[Demo] NLP Dataset for Customer Service Automation

Company Type	Online Electronics and Technology Retailers
Inquiry Category	Product recommendations and comparisons
Inquiry Sub-Category	Networking equipment and setup recommendations
Description	Customers seeking guidance on networking equipment, including routers, range extenders, and mesh systems, as well as assistance with network setup and optimizing wireless connections.
Data Size	5,009 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Online Electronics and Technology Retailer" customer inquiry. (Purchased data will not be masked.)

____ ____ multiple devices, which router supports high device ____ without ____ ____ ____ ____?

Despite ____ ____ ____ devices, I'm looking ____ a ____ that can ____ up ____ ____.

____ it ____ ____ ____ a routers that will work well ____ my ____ ____?

____ a ____ handle many ____ without killing ____ ____?

Does ____ routers handle ____ devices ____ slowing ____ ____?

Can you recommend ____ ____ ____ that ____ keep ____ with ____ gadgets on ____?

____ ROUTER ____ take care of multiple devices ____ ____ optimal ____ ____?

____ you believe that a routers would ____ ____ ____ choice to handle ____ devices ____ ____ ____ ____ speeds?

Do you think that a ____ ____ be ____ ____ ____ ____ devices at the ____ time ____ ____ down your ____?

____ ____ ____ ____ routers ____ ____ the ____ option ____ handle multiple devices without slowing down?

Which routers ____ ____ devices ____ good ____?

____ ____ believe a ____ ____ an appropriate ____ to ____ ____ many devices ____ ____ it down?

Do you think a ____ ____ ____ ____ ____ many ____ ____ slowing down speeds?

Is ____ Router ____ appropriate choice to ____ ____ devices ____ ____ ____ the speeds?

Could you ____ ____ router that ____ ____ ____ gadgets ____ the ____ time and still ____ consistent internet ____?

Which routers could ____ high ____ capacity ____ still ____ ____ ____?

Which routers ____ ____ ____ device ____ while still maintaining ____ connection ____?

____ routers ____ ____ device capacity, while maintaining ____ connection ____?

____ you think ____ ____ is ____ for ____ multiple devices ____ ____ ____ the speed?

____ ____ ____ have several connected ____ I'm looking for a routers ____ can ____ ____ ____.

____ routers ____ provide high ____ ____ ____ still maintaining fast ____?

Which routers do you ____ ____ support ____ ____ capacity ____ ____ fast connection ____?

____ you ____ a ____ would ____ ____ good choice to handle ____ ____ ____ ____ down the rate?

Does ____ ____ ____ ____ than one device ____ slower speeds?

Even though ____ ____ ____ connected ____ I'm looking ____ a routers that ____ ____ ____ speeds.

____ ____ ____ a ____ would ____ ____ ____ handling multiple devices and not slowing down ____ ____?

Do you ____ a ____ ____ ____ ____ choice to ____ so ____ devices ____ no slowing ____?

Do ____ think a ____ ____ ____ multiple devices at ____ ____ time ____ ____ it down?

_____ you suggest a _____ _____ _____ support _____ gadgets _____ yet still deliver consistent _____ _____?

_____ _____ think _____ routers would be _____ _____ choice to handle _____ _____ without _____ _____ the speeds?

_____ _____ _____ a routers is _____ appropriate choice _____ _____ a _____ _____ devices without slowing the _____?

_____ a _____ capable of handling a _____ _____ _____ _____ slowing down?

Do _____ _____ a _____ _____ be an appropriate choice to _____ many _____ _____ slowing _____ _____?

Is _____ _____ _____ _____ _____ multiple devices that _____ reduce speeds?

Do you think _____ Router could _____ used to _____ _____ _____ _____ once _____ slowing down _____ _____?

Which _____ can _____ _____ of _____?

_____ the router _____ _____ of _____ without slowing _____?

Do _____ _____ a _____ _____ _____ an _____ choice to handle many devices without _____ _____ _____?

Do _____ think a _____ is _____ _____ choice _____ handle many _____ _____ slowing them _____?

_____ _____ _____ a _____ of devices _____ still maintaining high _____?

Do _____ _____ _____ router _____ _____ _____ for _____ multiple devices _____ _____ slowing down their speeds?

Which routers _____ many devices, _____ _____ _____ _____?

