[Demo] NLP Dataset for Customer Service Automation

Company Type	Home Appliance Manufacturers
Inquiry Category	Troubleshooting and problem-solving support
Inquiry Sub-Category	Connectivity and Integration
Description	Support for integrating and troubleshooting smart home features and connectivity with other devices.
Data Size	5,145 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Home Appliance Manufacturer" customer inquiry. (Purchased data will not be masked.)

How should ____ ____ inconsistencies if ____ ____ ____ ____ operated through centralized controls ____ ____ independently?

What ____ ____ ____ taken ____ deal with issues ____ ____ functions fail ____ ____ controls?

What ____ ____ ____ if functions ____ are ____ operated ____ a ____ control do ____ ____ as they should?

Do ____ ____ ____ ____ ____ ____ for ____ functions ____ are centralized ____ being autonomously doing the work?

____ ____ ____ do ____ functions don't work on your ____ ____?

____ ____ ____ ____ with malfunctioning ____ if they occur ____ central control?

When ____ fail ____ ____ ____ controlling ____ ____ ____ operate as separate ____ something should be ____.

____ it ____ ____ to ____ ____ for ____ functions that are ____ even though they ____ ____ doing ____ work?

____ ____ anticipate remedies for functions that ____ ____ ____ autonomously only to ____ ____ ____ operation?

If ____ ____ operated ____ ____ controls, ____ should we respond if ____ do ____ ____ ____ expected?

____ functions ____ function as they ____ ____ they ____ being operated ____ a centralized controls, ____ ____ ____?

When subsystems ____ ____ the ____ ____ mechanism but ____ still ____ ____ what should ____ done

____ you know ____ ____ ____ ____ when functions bomb ____ with ____ central controls?

____ are ____ suggestions ____ deal ____ ____ inconsistencies in ____ controls that ____ affecting ____ operations?

____ some ____ malfunction ____ ____ control, ____ do we do about ____?

What should be ____ ____ ____ certain ____ ____ not work ____ ____ ____ control system.

Does ____ make sense to plan ____ for ____ ____ ____ ____ ____ ____ being independent?

____ certain ____ start ____ ____ autonomously only to ____ ____ ____ ____ should we anticipate remedies?

When multiple independent ____ fall ____ ____ ____ control, what course of ____ ____ ____ ____?

Are there ways ____ resolve ____ with ____ functions ____ while ____ ____ centralized ____?

____ ____ ____ are ____ operated through ____ ____ control don't work as they ____ ____ should ____ do?

If some functions don't ____ on ____ ____ ____ what ____ ____ do?

____ some functions ____ to work ____ ____ to ____ ____ centralized operation, should we ____ ____?

If functions are operated through a centralized ____ ____ ____ ____ as they ____ ____ ____ ____?

Does ____ ____ sense to plan remedies for ____ that have ____ ____ ____ ____ working ____ ____ own?

What ____ be done when ____ ____ functions ____ short ____ centralized ____?

Should ____ ____ ____ when ____ independent functionings fall ____ under ____ control?

How should we ____ ____ ____ are not ____ ____ ____ should if ____ are being ____ ____ centralized controls?

____ ____ we do ____ ____ are ____ ____ ____ controls ____ they don't function as they ____?

Is there ____ ____ ____ discrepancies when using ____ controls ____ to ____ ____.

____ it ____ sense ____ plan ____ ____ functions that ____ been ____ ____ were ____ worked on?

What if some of ____ ____ don't ____ when ____ the ____ ____?

____ functions that _____ _____ operated through a _____ controls _____ function _____ _____ _____ what _____ we do?

We _____ _____ tackle discrepancies when certain _____ _____ _____ _____ _____ central controls.

_____ should _____ done when _____ fail _____ _____ _____ mechanism, but still _____ separate.

What should be _____ _____ _____ fail _____ _____ central controlling mechanism, _____ still _____ like _____ _____

When _____ _____ _____ fall short _____ central _____ what _____ be done?

What _____ _____ _____ you _____ do to address the inconsistencies _____ _____ _____ _____ regarding _____ outside the scope _____ _____ central?

_____ _____ a _____ to the discrepancies _____ centralized _____ _____ cause _____ _____ to fail?

_____ functions fail under centralized _____ when _____ are functioning _____ _____ _____ _____ question of _____ steps _____ be _____.

How _____ resolve _____ _____ certain _____ _____ while operating through _____ controls?

_____ functions are _____ _____ _____ a _____ _____ and _____ _____ function as they should, how _____ we respond?

If functions that _____ operated through _____ _____ _____ _____ _____ they _____ what _____ we do?

When _____ _____ yet _____ independently, how _____ we _____ _____ features?

_____ _____ we _____ if functions _____ _____ as _____ should, _____ _____ are being operated _____ the centralized controls.

_____ _____ be _____ if _____ _____ _____ _____ under a central control system?

_____ _____ don't function as they _____ if _____ operate throughCentralizedControls, _____ should _____ _____?

If functions _____ being operated through _____ _____ _____ and they don't function _____ _____ should, _____ _____ _____?

_____ should _____ done _____ multiple independent _____ fall _____ _____ centralized control?

Is _____ possible to _____ discrepancies _____ _____ functions bomb _____ _____ the _____ controls?

_____ do we _____ with _____ that _____ through central control _____ _____ _____ issues?

_____ _____ _____ certain functions don't _____ _____ a central control _____.

What _____ _____ _____ taken to _____ issues _____ functions fail _____ centralized _____?

What _____ the solution _____ _____ _____ aren't working _____ _____ _____ control system.

What should _____ done _____ _____ _____ fail under centralized controls _____ _____ _____?

Is there a _____ for solo _____ _____ _____ _____ discrepancies in _____ _____?

_____ should we respond to _____ that are _____ _____ as _____ should if they _____ _____ through _____ _____?

Is _____ possible _____ plan remedies for certain _____ that _____ been _____ _____ _____ autonomously _____ _____?

What _____ _____ _____ taken to address _____ when certain _____ _____ _____ functioning autonomously?

Does _____ _____ sense to _____ remedies for _____ that work _____ _____ fail _____ centralized _____?

If _____ don't function _____ they _____ if _____ _____ being _____ _____ a _____ control, should _____ respond?

_____ _____ you do to address _____ _____ from _____ controls about operations outside _____ _____ _____ _____ central?

_____ functions fail under centralized _____ when _____ are _____ autonomously _____ raises _____ question _____ _____ _____ can _____ taken.

_____ _____ make sense to plan remedies for _____ that are centralized _____ _____ _____ that they _____ autonomously _____ _____ _____?

_____ should _____ do _____ inconsistencies _____ central _____ _____ are _____ individual operations?

What _____ be done _____ _____ fail _____ _____ central controlling mechanism, _____ still have _____ _____.

_____ are _____ _____ for dealing _____ inconsistencies from _____ _____ that affect _____ at _____ individual _____?

_____ some subsystems _____ under _____ _____ controlling _____ but still _____ _____ _____ _____ what should be done?

If certain functions _____ under a central _____ _____ _____ continue _____ as separate _____ _____ _____ _____ done?

Does _____ make sense _____ _____ _____ for _____ _____ are _____ _____ despite being autonomously doing the _____?

_____ _____ _____ _____ in central control, how do we _____ with _____?

We should address inconsistencies if _____ _____ _____ _____ _____ controls.

If functions _____ function as they should _____ they _____ _____ _____ _____ a _____ _____ what should _____ do?

_____ _____ don't function _____ they should if _____ are being _____ _____ a _____ _____ how should _____ respond?

What should be done to resolve _____ when _____ _____ _____ _____ _____ _____?

_____ it make sense to plan _____ _____ functions _____ _____ _____ _____ while being autonomously _____ _____?

_____ _____ we address _____ discrepancies _____ _____ functions fail due _____ centralized _____?

_____ _____ make sense to _____ remedies _____ functions _____ work _____ _____ _____ _____ in centralized operation?

What are _____ _____ for _____ with _____ _____ the _____ controls that _____ the _____ operations?

_____ do we deal with _____ _____ _____ malfunction _____ _____ control?

_____ _____ fail under _____ _____ _____ mechanism _____ are functioning _____ _____ subsystems, what _____ be done?

How do we _____ _____ _____ _____ through central control _____ though _____ _____ independently?

_____ operational inconsistencies from _____ _____ _____?

_____ subsystems failure under the central _____ _____ but _____ _____ like _____ _____ _____ _____ be done?

_____ might _____ fix _____ _____ some _____ _____ within a centralized system?

_____ it _____ _____ to _____ remedies if certain _____ _____ autonomously but fail in _____ _____?

Should _____ _____ _____ if _____ start _____ work _____ and _____ fail via _____ operation?

_____ it _____ sense to make _____ _____ _____ that _____ _____ _____ despite being _____ worked on?

How _____ we _____ _____ _____ _____ being _____ through centralized _____ and _____ work _____ they should?

_____ _____ be done _____ _____ _____ fail _____ a _____ controlling mechanism _____ still operate _____ separate entities?

What _____ _____ _____ when centralized _____ fail but _____ independently?

_____ _____ action be taken when _____ _____ _____ fall _____ under _____ controls?

_____ it _____ sense to _____ _____ _____ _____ that have _____ centralized _____ _____ working on them?

_____ _____ a way to _____ _____ _____ centralized controls so solo _____ _____ fail?

How _____ we _____ to functions that _____ functioning as _____ should if _____ are _____ _____ through _____ _____ _____

What _____ _____ do if _____ aren't functioning _____ they should _____ they _____ being _____ through the _____ _____?

Would _____ make _____ _____ plan remedies for functions _____ _____ _____ centralized _____ being autonomously doing _____ _____?

How do _____ tackle inconsistent _____ _____ _____ centralized _____ fails?

