[Demo] NLP Dataset for Customer Service Automation

Company Type	Water and Wastewater Utility Companies
Inquiry Category	Leak detection and repair assistance
Inquiry Sub-Category	Leak detection data analysis
Description	Inquiries related to the analysis and interpretation of data gathered from leak detection activities conducted by the utility company.
Data Size	5,027 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Water and Wastewater Utility Company" customer inquiry. (Purchased data will not be masked.)

How do ____ interpret ____ ____ detection data to ____ if there ____ any ____ ____ ____ ____ our distribution ____?

____ ____ to know how ____ analyze ____ ____ ____ for ____ water losses.

____ ____ ____ ____ with ____ detection data to figure ____ ____ ____ are any water losses?

____ ____ ____ ____ detectr help ____ ____ ____ the risks of water lost ____ thedistribution system.

How should leak ____ ____ ____ used to detect water ____ ____ ____ ____ system?

Need help ____ leake ____ ____ what ____ ____ water loss inside the ____ ____?

Can ____ figure ____ the ____ of ____ loss ____ the distribution ____ ____ analyzing leak detection ____?

____ the ____ ____ the leak detectr ____ ____ figure out the ____ ____ ____ losses?

____ ____ leak ____ data help ____ ____ out the risks ____ ____ losses ____ ____ distribution system?

____ the data ____ the ____ ____ help ____ find ____ the ____ of water ____ ____ thedistribution system?

Is it ____ ____ analyze the ____ detection data ____ detecting ____ ____ losses ____ ____ ____ system?

How should we use leak detection ____ ____ ____ the ____ ____ ____ loss ____ ____ distribution ____?

How ____ interpret leakedetection ____ ____ ____ ____ water ____ in our ____ system?

____ I look ____ ____ ____ I want to ____ ____ ____ ____ waterloss ____ the distribution system.

____ can ____ determine ____ there is ____ ____ in ____ distribution ____ ____ leak detection data?

____ there ____ ____ ____ interpret the leak detection data ____ detecting ____ ____?

Does ____ data ____ ____ leak ____ help ____ figure ____ the risk of ____ loss ____ thedistribution ____?

____ ____ we do with ____ detection ____ to ____ if there ____ ____ ____ ____ water loss within the ____ system?

____ to ____ leak detection information for ____ of ____ ____ ____ the distribution ____

____ the data from ____ leak detectr help ____ figure out ____ ____ ____ water ____ in ____ ____?

How do we interpret the ____ ____ data so ____ ____ ____ ____ ____?

____ ____ data ____ ____ leak detectr ____ ____ figure out the risk of water ____ ____ the ____?

____ I determine the ____ of ____ water leak ____ ____ system ____ ____ the leak ____ ____.

I ____ to know if ____ ____ waterloss in ____ ____ ____ when ____ look at ____ ____ detection.

Is ____ possible ____ ____ ____ leak detection ____ to determine ____ we are ____ ____?

____ ____ ____ to identify water ____ in our distribution system ____ ____ ____ data?

I need to know the process ____ ____ leak ____ ____ ____ ____ ____ losses.

____ there a ____ to ____ ____ data ____ possible water leak in ____ ____ ____?

____ can we ____ ____ ____ info ____ ____ of water loss ____ ____ distribution system?

Does the data from ____ leak ____ ____ ____ figure out ____ ____ is a risk ____ water ____ ____ ____ distribution ____?

____ we ____ possible ____ losses ____ our ____ system by interpreting ____ ____ ____ data?

I would like to make sense ____ the leak ____ ____ ____ ____ ____ ____.

____ it ____ to understand leak ____ ____ ____ determine ____ we're losing water?

____ help interpreting leake detection findings, ____ ____ are ____ of possible ____ loss ____ ____ ____?

Is ____ ____ to ____ ____ water losses ____ the distribution ____ ____ analyzing the leak ____ ____?

____ leak ____ data ____ us about water loss risks ____ ____ ____?

____ the ____ ____ ____ help me ____ ____ risks of ____ ____ to the distribution system?

Need help ____ ____ ____ what signs are indicative ____ ____ loss ____ ____ network.

____ ____ the leak detection information find water ____ ____ ____ distribution ____?

____ ____ explain ____ ____ interpret leak ____ results for spotting water ____?

Is ____ ____ to see ____ ____ ____ ____ water with leak ____ data?

How can ____ ____ out ____ the water ____ ____ ____ our distribution ____?

How ____ ____ use ____ leak detection data to see ____ there are any water ____ ____ ____ ____ ____?

Help interpreting leaking ____ findings, what signs ____ ____ ____ loss inside ____ ____ ____?

____ ____ we do with the leak detection ____ to ____ ____ there is ____ chance ____ ____ ____ in ____ ____ system?

____ can we analyze ____ detection ____ for ____ ____ losses?

I would like ____ ____ if the distribution system ____ ____ potential ____ ____ by reviewing the ____ ____ ____.

Does ____ data from the leak ____ ____ ____ ____ ____ the ____ of ____ loss ____ ourdistribution system?

I'm curious ____ how ____ interpret ____ ____ ____ ____ spotting water losses.

Is there a way ____ ____ ____ data for detecting ____ ____ in ____ ____ ____?

Is ____ ____ to find ____ ____ we are ____ ____ with ____ detection data?

Is ____ possible ____ understand leak detection ____ ____ ____ ____ we are ____ water?

Can I ____ if ____ is water loss in ____ distribution system ____ ____ ____ at ____ ____ ____?

How can ____ find ____ if ____ ____ any waterloss in ____ ____ ____?

How can ____ find ____ ____ there are any ____ ____ ____ distribution ____?

I ____ ____ ____ ____ ____ any ____ in the distribution system ____ reading ____ ____ detection data.

How ____ analyse leak detection ____ ____ ____ ____ ____ loss ____ the distribution system?

Is ____ possible ____ ____ leak detection ____ so ____ we can identify ____ ____?

How should ____ ____ leak ____ data to ____ ____ ____ ____ issues within the ____ system?

Can I ____ ____ leak ____ data ____ determine the ____ of ____ loss ____ the ____ ____?

The data ____ the leak ____ ____ ____ figure ____ ____ ____ of water loss ____ the ____ system.

How do ____ interpret ____ ____ ____ identify ____ ____ ____ the distribution system?

I ____ a ____ to find out if ____ have ____ ____ ____ ____ ____ the leak ____.

How ____ we use ____ leak detection data to ____ ____ ____ losses ____ the ____ ____?

Is ____ a ____ ____ ____ leak detection ____ for ____ ____ leaks in our ____ setup?

____ the ____ from the leak detector ____ ____ ____ ____ the ____ of ____ loss?

____ should I ____ leak detection data ____ ____ ____ water ____ ____ the ____ system?

Is ____ possible to ____ leak ____ ____ ____ ____ water losses in ____ system?

Wondering how to analyze ____ ____ ____ ____ ____ losses.

Any ____ how ____ analyze leak detection ____ ____ signs of ____ ____?

Help interpreting ____ findings, ____ ____ ____ ____ loss ____ the network?

____ ____ leak detection information able ____ identify water ____ ____ ____ distribution ____?

____ ____ possible to understand ____ detection data ____ determine if we ____ ____ ____?

____ ____ ____ data tell ____ about any water loss ____?

____ ____ analyze ____ detection ____ ____ signs of water loss

____ ____ ____ ____ with leak detection data to spot possible water ____ ____ ____ distribution ____?

____ I determine ____ source ____ ____ water leaks ____ ____ ____ system by analyzing the ____ ____ data?

____ ____ leak ____ ____ ____ detect water losses ____ our distribution system?

Can analyzing ____ leak ____ information allow us ____ ____ ____ ____?

Is _____ possible _____ _____ _____ any _____ loss exists in our _____ _____ _____ the _____ detection data?

What _____ indicate potential water _____ within _____ distribution _____ _____ assistance _____ leakedetection _____?

How do I _____ _____ _____ _____ is any water loss in _____ _____ _____?

_____ analyzing _____ _____ _____ information _____ locate _____ losses _____ the distribution system?

Is _____ a way _____ _____ leak detection data _____ _____ _____ leak?

I _____ trying to _____ out the leak _____ data _____ _____ _____ _____.

_____ signs indicate _____ water _____ within the distribution network, _____ _____ _____ leakedetection _____?

_____ can _____ understand the _____ _____ data for _____ losses?

_____ _____ _____ leakedetection _____ _____ signs indicate water loss within _____ _____ network?

Is _____ _____ to understand leak _____ data _____ tell _____ _____ are _____ water?

Can _____ _____ _____ information _____ locate water _____ in our distribution _____?

_____ interpreting _____ findings of _____ _____ loss _____ _____ distribution network.

_____ _____ leak _____ information _____ to identify water _____ in our _____ _____?

_____ can I _____ _____ there is _____ waterloss _____ _____ distribution _____ when _____ look at _____ leak detection?

Can _____ tell me how to _____ _____ _____ _____ _____ for potential water _____ in the _____ _____?

Is _____ a _____ _____ interpret the _____ detection data _____ _____ water _____?

_____ _____ _____ if there's any waterloss in _____ _____ _____ when _____ look _____ the leak _____?

How should _____ _____ _____ _____ _____ _____ _____ determine _____ _____ is any chance of water loss?

There is a _____ to interpret _____ _____ _____ _____ _____ detecting _____ leak.

_____ do _____ _____ leake detection _____ to identify _____ _____ _____ _____ the distribution system?

What _____ _____ _____ in the system is _____ by the _____ _____ _____?

How can _____ determine if _____ _____ _____ _____ lost _____ our distribution _____?

_____ _____ to understand leak detection data _____ possible _____ _____.

_____ _____ _____ from the leak detectrhelp _____ figure out the risks _____ _____ _____?

Can I _____ leak detection data _____ determine _____ source of _____ _____ in _____ _____ _____?

What _____ we _____ _____ the _____ _____ data to _____ the chances of _____ _____ within our _____ system?

_____ _____ possible _____ determine if _____ _____ losing water within thedistribution _____ with _____ detection _____?

_____ _____ to _____ how to interpret _____ detection results _____ _____ _____ losses.

_____ _____ data from the leak detectr help _____ _____ _____ _____ of _____ lost _____ thedistribution _____?

Is _____ a _____ _____ interpret leak _____ data _____ detecting _____ _____ leaks?

_____ _____ we _____ _____ _____ to identify potential water loss in the _____ _____?

_____ analyzing _____ leak _____ _____ reveal _____ losses in the distribution _____?

_____ _____ _____ me how to analyse the leak _____ data _____ potential _____ _____?

Helping _____ leakedetection findings, what signs _____ potential _____ _____ _____ _____ _____ network?

How _____ _____ _____ _____ detection _____ _____ _____ potential water loss within the _____ system?

_____ need _____ interpreting _____ findings _____ _____ loss in the distribution _____.

Can leak detection _____ _____ about _____ _____ risks _____ _____ system?

When I _____ at _____ leak detection, can _____ _____ _____ _____ _____ any waterloss in _____ _____ system?

_____ it _____ to _____ _____ we _____ _____ water in thedistribution system?

I _____ like to _____ _____ to _____ any water leaks _____ _____ distribution _____.

I _____ _____ _____ _____ we _____ _____ potential _____ losses by examining the _____ detection

Is the _____ _____ _____ helpful _____ figuring out _____ risks of _____ _____ in _____ system?

The _____ _____ _____ can _____ used _____ evaluate potential water losses in _____ _____ _____

Help interpreting leakedetection _____ _____ _____ indicate a potential water _____ _____ _____ distribution _____?

