[Demo] NLP Dataset for Customer Service Automation

Company Type	Mobile Network Operators
Inquiry Category	Network outages and service disruptions
Inquiry Sub-Category	Service disruptions during maintenance
Description	Customers may experience temporary service disruptions during maintenance activities, such as network upgrades or repairs.
Data Size	5,904 paraphrases
Want to buy data?	Please contact nlp-data@qross.me via your business email address.

Masked sample paraphrases of one "Mobile Network Operator" customer inquiry. (Purchased data will not be masked.)

What ____ ____ ____ ____ to prevent temporary outages ____ upgrading ____ network?

____ ____ being done ____ minimize ____ during ____ upgrade?

Is there ____ way ____ ____ ____ no ____ occur ____ upgrades?

Network upgrade ____ ____ ____ any ____ steps ____?

____ a contingency ____ in ____ ____ maintaining service ____ ____ upgrades?

Is there ____ ____ can ____ against ____ ____ ____ during updates?

____ are measures ____ short-term ____ when ____ ____ networks.

Should ____ ____ measures against service ____ ____ ____ upgrade?

Is there ____ ____ ____ ____ use to ____ ____ as you upgrade?

What ____ ____ ____ ____ ____ the network while ____ service disruptions?

____ against ____ disruptions during ____ ____?

____ ____ ____ done ____ prevent ____ disruptions when conducting network ____?

____ can ____ do to prevent short-term ____ ____ ____ ____ network?

____ ____ a strategy to prevent ____ ____?

____ to ____ rid ____ network ____ when you ____?

____ ____ anything you can do to keep ____ network ____ ____ you ____ ____?

How ____ we prevent service ____ ____ improving ____ ____?

Safeguards are ____ to ____ ____ cuts during ____ ____.

____ ____ tell ____ about ways ____ prevent short disruptions during ____ ____?

How ____ we keep the network ____ ____ ____ ____?

Is ____ any plan ____ stop ____ ____ ____ upgrading?

____ you have a way ____ ____ ____ during ____?

____ should you ____ to avoid ____ ____ during your ____?

____ preventing interruption ____ ____ upgraded

____ are ____ ____ service ____ during the ____.

____ will ____ keep ____ ____ free of ____ when you ____?

Can ____ be plans ____ ____ ____ losses during ____ changes?

____ ____ we prevent short-term ____ when we ____ ____ network?

____ will you ____ to avoid ____ breakdown ____ your ____?

Measures ____ ____ ____ to ____ ____ are no interruptions ____ upgrades.

How _____ you _____ _____ _____ during _____ updates?

_____ upgrade safeguard _____?

How _____ the network _____ _____ _____ upgrades?

_____ _____ for network _____?

_____ are _____ in place against _____ _____ the _____.

What _____ _____ you take to _____ safe during _____ _____?

Are _____ _____ _____ place _____ network disruptions during _____ upgrade?

_____ _____ _____ _____ the network during improvements?

What _____ _____ _____ to _____ disruptions during _____ upgrade process?

There _____ _____ _____ to avoid _____ outages _____ upgrades.

_____ _____ additional measures _____ _____ disruptions when _____ networks.

_____ _____ _____ plan to _____ service _____ network upgrade.

How can we _____ service problems _____ _____ _____ _____?

Do _____ _____ _____ the _____ upgrade ensures _____?

Is it _____ _____ _____ short-term _____ _____ updates?

_____ there anything being done _____ minimize _____ during _____ _____ _____?

While upgrading the _____ _____ _____ _____ precautions for network _____?

When _____ _____ _____ network, _____ will _____ make _____ there _____ no disruptions?

Can there _____ _____ _____ _____ _____ downtime during improvements?

Is _____ possible _____ _____ disruptions during _____ network upgrade _____.

_____ prevent _____ yet _____

_____ network _____ _____ _____ a contingency plan for maintaining _____.

_____ can network downtime _____ _____ _____ _____ upgrade?

_____ there _____ _____ _____ minimize disruptions when _____?

Is there _____ Precautions _____ temporary black _____ _____ _____?

_____ _____ _____ improve the network and _____ _____ disruptions?

Is _____ _____ contingency plan to _____ _____ during _____ upgrade?

_____ are _____ outages _____ when _____ _____ upgrades?

Should _____ be _____ to _____ _____ issues while _____ upgrade?

Is it possible _____ _____ to _____ no _____ during _____?

Will there _____ _____ _____ plan for _____ _____?

Take _____ _____ _____ _____ downtime during improvements.

Measures _____ _____ _____ _____ yet upgrade

Efforts are _____ _____ to prevent temporary _____ _____ _____.

_____ _____ _____ protect the _____ when it's _____?

_____ can we _____ _____ _____ _____ the upgrade?

_____ _____ _____ do _____ stop _____ issues while we upgrade?

_____ _____ safeguards _____ taken?

_____ _____ any precautions for network interruptions _____ the _____ _____ _____?

Is _____ a way to _____ _____ downtime during _____ _____?

