[Demo] NLP Dataset for Customer Service Automation

Company Type	E-commerce Marketplaces
Inquiry Category	Privacy and data protection concerns
Inquiry Sub-Category	Account Security
Description	Inquiries regarding measures taken to ensure the safety of customer accounts, including password requirements, two-factor authentication, and intrusion detection systems.
Data Size	5,056 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "E-commerce Marketplace" customer inquiry. (Purchased data will not be masked.)

How ____ are stored user ____ ____ your ____ ____ ____ compromised ____ external parties?

Do ____ ____ user ____ ____ of ____ wrong hands?

____ ____ system prevent users' ____ ____ from being ____ by ____ unnecessarily?

How ____ you protect stored ____ ____ ____ ____ threats?

I ____ to know what ____ ____ ____ to ____ outside individuals ____ user ____.

____ your ____ protected ____ compromising ____ log-in ____?

Are ____ ____ ____ ____ outside risks?

Is ____ ____ for external parties ____ ____ the user ____?

____ ____ credentials ____ ____ outside threats

____ do ____ ____ ____ credentials from ____ threats?

____ external ____ able to ____ ____ ____ user credentials?

Do ____ ____ ____ ____ the ____ are protected from outside ____?

____ parties could ____ ____ ____ safety.

Does your system ____ ____ that ____ don't get ____ ____?

____ can ____ keep ____ credentials out ____ criminal ____?

What's ____ security of ____ ____ ____ are ____ a system?

____ you make ____ user ____ are ____ ____ risks?

____ do we ____ ____ guard ____ user credentials ____ compromised by ____?

I want ____ ____ ____ measures were ____ ____ ____ outside individuals ____ stored ____ credentials.

____ you ____ ____ credentials ____ data breaches?

____ ____ login ____ ____ safe from outsiders?

____ precautions ____ taken to ____ ____ ____ from compromising user ____?

____ my credentials ____ ____ outsiders?

____ ____ ____ keep them ____ ____ external threats?

____ ____ is ____ stored ____ credentials?

____ ____ tell ____ ____ to ____ user credentials from outsiders?

____ ____ system guarantee ____ ____ ____ stored user credentials?

____ it ____ for you to ____ the security ____ user credentials ____ ____ ____?

What's _____ security _____ the user credentials _____ _____ _____?

Are my _____ _____ _____ from _____?

Can you _____ the security _____ user _____ in _____ _____?

Is _____ _____ protecting _____ credentials from _____?

_____ secure _____ _____ user credentials stored _____ your _____?

If external parties _____ _____ your systems _____ _____ can _____ _____.

How do you _____ _____ _____ accounts _____?

_____ _____ your _____ protect _____ credentials from _____?

_____ credentials are stored in _____ _____ how _____ are _____?

Can _____ _____ us _____ the security _____ _____ user credentials?

How _____ _____ outsiders _____ _____ user credentials?

Is _____ _____ _____ of an outside _____ on stored _____?

Is _____ possible for others to _____ _____ access _____ _____ _____ info?

_____ my _____ _____ _____ secured from outsiders?

_____ can _____ outside _____ be _____ _____ compromising user credentials?

Are _____ credentials susceptible _____ _____ _____?

Is _____ _____ _____ at risk _____ to external _____?

_____ need _____ _____ how _____ avoid outside _____ _____ user credentials.

_____ the login details _____ _____ _____?

_____ _____ _____ compromise the _____ of credentials?

Storage _____ user _____ should _____ protected from _____ _____.

_____ _____ keep your _____ info _____?

Do _____ _____ _____ _____ _____ of log-in information?

_____ _____ _____ keep _____ credentials out of _____ _____ of criminals?

_____ you tell me what _____ measures are _____ _____ _____ _____ _____ user credentials?

_____ _____ _____ keep _____ credentials from being _____ by thieves?

_____ _____ parties compromise the _____ _____ users _____?

What _____ _____ security of the user _____ that _____ _____ within _____?

_____ _____ _____ know the measures _____ to _____ outsiders from _____ user _____.

What _____ _____ _____ to _____ outside people from _____ _____ credentials?

_____ _____ ensure _____ _____ _____ credentials are protected?

What steps _____ you taking _____ _____ _____ _____ _____ of user accounts?

_____ _____ proper _____ _____ put _____ place _____ prevent hacking attempts _____ account details?

_____ safe _____ the user _____ in _____ _____?

_____ are the measures _____ to protect _____ credentials _____ _____?

Are user credentials _____ _____ _____ _____?

_____ _____ _____ _____ my user credentials _____ _____ protected from outsiders.

What _____ are _____ _____ guard _____ user credentials _____ _____ by outsiders?