_____ _____ _____ with malfunctioning functions while _____ centralized _____?

_____ _____ independent functionings fall _____ under _____ _____ _____ _____ should be taken?

_____ functions fail _____ of centralized _____ _____ should _____ address _____?

_____ _____ anticipate remedies if _____ start _____ work _____ only to _____ in _____ _____?

If functions _____ being _____ through _____ _____ _____ what _____ _____ do if _____ don't work?

_____ _____ _____ _____ taken _____ deal with some functions that _____ _____ work under _____ controls?

_____ it _____ _____ _____ plan _____ _____ functions that _____ autonomously _____ fail in centralized operation?

Some _____ fail _____ _____ _____ if they _____ functioning autonomously, _____ _____ the question _____ whether _____ could _____ taken

What _____ can be taken to _____ _____ if _____ functions fail, _____ _____ _____?

What _____ if some _____ _____ _____ via _____ controls?

_____ should be done _____ _____ _____ under the central _____ _____ _____ remain _____ _____ separate entities?

_____ do _____ _____ with functions _____ _____ _____ central control but _____ separately?

_____ _____ _____ _____ if certain functions start _____ work _____ _____ _____ malfunction in centralized operation?

_____ _____ be done to resolve issues if _____ _____ _____ _____ _____ centralized controls?

_____ functions are operated _____ _____ _____ how _____ _____ react if _____ _____ function as they _____?

If _____ functions _____ under _____ _____ _____ a _____ controlling _____ what should _____ done?

When subsystems _____ _____ _____ central _____ mechanism but _____ _____ functioning _____ separate _____ what should _____ done?

_____ _____ _____ solution if certain functions do not _____ under _____ _____ _____ system.

Some _____ _____ _____ centralized controls when _____ are functioning autonomously which _____ _____ _____ _____ whether steps can _____ _____.

What should be _____ _____ some subsystems _____ under _____ _____ controlling mechanism, _____ still operate _____ _____ _____.

_____ _____ have protocols for us to _____ inconsistencies _____ _____ _____ _____ controls that impact _____ _____?

How _____ _____ _____ the inconsistent _____ when control _____?

_____ do we _____ inconsistencies _____ _____ fail but _____ independently?

When controlled _____ _____ failing independently, _____ can _____ fix _____ _____?

What _____ be _____ when subsystems _____ _____ _____ central controlling mechanism, _____ _____ _____ as separate _____?

How might _____ best _____ _____ _____ if _____ operations fail _____ a _____ system.

Do you know how to _____ _____ _____ _____ certain functions _____ _____ _____ central _____?

_____ functions fail because _____ centralized controls, _____ _____ we _____ _____ discrepancies?

If _____ in _____ _____ achieved results are _____ by _____ _____ _____ steps _____ be taken?

_____ _____ be _____ solution _____ discrepancies _____ centralized controls causing _____ _____ to fail?

How can we _____ _____ when _____ _____ _____ _____ with _____ central controls?

If _____ _____ _____ centralized controls, how should we _____ _____ _____ _____ function _____ they should?

How can we _____ inconsistent _____ when _____ centralized _____ _____?

_____ functions _____ function _____ _____ _____ if _____ _____ operated through centralized _____ _____ should we respond.

What can _____ done _____ resolve _____ _____ _____ functions failing _____ _____ through _____ controls?

_____ a centrally _____ function fails _____ how _____ _____ _____ it?

_____ _____ we do if functions don't function _____ _____ should if _____ _____ _____ ?

What can be _____ _____ _____ when _____ functions fail _____ centralized _____ ?

Does it _____ sense _____ _____ remedies _____ _____ _____ _____ _____ centralized even though they are autonomously _____ the same _____ ?

_____ _____ possible _____ tackle _____ _____ functions bomb _____ with the central _____ ?

Is it smart _____ plan _____ _____ functions that _____ _____ but _____ via _____ _____ ?

Do you _____ how we _____ with discrepancies when _____ _____ _____ _____ _____ _____ controls?

If controlling systems _____ _____ _____ _____ independently achieved _____ what _____ _____ be taken?

_____ _____ under _____ controls despite _____ independently, so what can _____ _____ to _____ _____ ?

Is it possible _____ plan _____ for functions _____ have _____ _____ despite _____ _____ _____ on.

_____ _____ _____ _____ for discrepancies in _____ controls that cause solo _____ _____ _____ together?

Does _____ _____ _____ _____ plan _____ for _____ that are _____ yet autonomously _____ on?

How should _____ respond _____ functions don't function _____ _____ _____ _____ are _____ operated through _____ _____

Functions fail under _____ controls when _____ are functioning _____ _____ raises _____ question _____ whether _____ _____ be _____ .

If certain _____ _____ work under _____ _____ _____ mechanism, what actions should _____ _____ ?

Does it _____ _____ _____ plan _____ for functions _____ _____ been _____ despite _____ autonomously working?

If functions are being operated through _____ _____ _____ should _____ _____ _____ they _____ _____ _____ they should?

_____ _____ _____ functionings fail under centralized _____ _____ action should _____ taken?

_____ steps _____ be taken to address _____ if _____ _____ _____ despite functioning _____ ?

Do you think _____ makes _____ to plan remedies _____ _____ that _____ _____ _____ _____ being autonomously worked _____ ?

Is there _____ way _____ _____ _____ when functions _____ even with the _____ _____ ?

_____ _____ a _____ _____ _____ _____ in centralized controls _____ solo features don't fail?

_____ _____ fail due _____ centralized _____ how should we address _____ _____ ?

How _____ we tackle _____ _____ functions bomb _____ _____ central _____ ?

Does _____ _____ _____ to plan remedies for _____ _____ _____ work _____ but _____ in _____ centralized operation?

If _____ _____ do not work _____ centralized controls, _____ _____ ?

_____ there _____ way to address _____ in _____ _____ _____ lead to solo _____ _____ ?

_____ it make sense _____ _____ remedies for _____ _____ _____ been centralized but _____ autonomously _____ ?

_____ operational _____ that _____ from faulty _____ _____ ?

If _____ systems cause _____ in _____ independently _____ _____ _____ should be _____ ?

What _____ _____ done _____ a _____ controlling _____ fails but _____ as _____ entities?

Some _____ _____ under _____ _____ _____ _____ are functioning autonomously, _____ raises _____ question of _____ steps should _____ taken.

What's the solution _____ _____ _____ don't work well _____ a _____ _____ _____ ?

What should _____ _____ when subsystems _____ _____ the _____ controlling _____ but _____ as _____ entities.

Is _____ _____ _____ _____ _____ discrepancies _____ _____ controls that result _____ solo features failing?

_____ will we resolve the discrepancies _____ _____ _____ _____ _____ _____ centralized system?

What's the _____ if certain functions _____ _____ under _____ _____ control _____ .

_____ it sensible to plan remedies _____ _____ functions that _____ _____ _____ _____ _____ working autonomously?

_____ _____ you resolve operational inconsistencies _____ from _____ centralized _____ ?

_____ _____ _____ _____ work _____ only to malfunction _____ _____ operation, should we _____ remedies?

How _____ resolve _____ with _____ failing even _____ they are _____ _____ centralized _____ ?

What is _____ solution if functions _____ _____ _____ under _____ _____ _____ system?

_____ _____ _____ done _____ inconsistencies emerging from central controls affecting _____ _____ ?

_____ it wise _____ plan remedies _____ _____ _____ work _____ but _____ _____ centralized operations?

_____ controlling _____ _____ failing independently, how can _____ fix _____ _____ ?

What _____ could _____ taken _____ _____ with the _____ _____ the _____ fail under _____ controls?

_____ it _____ sense _____ _____ remedies _____ functions that work autonomously _____ fail via _____ _____ ?

How _____ we address _____ _____ _____ function fails _____ _____ centralized controls?

How do ____ ____ ____ inconsistent functions when ____ control ____ ____?

If functions ____ functioning ____ they ____ ____ ____ ____ how ____ we respond?

Do you ____ how ____ deal with ____ when ____ ____ ____ with the ____ ____?

Do you know ____ to deal with ____ ____ ____ ____ ____ with the central ____?

When subsystems ____ ____ the ____ controlling ____ but ____ ____ functioning as ____ there should be ____ ____.

What's ____ solution ____ functions that don't ____ under ____ central ____ ____?

Is ____ possible ____ ____ functions ____ differently ____ they ____ operated ____ ____ ____ versus working separately?

____ should be done ____ ____ independent ____ fall down ____ centralized ____?

What ____ be done to ____ the ____ ____ certain functions ____ ____ ____ autonomously.

What are your ____ ____ dealing ____ inconsistencies ____ ____ controls ____ ____ affecting operations ____ ____ individual level?

____ a ____ ____ for discrepancies in ____ when using ____ controls ____ ____ functioning?

What should ____ ____ ____ subsystems fail under ____ central controlling ____ ____ ____ operational ____ ____ entities

What ____ ____ ____ ____ ____ ____ ____ incongruences if certain functions fail despite ____ autonomously?

____ ____ ____ function ____ ____ ____ if ____ are operated ____ what should we do?

____ it sensible ____ plan ____ ____ ____ ____ work ____ ____ fail in centralized operation?

What steps ____ ____ taken to ____ with ____ ____ ____ ____ ____ fail underCentralized controls.

____ ____ ____ solution if some ____ do not ____ under ____ central ____ system.

If multiple independent ____ fall ____ ____ ____ ____ ____ should happen?

If functions ____ function as ____ should ____ ____ ____ throughCentralizedControls, how should ____ ____.

What ____ happen ____ ____ independent ____ fall short under ____ ____?

Some ____ ____ ____ ____ controls, ____ raises questions about ____ steps can be ____.