Are _____ _____ _____ give insight _____ preventing short _____ _____ network upgrades?

_____ will _____ be no outages when _____ upgrade _____ _____?

_____ _____ have a _____ _____ _____ maintaining _____ during network upgrades?

What _____ _____ _____ to _____ the _____ during the upgrade?

Are _____ _____ plans _____ minimize _____ when _____ upgrade?

How _____ _____ _____ disruptions _____ the upgrade?

_____ there be plans _____ minimize _____ _____ _____?

_____ _____ upgrades, _____ _____ a _____ plan for keeping _____ up?

There _____ plans _____ prevent service _____ during _____ _____.

What _____ _____ do _____ stop _____ _____ _____ we improve our network?

_____ can _____ disruptions _____ _____ during network _____?

Is there _____ _____ for preventing _____ _____ network _____?

_____ _____ in place to make sure _____ _____ no _____ during _____.

Is _____ _____ way to _____ sure there are _____ interruptions _____ _____ _____?

When _____ _____ _____ _____ do _____ do to _____ short-term issues?

Do you _____ precautions against _____ _____ _____ during _____?

_____ _____ service _____ when _____ upgrade

_____ you have _____ _____ place _____ _____ _____ network connected during the _____?

_____ _____ able to ensure _____ there are _____ _____ during _____?

How _____ _____ prevent _____ service outages while _____ _____ network.

_____ improving the _____ _____ should _____ _____ to stop short-term _____?

_____ to avoid _____ _____ _____ undergoing changes.

_____ do _____ _____ disruptions during _____ upgrade?

How _____ you stop _____ _____ while _____ _____?

_____ you have a _____ to prevent connection _____ _____ _____?

Do you have _____ great _____ _____ _____ annoying _____ during _____ upgrades?

_____ _____ any plans _____ prevent _____ losses during _____ upgrades?

_____ there _____ you _____ do _____ _____ sure there _____ _____ interruptions during upgrades?

_____ to _____ network _____ during an _____?

Is _____ any plan _____ _____ temporary service _____ during _____ _____?

_____ _____ precautions against temporary _____ outs in _____ _____ of _____.

_____ _____ service disruptions _____ Upgrading?

_____ improving our _____ what do _____ stop short-term _____ _____ _____?

Method _____ dealing _____ short _____ during _____ _____?

How do _____ prevent temporary _____ _____ while _____ _____ network?

_____ there any plan to _____ _____ once _____ _____?

Are there _____ _____ _____ prevent _____ service _____ during network _____?

Protocols keeping the _____ operational _____ _____ _____ _____ net?

During a network _____ _____ what is _____ _____ to _____ _____?

Is there a _____ _____ keeping _____ _____ _____ a _____ upgrade?

While upgrading _____ _____ what _____ are _____ _____ _____ prevent disruptions?

_____ can _____ _____ to avoid network _____ during _____?

There are _____ to _____ _____ losses _____ _____ network upgrade.

Measures to _____ _____ during _____ _____?

_____ can _____ prevent _____ outages _____ upgrades?

_____ there a _____ for keeping service _____ during _____ _____?

What precautions do _____ _____ _____ _____ _____ from being screwed over during _____ _____?

_____ you have measures to _____ _____ are _____ _____ during _____ upgrade?

_____ are any _____ to prevent _____ losses _____ _____ upgrade.

_____ it _____ toavoid temporary disruptions _____ _____?

Is _____ _____ _____ _____ service interruptions when _____?

_____ _____ _____ is upgraded, are _____ in place for _____ _____?

_____ you _____ any precautions to prevent us _____ _____ _____ _____ during _____ updates?

Measures to _____ _____ services _____ disrupted _____ _____ projects.

Is _____ any precautions in _____ for _____ interruptions _____ _____ system _____?

What _____ measures against service _____ _____ _____ _____?

Is _____ any way _____ _____ temporary _____ _____ conducting _____ upgrades?

_____ _____ _____ _____ take when you _____ your network?

_____ plan _____ network _____ prevention?

_____ do _____ _____ the network _____ _____ upgrades?

____ ____ ____ plans to minimize interruptions ____ you ____.

____ will there ____ no network problems ____ you ____ ____?

How ____ ____ a problem ____ the ____?

____ are you ____ ____ maintain the ____ ____ you upgrade?

____ ____ stop a problem in the ____ ____ an ____?

Measures ____ avoid downtime ____ ____ ____?

Will there ____ ____ in ____ when the system ____ ____?

During ____ ____ ____ ____ ____ is being done to ____ disruptions?

____ ____ tell me if ____ is ____ contingency plan for ____ ____ ____ ____ upgrades?

What ____ ____ ____ to ____ ____ ____ messing ____ up during network updates?

Can a ____ ____ ____ to ____ connection loss during ____?

____ ____ ____ plans to prevent ____ losses during network ____?

____ ____ ____ measures against ____ ____ when upgrading?

What is ____ to minimize ____ ____ ____ ____?

There ____ ____ ____ place ____ protect against ____ ____ in upgrades.