Any _____ _____ for multiple devices _____ have _____ speed _____?

I would _____ to find _____ routers that can _____ _____ _____ _____ having a lot _____ _____ _____

_____ _____ believe _____ routers _____ _____ _____ _____ choice _____ handle many devices without slowing _____ down?

Can _____ recommend _____ _____ router _____ can _____ fast internet even with many _____ _____ _____?

_____ you think _____ router _____ _____ appropriate _____ to _____ so many devices _____ _____ _____ down?

Is my router _____ _____ supporting _____ devices _____ _____ _____ time?

I have a _____ of _____ _____ _____ _____ _____ my speed?

_____ interested in _____ routers that can _____ multiple _____ without _____ _____.

_____ you think _____ a router _____ be an _____ choice to handle _____ _____ without _____ _____ the _____?

_____ it _____ _____ a _____ _____ handle many _____ without slowing _____ down?

_____ want _____ _____ _____ router that can _____ satisfactory _____ despite having _____ devices.

Do you _____ _____ _____ would work well _____ _____ multiple devices _____ _____ down _____ speeds?

_____ you think _____ _____ _____ an appropriate _____ _____ _____ _____ devices without _____ down the speeds?

Do you _____ a _____ _____ an _____ _____ to _____ multiple _____ without _____ down speeds?

_____ need _____ routers that can _____ several devices _____ _____ same time, but _____ _____ _____ _____ speed.

_____ _____ think a _____ _____ _____ an appropriate choice for _____ _____ without _____ down speeds?

Is _____ routers an appropriate _____ _____ _____ _____ without _____ down speeds?

_____ want _____ _____ _____ router _____ can maintain satisfactory _____ _____ _____ several connected devices.

_____ routers are _____ _____ support high device capacities while _____ _____ _____?

Do you feel a _____ _____ _____ _____ option _____ handle _____ _____ without slowing _____ speeds?

_____ _____ _____ support multiple _____ with minimized _____ loss?

_____ ROUTER _____ best for my _____ of _____ _____ capacity _____ fast _____?

Which routers _____ _____ of _____ _____ _____ high speeds?

_____ you think _____ routers _____ _____ appropriate choice to _____ many devices, _____ _____ _____?

_____ _____ _____ a routers is _____ _____ handle many devices _____ slowing _____?

Despite _____ a lot _____ connected devices, _____ looking for _____ _____ _____ can _____ satisfactory _____.

_____ _____ can _____ up _____ the speed _____ accommodating many _____?

Is _____ _____ _____ that _____ multiple devices _____ keeps the _____ _____ low?

_____ _____ like _____ find _____ _____ that can maintain _____ speeds _____ having many connected _____

I _____ my router to support _____ _____ _____ _____ slowing _____ speeds.

Which _____ _____ _____ _____ device capacity and _____ fast connections?

_____ _____ can _____ multiple _____ without major _____?

Which _____ can provide high _____ _____ and _____ maintain _____ _____?

_____ _____ _____ router _____ can sustain high device capacity _____ _____ fast _____?

_____ routers will provide high _____ _____ _____ _____ fast connections?

_____ _____ _____ of connected _____ I'm looking _____ a _____ _____ can keep _____ with the _____.

Is _____ Router able _____ _____ _____ _____ with _____ speed loss?

_____ you have any _____ _____ multiple _____ that _____ affect _____ internet _____?

_____ routers will be _____ of _____ _____ _____ _____ and _____ maintaining fast connections?

Do _____ feel that _____ router _____ good _____ _____ _____ _____ and not _____ down _____ speeds?

Which _____ supports high _____ _____ without _____ down _____?

Despite having a lot of connected _____ _____ looking for _____ _____ _____ can _____ _____ _____.

Do you think _____ _____ would _____ _____ _____ choice _____ handle _____ devices without _____ it _____?

_____ _____ think a _____ _____ an appropriate choice to _____ many _____ _____ _____ down?

Do _____ think _____ _____ routers would be _____ good choice for handling _____ _____ and _____ _____ _____?

Do _____ think a Router _____ a good choice _____ handle many _____ _____ _____ _____ _____?

I _____ _____ to _____ a _____ that can maintain _____ _____ even _____ I _____ _____ connected devices.

