ____ ____ affect final ____ ____?

If ____ ____ calculation ____ ____ impacted ____ estimate and actual ____ being different, ____ ____ ____ do?

What should ____ done when ____ is ____ ____ ____ ____ ____ calculation ____ by ____ estimates and readings?

What should be done ____ the ____ ____ ____ ____ affected ____ various ____?

How should ____ handle ____ resulting impact ____ ____ ____ in ____ where ____ ____ real ____ differ?

What ____ ____ one take ____ ____ ____ ____ is heavily affected by the divergence between ____ and ____ ____?

____ the difference in ____ ____ and actual ____ have an ____ ____ ____ cost ____ what ____ be done?

What should ____ done ____ ____ is ____ ____ on ____ ____ from different readings.

How to ____ the ____ ____ estimate-real ____ ____ on ____ cost determination?

What ____ we do about ____ differences between ____ ____ ____ ____?

____ should ____ ____ if the ____ cost ____ ____ impacted by different ____?

There is ____ impact ____ final cost ____ caused ____ ____ estimated ____ ____ ____ ____ being different

How does ____ ____ if ____ and real ____ ____ perfect?

____ may be an ____ ____ final ____ calculation ____ by ____ ____ ____ ____ readings being different

Handling ____ differences ____ ____ ____ measured values impacting ____ costing?

____ ____ cost change if estimated ____ don't ____ ____ ones?

What should ____ ____ ____ the ____ cost calculation ____ impacted ____ differing ____?

____ final cost calculation ____ ____ ____ ____ ____ expected ____ obtained readings, what recourse should you ____?

____ should be ____ ____ the final ____ ____ ____ ____ ____ due to different estimated ____ actual readings?

How can ____ discrepancies ____ ____ and actual ____ ____ ____ to ensure an ____ ____ of ____ final charges?

What ____ be done if ____ estimated ____ ____ ____ ____ ____ ____ on the ____ cost calculation?

____ ____ I ____ if the final ____ ____ is affected ____ ____ readings?

If there is an ____ on ____ ____ calculation from ____ ____ between ____ ____ actual ____ ____ ____ be done?

If ____ is ____ ____ ____ ____ cost calculation ____ of ____ readings ____ actual ____ being different, what should ____ done?

____ should be done when ____ ____ cost calculation ____ ____ ____ ____ the ____ between expected and ____ readings?

____ final cost calculation is impacted by ____ ____ ____ ____ ____ should I ____?

____ the ____ contrast ____ ____ ____ computation of total expenses/gains/errors/etc, ____ should ____ do?

____ ____ ____ ____ impact on final ____ ____ caused ____ estimated ____ and actual readings ____ different.

____ ____ ____ the effect ____ estimate-real reading ____ during ____ ____ determination process?

____ do you think ____ should do ____ ____ ____ ____ ____ affects ____ computation of total ____.

____ ____ ____ do ____ the ____ ____ calculation is affected by the ____ ____ ____ are different?

If the total ____ is ____ ____ ____ ____ ____ estimated and actual ____ ____ can I do?

If ____ final ____ calculation is affected ____ ____ estimated ____ ____ readings, how ____ ____ ____ that?

____ to ____ with significant ____ ____ initial ____ and final ____?

____ should I ____ out ____ ____ costs if there is ____ ____ between ____ and ____ ____?

If the ____ ____ ____ is ____ by estimate ____ readings ____ ____ should I ____?

____ should ____ ____ ____ final ____ ____ is impacted ____ ____ and actual readings differently?

____ the ____ ____ ____ is ____ by estimates ____ ____ what should I do?

When ____ final cost calculation is impacted ____ ____ ____ ____ ____ readings, ____ ____ I handle ____ situation?

In a situation ____ the ____ ____ calculation ____ impacted ____ the ____ and actual readings, ____ ____ ____ ____ it?

What should be ____ ____ ____ ____ cost ____ is impacted by ____ readings ____ ____ readings ____ different

____ ____ the difference ____ ____ and real ____ my cost?

"If ____ cost calculation is impacted ____ estimate ____ ____ ____ ____ what should I ____ ____

____ should one ____ when final ____ ____ is affected by ____ ____ ____ expected and ____ ____?

What should ____ do ____ the ____ ____ ____ is impacted by different ____ ____ ____?

____ does ____ ____ if estimates do ____ ____ readings?

Recommendations ____ ____ ____ deviations that ____ final expense ____?

What will ____ done if the ____ of an ____ is greatly impacted ____ variation ____ ____ ____ ____ ____?

____ ____ cost determination, how ____ reconcile a ____ ____ between ____ ____ actual readings?

If the final ____ calculation ____ ____ by ____ ____ ____ between ____ and obtained ____ what recourse ____ one ____?

____ can ____ ____ if the assessment of ____ ____ is greatly ____ by ____ between predicted and ____ ____?

____ is a ____ ____ between ____ ____ ____ readings, can you tell ____ ____ to manage ____ discrepancies?

When anticipated and ____ ____ show ____ divergence, how should ____ ____ ____ the ____ impact ____ ____ expenses?

Handling ____ ____ estimated vs. ____ ____ impacting ____ costing please?

How to ____ a ____ between ____ ____ ____ ____ ____ final cost determination

____ should be done ____ ____ ____ cost calculation is ____ by ____ ____ and ____?

What ____ we do about ____ different ____ ____ reality ____?

How ____ the change between ____ ____ actual affect ____ ____?

If final ____ calculation ____ affected ____ estimated readings ____ differ, ____ ____ ____ do?

____ should ____ ____ if final ____ calculation is ____ ____ ____ ____ and actual readings?

____ can I ____ ____ ____ ____ contrast greatly alters the ____ of ____ expenses?

When ____ is a ____ ____ between estimated and actual ____ ____ you ____ me how ____ manage ____ ____?

____ ____ happen ____ final ____ calculation is ____ ____ differing estimated ____ actual readings?

____ you ____ me ____ to manage cost discrepancies when ____ ____ ____ of ____ in ____?

How ____ discrepancies ____ readings ____ fixed ____ ____ an accurate ____ of ____ final ____?

The ____ cost could ____ impacted if ____ a ____ ____ between ____ ____ ____ actual readings.

solutions ____ when ____ are ____ ____ total expense ____.

____ ____ ____ calculation can be ____ ____ ____ ____ divergence between ____ and obtained readings.

If the total ____ ____ impacted ____ ____ big ____ ____ the ____ and actual ____ ____ can I do?

If ____ difference in estimated ____ and ____ ____ impacts final cost ____ ____ ____ be ____?

I ____ to ____ if ____ ____ give me guidance when ____ with significant ____ in ____ versus true ____ data which ____ ____ impact ____ ____ ____

____ ____ ____ ____ right, how does cost ____?

What action ____ be taken ____ the assessment ____ an expense ____ ____ by variation ____ ____ and ____ ____?

How _____ _____ determine the _____ costs _____ if there are _____ _____ between _____ _____ actual _____?

What _____ _____ do _____ _____ final _____ _____ is affected _____ _____ estimates and readings?

_____ there _____ _____ _____ _____ _____ readings and _____ readings, what _____ _____ done to calculate the final cost?

There _____ an _____ on final _____ _____ _____ there _____ _____ difference _____ estimated readings and _____ readings

_____ _____ is a lot of variation between _____ _____ actual readings, can _____ _____ _____ how _____ manage _____ _____?

If the assessment _____ _____ _____ _____ impacted _____ _____ between _____ predicted and documented figures, _____ should be _____?

_____ _____ you _____ _____ _____ final price if _____ _____ a significant variation between estimated and _____ _____?

_____ the final _____ _____ are _____ with _____ measured figures, _____ _____ the _____ course of _____?

How should _____ handle a _____ where _____ final cost calculation _____ _____ _____ _____ _____?

_____ _____ possible _____ deal _____ a _____ _____ between anticipated and genuine measurements impacting _____ _____?

What should _____ do _____ _____ _____ _____ _____ _____ _____ estimate and actual readings differently.

What _____ be done if _____ final _____ calculation is _____ affected _____ the _____ divergence _____ _____ _____ obtained _____?

_____ _____ _____ an impact on _____ cost _____ from different readings _____ should _____ _____?

If there is an _____ _____ _____ cost _____ from _____ _____ what _____ _____ done.

Handling _____ _____ _____ estimated vs. measured _____ impact _____ costing?

What _____ be done if the assessment _____ an _____ _____ _____ _____ _____ _____ variation _____ predicted _____ documented figures?

_____ should _____ done _____ the _____ _____ estimated _____ and _____ readings _____ an impact on final _____ calculation.

_____ _____ assessment of an _____ _____ _____ _____ _____ _____ between _____ and documented figures, what _____ should be taken?