_____ leak detection _____ be accurately _____ _____ _____ if we _____ losing _____ _____ our _____ system?

How _____ _____ able _____ detect _____ _____ in the distribution _____ _____ leak detection _____?

_____ can the leak detection _____ be _____ to _____ _____ losses _____ the _____ _____?

What _____ we do with the _____ _____ data _____ _____ the chances of _____ _____ in _____ distribution _____?

I want _____ _____ if there's waterloss in _____ _____ system _____ _____ look _____ _____ _____ detection.

How _____ _____ _____ detection _____ for signs _____ water losses _____ the _____ system?

_____ to _____ the _____ for _____ _____ losses?

_____ it possible _____ _____ if _____ are _____ _____ by using _____ detection data?

_____ _____ _____ tell if there are _____ water _____ _____ _____ distribution system?

_____ _____ we _____ _____ the leak detection _____ _____ identify potential water _____ _____ our distribution _____?

How should leak detection _____ _____ _____ _____ spot _____ _____ loss issues within _____ _____ system?

_____ _____ _____ to use leak _____ _____ _____ identify _____ _____ losses in our distribution system?

_____ _____ water losses in _____ distribution _____ what _____ the best way _____ _____ _____ leak detection _____?

Is _____ _____ _____ _____ if we have _____ anomalies in the _____ _____ _____ accurate _____ detection data?

_____ _____ tell _____ how to interpret the _____ detection results _____ _____ _____?

How _____ _____ _____ data be _____ _____ _____ _____ _____ issues in the distribution system?

Help interpreting _____ detection findings, _____ signs _____ potential _____ loss _____ _____ distribution _____?

There are methods _____ evaluate _____ _____ _____ data _____ _____ if there is _____ water _____ in the _____ _____.

_____ it possible _____ _____ if _____ have water _____ in _____ _____ system with _____ detection _____?

Can I find _____ _____ the _____ _____ being lost _____ _____ distribution _____?

_____ _____ a way to look _____ the _____ _____ data _____ see _____ there _____ _____ leaking?

Is it possible _____ identify water losses _____ _____ _____ _____ _____ detection _____?

_____ _____ tell _____ _____ to interpret _____ leaks for _____ water losses?

How _____ I _____ _____ detection _____ to identify potential _____ loss _____ in our _____ _____?

_____ _____ possible _____ _____ if we _____ any water losses _____ _____ _____ the leak detection?

_____ _____ you analyze leak _____ info for signs _____ _____ loss _____ _____ _____ system?

_____ are we _____ _____ _____ _____ losses _____ our distribution system using leak _____ _____?

How should leak _____ data be used to detect _____ _____ _____ _____ _____ _____ distribution _____?

How can I _____ _____ _____ data _____ _____ _____ _____ within our distribution system?

_____ _____ I _____ if _____ _____ a _____ with _____ water _____ on the readings _____ leak detectors?

_____ _____ _____ if there _____ _____ _____ the distribution _____ when I look at leaking _____ _____?

In order _____ _____ water losses in the distribution _____ _____ _____ the _____ way _____ read _____ _____ detection _____?

_____ you give me some _____ on interpreting _____ leak _____ _____ _____ _____ water _____?

_____ _____ detection information can be used _____ evaluate _____ _____ _____ _____ _____ distribution network.

_____ _____ from the _____ _____ can help me figure out _____ risks _____ water loss _____ the _____ _____.

How _____ I _____ potential water _____ _____ _____ detection?

_____ _____ _____ interpret _____ _____ detection data _____ determine if there _____ any _____ losses in the _____ system?

In _____ _____ _____ _____ water losses in _____ distribution network, what is _____ best _____ _____ interpret leak _____ _____?

There are methods _____ _____ the leak detection data _____ determining if _____ is water _____ _____ _____ _____ _____.

When I _____ _____ the leak detection, _____ _____ _____ if _____ any waterloss _____ _____ _____ system?

_____ the _____ from _____ _____ detectr help me figure out the risks _____ _____ loses _____ _____ distribution _____?

Does the _____ _____ data help _____ understand _____ risks _____ _____ lost in _____ _____?

How _____ _____ figure _____ _____ there _____ _____ water _____ in our distribution system?

How _____ _____ detection _____ be used to locate _____ _____?

Is it possible _____ figure _____ _____ we _____ losing _____ _____ _____ detection?

_____ _____ possible _____ _____ _____ data _____ identify water losses _____ thedistribution system?

I want _____ _____ _____ to _____ _____ detection _____ _____ _____ of water loss in our distribution _____.

_____ should we _____ leak _____ data _____ see if _____ _____ a chance _____ _____ loss?

Does _____ _____ _____ _____ leak detectr help _____ _____ the risks _____ water loss to _____ _____ system?

_____ should _____ use _____ detection _____ _____ _____ for water loss _____ our distribution _____?

_____ _____ _____ way _____ analyze _____ detection _____ for potential water losses in _____ distribution _____?

_____ _____ _____ the _____ for water losses?

Is there a _____ _____ see the _____ _____ _____ for _____ _____ leaks in _____ _____ setup?

How can we use leak detection _____ _____ _____ _____ _____ losses _____ our _____?

Can we _____ _____ losses _____ analyzing leak _____ _____?

_____ _____ are taken _____ _____ _____ _____ detection data so _____ can _____ water losses in the _____ system?

Is there a _____ _____ read _____ leak _____ data _____ _____ water _____ in _____ distribution _____?

Does the data _____ the _____ detectr _____ me _____ _____ _____ risk _____ water _____?

Is _____ possible _____ identify potential _____ losses _____ _____ distribution _____ _____ _____ detection data?

Help interpreting _____ _____ _____ signs suggest a _____ water _____ _____ _____ distribution network.

Can _____ _____ _____ _____ _____ data for _____ source of the water _____ in _____ system?

Suggestions on how _____ _____ leakedetection _____ to identify water _____ _____ _____ distribution _____?

_____ do we _____ leak _____ _____ to detect possible water _____ _____ our _____ _____?

Does the _____ _____ _____ leak _____ help me _____ _____ _____ water is lost in _____ _____?

Is it _____ to _____ leak _____ data accurately _____ _____ _____ _____ are losing _____?

Is _____ _____ _____ _____ leak _____ data for identifying potential _____ losses?

Is it _____ _____ _____ if _____ losing water _____ _____ leak detection _____?

_____ _____ _____ the leak detectr _____ _____ me figure _____ _____ risks of water lost _____ the _____.

_____ _____ _____ _____ _____ to interpret leak detection data _____ _____ water losses?

Is it possible to find _____ _____ we have any _____ _____ _____ _____ looking _____ _____ leak _____?

_____ _____ _____ _____ leak detection _____ _____ find potential water _____ in the _____ system?

_____ _____ data from the _____ detectr helpful _____ _____ out _____ _____ of water _____ _____ thedistribution system?

How _____ _____ detection data _____ _____ to _____ _____ _____ is water _____ in _____ distribution system?

_____ it possible _____ _____ if _____ _____ a _____ loss in the distribution system _____ _____ _____ data?

_____ _____ _____ data _____ accurately used to _____ if _____ are _____ _____ in thedistribution system?

Help interpreting _____ findings, what _____ _____ water _____ within _____ _____ network?

How _____ analyze _____ _____ _____ _____ of _____ _____ in the distribution system?

_____ leak _____ _____ _____ to _____ _____ water loss risks in _____ system?

Asking for help interpreting _____ _____ what _____ suggest _____ _____ _____ within the _____ _____?

_____ _____ _____ way _____ correlate the _____ _____ data with possible _____ leaks?

How _____ analyze leak detection _____ _____ _____ _____ water loss in _____ _____ system?

tips on how _____ interpret _____ data _____ identify _____ _____ _____ in _____ system

_____ _____ _____ _____ to _____ at the leak detection _____ for _____ water leaks?

_____ _____ possible to _____ _____ water _____ in our _____ by _____ leak detection _____?

_____ _____ _____ _____ leak detectr could _____ me _____ out the risks _____ _____ losses.

_____ _____ interpreting _____ _____ what _____ suggest _____ possible water loss in _____ distribution _____?

The data _____ _____ leak _____ _____ _____ me figure out _____ risks of water _____ in _____ _____ system.

Help interpreting _____ _____ _____ potential water _____ _____ the distribution _____?

I wonder _____ there _____ _____ _____ _____ _____ _____ leak detection data for _____ water leaks.

_____ _____ detect possible _____ losses _____ _____ _____ system _____ we understand the leak detection _____.

The _____ _____ _____ _____ _____ can _____ _____ determine the risks of _____ lost in thedistribution _____.

Need _____ interpreting leakedetection _____ _____ _____ signs suggest _____ _____ leak?

Can I figure out the _____ _____ _____ water _____ in _____ _____ by _____ the leak _____ _____?

_____ _____ _____ leak _____ data _____ determine the source of _____ loss inside the _____ _____?

Can leak _____ tell us _____ water _____ _____ _____ _____ system?

Does _____ _____ _____ _____ _____ detectr help _____ _____ out _____ risks of water being lost _____ thedistribution system?

_____ should leak _____ data _____ used to _____ if there _____ _____ water _____ _____ the distribution _____?

_____ _____ _____ know _____ _____ _____ any waterloss _____ _____ distribution system when I _____ leak detection data?

_____ it _____ to _____ guidelines on accurately _____ the _____ _____ data _____ _____ potential water _____ in the _____ system?

Can _____ _____ me _____ if we _____ any potential _____ losses by _____ _____ _____ leak _____?

How _____ _____ detection data _____ _____ to _____ water _____ in _____ system?

When I check the data _____ _____ can _____ _____ _____ _____ _____ waterloss in the _____ _____?

The leak _____ _____ should _____ used _____ _____ the potential for _____ losses _____ _____ _____ network.

How _____ we _____ _____ _____ detection data to determine _____ likelihood _____ water _____ _____ _____ distribution system?

_____ want to _____ _____ there's _____ waterloss in the _____ _____ when _____ look at _____ _____ detection.

I _____ like _____ know if there _____ _____ potential _____ losses in _____ _____ _____ _____ the leak _____ data.

_____ _____ tell me _____ to _____ the leak _____ _____ to identify _____ water _____?

Can you _____ how leak _____ data _____ _____ used to _____ _____ _____?

Does the _____ from _____ _____ _____ help _____ _____ _____ the risks of water getting _____?

Is _____ _____ _____ _____ the leak detection data to _____ _____ water _____?

_____ _____ from the leak detector helps _____ figure _____ _____ _____ _____ water lost _____ _____ system.

How _____ leakedetection _____ _____ _____ to find _____ _____ in our _____ system?

Can we _____ leak _____ data to _____ _____ we _____ _____ water?

_____ it _____ to correctly identify _____ losses _____ thedistribution _____ _____ _____ detection data?

_____ can _____ read the _____ detection data for _____ _____?

Can you tell _____ if _____ _____ a loss _____ _____ in the _____ _____ _____ leake detection _____?

_____ _____ _____ interpreting _____ _____ what signs suggest a water _____?

Can _____ _____ _____ any _____ with _____ leak _____ results _____ spotting water losses?

_____ there a _____ to use _____ _____ detection _____ to _____ water _____ _____ our _____ setup?

Can the data _____ the _____ detectr help _____ _____ _____ _____ _____ of _____ water?

The data from _____ _____ detectr _____ _____ _____ _____ out the risks _____ water loss in _____ _____.

Wondering _____ to _____ leak _____ _____ detect _____ loss.

How _____ we understand the _____ _____ _____ so _____ we _____ detect _____ losses in the _____ _____?