Is _____ _____ entity _____ of compromising stored _____ login _____?

_____ you _____ _____ measures _____ place _____ safeguard your _____ credentials?

_____ need _____ know _____ the measures _____ _____ avoid outside individuals _____ stored _____ _____.

_____ the stored _____ credentials _____ protected _____ outside _____?

_____ _____ to know if the _____ _____ _____ are protected with _____ _____ _____ system.

How _____ you _____ _____ credentials _____ from external _____?

Is user _____ _____ to _____ _____?

Are _____ safeguards _____ place _____ stop hacking attempts _____ _____ _____?

What _____ _____ security _____ _____ credentials _____ are _____ in systems.

_____ _____ _____ credentials _____ kept out _____ _____ hands of criminals?

_____ _____ are your systems _____ _____ user _____?

Is _____ safe to store _____ _____ from _____ _____?

There is _____ question as _____ _____ _____ _____ _____ compromise the security _____ user _____.

Do _____ _____ keep log-in _____ _____?

_____ _____ credentials secured _____ _____ threats?

Is _____ _____ _____ _____ outside breaking _____ stored credentials?

_____ safe _____ you _____ _____ credentials?

How _____ _____ _____ _____ are _____ your system?

_____ _____ _____ _____ _____ user credentials from being taken?

Do _____ systems guard _____ _____ _____ information?

How do _____ safeguard _____ _____ _____?

Are _____ credentials _____ from _____ _____?

_____ _____ _____ danger _____ unauthorized _____ to the stored login _____?

_____ can _____ _____ to make sure that user _____ are not _____ _____ lost compared _____ _____ _____?

_____ it _____ _____ external parties compromise user _____ _____.

_____ _____ _____ risk of _____ getting their hands _____ _____ credentials?

Do _____ _____ user _____ safe?

_____ _____ credentials _____ be _____ _____ outside risks.

Are the _____ user _____ _____?

_____ do you guard _____ _____ _____ of user credentials _____ _____?

How do _____ _____ _____ user credentials against _____ _____?

Is _____ _____ _____ secured within _____ system?

The _____ _____ _____ compromise _____ credentials.

Is the _____ _____ vulnerable to _____ _____?

Do you think user credentials _____ _____ _____ _____ _____?

_____ your systems _____ _____ log-in _____?

_____ _____ you guard user _____ from _____?

_____ it _____ for outsiders _____ compromise _____ _____?

How _____ _____ _____ _____ credentials safe?

_____ you keep _____ _____ secured?

_____ _____ _____ your systems _____ hold _____ credentials?

_____ you make _____ _____ _____ _____ are protected against risks?

Have _____ _____ _____ _____ stored-userlogin details?

Do stored _____ credentials _____ a _____ _____ _____?

How can you keep _____ _____ _____ _____ _____ _____ of people?

_____ _____ _____ be _____ _____ compromise user credentials?

_____ _____ _____ be _____ from external threats?

Is _____ _____ credentials _____ to _____ outside?

_____ the _____ _____ _____ against unauthorized access?

Can _____ _____ _____ data safety?

_____ are _____ measures _____ protect _____ credentials _____ outsiders?

_____ safe _____ user _____ stored in _____ _____?

_____ _____ you make sure my login information _____ kept _____ _____ _____ _____ _____ people?

_____ safe is the _____ _____ _____ _____ system?

What _____ _____ _____ of _____ _____ _____ credentials within your systems?

Are _____ _____ adequately secured against _____ _____?

_____ _____ able _____ _____ third-party intrusion into _____ accounts?

_____ the security of _____ _____ be compromised _____ _____ parties?

_____ _____ _____ system risks _____ _____ users' information?

How can _____ _____ _____ out of the _____ _____ criminals?

Are user _____ _____ _____ external _____?

Are you able ____ protect ____ ____ from ____ ____?

____ can you ____ ____ ____ ____ user accounts?

____ proper ____ ____ ____ place ____ stop hacking attempts on account ____?

How ____ ____ ____ ____ ____ intrusion into user accounts?

____ ____ ____ user credentials safe ____ ____ systems?

____ you ____ sure the stored user ____ are ____ ____ outside ____?

____ ____ the security ____ ____ ____ located within systems?

How ____ ____ ____ ____ ____ in your systems?

____ credentials ____ ____ ____ ____ ____ and how secure they are?

Are my ____ ____ ____ from outside ____?

How ____ ____ ____ ____ credentials within ____ systems?

____ ____ ____ user credentials ____ your system?

Storage ____ ____ ____ could be protected ____ a strong ____ ____.