_____ there _____ impact on final cost _____ _____ _____ _____ _____ actual readings?

The _____ _____ might be affected by _____ significant _____ _____ _____ and actual _____

_____ _____ and real measures _____ _____ divergence, _____ should _____ _____ _____ impact on final expenses?

_____ _____ total _____ _____ impacted _____ the estimated and _____ readings, what can _____ _____?

_____ is _____ impact on _____ cost calculation if estimated _____ _____ _____ than _____ _____.

How can the _____ between _____ _____ _____ _____ be corrected _____ make sure _____ _____ charges _____ accurate?

_____ _____ _____ big _____ between _____ and assumed measurements affect _____?

_____ might be _____ impact _____ final cost _____ caused _____ _____ estimated _____ actual _____.

_____ to _____ the _____ of estimate-real reading discrepancy during the _____ _____ _____ _____?

_____ it possible to _____ _____ _____ the estimated and _____ _____ to _____ an _____ _____ _____ the final charges?

How _____ discrepancies _____ _____ estimated readings and actual readings _____ fixed _____ ensure an _____ _____ _____ _____ _____ charges?

What happens _____ _____ _____ readings _____ _____ up _____ my final bill?

Minimizing discrepancies impact computing _____ _____ _____ readings _____ _____?

What _____ I _____ if final cost _____ _____ affected by _____ estimated _____ that _____ not _____ _____?

_____ final price _____ _____ affected _____ a _____ _____ _____ the _____ and actual readings.

If _____ _____ an impact _____ final cost _____ from _____ estimates and _____ _____ should _____ _____

_____ _____ one do _____ _____ cost _____ is affected by _____ _____ _____ expected and obtained _____?

If there is _____ impact on _____ cost calculation _____ by _____ readings _____ actual _____ _____ _____ _____ what should _____ _____?

If the _____ cost _____ _____ by _____ large difference between the _____ and actual _____ _____ _____ I _____?

_____ _____ be _____ _____ _____ final cost calculation is impacted _____ different estimates and _____ _____?

Handling differences _____ _____ vs. _____ _____ _____ ultimate costing.

How should I figure _____ the _____ costs _____ _____ are differences _____ estimated _____ _____ _____?

If _____ readings _____ match estimates, how _____ _____ _____ change?

_____ _____ _____ way to _____ cost _____ _____ _____ a significant _____ _____ estimated and actual readings?

What _____ I do _____ _____ cost calculation _____ _____ by changed _____?

If _____ and _____ measurements show _____ divergence, _____ _____ _____ handle the _____ _____ final expenses?

What _____ be _____ _____ there _____ _____ impact on final _____ _____ because _____ different readings

How can we reconcile _____ _____ _____ _____ final cost _____?

How _____ _____ _____ _____ _____ and real _____ don't match up?

_____ would a _____ gap between _____ _____ true _____ _____ charges?

_____ are needed due to _____ _____ impact _____ _____ _____ analysis.

What should _____ _____ _____ final _____ _____ _____ affected by _____ _____ actual readings differently?

____ should ____ handle the impact ____ final ____ when predicted and real ____ ____ ____ ____?

What should be ____ if ____ assessment ____ ____ expense ____ negatively impacted ____ variation ____ ____ ____ documented figures?

Should ____ handle ____ situation ____ ____ final cost ____ is impacted ____ ____ ____ readings?

Major ____ in ____ versus ____ ____ what to ____?

How ____ ____ accurate computation of final ____ be ensured ____ there ____ discrepancies ____ estimated ____ ____ ____?

____ ____ ____ done if ____ is an effect on ____ ____ calculation from ____ ____?

Recommendations for ____ ____ ____ ____ may affect final ____ calculations?

What ____ must be taken ____ the assessment ____ an ____ ____ impacted ____ ____ ____ predicted and documented ____?

How should ____ handle ____ impact ____ final expenses ____ ____ and ____ measurement ____ ____ divergence?

What should ____ ____ if final cost ____ is ____ ____ ____ ____ actual ____ ____ being right?

How ____ ____ ____ final cost ____ impact when ____ ____ deviation?

Solutions ____ due to ____ readings' ____ on ____ expense ____.

When ____ contrast between ____ and ____ measurement ____ ____ ____ of ____ expenses/gains/errors, what ____ ____ suggest?

____ should ____ done if ____ difference ____ estimated readings and actual readings ____ ____ ____ ____?

When final ____ calculation is affected by ____ notable ____ between ____ ____ ____ ____ ____ take?

____ final cost calculation ____ ____ by ____ and ____ readings being different, ____ should ____ ____?

If final ____ ____ is affected by ____ ____ ____ that ____ ____ should be ____?

When the ____ ____ ____ and ____ ____ greatly changes the ____ of ____ ____ ____ do you suggest?

____ ____ happen ____ there ____ an impact ____ final cost ____ ____ different readings?

Is ____ an approach to ____ ____ the divergence ____ ____ and ____ measurements ____ ____ calculation?

____ ____ reconcile ____ ____ and actual ____ in a final ____ determination?

____ ____ tell ____ how to ____ discrepancies ____ there's a significant difference ____ ____ and actual ____?

There ____ ____ an ____ on ____ ____ calculation ____ the difference in estimated ____ ____ readings.

____ ____ ____ ____ a situation where the ____ cost calculation ____ ____ ____ the ____ and actual readings?

When the ____ ____ expected and ____ measurements greatly changes the ____ of ____ ____ ____ should ____ ____?

____ ____ ____ be fixed to ____ an accurate computation of the ____ ____ when ____ ____ ____ between the estimated ____ ____ readings?

Is final cost ____ ____ ____ ____ ____ actual readings differently?

____ should ____ do ____ ____ final cost ____ ____ ____ by reading differences?

How can ____ ____ corrected to ____ ____ accurate computation ____ the ____ ____ if ____ are discrepancies between the ____ ____ actual ____?

____ ____ be done if there ____ an impact ____ ____ ____ ____ ____ to estimated readings and ____ readings being ____.

____ ____ be ____ if there ____ an ____ ____ ____ ____ calculation because of different readings?

What ____ one ____ ____ final ____ ____ ____ ____ ____ by the notable divergence between expected and obtained ____?

When ____ measurement ____ greatly alters the ____ ____ ____ expenses/gains/ errors, ____ should ____ ____?

____ should I do ____ the ____ cost ____ is ____ by ____ ____?

If final ____ calculation is impacted ____ ____ ____ actual ____ not ____ ____ same, what should ____ ____?

____ should ____ ____ about the impact of estimated ____ and ____ readings ____ the ____ ____ ____?

____ do I ____ ____ ____ final costs if ____ are significant differences between ____ ____ ____?

How ____ ____ ____ if ____ do not ____?

I ____ ____ what ____ do if final cost calculation ____ ____ ____ estimate and ____ ____ ____.

____ for dealing ____ ____ that influence the ____ expense ____?

When the ____ ____ calculation is ____ ____ by the noticeable divergence ____ expected ____ obtained readings, ____ recourse ____ ____ ____?

In cases where ____ ____ real ____ ____ how should ____ handle the ____ ____ ____ expenses?

____ ____ assessment of ____ expense is ____ ____ by variations between predicted ____ ____ figures, what should ____ ____?

____ the ____ ____ ____ ____ by estimates and readings ____ different, ____ should be done?

____ the final cost ____ is impacted by estimated ____ ____ ____ how should ____ ____ ____?

How ____ ____ ____ of estimated vs actual affect ____ ____?

How ____ ____ change ____ real ____ ____ not as accurate as ____?

If ____ ____ calculation is ____ affected by ____ ____ between expected ____ ____ readings, what recourse ____ be ____?

How about ____ ____ significant ____ between estimated ____ ____ readings, which would ____ ____ final ____?

____ ____ I deal with the impact ____ ____ expenses when ____ ____ ____ divergences?

____ ____ and real ____ show ____ divergence, how should I ____ ____ ____ ____ on ____ expenses?

____ final ____ ____ ____ affected by estimated readings and ____ ____ what ____ I ____?

____ should I handle ____ impact ____ ____ expenses when ____ ____ marked ____ ____ anticipated and real ____?

If there ____ an impact ____ ____ cost calculation caused by ____ ____ ____ ____ ____ done?

When ____ contrast between ____ ____ obtained ____ greatly ____ the ____ ____ total expenses, what ____ you ____ ____ do?

What ____ ____ ____ ____ the impact of ____ divergence on final ____?

____ to do when ____ are ____ ____ ____ and reality ____.

____ an ____ of ____ expense is greatly impacted ____ ____ between predicted and documented ____ ____ ____ ____ done?

How can ____ ____ ____ ____ ____ of the final charges ____ there are ____ between ____ and ____ readings?

____ ____ cost calculation ____ ____ by ____ ____ actual readings being ____ what should ____ do?

The ____ cost can be ____ if ____ ____ a ____ difference ____ the ____ and ____ ____.

When ____ ____ ____ significant ____ in ____ ____ ____ readings, can you ____ me ____ to ____ the cost discrepancies?

What ____ ____ ____ if the ____ ____ estimated ____ and actual readings impacts ____ cost ____?

What ____ be ____ ____ there ____ an effect on ____ cost ____ ____ differing estimated ____ actual ____?

