[Demo] NLP Dataset for Customer Service Automation

Company Type	Cable and Satellite TV Providers
Inquiry Category	Technical support for TV connections
Inquiry Sub-Category	Audio problems
Description	Customers encounter issues with sound, including no audio, low volume, or audio out of sync. This category addresses troubleshooting steps to resolve audio-related problems, such as adjusting volume settings, checking audio cables, or resetting audio devices.
Data Size	5,069 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Cable and Satellite TV Provider" customer inquiry. (Purchased data will not be masked.)

____ to effectively tackle louder-than-normal noises ____ by ____ ____ ____ via ____ ____ when ____ are powered ____?

When using ____ ____ /HDMI-arc ____ to power up/down ____ devices, ____ you ____ ____ suggestions for ____ to ____ ____ loud