_____ interpreting leake detection _____ _____ _____ _____ _____ leak within _____ distribution network?

_____ _____ be _____ _____ _____ the _____ of _____ _____ leak in my distribution _____ by analyzing _____ leak detection data?

Need _____ _____ leakedetection findings, what _____ of _____ loss _____ ourdistribution _____?

_____ interpreting _____ findings, what signs suggest potential _____ _____ _____ the _____ _____?

_____ I figure _____ _____ source of _____ water _____ _____ thedistribution _____ using the leak _____ _____?

Is there a _____ to _____ _____ leak detection _____ for identifying _____ _____ _____?

_____ should leak detection data _____ _____ to spot potential _____ _____ _____ within the _____ _____?

_____ _____ leak _____ data _____ _____ to identify _____ water _____ issues in _____ distribution system?

_____ signs indicate potential water _____ _____ our _____ network, _____ help _____ leakedetection _____?

_____ _____ trying _____ _____ sense of the leak detection data _____ _____ _____ losses.

_____ I _____ at _____ leak detection, I _____ to know _____ there _____ _____ _____ in _____ distribution system.

_____ need _____ know _____ there's _____ waterloss _____ the _____ system _____ _____ look at the _____ detection.

_____ do I do with _____ _____ data _____ _____ if there _____ any _____ _____ in the distribution _____?

I'm not _____ _____ to _____ leak detection _____ _____ spotting water _____.

When I read _____ _____ _____ _____ can _____ tell _____ _____ is any waterloss _____ _____ distribution system?

How do I _____ leak _____ _____ _____ spotting _____ losses?

How _____ _____ determine _____ water _____ from leak detection _____?

How _____ _____ _____ to _____ _____ water losses _____ our distribution _____ _____ _____ the leak detection data?

I need to know _____ there _____ _____ _____ _____ distribution _____ when _____ read the _____ _____ data.

_____ it _____ _____ _____ leak detection data to _____ potential _____ losses _____ the _____ system?

_____ _____ _____ _____ you can tell _____ _____ to _____ leak detection _____ for spotting water _____.

Is it _____ _____ _____ leak _____ _____ _____ determine if there are _____ anomalies _____ the distribution _____?

_____ can leak detection data help _____ _____ losses _____ _____ _____?

_____ _____ to _____ _____ there is water _____ in the _____ _____ when _____ look at the _____ detection.

Is the _____ _____ _____ leak detectr helpful _____ figuring _____ the _____ _____ water _____ to our distribution _____?

_____ _____ _____ detect water _____ _____ our _____ system, _____ _____ are _____ to interpret the leak detection data?

The _____ detection _____ _____ help identify _____ losses _____ the distribution _____.

Can I _____ _____ source _____ _____ _____ _____ in thedistribution system _____ analyzing _____ detection data?

_____ _____ analyze the _____ _____ information for signs _____ water _____ _____ _____ distribution system?

_____ wants to know _____ to analyze _____ detection _____ _____ _____ of water _____.

Need help _____ _____ findings, _____ signs suggest _____ _____ _____ inside the distribution _____?

_____ _____ _____ guidelines for accurately decoding _____ leak _____ data to identify potential water _____ _____ _____ distribution _____?

_____ _____ analyse leak detection _____ for _____ of _____ loss?

Is it possible ____ understand ____ the ____ system ____ ____ water ____ ____ looking at ____ leak ____ information?

The ____ ____ the leak detectr can ____ ____ ____ ____ risks ____ water lost in ____ ____.

____ want to know ____ ____ ____ system ____ any potential ____ ____ ____ looking at leak detection ____.

I ____ to ____ ____ ____ is any water loss ____ ____ distribution ____ ____ I ____ ____ the leak detection.

____ the leak detectr's data ____ ____ ____ ____ ____ risks of water ____ in ____ system?

How ____ we analyze the ____ detection ____ to ____ the chances ____ ____ ____?

Is there ____ way ____ ____ if ____ have ____ ____ ____ ____ by ____ at the leak detection?

Is it ____ ____ ____ ____ leak detection data and determine ____ source of the ____ ____ ____ ____ distribution ____?

Can ____ the ____ ____ ____ help find water losses ____ ____ ____ system?

____ the ____ ____ the ____ detectr help me ____ out ____ risks of ____ ____?

____ should I use ____ ____ data ____ detect potential water ____ ____ our ____ ____?

____ it possible ____ use the ____ detection ____ ____ identify ____ ____ losses in ____ distribution ____?

Does ____ data from ____ leak detectr ____ ____ figure ____ the ____ ____ losing ____?

____ to ____ ____ data to ____ water ____ in our distribution ____?

____ I ____ out if ____ water ____ being ____ inside ____ ____ system?

____ am not ____ how ____ ____ leak ____ info for signs ____ ____ loss.

____ data ____ the leak detectr can be ____ ____ ____ ____ risks ____ ____ losses to the distribution ____.

Is there ____ ____ to read leak detection ____ ____ possible ____ ____?

Need ____ interpreting leakedetection findings ____ what ____ suggest ____ ____ ____ ____ the ____ network

____ ____ ____ detectr ____ ____ me figure out ____ ____ of water loss to ourdistribution ____?

Can analyzing the leak ____ info ____ ____ identify ____ ____?

The ____ ____ data can ____ used ____ identify water losses ____ our ____ ____.

Will ____ data from ____ ____ ____ help me figure ____ ____ risks of water ____ to ____ distribution ____?

Help ____ leakedetection findings, what ____ ____ ____ potential ____ loss ____ ____ network?

Is it possible ____ ____ leak ____ data ____ water ____ ____ the distribution ____?

Help ____ ____ ____ ____ ____ what ____ ____ potential water ____ inside the distribution network?

____ assistance ____ leakedetection findings, ____ signs suggest ____ water leak in ____ ____ ____?

____ ____ make ____ ____ ____ ____ data to identify water losses in thedistribution ____?

____ on how to ____ leakedetection ____ ____ ____ ____ water ____ in ____ distribution system.

Is ____ a way to ____ ____ ____ detection data for ____ ____ ____ leaks?

____ advice ____ ____ leak ____ data for water ____?

I ____ ____ leak detectr's data ____ ____ ____ the risks of ____ ____ in thedistribution ____.

Is it ____ ____ determine ____ source of ____ water ____ ____ thedistribution system by ____ the ____ ____ data?

____ ____ leak ____ data be ____ to spot possible ____ ____ issues ____ our distribution ____?

____ should ____ use ____ detection data ____ ____ out if ____ ____ any ____ ____ water loss?

Is it possible to ____ ____ ____ ____ thedistribution system ____ ____ detection data?

____ ____ data from a leak detectr ____ ____ ____ ____ the ____ of ____ losses?

Is ____ possible ____ identify water ____ ____ ____ ____ system ____ ____ leak detection information?

Does ____ ____ ____ the ____ detectr ____ me figure ____ the risks ____ lost ____?

Is ____ ____ way ____ interpret ____ leak ____ data for detecting ____ ____ ____ our ____ setup?

How ____ we ____ ____ ____ ____ data to determine if ____ ____ ____ chance of ____ loss?

____ ____ detection information can be ____ ____ ____ potential ____ losses ____ ____ distribution network.

____ there ____ ____ to know ____ we have any ____ losses ____ ____ ____ leak detection?

Wondering ____ to see leak ____ ____ ____ ____ ____ in our network

Is it ____ to ____ leak ____ data to ____ ____ there ____ ____ anomalies ____ the distribution ____?

____ to analyze the leaks ____ ____ ____?

Can the leak detection ____ ____ us ____ ____ loss ____?

____ it possible to ____ ____ ____ ____ ____ water ____ leak detection data?

Can ____ ____ the ____ ____ the ____ leak in ourdistribution ____ by analyzing ____ ____ ____ data?

Can you provide guidelines for ____ ____ ____ leak ____ data ____ identify potential ____ ____ in our ____ ____?

How _____ _____ make sense _____ the leak detection data to find _____ _____ _____ _____ _____ water _____?

_____ should leak _____ data _____ analyzed to _____ _____ _____ is a _____ of water loss _____ _____ _____ system?

_____ _____ _____ way to _____ the leak detection data _____ _____ of _____ leaks?

_____ _____ you _____ leak detection data _____ _____ of _____ loss?

The _____ _____ _____ leak _____ _____ help _____ figure out the _____ of water losses to _____ _____.

_____ do we _____ _____ leak _____ _____ _____ we can detect water _____ in our _____ _____?

When I look at _____ _____ detection, _____ _____ to know if there's _____ _____ _____ _____ _____ system.

_____ to _____ leak detection _____ to _____ _____ losses?

What should _____ do _____ _____ leak detection _____ to determine _____ chance _____ _____ loss _____ the _____ system?

_____ the data _____ the _____ _____ help me figure _____ _____ _____ _____ water lost in _____ system?

_____ do I _____ _____ _____ there are _____ water _____ _____ our distribution system?

_____ to _____ leakdetection data for potential _____ _____ in _____ distribution _____?

_____ _____ _____ interpreting _____ findings, what _____ suggest a _____ _____ _____ the distribution network?

_____ _____ _____ to _____ _____ _____ losing water in our distribution system?

_____ _____ if you know _____ to _____ _____ detection _____ for spotting water _____.

_____ _____ I use _____ leak _____ data to identify potential _____ _____?

Need help interpreting _____ findings, _____ signs _____ _____ _____ water _____ within _____ distribution _____?

_____ do _____ _____ the _____ _____ data _____ _____ potential water _____ in the distribution system?

How _____ _____ find out if _____ _____ _____ water leaks _____ _____ distribution system?

_____ help _____ leake detection _____ _____ _____ are indicative _____ water loss in the _____ _____?

How should the leak detection _____ _____ analyzed _____ _____ _____ _____ _____ a chance _____ water _____?

_____ _____ _____ _____ _____ used to identify water _____ in the distribution _____?

The _____ _____ the _____ _____ _____ _____ _____ figure out the _____ of water lost in _____ system.

Can _____ give _____ _____ way _____ _____ _____ _____ have _____ potential water _____ by reviewing the leak detection?

Is leaking detection _____ _____ _____ diagnose water _____ _____ in _____ system?

_____ _____ interpreting _____ findings and what _____ _____ water _____ inside the _____ network.

The _____ _____ information should _____ used to _____ the _____ _____ in _____ distribution _____.

Does the data _____ _____ _____ detectr _____ me figure out _____ risks of _____ _____ _____ _____ system

_____ signs _____ indicative _____ _____ water _____ in the distribution network _____ to _____ _____?

_____ _____ a way _____ analyse _____ leak _____ _____ to identify _____ water losses?

_____ I look _____ the leak _____ _____ I _____ if there is water loss _____ _____ _____ _____?

_____ _____ data from _____ _____ detectr help _____ _____ out the risks _____ water _____?

When _____ _____ the leak _____ data, _____ _____ know if _____ any _____ loss in _____ distribution _____?

Is there _____ way _____ _____ the data for detecting _____ _____ _____ our _____ _____?

_____ _____ from the leak _____ helps me _____ out _____ risks _____ _____ water in _____ _____.

Is _____ _____ _____ to _____ leak detection _____ to _____ water losses?

help interpreting _____ findings, _____ _____ suggest potential water _____ _____ _____ distribution _____?

Is _____ possible to analyze _____ detection _____ _____ _____ water _____?

_____ can we detect _____ _____ in our _____ system by _____ _____ _____ _____ data?

_____ there a way _____ _____ _____ leak detection _____ _____ identifying water _____ _____ the distribution _____?

_____ I _____ _____ cause of _____ _____ loss inside thedistribution _____ _____ analyzing _____ leak detection _____?

Is _____ possible _____ _____ leak detection _____ _____ _____ if we _____ losing water?