____ subsystems fail ____ the ____ controlling ____ but ____ still ____ as ____ ____ ____ should be done?

____ ____ ____ ____ ____ ____ controlling mechanism, but ____ ____ functioning as separate objects, what should be ____?

Does ____ make ____ ____ plan ____ for ____ that ____ ____ ____ being autonomously doing the ____ job

How ____ ____ respond if functions ____ ____ ____ they ____ ____ they are being ____ through a centralized ____.

____ ____ ____ are being ____ through ____ centralized control don't function ____ ____ ____ ____ we respond?

____ ____ ____ ____ to plan remedies ____ the ____ that have been ____ despite being ____ ____ on?

If functions don't ____ ____ ____ ____ when being operated ____ ____ ____ should ____ respond?

What steps can be ____ ____ address ____ ____ ____ functions ____ ____ ____ functioning autonomously?

____ ____ possible ____ resolve issues with certain ____ failing ____ ____ ____ controls?

____ it make ____ ____ ____ remedies for things ____ have ____ centralized ____ ____ ____ worked on?

____ you ____ ____ we deal ____ discrepancies ____ ____ bomb with ____ controls?

If functions ____ ____ ____ they should ____ ____ operated throughCentralizedControls, what should ____ ____?

How ____ we deal with ____ ____ ____ ____ with central ____?

If ____ ____ are being ____ ____ ____ ____ don't ____ the way they ____ how ____ we respond?

In situations ____ independent operations ____ inconsistently ____ ____ system controller should ____ ____ ____.

____ ____ fail under ____ central controlling mechanism ____ ____ ____ as ____ separate entity, ____ should ____ done?

How ____ ____ ____ if ____ that are operated ____ ____ controls don't ____ ____ way ____ should?

____ ____ make sense ____ plan ____ for functions ____ have been ____ despite ____ autonomously doing ____ same ____?

Is there ____ way ____ resolve issues ____ ____ failing ____ operating ____ centralized ____?

____ ____ ____ of how ____ tackle discrepancies when ____ ____ bomb ____ ____ the central controls?

Some ____ fail ____ centralized control when ____ ____ functioning autonomously ____ raises ____ question of whether ____ ____ ____ ____.

____ should we ____ ____ ____ ____ functioning as ____ should, ____ ____ are ____ operated through centralized controls

When centralized ____ ____ ____ ____ how ____ we ____ the inconsistencies?

Is ____ ____ that some ____ perform ____ when ____ through ____ controls versus ____ ____?

____ with ____ operations should ____ addressed ____ ____ are inconsistent under ____ system ____.

____ should ____ do if functions ____ not function ____ ____ ____ if they ____ ____ operated through ____ controls?

____ you reckon we ____ ____ with discrepancies ____ ____ ____ bomb with the ____ ____?

What ____ your recommendations ____ ____ ____ ____ ____ inconsistencies in ____ ____ controls that affect standalone ____?

____ can be ____ ____ ____ ____ ____ issue of some ____ failing under ____ controls?

How _____ we _____ resolve _____ if _____ _____ don't _____ _____ a centralized system?

What _____ _____ _____ taken to address incongruences when certain _____ _____ despite _____ _____ _____?

Do you think _____ _____ _____ _____ when certain _____ _____ even with central _____?

Functions that _____ functioning _____ _____ under _____ _____ which raises the question _____ whether _____ _____ be _____.

_____ should we respond if functions are _____ through _____ _____ _____ _____ don't _____ as _____ _____?

Does it _____ _____ _____ _____ remedies for some functions _____ _____ been centralized despite _____ _____ _____?

I want _____ know how _____ _____ _____ _____ _____ _____ failing while operating through _____ controls.

What are your suggestions to _____ _____ _____ _____ the central _____ _____ are _____ individual _____?

When _____ controls fail _____ certain function, _____ _____ _____ _____ inconsistencies?

_____ to handle _____ discrepancies _____ _____ controls _____?

What _____ we _____ _____ functions _____ functioning _____ they should if they are _____ _____ _____ centralized _____?

What is the solution _____ _____ _____ work independently _____ a _____ _____ _____?

How _____ discrepancies be _____ _____ there were _____ _____ _____ management?

_____ _____ _____ are _____ operated, how _____ they be fixed?

_____ issue is _____ _____ functions _____ under _____ controls despite _____ independently.

What to _____ if the _____ _____ _____ _____ the centralized _____?

What do _____ do _____ centralized _____ _____ but function _____?

_____ should _____ _____ about _____ _____ _____ of the central controls that affect _____ _____?

_____ failures occur _____ centralized management, _____ _____ discrepancies be _____?

If _____ systems cause _____ in functioning _____ achieved _____ _____ steps should _____ _____?

What should _____ _____ _____ _____ functions _____ _____ _____ on your centralized controls?

How should _____ _____ _____ functions _____ aren't functioning as they should _____ _____ _____ being operated _____ the _____ _____?

_____ _____ resolve issues _____ _____ functions while using _____ controls?

_____ many _____ functionings fall _____ _____ centralized controls, _____ _____ _____ action should _____ taken?

_____ _____ functions stop _____ _____ of centralized _____ _____ can we do?

How do _____ deal _____ functions that _____ _____ _____ control even though _____ _____ _____?

What _____ be done _____ certain _____ _____ but _____ _____ as _____ entities?

_____ should we do if _____ don't _____ _____ they should, if _____ _____ _____ _____ _____ controls?

_____ _____ the solution be if certain functions don't work _____ _____ _____ _____ _____?

Is there _____ way to resolve _____ _____ _____ _____ _____ that _____ solo _____ to fail?

What _____ _____ be _____ _____ address _____ _____ _____ certain function fails _____ functioning autonomously?

_____ _____ be _____ to _____ _____ from _____ controls affecting standalone operations?

When _____ controls _____ a _____ _____ _____ do we _____ the inconsistencies?

_____ _____ functions malfunction through _____ _____ _____ _____ we handle them?

Is it _____ to plan remedies for functions _____ _____ _____ _____ _____ _____ _____ operation?

_____ should respond if _____ _____ functioning _____ _____ should if _____ are _____ operated through _____ _____ control.

If some functions fail _____ _____ _____ _____ what should _____ do _____ _____?

_____ functions _____ function as they _____ _____ _____ being operated through _____ _____ controls, how _____ we _____?

If functions are _____ through _____ _____ _____ should _____ _____ when _____ _____ _____ as they should?

When subsystems _____ under _____ central _____ mechanism, _____ _____ _____ _____ _____ separate, what should _____ done?

_____ _____ resolve issues of failing _____ with _____ _____?

If _____ _____ _____ despite _____ separately _____ _____ centralized controls, what to _____?

What should we _____ _____ _____ don't function _____ _____ should _____ they're _____ operated _____ _____ centralized controls?

Is it _____ _____ certain _____ perform differently when they _____ _____ _____ _____ controls versus _____ _____?

How _____ we _____ _____ _____ certain functions _____ with the _____ controls?

_____ there _____ way _____ _____ the discrepancies in _____ _____ _____ cause solo features to _____ _____?

_____ solutions be agreed upon _____ centralized _____ _____ _____ functions to _____?

Is _____ _____ _____ _____ remedies for _____ that work autonomously but _____ _____ a _____ operation?

How _____ deal _____ malfunctioning functions _____ _____ _____ centralized controls?

_____ can be done to _____ _____ _____ _____ functions _____ _____ the centralized controls?

_____ functions _____ under _____ controls when they are functioning _____ _____ the _____ _____ what actions _____ be _____.

What's going on _____ features _____ _____ to work together _____ _____ controls _____ still _____ _____ on their _____?

What are _____ _____ to _____ _____ inconsistencies in _____ controls _____ are _____ the standalone _____?

How _____ _____ _____ with discrepancies when certain _____ _____ _____ central controls?

_____ _____ are _____ _____ centralized controls, how _____ _____ _____ if they _____ work _____ they should?

Is there a _____ _____ address _____ _____ centralized controls which _____ _____ _____ to _____?

Do _____ make sense to plan remedies for _____ _____ work autonomously _____ _____ _____ _____ _____?

If _____ don't _____ _____ _____ should _____ _____ _____ being _____ through _____ centralized control, how should we respond.

_____ _____ we _____ to functions that _____ function _____ they _____ if they are being operated _____ _____ _____ _____?

_____ _____ your _____ for dealing _____ inconsistencies coming _____ of _____ central _____ that affect _____ _____?

_____ should _____ respond _____ functions that don't _____ _____ _____ they should if they _____ _____ through _____ controls?

_____ to _____ issues _____ functions _____ are _____ while _____ centralized controls?

How _____ we _____ _____ functions _____ malfunction through _____ control _____ though _____ _____ differently?

What _____ should _____ _____ _____ _____ _____ _____ _____ the control of a central controlling mechanism?

_____ _____ we respond _____ _____ that don't _____ _____ way _____ should if _____ are centralized?

_____ _____ inconsistencies in _____ _____ _____ _____ so any solutions for that?

Does _____ make _____ _____ _____ remedies _____ functions that work _____ but _____ through centralized _____?

_____ _____ _____ do _____ functions _____ _____ being operated through _____ centralized controls don't _____ as _____ should?

_____ _____ make sense _____ plan remedies _____ functions that _____ _____ centralized despite _____ _____ _____ work?

_____ functions fail _____ _____ controls when they are functioning _____ _____ it raises _____ _____ of _____ steps _____ be _____.

_____ it make sense _____ plan _____ for _____ _____ _____ _____ operation despite not _____ autonomously?

Is it possible _____ certain _____ _____ differently _____ done _____ _____ controls versus _____ _____?

What is _____ solution _____ functions that work _____ _____ _____ _____ _____ _____ control system?

_____ should _____ done when _____ fail under _____ _____ _____ _____ but remain separate?

When _____ _____ _____ as they should if _____ are _____ operated through _____ controls, _____ _____ _____ do?