Measures ____ ____ temporary ____ ____ upgrade.

____ are ____ doing to minimize ____ ____ ____ network ____ process?

____ there ____ strategy ____ prevent ____ breakdowns?

The network is being ____ and ____ ____ ____ ____ ____ to prevent ____ disruptions?

Are ____ any ____ ____ place ____ ____ ____ during the upgrade?

____ are ____ in place to ensure ____ ____ ____ interrupted ____ ____ projects.

____ conducting network ____ are ____ ways to ____ ____ outages?

When ____ ____ the ____ ____ will you keep it free ____ ____?

____ to avoid service ____ ____ ____ changes?

____ can we do ____ ____ ____ disruptions when ____ ____ network?

____ ____ possible ____ ____ network downtime ____ upgrades?

____ is ____ ____ plan for maintaining service ____ network ____.

____ ____ be done to ____ disruptions ____ the ____ process?

____ ____ ____ network, ____ ____ you do to ____ short-term disruptions?

Is there ____ plan ____ ____ ____ when ____?

____ ____ ____ is improved, ____ stops short-term ____?

Do you have ____ ____ ____ ____ service ____ ____ ____ with the network?

Do you ____ ____ precautions ____ avoid ____ ____ ____ the upgrades?

____ ____ your network upgrade ____ ____ ____ service continuity?

When the network ____ updates, can ____ ____ that ____ ____ ____ experience ____ ____ signal?

Is ____ ____ way ____ avoid temporary problems ____ ____?

____ ____ ____ can ____ ____ to prevent outages.

What ____ ____ done ____ prevent temporary ____ when ____ ____ repairs?

____ improving our ____ ____ should ____ ____ to ____ short-term disruptions?

Is ____ any precautions ____ ____ ____ while the ____ is ____ upgraded?

There may ____ ____ contingency plan ____ ____ ____ ____ network upgrades.

Measures to avoid ____ ____ ____ ____

____ can we ____ service ____ ____ ____ upgrades?

____ ____ safeguards being ____?

During ____ ____ to ____ ____ outages?

What can ____ ____ do ____ ____ disruptions ____ upgrades?

What ____ ____ ____ ____ minimize disruptions ____ the upgrade process?

There ____ plans ____ prevent service ____ ____ ____.

____ ____ precautions in ____ for ____ ____ during an upgrade?

____ improving the network, ____ ____ are ____ ____ prevent ____ problems?

____ ____ ____ avoid ____ failures during changes?

Is ____ a ____ to prevent ____ term ____ ____ during network ____?

How ____ ____ network failures while the ____ ____ being ____?

____ ____ ____ in ____ to protect against ____ disruption ____ upgrades.

As ____ ____ do ____ have any strategies ____ ____ connected?

____ there be a plan ____ ____ and ____ ____ network?

There ____ ____ ____ plan for maintaining ____ during network ____.

There are measures ____ make ____ services ____ ____ ____ during ____ projects.

When ____ network undergoes ____ ____ ____ assure me that ____ will not ____ ____ ____ signal?

____ there a ____ ____ ensure no disruptions ____ ____?

____ are ____ going to avoid ____ ____ when ____ upgrade?

____ ____ you ____ ____ ____ as you upgrade?

____ are ____ to minimize ____ ____.

____ ____ ____ downtime when you ____ your ____.

____ you upgrade ____ ____ ____ will you ____ sure there ____ no ____?

There ____ ____ ____ in ____ for network interruptions ____ the system ____ ____.

____ ____ ____ ____ to ____ ____ upgradable processes won't lead to temporary ____ cuts?

____ is ____ done to ____ ____ ____ the ____ upgrade process?

____ ____ plans to prevent ____ losses during ____ ____.

____ ____ ____ ____ being taken to ____ network downtime ____ an upgrade?

Measures ____ ____ ____ during ____ upgrades?

____ Upgrading ____ to ____ network ____?

____ ____ ____ in the upgrade process ____ ____?

____ ____ ____ network ____ while upgrade?

____ steps ____ to protect ____ connection ____ ____ upgrade?

____ to ____ network ____ ____ changing.

____ ____ ____ ____ to prevent short disruptions ____ network upgrades?

____ ____ we ____ ____ downtime ____ we upgrade?

How ____ stop the ____ ____ happening ____ ____ upgrade?

What ____ being done ____ avoid ____ downtime ____ an ____?

____ ____ ____ ____ when you upgrade?

Is there a ____ ____ prevent service losses ____ ____ ____?

____ can be done ____ avoid network ____ ____ the ____?

____ ____ network downtime ____ improvements?

____ ____ any plans to prevent ____ service ____ ____ ____ upgrades?

What ____ ____ ____ to ____ us from getting screwed ____ during ____ ____?

Any ____ ____ ____ prevent connection ____ during ____?

____ there ____ precautions ____ ____ ____ network disruptions while the ____ ____ being upgraded?

Measures ____ ____ ____ ____ prevent interruptions yet ____.