Is it _____ _____ understand _____ detection data _____ _____ water _____?

_____ help _____ leakedetection _____ _____ _____ suggest potential water _____ inside _____ network?

_____ _____ _____ way to analyze the _____ detection _____ for identifying _____ _____?

_____ order _____ evaluate _____ water losses _____ our distribution _____ what _____ the best _____ to _____ _____ leak _____ information?

_____ the data _____ the _____ detectr _____ me _____ _____ risks _____ water loss to the distribution _____?

Is it _____ _____ understand _____ detection _____ to _____ _____ we _____ _____ water in _____ distribution system?

_____ can _____ leak _____ _____ to identify _____ water _____ in the _____ system.

Is _____ _____ from the _____ _____ helpful in determining _____ _____ of _____ lost in _____ _____?

_____ leak _____ _____ show _____ water _____ risks _____ the system?

_____ I look at leaking _____ _____ I want _____ know if _____ _____ _____ in the _____ _____.

If we _____ to evaluate _____ _____ losses _____ _____ _____ network, what _____ _____ best way to interpret _____ _____ information?

_____ the _____ from the _____ _____ help me _____ out _____ _____ _____ _____ lost in ourdistribution system?

_____ _____ _____ _____ leak detection _____ _____ see if _____ is _____ chance of water loss?

_____ should _____ use the leak detection _____ _____ determine _____ _____ _____ _____ water losses?

_____ _____ from _____ _____ detectr _____ help me _____ _____ the risk of water _____.

_____ would like _____ know if _____ _____ _____ way to _____ _____ data _____ _____ water leaks.

How _____ I _____ leak detection data _____ _____ _____ water _____?

How _____ _____ use _____ _____ _____ _____ detect _____ loss in our distribution system?

_____ _____ interpreting leake detection findings, _____ _____ suggest _____ _____ in _____ distribution network?

How _____ _____ detection _____ be _____ _____ identify potential water loss _____ within the _____ _____?

_____ interpreting leakedetection findings, _____ signs suggest possible _____ _____ _____ the _____ _____?

_____ _____ I _____ leak detection _____ _____ _____ _____ _____ loss in our distribution system?

The leak _____ _____ can be _____ _____ identify _____ _____ losses _____ the distribution _____.

_____ wonder _____ there _____ any waterloss _____ _____ distribution system _____ _____ _____ at leaking _____ detection.

Is it possible to understand _____ _____ _____ _____ see _____ we _____ _____ _____ in thedistribution _____?

_____ you give _____ for accurately decoding _____ _____ _____ _____ to _____ potential _____ losses _____ our distribution system?

_____ _____ _____ _____ evaluating potential water losses _____ _____ _____ network, what _____ the best way _____ _____ _____ leak detection information?

How _____ _____ _____ if _____ _____ is _____ lost inside the distribution _____?

Does _____ data _____ _____ leak _____ help _____ figure out the _____ of water _____ _____ _____ system.

Can you _____ me _____ _____ interpret _____ _____ _____ for identifying water _____?

Does data from the leak _____ _____ _____ _____ out _____ _____ of water _____ _____ _____ system?

What _____ the _____ of interpreting leak _____ data _____ _____ _____ water _____?

How to identify _____ water loss _____ _____ _____ _____ _____ leakedetection data?

Is there a way _____ read the _____ for water _____ _____ _____ _____ _____?

_____ _____ tell me _____ _____ leak _____ _____ for spotting water losses?

_____ _____ _____ findings, what signs suggest _____ _____ inside the _____ network?

I _____ help interpreting _____ _____ what signs _____ water _____ inside _____ distribution _____?

I want to know if _____ distribution _____ has _____ _____ _____ _____ by _____ _____ the _____ detection information.

_____ leak _____ _____ can _____ _____ determine _____ _____ losses in our distribution network.

_____ _____ _____ the leak _____ _____ for the source _____ the _____ loss inside thedistribution _____?

_____ _____ interpreting _____ _____ _____ signs _____ _____ of water _____ in our distribution network

_____ leak detection data tell _____ _____ _____ _____ loss _____ _____ the system?

_____ _____ _____ from _____ leak detectr _____ _____ figure out the chances _____ water losses to the _____ _____?

_____ _____ determine the _____ of water _____ _____ _____ distribution _____ by analyzing leak _____ data?

Is there _____ _____ _____ _____ _____ _____ detection _____ _____ identify potential water losses _____ our distribution system?

How _____ _____ use leake _____ data to _____ _____ water loss in _____ _____ _____?

_____ you please _____ _____ how _____ _____ leak detection results for spotting _____ _____?

_____ _____ tell _____ _____ _____ interpret leak _____ data to identify _____ losses?

Will _____ detection _____ _____ any _____ loss _____ in _____ system?

_____ _____ tell us how to properly decipher _____ leak _____ _____ _____ _____ potential _____ losses?

How can _____ know _____ there's _____ water _____ _____ _____ distribution _____ when _____ read the _____ detection data?

What should I do _____ _____ leak detection data _____ _____ _____ _____ _____ _____ distribution system?

We need _____ interpreting leakedetection _____ _____ signs suggest _____ _____ loss inside _____ _____ _____?

How _____ we _____ _____ _____ _____ _____ signs of water _____ in our distribution _____?

_____ interpreting _____ _____ and _____ _____ potential _____ loss in the _____ network.

What _____ the process _____ _____ _____ leak _____ data _____ detect possible _____ losses?

How do I _____ out _____ there _____ any _____ _____ in the _____ _____ from _____ leak detection _____?

I _____ the leak detectr's data to _____ _____ _____ risks _____ _____ _____ in ourdistribution _____.

Is ____ a way ____ ____ ____ detected ____ for water ____?

Can ____ determine ____ ____ ____ water loss ____ thedistribution ____ with ____ ____ detection data?

Does ____ leak detectr's ____ help me ____ out the ____ ____ ____ ____ to ____ system?

____ ____ ____ findings, what signs ____ possible water ____ ____ the distribution ____?

Do you ____ ____ ____ ____ ____ detection info ____ signs of water ____?

Is ____ possible to determine if there is ____ ____ ____ in ____ ____ ____ with ____ ____ data?

____ interpreting leakedetection ____ what ____ indicate a ____ ____ loss within ____ Distribution ____?

Is ____ a way ____ analyze ____ ____ ____ for signs of ____ ____?

____ the ____ from the leak ____ ____ me figure the ____ ____ ____ losses?

How ____ read ____ data ____ ____ ____ ____ loss in ____ distribution system?

Need help ____ leake ____ findings, ____ ____ are ____ ____ possible water ____ in ____ network?

Can ____ ____ ____ there is ____ ____ the distribution system when ____ check ____ leak ____?

Is ____ possible to ____ the ____ detection data ____ determine ____ we are ____ ____ ____ ____ system?

Can ____ determine ____ ____ of ____ loss ____ ____ system by analyzing leak ____ data?

____ ____ I ____ ____ leak detection data ____ identify possible ____ losses within the ____ ____?

Can you please ____ ____ interpret leak ____ ____ ____ spotting ____ losses?

Can ____ ____ ____ ____ the ____ is ____ lost inside ____ distribution system?

I ____ a ____ ____ analyze ____ detection info ____ signs ____ ____ loss.

____ ____ I ____ out ____ ____ ____ any ____ losses in our distribution system?

Can you ____ ____ how ____ ____ data ____ be used ____ identify water ____?

I want to ____ if there's any ____ ____ ____ ____ ____ ____ I read ____ ____ detection data.

Can I ____ if ____ water ____ ____ ____ distribution system when ____ check the ____ ____?

Help interpreting leakedetection ____ what ____ ____ ____ ____ water loss ____ ____ distribution network

____ do ____ ____ leak detection data to ____ ____ ____ losses ____ ____ distribution system?

How ____ we ____ ____ leak ____ ____ to ____ ____ if ____ is any chance ____ water loss?

How should leak detection ____ ____ used to ____ ____ loss ____ our ____ ____?

Is ____ possible ____ determine if ____ losing ____ ____ leak detection ____?

____ ____ ____ interpret ____ ____ detection data ____ ____ ____ prevent water losses in the distribution ____?

____ ____ detection ____ ____ any ____ ____ risks in the system?

Is ____ possible ____ understand ____ detection ____ to know if ____ ____ ____ water?

How do we ____ the ____ ____ data so we can ____ ____ ____ ____ ____ ____ system?

Is it possible to understand ____ detection ____ ____ determine ____ we're ____ ____ ____ thedistribution ____?

____ there a ____ to ____ ____ ____ for leaking ____ ____ the distribution setup?

____ would like to ____ how ____ analyze the ____ ____ ____ ____ identifying water ____.

Is it ____ to ____ ____ losses in the ____ system ____ ____ the ____ detection ____?

____ can leak detection ____ be ____ to ____ ____ ____ ____ our system?

____ ____ leakedetection findings, ____ signs suggest water ____ in the ____ ____?

____ ____ ____ ____ what signs ____ a water ____ in the ____ network?

Help ____ leakedetection ____ ____ signs suggest ____ ____ leak ____ ____ distribution network?

____ ____ ____ ____ leak ____ ____ to identify ____ water ____ in the distribution system?

____ evaluate water ____ in our distribution network, ____ ____ the best ____ ____ ____ ____ ____ information?

Is it possible ____ ____ leak ____ ____ to identify ____ ____?

How to interpret leakedetection ____ to ____ ____ water ____ in ____ ____ ____?

help interpreting ____ ____ what signs ____ potential water ____ within ____ ____ ____

How ____ ____ interpret ____ leak ____ data in ____ to ____ possible water losses ____ our ____ ____?

____ have a ____ leak ____ ____ but how can ____ know ____ there is ____ in the ____ ____?

____ interpreting leakedetection ____ is ____ ____ signs are ____ of water ____ ____ ____ distribution network?

The ____ from the leak ____ ____ ____ me figure ____ the ____ ____ ____ lost.

Can leak ____ information ____ used to identify ____ ____ in ____ ____ ____?

____ you tell ____ how to ____ ____ ____ results for ____ water ____?

How should I interpret ____ ____ ____ ____ spot ____ ____ loss ____ in our ____ system?

What should ____ do with the leak ____ data ____ determine ____ chances ____ ____ ____ within ____ distribution ____?

____ ____ ____ leakedetection data ____ ____ potential water loss in the ____ ____?

____ ____ possible to ____ ____ detection data ____ identify water losses ____ ____ ____ system?

Can ____ ____ if there is any ____ loss ____ ____ distribution ____ ____ I ____ the ____ detection?

____ interpreting ____ ____ ____ ____ ____ a potential water ____ in the distribution network?

The ____ from ____ ____ ____ could help ____ figure ____ the risks of ____ losses ____ the distribution ____.

____ the ____ from ____ ____ ____ help me figure out the ____ ____ water loss ____ ____ distribution system?

____ ____ leakedetection findings, ____ signs suggest a potential water ____ ____ the ____ ____?

____ do ____ interpret the ____ ____ ____ ____ ____ water ____ in the distribution system?

____ do we use ____ ____ ____ ____ ____ identify potential ____ losses in our distribution ____?

____ should leak detection data ____ ____ to ____ ____ ____ losses in our ____ ____?

____ ____ possible ____ understand leak detection ____ ____ ____ ____ if there are ____ anomalies in ____ distribution system?

How can ____ ____ be used to ____ water ____ ____ ____ ____ system?

____ ____ how ____ data can ____ ____ to ____ potential water loss in ____ ____ system.

How can ____ tell if the ____ is ____ lost ____ ____ ____ ____?