_____ multiple independent _____ _____ under centralized controls, _____ _____ of action should _____ _____?

What should we _____ _____ functions _____ function _____ _____ _____ _____ they are being _____ through _____ controls.

If there are _____ _____ functioning due to _____ _____ _____ _____ _____ done?

How _____ we _____ with functions _____ _____ central _____ even _____ _____ operate separately?

_____ should we _____ with _____ _____ _____ function as _____ _____ if they are _____?

When centralized _____ _____ _____ _____ how _____ we _____ the inconsistencies?

_____ _____ we best solve _____ discrepancies if _____ operations _____ _____ a centralized _____?

_____ are your _____ _____ deal with _____ inconsistencies from the central _____ that _____ _____ at the _____ _____?

_____ should _____ _____ the discrepancies _____ some _____ _____ in the centralized _____?

Do the _____ _____ functions _____ _____ autonomously but fail _____ centralized _____ _____ sense?

How _____ resolve problems _____ _____ _____ fail _____ operating through centralized _____?

_____ should we address _____ _____ some functions _____ _____ _____ controls?

_____ _____ _____ under the central _____ _____ and _____ _____ _____ separate _____ what should be done?

How should _____ deal _____ _____ _____ functions _____ because of centralized _____?

_____ _____ functions start _____ _____ _____ _____ to malfunction _____ a _____ operation, should we anticipate _____?

When _____ _____ functionings _____ _____ _____ centralized controls, what _____ we do?

_____ there a way _____ reconcile performance when _____ _____ _____ _____ individual _____?

What should _____ do _____ _____ don't function _____ they _____ _____ _____ _____ operated through _____ controls?

How _____ _____ _____ _____ stemming _____ faulty centralized controls?

_____ _____ _____ _____ _____ control, which raises _____ question of what steps _____ _____ taken

_____ it make sense _____ _____ remedies _____ _____ that _____ centralized _____ though _____ are autonomously _____ on?

_____ _____ operations fail within a centralized _____ how _____ _____ _____ them?

When _____ controls _____ _____ _____ but _____ independently, _____ do we _____ inconsistencies?

How should we deal with the _____ _____ _____ fail _____ _____ _____ _____?

_____ we _____ remedies _____ _____ functions _____ to work autonomously _____ _____ malfunction _____ _____ centralized operation?

Does it _____ sense _____ _____ _____ _____ functions that have _____ centralized _____ them _____ _____ autonomously?

_____ to _____ with functions _____ _____ though they _____ operating _____ centralized _____?

What _____ be done _____ _____ functionalities _____ _____ a central _____ mechanism _____ _____ operate as _____ entities?

_____ should be _____ _____ there _____ _____ in _____ that are due _____ _____ systems?

Does _____ _____ _____ to have _____ for _____ that _____ been _____ despite being _____ _____ the work?

If _____ _____ function as _____ should if _____ _____ operated through _____ _____ _____ should we _____?

If functions don't function as they should _____ they _____ being _____ through _____ _____ _____ _____ should _____ _____?

If _____ don't _____ as _____ should if they _____ run through _____ controls, _____ _____ _____ _____?

_____ _____ do _____ a _____ doesn't work _____ _____ centralized controls?

How _____ we respond if _____ _____ being _____ _____ centralized _____ and _____ don't _____ as _____ should?

What steps _____ _____ _____ to address the _____ if _____ functions fail _____ _____ _____?

We _____ respond _____ _____ don't function as they should, if _____ _____ _____ operated _____ a _____ _____.

_____ _____ functions _____ in central control, how _____ _____ handle _____?

If _____ functions _____ work via _____ _____ what _____?

_____ _____ a way _____ _____ discrepancies in _____ controls _____ cause solo features _____ _____?

Some _____ fail under centralized _____ when _____ _____ _____ _____ which _____ the question _____ _____ to _____ about it.

_____ should _____ address _____ if functions _____ work because _____ _____ controls?

How will _____ deal _____ _____ when _____ functions bomb even with _____ _____ _____?

What steps _____ be _____ to _____ _____ _____ if certain _____ fail despite _____ _____?

_____ some subsystems fail under the _____ controlling _____ _____ still _____ separate _____ _____ should _____ done?

Are there _____ solution _____ discrepancies in _____ controls that cause _____ _____ _____ _____?

_____ should we _____ to _____ that do _____ function as _____ _____ _____ _____ are being operated _____ _____ controls?

How _____ _____ operational _____ arising from _____ _____ controls?

_____ _____ fail _____ _____ _____ when _____ are operating autonomously, which _____ the _____ of what steps can _____ _____.

_____ _____ don't _____ _____ they _____ if they are _____ _____ centralized _____ how _____ we respond?

_____ some _____ fail due _____ _____ controls, _____ should we _____ it?

_____ functions _____ under centralized controls _____ _____ _____ so what steps _____ be taken to _____ _____ _____ _____ after

Should _____ be _____ _____ multiple _____ functionings fall short _____ _____ controls?

What can _____ done _____ independent _____ conflict _____ _____ _____ failures?

When _____ operating _____ central _____ clash with _____ _____ _____ measures can be _____?

_____ _____ _____ _____ tackle discrepancies _____ _____ functions bomb with central controls?

What should _____ _____ _____ the event _____ some _____ malfunction _____ _____ control.

_____ should be _____ when _____ _____ _____ _____ short of centralized controls?

Can you _____ why some _____ _____ _____ work _____ same way _____ _____ _____ centralized controls?

_____ functions are _____ operated through centralized controls _____ _____ don't _____ as _____ _____ _____ should we _____?

_____ _____ features _____ _____ to work _____ centralized _____ but still perform _____ _____ their own?

When _____ centrally yet failing _____ how _____ _____ fix _____ _____?

_____ _____ resolve _____ with certain _____ that are _____ while _____ _____ centralized controls?

_____ to resolve _____ _____ functions _____ _____ operating through _____ controls?

What should be done when subsystems _____ _____ the central _____ _____ _____ remain _____ _____ _____ _____.

What to do _____ functions _____ _____ on _____ centralized _____?

Is it appropriate _____ _____ _____ _____ _____ _____ _____ _____ but fail via centralized operations?

How might we fix _____ _____ some _____ _____ _____ _____ centralized system?

_____ independent _____ _____ inconsistently _____ one _____ controller, shouldn't they be _____?

If some _____ malfunction _____ central _____ _____ _____ _____ deal with that?

_____ _____ _____ done if _____ subsystems fail under _____ central _____ _____ _____ are still functioning as _____ subsystems.

_____ _____ fail _____ the _____ mechanism _____ remain operational as a separate entity, _____ _____ _____ done?

If _____ functions _____ to work autonomously only to _____ _____ _____ operation should _____ _____ _____?

_____ functions _____ _____ central _____ even though they operate _____ how _____ we _____ _____?

_____ should _____ _____ when _____ fail under the central _____ _____ _____ still _____ like separate _____.

How are ____ ____ to ____ inconsistent ____ when ____ control ____?

When ____ functions are controlled ____ ____ failing ____ ____ can ____ correct ____?

What should be ____ ____ subsystems ____ under ____ central ____ ____ but ____ operational ____ ____ entities?

If functions ____ to work autonomously only ____ ____ via ____ ____ ____ ____ expect ____?

Do ____ make sense to ____ remedies ____ functions that ____ autonomously ____ ____ ____ ____ operation?

Do it make ____ to ____ ____ ____ ____ ____ ____ been centralized but autonomously worked ____?

How ____ we fix ____ ____ ____ centralized ____ fails?

What ____ ____ done to ____ ____ ____ ____ of some functions ____ ____ centralized controls?

How should we ____ ____ functions ____ ____ functioning as ____ should ____ ____ ____ being ____ through centralized controls?

Resolving operational ____ stemming ____ faulty ____ ____?

Is there ____ solution ____ ____ in performance between centralized ____ ____ ____ ____?

If certain functions fail ____ ____ control of a ____ controlling ____ ____ ____ ____ done?

____ we resolve the ____ ____ some operations fail in ____ ____ ____?

____ ____ ____ ____ to address ____ ____ ____ central controls regarding operations ____ of the ____ of the central?

If ____ ____ ____ operated through ____ ____ should ____ respond ____ they ____ ____ as they should?

How to ____ ____ ____ ____ ____ when ____ are ____ through centralized controls?

What ____ you think should ____ done ____ ____ in ____ central ____ ____ affect ____ ____ operations?

Should ____ ____ ____ if certain ____ start to ____ autonomously ____ ____ fail ____ centralized operation?

When subsystems ____ ____ ____ central ____ ____ and ____ still functioning ____ separate subsystems, what ____ ____ done?

____ there a ____ to ____ ____ when ____ arise under centralized ____?

Does ____ make sense to plan ____ ____ ____ that ____ centralized ____ ____ ____ performing ____ work?

What ____ happen ____ ____ ____ there were ____ under centralized ____?

Some functions ____ ____ centralized controls when they ____ ____ autonomously, which raises ____ questions ____ what ____ ____ ____ ____.

____ can ____ deal ____ ____ ____ certain functions bomb ____ with central ____?

What steps ____ ____ taken to deal ____ ____ that don't ____ ____ centralized ____?

____ ____ we ____ the discrepancies if the functions ____ ____ ____ centralized ____?

Does it make sense ____ have remedies for ____ ____ ____ ____ but fail ____ ____ ____?

____ ____ a ____ ____ discrepancies that ____ ____ using centralized controls compared ____ ____ functioning?

____ subsystems fail under ____ ____ ____ mechanism, but ____ ____ functioning ____ ____ should be done?

Should ____ anticipate remedies ____ ____ ____ work ____ only ____ malfunction ____ centralized operation?

Is ____ ____ ____ anticipate remedies when ____ work ____ ____ ____ via centralized operation?

When ____ bomb even ____ ____ ____ controls, how ____ we deal ____ ____?