____ are ____ ____ against disruptions ____ updating ____.

What precautions ____ you ____ to stop us from ____ ____ ____ ____ network ____?

How ____ ____ make sure that the network is ____ ____ ____ you ____ ____?

____ there ____ ____ for ____ service ____ network renovations?

____ enhancing the ____ ____ ____ is it ensured ____ there ____ no ____?

____ to ____ ____ outages during ____?

Should ____ ____ precautions ____ ____ ____ network disruptions when ____ ____ is upgraded?

____ do you ____ to ____ ____ updates from ____ us ____?

Is ____ ____ plan ____ stopping network issues ____ ____ upgrade?

When ____ ____ upgrades, ____ are the ____ ____ temporary ____ are prevented?

Measures against ____ ____ after ____ ____?

_____ toavoid network _____ _____ you _____?

_____ there precautions in _____ for _____ _____ _____ a _____ upgrade?

_____ can _____ improve the _____ _____ preventing _____ outages?

_____ can _____ do to _____ network _____ while _____ upgrade?

_____ updates, _____ _____ disruptions?

WhileUpgrading the _____ are precautions _____ place _____ _____ _____?

While improving the network, what _____ _____ taken _____ _____ _____ _____ disruptions?

_____ updates, _____ _____ _____ _____ temporary power cuts?

_____ method _____ short outages _____ _____.

_____ _____ upgrade prevention _____?

_____ there _____ _____ in place for _____ interruptions during _____?

There _____ _____ _____ minimize _____ when _____ upgrade.

During _____ how _____ _____ network prevent _____?

_____ prevention plan is _____ _____ network _____.

Do _____ _____ _____ precautions _____ _____ network _____ during the upgrade?

Any _____ that _____ the system working _____ _____ _____ the _____?

_____ upgrade _____ which _____ _____ taken?

_____ to _____ outages _____ network _____.

_____ are measures against _____ _____ _____ _____ upgrade?

Do _____ _____ _____ _____ will not interrupt _____ upgrade?

During network updates, _____ precautions _____ _____ _____ to _____ _____ safe?

Is there _____ _____ _____ _____ temporary outages _____ the network _____ _____ upgraded?

Do you have any _____ to stop _____ _____ _____ _____ _____ _____ network?

_____ to _____ _____ _____ don't _____ amid performance boost?

Is _____ a _____ _____ _____ service _____ network renovations?

_____ _____ be _____ _____ taken to prevent _____ loss during _____?

_____ _____ any _____ _____ against _____ disruptions while upgrading?

_____ _____ have _____ against _____ _____ when upgrading?

_____ _____ are _____ _____ prevent connection _____ during upgrades?

_____ you take any _____ to _____ network problems _____ _____?

Is there _____ against service _____ _____ _____?

Measures to avoid _____ _____ _____ _____

How does a _____ upgrade _____ _____ _____?

_____ to _____ _____ downtime when _____ upgrade your _____.

Is there a _____ for _____ _____ network _____ avoiding _____?

The _____ can _____ _____ _____ upgrades.

_____ _____ _____ _____ plan to maintain service _____ network upgrades.

There _____ any _____ _____ you can _____ _____ maintain connection _____ you _____?

There are ways to prevent _____ _____ _____ _____ _____ upgrade.

When _____ how _____ _____ _____ network downtime?

_____ to _____ _____ _____ while changes are _____?

How _____ avoid _____ problems _____ _____ upgrade?

Any steps _____ _____ prevent _____ loss _____ _____ upgrade?

There _____ additional _____ _____ _____ disruptions _____ upgrading networks

_____ _____ your plan _____ avoiding annoying blackouts _____ _____ _____ upgrades?

_____ what way does _____ _____ _____ ensure _____?

There _____ _____ in _____ _____ _____ temporary _____ _____ the network is upgraded.

Measures _____ _____ disruptions _____ network _____?

_____ _____ _____ _____ avoid network downtime during _____?

How can _____ maintain _____ _____ you _____?

_____ _____ a plan _____ _____ _____ up during network changes?

During a network _____ _____ what can be _____ _____ _____ _____?

Is _____ possible _____ avoid outages _____ _____?

_____ should be _____ _____ avert network downtime _____ _____?

_____ _____ _____ against _____ _____ cuts during updates.

How do _____ avoid network _____ _____ _____?

How _____ _____ protect ourselves _____ network _____?

_____ network upgrade, _____ _____ to _____ temporary _____ losses?

What _____ _____ _____ _____ prevent _____ disruption in upgrades?

_____ are _____ place to ensure _____ _____ _____ disrupted during upgrade _____.

How _____ you _____ _____ failures _____ you _____?

_____ you _____ any precautions _____ _____ _____ _____ during network updates?

_____ _____ _____ _____ the network stay stable?

_____ plan for _____ _____?

_____ are measures _____ _____ _____ _____ services are _____ _____ during upgrade projects.

_____ _____ any _____ against _____ _____ during the updates?

Can _____ _____ _____ _____ to prevent service losses _____ _____ upgrades?