_____ you think _____ routers is a _____ _____ for _____ multiple devices _____ not _____ down _____ _____?

Even though _____ _____ several connected _____ _____ looking _____ _____ routers that _____ maintain good _____.

Which routers _____ high _____ _____ while maintaining _____ _____ speeds?

Which routers _____ support high _____ _____ while _____ _____ _____ speeds?

Does theRouter _____ _____ lot of _____ _____ slowing _____?

_____ need _____ _____ _____ can _____ multiple _____ but won't compromise on _____ speed.

_____ _____ know of any _____ _____ _____ keep _____ with _____ connected devices?

_____ _____ recommend a high-capacity router _____ _____ keep up with _____ _____ _____ _____ are onboard?

Which routers _____ provide _____ device capacity _____ _____ deliver _____ _____?

Can you recommend _____ high- _____ router _____ _____ _____ _____ with _____ gadgets _____ board?

Is my routers able to _____ _____ _____ _____ slow _____?

Is _____ routers an _____ choice to handle _____ _____ _____ _____ without slowing _____?

_____ though _____ are many _____ onboard, can you _____ a _____ _____?

Do you _____ a routers _____ _____ _____ _____ multiple _____ and not _____ down the _____?

Do you reckon _____ router _____ use _____ high _____ _____ _____ slowing _____?

_____ a _____ able to handle lots _____ _____ _____ slowing _____?

Do you think _____ router _____ _____ good for _____ devices _____ _____ _____?

Is _____ routers capable _____ supporting _____ _____ without slowing _____ _____?

_____ want _____ _____ a _____ that _____ maintain _____ speeds despite having several _____ _____

Do you think _____ _____ is _____ to _____ multiple devices _____ _____ _____ the _____?

Even though _____ are _____ _____ devices, _____ looking _____ a _____ _____ can _____ satisfactory speeds.

Can _____ router _____ _____ lot of devices _____ slowing _____ my _____?

_____ _____ think that _____ _____ _____ good _____ handling multiple _____ without slowing down?

_____ there _____ routers that _____ _____ multiple devices _____ compromising _____?

_____ routers _____ _____ maintain good connection speeds while _____ _____ device _____?

_____ you think a _____ is _____ appropriate choice _____ handle _____ _____ without slowing _____ _____ _____?

Which routers _____ _____ to accommodate _____ _____ of _____?

_____ you _____ a Router _____ an appropriate _____ for handling _____ _____ without _____ _____?

_____ you _____ a _____ _____ a _____ _____ for multiple devices _____ slowing _____ speeds?

Do you think _____ Router _____ _____ _____ option to _____ _____ _____ without slowing down _____?

Is _____ Router able to handle _____ devices _____ _____ _____ _____?

_____ you _____ a _____ would work for _____ _____ devices _____ not slowing _____ _____ speeds?

Is it possible _____ find a _____ _____ is _____ _____ to _____ with my _____ _____?

Despite having _____ connected _____ I'm looking _____ _____ _____ that _____ keep _____ with the _____.

I'm looking _____ _____ _____ that _____ _____ multiple devices _____ once.

Which _____ can provide _____ _____ _____ _____ _____ still _____ a fast connection?

_____ routers are _____ to _____ a _____ _____ devices?

Do you think _____ _____ would be _____ _____ _____ for _____ _____ _____ not slowing down?

_____ routers _____ handle _____ devices while _____ _____?

Which routers are _____ to _____ _____ _____ capacity _____ _____ connection speeds?

Which _____ will give _____ device capacity _____ maintaining _____ _____?

Do you think _____ _____ is _____ appropriate _____ _____ _____ multiple _____ without slowing _____ down?

Which _____ provides enough capacity _____ connect _____ _____ at _____ _____?

Do you think _____ ROUTER _____ _____ good _____ _____ multiple _____ and _____ _____ down?

_____ _____ a _____ _____ _____ support multiple _____ at the _____ time _____ won't compromise _____ internet speed.

_____ _____ think that a routers would _____ _____ _____ handle many devices _____ slowing _____ _____?

I'm _____ for _____ high-capacity _____ _____ _____ handle multiple gadgets.

_____ _____ _____ _____ _____ high device capacity while maintaining _____ connection speeds?

_____ you think _____ router is _____ _____ choice to _____ so _____ devices _____ slowing _____ the _____?

_____ _____ router good _____ _____ multiple _____ without slowing down their _____?

Any routers that can _____ _____ _____ and _____ _____ speeds?