When functions ____ in ____ control, how ____ we ____ ____?

____ ____ operate throughCentralizedControls, how should ____ respond ____ ____ ____ work as ____?

____ it smart ____ ____ remedies for certain ____ that have been ____ ____ ____ autonomously ____ ____ work?

Is ____ appropriate to ____ ____ for functions ____ ____ ____ ____ even though they are ____?

When ____ subsystems fail under the ____ ____ mechanism, ____ are still ____ as ____ subsystems, ____ ____ ____ done.

How should we respond ____ functions ____ ____ as ____ ____ ____ they ____ being operated ____ a centralized ____.

How ____ deal ____ issues with ____ ____ while operating through ____ ____?

____ it ____ to manage inconsistencies ____ ____ controls fail but ____ ____?

____ subsystems fail ____ ____ ____ controlling mechanism, but ____ ____ ____ ____ what should be done?

____ steps ____ ____ ____ to ____ with the issue of some functions ____ ____ centralized controls ____ ____ independently?

What are the ____ you can ____ ____ address inconsistencies ____ from central ____ about ____ outside the ____ ____ ____ ____?

____ ____ ____ ____ centralized ____ ____ ____ functioning autonomously and ____ raises the question ____ whether steps could be taken.

How would discrepancies be ____ ____ if ____ ____ ____ ____ centralized management?

What should be ____ ____ subsystems fail ____ ____ ____ controlling ____ ____ remain separate.

____ ____ make sense to ____ ____ for ____ ____ ____ ____ centralized operation despite being ____ worked on.

____ ____ ____ ____ ____ ____ discrepancies in centralized ____ that affect solo features?

____ ____ ____ ____ to plan remedies for functions that work ____ but ____ ____ ____ ____ operation?

____ some subsystems fail under the ____ controlling ____ ____ are still functioning ____ ____ separate entity, ____ ____ ____ ____?

How should ____ ____ to ____ ____ don't work the ____ ____ should ____ ____ are ____ through centralized controls?

When subsystems fail ____ ____ central ____ mechanism ____ stay operational ____ ____ ____ ____ what ____ be done?

____ do ____ think ____ discrepancies when ____ functions ____ ____ with central ____?

____ it make ____ to ____ ____ for functions that ____ ____ ____ despite ____ working autonomously?

What's ____ ____ if certain ____ ____ under the ____ ____ a central ____ system?

____ ____ ____ to resolve issues ____ certain functions ____ ____ utilizing centralized ____?

____ ____ make sense to ____ ____ ____ functions that ____ been centralized while ____ ____ ____ work?

What ____ ____ if the functions ____ ____ ____ ____ your centralized controls?

Is ____ a solution ____ discrepancies occurring ____ using ____ controls ____ ____ ____ functioning?

____ we best resolve ____ ____ some operations fail within ____ ____ ____?

Does ____ make sense ____ ____ remedies for ____ that ____ ____ ____ because they ____ autonomously worked ____?

____ it make ____ to plan ____ ____ certain ____ that have ____ ____ ____ ____ autonomously worked on.

____ ____ functions do not work ____ on your centralized controls, ____ ____ ____ ____?

____ ____ are being operated ____ a ____ control, ____ we respond ____ they ____ ____ as ____ should?

What ____ can be taken to deal with ____ ____ ____ ____ ____ ____ ____ autonomously?

____ ____ ____ ____ taken ____ deal with the ____ after functions ____ ____ centralized controls?

When multiple independent ____ ____ under ____ ____ ____ should happen?

____ ____ are being operated ____ centralized controls, ____ should we ____ if ____ ____ ____ as ____?

____ it ____ ____ ____ plan ____ ____ functions that ____ been centralized despite ____ autonomously ____ on

Does it make ____ to ____ remedies for ____ ____ ____ ____ centralized, ____ being ____ worked ____?

How ____ resolve ____ ____ ____ failing while operating ____ centralized ____?

____ ____ fail ____ ____ ____ ____ they ____ ____ autonomously, raising the question ____ what to do.

____ should ____ ____ to functions that aren't functioning as ____ should, ____ they ____ ____ operated through ____ ____?

____ should ____ do when ____ ____ function ____ they should if ____ ____ ____ ____ through a centralized control?

____ actions should ____ taken ____ a ____ ____ ____ fails ____ functions as separate ____?

When we ____ ____ centrally yet ____ ____ how ____ we ____ them?

Should ____ anticipate remedies ____ ____ ____ start to work autonomously ____ ____ ____ ____ centralized operation?

Do you ____ ____ way ____ resolve ____ with ____ functions failing ____ operating through ____ ____?

How do ____ deal ____ ____ ____ malfunction through central control ____ ____ ____ operate without ____?

What can be ____ to address ____ ____ if certain ____ ____ ____ ____ ____ operated?

Should ____ expect ____ ____ certain functions ____ to malfunction ____ ____ operation?

____ ____ a way ____ ____ ____ in ____ controls that cause solo ____ to fail ____?

How ____ ____ issues with ____ that ____ work while ____ centralized ____?

____ ____ we deal ____ ____ functions ____ the ____ control fails?

Does ____ ____ ____ to plan remedies ____ ____ ____ have been centralized even though ____ ____ autonomously worked ____.

What ____ you ____ ____ be done ____ inconsistencies ____ ____ ____ the central ____ that ____ standalone operations?

What are your ____ to deal ____ inconsistencies ____ ____ central ____ ____ ____ affecting ____ operations?

How should ____ ____ the ____ ____ ____ fail because ____ centralized controls?

____ ____ your ____ ____ dealing with ____ coming ____ central ____ ____ are affecting individual operations?

____ ____ deal ____ issues with ____ ____ ____ operating through centralized controls?

____ controlled centrally ____ failing ____ how can ____ ____ the ____?

What ____ we ____ if ____ ____ ____ ____ they should if ____ operate throughCentralizedControls?

If ____ are ____ through ____ controls ____ ____ function as ____ ____ how ____ we respond?

____ we best resolve ____ ____ ____ ____ ____ fail within a centralized ____?

____ ____ fail under ____ ____ ____ functioning independently, so ____ ____ could be ____ to fix the ____?

How do ____ deal ____ ____ ____ controls fail ____ functions function ____?

____ should ____ ____ ____ functions that ____ ____ ____ they should if ____ are run ____ centralized controls?

What ____ ____ done ____ multiple independent functionings ____ ____ ____ centralized controls?

What are the things you ____ ____ to ____ inconsistencies ____ ____ ____ ____ ____ operations ____ the scope of ____ central?

_____ functions fail _____ centralized controls _____ functioning independently, what steps _____ _____ _____ to _____ _____ _____ issues?

What _____ could _____ taken to _____ _____ _____ issues if some functions _____ _____ centralized _____?

How should _____ _____ if _____ _____ work _____ _____ they _____ if they are operated _____ centralized _____?

_____ should _____ _____ the _____ _____ functions fail because of centralized _____

How do we _____ _____ _____ _____ _____ central control, even though they _____ _____?

_____ there _____ _____ _____ prevent discrepancies when _____ _____ controls compared to _____ functioning?

If _____ functions don't _____ _____ centralized controls, what _____ _____?

Does _____ make sense _____ plan remedies _____ certain _____ that _____ _____ centralized _____ _____ _____ worked on?

Does it _____ _____ to plan _____ for _____ _____ have been _____ _____ being _____ doing _____ same job?

Does _____ make sense _____ plan _____ _____ _____ that _____ autonomously _____ fail in _____ _____ environment?

_____ should we respond to _____ that _____ function _____ they _____ _____ they are _____ _____ _____ a centralized _____

What's the _____ _____ functions that _____ independently _____ _____ central control _____?

What should we do if functions _____ _____ operated through _____ _____ but _____ _____ _____ _____ _____?

When multiple independent functionings fall short _____ _____ _____ _____ _____ we _____?

_____ features refuse _____ _____ together _____ centralized _____ but _____ _____ _____ on their own, what about _____?

Is _____ possible to _____ _____ with _____ _____ _____ _____ operating through centralized controls?

_____ _____ _____ sense _____ _____ _____ for functions _____ work autonomously _____ fail if they are _____?

If _____ _____ are being operated _____ _____ _____ _____ not function _____ _____ should, how should we _____?

When _____ independent functionings fall _____ _____ _____ _____ controls, _____ should be _____?

How should we _____ _____ _____ don't function _____ they should, _____ _____ are _____ through _____ _____?

What _____ be _____ to _____ issues _____ _____ functions _____ _____ the centralized controls?

If _____ don't function _____ _____ should when being _____ _____ _____ _____ what should _____ do?

What _____ should _____ _____ if _____ functions fail under the _____ of _____ _____ _____ mechanism?

_____ _____ _____ sense _____ _____ remedies for _____ _____ _____ _____ been centrally operated despite being autonomously worked on.

_____ _____ _____ _____ if functions aren't _____ as _____ _____ _____ _____ are run through centralized controls?

How should _____ _____ _____ _____ that don't function as they _____ _____ _____ _____ operated through _____ controls?

_____ it _____ _____ _____ inconsistencies when centralized controls _____ and function _____?

_____ _____ resolve issues with _____ functions _____ _____ while _____ through centralized _____?

_____ _____ if _____ _____ don't work _____ _____ central control system?

_____ operations should be _____ _____ they _____ _____ under _____ controller.

_____ functions are _____ _____ through centralized _____ _____ should _____ do _____ they _____ work?

_____ _____ _____ way to resolve issues with _____ functions _____ operating _____ _____ controls?

_____ _____ _____ do if functions don't _____ as _____ if they _____ _____ _____ through _____ controls?

How to _____ functions _____ _____ _____ using _____ controls?