_____ there _____ way to _____ _____ transitory _____ breakouts?

_____ _____ _____ to prevent _____ loss during _____?

There may _____ _____ contingency plan _____ maintaining _____ _____ network _____.

_____ are _____ that can be _____ _____ prevent network downtime _____ _____.

_____ you _____ outages during _____?

There _____ a _____ plan _____ _____ _____ when the network is _____.

_____ will _____ _____ sure _____ are _____ problems _____ you upgrade the _____?

During _____ upgrade of the _____ _____ _____ are _____ place _____ _____ disruptions?

There _____ things that _____ be _____ to prevent _____ disruptions _____ _____ the _____.

_____ _____ safeguards: _____ prevention steps?

How to _____ _____ _____ _____ an upgrade?

Is _____ a _____ _____ prevent temporary _____ _____?

How can _____ _____ upgrade _____ _____?

How is the _____ upgrade process _____ done _____ _____ _____?

What is _____ _____ to keep the _____ _____ during _____?

What can _____ _____ _____ prevent connection loss _____ a _____?

What are the _____ _____ stopping _____ _____ while _____ upgrade?

The _____ _____ _____ interruptions _____ upgrade.

_____ to _____ that services _____ not disrupted during _____ _____.

_____ should be taken _____ _____ _____ _____ are no _____ during _____ upgrade.

There _____ precautions _____ place _____ network _____ _____ the _____ is _____ upgraded.

What are _____ doing to _____ _____ _____ the network while _____ _____ _____?

Can _____ _____ a _____ to prevent and _____ _____ network?

_____ _____ plan to _____ network _____ when _____ upgrade?

There are extra _____ _____ temporary _____ when _____ _____.

_____ _____ a way _____ short disruptions _____ _____?

Are _____ _____ momentary _____ _____ updates?

There are measures _____ _____ disruptions _____ _____ upgrade _____ networks.

There _____ measures to _____ temporary disruptions _____ _____ _____.

_____ _____ interrupted _____ when you _____?

What _____ _____ _____ to _____ network downtime during _____ upgrade?

_____ _____ have _____ _____ to _____ with _____ outages during upgrades?

Are _____ _____ temporary _____ during the _____?

Is there a plan ____ ____ annoying ____ during ____ ____?

Is ____ a plan ____ ____ service ____ ____ upgrade?

____ do ____ minimize ____ ____ you upgrade?

There are ____ ____ ____ temporary outages when ____ network ____ ____ upgraded.

____ ____ ____ any ____ to ____ upgrade breakdowns?

____ ____ ____ ____ ____ ____ prevent temporary outages during network upgrades?

____ there any ____ ____ place ____ ____ disruptions in upgrades?

Are ____ ____ ____ ____ for network upgrades?

____ plan ____ network ____?

____ ____ a way to avoid ____ ____ ____ upgrading?

____ ____ ____ service losses ____ network upgrade?

What can ____ ____ to ____ disruptions during ____ ____ process?

Is ____ ____ method ____ short ____ ____ Upgrades?

____ there ____ ____ to prevent ____ losses ____ upgrades?

There ____ ____ ____ counteract ____ ____ when you upgrade networks.

____ ____ ____ being done to ____ network downtime ____ upgrades?

How can ____ ____ ____ ____ during ____ upgrade?

How ____ ____ network ____ ____ when ____ upgraded?

There ____ safeguards ____ place ____ service disruptions ____ ____.

____ ____ should ____ ____ measures against ____ interruptions?

What ____ ____ be ____ to prevent network ____ during ____?

A ____ for dealing ____ ____ outages ____ ____?

How ____ avoid ____ ____ while undergoing ____?

How do ____ ____ network ____ when ____?

How ____ we ____ ____ ____ the network ____ process.

There ____ measures against ____ disruptions ____ ____.

____ ____ ____ ____ service disruptions when you ____?

Measures are ____ ____ ____ ____ temporary disruptions ____ upgrade.

____ ____ you make your network ____ ____ service ____?

____ there precautions ____ ____ disruptions while the ____ is ____?

____ should ____ failures be avoided ____ ____?

____ there a ____ to ____ ____ loss ____ upgrade?

Do ____ ____ any measures ____ make ____ there ____ no ____ ____ the upgrade?

Is there anything you can ____ ____ ____ ____ interruptions ____ ____?

____ is ____ done to reduce ____ during ____ ____ process?

Is ____ any strategy ____ you can ____ to maintain ____ ____ ____ ____?

____ there ____ ____ ____ stop network issues while ____?

____ ____ network ____ prevented ____ ____ temporary disruptions?

____ to avoid ____ during ____ ____?

How does the ____ avoid ____ ____ ____?

There is a ____ ____ improving ____ ____ but preventing ____.

Is there ____ plan ____ ____ interruptions when ____ ____?

What ____ should be taken ____ prevent connection ____ ____ ____ ____?

____ ____ any way ____ ____ temporary disruptions when ____ network ____?

____ network is ____ ____ what ____ are in ____?

There ____ ways to ____ ____ upgrade ____.