____ final cost calculation ____ estimated ____ and actual readings, ____ ____ ____ ____?

____ ____ final ____ ____ is affected ____ the notable divergence ____ ____ ____ obtained readings, ____ recourse ____ be used?

When the difference ____ expected and ____ measures greatly ____ the ____ ____ ____ expenses/gains/errors, ____ should ____ ____?

____ ____ reconcile ____ discrepancies ____ estimated and actual readings in ____ ____?

How ____ ____ change if estimates ____ ____ ____ readings?

If the ____ cost ____ is affected ____ ____ ____ ____ being different, what ____ I ____?

If ____ ____ of an expense is impacted ____ ____ between ____ and ____ ____ ____ are ____ actions ____ ____ be taken?

____ to reconcile ____ ____ estimates and actual readings ____ ____ ____ determination?

____ do you ____ ____ ____ ____ between ____ and actual readings ____ cost determination?

____ ____ happen if the ____ cost ____ ____ ____ by different ____ and readings?

____ should be ____ if there is an ____ ____ final ____ ____ ____ ____ different readings.

____ ____ a way to deal ____ the ____ ____ anticipated and genuine measurements ____ ____ ____?

____ the measurement ____ greatly changes the ____ ____ total expenses/gains/errors, ____ do ____ ____ ____ do?

Minimizing ____ ____ computing ____ cost ____ ____ readings clash?

____ should ____ ____ if there is ____ ____ on final cost calculation from ____ ____ ____ ____.

____ ____ to ____ if you ____ give ____ guidance ____ faced with significant ____ ____ ____ ____ true meter data ____ ____ an impact on ____ costs

When ____ ____ difference ____ alters ____ computation of total ____ what do you ____ ____ ____?

There is an ____ ____ final ____ calculation due ____ estimated ____ ____ readings ____ ____.

How ____ I handle ____ ____ ____ final expenses if ____ ____ ____ ____ show marked divergence?

What can ____ done ____ final ____ ____ ____ heavily affected by the ____ ____ expected ____ obtained ____?

____ ____ ____ resulting impact ____ ____ expenses ____ ____ when ____ and anticipated measurements show marked ____?

____ should I handle ____ situation ____ ____ final cost ____ ____ affected by the estimated ____ ____ ____?

Can you tell me how ____ ____ cost discrepancies when there is ____ ____ ____ ____ ____ ____ ____?

How ____ ____ change if ____ and real ____ do ____ ____ up?

____ do ____ ____ out the ____ ____ ____ ____ are ____ differences ____ estimated and actual readings?

There ____ an ____ on final ____ ____ caused ____ different estimated ____

If the final ____ ____ is ____ ____ estimated ____ ____ ____ how should ____ handle that?

____ ____ one do ____ ____ final cost ____ is ____ ____ by ____ different readings?

What should ____ done ____ the assessment of an expense ____ ____ by variations ____ ____ ____ ____ ____?

____ cases where ____ and ____ ____ show marked ____ how should I handle the resulting ____ ____ ____?

If final cost ____ ____ impacted by estimate ____ actual ____ not being ____ ____ ____ ____.

In ____ cost determination, how to ____ ____ ____ between ____ and ____ ____?

What do ____ think I should do when ____ ____ between ____ ____ ____ ____ greatly ____ ____ computation of ____

expenses/gains/errors

What should _____ _____ when _____ _____ cost _____ _____ affected _____ different _____ and readings?

_____ final _____ _____ is affected by _____ estimated readings that _____ _____ should _____ _____?

_____ _____ _____ done if there _____ an _____ on final cost _____ _____ differing estimated and _____ _____

_____ _____ _____ an impact on final _____ calculation caused _____ _____ readings being _____ what _____ _____ done?

_____ _____ be done _____ there _____ _____ impact on final _____ _____ due to differing estimated _____ _____ readings?

What's _____ _____ _____ readings don't add up _____ _____ bill?

How _____ _____ handle a _____ where _____ _____ cost calculation is _____ _____ estimated _____ _____ readings?

_____ _____ you think I should do _____ the _____ between _____ _____ obtained _____ greatly _____ the computation _____ _____ expenses/gains/errors

What should _____ _____ _____ a _____ where _____ final _____ calculation is _____ _____ estimated and actual _____?

If _____ assessment _____ an _____ _____ _____ _____ variation between predicted and documented figures what _____ _____ _____?

_____ should _____ _____ the _____ _____ if _____ are differences _____ estimated _____ actual readings?

Is there a _____ _____ deal _____ _____ _____ _____ between _____ _____ genuine measures impacting _____ calculation?

Handling stark dissimilarities _____ estimated _____ _____ values _____ _____ costing.

How _____ _____ large _____ between _____ and _____ readings _____ _____ cost determination?

Can _____ tell me _____ to _____ cost discrepancies when _____ a _____ _____ _____ _____ _____ readings?

When the _____ cost _____ is _____ by _____ _____ _____ readings, how _____ _____ handle that?

_____ _____ _____ cost calculation is affected by _____ estimated and _____ readings, _____ _____ _____ _____ take?

_____ does _____ change if _____ _____ don't _____ estimates?

_____ _____ _____ be an _____ computation _____ _____ _____ _____ when there _____ discrepancies between the estimated and actual _____?

Recommendations _____ dealing _____ _____ that influence _____ _____?

There is an _____ on _____ _____ _____ _____ to estimated _____ being _____

When there _____ a significant _____ between _____ _____ _____ readings, _____ you tell me _____ to _____ cost _____?

_____ _____ a way _____ deal _____ a significant divergence _____ _____ and _____ measures impacting _____ _____?

_____ _____ an _____ _____ final _____ calculation _____ differing estimates and readings?

_____ should _____ do _____ _____ final cost _____ _____ _____ by readings that _____ different?

When _____ contrast _____ _____ and obtained measurements _____ _____ the computation of total _____ _____ _____ _____ do

_____ _____ _____ to provide guidance when _____ _____ significant _____ in estimations versus true _____ data which _____ _____ impact on _____ _____?

_____ _____ _____ of an expense _____ _____ impacted by _____ variation between _____ _____ documented figures, what actions _____ _____ taken?

_____ the assessment _____ an expense is significantly _____ by _____ between _____ and documented _____ _____ _____ _____ _____ taken?

_____ _____ I _____ with a _____ where _____ final _____ calculation _____ impacted _____ the actual _____?

_____ _____ _____ do _____ final _____ calculations are impacted by _____ and _____ _____ differently?

How _____ discrepancies _____ _____ readings and actual _____ be fixed _____ _____ an accurate _____ of _____ _____ charges?

_____ to _____ _____ estimated _____ actual discrepancy in the _____ _____ determination?

_____ the _____ contrast _____ _____ the _____ of _____ expenses, _____ do you suggest?

Minimizing _____ impacting computing end-cost _____ recorded _____ clash _____ _____ _____?

_____ _____ final _____ _____ _____ impacted _____ estimates _____ readings _____ what should I do?

_____ should be _____ if _____ _____ _____ calculation is affected _____ _____ actual readings being _____?

What should I do _____ final _____ _____ is _____ _____ _____ readings _____ differ?

What _____ I _____ if _____ _____ _____ _____ by _____ _____ _____ the estimated and actual readings?

_____ _____ _____ _____ if the _____ cost calculation _____ _____ by differing estimates _____ readings?

How _____ _____ _____ _____ estimates don't match _____?

When final cost calculation _____ _____ _____ _____ notable divergence _____ expected _____ _____ _____ what recourse should _____ taken.

If final cost _____ _____ _____ _____ of _____ _____ _____ readings being different, _____ should I _____?

The _____ cost calculation _____ _____ _____ if _____ _____ readings _____ a substantial deviation.

If _____ _____ of an _____ _____ _____ impacted _____ variation between _____ and documented figures, _____ _____ be done?

_____ an _____ of _____ _____ is _____ _____ _____ _____ predicted and documented figures, what actions _____ be taken?

_____ _____ _____ _____ discrepancies _____ estimates and _____ readings _____ final cost determination?

What should be ____ ____ there ____ an ____ ____ ____ cost calculation ____ different ____

____ ____ a ____ to ensure ____ ____ computation of ____ final ____ ____ there ____ discrepancies ____ the ____ and actual readings?

____ should I ____ ____ ____ on the ____ expenses in cases of ____ ____?

____ anticipated and ____ measurements show marked ____ ____ should ____ ____ impact on ____ ____ ____ handled?

What do I ____ when ____ cost calculation is ____ ____ ____ ____ actual ____ ____?

____ final ____ calculation ____ ____ by estimates that ____ greatly, what ____ I ____?

What ____ ____ done about ____ ____ in estimates ____ costs?

____ should I ____ ____ ____ final cost ____ is ____ by the ____ differences?

____ ____ ____ cost calculation is ____ ____ ____ and actual ____ being ____ what should ____ done?

____ ____ ____ major deviations ____ affect ____ calculations?

____ actions have ____ ____ taken if ____ ____ of an expense ____ ____ ____ variation ____ predicted and ____ figures?

How ____ I ____ the final costs ____ ____ ____ ____ differences between estimated and ____ ____?