_____ certain _____ bomb _____ with central _____ how do _____ tackle _____?

_____ some _____ fail under the _____ _____ mechanism but are _____ _____ what should _____ _____.

_____ certain functions start _____ work _____ only _____ _____ _____ centralized operation _____ we _____ remedies?

Some functions _____ _____ _____ controls if they are functioning _____ _____ _____ the question _____ _____ steps could _____ _____.

What should be _____ when _____ fail _____ the central controlling _____ _____ operate _____ _____ _____.

What _____ _____ done to resolve issues when _____ _____ _____ under _____ _____?

_____ would _____ _____ to plan remedies _____ _____ that _____ _____ _____ despite being _____ worked on.

_____ the event that _____ _____ malfunction _____ central _____ how _____ we handle _____?

What do _____ _____ _____ be done about _____ in the _____ _____ affecting _____ _____?

_____ we respond _____ functions don't work _____ _____ _____ if they _____ _____ operated _____ centralized _____?

What to _____ if the _____ _____ _____ _____ _____ centralized controls?

How _____ _____ _____ _____ functions _____ work as they _____ when they _____ _____ operated through _____ controls?

If functions don't _____ _____ they should _____ _____ _____ throughCentralizedControls, _____ _____ we respond?

If there _____ differences _____ _____ _____ systems _____ _____ in _____ what steps _____ recommended?

_____ functions don't _____ as _____ should _____ they _____ being _____ _____ _____ controls, should _____ respond?

_____ should _____ done if _____ _____ don't _____ under _____ _____ controlling mechanism.

Is it _____ to plan remedies for _____ _____ have _____ _____ _____ _____ autonomously _____ _____ work?

_____ _____ _____ remedies if some functions _____ _____ work _____ only to _____ via centralized _____?

Does it _____ _____ to plan _____ for _____ _____ are _____ but _____ not working _____?

Does _____ make sense _____ _____ remedies for _____ that work autonomously, _____ _____ _____ _____ operations?

When _____ fail under the _____ _____ mechanism, _____ are _____ _____ separate, what _____ be _____?

_____ _____ _____ _____ _____ _____ how do we deal with that?

_____ subsystems fail under the _____ controlling _____ _____ _____ as _____ entities, _____ _____ be done?

If functions _____ _____ _____ they _____ if they are _____ through _____ _____ _____ _____ we respond.

How do _____ _____ discrepancies when certain _____ _____ even with _____ _____ _____?

_____ should we do _____ _____ _____ function as they should if _____ are _____ _____ through _____ _____ control.

_____ _____ make sense _____ _____ _____ for _____ that _____ been centralized despite _____ autonomously doing _____?

What _____ your suggestions _____ what to _____ about _____ the _____ controls _____ _____ standalone _____?

If functions _____ operated _____ centralized _____ how should _____ _____ if _____ don't function _____ _____ _____?

If _____ _____ _____ in functioning due to _____ _____ what _____ _____ be taken?

_____ can _____ do to address _____ emerging from central _____ regarding _____ _____ the _____ _____ _____?

_____ _____ make sense to plan remedies _____ functions _____ _____ _____ _____ despite _____ self-sufficient

_____ situations _____ independent _____ _____ _____ under _____ system controller, _____ glitches be addressed?

_____ _____ makes sense to plan remedies _____ _____ that have _____ _____ _____ being autonomously doing _____ _____?

Does it make _____ _____ _____ remedies _____ functions that have been _____ _____ _____ _____?

If we operate throughCentralizedControls, _____ _____ we _____ _____ functions _____ work _____ _____?

Is there a way _____ _____ inconsistencies if some _____ _____ _____ _____ _____?

Is _____ appropriate _____ plan _____ _____ certain _____ that have _____ _____ despite _____ _____ doing the work?

_____ _____ _____ address _____ when _____ bomb even _____ the central controls?

Say _____ _____ tackle discrepancies _____ certain functions _____ even _____ the _____ _____?

_____ should _____ respond if functions don't function _____ _____ should if _____ _____ _____ _____ _____ a centralized controls.

When _____ are _____ _____ and fail _____ centralized controls, there _____ _____ _____ of _____ steps can be _____.

When _____ fail under _____ _____ controlling mechanism _____ _____ operate _____ _____ entities, _____ should _____ done.

_____ _____ _____ be taken _____ _____ independent _____ _____ short under centralized controls?

Does _____ make sense _____ _____ remedies _____ _____ that are centralized operation _____ _____ autonomously _____ _____.

_____ _____ independent _____ fall _____ under centralized _____ _____ _____ of action should be _____?

What's the _____ if _____ _____ do not _____ _____ a central _____ _____?

When functions _____ _____ _____ yet failing independently, _____ can _____ _____ them?

_____ do we deal with _____ functions that _____ _____ the _____ _____?

_____ centralized _____ fail certain functions, _____ do _____ _____ _____ inconsistencies?

_____ we _____ remedies _____ _____ _____ have been centralized _____ being self-sufficient?

_____ functions are _____ _____ _____ controls, _____ should _____ respond _____ _____ don't work out?

_____ _____ certain _____ perform differently _____ operated _____ centralized controls _____ _____ separately?

How should inconsistencies with functioning _____ _____ _____ central _____ _____ _____?

If _____ don't function as _____ _____ if they _____ _____ operated _____ _____ centralized controls, _____ should _____ respond

Do _____ think we _____ _____ with _____ when certain functions bomb _____ _____ _____ _____ controls?

If _____ are _____ _____ _____ controls, _____ _____ we respond _____ _____ aren't functioning _____ they should?

How do we deal _____ functions _____ _____ _____ control _____ though they _____ _____?

Some functions fail _____ centralized controls _____ they are _____ _____ _____ raises the _____ _____ _____ steps can _____ _____

_____ _____ think it's _____ to plan remedies _____ _____ that have _____ _____ despite being _____?

When multiple _____ functionings _____ _____ _____ control, _____ should happen?

Is there _____ _____ to _____ _____ _____ _____ controls that _____ in _____ features failing?

_____ it _____ sense _____ plan _____ _____ functions that work autonomously but fail _____ _____ _____?

_____ we expect remedies _____ functions that start _____ work _____ _____ to _____ via _____ _____?

How should we deal _____ _____ that _____ _____ as _____ should if _____ _____ _____ _____ centralized controls?

_____ _____ fail _____ _____ central controlling mechanism and still _____ as separate _____ _____ should _____ _____?

What steps could ____ ____ ____ deal with the ____ because ____ functions ____ ____ ____ controls.

____ ____ ____ to ____ remedies for ____ functions that have ____ ____ despite being autonomously ____ the ____?

If some ____ ____ ____ central control, ____ should we deal ____ the ____ ____?

____ you ____ ____ ____ address discrepancies ____ certain ____ bomb ____ with the central ____?

____ it possible ____ certain functions perform ____ when ____ through ____ ____ ____ working ____?

____ ____ make sense ____ ____ remedies for ____ that ____ autonomously yet ____ in centralized ____?

Why do ____ functions perform differently ____ operated ____ ____ ____ than ____ ____ are ____ separately?

____ it ____ sense to ____ remedies for ____ ____ ____ ____ centralized, even if they ____ autonomously worked ____?

When certain functions start to work ____ ____ to ____ via ____ operation ____ ____ ____ ____?

What can ____ done to address ____ ____ certain ____ ____ despite ____ operated ____?

When subsystems ____ ____ the ____ controlling ____ ____ are still functioning autonomously, ____ ____ ____ done?

How should ____ ____ ____ ____ if ____ operations fail within a ____ ____?

____ are some functions that ____ ____ centralized controls ____ ____ they ____ functioning ____.

How ____ resolve ____ ____ certain functions fail while ____ ____ ____ controls?

How should we respond if ____ don't ____ as they ____ ____ they ____ ____ ____ ____ ____ controls

____ ____ we ____ to deal with inconsistencies ____ ____ central controls that ____ ____ operations at ____ individual ____?

What ____ we do if ____ don't ____ ____ ____ ____ controls?

Is ____ ____ to ____ ____ for functions that work ____ but ____ in ____ ____?

How do we ____ ____ it when ____ functions ____ ____ central ____?

Does it make ____ ____ plan remedies ____ some functions ____ ____ ____ ____ being ____ ____ the work?

How ____ we ____ discrepancies when certain ____ ____ even ____ central ____?

How ____ ____ ____ deal with discrepancies if some operations ____ ____ ____ ____ system?

Do it make ____ ____ plan remedies for certain functions that have ____ ____ ____ ____ ____ ____ ____ ____?

What ____ be ____ when ____ number of independent ____ fall ____ under ____ ____?

____ can ____ done to ____ issues with ____ ____ failing ____ operating ____ ____ controls?

____ ____ ____ respond ____ function don't function ____ they ____ if ____ are being operated ____ centralized ____

If function ____ function ____ they ____ ____ they ____ being ____ ____ ____ centralized controls, ____ should we respond

What ____ your suggestions ____ ____ ____ inconsistencies ____ from ____ controls that ____ ____ operations at the ____ level?

____ ____ ____ respond to ____ that don't ____ ____ ____ they should if ____ ____ being operated through ____ controls

____ it ____ sense to ____ remedies for ____ that ____ ____ centralized operations despite ____ ____ ____ the work?

____ it make sense ____ ____ ____ for ____ ____ work autonomously ____ fail ____ centralized operations?

What can be done ____ ____ ____ ____ ____ fail under ____ controls?

Should ____ expect remedies ____ ____ start to ____ ____ only to malfunction ____ ____ ____?

Should ____ anticipate remedies if certain ____ begin ____ ____ autonomously ____ ____ ____ through centralized ____?

____ the ____ ____ ____ certain functions, how do we ____ ____?

____ should ____ respond ____ functions that aren't ____ ____ ____ should if ____ ____ centralized?

What should we ____ if functions that ____ ____ ____ through ____ centralized ____ ____ work ____ ____ should?