While improving the ____ ____ ____ ____ taken to ____ temporary ____ outages?

Are there measures in ____ ____ ____ connection ____ you ____?

____ there ____ ____ ____ temporarily shutting down the internet ____ ____?

What ____ do ____ ____ ____ keep us ____ during ____ updates?

Is _____ any _____ _____ _____ temporary disruptions during network _____?

_____ will _____ done to minimize _____ during _____ _____ upgrade?

_____ _____ want _____ avoid _____ breakdowns during _____ upgrades?

During updates _____ you _____ _____ _____?

Measures to avoid _____ _____ _____ _____?

Is there _____ _____ _____ _____ _____ when you upgrade?

There _____ _____ against service _____ _____ Upgrading.

_____ _____ precautions against _____ _____ _____ during updates?

_____ _____ you do _____ _____ _____ updates _____ messing us up?

_____ can be done to _____ against _____ _____ in _____ _____?

Do _____ _____ any plans for _____ _____ _____ upgrade?

Measures _____ _____ downtime during _____ _____ upgrade.

Are you _____ _____ issues _____ _____?

_____ _____ our _____ _____ can we _____ to _____ short-term outages?

_____ can _____ _____ to _____ temporary disruptions when conducting _____ _____?

_____ we _____ _____ _____ what stops short-term _____?

_____ _____ you going to _____ network breakdowns _____ your _____?

Is _____ _____ _____ for network interruptions _____ _____ system is _____?

_____ _____ _____ for network repairs?

There _____ _____ _____ service _____ in _____ upgrade.

_____ _____ measures to ensure the _____ _____ _____ disrupted _____ upgrade projects.

What _____ _____ measures taken to _____ _____ _____ while the network _____ being _____?

How do _____ _____ _____ _____ _____ you change?

Is there _____ _____ _____ stop network _____ _____ Upgrading?

_____ _____ possible _____ _____ disruptions during the network _____ process?

_____ there any _____ to prevent service _____ _____ network _____?

_____ _____ _____ you take to keep _____ _____ being messed over _____ _____ updates?

_____ _____ _____ network protected during _____?

_____ should _____ avoid network _____ while _____?

Is _____ possible _____ _____ temporary _____ during _____?

_____ _____ be done _____ minimize disruptions _____ _____ upgrade?

_____ to _____ _____ during network _____?

_____ you _____ _____ _____ place to _____ interruption during upgrade?

Network _____ can _____ _____ during _____.

_____ upgrades _____ does the network _____ _____?

During a network upgrade, _____ _____ _____ done _____ _____ disruptions?

There _____ measures _____ prevent _____ _____ updating _____.

Measures _____ avoid _____ during _____ _____?

_____ _____ measures to _____ sure there are _____ interruptions during _____ _____.

_____ it possible _____ prevent temporary _____ _____ performing network _____?

Any _____ _____ _____ prevent _____ loss _____ upgrade?

_____ _____ _____ blackout avoidrs?

_____ the network undergoes updates _____ you _____ _____ that _____ _____ experience a _____ without _____ _____?

_____ _____ taken against _____ interruption _____ upgrading.

What _____ _____ _____ _____ to prevent _____ _____ being messed over during _____ updates?

Measures to _____ _____ term _____ _____ upgrade.

_____ are supplementary _____ against _____ _____ when _____ networks.

Is there _____ plans _____ _____ _____ _____ while upgrading?

The _____ _____ _____ _____ _____ outages during upgrades?

There _____ _____ _____ prevent the upgrade _____.

_____ stops _____ problems _____ we _____ our _____?

There _____ safeguards in place _____ service interruption _____ _____ _____.

_____ _____ _____ plan for improving the _____ _____ preventing downtime.

How to prevent _____ network _____ _____ _____ _____?

Ways _____ _____ _____ breakouts?

_____ there _____ plan for avoiding annoying blackouts _____ _____ _____?

Is there a _____ to _____ service _____ the _____ _____?

Should we avoid _____ downtime _____ _____ _____?

_____ _____ _____ being upgraded, what _____ _____ in _____ to prevent the _____ _____ down?

There are plans to _____ _____ _____ of _____ _____ _____ upgrades.

Are _____ _____ for _____ network _____ _____ you upgrade?

There _____ be plans _____ _____ interruptions _____ _____ upgrade.

_____ _____ plans _____ prevent service _____ during _____ upgrade?

_____ _____ supplemental _____ against disruptions _____ networks are _____.

While _____ _____ network _____ steps _____ taken _____ _____ service disruptions.

_____ _____ supplementary _____ against temporary _____ when upgrading _____.

Does _____ have _____ _____ _____ _____ interruptions when upgrading?

There are measures _____ _____ _____ when _____ upgrade _____ networks.

Can _____ _____ be avoided _____ _____?

There are additional _____ _____ disruptions when _____ _____ your _____.

_____ _____ there _____ _____ _____ the upgrade process?

How _____ I _____ _____ failures while _____?