____ your ____ keep important ____ information ____?

____ ____ ____ the user credentials ____ ____ your systems?

____ can ____ ____ user ____ be ____ from outside individuals?

____ ____ ____ user credentials that ____ ____ in your systems?

Are credentials kept ____ ____ ____ ____?

Do ____ ____ ____ to stop ____ attempts ____ account details?

____ you effective ____ ____ ____ credentials ____ external exploitation?

____ ____ like ____ ____ if my ____ ____ are safe from ____ attacks.

____ can be done ____ protect user ____ from ____ ____?

Does ____ system prevent ____ access ____ ____ personal ____?

How ____ you ____ ____ that user credentials ____ not ____?

____ data safety ____ be ____ ____ ____ parties

____ ____ the security ____ user credentials in ____ ____?

____ do ____ safeguard ____ ____ from ____ threats?

____ ____ ____ be ____ ____ external ____ successfully compromise your systems

What's the ____ of ____ ____ credentials ____ in ____?

____ ____ other ____ compromised ____ ____ login details?

What ____ be done ____ guard ____ ____ ____ ____ credentials by outsiders?

How ____ you safeguard ____ ____ ____?

____ ____ ____ information protected from ____ risks?

____ ____ ____ if there ____ ____ ____ ____ ____ credentials being compromised in your system?

Is there ____ ____ ____ ____ ____ to stored login data?

____ your ____ ____ protected?

____ ____ can ____ your ____ ____ potentially lose your ____ credentials.

What ____ the security ____ ____ credentials ____ within ____?

____ ____ assure ____ safety ____ stored ____ credentials?

Is ____ ____ ____ ____ from attackers?

____ is the ____ of ____ ____ credentials stored ____ ____ system.

Can ____ ____ ____ ____ ____ taken ____ avoid outside individuals compromising stored user ____?

____ you guard ____ ____ ____ outside risks?

____ ____ issued ____ protected from unauthorized ____ by ____ parties?

____ well ____ ____ ____ protect ____ user credentials?

Do you make ____ ____ ____ credentials ____ kept ____?

____ ____ keep ____ ____ information safe with ____ systems?

Are credentials ____ ____ external ____?

____ can ____ ____ credentials be kept ____?

Am ____ credentials ____ ____ outsiders?

_____ you _____ _____ safe user _____ are _____ your systems?

What _____ be _____ to _____ outsiders from compromising _____ _____ _____?

Can outsiders _____ the _____ _____ _____ credentials.

_____ _____ _____ protect _____ user credentials?

_____ _____ you _____ their _____ safe?

What can _____ done to _____ stored _____ _____ _____ outsiders?

_____ _____ possible that _____ could gain _____ access _____ stored user _____?

Is _____ a _____ of _____ _____ stored _____?

_____ _____ you keep _____ user credentials out _____ the _____ of _____?

_____ your _____ prevent unauthorized access _____ _____ _____ _____ of users?

_____ _____ _____ for _____ _____ to be stored in _____ systems?

_____ _____ _____ _____ user credentials be kept out _____ the _____ _____ outside individuals?

_____ you make _____ the _____ _____ protected _____ outsiders?

_____ the _____ _____ _____ the system safe?

Can _____ _____ the security _____ _____ in _____ systems?

_____ _____ credentials _____ _____ from outsiders?

Does your system make _____ _____ hackers _____ _____ _____ personal _____?

_____ a strong security _____ exist _____ _____ _____ credentials?

_____ user credentials _____ _____ from _____ threats.

There _____ _____ _____ of _____ _____ being compromised in _____ system.

_____ _____ credentials _____ _____ a _____ security system?

How _____ you _____ stored _____ _____ from _____?

Can you tell _____ _____ _____ _____ _____ user credentials from _____?

Do you _____ _____ _____ _____ _____ user _____ out _____ the hands of thieves?

_____ you take _____ _____ _____ _____ _____ credentials from outside risks?

_____ users' credentials _____ _____ _____ external exploitation?

_____ your _____ _____ hackers _____ gaining unauthorized _____ _____ users' information?

Does _____ system prevent _____ access _____ _____ personal _____?

_____ the security _____ _____ user credentials _____ in _____ system?

_____ you make sure _____ users' _____ _____ _____?

_____ parties _____ affect the _____ _____ credentials.

Will user _____ _____ _____ in your _____?

_____ _____ be _____ to make _____ that user credentials _____ _____ lost _____ _____ _____ to outsiders?

_____ the security _____ _____ _____ _____ in systems?

_____ secure are _____ credentials in _____ _____.

_____ credentials _____ be _____ to _____ outside.

_____ you do _____ to _____ _____ credentials from external _____?

_____ you keep user _____ _____ of _____ way _____ _____ risks?

_____ _____ you make sure the _____ _____ are _____?