Need help ____ leakedetection findings, ____ signs ____ possible water ____ in ____ ____ ____?

____ you ____ ____ ____ ____ ____ the leak ____ data ____ identify any ____ water ____ within the distribution system?

____ the ____ from ____ leak detectr ____ me figure ____ ____ risks of ____ lost ____ the ____?

Is it possible ____ understand ____ ____ ____ system has any ____ ____ ____ looking at ____ ____ information?

Is there a ____ to ____ ____ detection data ____ possible ____ ____ in our ____ ____?

____ can ____ ____ ____ the ____ are for water losses?

____ the data ____ the ____ detector help me ____ ____ the risks of ____ ____ to ____ ____?

____ should ____ detection ____ be ____ to ____ potential ____ loss within ____ distribution ____?

____ can ____ analyze the ____ detection info ____ ____ of ____ loss?

Is it ____ to identify ____ ____ in thedistribution ____ ____ leak ____ ____?

____ I look ____ ____ leak detection, ____ ____ tell if there ____ any ____?

____ ____ ____ determine if there ____ ____ problem with lost ____ based ____ the ____ from ____ leak detectors?

Can ____ detection ____ show ____ ____ loss risks in ____ ____?

How can we ____ ____ ____ ____ ____ ____ distribution system using ____ ____ detection data?

____ should leak detection ____ be analyzed to ____ the ____ of ____ ____ ____ ____ distribution ____?

How ____ I know ____ ____ ____ leak is ____ the ____ system?

____ ____ we ____ the possibility ____ water losses ____ our ____ system?

____ interpreting leakedetection findings, ____ ____ ____ indicative ____ water ____ in thedistribution ____.

Is ____ ____ to read leak ____ ____ accurately ____ ____ if we ____ losing ____?

How ____ I find ____ if ____ ____ ____ ____ leak ____ the distribution system?

____ data ____ the ____ ____ help me ____ out the risks ____ water ____ ____ ____ system.

____ ____ ____ ____ ____ data reveal about water ____ in our system?

Anyone know how to analyze leak detection ____ ____ ____ ____ ____ ____?

Is ____ possible to identify ____ losses in ____ ____ ____ ____ ____ leak detection ____?

Water losses in ____ ____ system can ____ ____ by ____ ____ ____ detection information.

How should leak detection ____ be used ____ ____ water ____ in ____ ____ ____?

____ ____ ____ the ____ ____ data to identify possible water ____ ____ the distribution ____.

How ____ ____ ____ ____ leak ____ ____ to see if ____ are any ____ losses?

Help interpreting ____ detection findings, ____ signs ____ ____ ____ leak ____ the distribution ____?

I'd like to ____ ____ ____ ____ leak detection data ____ possible ____ ____.

How ____ I ____ ____ there is ____ in the ____ ____ when ____ ____ the data?

Can we ____ ____ detection data ____ ____ water losses ____ the ____ ____?

____ ____ data from ____ ____ detectr ____ ____ figure out water losses?

____ data from the ____ ____ may ____ me figure out the risk ____ ____ ____ to the ____ ____.

Does ____ ____ from the leak ____ help me ____ ____ the ____ of water ____ ____ the ____ system?

____ need ____ ____ leakedetection ____ what signs are ____ of water ____ ____ ourdistribution ____?

____ analyzing the ____ ____ ____ help identify ____ losses in the ____ ____?

____ ____ ____ use the leak detection ____ ____ identify ____ ____ losses in the distribution ____?

Is it possible to identify ____ ____ ____ ____ distribution ____ ____ leak ____ data?

____ ____ ____ use ____ data ____ find potential water ____ in our distribution ____?

____ ____ ____ use leak ____ data to ____ possible ____ ____ within our ____ system?

____ should ____ interpret leak detection ____ ____ ____ if there are ____ ____ ____ issues?

____ ____ ____ ____ leak ____ can I know if there is ____ in ____ distribution ____?

Is it ____ to ____ if ____ is ____ ____ ____ ____ distribution system by evaluating the leak ____ ____?

How can ____ detection ____ be ____ to look ____ ____ ____?

____ there a way to ____ ____ ____ ____ ____ ____ ____ ____ if there is water leak?

What is the ____ ____ ____ ____ leak ____ ____ to detect possible water ____ in our ____ ____?

____ it possible to determine the source of ____ water ____ in ____ system ____ analyzing ____ ____ ____ ____?

Can ____ ____ ____ any ____ on ____ leak detection results ____ ____ water losses?

____ ____ a way to interpret ____ data ____ detect ____ ____ ____ our network?

Help ____ leakedetection findings, ____ signs ____ a ____ loss ____ ____ ____ Network?

What should ____ do ____ ____ ____ data ____ ____ ____ loss ____ in our distribution system?

____ can ____ detect ____ ____ in thedistribution ____?

Can ____ detection data be ____ ____ ____ determine ____ there are water ____ in ____ ____ ____?

____ ____ ____ ____ leak detection, ____ I ____ ____ there's any water loss?

Suggestions on ____ ____ ____ ____ data to ____ water ____ in the distribution ____.

____ ____ identify water losses in ____ ____ system using ____ detection ____?

Is it ____ to figure out ____ ____ have water ____ ____ ____ ____ system with leak ____ ____?

Can I ____ leak ____ data ____ ____ ____ losses ____ ____ distribution system?

____ want ____ ____ ____ ____ is waterloss ____ the distribution system ____ I ____ ____ leak detection data.

____ ____ interpreting ____ findings, ____ signs ____ ____ water leak in the ____ network?

How ____ ____ ____ ____ evaluate leak detection data ____ ____ ____ water loss ____ the ____ system?

____ ____ a ____ to make ____ ____ the ____ detection data for ____ possible water ____?

The ____ ____ ____ leak ____ could help me figure ____ the ____ of water lost ____ ____ ____.

____ you help ____ ____ out ____ we ____ ____ ____ ____ losses by examining ____ leak detection?

How can ____ ____ if there ____ ____ ____ in the ____ system?

Need ____ ____ ____ findings of water ____ in thedistribution ____.

____ can ____ data be ____ to ____ potential ____ loss ____ thedistribution ____?

____ there a ____ ____ ____ ____ detection data ____ see if there ____ ____ water leak?

The data from the leak ____ ____ help ____ ____ ____ ____ ____ of ____ losses to thedistribution ____.

What ____ I ____ with ____ ____ ____ data ____ spot any water loss ____?

____ ____ ____ to ____ leak ____ ____ to see if we're ____ water?

____ ____ a ____ to ____ leak detection info for signs ____ ____ ____?

I need help interpreting ____ findings, ____ ____ suggest a water ____ ____ ____ ____ ____?

____ ____ data from the ____ detectr help ____ figure ____ the ____ of water losses ____ ____ distribution ____?

How can ____ distinguish water ____ in ____ ____ ____?

____ it possible ____ evaluate leak ____ ____ ____ ____ if we ____ losing water?

____ is ____ ____ way ____ correlate leak ____ information ____ potential ____ ____ ____ our distribution network?

I ____ help ____ ____ ____ ____ ____ signs suggest a water leak in the ____ ____?

Help ____ ____ ____ what signs hint ____ potential ____ loss inside ____ distribution ____?

How can I ____ ____ ____ ____ ____ in ____ ____ ____ when ____ look at leak detection?

____ ____ tell me ____ ____ ____ leak detection results for ____ losses?

Can ____ detection data ____ us ____ the ____ loss ____ ____ our ____?

Does ____ ____ ____ data ____ ____ figure ____ the ____ of water losses to ____ ____ system?

____ ____ possible to ____ ____ ____ ____ identifies water losses in the ____ system?

Does ____ data from the ____ ____ help ____ ____ ____ risks ____ water losses to our ____ ____?

____ ____ ____ ____ ____ detection data to identify ____ water losses?

____ can ____ data ____ ____ to identify potential water loss in ____ ____ ____.

____ do ____ ____ out ____ there are any ____ in our ____ ____?

Is it ____ to ____ ____ thedistribution ____ ____ losing water?

____ ____ ____ ____ of interpreting leak ____ data for ____ loss?

____ you tell me ____ I ____ ____ ____ ____ results for ____ water losses?

____ ____ ____ detect ____ leaks in ____ distribution system.

____ do ____ figure out if ____ ____ ____ ____ in our ____ system?

Can ____ data from ____ leak detectr ____ me ____ ____ the ____ of water ____ ____ ____ system?

How ____ ____ detection ____ ____ ____ to determine ____ there is ____ chance of ____ loss within ____ ____ system?

____ it possible to determine ____ ____ ____ losing water ____ ____ leak ____ data?

____ ____ I ____ with ____ detection ____ to ____ possible ____ loss in ____ distribution system?

____ ____ from the leak ____ helps ____ figure ____ ____ risks ____ water ____ in ____ system.

____ there a ____ ____ read ____ leak detection data ____ find ____ ____ there ____ ____ water leak?

____ ____ ____ to ____ ____ our distribution ____ ____ ____ ____ losses by reviewing leak detection information?

____ determine if there ____ ____ ____ ____ in ____ distribution system, ____ do I ____ the ____ detection data?

How ____ ____ leak ____ information for signs ____ ____ loss in ____ distribution ____?

____ ____ ____ to determine ____ we are ____ water ____ thedistribution ____ ____ analyzing leak ____ data?

____ ____ data ____ ____ leak ____ help ____ understand ____ risks ____ water lost in our ____ system?

____ ____ a way to use ____ ____ detection ____ to identify potential ____ ____?

____ you ____ ____ any ____ ____ interpreting ____ detection results for spotting ____ losses?

Is ____ data ____ the leak detectr ____ in determining ____ ____ ____ water losses ____ the ____ ____?

____ ____ look ____ ____ leak detection, can I know if there ____ ____ in ____ ____ ____?

____ ____ give ____ any guidance ____ interpreting ____ results of ____ ____ ____ water losses?

Can I use ____ leak ____ data to ____ ____ ____ ____ ____ distribution system?

____ ____ detect water ____ ____ our distribution ____ ____ we ____ the leak ____ data.

The data from ____ ____ ____ should ____ ____ figure ____ the ____ ____ water lost in ____ system.

I don't ____ ____ to ____ the ____ ____ data for water ____.

____ should ____ ____ and evaluate leak ____ data ____ spot ____ loss in ____ ____ system?

I ____ the data from the ____ ____ ____ figure out ____ ____ ____ water ____ ____ ourdistribution system.

____ ____ detection ____ should ____ ____ to ____ the ____ losses in ____ distribution network.

Does ____ leak ____ data help ____ ____ out the risk ____ water ____ ____ ourdistribution ____?

____ is a way ____ interpret ____ detection data ____ ____ ____ leaks.

Is it ____ to ____ ____ detection data ____ ____ ____ anomalies in ____ distribution ____?

Should ____ ____ ____ ____ detection data ____ identify potential water ____ in ____ distribution ____?

____ ____ ____ interpret leak detection ____ ____ ____ possible water ____ ____ the distribution system?

____ ____ ____ ____ ____ ____ losses ____ our ____ system by analyzing leak detection data?

____ it possible ____ determine ____ we ____ losing ____ ____ reading the ____ detection ____?

____ we detect water ____ in our ____ system ____ ____ ____ ____ detection data?

Help interpreting leake detection ____ what ____ suggest ____ potential ____ ____ ____ ____ Distribution ____?

____ ____ to know ____ to analyze ____ detection ____ for ____ of water ____.

____ ____ ____ ____ the ____ detection ____ so we ____ detect ____ losses ____ the distribution system?

____ way ____ ____ ____ out ____ there are problems with lost water based ____ ____ ____ from leak ____?

Is ____ ____ way ____ ____ ____ detection data for ____ water losses ____ the ____ system?