____ the ____ of ____ expense is ____ ____ variation between ____ and ____ figures, ____ can ____ done?

I am faced ____ substantial ____ ____ ____ ____ true meter ____ which has an impact ____ my costs, could ____ ____ ____ ____?

____ ____ ____ with deviations that ____ expense ____?

____ final ____ ____ is heavily affected by ____ different ____ ____ recourse should ____ ____?

____ final cost ____ ____ affected by the estimated readings ____ ____ ____ what ____ I ____?

If ____ is ____ impact on final cost calculation ____ ____ ____ ____ different, ____ should ____ ____?

____ is ____ that the final price ____ ____ ____ by ____ ____ ____ between estimated and actual ____.

____ final ____ ____ is ____ ____ of estimate and ____ ____ being different, ____ should ____ do?

Can you tell me ____ to ____ cost discrepancies ____ ____ ____ a large variation ____ estimated ____ ____ ____?

If ____ ____ ____ ____ ____ ____ greatly impacted by ____ variation ____ predicted and ____ figures, what actions should be ____?

____ should I do if ____ ____ ____ ____ different ____ estimate?

____ stark ____ between ____ and measured ____ ____ ultimate costing?

What ____ I ____ if ____ cost ____ ____ impacted ____ estimate and actual ____ ____?

____ there ____ an impact on final cost calculation caused by ____ ____ ____ ____ ____ being ____ what ____ ____ done?

How should ____ handle ____ ____ ____ ____ expenses ____ case ____ marked divergence?

Fix a significant ____ ____ estimated ____ actual ____ which might affect ____ ____ ____?

How should I ____ with ____ situation where ____ ____ ____ ____ ____ impacted by the ____ and actual ____?

____ ____ cost calculation is affected ____ the ____ divergence ____ ____ and ____ ____ what recourse ____ be taken?

____ ____ I ____ ____ the final cost calculation is ____ because of ____ ____ actual ____ ____ different?

____ ____ I do about the resulting ____ ____ final expenses ____ real ____ anticipated ____ ____ ____ divergence?

____ should ____ do ____ ____ cost calculation being impacted ____ estimate ____ actual ____ ____?

____ ____ ____ done ____ final ____ calculation ____ ____ ____ the notable divergence between expected and obtained ____?

____ should I determine ____ final ____ if ____ are large differences between ____ ____ ____ ____?

____ to ____ the impact of ____ ____ discrepancy ____ ____ cost determination ____?

____ should ____ ____ ____ final cost calculation is ____ ____ by the ____ divergence ____ ____ and obtained readings?

When the final ____ ____ ____ ____ by ____ divergence between expected and ____ readings, ____ ____ should ____ take?

There ____ be an impact on ____ ____ calculation ____ ____ ____ ____ difference in ____ readings and ____ readings.

What should be done if ____ ____ an impact ____ final ____ ____ ____ by ____ ____.

____ ____ ____ ____ is ____ by ____ ____ ____ readings differing, what should I do?

____ ____ ____ ____ be affected by a ____ variation between estimated and ____ ____.

What ____ ____ think ____ should ____ ____ the difference between expected and ____ ____ ____ alters the computation ____ ____ expenses/gains/errors

There's an ____ ____ final ____ ____ caused by ____ readings ____ actual ____ ____ different

There is ____ impact ____ ____ cost calculation from ____ ____ and actual ____ ____ ____

____ should ____ assessment ____ an ____ be affected by ____ ____ ____ ____ documented figures?

If ____ ____ an impact ____ ____ ____ calculation because ____ different readings, ____ should be ____?

____ real measurements show marked ____ ____ ____ I ____ the ____ ____ on ____ expenses?

Handling ____ ____ ____ estimated and ____ ____ ____ ultimate costing please?

____ final cost calculation ____ affected by ____ ____ ____ ____ readings, ____ ____ I do?

____ ____ final ____ calculation is ____ by ____ readings ____ ____ ____ what should I do?

____ do you think ____ should ____ when ____ ____ ____ expected and ____ measurements greatly alters ____ ____ ____ total expenses?

____ should be done ____ ____ ____ of estimated ____ ____ actual readings ____ final ____ calculation?

____ should I ____ ____ impact on final expenses ____ ____ where ____ and real ____ show ____ ____?

How can there be ____ ____ computation of ____ ____ ____ if there is discrepancies ____ estimated ____ ____ ____?

____ should I ____ with the ____ ____ ____ expenses in cases of ____ ____?

____ should ____ do if final cost ____ ____ affected by ____ estimated ____ that ____ ____?

When ____ cost calculation ____ ____ by the notable ____ between ____ ____ obtained readings what ____ ____ one ____?

____ should ____ ____ if ____ cost ____ is affected by the ____ ____ ____ readings?

There ____ ____ impact ____ ____ cost ____ ____ ____ different estimated ____ ____ readings, what should be done?

____ there ____ a significant ____ ____ ____ ____ actual readings, can you tell ____ ____ to ____ the cost ____?

Does cost ____ ____ ____ ____ real readings ____ match?

____ discrepancies impacting ____ end-cost ____ ____ and anticipated readings ____?

Handling stark ____ in estimated vs. ____ ____ affects ____ ____

What ____ be done if ____ final ____ ____ ____ ____ by ____ readings being ____.

____ ____ is an ____ ____ ____ ____ calculation from different estimated and actual readings, what ____ ____ ____?

Solutions ____ when readings ____ deviating ____ ____ expense ____.

How ____ ____ handle the impact on final ____ when ____ ____ ____ marked ____?

____ ____ ____ readings differ, affecting final ____?

____ should ____ ____ ____ ____ cost calculation is altered ____ estimate and ____ readings?

Handling stark differences ____ ____ impacting ____ costing - ____ ____?

How can ____ ____ estimated ____ actual readings be ____ ____ ____ an accurate computation of ____ ____ ____?

____ can ____ between ____ estimated and actual ____ be ____ to ____ ____ ____ ____ charges are accurate?

____ should I handle ____ impact ____ ____ ____ divergence ____ final expenses?

What should ____ done if the ____ cost ____ ____ ____ ____ ____ readings ____ estimates.

What ____ ____ do ____ ____ final ____ calculation ____ affected ____ ____ estimated and actual readings.

A significant ____ between estimated ____ ____ readings can ____ ____ ____ price.

____ final ____ calculation ____ ____ ____ estimate and real ____ being different ____ should I ____?

____ is an ____ ____ ____ cost ____ if ____ is differing ____ and ____ readings.

____ ____ tell me how ____ ____ cost discrepancies when there is a significant ____ ____ ____ ____ actual ____?

So ____ final ____ ____ is ____ by estimate ____ actual readings ____ what should ____ ____?

What ____ I ____ ____ ____ cost calculation is impacted by ____ ____ actual ____?

The final ____ calculation ____ ____ ____ by the ____ in ____ readings ____ ____ readings.

____ ____ cost change ____ the estimates ____ ____ ____ match up?

____ do I figure out ____ ____ ____ ____ ____ are significant ____ between ____ ____ actual readings?

Handling ____ ____ impacting ultimate ____?

When final cost calculation is ____ ____ ____ noticeable ____ between ____ ____ ____ readings, ____ recourse should be ____?

____ ____ cost calculation ____ ____ by ____ divergence ____ ____ ____ obtained readings, what ____ should one take?

____ ____ cost calculation is ____ ____ ____ estimated readings that differ greatly, ____ should ____ ____?

____ can discrepancies ____ estimates and ____ ____ be ____ to ____ an accurate ____ ____ ____ charges?

If the ____ cost calculation ____ ____ by ____ readings that ____ ____ ____ should ____ do?

____ ____ cost ____ is heavily ____ ____ the ____ ____ ____ expected and obtained readings, ____ recourse should ____ taken.

____ ____ I handle the ____ ____ ____ final expenses if ____ ____ show marked ____?

What should ____ ____ about a situation ____ the ____ ____ calculation is ____ by the ____ ____ ____ readings?

____ would ____ ____ know if ____ could provide ____ ____ ____ ____ large ____ in ____ versus true meter ____ ____ ____ an impact on my costs

____ should ____ done ____ there is an impact ____ final cost ____ ____ ____ ____ ____ actual readings?

How does ____ ____ ____ ____ estimated readings are not ____?

____ ____ I determine ____ final ____ if ____ ____ significant differences ____ ____ estimated and actual ____?

Should ____ ____ ____ and actual readings be fixed to ensure ____ ____ computation ____ ____ ____?

Can ____ help me figure ____ ____ ____ manage cost ____ when there's ____ ____ difference ____ ____ ____ actual readings?

____ should I ____ ____ the ____ cost ____ is affected by the ____ ____ ____ different?

____ ____ contrast between expected ____ obtained ____ ____ changes ____ computation of ____ ____ what ____ you suggest?

Can you help ____ ____ ____ ____ ____ manage cost ____ when ____ is a significant ____ between ____ and actual ____?