Is a _____ appropriate _____ _____ handle _____ devices _____ slowing _____ down?

Is there _____ _____ _____ use _____ router to _____ _____ _____ _____ the same time without slowing it _____?

_____ _____ supports high _____ _____ without _____ down speeds?

Looking for _____ _____ _____ _____ _____ multiple gadgets.

_____ _____ _____ _____ high device capacity while maintaining fast _____ _____?

_____ any routers _____ lots _____ devices _____ _____ down?

_____ routers _____ _____ devices and _____ _____ speeds too?

Is a _____ _____ for _____ multiple devices without _____ _____?

_____ for _____ high-capacity routers _____ can _____ multiple gadgets _____ _____ _____ connections.

_____ routers _____ high device capacity without _____ down _____ _____?

Does the _____ handle _____ _____ devices without _____ _____?

_____ _____ _____ _____ device capacity while _____ maintaining good _____ speeds?

Do _____ believe _____ _____ is _____ for handling multiple _____ _____ _____ _____ their speeds?

Do you _____ a routers would _____ appropriate _____ _____ a _____ _____ devices without slowing _____ _____ _____?

_____ you feel _____ _____ _____ is _____ appropriate _____ to _____ _____ devices without slowing down _____ speed?

_____ you think _____ router is good for _____ _____ _____ _____ slowing _____?

Is _____ a _____ that supports _____ devices _____ cutting _____?

_____ you _____ that a _____ is an _____ choice _____ handle _____ devices _____ _____ the _____?

_____ there a routers that _____ _____ _____ _____ without _____ it down?

_____ you think a routers _____ be a good _____ to _____ _____ devices _____ _____ _____ _____ speeds?

_____ need a routers that can handle _____ devices _____ the same _____ _____ _____ compromise _____ _____ _____.

Which _____ _____ _____ _____ lot of devices?

I'd _____ _____ know if _____ _____ _____ routers _____ _____ devices that won't _____ my internet.

_____ you _____ _____ router _____ be a good choice _____ handle a _____ _____ devices without _____ _____ down?

Can my _____ _____ multiple _____ without _____ them _____?

_____ you _____ aRouter is a _____ choice _____ handle _____ _____ without _____ down?

Do _____ know _____ _____ routers that _____ _____ performance even if _____ _____ _____ connected devices?

_____ you _____ a _____ is _____ appropriate choice to handle many _____ _____ _____ _____ down?

Is there a _____ _____ _____ _____ _____ capacity without slowing down _____?

_____ my router _____ the _____ to support _____ _____ without slower _____?

Looking _____ _____ _____ _____ can support multiple _____ without _____ down.

Do _____ _____ _____ router _____ _____ used _____ handle multiple _____ at once _____ slowing down your _____?

Is it _____ _____ use a router to handle multiple _____ _____ _____ same _____ _____ slowing _____ _____?

_____ _____ _____ able _____ handle a _____ _____ devices without _____ my speed?

I _____ _____ _____ that _____ support multiple devices at _____ same time, _____ won't _____ _____ internet _____.

Do you think that _____ _____ _____ _____ _____ devices at the same _____ without _____ _____ _____ speeds?

Do _____ _____ that a _____ _____ _____ for handling multiple devices without _____ _____ _____?

I ____ a ____ that can ____ ____ devices simultaneously, ____ ____ ____ ____ internet speed.

Which routers allow ____ ____ while ____ maintaining ____ ____?

Do you ____ a router ____ ____ used to ____ multiple ____ at ____ ____ ____ ____ slowing down?

____ you ____ a ____ would ____ an appropriate ____ to handle multiple ____ without ____ ____?

Which ____ ____ ____ high ____ capacity ____ still maintaining good connection ____?

Do you know of ____ routers that ____ ____ ____ even ____ ____ connected ____?

____ ____ routers ____ multiple ____ ____ reduced speed loss?

Is ____ ____ able ____ ____ lots ____ devices ____ slowing down?

Is a ____ ____ ____ handle lots ____ ____ without ____ my speed?

Does ____ routers handle lots of ____ with ____ ____ ____?

____ it ____ ____ ____ a fast routers ____ works ____ ____ my many devices?

____ ____ ____ of ____ devices, I'm looking ____ a suitable ____ that can ____ satisfactory ____.

Does my ____ have ____ ____ ____ ____ ____ without slower speeds?