_____ you _____ temporary blips _____ _____?

_____ _____ being done _____ _____ disruptions in _____ upgrade process?

_____ you _____ any precautions to prevent us _____ being _____ _____ _____ network _____?

_____ _____ there be _____ network _____ when you _____?

_____ there _____ _____ plans for _____ service _____ network upgrades?

There are _____ in place to _____ _____ _____ _____ upgrades.

Is _____ a _____ to prevent temporary outages _____ _____ _____ _____?

How _____ _____ avoid network failures _____ _____?

What _____ _____ _____ to _____ network _____ during upgrade?

_____ do you do _____ _____ _____ from getting screwed _____ _____ _____ updates?

Network _____ safeguards: _____ _____ steps?

_____ _____ being done to _____ _____ _____ during _____ upgrade process?

_____ there _____ against service _____ _____ upgrading?

Could you _____ me about ways _____ _____ _____ _____ during network _____?

_____ _____ like _____ _____ _____ _____ _____ a contingency plan for _____ service during network upgrades.

_____ _____ any plan _____ stop _____ _____ while upgraded?

_____ are _____ in place _____ avoid service disruptions _____ _____.

_____ downtime _____ be prevented _____ _____.

_____ there _____ _____ _____ minimize interruptions when _____ upgrade?

_____ _____ should be used _____ _____ upgrade _____?

Do _____ _____ any precautions _____ _____ network breakdowns _____ _____ upgrade?

Is there any _____ _____ _____ _____ _____ _____ maintain the _____ as you upgrade?

_____ _____ _____ _____ that I won't experience periods without _____ _____ _____ network undergoes _____?

Plans to _____ _____ losses during _____ _____?

_____ _____ _____ to prevent _____ _____ during network upgrades.

Is _____ _____ _____ _____ network avoids _____ during upgrades?

_____ _____ the _____ way _____ make _____ our _____ isn't messed up while _____ _____?

Are there _____ _____ in place _____ _____ disruptions _____ a _____ upgrade?

What should ____ ____ to ____ them ____ messing us ____ during ____ ____?

Could ____ give us insight ____ ____ short ____ ____ ____ upgrade?

WhenUpgrading how ____ ____ ____ downtime?

____ ____ a way to ____ ____ loss during ____?

____ there ____ strategy ____ ____ can use to ____ ____ as ____ upgrade?

Is there ____ ____ ____ ____ ____ disruptions when ____ network upgrades?

There might be a ____ ____ ____ maintaining service ____ ____ ____.

____ to stop network ____ ____ ____ upgrade?

Is ____ a plan for ____ service ____ ____ ____ upgrade?

Can you ____ ____ failures ____ ____?

____ ____ any way to minimize ____ ____ you ____?

Do ____ have ____ ____ make ____ there ____ ____ interruption in ____ upgrade?

Is there any way ____ prevent temporary ____ ____ ____ ____ is ____?

____ can ____ done ____ minimize disruptions ____ ____ upgrade process?

____ wonder ____ there ____ ____ to ____ upgrade breakouts.

There ____ additional ____ ____ disruptions ____ ____ networks.

There's a method ____ ____ ____ during ____.

How does ____ network prevent ____ ____ ____?

During network ____ there is ____ ____ plan for ____ ____?

____ ____ ____ way ____ avoid network ____ during upgrade?

____ ____ ____ in place ____ service ____ in upgrades.

____ plan ____ ____ network?

____ was ____ if there was a ____ ____ ____ maintaining service during ____ ____.

____ there ____ in ____ ____ network interruptions during a ____ ____?

____ do I ____ ____ ____ after I ____?

____ ____ ____ ____ prevent connection loss ____ upgrades?

Measures to ____ ____ yet ____

____ ____ ____ a ____ upgrade, ____ ways are temporary ____ prevented?

____ there ____ way to make ____ ____ ____ no interruptions ____ upgrades?

Is there a way ____ prevent ____ outages when ____ ____ ____ ____?

____ against service disruptions ____ ____?

Network ____ safeguards: ____ ____ measures?

Is there ____ ____ ____ ____ temporary disruptions during ____?

____ ____ measures ____ disruptions ____ you upgrade.

____ steps ____ ____ taken to prevent ____ ____ during upgrades?

____ ____ avoid ____ outages during ____?

Is ____ any way ____ prevent ____ loss during ____ ____?

____ best ____ ____ prevent upgrade ____?

The network is ____ upgraded, what ____ ____ ____ to prevent ____ ____?

There are any precautions ____ prevent ____ ____ ____ ____.

Plans ____ ____ ____ problems while ____ upgrade?

Is ____ possible to ____ ____ ____ ____ when ____ network upgrades?

When ____ ____ network, how ____ you ____ sure there ____ ____ disruptions?

How ____ ____ ____ network downtime when ____?

Should ____ be ____ precautions ____ against ____ disruptions ____ ____ upgrade?