____ ____ ____ mitigate ____ cost ____ ____ when there are striking deviations?

How does cost change if ____ ____ ____ readings ____ ____?

____ there is ____ ____ on ____ cost ____ ____ the difference in ____ ____ readings.

How to ____ ____ caused ____ estimate-real ____ ____ during final ____ determination?

What ____ I ____ if final cost ____ is influenced by ____ ____ ____ ____ ____?

____ does cost ____ ____ ____ ____ and real readings ____ match?

How should ____ ____ out the final costs if ____ ____ ____ ____ ____ the estimated ____ ____ readings?

What should be done ____ ____ ____ ____ impact to final ____ ____ ____ different ____?

____ final cost calculation was ____ ____ estimate ____ actual ____ ____ different, what ____ I ____?

What should ____ do if ____ ____ cost calculation ____ ____ by ____ ____ actual ____?

What ____ ____ done ____ the difference in estimated ____ ____ ____ readings when calculating ____ ____?

What ____ ____ ____ ____ the impact ____ marked divergence ____ final expenses?

If estimated ____ ____ match real ____ how ____ ____ change?

There could be ____ ____ ____ ____ estimated and actual readings which could ____ ____ ____ ____.

The ____ ____ might ____ ____ by a ____ ____ between estimated and ____ readings?

When there's a striking deviation, ____ ____ ____ ____ final cost ____ ____?

When ____ is ____ significant ____ between estimated and actual ____ ____ ____ give me ____ ____ ____ cost discrepancies?

____ final price may ____ ____ by a significant ____ between ____ and ____ ____.

____ ____ an impact ____ ____ cost ____ if the estimated readings and ____ readings ____ ____.

____ ____ I do ____ ____ final cost calculation ____ ____ by ____ ____ in estimated readings?

If final ____ ____ ____ impacted by different estimated ____ actual ____ ____ ____ be ____?

How does cost ____ ____ ____ ____ ____ readings don't match?

In final cost determination, ____ to ____ a ____ ____ between ____ ____ ____ readings.

____ there ____ an impact on final ____ ____ ____ ____ ____ ____ and readings what should be ____?

What ____ ____ done if ____ final ____ calculation ____ ____ by different estimated ____?

If ____ ____ ____ ____ is affected by ____ readings ____ ____ ____ should be done?

There ____ an impact ____ ____ cost ____ ____ of estimated ____ ____ actual readings ____ different.

Should ____ do ____ if final cost ____ is ____ ____ ____ ____ actual readings ____ different?

____ can ____ ____ to ensure ____ ____ computation ____ ____ charges if ____ are discrepancies ____ estimated and actual ____?

If ____ ____ ____ ____ ____ ____ affected by variation between ____ and documented figures, ____ actions ____ be taken.

____ ____ ____ be taken ____ the assessment of ____ expense is ____ by variation ____ predicted ____ documented ____?

When ____ difference between ____ ____ obtained ____ greatly alters the computation ____ ____ what ____ ____ suggest?

____ do you ____ ____ ____ are differences ____ ____ and reality costs?

What should be done if ____ final ____ ____ ____ ____ affected by ____ ____ ____ between expected ____ obtained ____?

____ ____ ____ done if ____ ____ ____ impact on final ____ ____ due to different estimates?

____ should ____ ____ ____ impact on ____ expenses when ____ and real ____ ____ divergence?

____ ____ the ____ are different, ____ final ____?

____ differing ____ ____ actual readings ____ an impact on ____ cost calculation, ____ ____ ____ done?

____ should be ____ ____ ____ assessment ____ an expense ____ significantly affected by variation between ____ ____ ____ figures?

Is ____ ____ ____ to ____ ____ a ____ divergence between ____ ____ ____ measurements impacting cost calculation?

____ ____ ____ help ____ with managing cost discrepancies ____ ____ a significant difference ____ ____ ____ actual ____?

____ the ____ cost ____ is impacted by the ____ in ____ ____ actual readings, ____ ____ be ____?

What ____ ____ ____ if the difference ____ ____ readings and ____ ____ affect final cost ____?

____ ____ minimize ____ ____ of estimate-real ____ discrepancy on ____ cost determination ____?

____ does ____ change ____ estimates and ____ readings ____ perfect?

____ ____ cost calculation ____ heavily ____ by the notable ____ between expected ____ obtained ____ ____ recourse should ____ ____?

What _____ should be _____ _____ final cost _____ _____ _____ by _____ _____ expected and _____ readings?

How _____ _____ determine _____ _____ costs if _____ is _____ substantial _____ _____ _____ and actual readings?

What actions _____ to _____ taken if _____ _____ _____ facts _____ _____ actually _____ alters price _____?

There may be _____ _____ on _____ _____ _____ if _____ _____ and actual readings _____ included.

Should _____ deal _____ _____ _____ that influence final _____ calculations?

_____ _____ there _____ _____ differences _____ the _____ and _____ readings, how do I _____ the _____ costs?

_____ _____ cost _____ is impacted _____ to _____ _____ actual readings _____ _____ what _____ I do?

How _____ cost change _____ real _____ _____ match _____?

If _____ cost _____ is impacted _____ _____ _____ actual readings differently _____ _____ I _____?

_____ _____ assessment _____ an _____ _____ _____ impacted by _____ between _____ _____ documented figures, what must be done?

_____ final cost calculation _____ be _____ _____ _____ and actual _____ differently.

_____ final cost _____ could be _____ _____ the estimated _____ actual _____ show _____ _____ discrepancy.

_____ should _____ handle the impact on _____ _____ when _____ _____ real _____ show marked _____?

How does cost _____ if estimated _____ _____ readings _____ _____ _____ the _____?

How would you suggest _____ _____ _____ _____ _____ between estimated _____ _____ readings, which _____ affect _____ final price?

_____ should I _____ the _____ that marked _____ will _____ on _____ _____?

How do _____ determine _____ _____ costs _____ there _____ _____ _____ between estimated and _____ readings.

_____ _____ _____ calculation is _____ _____ _____ _____ readings differently what should I do?

The _____ cost _____ _____ be impacted _____ the _____ and _____ readings _____ a significant _____.

When _____ _____ contrast greatly _____ the _____ _____ _____ expenses/gains/errors, _____ you _____ I do?

What should _____ do if _____ cost _____ is _____ _____ _____ and _____ readings _____?

If _____ final _____ calculation _____ affected by _____ estimated _____ _____ _____ _____ what should _____ do?

If final _____ calculation is impacted _____ estimate and _____ _____ _____ _____ _____ do?

How _____ _____ figure out _____ _____ _____ if there are large _____ between estimated _____ _____ _____?

Should I _____ final cost _____ _____ _____ _____ actual readings _____?

How _____ discrepancies _____ _____ and actual readings be fixed _____ make sure an _____ _____ _____ _____ final _____?

_____ _____ one do when final cost _____ _____ heavily _____ _____ the _____ _____ expected _____ obtained readings?

_____ _____ _____ do _____ _____ _____ cost _____ is impacted by estimates _____ readings differently?

How to reconcile the _____ between _____ _____ _____ _____ in _____ cost _____?

How _____ _____ change if _____ _____ estimated _____ aren't _____ same?

How should I _____ the _____ on final _____ if _____ are _____ _____ _____ _____ measurements?

_____ there's _____ significant variation _____ estimated and _____ readings, _____ _____ give me _____ _____ _____ to manage _____ discrepancies?

_____ _____ cost _____ if _____ readings don't match _____?

When _____ _____ _____ is heavily impacted by _____ notable divergence _____ expected _____ _____ _____ _____ recourse should _____ taken?

How will the difference _____ _____ _____ actual _____ _____ cost?

In case there _____ significant differences _____ _____ _____ actual _____ _____ do I _____ final _____?

_____ should I do if _____ _____ cost calculation _____ _____ by _____ _____?

_____ should be done if _____ _____ _____ _____ involves different _____ _____ actual readings?

_____ _____ _____ do if _____ final cost calculation is _____ _____ readings and _____?

What should one do when the _____ _____ _____ is heavily affected by the _____ _____ _____ _____ _____ _____?

_____ _____ I _____ _____ _____ _____ cost calculation is _____ by the _____ and actual readings?

_____ _____ be done _____ the assessment _____ an _____ is impacted by _____ _____ between _____ and documented _____?

How _____ cost change _____ _____ and actual _____ _____ match _____?

When the contrast between expected _____ _____ _____ greatly alters _____ _____ of _____ expenses, _____ do _____ _____?

_____ _____ be _____ if the final cost calculation _____ impacted _____ _____ estimates and _____ _____.

_____ does cost _____ should _____ and _____ _____ not match?

_____ should _____ if there _____ an _____ _____ _____ cost calculation _____ by _____ _____ and readings?

_____ differences between estimated _____ _____ _____ impacting ultimate costing _____ _____ please?

If the final _____ _____ _____ _____ _____ the estimated _____ actual readings, _____ should _____ deal _____ that?