I ____ a ____ that can ____ ____ ____ ____ ____ same time, but will not ____ ____ internet speed.

____ ____ that router with high ____ ____ that ____ not ____ my ____?

____ want ____ ____ ____ routers that can maintain ____ speeds ____ having ____ ____ of ____ devices

Do ____ ____ that ____ ____ is a good ____ for ____ ____ ____ and not ____ down the speed?

Do ____ ____ ____ router ____ ____ ____ option for multiple devices without ____ ____ speeds?

Would ____ ____ be an appropriate ____ to handle ____ ____ without ____ down ____ ____?

Do ____ think a routers would ____ ____ ____ handling multiple devices ____ not ____ ____ ____ ____?

Even ____ ____ ____ several ____ devices, I would ____ to ____ ____ routers ____ can ____ satisfactory speeds.

Looking for ____ ____ ____ ____ can handle multiple ____ at ____.

____ ____ router good for ____ ____ devices without ____ down?

Do ____ ____ a routers would be ____ good option for handling ____ devices ____ ____ slowing ____ ____ ____?

____ my router ____ ____ supporting ____ devices ____ the ____ time?

Which ____ ____ able ____ accommodate ____ many ____?

____ ____ are ____ to support ____ device ____ ____ still maintaining ____ good connection ____?

What ____ a routers ____ is suited ____ ____ ____ while maintaining ____ ____?

____ you think a ____ is good ____ handling multiple ____ ____ don't slow ____ ____ ____?

____ ____ ____ ____ routers is ____ correct choice to ____ many devices without ____ it ____?

____ your routers ____ the ability ____ accommodate ____ ____ without ____ speed ____?

Does ____ router support ____ ____ ____ ____ speed loss?

____ you believe a ____ can ____ multiple ____ at ____ ____ time ____ ____ down your ____?

____ a ____ ____ ____ option ____ handling ____ ____ without slowing down the speeds?

Is a routers an appropriate ____ ____ ____ ____ ____ slowing ____ speeds?

____ ____ you think ____ ____ ____ being ____ ____ handling multiple ____ and not slowing ____ the speed?

Do ____ know ____ a routers that supports ____ ____ ____ ____ the ____ ____ minimal?

____ you ____ a routers will ____ ____ for ____ multiple devices ____ ____ ____ down?

Any router that ____ ____ ____ ____ ____ maintaining fast speeds?

____ there ____ ____ that can ____ ____ devices ____ compromising performance?

____ there a ____ that ____ ____ ____ without ____ speed reduction?

____ ____ ____ ____ the ability to ____ multiple ____ on the same ____ without slowing ____ ____ significantly?

Which ____ can support ____ device capacity ____ still ____ ____ ____?

If you ____ ____ routers ____ ____ devices that won't ____ ____ internet, ____ let ____ know.

Which ____ can ____ high ____ capacities ____ maintain ____ ____ speeds?

I need a Router ____ can ____ ____ ____ ____ but won't compromise ____ ____ ____.

Do you ____ that ____ routers would ____ ____ for ____ devices ____ ____ down?

Are there any ____ that ____ ____ multiple devices ____ ____ fast ____?

____ ____ there ____ ____ ____ ____ I'm trying to find a ____ ____ will maintain ____ speeds.

We are ____ ____ a router ____ can ____ ____ devices.

_____ you _____ _____ _____ can _____ _____ to _____ _____ devices at the same time without _____ it down?

Is _____ _____ _____ supports multiple devices _____ _____ reducing speeds?

Is a _____ _____ for handling _____ devices _____ no _____ _____?

_____ _____ think _____ Router is _____ to handle many devices without _____ _____ _____?

Do _____ think a Router would _____ a _____ _____ _____ handling _____ _____ _____ not slowing down _____ speeds?

_____ _____ think that a router would be _____ _____ _____ _____ handle many devices _____ _____ down the _____?

What's that _____ with high _____ _____ _____ won't _____ _____ speed?

_____ routers _____ _____ _____ _____ support high _____ capacity while _____ connection speeds?

Which routers _____ _____ _____ device _____ and still have _____ _____?

_____ routers _____ _____ lot of devices _____ still _____ _____ speeds?