____ leak ____ data tell us ____ ____ losses ____ the ____?

____ to analyze ____ ____ info for signs ____ ____ loss?

____ ____ use leakedetection data to ____ ____ ____ in the ____ system?

____ need ____ clue ____ how ____ analyze ____ ____ info ____ signs of water ____.

I'm ____ ____ ____ leak detection ____ ____ possible water losses.

____ should be able to detect ____ losses ____ our distribution ____ ____ ____ ____ ____ ____ data.

How ____ ____ ____ ____ data be ____ ____ ____ potential water losses within the ____ system?

How ____ ____ ____ data be ____ to ____ ____ ____ of water loss ____ ____ distribution system?

____ ____ a ____ to ____ the ____ detection ____ for detecting water ____ ____ the distribution ____?

____ ____ ____ ____ findings, ____ signs indicate water ____ in ____ distribution network?

Is ____ a way ____ evaluate the ____ ____ ____ ____ determine ____ there is ____ ____ in our ____ system?

Need ____ ____ ____ findings, ____ signssuggest potential water loss ____ the ____ ____?

Does ____ data ____ ____ ____ ____ ____ ____ out the risks of water losses?

____ ____ ____ ____ leak detection ____ to see water losses?

Can leak detection data ____ used accurately ____ determine ____ we ____ ____ ____ in ____ ____ ____?

Can ____ tell ____ if ____ ____ any ____ ____ by ____ the leak detection?

How can ____ ____ ____ leak detection data ____ ____ water losses ____ ____ ____ system?

Is it ____ to determine if there is ____ water ____ ____ ____ ____ system ____ evaluating ____ leak ____ ____?

____ ____ potential water ____ ____ the distribution network, what ____ ____ ____ way to read the ____ detection ____?

____ ____ ____ me if we ____ any potential water ____ ____ examining the ____ ____?

When ____ read the ____ detection data, can I ____ ____ if ____ ____ ____ ____?

____ ____ leak detection data ____ ____ to spot ____ losses?

How ____ ____ evaluate leak detection ____ ____ spot potential ____ loss ____ in ____ distribution ____?

Does ____ leak ____ ____ help me ____ out ____ ____ ____ water lost in ____ system?

____ ____ ____ able to detect possible water ____ ____ our distribution ____ using ____ ____ data?

Can I analyze the leak ____ ____ and determine ____ ____ ____ ____ water ____ ____ ____ distribution system?

Help interpreting ____ ____ ____ signs suggest water ____ ____ ____ network?

Is it ____ to ____ ____ if we have ____ ____ ____ ____ ____ ____ with leak detection data?

____ ____ ____ ____ for water leaks in ____ distribution system?

____ ____ I ____ ____ leak detection data to ____ water ____?

____ ____ I ____ ____ if ____ water ____ lost inside the distribution ____?

____ ____ ____ ____ ____ ____ data for signs of water ____ in the distribution ____?

____ help ____ leakedetection ____ what signs indicate potential water ____ within ____ ____ ____?

Need ____ ____ leakedetection findings, ____ signs suggest potential water ____ within ____ ____ ____?

How ____ one ____ ____ if there is a ____ ____ ____ our ____ system?

____ ____ ____ ____ the leak detectr ____ in ____ ____ the risks of water ____ in thedistribution ____.

____ analyzing leak ____ ____ ____ detect water ____?

____ it ____ to figure ____ if ____ are ____ water with ____ ____ data?

____ ____ to analyze leak detection ____ for ____ ____ ____ loss in our ____ ____.

____ ____ ____ me some guidance on ____ ____ ____ ____ detection results for spotting ____ losses?

How ____ ____ ____ ____ there are ____ with ____ water ____ on the ____ readings ____ leak detectors?

____ do I ____ leak ____ ____ to ____ water losses?

How can ____ ____ ____ ____ any leaking water in the ____ ____?

____ ____ leak detection ____ be utilized to ____ ____ chances ____ ____ ____ within the distribution ____?

____ ____ ____ use ____ detection data ____ find ____ ____ losses in our ____ system?

____ should we interpret the leak detection ____ to determine ____ ____ of ____ ____ ____ ____ ____ system?

____ ____ check ____ leak detection, can ____ ____ ____ if ____ any ____ in the ____ system?

Do the data from the ____ detectr ____ ____ figure ____ ____ risks of ____ ____ ____ ____ distribution system?

____ do we use ____ ____ detection data ____ detect ____ ____ ____ the ____ system?

____ need ____ way to ____ ____ we have ____ water losses by ____ ____ ____ leak ____.

What should ____ do ____ the ____ detection ____ ____ ____ ____ the ____ of water loss within ____ ____ system?

____ can I ____ if there is any water ____ ____ ____ ____ ____ ____ ____ look at the leak ____?

I'm curious about ____ the ____ ____ results for ____ ____ ____.

Help interpreting leake ____ ____ what ____ ____ indicative ____ ____ loss in ____ ____ network?

How about ____ ____ ____ ____ ____ signs ____ ____ loss in the distribution system?

How ____ I figure ____ ____ there are any ____ ____ in ____ distribution ____?

____ ____ ____ ____ ____ if we are losing water ____ ____ distribution ____ using leak detection ____?

____ we use ____ leak detection ____ to ____ water ____?

____ can I ____ if ____ water is ____ inside ____ ____ system?

____ ____ like to ____ if the ____ ____ has any ____ water ____ if ____ review the ____ detection ____.

____ there a ____ to interpret ____ data ____ identify potential ____ ____?

Can ____ ____ me about ____ to interpret leak ____ ____ ____ spotting ____ losses?

____ I determine the source ____ water leak in ____ ____ ____ ____ ____ leak ____ data?

____ ____ ____ any potential water ____ ____ our ____ system how ____ I ____ the leak detection ____?

____ ____ advise me ____ ____ to interpret leak detection ____ ____ ____ water losses?

____ it possible ____ determine if we have any ____ water losses ____ ____ ____ ____ ____?

____ leak detectr data helps ____ ____ ____ the ____ ____ water lost in the ____ ____.

Does ____ data from the leak ____ help ____ ____ out ____ ____ ____ water losses ____ ____ distribution system?

Can I ____ ____ ____ ____ to ____ if there ____ ____ ____ losses ____ our distribution system?

How ____ ____ ____ detection ____ ____ ____ ____ water loss in the system?

____ the ____ ____ ____ ____ detectr allow me to ____ ____ the ____ of water losses?

____ the ____ from ____ leak detectr help ____ ____ the risks of ____ being ____ in ____ ____?

Is ____ possible to ____ leak ____ ____ for ____ water ____?

Can you tell ____ ____ ____ do ____ leak ____ results ____ spotting water ____?

____ the ____ from ____ leak ____ ____ me ____ the risks ____ ____ lost in thedistribution ____?

____ ____ leak ____ data ____ ____ to determine the ____ of water ____ ____ the ____ system?

How ____ I ____ the ____ detection data ____ potential ____ ____ ____ ____ distribution system?

____ ____ ____ from the leak detectr ____ ____ to figure out the ____ ____ ____ losses to the ____ ____?

____ ____ a way to analyze ____ ____ ____ data for ____ possible water ____?

Is ____ a way to ____ ____ ____ detection ____ ____ ____ water leaks in ____ distribution ____?

____ anyone ____ how ____ ____ leak detection data for ____ of ____ ____?

I ____ ____ ____ ____ know ____ ____ have any potential water losses by ____ at the ____ ____.

Is ____ ____ ____ information ____ ____ identifying water losses in ____ ____ system?

Is it possible ____ ____ ____ ____ for water ____?

____ you tell ____ ____ we have any ____ losses by ____ ____ the ____ ____?

Is ____ leak detectr data ____ ____ ____ ____ the ____ of ____ losses ____ ourdistribution system?

In order to detect ____ water ____ ____ ____ ____ system, we need ____ interpret ____ ____ ____ data.

____ there ____ ____ ____ ____ losses in the ____ ____ how ____ I interpret leak detection ____?

Help ____ leakedetection ____ what signs ____ ____ of ____ ____ ____ in our distribution ____.

How ____ we ____ ____ ____ detection data to determine the likelihood of ____ loss ____ ____ ____ ____?

____ need to know ____ ____ analyze leak detection ____ ____ ____ of water ____.

____ should we use ____ leak ____ ____ to ____ out if ____ ____ any chance ____ water ____?

Does ____ leak detectr data ____ ____ figure out ____ ____ of ____ ____ to thedistribution ____?

____ ____ leak ____ ____ be ____ to spot possible water ____?

____ it ____ ____ ____ ____ we are losing water in our ____ system ____ understanding ____ ____ data?

____ ____ I ____ ____ there ____ ____ waterloss in the distribution system when I read ____ leak ____ ____?

Help ____ ____ ____ ____ what ____ suggest a water leak?

Does the ____ detectr data ____ ____ ____ out ____ risks ____ water loss ____ ____ system?

Is there a ____ ____ read the ____ ____ data to ____ ____ ____?

____ should ____ ____ the leak ____ ____ to find ____ if ____ ____ ____ chance of water loss?

Does ____ ____ ____ ____ ____ detectr help to ____ the ____ of water ____ to the ____ system?

How can we identify potential ____ losses ____ ____ ____ ____ ____ ____ ____ detection data?

Is ____ possible to ____ the leak ____ data and ____ the ____ of ____ ____ loss ____ thedistribution ____?

When ____ ____ the leak detection ____ ____ want to ____ if there's ____ ____ in the ____ ____.

Is ____ ____ to ____ understand leak ____ ____ to identify ____ losses ____ ____ distribution system?

____ ____ possible to identify water losses ____ ____ ____ system ____ ____ ____ leak detection data?

Is the data from ____ leak detectr ____ ____ ____ out ____ ____ of ____ ____ ____ ourdistribution system?

____ ____ detection data ____ ____ ____ to identify water losses ____ the distribution ____?

Help interpreting leakedetection findings, ____ ____ are indicative ____ ____ ____ ____ ____ network?

____ should leak ____ data ____ ____ to ____ ____ loss in ____ distribution system?

____ I ____ leak detection data ____ determine ____ source of ____ ____ ____ in ____ system?

____ ____ possible ____ identify water losses ____ ____ ____ system ____ analyzing ____ detection information?

____ we look at leakedetection data to identify ____ ____ loss ____ ____ ____ ____?

Help interpreting ____ findings, ____ signs ____ potential water ____ ____ ____ ____ network?

____ ____ one figure ____ if ____ are ____ water losses ____ ____ distribution system?

____ do we interpret ____ ____ detection data so ____ we can ____ ____ losses in ____ ____ ____?

What is ____ ____ of ____ leak detection ____ for ____ water ____?

____ ____ ____ leakedetection data ____ ____ ____ water loss in our distribution ____?

How ____ I ____ if there are problems with ____ water ____ on ____ readings ____ ____ ____ ____?

Help ____ ____ ____ findings, what signs ____ a potential ____ Loss ____ ____ distribution ____?

When I have ____ good leak ____ ____ ____ tell ____ ____ ____ waterloss ____ ____ distribution system?

Is it ____ to understand ____ ____ detection ____ to determine ____ there are ____ anomalies ____ ____ distribution ____?

____ ____ ____ from the ____ ____ help ____ the ____ of water losses to ____ ____ system?

____ ____ ____ how ____ analyze ____ detection information ____ ____ of water loss?

____ have a ____ ____ ____ ____ ____ can I know if there ____ waterloss ____ the distribution ____?

Wondering ____ how to ____ ____ data ____ detect water ____.