_____ _____ the _____ that _____ be taken if _____ assessment _____ an expense _____ impacted by _____ _____ predicted and _____ _____?

Solution ____ ____ ____ are deviating from ____ ____ analysis.

____ ____ cost ____ is impacted by estimate ____ actual readings ____ ____ ____ ____ ____ do? "

How ____ ____ ____ ____ resulting impact ____ final ____ ____ anticipated and real measurements show ____ ____?

____ do I ____ ____ ____ final costs ____ ____ are significant differences ____ estimated ____ actual ____?

Handling stark differences in ____ vs. ____ ____ ____ ____ costing

The total ____ could ____ impacted if ____ ____ ____ difference between ____ ____ ____ readings.

Should ____ change my ____ cost calculation ____ ____ and ____ readings ____ ____?

____ will ____ differences ____ estimated and actual affect ____ ____?

____ can we ____ ____ caused by ____ reading ____ during final ____ ____ process?

When ____ cost calculation ____ ____ by ____ divergence ____ ____ and ____ readings, what recourse should ____ ____?

____ there an ____ to ____ ____ the ____ between anticipated ____ ____ measurements impacting ____ calculation?

Is the final cost calculation ____ ____ ____ ____ ____ readings ____?

____ there is an impact ____ final cost ____ ____ ____ estimated readings, what ____ ____ ____

____ should ____ do if the final ____ calculation ____ ____ ____ ____ ____ estimated readings?

____ should I do if final ____ calculation ____ ____ ____ ____ readings and ____ ____?

If ____ is an ____ ____ ____ cost calculation due to ____ ____ ____ ____ ____ different, what should be done.

____ ____ you ____ I should ____ ____ the ____ ____ expected and obtained ____ greatly affects the computation ____ total ____

____ there is ____ ____ on final cost ____ from ____ ____ and ____ readings ____ should ____ done?

____ should ____ done ____ ____ final cost ____ ____ by the ____ between estimated ____ and actual readings.

____ ____ discrepancies between estimated ____ ____ readings be ____ ____ make sure the ____ ____ ____ accurate?

What ____ one ____ ____ ____ ____ ____ is affected by the notable ____ between expected and ____ ____?

____ ____ the readings are ____ and ____ final ____?

____ ____ ____ in estimated ____ impacting ____ costing?

The final ____ ____ ____ ____ affected by the notable ____ ____ ____ ____ obtained readings.

How ____ ____ determine the ____ costs when ____ ____ ____ ____ estimated and actual ____?

What should I do ____ ____ ____ calculations ____ ____ ____ ____ readings ____ actual readings?

____ final ____ calculation is ____ by ____ and actual ____ ____ different, what ____ I ____?

What ____ ____ done if ____ ____ an impact on final ____ calculation ____ ____ estimates ____ ____ readings?

____ ____ ____ calculation ____ impacted ____ estimated ____ actual ____ being different, what should I ____?

Can you help ____ ____ ____ discrepancies ____ there's a significant difference ____ ____ ____ actual ____?

When final cost ____ ____ impacted ____ ____ notable ____ ____ expected and obtained readings, what ____ should ____ ____?

There ____ ____ impact ____ ____ ____ calculation ____ ____ estimated readings and ____ reading being different.

____ ____ ____ between ____ and obtained measurements greatly alters the computation ____ ____ expenses, ____ ____ you suggest ____ ____?

Can you ____ ____ how ____ manage cost ____ when the estimated ____ ____ ____?

What ____ I do ____ final cost calculation ____ ____ by different ____ ____ ____ ____?

____ real measurements show marked ____ ____ should I ____ ____ impact ____ ____ expenses.

____ ____ ____ affect ____ end-cost when recorded readings clash, ____?

____ ____ ____ cost ____ is ____ by the estimated and ____ ____ how ____ I deal with ____?

If ____ ____ calculation is impacted by ____ ____ ____ readings ____ different

____ ____ is a ____ variation ____ estimated ____ ____ readings, ____ ____ tell me how to manage ____ cost ____?

____ might ____ ____ impact ____ final ____ ____ due to ____ estimated and actual ____.

____ are ____ ____ readings are deviating ____ total expense ____.

If the ____ ____ an ____ ____ significantly ____ ____ variation ____ predicted and ____ figures ____ what actions must ____ taken?

When ____ a significant ____ ____ estimated and actual ____ ____ you ____ me ____ ____ ____ cost discrepancies?

____ should be ____ if the final ____ ____ ____ affected by ____ ____ and actual ____.

____ ____ be ____ ____ on ____ ____ calculation ____ ____ difference between estimated ____ and actual readings.

How ____ reconcile discrepancies in ____ ____ ____?

What should be done ____ the ____ ____ ____ ____ is greatly ____ ____ variation between ____ ____ documented figures?

____ the assessment ____ an ____ ____ ____ ____ the variation between ____ and ____ figures, what should be ____?

What _____ be _____ about the _____ _____ _____ readings _____ _____ readings impacting final _____ calculation?

If final cost calculation is affected _____ _____ _____ _____ readings, _____ _____ I _____?

What _____ you _____ I should do _____ the contrast _____ _____ _____ _____ measurement greatly _____ the computation _____ total _____?

How would _____ _____ difference _____ assumed _____ true data _____ _____?

_____ the assessment of _____ _____ is negatively _____ _____ _____ between _____ and _____ figures, what should be _____?

What should _____ do _____ _____ impact _____ final _____ when there _____ _____ divergences?

How _____ you suggest changing the _____ price _____ _____ _____ a _____ _____ between estimated _____ _____ readings?

_____ final price might _____ _____ by a _____ _____ between _____ readings and _____ _____.

_____ _____ _____ change if the estimated _____ real _____ _____ matching?

How _____ _____ _____ _____ _____ final costs when there are significant _____ between _____ _____ _____ readings?

What _____ _____ do if final _____ calculation _____ _____ than _____?

_____ _____ _____ change if real and estimated _____ do _____ _____ up?

What to do _____ _____ are _____ differences _____ estimates _____ reality _____?

How can it _____ ensured _____ the _____ _____ _____ accurate _____ _____ _____ _____ between the estimated and _____ readings?

What _____ you think _____ _____ do _____ _____ difference between _____ _____ _____ measurements greatly _____ the _____ of total expenses/gains/errors

_____ _____ _____ big difference _____ assumed _____ true _____ impact charges?

_____ _____ the _____ _____ change _____ there _____ a big gap between assumed _____ _____ measurements?

_____ there an accurate computation _____ the _____ _____ if there _____ _____ between estimated _____ _____ _____?

What should _____ done _____ the _____ cost _____ is impacted by _____ _____ and _____ _____

How would _____ suggest _____ _____ discrepancy between _____ _____ actual readings, _____ _____ _____ the _____ price?

_____ the total _____ _____ impacted by _____ difference _____ _____ _____ _____ readings, _____ can I do?

When _____ _____ calculation is heavily affected _____ the noticeable _____ _____ _____ _____ _____ readings, what should one _____?

What should _____ _____ _____ _____ _____ calculation _____ affected by different _____ and readings?

_____ does _____ change _____ estimates _____ readings _____ accurate?

_____ _____ _____ do if _____ _____ calculation is affected by changing _____?

_____ _____ _____ with deviations that affect _____ expense _____?

How _____ I _____ the _____ _____ if _____ is _____ _____ _____ between estimated and actual _____?

_____ for _____ _____ deviations _____ affect final _____?

_____ want to know if _____ can give me _____ when _____ _____ _____ discrepancies _____ _____ versus _____ meter data _____ _____ an impact on _____ _____

_____ there _____ _____ impact _____ the final cost _____ _____ the _____ _____ readings, _____ should be done?

When there's _____ _____ between estimated _____ _____ _____ _____ you _____ me how to _____ cost _____?

_____ should _____ done regarding _____ cost calculation _____ _____ _____ and _____ readings?

_____ would like _____ _____ _____ you could _____ me guidance when faced with _____ in _____ versus true _____ _____ _____ _____ an impact _____ my _____

Recommendations for _____ _____ _____ that impact _____ _____ calculations?

What should _____ do if my _____ cost _____ _____ _____ _____ the _____ _____ and _____ readings?

_____ there is _____ _____ _____ _____ cost calculation _____ by estimated readings and _____ _____ being _____ what _____ be done

What _____ be done _____ _____ _____ _____ calculation is affected _____ _____ readings?

_____ there's a significant _____ between _____ and actual _____ can you _____ _____ _____ on _____ _____ discrepancies?

What _____ I do _____ final _____ _____ becomes impacted _____ _____ _____ _____ readings differently?

What should _____ do _____ the _____ cost _____ is _____ _____ changed _____?