When subsystems ____ under ____ central ____ mechanism but ____ ____ ____ separate entities, ____ should ____ ____

What ____ we ____ ____ functions ____ ____ ____ they should if ____ ____ being operated through a centralized ____

What ____ ____ ____ ____ ____ with inconsistencies ____ from central controls ____ affect individual ____?

If ____ ____ ____ ____ a centralized control, ____ we respond ____ they ____ ____ as ____ should?

Does ____ make ____ ____ ____ remedies for functions that ____ autonomously but fail ____ ____ ____ ____?

Is there an ____ upon ____ ____ ____ ____ causes ____ ____ to fail?

____ ____ ____ respond to ____ being ____ through centralized ____ ____ ____ function the way they ____?

Handling operational ____ ____ from faulty ____ ____?

____ some ____ fail ____ ____ central ____ mechanism, but ____ still functioning as separate ____ what ____ be ____?

What should ____ do ____ functions ____ function as ____ should ____ ____ ____ being ____ through a ____ control

____ if some ____ do not work ____ ____ ____?

Do ____ ____ ____ ____ ____ remedies for ____ that have ____ ____ despite them ____ working autonomously?

Even though ____ ____ ____ ____ some ____ to respond ____ using the centralized ____.

What ____ we ____ if ____ don't function ____ they ____ ____ they're ____ ____ centralized controls?

____ we tackle ____ when certain ____ ____ ____ the ____ controls?

____ functions are being ____ through ____ centralized control, ____ we ____ ____ ____ ____ function?

How might we best ____ discrepancies ____ ____ operations ____ ____ ____ ____ system

Does it ____ ____ ____ plan remedies for functions that ____ ____ ____ but not ____ ____?

____ ____ do if ____ ____ fail even though they ____ ____?

What ____ ____ be taken ____ ____ the issue ____ ____ functions fail under ____ ____.

When ____ ____ ____ failing independently, ____ can ____ fix disparate ____?

____ it makes ____ ____ plan ____ for ____ that ____ autonomously but ____ ____ centralized operations?

Is there ____ way ____ fix ____ in ____ centralized controls ____ ____ ____ features ____ fail ____?

If functions ____ ____ ____ centralized controls, ____ should we ____?

Does it ____ sense to plan ____ for ____ ____ ____ ____ been ____ despite ____ ____ performing the work?

____ ____ we ____ with functions ____ malfunction through central ____ ____ operate ____?

Is it possible ____ ____ ____ ____ ____ when operated ____ centralized controls versus ____ ____?

How ____ we respond ____ ____ ____ ____ as ____ should ____ they are being operated ____ centralized ____

How should ____ resolve any ____ ____ some operations ____ ____ ____ centralized ____?

How ____ we ____ to ____ that ____ work as ____ should ____ they ____ ____ ____ centralized controls?

____ ____ ____ ____ with functions that ____ through central ____ but operate ____?

When certain ____ bomb ____ with ____ ____ ____ how do ____ ____ it?

____ ____ should ____ taken to ____ ____ ____ in central controls ____ standalone operations?

____ ____ ____ deal ____ functions that don't function ____ ____ should ____ they are being ____ ____ centralized controls

____ ____ don't ____ ____ they ____ when they ____ operated ____ centralized ____ how ____ we respond?

____ ____ happen when multiple independent ____ fall short ____ ____ ____?

____ can be done to ____ problems when functions ____ ____ ____ ____?

What should ____ ____ ____ with ____ when central ____ fails?

What ____ ____ be ____ to ____ with ____ issues ____ ____ failing under centralized ____?

____ should we handle ____ ____ if some functions ____ through ____ ____?

What ____ be done when subsystems ____ under ____ central ____ ____ but ____ ____ ____ separate ____.

____ ____ ____ defects in ____ ____ ____ due ____ controlled ____ what should be done?

____ ____ ____ ____ ____ what ____ do about the inconsistencies in ____ ____ controls that ____ standalone operations?

____ operational inconsistencies as ____ ____ ____ faulty centralized ____?

What should ____ done ____ ____ fail under ____ central ____ ____ ____ operate like separate ____.

Some ____ fail ____ ____ ____ ____ when ____ are functioning ____ which raises the question of ____ ____ ____ be taken.

____ ____ ____ best resolve discrepancies in a ____ system ____ some ____ ____?

If ____ ____ start ____ ____ ____ only to fail via centralized ____ ____ we ____ remedies?

____ functions ____ ____ throughCentralizedControls, ____ ____ we respond if ____ don't work?

When ____ ____ ____ even ____ the central controls, ____ do we address ____ ____?

____ ____ functions begin to work ____ ____ to malfunction ____ ____ ____ should ____ anticipate remedies?

____ ____ are being operated ____ ____ controls and they ____ function as ____ ____ ____ should we ____?

____ ____ ____ ____ fix discrepancies ____ some ____ ____ within a centralized system?

____ are your ____ ____ dealing ____ inconsistencies ____ ____ ____ controls that are affecting individual ____?

What ____ ____ ____ if functions don't ____ as they ____ ____ they ____ being ____ ____ the centralized controls?

Some ____ ____ under ____ ____ which ____ ____ question ____ whether steps could be ____ ____ correct the problem.

____ ____ ____ are being operated ____ ____ ____ function as they should, ____ should ____ respond?

How should ____ respond if functions do ____ ____ ____ ____ should ____ they ____ being ____ through ____ controls

____ discrepancies should be addressed ____ ____ functions ____ because of ____ ____.

Is ____ ____ ____ ____ reconcile ____ ____ ____ centralized controls ____ that of individual functioning?

____ ____ a ____ ____ ____ in performance ____ using centralized controls ____ individual functioning?

Is there a ____ ____ reconcile ____ ____ using ____ ____ ____ to individual functioning?

____ ____ when ____ ____ refuse to ____ together via ____ ____ but ____ well on ____ own?

How should _____ respond _____ functions _____ functioning as _____ _____ _____ a centralized _____?

If _____ functions start to work autonomously only _____ _____ _____ centralized _____ _____ _____ prepare _____?

If _____ _____ _____ _____ through _____ _____ how _____ we respond if they don't function _____ _____?

_____ situations where independent _____ _____ inconsistent _____ _____ system _____ should glitch be _____?

How should _____ respond _____ _____ aren't functioning as _____ should _____ _____ _____?

If some _____ malfunction _____ central control, _____ should _____ _____?

_____ discrepancies _____ be addressed if _____ _____ _____ to _____ controls.

If _____ _____ because of _____ _____ _____ should we _____ the discrepancies.

How _____ we respond _____ functions _____ don't _____ _____ _____ if _____ _____ operated through _____ controls?

If _____ _____ malfunction _____ central control, how _____ _____ fix _____?

_____ multiple independent functionings _____ short due _____ _____ controls, what _____ _____ _____?

What _____ be done _____ there _____ _____ in _____ that _____ caused by _____ _____?

If _____ don't _____ as _____ should _____ they're being operated _____ _____ controls, what _____ _____ _____?

Does it make _____ to plan remedies _____ _____ _____ work autonomously _____ _____ _____ _____ _____ manner?

_____ to _____ _____ with certain _____ _____ _____ _____ while using centralized controls?

How should _____ _____ _____ functions don't work _____ they should _____ they _____ _____ _____ through _____ centralized controls?

_____ some _____ fail _____ of centralized controls, how _____ _____ _____ it?

_____ should _____ _____ if _____ aren't functioning _____ _____ _____ if they're being _____ through centralized _____?

When _____ functions _____ controlled centrally _____ _____ independently how _____ _____ _____ them?

_____ can be _____ to address _____ when _____ fail despite _____ _____?

What do we _____ _____ central _____ fail _____ function _____?

Is there a _____ to discrepancies _____ _____ _____ _____ causes solo _____ to _____?

Resolving _____ discrepancies _____ by faulty _____ _____?

_____ should _____ _____ if functions _____ not functioning as _____ should, if they _____ _____ _____ through _____ controls

_____ many _____ _____ fall short under _____ controls, what should _____ _____?

_____ we _____ _____ if certain _____ begin to _____ autonomously only _____ _____ _____ centralized operation?

_____ _____ functions _____ _____ centralized controls _____ _____ how should we _____ them?

_____ should _____ deal with functions _____ _____ _____ they should if they are being _____ _____ _____ controls?

How do _____ _____ _____ _____ malfunctioning through central _____ _____ they operate _____?

If _____ _____ fail under a central _____ _____ but _____ _____ as separate entities, _____ should _____ _____?

Should _____ expect remedies _____ functions _____ _____ work autonomously _____ to malfunction _____ _____ _____?

_____ functions don't _____ under _____ _____ control system, _____ are the _____?

If functions don't _____ the _____ _____ we're _____ throughCentralizedControls, _____ _____ _____ respond?

_____ _____ a solution for _____ occurring _____ _____ centralized _____ _____ to individual functioning?

How _____ we respond _____ _____ _____ function as _____ should _____ _____ are centralized?

Some _____ _____ _____ _____ control, _____ how _____ we deal with it?

What _____ _____ _____ taken to address _____ _____ certain _____ fail despite _____ _____ functioning?

_____ _____ we deal with some _____ _____ malfunction _____ central _____?

Even _____ they work _____ on _____ own, _____ _____ the functions _____ work _____ I try to _____ them _____ _____ main _____?

_____ about features that _____ to work _____ _____ centralized _____ but are _____ just _____ _____ their _____?

_____ _____ be _____ _____ multiple _____ functionings _____ under centralized controls?

Do _____ think it makes sense to _____ remedies _____ _____ _____ _____ been _____ despite _____ _____?

_____ _____ we _____ _____ discrepancies _____ some operations fail in _____ _____ system?

_____ it make _____ _____ plan _____ for _____ _____ are centralized, _____ though they _____ autonomously doing the _____?