____ on how ____ ____ network ____ while ____.

____ ____ you ____ ____ downtime during ____ upgrade?

____ should be taken to ____ ____ ____ ____ ____ interruptions during upgrades.

____ upgrades, ____ ____ being ____ to ____ downtime?

How can we ____ short-term ____ disruptions while ____ ____ ____?

_____ _____ avoid _____ _____ network improvements

Measures to ensure service _____ _____ _____ _____.

Are _____ _____ temporary problems _____ _____?

When _____ _____ do you _____ _____ downtime?

_____ _____ network _____ _____ can you assure me _____ _____ will _____ experience periods _____ signal?

_____ _____ _____ you can do to _____ no interruptions _____ _____ upgrade?

While _____ the network, what _____ _____ taken _____ _____ service _____.

A method _____ _____ _____ during _____ upgrade.

_____ can you do _____ _____ short _____ during network _____?

During _____ _____ any plans to _____ _____ _____ losses?

_____ will _____ make sure that the network _____ _____ _____ you _____ _____?

What is _____ _____ minimize _____ _____ a network _____?

Is _____ _____ plan to _____ _____ issues when _____?

Method _____ _____ interruptions during _____ _____?

_____ _____ _____ _____ make sure there are _____ disruptions during _____ projects.

_____ _____ _____ network _____ _____ a network upgrade?

_____ we able _____ _____ network downtime _____ _____?

The network is _____ upgraded _____ there _____ _____ in place _____ _____ _____ disruptions.

_____ _____ a _____ to _____ interruptions _____ upgraded?

_____ downtime during upgrades _____ do _____ _____ _____?

Are _____ precautions in place _____ _____ _____ _____ the system _____ _____ upgraded?

Are _____ _____ to make _____ _____ _____ no interruptions during _____ upgrade?

_____ _____ network downtime _____ _____ _____ you upgrade?

_____ _____ _____ _____ should _____ done to prevent downtime?

Is _____ _____ plan for network _____ while the _____ _____ _____?

What _____ _____ do to _____ network breakdowns _____ _____ _____ improvements?

There _____ measures in place _____ _____ _____ _____ _____ the network _____ upgraded.

_____ do you avoid _____ _____ _____?

Is it possible to _____ _____ disruptions _____ _____ the _____?

How _____ _____ _____ upgrade make sure there are _____ _____?

_____ precautions be in place _____ network _____ _____ _____ system _____ upgraded?

_____ there _____ _____ taken for _____ _____ while the system is _____ _____?

_____ there a _____ _____ prevent _____ disruptions _____ conducting _____ improvements?

During upgrades, should _____ _____ be _____ _____ prevent _____ loss?

_____ _____ network _____ _____ upgraded, how does it _____ disruptions?

Is _____ _____ way _____ beat _____ outages during _____?

What _____ do you _____ to _____ _____ from _____ screwed _____ during network _____?

How _____ _____ _____ network _____ during improvements?

Measures against _____ disruptions _____ _____ _____?

_____ _____ be done _____ _____ disruptions during _____ network upgrade?

When improving the _____ what _____ _____ _____ _____ _____ short-term disruptions?

_____ are _____ plans _____ prevent service _____ during _____ changes?

_____ improving _____ network is a plan _____ _____ _____.

_____ you _____ _____ short disruptions _____ network _____?

What should _____ _____ _____ _____ connection loss _____ the upgrade?

Can there _____ _____ _____ _____ temporary _____ losses during _____ upgrade?

_____ would _____ to _____ if I will not _____ _____ without _____ _____ the _____ undergoes _____.

Method against _____ disruptions _____ _____ _____?

_____ _____ you _____ disruptions during network _____?

_____ is _____ _____ plan _____ network improvements?

When improving our ____ ____ ____ you ____ ____ ____ short-term disruptions?

Are there measures ____ have ____ ____ to ensure ____ interruptions ____ ____?

____ there ____ contingency ____ for when the network ____ ____?

____ ____ ____ ____ ____ taken to prevent disruptions?

How ____ you avoid disruptions ____ ____ ____ your ____?

____ are ____ ____ ____ upgrade breaks.

____ ____ avoid downtime during ____ ____?

Do you have ____ ____ place ____ stay ____ ____ you ____?

What ____ should be ____ ____ prevent ____ loss ____ ____ upgrade?

____ ____ ____ you avoid ____ disruptions?

____ plans to ____ ____ losses ____ network ____?

____ ____ ____ changes being made to minimize ____ during ____ ____ process?

I would ____ to know if ____ ____ help prevent ____ ____ ____ ____ upgrades.

While improving ____ network ____ ____ are ____ ____ prevent temporary ____ failures?

____ against ____ ____ ____ you upgrade?

Efforts to ____ ____ while ____ ____?

How ____ prevent ____ ____ during ____ upgrade?

Measures ____ ____ ____ while upgrading?

____ are plans ____ stopping ____ ____ ____ upgrade.

____ ____ upgrade the network, how will ____ ____ ____ free ____ outages?

There are ____ to ____ interruptions ____ ____.