_____ it _____ to _____ a significant _____ between _____ _____ _____ _____ which could _____ the final price?

_____ can you tell _____ the final _____ is _____ _____ _____ significant variation between _____ _____ _____ readings?

_____ should _____ _____ if the _____ cost calculation _____ affected _____ _____ and actual _____?

Recommendations _____ _____ _____ deviations that influence _____ _____ calculation?

_____ the _____ _____ an expense is significantly _____ _____ _____ between _____ _____ documented _____ what actions should be _____?

In cases _____ real _____ _____ marked _____ how should I _____ _____ _____ on final _____?

_____ happens _____ my readings _____ match _____ _____ _____ _____ bill isn't what _____ expected?

How ____ ____ change ____ ____ ____ real readings aren't match?

____ ____ ____ ____ expected ____ obtained measurement ____ ____ the ____ of total expenses/gains/errors, what ____ you suggest?

What should ____ ____ ____ final cost calculation is ____ ____ ____ difference ____ estimated ____?

____ ____ ____ ____ differ, affecting the final ____?

What should I do ____ ____ ____ ____ ____ ____ ____ estimate and actual readings ____.

There is an ____ ____ ____ ____ due to estimates and ____ ____ being ____

____ the ____ ____ calculation ____ impacted ____ estimate ____ actual readings, ____ should ____ do?

____ would ____ ____ know if ____ could ____ ____ ____ ____ with significant discrepancies in estimations and ____ ____ data which ____ ____ ____ on my costs

____ ____ where anticipated and real measurements show ____ ____ ____ ____ ____ ____ resulting impact on ____ expenses?

____ there ____ difference in estimated ____ ____ ____ ____ final costs?

____ does ____ ____ ____ estimated and real readings don't ____ ____?

____ should be done if ____ ____ and ____ ____ impact ____ ____ calculation?

____ should ____ ____ if there ____ ____ impact on ____ ____ calculation because ____ estimated readings and actual ____ ____ different.

____ final cost calculation ____ ____ ____ if estimated and actual ____ ____.

Is ____ ____ way to deal with a ____ ____ ____ ____ ____ measurements ____ cost calculation?

The ____ price could ____ affected by ____ significant ____ between ____ ____ actual ____.

____ ____ reconcile an estimated ____ ____ ____ in ____ cost determination?

Handling differences ____ estimated ____ measured values ____ ____ ____?

____ can we minimize ____ ____ ____ impact when there ____ striking ____?

How can discrepancies ____ ____ and actual ____ ____ ____ ____ ____ ____ the ____ charges are accurate?

What do ____ do if ____ ____ cost ____ ____ ____ by estimated ____ actual ____?

____ should I ____ ____ ____ of marked divergence on ____ ____?

What should ____ ____ if the ____ of ____ ____ is adversely affected by ____ between predicted ____ ____ ____?

____ ____ ____ ____ for dealing with deviations that affect final ____ ____?

If final ____ ____ ____ ____ ____ ____ actual ____ being different, what should I ____?

____ total ____ can be ____ if ____ is a big ____ between ____ ____ actual ____.

____ do I determine ____ final ____ ____ there ____ ____ ____ difference between ____ ____ actual readings?

____ ____ ____ ____ ____ where the final cost calculation ____ ____ by the ____ and ____ readings?

____ final ____ calculation ____ impacted by the estimate and ____ ____ ____ what should ____ ____?

When real and anticipated ____ ____ ____ ____ how ____ ____ handle the resulting impact ____ ____ ____?

Final ____ ____ be ____ ____ estimated and ____ readings differ.

If ____ ____ ____ is ____ by the notable divergence between expected and ____ readings, ____ ____ should ____ ____?

How ____ ____ change if ____ ____ ____ are wrong?

____ ____ ____ match ____ how does cost ____?

What ____ ____ ____ if ____ ____ calculation is ____ by ____ estimates and readings?

If final cost calculation is ____ ____ the ____ ____ actual ____ ____ what ____ ____ do?

____ the ____ cost calculation affected by ____ ____ actual ____ ____ different?

Handling differences in ____ vs. measured ____ ____ ____ ____

What should ____ ____ if ____ ____ ____ is affected by ____ and ____ readings ____ different.

____ actions ____ taken if ____ assessment ____ an expense ____ ____ ____ ____ between predicted ____ documented figures?

____ to minimize ____ effects ____ estimate-real ____ ____ ____ final cost determination?

Minimizing ____ ____ impact computing end-cost when recorded ____ ____ ____?

What ____ I ____ if final ____ ____ is affected by ____ ____ ____ readings?

There ____ ____ ____ ____ final cost calculation caused ____ ____ ____ andactual readings ____ different.

____ ____ a significant variation between ____ and actual ____ which ____ ____ ____ final ____.

____ final ____ ____ may ____ affected ____ ____ estimated and actual readings show a ____ ____.

How ____ the resulting impact on ____ expenses be handled ____ ____ ____ ____ ____?

What should I ____ ____ Final ____ ____ is impacted ____ estimate ____ actual ____ ____?

____ should ____ ____ ____ ____ cost ____ is affected by estimated ____ actual readings?

When ____ ____ ____ is heavily affected by the ____ ____ between ____ what ____ ____ one ____?

____ ____ cost ____ is affected by estimated ____ ____ ____ greatly, ____ ____ I do?

How ____ ____ determine final ____ if there ____ substantial ____ ____ ____ and actual ____?

How to handle ____ differences ____ ____ ____ reality ____?

____ ____ final ____ ____ is ____ due ____ estimate and actual ____ ____ different, what should ____ do?

What ____ ____ ____ if the ____ ____ calculation is affected by different ____ ____?

____ ____ a significant ____ between ____ ____ ____ readings, can you tell me how to ____ ____ cost ____?

____ ____ price might be affected by ____ significant ____ ____ ____ and Actual ____.

____ there ____ significant ____ between estimated and ____ ____ ____ ____ I determine final ____?

What ____ ____ ____ if ____ ____ calculation is ____ by estimated ____ and actual readings ____ ____?

If ____ assessment ____ ____ expense is influenced by variation ____ predicted and ____ ____ ____ ____ should be ____?

____ the final ____ ____ is ____ by the estimated and ____ ____ ____ should ____ ____ that?

____ there is ____ ____ ____ ____ ____ ____ due to estimated ____ and actual ____ being different, what should be ____?

If ____ ____ cost ____ ____ ____ ____ the difference in estimated readings ____ ____ ____ what should be done?

Handling differing ____ ____ ____ costing - ____ ____?

An ____ on ____ ____ calculation can be caused by estimated ____ ____ ____ ____ ____ different

What ____ ____ ____ if the final cost ____ ____ impacted ____ ____ different readings?

____ ____ I handle ____ impact ____ final expenses when ____ ____ ____ ____ in real measurement?

If there is an ____ on final cost ____ ____ of ____ estimated ____ ____ readings, what ____ ____ ____?

____ can a ____ discrepancy ____ estimated and actual ____ be ____ in ____ final ____ ____?

____ you ____ ____ ____ for dealing with ____ ____ ____ affect final expense calculations?

____ does cost change if ____ and readings ____ ____ ____?

____ ____ ____ cost ____ is affected ____ estimate and ____ readings ____ what should ____ do?

When a final cost ____ ____ heavily affected by ____ ____ divergence ____ expected ____ ____ readings, what ____ should ____ ____?

What should ____ ____ ____ the impact on ____ ____ ____ from different estimates and ____ ____?

How ____ ____ ____ corrected to ensure an accurate computation ____ ____ ____ ____ if there ____ ____ between ____ and actual ____?

What ____ be done if ____ ____ of ____ ____ is impacted by ____ ____ ____ predicted and ____ figures?

____ does ____ ____ ____ ____ readings don't match the estimates?

____ final ____ calculation is ____ by ____ ____ ____ that differ ____ what should I ____?

____ do I figure ____ the ____ ____ ____ there ____ substantial differences ____ estimates and ____ ____?

____ regarding ____ ____ ____ influence final ____ calculations?

____ ____ be ____ ____ the final ____ ____ is affected by different estimated ____ ____ readings?

____ does costs change ____ estimated ____ ____ readings ____ match?

____ final ____ calculation ____ affected ____ estimated readings and actual ____ what ____ ____ ____?

Where ____ and ____ ____ show ____ ____ how should I ____ the resulting ____ ____ ____ expenses?

How ____ the ____ between estimated ____ ____ impact ____ costs?

____ might be a ____ variation between ____ ____ ____ readings, which could ____ ____ final ____.

____ is an impact on ____ ____ ____ due to ____ and ____ ____ ____ different.

____ do you think ____ should ____ when the difference between ____ and obtained ____ ____ alters ____ ____ of ____ ____

If ____ cost is ____ ____ ____ ____ actual readings being ____ ____ should ____ do?

____ to reduce ____ impact of estimate-real ____ ____ during final ____ ____?

____ will the variation ____ ____ vs actual ____ ____ cost?

Can you help ____ with managing ____ discrepancies ____ ____ ____ significant variation ____ ____ ____ actual ____?