_____ should _____ done _____ deal _____ the issues that _____ _____ _____ _____ centralized controls?

What should _____ _____ when multiple independent _____ fall _____ _____ centralized _____.

How do we deal _____ functions that malfunction _____ _____ _____ even _____ _____ _____ _____?

_____ _____ don't _____ _____ they should if they are _____ _____ _____ controls?

_____ _____ _____ _____ as they should when being _____ through a centralized _____ what _____ _____ _____?

What _____ _____ done to resolve _____ _____ a certain _____ _____ _____ the centralized _____?

_____ do we _____ _____ centralized controls _____ but function _____ _____ way?

How will _____ _____ resolve _____ _____ _____ operations fail _____ a _____ system?

If functions _____ _____ _____ through centralized _____ and they _____ function _____ way _____ should, how _____ we _____?

Do you _____ we can tackle _____ _____ certain functions _____ _____ _____ central _____?

_____ _____ subsystems fail _____ _____ central controlling mechanism, _____ _____ _____ as separate _____ _____ should be done?

_____ should we respond if functions _____ _____ as they _____ _____ _____ _____ _____ _____ centralized controls

Functions that are _____ _____ _____ _____ under centralized controls, _____ _____ the question _____ whether _____ could be _____.

_____ it make _____ to _____ remedies _____ _____ _____ that work _____ but fail _____ _____ operation?

What _____ we _____ _____ functions are _____ operated _____ centralized _____ but _____ _____ as they _____?

_____ should _____ _____ when _____ fail under the central _____ _____ _____ are still _____ as _____ subsystems.

_____ it _____ _____ _____ plan remedies for _____ functions _____ work autonomously but _____ _____ centralized _____?

How _____ we respond if functions _____ function _____ expected, if _____ _____ _____ _____ _____ _____ controls?

_____ _____ fail because _____ centralized controls, _____ should _____ deal with _____?

When some _____ malfunction _____ _____ central control, _____ do _____ _____ with _____?

_____ centralized _____ fail _____ functions, how _____ _____ _____ the inconsistencies?

_____ it feasible _____ _____ remedies for functions _____ _____ autonomously _____ fail _____ centralized _____?

_____ _____ you recommend _____ deal with _____ _____ central controls that are _____ _____ _____?

_____ some _____ _____ with _____ _____ how should we fix _____?

How would the _____ _____ addressed if _____ _____ _____ under centralized _____?

Is it _____ _____ _____ remedies for _____ that _____ been _____ _____ _____ self sufficient?

If some functions fail _____ _____ controls, how should _____ _____ _____ _____?

Should we _____ remedies if functions _____ _____ _____ autonomously only _____ malfunction _____ _____ _____?

_____ _____ fail under _____ controls _____ they are _____ autonomously, and _____ raises the question _____ what _____ _____ _____ taken.

_____ should _____ _____ _____ deal with _____ from central controls _____ _____ affecting _____ operations?

_____ _____ possible to resolve _____ with _____ functions _____ while operating through _____ _____?

_____ _____ _____ done to _____ _____ when _____ _____ fails under the centralized controls?

What _____ _____ _____ _____ _____ _____ function as they should, _____ they are being operated _____ the centralized _____?

_____ _____ _____ address _____ if _____ _____ because of centralized controls.

_____ functions are _____ through centralized _____ how should _____ _____ _____ they _____ function _____ they _____?

_____ certain _____ _____ _____ functioning autonomously, what steps _____ be _____ _____ _____ the issues?

Some functions _____ _____ _____ controls when _____ _____ _____ autonomously and _____ _____ the question _____ whether steps could _____ taken.

When many _____ _____ _____ _____ under _____ controls what _____ be done?

Can there _____ a solution for discrepancies _____ performance _____ _____ _____ controls _____ _____ _____?

Does it _____ sense to _____ _____ for _____ _____ have _____ _____ but _____ autonomously doing _____?

_____ _____ proper _____ _____ remedies for certain _____ that _____ _____ centralized _____ _____ autonomously worked on?

How should _____ respond if _____ aren't _____ as _____ _____ _____ _____ _____ operated through centralized controls

_____ some functions _____ _____ via centralized _____ what _____ _____ do?

If _____ _____ start to work _____ _____ to _____ via centralized operation _____ _____ anticipate _____?

_____ _____ appropriate _____ plan remedies for _____ that have been centralized _____ being _____ doing _____ _____ _____?

When _____ _____ functionings _____ _____ under centralized controls what should _____ _____?

Is it _____ to manage _____ _____ _____ controls fail but _____ _____?

_____ functions do _____ function _____ they should if _____ are _____ operated through _____ controls, _____ _____ we _____?

_____ _____ we _____ to _____ being _____ _____ _____ _____ that don't function as they should.

Is it _____ to _____ remedies _____ functions that _____ _____ centralized _____ _____ _____ doing the _____?

Does it make _____ _____ plan remedies _____ _____ functions that _____ been _____ _____ being _____?

_____ you know how we _____ discrepancies _____ functions _____ even _____ _____ _____ controls?

_____ _____ make _____ to _____ remedies for _____ that have been centralized, despite _____ _____ _____ _____?

Is it _____ _____ plan _____ _____ functions that _____ been centralized _____ being _____ _____ _____ work?

_____ we operate _____ what _____ we _____ if functions do _____ _____ _____ _____ should?

_____ _____ _____ way _____ address discrepancies _____ _____ controls that cause solo features _____ _____ together?

Some ____ ____ ____ ____ ____ if they are ____ autonomously, which ____ the ____ of ____ steps can be ____.

Is it worth planning ____ for functions ____ ____ ____ ____ ____ ____ centralized operation?

What steps could be taken ____ ____ ____ ____ ____ some ____ fail ____ ____ controls?

Should ____ anticipate ____ ____ functions start ____ work autonomously ____ to fail ____ ____ ____?

What ____ ____ think ____ be ____ about ____ inconsistencies in the ____ ____ ____ affect ____ operations?

____ ____ a way ____ ____ with discrepancies when certain functions ____ ____ with ____ central ____?

____ ____ ____ work because of centralized ____ ____ should ____ fix them?

In ____ ____ ____ ____ ____ inconsistently under one ____ should glitch be ____?

Is it ____ ____ ____ inconsistencies ____ ____ controls fail but ____ independently?

____ functions ____ under centralized controls when they are ____ ____ and this ____ the question ____ ____ ____ ____ ____ taken.

What steps ____ be ____ ____ ____ with ____ ____ of function failing under ____ ____?

How ____ we deal ____ ____ that malfunction ____ ____ control ____ ____ separately?

Is there ____ ____ solution ____ ____ controls cause independent ____ ____ fail?

____ can we ____ with inconsistencies ____ centralized ____ fail but ____ ____?

____ ____ ____ way to correct performance discrepancies ____ ____ centralized ____ over individual ____?

Is ____ ____ good ____ ____ ____ remedies ____ ____ that have been centralized ____ being autonomously worked ____.

____ functions ____ ____ central control, how should ____ handle ____?

Even ____ they ____ fine ____ their own, any solutions ____ there are ____ ____ function ____ ____ ____?

What do ____ ____ ____ should do ____ certain functions ____ even ____ ____ central ____?

____ ____ possible ____ resolve ____ if ____ operations fail ____ a centralized ____?

____ some subsystems fail under the ____ controlling mechanism and ____ operate ____ ____ ____ ____ ____ be ____?

____ certain functions ____ even with these ____ ____ how do we ____ ____ ____?

____ ____ we do if ____ don't function as they ____ ____ ____ being ____ ____ a ____ control?

____ ____ we ____ ____ ____ ____ ____ function as they should if they ____ being operated ____ centralized controls.

____ could ____ done to deal ____ ____ ____ if ____ ____ fail under ____ controls?

What ____ ____ ____ to resolve ____ when functions ____ ____ operated?

____ ____ we handle some ____ that malfunction ____ central ____?

What ____ be ____ ____ ____ ____ defects in functioning due ____ ____ systems?

____ functions ____ ____ centralized ____ when they ____ ____ autonomously, this raises the ____ of whether ____ ____ be ____.

What ____ some ____ don't work under a ____ ____ ____?

____ ____ functions start ____ ____ autonomously only to malfunction through centralized operation, ____ ____ ____ ____?

____ ____ make sense ____ plan remedies ____ ____ ____ that ____ been centralized despite ____ ____ working?

____ some ____ ____ due to centralized ____ what ____ ____ ____ about it?

What ____ your ____ ____ ____ with ____ coming from central controls ____ affect operations ____ the ____ ____?

____ ____ we ____ if ____ ____ function as ____ ____ if they're being operated ____ centralized ____?

Is there ____ ____ to ____ ____ ____ emerging from ____ controls that are ____ ____?

____ ____ ____ ____ autonomously fail under centralized controls, raising ____ ____ ____ ____ steps can ____ taken.

Why ____ ____ functions ____ ____ ____ they are ____ ____ centralized ____ versus working separately?

What would happen if ____ ____ don't ____ via ____ ____?

After ____ ____ ____ fall short under ____ controls, what ____ be ____?

____ can ____ ____ to deal ____ the ____ ____ some ____ ____ under centralized controls?

Is ____ ____ way ____ reconcile ____ between ____ controls and individual ____?

How ____ ____ ____ ____ functions don't work as they should ____ they ____ ____ ____ centralized ____?

____ do ____ ____ ____ it when some ____ malfunction ____ central control?

Some ____ ____ under ____ control ____ they are ____ autonomously, raising the ____ ____ whether steps ____ be ____.

What steps ____ be taken to ____ those incongruences ____ ____ ____ fail, ____ ____ ____?

____ ____ ____ systems ____ defects ____ functioning independently achieved results, what should ____ ____?

What about ____ that refuse to ____ ____ ____ ____ controls but ____ still doing fine ____ ____ ____?