Is ____ ____ to ____ water ____ in ____ distribution system ____ leak ____ data?

To determine ____ chances of water ____ ____ ____ distribution system, ____ ____ we interpret ____ leak ____ ____?

Is ____ ____ to ____ ____ ____ ____ the water loss inside ____ ____ by analyzing leak ____ data?

____ determine ____ there ____ any water losses in ____ ____ system, ____ ____ ____ interpret leak detection ____?

____ ____ ____ ____ if we are losing water ____ ____ system?

____ can ____ figure out ____ there ____ ____ water ____ in the distribution ____?

____ ____ ____ ____ with the leak ____ ____ ____ figure ____ the chances ____ water loss ____ the distribution system?

____ ____ I ____ ____ if there ____ leaks ____ our distribution system?

I ____ the ____ from the ____ to figure ____ the risks ____ water ____ ____ thedistribution ____.

____ should ____ do with ____ ____ detection data ____ determine if there is ____ loss ____ ____ ____ system?

____ I use ____ leak detection ____ to figure ____ ____ ____ of ____ ____ inside ____ distribution system?

Can ____ ____ if there ____ any waterloss in ____ ____ system when ____ ____ at the ____ ____?

How ____ leak ____ information ____ used ____ spot water ____?

How should we use leak detection ____ ____ see ____ ____ ____ ____ ____ of water loss ____ the ____ ____?

____ help interpreting leakedetection ____ ____ ____ ____ ____ of possible water loss in ____ ____

Is ____ ____ to see leak detection data ____ ____ identify ____ losses ____ ____ ____ system?

____ ____ I ____ whether the ____ is being ____ inside the ____ ____?

How ____ ____ ____ ____ ____ data to ____ potential water loss ____ ____ distribution system?

____ ____ leakedetection ____ what ____ suggest water ____ within the ____ network?

____ there a way ____ ____ ____ ____ with lost water ____ ____ diagnostic readings ____ leak ____?

____ ____ analyze leaks ____ signs ____ ____ loss?

____ leak ____ ____ ____ us about water losses ____ our ____?

____ ____ ____ to interpret the ____ detection data ____ detecting water ____ in ____ ____ setup?

The leak detection data ____ ____ me if there are ____ ____ water ____ ____ ____ ____ ____.

Can ____ ____ ____ ____ of water loss ____ thedistribution ____ ____ ____ leak detection data?

____ to analyze ____ ____ ____ ____ signs of water loss in our ____ ____

Can ____ ____ ____ ____ ____ ____ the ____ detection data to identify potential ____ losses?

What ____ I ____ with the leak detection data ____ ____ ____ ____ loss ____ our ____ ____?

____ ____ ____ ____ ____ information for signs ____ water loss in ____ system?

In order ____ ____ ____ water losses in the ____ network, what ____ ____ best way to ____ ____ ____ detection ____?

Is ____ ____ to ____ if ____ system is ____ water by understanding ____ ____ ____?

I want ____ ____ ____ there are ____ waterloss in ____ distribution system ____ ____ ____ the ____ detection data.

____ ____ ____ leake ____ findings, ____ signs are indicative ____ ____ ____ loss ____ the distribution network?

How should ____ detection data be used ____ ____ ____ ____ losses ____ ____ ____ system?

How ____ ____ determine if ____ ____ problems ____ lost ____ based on ____ leak detector ____?

I have ____ ____ leak detection system ____ ____ I ____ ____ there is ____ ____ the distribution ____?

____ can ____ find ____ ____ there's ____ waterloss in the ____ system?

Help interpreting ____ detection ____ ____ signs ____ ____ ____ ____ water loss ____ thedistribution network?

How ____ leak detection data be used ____ ____ ____ water ____ ____ in ____ ____ system?

____ you give ____ ____ ____ ____ know if ____ ____ any ____ losses, by reviewing the ____ detection?

What ____ ____ ____ way ____ assess water ____ ____ the distribution ____ based ____ ____ detection information?

____ I look at the leak ____ ____ I ____ out if there ____ any ____ in ____ ____ ____?

Does data from ____ ____ ____ help ____ ____ out the risks ____ water ____?

____ ____ interpreting ____ detection ____ ____ signs suggest water loss in the ____ ____?

Can leak detection data ____ ____ ____ loss ____ ____ ____ system?

The ____ ____ the leak ____ can help ____ ____ ____ ____ risks ____ water ____ lost in thedistribution system.

How ____ ____ interpret leakedetection data ____ ____ potential ____ loss ____ ____ distribution system?

How to ____ sense of leak detection ____ ____ ____ ____?

Does ____ ____ ____ ____ help me ____ ____ the ____ of water losses?

____ there ____ ____ to use ____ ____ ____ data to ____ water leaks in ____ distribution ____?

____ ____ I ____ if ____ ____ any ____ leaks ____ the distribution system?

____ can you find out ____ ____ ____ a loss of ____ ____ the distribution ____ ____ ____ detection records?

____ ____ leak detection data ____ ____ ____ spot ____ ____ in our system?

____ there ____ way ____ analyze the ____ detection ____ ____ identifying potential ____ losses?

Need help interpreting ____ ____ ____ ____ ____ ____ ____ water leak ____ the distribution network?

____ it ____ to ____ ____ detection ____ to identify ____ losses?

Help interpreting ____ findings, ____ ____ show potential ____ ____ inside the ____ ____?

____ help interpreting leak ____ ____ for ____ ____?

How ____ we ____ the ____ detection data ____ that ____ ____ detect water ____?

____ can ____ see ____ there ____ any water ____ in ____ ____ system?

Can ____ leak ____ data ____ ____ ____ water losses?

The leak detection ____ should be ____ to ____ ____ ____ ____ ____ distribution network.

How can ____ ____ ____ ____ ____ to detect water losses?

____ ____ you ____ if there's a ____ leak in ____ distribution ____?

Is it ____ ____ ____ ____ on accurately ____ the leak detection data ____ identify ____ ____ water ____ ____ the distribution ____?

____ ____ leak detection data ____ used ____ determine ____ chances ____ water loss ____ ____ ____ system?

____ it ____ to determine if ____ is a water loss ____ ____ system ____ ____ the ____ ____ data?

How can I use ____ leak detection ____ ____ ____ ____ losses ____ ____ distribution ____?

How ____ ____ detection ____ ____ signs of water loss ____ ____ distribution ____?

____ ____ leak ____ information ____ can ____ ____ to ____ potential water losses in ____ distribution ____.

What can ____ ____ ____ tell ____ about water ____ ____ the system?

How ____ ____ ____ ____ detection ____ ____ identify potential ____ loss in ____ distribution system?

How do ____ ____ ____ detection ____ ____ signs of water ____ ____ ____ distribution system?

____ ____ interpreting leakedetection ____ ____ ____ ____ in our distribution network.

Does the ____ detectr data help ____ ____ ____ risks of water ____ to ____ ____ ____?

____ should I use leak ____ data ____ find water ____ in ____ ____ ____?

Is it possible ____ understand ____ ____ ____ to find ____ ____ in ____ ____ system?

How do we detect ____ water ____ in our ____ ____ ____ ____ leak ____ ____?

____ ____ ____ I determine if ____ ____ problems ____ ____ water ____ on diagnostic readings from leak ____?

The data ____ ____ ____ ____ helps ____ understand the risks of water lost ____ ____ ____.

How ____ we ____ the ____ ____ ____ to ____ ____ there ____ water ____ in the distribution system?

____ do we use ____ detection data ____ identify ____ losses ____ ____ ____ system?

____ ____ ____ ____ ____ there's a problem ____ ____ water based on ____ readings from leak ____?

Does ____ leak ____ ____ ____ me figure ____ ____ risk of water ____?

Does the ____ ____ data help ____ figure ____ the ____ of ____ losses ____ ____ system?

____ can ____ ____ be used to identify ____ losses ____ ____ distribution ____?

____ can ____ use ____ ____ data to spot potential ____ ____?

How ____ I find out ____ ____ are any ____ ____ ____ distribution ____?

Help interpreting ____ findings, ____ signs ____ possible ____ loss inside ____ ____ ____?

____ ____ data ____ ____ leak detectr help ____ ____ out ____ risks of water lost ____ the ____ system?

Need help ____ ____ ____ what signs suggest water ____ ____ the ____ ____?

How can I use ____ ____ data ____ ____ ____ losses ____ ____ system?

Does the ____ ____ data help ____ understand the risks ____ ____ ____ ____ ____ system?

When ____ ____ ____ leak detection data, ____ I see ____ there's any ____ in ____ ____ ____?

Is it ____ ____ correlate ____ detection data ____ ____ ____ in the ____ system?

____ is the ____ of ____ leak ____ data ____ identify water ____?

help interpreting leakedetection findings, ____ ____ ____ ____ ____ ____ loss within the distribution ____

Can you ____ ____ ____ ____ interpret ____ leak detection data for ____ system ____?

What ____ ____ best ____ to ____ potential water losses in ____ ____ ____ using leak ____ ____?

I ____ ____ interpreting leakedetection ____ what ____ ____ ____ ____ loss inside the ____ network?

What about ____ ____ ____ ____ our system ____ revealed by the ____ ____ data?

Is it possible ____ ____ ____ detection information to ____ ____ ____?

I ____ to ____ if our distribution system ____ any ____ losses by ____ ____ ____ ____ ____ information.

____ ____ we interpret ____ ____ to identify potential ____ loss ____ our distribution ____?

How can we ____ ____ ____ to identify ____ water ____?

How should leak ____ ____ ____ ____ ____ any potential ____ loss issues ____ the distribution ____?

____ ____ to ____ the leak detection ____ ____ ____ we ____ detect water losses ____ ____ distribution system.

____ the leak ____ data ____ ____ ____ ____ water loss risks in our ____?

____ ____ help interpreting ____ findings, what signs ____ indicative of possible ____ loss ____ ____ ____ ____?

How should ____ detection ____ be deciphered to ____ ____ ____ ____ within ____ distribution ____?

Is it ____ to determine possible ____ ____ lost water ____ on ____ ____ ____ ____ ____ leak detectors?

Help interpreting ____ ____ ____ possible water ____ ____ ____ distribution network.

Does ____ leak ____ data help me ____ ____ ____ risks ____ water ____ lost ____ thedistribution ____?

____ should ____ detection ____ ____ used ____ ____ potential ____ ____ issues in our distribution system?

How ____ I identify possible water ____ ____ ____ leak ____ ____?

____ leak ____ data ____ ____ accurately ____ determine if ____ are losing ____?

Can analyzing ____ ____ ____ ____ us ____ water losses ____ the ____ system?

Does ____ ____ from ____ leak detectr ____ me figure out the risks ____ ____ ____ in ____ ____?

How ____ we ____ ____ leak ____ data ____ identifying ____ water losses?

____ can ____ ____ ____ detection data to ____ possible water ____?

Can you help ____ ____ ____ ____ ____ have ____ potential ____ losses by looking at the ____ ____?

____ I check ____ data for leak, can ____ ____ ____ there ____ ____ ____ in the ____ system?

Is it ____ to ____ ____ ____ loss ____ the distribution system ____ ____ detection data?

____ there ____ any potential ____ losses in ____ ____ ____ how should ____ ____ the ____ detection data?

What ____ ____ with the leak ____ ____ to ____ if there is water ____ within the ____ ____?

We need help ____ ____ data to ____ potential ____ loss ____ ____ ____ system.

Is it ____ to ____ leak detection ____ accurately ____ determine ____ ____ are ____ water ____ thedistribution ____?