____ actions should ____ taken ____ a notable ____ facts estimating amounts actually ____ ____ ____ ____ ____?

How should ____ cost ____ ____ ____ ____ ____ there's striking deviation?

How ____ reconcile ____ ____ ____ estimates ____ actual readings ____ a final cost ____?

____ ____ be ____ if different ____ and ____ ____ affect ____ cost calculation?

How ____ ____ between ____ and actual readings ____ ____ in ____ to ____ an accurate computation ____ final ____?

____ ____ affecting ____ ____ when recorded readings ____?

____ ____ I ____ the ____ impact on ____ ____ when anticipated ____ real measurements ____ divergence?

How should I ____ ____ ____ ____ if there ____ ____ differences ____ ____ and actual readings?

____ ____ I ____ ____ the difference ____ expected ____ obtained ____ ____ alters the computation of total ____?

____ ____ I do if the final ____ calculation ____ ____ ____ estimate ____ actual ____ ____ different.

What ____ need to be taken when ____ notable ____ ____ ____ ____ ____ measured ____ ____ calculations included?

____ should ____ do if ____ cost ____ is ____ by differing ____ ____?

What should be ____ ____ ____ is ____ impact ____ ____ cost calculation ____ differing ____ readings.

If ____ ____ cost calculation ____ impacted by ____ and actual readings ____ ____ ____ ____ ____ do?

What ____ I ____ if ____ final cost ____ ____ affected ____ readings?

If ____ is ____ ____ on final ____ calculation ____ the difference between ____ ____ actual readings, ____ ____ be ____?

Handling very ____ values impacting ____ costing ____ ____ ____?

____ final cost calculation is ____ by ____ readings that ____ ____ lot, ____ should ____ ____?

____ ____ when ____ ____ add ____ with my bill?

When ____ cost ____ ____ ____ by ____ divergence ____ expected ____ obtained readings, ____ ____ be done?

When the contrast ____ ____ ____ obtained measurements greatly ____ the computation ____ total expenses/gains/ errors, ____ ____ ____ ____?

What ____ ____ do if ____ ____ cost is impacted by a ____ difference ____ estimated ____ ____ ____?

____ does ____ ____ when ____ and readings don't ____?

____ ____ cost ____ ____ be ____ by the ____ in estimated ____ and ____ readings.

____ ____ final ____ calculation ____ affected ____ estimates ____ actual ____ being different, ____ should I ____?

____ ____ I deal with a ____ where the ____ cost calculation is ____ ____ ____ ____?

____ final cost calculation is heavily ____ ____ the ____ ____ ____ ____ and obtained ____ ____ recourse can ____ take?

____ you teach me how ____ manage ____ discrepancies ____ ____ ____ ____ different?

How ____ ____ ____ difference between assumed ____ true ____ ____ the charges?

____ ____ ____ do if ____ final cost ____ is impacted by ____ different ____?

____ there are ____ ____ ____ estimated ____ actual readings, how can it be ____ ____ ____ an ____ computation of ____ ____ charges?

When ____ a ____ variation ____ ____ and actual ____ ____ you give me ____ on ____ cost ____?

If ____ ____ calculation ____ impacted by estimates and ____ readings differently, ____ ____ ____ ____?

How should ____ ____ ____ impact ____ final expenses ____ anticipated and real ____ ____ marked ____?

If final ____ calculation ____ impacted by estimates ____ ____ different, what ____ ____ ____?

____ ____ cost change if ____ ____ ____ readings ____ not right?

Is it possible ____ give guidance ____ faced with significant differences in ____ versus ____ ____ data ____ ____ ____ ____ on ____ ____?

____ you tell ____ ____ ____ manage cost ____ when ____ readings are ____?

What action ____ be taken ____ ____ ____ ____ calculation is affected ____ the notable ____ between ____ ____ ____ readings?

Recommendations for dealing with ____ deviations ____ ____ ____ ____ calculation?

____ should ____ done ____ ____ final ____ ____ is affected by ____ and ____ readings being ____.

If the ____ is impacted by a big difference ____ ____ ____ ____ ____ ____ what ____ I ____?

____ should ____ do ____ ____ ____ cost calculation ____ affected by ____ different readings?

Is ____ possible ____ ____ the resulting ____ ____ final expenses ____ cases of ____ ____?

What ____ I ____ if my final ____ calculation ____ ____ ____ ____ and actual readings ____ ____?

____ the ____ ____ ____ ____ ____ impacted by variation ____ predicted and ____ figures, what actions should ____ taken?

What ____ ____ ____ be taken ____ the ____ of an ____ ____ impacted ____ variation between ____ and documented ____?

How will the ____ ____ estimated and ____ affect ____ ____?

When the ____ ____ expected ____ obtained ____ ____ ____ the computation of total ____ ____ ____ you suggest?

What should ____ done ____ ____ ____ an impact on the final ____ ____ ____ to different estimates ____ ____?

What is ____ best way ____ ____ ____ significant variation between ____ ____ actual ____ that ____ ____ ____ final price?

There ____ an ____ ____ ____ ____ ____ due to ____ difference ____ estimated readings and ____ readings.

What ____ be ____ if the final ____ ____ ____ ____ ____ different readings.

____ impact ____ final ____ calculation from ____ ____ and actual readings ____ ____ considered.

If final ____ ____ is ____ ____ differing ____ readings, what should ____ ____?

_____ you have _____ _____ for dealing _____ major deviations that _____ _____ expense _____?

What should _____ done if _____ cost _____ is affected _____ the _____ in estimated _____ _____ _____ _____

What _____ I do if the _____ _____ _____ is impacted by _____ _____ and _____ _____?

How _____ _____ _____ the _____ impact on final expenses if _____ and _____ _____ _____ divergence?

_____ should _____ _____ the _____ impact on _____ expenses if there _____ _____ divergence?

_____ _____ _____ _____ estimated and real readings _____ not match.

If _____ _____ calculation is _____ _____ _____ and _____ _____ _____ different what should I do?

_____ there a way to _____ _____ _____ variation _____ _____ and _____ readings, _____ might affect the _____ price?

How can _____ _____ an accurate _____ _____ _____ final charges _____ there _____ _____ _____ the estimated _____ actual readings?

_____ _____ cost _____ is _____ _____ _____ difference in readings, what should _____ do?

_____ a _____ variation between estimated and _____ _____ would affect _____ _____ _____.

I am _____ _____ _____ _____ _____ versus _____ _____ data _____ _____ _____ impact on my costs, could _____ give me some guidance?

_____ _____ _____ way _____ handle the resulting impact on final _____ _____ cases _____ marked _____?

Handling stark _____ in _____ vs. _____ values _____ ultimate _____ _____?

What can _____ done _____ _____ _____ of _____ expense _____ impacted by _____ between _____ and documented _____?

_____ final _____ calculation is _____ affected _____ _____ _____ _____ expected and _____ readings, what should one _____?

_____ _____ _____ _____ if estimated and _____ readings aren't compatible?

When the contrast _____ _____ _____ _____ _____ _____ alters the _____ _____ total _____ what should I do?

How _____ cost _____ if _____ _____ readings are _____?

_____ for _____ _____ deviations _____ final _____ calculations?

The _____ _____ _____ _____ be _____ by the _____ _____ actual readings showing a _____ deviation.

How _____ discrepancies between _____ and _____ _____ fixed to _____ _____ _____ computation of _____ _____ charges?

How _____ reconcile a significant _____ _____ _____ and actual _____ in _____ _____ cost _____?

_____ possible that the final price will be _____ _____ _____ significant _____ _____ _____ and _____ _____.

If there's an _____ _____ final _____ _____ due to _____ readings _____ _____ _____ _____ different, what should _____ done?

_____ _____ _____ big _____ _____ assumed and actual measurements _____ charges?

I _____ to know _____ _____ _____ give _____ _____ when faced with significant _____ _____ estimations and true _____ _____ which have _____ impact _____ my _____

_____ _____ I do if final _____ calculation _____ _____ _____ by estimate and _____ _____?

_____ _____ different estimated and _____ readings _____ final _____?

_____ final price _____ _____ affected by _____ significant _____ between _____ and _____ readings.

_____ differences _____ estimated _____ impacting _____ costing - _____ please?

How can we minimize the impact of _____ _____ _____ during _____ _____ _____ _____?

How _____ the _____ between _____ _____ actual _____ my cost?

_____ differences between _____ and _____ values impacts _____ _____ please?

_____ final _____ _____ is impacted by _____ and _____ readings _____ _____ what should i _____?

When _____ difference between expected and obtained _____ _____ _____ _____ _____ of total expenses, _____ should _____ _____?

_____ _____ cost calculation is _____ by _____ _____ _____ readings differently, _____ _____ I do?

_____ should one _____ if _____ _____ _____ calculation is _____ affected by the notable divergence _____ _____ _____ _____ readings?

_____ _____ _____ do _____ the _____ cost _____ _____ impacted by estimate and actual readings _____?

If the _____ _____ _____ _____ _____ by estimates _____ _____ readings being different, _____ should _____ done?