____ the ____ ____ ____ leak detectr help me figure ____ ____ risks ____ water losing ____ ____ system?

_____ data from _____ leak detectr _____ _____ me _____ _____ the _____ of _____ loss to _____ distribution system.

Is it possible to identify _____ water loss in _____ _____ _____ _____ _____ _____?

The leak _____ information can _____ used _____ _____ _____ _____ _____ in our _____ network.

_____ it _____ _____ _____ guidelines _____ accurately _____ the leak _____ data _____ identify _____ water losses _____ the distribution system?

Is _____ _____ way _____ read the data _____ possible _____ leaks in _____ _____ _____?

_____ _____ leak detection information help us to _____ _____ _____?

_____ _____ possible to accurately _____ _____ _____ _____ water anomalies in _____ _____ _____ with leak detection data?

_____ I determine _____ source of _____ _____ _____ _____ system _____ analyzing _____ detection data?

The data _____ the leak _____ _____ _____ _____ the _____ of water lost _____ thedistribution _____.

_____ you _____ to _____ me _____ _____ _____ any potential _____ losses by examining _____ leak _____?

Suggestions on _____ to _____ _____ _____ to _____ _____ _____ _____ in the distribution system?

Is it _____ to identify water _____ _____ _____ _____ system _____ _____ _____ detection information?

_____ we _____ if there is _____ _____ _____ _____ the _____ _____ using leak detection data?

Is it _____ _____ _____ out if we _____ _____ water through _____ _____ data?

Can I _____ _____ source of _____ _____ loss _____ thedistribution _____ _____ _____ the leak detection _____?

_____ _____ data from the leak detectr _____ _____ figure out _____ _____ of _____ losses in _____ _____?

_____ I _____ _____ _____ detection data, _____ _____ _____ know if there's any water _____ in the distribution _____.

_____ want _____ _____ _____ _____ is _____ way _____ _____ leak detection _____ for detecting water leaks.

_____ we _____ the leak detection _____ _____ identify water _____ in _____ distribution _____?

How _____ the leak _____ data _____ used to _____ the chances _____ _____ loss _____ _____ _____ system?

Can _____ _____ _____ if we _____ _____ potential water _____ by looking _____ the leak _____?

Help _____ leakedetection _____ what signs _____ _____ _____ loss in _____ _____ network?

Can you tell me _____ _____ _____ leak detection _____ for _____ _____ _____.

Does the _____ detectr's data help me _____ _____ _____ risks _____ _____ _____ _____ our distribution _____?

Which _____ _____ I _____ out if there _____ _____ with _____ water based on _____ from _____ _____?

_____ _____ advice _____ _____ leak detection data for _____ losses.

How should _____ _____ the leak _____ _____ _____ _____ out _____ there _____ a chance of water _____?

I would like to _____ _____ our distribution _____ has _____ potential _____ _____ _____ looking at the _____ _____ _____.

Is _____ _____ _____ to _____ leak _____ info _____ signs _____ water loss?

_____ _____ _____ _____ detect _____ _____ _____ _____ our _____ system by interpreting the leak detection data?

_____ _____ _____ to give _____ _____ _____ _____ _____ leak detection data to _____ potential water losses _____ the distribution system?

Is it possible _____ _____ if _____ losing _____ in _____ _____?

What is the _____ for interpreting leak detection _____ _____ _____ _____ _____?

_____ there a way to analyze _____ _____ _____ data for _____ _____ _____?

Is it possible to _____ leak _____ _____ to _____ _____ losses _____ _____ distribution _____?

_____ interpreting leakedetection findings and _____ _____ suggest _____ potential _____ _____ within _____ _____ network

_____ should _____ _____ _____ evaluate _____ detection data _____ spot possible water _____ _____ our distribution _____?

Does the _____ _____ _____ _____ _____ help me figure out the _____ _____ water _____ to ourdistribution _____.

_____ you _____ _____ _____ _____ any _____ on interpreting leak _____ _____ for spotting water losses?

_____ I know _____ _____ _____ _____ in the _____ system _____ _____ check the leak detection?

_____ want _____ know how to analyze the _____ _____ data _____ identifying _____ _____.

_____ the _____ from _____ leak detectr _____ _____ understand the _____ of water _____ _____ _____ system?

Can _____ _____ _____ how _____ _____ _____ the leak _____ _____ to identify any potential water _____?

_____ _____ _____ there are _____ potential water _____ _____ the distribution system, _____ do I interpret _____ _____ data?

When I read _____ leak _____ _____ _____ _____ _____ out if there is _____ _____ in the _____ system?

_____ can I analyze _____ leak detection _____ _____ _____ possible _____ losses?

Does the data _____ _____ leak detectr let _____ _____ _____ _____ risks of _____ _____?

What _____ _____ _____ with the _____ _____ data to _____ if _____ _____ _____ chance of water loss _____ _____ distribution system?

Need _____ _____ leakedetection _____ _____ _____ _____ _____ _____ water loss within the distribution network?

_____ _____ are any _____ water _____ in our _____ system, how _____ I _____ _____ _____ detection data?

_____ _____ I _____ with _____ _____ _____ to detect _____ loss in our _____ system?

How do _____ _____ _____ _____ are _____ losses _____ the distribution _____ _____ leakedetection records?

Is _____ possible to determine _____ we _____ _____ water _____ _____ _____ _____ from leak _____ data?

_____ _____ _____ at _____ _____ detection I want _____ know if _____ any _____ in _____ distribution system.

_____ _____ I interpret _____ _____ data to spot _____ _____ loss issues?

Is data from _____ _____ _____ helpful _____ _____ _____ _____ risks of _____ losses _____ the distribution system?

Help _____ leakedetection _____ _____ what signs suggest water _____ _____ _____ _____ network

_____ _____ _____ interpreting leakedetection _____ what _____ suggest _____ water _____ within the distribution _____?

Is the information _____ _____ _____ detectr helpful in _____ out _____ risks _____ water losses _____ _____ distribution _____?

When _____ _____ _____ the leak _____ _____ I see _____ _____ any waterloss?

_____ _____ _____ _____ the _____ detectr help me _____ out the _____ _____ water _____ in thedistribution system?

By _____ the _____ detection, can you tell me _____ _____ have _____ _____ _____?

_____ is the process _____ _____ _____ detection _____ _____ discovering water losses?

_____ _____ _____ leak _____ _____ and _____ _____ source of _____ water loss in thedistribution system?

How _____ leak detection _____ _____ _____ _____ determine _____ there _____ _____ chance of _____ loss in _____ distribution system?

_____ _____ give me _____ on _____ _____ _____ results _____ detecting water losses?

Wondering how to _____ leak data and _____ _____ _____ in _____ _____.

_____ can _____ identify _____ _____ losses _____ the _____ system with leak detection _____?

Does _____ _____ _____ the _____ _____ help _____ _____ out how much water _____ be lost?

_____ the data from _____ _____ detectr _____ me understand the risk _____ water _____ to _____ _____ _____?

_____ do _____ interpret the leak detection data so _____ _____ _____ water losses _____ _____ _____ _____?

Is it possible _____ _____ _____ losses _____ the _____ _____ _____ _____ leak detection data?

_____ data from _____ _____ detectr helps _____ figure out the _____ _____ _____ _____ _____ thedistribution system

How _____ _____ _____ leak _____ _____ to _____ any potential _____ loss _____ _____ our distribution system?

I want to _____ _____ the distribution _____ _____ _____ potential water losses by _____ _____ leak _____ _____.

_____ _____ leak detection _____ _____ used to _____ potential water _____ in _____ system?

_____ should we _____ _____ the leak _____ _____ to _____ _____ there is any chance _____ water _____ _____ the distribution _____?

_____ interpreting leakedetection findings, _____ _____ _____ potential water loss _____ the _____ _____?

_____ leaking detection data _____ _____ detect water _____ risks in _____ _____?

How can I determine _____ water _____ _____ _____ _____ detection _____?

How should leak _____ _____ _____ used _____ spot water loss _____ the _____ _____?

_____ _____ data _____ _____ leak detectr _____ _____ the risks _____ _____ losses to ourdistribution system?

_____ _____ one _____ out if there are _____ losses _____ our _____ _____?

_____ interpreting _____ _____ findings, _____ _____ are indicative _____ water _____ in thedistribution network?

Help _____ leakedetection _____ what _____ suggest _____ _____ inside the distribution _____?

Does _____ data from _____ _____ _____ help me _____ the risks of _____ loss to _____ _____ _____?

_____ the _____ from the leak detectr _____ _____ determine _____ _____ _____ _____ _____ to thedistribution system?

Can _____ data _____ _____ leak _____ _____ me understand _____ risks of water _____ in _____ _____?

_____ _____ we use leak detection data to _____ _____ _____ _____ is _____ chance of _____ loss _____ the _____ system?

I'm just wondering _____ _____ interpret _____ _____ _____ for spotting _____ losses.

_____ leak detection data able to identify _____ _____ _____ in _____ _____?

What _____ the best _____ _____ assess _____ losses in _____ _____ network based on _____ _____ _____?

Does the _____ _____ the leak _____ help me _____ out _____ _____ _____ _____ losses?

How _____ leakedetection data _____ used to _____ _____ _____ _____ our distribution _____?

How _____ _____ _____ data _____ used to determine the _____ of _____ loss _____ _____ distribution _____?

_____ wonder _____ there _____ any _____ loss in the _____ system when _____ look _____ the _____ _____.

_____ want to know how _____ _____ _____ leak _____ data _____ _____ water losses.

Can anyone _____ me _____ to interpret leak detection _____ _____ _____ _____?

Is _____ _____ to identify water losses _____ _____ distribution _____ with leak _____ _____?

_____ can I _____ if _____ _____ water in _____ _____ system?

How _____ _____ use leak detection data _____ _____ water _____ _____ _____ distribution system?

Help interpreting _____ findings, _____ signs show _____ _____ leak _____ the _____ _____?

_____ _____ _____ detection _____ _____ used to spot _____ _____ losses _____ the distribution system?

Is _____ _____ _____ the _____ detectr helpful _____ _____ out _____ risks of water loss to _____ _____?

_____ analyzing the leak detection _____ _____ identify _____ _____ losses?

_____ _____ we use the _____ _____ data to identify potential _____ _____?

_____ _____ data from _____ leak _____ _____ _____ figure out the _____ of water loss _____ _____ system?

_____ _____ _____ _____ to _____ if we have _____ water losses, by _____ _____ leak detection.

_____ metrics _____ _____ _____ to identify potential _____ _____ in our distribution system from the _____ _____ _____?

_____ leak detection _____ tell _____ about _____ loss _____ _____ system?

Help interpreting _____ leakedetection _____ what signs _____ water _____ _____ the _____ _____?

Can _____ the _____ detection _____ _____ us to _____ water _____?

_____ it _____ to analyze leak _____ info _____ _____ of water _____ _____ our _____ system?

How should I _____ _____ detection _____ to spot _____ _____ _____?

_____ it possible to comprehend leak _____ _____ accurately to _____ _____ _____ _____ losing _____?

Does the data _____ the leak _____ _____ _____ _____ the _____ of _____ losses?

I _____ to _____ _____ there _____ _____ way _____ read the leak detection _____ for possible _____ _____.

_____ you _____ me understand _____ _____ _____ _____ possible water losses?

Can _____ _____ _____ _____ detection data and _____ the source _____ water loss in _____ _____?

How can _____ _____ _____ _____ _____ _____ water loss in the _____ system when _____ _____ the leak detection _____?

_____ should I use _____ _____ _____ _____ _____ water loss issues _____ our _____ system?
